(5) *General.* (i) A period of more than 24 hours between Reserve enlistments will be considered a break in service. Credit toward earning the award must begin anew after the break in service. For the purpose of computing credit, described in subdivision (iv) of this subparagraph, a period of active duty is not considered a break in service in the accrual of 4 continuous years of service.

(ii) Service performed in the Reserve components of the U.S. Army, Navy, Marine Corps, or Coast Guard may not be credited for award of the Air Reserve Forces Meritorious Service Ribbon.

(iii) Periods of service as a commissioned officer or warrant officer will be excluded from the computation of service for this award.

(iv) Except as indicated in this subdivision, service credit toward award of the ARFMSR ceases to accrue when a Reserve airman is called to active duty; simultaneously, the airman commences to accrue credit toward award of the AFGCM. If a period of active duty is not of sufficient length to permit award of the AFGCM, or OLC, such active duty will be considered as qualifying Reserve time, added to previously accrued Reserve credit, and used as part of the total accrual for award of the ARFMSR. Similarly, that portion of active duty performed during the same tour and after accrual of time for award of an AFGCM, or OLC (if not of sufficient length to establish entitlement to the next OLC to the AFGCM), may be considered as qualifying Reserve time, added to previously accrued Reserve credit, and used as a basis for award of the ARFMSR, or OLC.

NOTE: Any given award of the ARFMSR which is based in part on active duty time, may not be made until after the airman is released from active duty. All active duty service so credited must meet the quality requirements for this award.

(v) Orders awarding the ARFMSR may be issued after an airman is called to active duty or after he is appointed a commissioned officer or warrant officer, if he had sufficient time accrued toward the award prior to the occurrence of either of these changes of status. Termination of enlisted Reserve status by enlistment in the regular component or by appointment as a commissioned officer

or warrant officer cancels all accrued time of less than 4 years duration.

(c) *Effective date.* This award was established effective April 7, 1964. The basic ribbon (first award) may be awarded at any time after 1 year from this effectiveness date. For example, the first award may be made on or after April 1, 1965, based on the 4 continuous years of service immediately preceding the award date, which meets the established quality criteria contained in paragraph (b) (1) and (2) of this section.

(d) *Subsequent awards.* A bronze oak leaf cluster for each additional 4 years of qualifying service. A silver oak leaf cluster is worn in lieu of five bronze oak leaf clusters.

§ 882.72 USAF NCO Academy Graduate Ribbon.

(a) *Description.* The ribbon is predominantly red with a narrow white stripe near each edge and two blue stripes near the center.

(b) *Requirement for award.* Awarded to graduates of accredited Air Force Noncommissioned Officer Academies as explained in AFR 50–39 (Noncommissioned Officer Professional Military Education) and the annual Hq USAF NCO Academy accrediting letter. Graduates of USAF NCO Academy classes conducted before original publication of AFR 50–39 are authorized to wear the ribbon only if the major command which supervised the training determines that course standards were sufficiently high to merit award of the ribbon. Graduation from NCO leadership courses and similar training conducted by other military services does not qualify an individual for this award.

§ 882.73 Small Arms Expert Marksmanship Ribbon.

(a) *Description.* The ribbon has a green center with a wide blue stripe at each edge and two narrow yellow stripes separating the green and blue.

(b) *Requirement for award.* Awarded to Air Force personnel including Reserve component members whether or not on active duty who, after January 1, 1963, qualify as "expert" in small arms marksmanship on the weapons specified and in accordance with AFR 50–8 (Small Arms Marksmanship Training). By issuance of appropriate orders, the ribbon is awarded only once, regardless of the number of times an individual may qualify, and it may be permanently retained and worn by the qualifying individual. One copy of the order will be filed and retained in the unit personnel record group.

§ 882.74 Philippine Defense Ribbon.

(a) *Description.* A red ribbon divided by wide white bands and centering three white stars which form a triangle. The single star is worn uppermost.

(b) *Requirements for award.* Awarded for combat service in the defense of the Philippines from December 8, 1941, to June 15, 1942, if the individual:

(1) Was a member of the Bataan or Manila Bay forces, or of a unit, ship, or airplane under enemy attack; or

(2) Was assigned or stationed in Philippine territory or in Philippine waters for at least 30 days during the period cited in this paragraph.

(c) *Bronze service star.* A person who meets both conditions set forth in paragraph (b) of this section is authorized to wear a bronze service star on the ribbon.

§ 882.75 Philippine Liberation Ribbon.

(a) *Description.* A red ribbon with equal stripes of blue and white in the center. The blue stripe is worn to the wearer's right.

(b) *Requirements for award.* Awarded for participation in the liberation of the Philippines from October 17, 1944, to September 3, 1945, if the individual:

(1) Participated in the initial landing operations on Leyte or adjoining islands from October 17, 1944, to October 20, 1944. A person will be considered as having participated in such operations if he landed on Leyte or adjoining islands, was on a ship in Philippine waters, or was a crew member of an airplane which flew over Philippine territory during the period.

(2) Participated in any engagement against the enemy during the campaign on Leyte and adjoining islands. A person will be considered as having participated in such operations if he was a member of and present with a unit actually under enemy fire or air attack, served on a ship which was under enemy fire or air attack, or was a crew member in an airplane which was under enemy aerial or ground fire.

(3) Served in the Philippine Islands or ships in Philippine waters for not less than 30 days during the period cited in this paragraph.

(c) *Bronze service star.* Persons who meet more than one of the conditions set forth in paragraph (b) of this section are authorized to wear a bronze service star on the ribbon for each additional condition under which they qualify.

§ 882.76 Philippine Independence Ribbon.

(a) *Description.* A predominantly blue ribbon edged with yellow stripes and bearing red, white, and red stripes, in the order named, in the center.

(b) *Requirements for award.* Awarded to personnel who are recipients of both the Philippine Defense and Philippine Liberation ribbons.

NOTE: Personnel who were awarded the Philippine Independence Ribbon in accordance with the criteria formerly announced may continue to wear the award notwithstanding the change in requirement stated in paragraph (b) of this section.

§ 882.77 Authority for U.S. service awards.

Award—	*Established by—*
Air Force Good Conduct Medal (AFGCM).	Secretary of the AF, effective June 1, 1963, based on E.O. 10444, Apr. 10, 1953.
Good Conduct Medal (GCM).	E.O. 8809, June 28, 1941, as amended by E.O. 9928, Mar. 31, 1948, and E.O. 10444, Apr. 10, 1953.
American Defense Service Medal (ADSM).	E.O. 8808, June 28, 1941.
Women's Army Corps Service Medal (WACSM).	E.O. 9365, July 30, 1943.
American Campaign Medal (ACM).	E.O. 9265, Nov. 6, 1942, as amended by E.O. 9706, Mar. 15, 1946.
Asiatic-Pacific Campaign Medal (APCM).	E.O. 9265, Nov. 6, 1942, as amended by E.O. 9706, Mar. 15, 1946.
European - African - Middle East Campaign Medal (EAMECM).	E.O. 9265, Nov. 6, 1942, as amended by E.O. 9706, Mar. 15, 1946.
World War II Victory Medal (WWII VM).	P.L. 135, 79th Cong.
Army of Occupation Medal (AOM).	WDGO 32, 1946.
Medal for Humane Action (MHA).	P.L. 178, 81st Cong.
National Defense Service Medal (NDSM).	E.O. 10448, Apr. 22, 1953.
Korean Service Medal (KSM).	E.O. 10179, Nov. 6, 1950.
Antarctica Service Medal (ASM).	P.L. 86–600, 86th Cong.
Armed Forces Expeditionary Medal (AFEM).	E.O. 10977, Dec. 4, 1961.
Vietnam Service Medal (VSM).	E.O. 11231, July 8, 1965.
Air Force Longevity Service Award Ribbon (AFLSA).	DAFGO 60, Nov. 23, 1957.
Armed Forces Reserve Medal (AFRESM).	E.O. 10163, Sept. 28, 1950, as amended by E.O. 10439, Mar. 13, 1953.
Air Reserve Forces Meritorious Service Ribbon (ARFMSR).	Secretary of the Air Force, on Apr. 1, 1964.
USAF NCO Academy Graduate Ribbon (AFNCOAR).	Secretary of the Air Force, on Aug. 22, 1962.
Small Arms Expert Marksmanship Ribbon (SAEMR).	Secretary of the Air Force, on Aug. 22, 1962.
Philippine Defense Ribbon (PDR).	G.O. 8, Army Hq Commonwealth of the Philippines, 1944.
Philippine Liberation Ribbon (PLR).	G.O. 8, Army Hq Commonwealth of the Philippines, 1944.
Philippine Independence Ribbon (PIR).	G.O. 383, Army Hq Commonwealth of the Philippines, 1946.

Subpart F—Foreign Service Awards

§ 882.80 Policy.

Following is Air Force policy concerning the acceptance and wear of foreign service awards.

(a) *Acceptance unauthorized.* Except for the Republic of Vietnam Campaign Medal (see § 882.81), an officer or airman may not receive, accept, or make token acceptance of service awards tendered by foreign governments for services rendered while a member of the U.S. Air Force or its Reserve components.

NOTE: U.S. service awards are not tendered to foreign military personnel.

(b) *Retention of service awards earned as members of friendly foreign forces.* Foreign service awards earned while a bona fide member of the armed forces of a friendly country may be retained by the person, provided they were presented to him before his entry on duty with the Armed Forces of the United States.

(c) *Wear.* Foreign service awards earned and accepted as indicated in paragraph (b) of this section, may not be worn on the Air Force uniform unless authorized by the Department of the Air Force in each individual case.

NOTE: This does not preclude wear of foreign decorations and individual emblems of a foreign unit award as prescribed in AFM 35-10.

§ 882.81 Republic of Vietnam Campaign Medal (RVCM).

Based on Department of Defense Instruction 1348.17, June 20, 1966, and as a one-time exception to the policy stated in § 882.80, Air Force personnel proffered the RVCM by the Government of the Republic of Vietnam for service on or after March 1, 1961, and until a date to be announced, may accept and wear this service award. Awards of the RVCM based solely on service performed after December 31, 1959, but before March 1, 1961, will be processed in accordance with § 882.44.

(a) *Description.* A gold-plated medal, with two stars, one overlaid on the other, each star composed of six points. The points of the star above are white-enameled in relief with gold border. The points of the star underneath are carved in relief, gold plated, with many small brass angles directed toward the center of the medal. In the center a round frame with a gold border. The inside of the frame is green with the outline of the Vietnamese country of gold plated and a red flame with three rays upright in the center. On the reverse are the words VIET-NAM CAMPAIGN MEDAL. The ribbon is edged with green stripes, and alternates green and white stripes, with a white center. A rectangular, silver-plated metal device on the suspension ribbon denotes the period of war, i.e., "1960–____". A similar but smaller device with the last two digits of the inclusive years of the war, i.e., "60–__", is worn on the ribbon bar.

(b) *Requirements for award.* Awarded to Military personnel of the U.S. Armed Forces who during the period of January 1, 1960, and until a date to be announced.

(1) Serve for 6 months in South Vietnam during wartime; or

(2) Serve outside the geographic limits of South Vietnam and contribute direct combat support to the Republic of Vietnam Armed Forces for 6 months in their struggle against a hostile armed force. Only those members of the U.S. Armed Forces who meet the criteria established for the AFEM (Vietnam) or the VSM during the period of service required are considered to have contributed direct combat support to the Republic of Vietnam Armed Forces.

(3) Do not complete the length of service required in subparagraphs (1) or (2) of this paragraph but are wounded by a direct act of the hostile armed force, captured, but later rescued, or killed in action or in line of duty.

(c) *Procurement of award elements.* Award elements of the RVCM are not items of issue. Ribbon bars of prescribed dimensions for wear on the uniform and miniature and standard size medals with device are available through commercial sources in the United States, and may be purchased by individual recipients.

Subpart G—Non-U.S. Service Awards

§ 882.90 Authorized awards.

The non-U.S. service awards described in this subpart have been accepted for Presidential acceptance for the U.S. Armed Forces and are authorized for wear by eligible personnel. The guidance contained in §§ 882.50–882.54, with respect to U.S. service awards generally applies to non-U.S. service awards. This specifically relates to general eligibility criteria and verification of prior awards. Only one of each non-U.S. service award described in this subpart will be awarded to the same person. There is no device to denote additional awards.

§ 882.91 United Nations Service Medal (UNSM).

Established by the United Nations General Assembly Resolution 483(V), December 12, 1950. Presidential acceptance for the U.S. Armed Forces was announced in Department of Defense Directive 1348.3, November 27, 1951.

(a) *Description.* A metal disk, 1¼ inches in diameter. On the obverse is the emblem of the United Nations. On the reverse is the inscription "For Service In Defense Of The Principles Of The Charter Of The United Nations." The medal is suspended from a silk ribbon consisting of 17 stripes, nine of United Nations blue and eight of white, alternating, each stripe 0.08 inch wide. A bar bearing the word "Korea" constitutes a part of the suspension of the medal from the ribbon.

(b) *Requirements for award.* (1) Qualifications: Personnel must be:

(i) Members of the Armed Forces of the United States dispatched to Korea or adjacent areas of military operations specifically for service on behalf of the United Nations in the Korean Theater; or

(ii) Other personnel dispatched to Korea or adjacent areas as members of paramilitary and quasi-military units designated by the U.S. Government for service in support of the United Nations action in Korea and certified by the United Nations Commander-in-Chief as having directly supported the military operations in that area.

NOTE: Personnel awarded the Korean Service Medal automatically establish eligibility for the United Nations Service Medal.

(2) Service: The service must have been performed between June 27, 1950, and July 27, 1954, inclusive, under any of the following conditions:

(i) While on permanent assignment to any designated combat or service unit;

(ii) While attached to any designated combat or service unit for a period of 30 days, consecutive or nonconsecutive; or

(iii) While in active combat against the enemy under conditions other than those prescribed in subdivisions (i) and (ii) of this subparagraph, provided that the individual was awarded a combat decoration or furnished a certificate by the commander of a division, comparable or higher unit; commander of a ship, comparable or higher unit; or commander of an Air Force group, comparable or higher unit, stating that he actually participated in combat.

(c) *Persons ineligible for award.* Personnel of the United Nations, its specialized agencies, or of any government service other than as prescribed in paragraph (b) of this section and International Red Cross personnel engaged for service under the United Nations Commander-in-Chief with any United Nations relief team in Korea, will not be eligible for the award of the United Nations Service Medal.

§ 882.92 United Nations Medal (UNM).

Established by The Secretary General of the United Nations by Dispatch 109, July 30, 1959, and Regulations for the United Nations Medal, July 1959. Presidential acceptance for the U.S. Armed Forces was announced in Department of Defense Directive 1348.10, March 11, 1964.

(a) *Description.* A round metal disk, 1¼ inches in diameter. On the obverse is the emblem of the United Nations and the letters "U.N." On the reverse is the inscription "In The Service of Peace." The medal is suspended from a ribbon of United Nations blue with two single narrow white stripes one-fourth inch from each edge.

(b) *Requirements for award.* Military personnel who have been or are specifically identified by the United Nations as having performed qualifying service with one of the following organizations are eligible for an award of the medal:

(1) United Nations Observation Group in Lebanon.

(2) United Nations Truce Supervision Organization in Palestine.

(3) United Nations Military Observer Group in India and Pakistan.

(4) United Nations Security Forces, Hollandia.

(c) *Policy and procedures.* (1) Military personnel presently serving with any of the specified groups and those subsequently assigned will be awarded the United Nations Medal in the field by the Senior Representative of the Secretary General.

(2) The amount of service qualifying an individual for the award will be as designated by the Secretary General of the United Nations.

(3) Individuals with previous United Nations service with the specified groups who believe themselves eligible for the United Nations Medal may submit applications to USAFMPC (AFPMSAM), Randolph AFB, TX 78148. Each application should include complete details related to United Nations duty including geographical location and inclusive dates of service. Such applications will be referred to the United Nations for consideration and determination of eligibility.

Subpart H—U.S. Unit Awards

§ 882.100 Authority and authorized awards.

Authority to accept unit awards is vested in the Department of the Air Force (DAF), unless it specifically delegates the authority. United States unit awards described in this subpart are authorized for award to units of the U.S. Armed Forces and, in some instances, to military units of friendly foreign nations serving with U.S. Forces.

§ 882.101 Eligibility (general criteria) for unit award.

Unit awards are granted to military units which distinguish themselves during peacetime or in action against hostile forces or an armed enemy of the United States. When a unit award is made to an organization, component units of the organization may share the award and display the various award elements authorized. Higher organizations of which a recipient unit is a component are not entitled to share in the award.

(a) To preserve the integrity of unit awards:

(1) They are restricted to the recognition of acts of services which:

(i) Clearly and distinctly—by nature and magnitude—place the unit's performance significantly above that of other units of similar composition and mission responsibility.

(ii) Can be recognized appropriately in no other way.

(2) Only one is granted for the same act, achievement, or service. Another award may be given to the same unit for another act or achievement performed during the period it was decorated for meritorious service.

(b) *To be eligible for an award.* (1) The unit's entire service must have been honorable during or subsequent to the time of the distinguished act, achievement, or meritorious service.

(2) The unit must be part of the U.S. armed forces or a foreign military unit serving with U.S. forces.

(c) *To extend the award to unit personnel*—(1) *Military personnel.* A device such as a ribbon, fourragere, service star, or arrowhead (depending on the type of award) is worn on the uniform to denote individual's contribution to a cited unit's performance.

(2) *Civilian personnel.* Civilians serving with a cited unit may be awarded letters of commendation or appreciation for their part in furthering the unit's performance. Where appropriate, Air Force civilian employees also may be recognized under the Air Force Civilian Incentive Program.

§ 882.102 Elements of the award.

The elements of the award include:

(a) Streamer (embroidered, if appropriate, with the name of act or period of service).

(b) Citation (except for campaign and war service streamers).

(c) Certificate (for Air Force Outstanding Unit Award only).

(d) Special orders. (The awarding authority's special orders are not essential at the time of the ceremony, but may be furnished later.)

NOTE: When a second or subsequent award is presented to the same unit, a separate streamer will be used.

§ 882.103 Inheritance of unit awards.

The basis for the inheritance of unit awards is determined by the language of the order establishing the unit's status. The different terms are prescribed in AFM 26-2 (Organization Policy and Guidance). Inquiries concerning the inheritance of unit awards may be addressed to ASI (HS), Maxwell AFB, AL 36112.

(a) *Active and inactive units.* These units are entitled to the awards made to or due them, regardless of redesignation or reorganization. AFP 210-1-4 (Guide to Lineage and Unit History) explains the Air Force lineage and awards inheritance system and its relationship to the USAF Unit History Program.

(b) *Disbanded and discontinued units.* Except as stated in AFP 210-1-4, these units' awards may not be inherited by any unit on the active or inactive list. The awards will be preserved as a record of historical interest.

§ 882.104 Definitions.

For the purpose of this part, the following terms and explanations apply:

(a) *Unit.* A military unit or establishment as defined in AFP 210-1-4, Guide to Lineage and Unit History.

NOTE: Under unusual circumstances a detachment may be considered a unit, although it is an integral part of a unit as defined in AFP 210-1-4.

(b) *Unit award.* Special recognition of heroism, outstanding achievement, or meritorious service of a military unit.

(c) *Award elements.* Visible evidences of an award granted to a unit. These elements include special orders (or other documents), streamers, citations, emblems; and devices for wear by uniformed personnel.

(d) *Attached personnel.* Personnel who are attached to and serving with a unit and have contributed directly to the unit's accomplishments during the cited period.

§ 882.105 Distinguished Unit Citation (DUC) and Presidential Unit Citation (PUC).

Within the Air Force, this unit award was known as the DUC before 1965 and will be known as the PUC during and after 1965. It was established by Executive Order 9075, February 26, 1942, which was superseded by Executive Order 10694, January 10, 1957. The PUC is awarded by the President of the United States or, when delegated, by the Secretary of the Air Force.

(a) *Description of award elements*—(1) *Streamer.* A dark blue swallowtailed streamer with the name of the action embroidered in white. Authorized abbreviations may be used for lengthy names of actions. Each award of the DUC/PUC is represented by a separate streamer.

(2) *Individual emblem.* A dark blue ribbon of the same color as the streamer in subparagraph (1) of this paragraph, mounted within a rectangular gold wreath metal frame.

(b) *Awarded to.* Units of the Armed Forces of the United States and friendly foreign nations serving with the U.S. forces.

(c) *Awarded for.* Extraordinary heroism in actions occurring on or after December 7, 1941. The unit must have displayed such gallantry, determination, and esprit de corps in accomplishing its mission under extremely difficult and hazardous conditions as to set it apart and above other units participating in the same campaign. The degree of heroism required is the same as would warrant the award of an Air Force Cross to an individual. An extended period of combat duty or the participation in a large number of operational missions is not sufficient. Only on rare occasions will a unit higher than a wing qualify for this award.

(d) *Display and wear.*—(1) *Streamer.* The streamer is displayed immediately below the staff ornament of the flagstaff which carries the unit's flag or guidon (see AFM 900-2—Use and Display of AF Flags, Guidons, Streamers, and Automobile and Aircraft Plates).

(2) *Individual ribbon.* The individual ribbon and oak leaf clusters for additional awards (entitlements) are worn as indicated in subdivisions (i) and (ii) of this subparagraph and Subpart K of this part, respectively.

(i) Worn as a permanent part of the uniform by each individual assigned or attached to the unit at any time during the period of action cited, and who was present and participated in any of the action(s) for which the unit was cited. Entitlement of attached personnel, whether attached by verbal or written order, to wear the individual ribbon will be verified by the commander of the cited unit who will issue a letter confirming such entitlement. This letter will state the name of the individual, certify his entitlement, specify the designation of the cited unit to which the individual was attached, state the authority for the award (order number, date, and headquarters of issue), and indicate the inclusive dates of the award. The original of this letter will be filed in the individual's unit personnel records group and a copy provided the individual.

(ii) Worn as a temporary part of the uniform by each individual who is not entitled to permanently wear the ribbon (subdivision (i) of this subparagraph) because he was not present with the unit in the action cited, but is subsequently assigned to the unit. The temporary wear of the ribbon is optional, and it may be worn only for the duration of the individual's assignment to the unit.

NOTE: An individual entitled to permanently wear a ribbon representing a DUC/PUC awarded by the Air Force or Army, may temporarily add an oak leaf cluster to the ribbon when he is subsequently assigned to another cited unit. This temporary cluster may be worn only for the duration of the individual's assignment to the cited unit.

(3) *Wear of Air Force and Navy PUC ribbons.* Individuals entitled to the Navy PUC ribbon, which is different in design from the ribbon used by the Air Force and Army, may continue to wear such ribbon, although they also may be entitled to wear the individual ribbon (blue ribbon with gold wreath metal frame) representing award of the PUC to an Air Force unit during or after 1965. Persons entitled to the individual blue ribbon based on award of the DUC before 1965 will wear an oak leaf cluster thereon to denote any individual additional entitlement to the ribbon based on award of a PUC to an Air Force unit during or after 1965.

§ 882.106 Air Force Outstanding Unit Award (AFOUA).

The AFOUA was established by the Secretary of the Air Force, as announced in DAF General Orders 1, January 6, 1954, and is awarded by the Secretary of the Air Force. Except for Air National Guard units that are not an extended active duty, authority to disapprove recommendations for award of the AFOUA is delegated to major commanders. Such commanders will forward to the awarding authority only the recommendations of which they recommend approval, and will return all others to the recommending officials. A major air commander's submission of a recommendation to the awarding authority does not infer automatic approval.

(a) *Description*—(1) *Streamer.* A blue swallowtailed streamer with a narrow red band center bordered by white lines, and red bands at each edge separated from the blue by white lines. The name of the action, achievement, or the inclusive dates of the period of service are embroidered in white. Authorized abbreviations may be used for lengthy names of the action or achievement. Each award of the Air Force Outstanding Unit Award is represented by a separate streamer.

(2) *Individual ribbon.* A ribbon of the same color as the streamer described in subparagraph (1) of this paragraph, without the gold frame.

(3) *Certificate.* An engraved certificate bearing a replica of the ribbon, with the DAF Seal embossed on the certificate. The certificate identifies the unit decorated, and indicates the date(s) of the act or achievement, or the inclusive period of service for which the award was made. It is signed by the Secretary of the Air Force. The certificate is suitable for framing and display by the unit receiving the award. The awarding authority issues the certificate.

NOTE: The awarding of individual certificates to each person entitled to wear the ribbon was discontinued on May 8, 1964.

(4) *Citation.* A short narrative description of the act, achievement, or service for which award was made. The citation is read during the presentation ceremony, and may be framed for display with the certificate mentioned in subparagraph (3) of this paragraph.

(b) *Recognition of civilians*—Civilians are not authorized to receive or wear the ribbon mentioned in paragraph (a) (2) of this section. However, commanders are encouraged to recognize the contributions of civilians assigned or attached to a unit awarded the Air Force Outstanding Unit Award. Civilians may be awarded letters of commendation or appreciation, as applicable. Where appropriate, Air Force civilian employees also may be recognized under the Air Force Civilian Incentive Program.

(c) *Types of units to receive award.* The AFOUA is awarded only to units of the Armed Forces of the United States, including provisional units established in connection with emergency requirements or joint exercises and units of the Reserve components, which meet the requirements for the award as prescribed in paragraph (d) of this section. Only under most unusual circumstances will an organization above wing level receive this award. It will not be awarded to an organization above division level.

(d) *Awarded for.* Exceptionally meritorious service or exceptionally outstanding achievement which clearly sets the unit above and apart from similar units. Heroism may be involved, but it is not essential. The service or achievement may be in:

(1) Performance of exceptionally meritorious service of national or international significance.

(2) Accomplishment of a specific outstanding achievement of national or international significance. An outstanding achievement award is intended to recognize a single specific act or accomplishment that is separate and distinct from the normal mission or regular function of the unit. The period of an outstanding achievement is normally short and characterized by definite beginning and ending dates. The specific achievement must be sufficiently outstanding to be readily distinguishable from meritorious service and must clearly warrant immediate recognition. The award of a unit decoration in recognition of a single act of heroism or a single outstanding achievement does not necessarily preclude an award for meritorious service in accordance with subparagraph (1) of this paragraph. In such instance, and to avoid duplication, the previously recognized act or outstanding achievement cannot be included in the justification for the subsequent award;

(3) Combat operations against an armed enemy of the United States; or

(4) Military operations involving conflict with or exposure to hostile actions by an opposing foreign force.

(e) *Component units sharing in the Air Force Outstanding Unit Award.* (1) The recommending official will determine the component units to share in the award, on the basis of their contributions to the achievement or service rendered.

(2) The parent organization will consider its operationally detached units for the Air Force Outstanding Unit Award. In such cases, the host organization provides the evidence of exceptionally meritorious achievement or service to the parent organization for consideration, and for processing through its command channels. Operationally detached units will not share in the award of the Air Force Outstanding Unit Award to the host organization. This does not preclude the personnel concerned from sharing in the award of the Air Force Outstanding Unit Award to the host organization on an individual basis.

(3) Air Reserve and Air National Guard units not in active Federal service may share in awards as component units, provided their contributions to the service being recognized are adjudged to merit recognition.

(f) *Attached personnel sharing in the Air Force Outstanding Unit Award.* (1) Personnel on temporary duty with a unit may be permanently entitled to the individual ribbon of the AFOUA if they directly contribute to the mission and accomplishments of the cited unit. Entitlement of such personnel, whether attached by verbal or written order, to wear the individual ribbon will be verified by the commander of the cited unit who will issue a letter confirming such entitlement. This letter will state the name of the individual, certify his entitlement, specify the designation of the cited unit to which the individual was attached, state the authority for the award (order number, date, and headquarters of issue), and indicate the inclusive dates of the award. The original of this letter will be filed in the individual's unit personnel records group and a copy provided the individual.

(2) Personnel on temporary duty with a unit to perform inspection functions or for staff visit purposes may not be awarded the ribbon.

(3) The permanent party personnel (instructors, faculty staff, overhead, etc.) in a training or school unit which has been cited, will be permanently awarded the ribbon. Temporary duty or pipeline students may not be awarded the ribbon, because they have not directly contributed to the unit's mission accomplishments.

(4) Military members of the other Armed Forces of the U.S. who are attached to Air Force units awarded the Air Force Outstanding Unit Award may share in the award, provided their contributions to the recognized service merit this recognition.

(g) *Display and wear.* Same as for Distinguished Unit Citation. (See § 882.105(d)).

§ 882.107 Other U.S. unit awards.

(a) *Army and Navy unit decorations.* Army and Navy unit decorations generally are similar to Air Force unit awards and may be accepted by Air Force units if advance DAF approval is obtained.

(1) Army unit decorations: The Army currently awards the Distinguished Unit Citation, the Valorous Unit Award, and the Meritorious Unit Commendation. The Army and Air Force jointly use the same streamer for the DUC and PUC. Both services also jointly use the same individual ribbon, except the gold wreath frame on the Air Force emblem is smaller than the frame used on the Army emblem (see AFM 35-10).

(2) Navy unit decorations: The Navy currently awards the PUC and the Navy Unit Commendation. The Navy Presidential Unit Citation emblem consists of a distinctive ribbon without the gold wreath frame.

(b) *Who may wear.* Members of cited Air Force units and those who, while Army or Navy members, received a unit decoration which they were entitled to wear permanently. They may wear the appropriate award device on the Air Force uniform (see AFM 35–10).

§ 882.108 War Service Streamers.

(a) *Description.* These streamers are unembroidered swallowtailed ribbons of the same design as the service ribbons awarded to individuals for service in designated campaign areas or theaters of operations. Examples: The American Theater, European-African-Middle Eastern Theater and Asiatic-Pacific Theater during World War II, and the military campaign in Korea.

(b) *Eligibility.* A unit's eligibility for a war service streamer is the same as prescribed for the award of the corresponding service medal (American Campaign Medal; European-African-Middle Eastern Campaign Medal; Asiatic-Pacific Campaign Medal; Korean Service Medal) to an individual (see Subpart E of this part).

(c) *Display.* War Service Streamers are carried on the organizational flag staff or guidon by units which have served in a theater or area of operations but which have not received campaign participation credit (see § 882.109).

§ 882.109 Campaign and expeditionary streamers.

(a) *Description.* These are embroidered streamers of the same design as the war service streamers described in § 882.108. They represent the unit's participation in a campaign, assault landing, or an expedition. (NOTE: The expedition must be a designated military operation for which the AFEM is awarded and must have occurred after July 1, 1958, and be designated by the Joint Chiefs of Staff, authorized by the Department of Defense, and announced in an Air Force directive.) These streamers are comparable to service stars and arrowheads on certain service ribbons which represent the individual's participation in a campaign, assault landing, or a designated operation for which the AFEM is authorized. When a unit is awarded campaign participation credit or authorized an AFEM streamer, the name of the campaign or AFEM operation (§ 882.67(g)) is embroidered on the streamer, thus making it a campaign or expeditionary streamer. The arrowhead device, when awarded, is embroidered on the streamer preceding the name of the campaign. Only one arrowhead may be embroidered on a given campaign streamer, regardless of the number of assault landings which were credited to a unit during that campaign. Also, only one campaign name may be embroidered on a streamer. Successive campaigns in the same theater or different designated operations for the AFEM are embroidered on separate streamers. Units that participated in the Vietnam operation will display the VSM streamer for such service, not the AFEM.

(b) *Embroidery of streamers.* Streamers are embroidered at the supply source (see AFM 67–1). Each requisition must indicate the appropriate inscription to be embroidered on the streamer. Attachment 3 to AFM 900–2 contains a list of campaigns (by name and period) in which the Air Force has participated since the first action involving the use of manned aircraft in 1916. Section 882.67(g) lists the designated operations for the AFEM streamer. These names and dates will be used for embroidering campaign streamers (name only for the AFEM streamer) to be displayed by Air Force units. Existing streamers will not be changed to conform to the names shown in AFM 900–2.

(c) *Who may award.* DAF or a designated subordinate command. When a unit is cited in orders or AFP 900–1–2 for its participation in a campaign or operation, it automatically is entitled to have the appropriate embroidery placed on the streamer.

§ 882.109a Infantry streamers, silver bands, etc.

The Air Force does not award devices similar to infantry streamers and campaign silver bands. Air Force units will display the appropriate campaign streamer in place of silver bands awarded to them by the War Department for campaign participation. Units which have been awarded any other such devices may continue to display them as prescribed by the awarding authority.

Subpart I—Foreign Unit Awards

§ 882.110 Requirements for acceptance.

(a) *When authorized.* Foreign unit decorations may be accepted only if:

(1) The decoration is tendered by a friendly foreign nation for heroism in action or exceptionally meritorious service in direct support of combat operations;

(2) The decoration is one which is conferred by that government upon units of its own armed forces;

(3) The unit is cited by name in orders or other documents issued by that government.

NOTE: The solicitation of foreign unit decorations by individuals or units within the Air Force is prohibited.

(b) *When not authorized.* Foreign awards denoting participation in campaigns, battles, or engagements are similar to service medals and may not be accepted by Air Force units.

§ 882.111 Foreign unit awards previously accepted.

(a) Croix de Guerre (World Wars I and II). Awarded by a French Government decree, which listed the cited units and described the achievement or service for which the award was made. Awards were confirmed in Army general orders. (See AFP 900–1–2.)

(1) *Award to unit.* A red and green swallowtailed streamer with the name of the action or theater of operations embroidered in golden yellow. World Wars I and II streamers have the same colors. However, the red and green stripes are arranged differently for each war.

(2) *Award to individual.* A fourragere, consisting of a single cord braided and knotted, with a loop at the shoulder and a ferrule of metal at the free end. The colors of the fourragere are green and red for both World Wars I and II. The award of the fourragere was not automatic. It required specific decree of the French Government. This decree was issued only when the unit was cited twice for the Croix de Guerre.

(3) *Display and wear.* (i) By unit—The streamer is displayed below the staff ornament of the flagstaff which carries the unit's flag or guidon. The fourragere (see subpar. (2) of this paragraph), if authorized, also may be attached to the flag or guidon (see illustration in AFM 900–2).

(ii) By individual—(See AFM 35–10 for wear instructions.) Each individual who was assigned and present for duty with a unit during both of the actions for which a fourragere was awarded may wear it as a permanent part of the uniform. Each individual who was not present with the unit in both actions cited, but was subsequently assigned to the unit, may wear it as a temporary part of the uniform during his assignment to the unit.

(b) *Citation in the Order of the Day of the Belgian Army (World War II).* Awarded by Belgian Government decree which listed the cited units and described the achievement or service for which the award was made. Awards were confirmed in Army general orders. (See AFP 900–1–2.)

(1) *Award to unit.* A streamer is not authorized to denote award of the Belgian Unit Citation. However, if the unit cited specified award of the Belgian Fourragere (see subpar. (2) of this paragraph), it may be displayed on the unit flag or guidon.

(2) *Award to individual.* Similar to the French fourragere, except that the colors of the fourragere are red and green. The award required a specific decree of the Belgian Government. This decree was issued only when the unit was cited twice in the Order of the Day of the Belgian Army.

(3) *Display and wear.* (i) By unit—The fourragere is displayed below the staff ornament of the flagstaff which carries the unit's flag or guidon.

(ii) By individual—(See AFM 35–10 for wear instructions.) Each individual who was assigned and present for duty with a unit, during both of the actions for which a fourragere was awarded, may wear the fourragere as a permanent part of the uniform. It is not authorized for temporary wear.

(c) *Philippine Republic Presidential Unit Citation (World War II).* This citation was established to recognize the achievements of units serving in the Philippines from December 7, 1941, to May 10, 1942, and from October 17, 1944, to July 4, 1945 (dates inclusive). (See AFP 900–1–2.)

(1) *Award to unit.* A blue, white, and red streamer, with golden yellow embroidered letters. Only the dates of participation for which the award was made, December 7, 1941, to May 10, 1942, and/or October 17, 1944, to July 4, 1945, are embroidered on the streamer.

(2) *Award to individual.* A ribbon, same colors as in subparagraph (1) of this paragraph, within a rectangular gold wreath frame.

(3) *Display and wear.* (i) By unit—The streamer is displayed below the staff ornament of the flagstaff which carries the unit's flag or guidon.

(ii) By individual—(See AFM 35–10 for instructions for wear.) Each individual who was assigned to and present for duty with a unit, at any time during the period for which the unit was cited, may wear the emblem as a permanent part of the uniform. It may not be worn by personnel later assigned to the cited unit. An individual will wear only one such emblem, without cluster, regardless of the number of times that he may qualify for the award. The blue of the emblem is worn to the wearer's right.

(d) *Republic of Korea Presidential Unit Citation (Korean Conflict).* This citation was awarded by the President of the Republic of Korea to recognize the achievements of units serving in the Korean military operations. (See AFP 900–1–2.)

(1) *Award to unit.* A white streamer trimmed with green and alternating red and white stripes. The red and blue symbol of the Republic of Korea is centered on the streamer, 5 inches from the hoist, with the red to the top and blue to the bottom. The action or period of service is embroidered in blue.

(2) *Award to individual.* A ribbon, colors and symbol as in subparagraph (1) of this paragraph, within a rectangular gold wreath frame.

(3) *Display and wear.* (i) By unit—The streamer is displayed below the staff ornament of the flagstaff which carries the unit's flag or guidon.

(ii) By individual—Same as for paragraph (c)(3)(ii) of this section. The emblem is worn with the red portion of the symbol uppermost.

Subpart J—Special Badges

§ 882.120 Presidential Service Badge and Certificate.

The Presidential Service Badge and the Presidential Service Certificate were established by Executive Order 11174, September 1, 1964. This award replaces the White House Service Badge and Certificate established by Executive Order 10879, June 1, 1960.

(a) *Description of award.*—(1) *Presidential Service Certificate.* This certificate bears replicas of the Presidential Service Badge and the Presidential Coat of Arms. It is signed by the Military Aide (or Service aide, if more than one) to the President and the Service Secretary.

(2) *Presidential Service Badge.* A round badge bearing a superimposed replica of the Presidential Coat of Arms.

(b) *Requirements for award.* Awarded by direction of the President to Armed Forces personnel assigned to duty at the White House for at least 1 year after January 20, 1961, as recognition—in a permanent way—of their contribution in the service of the President. Time spent in one of the eligible White House activities awaiting proper clearance may not be counted toward the 1 year minimum. Other conditions of award are as follows:

(1) The individual (formerly, currently or subsequently on duty at the White House) must be recommended for the award by the Military Aide to the President (or a Service aide).

(2) Only one Presidential Service Badge is awarded to an individual regardless of the number of certificates he receives. Subsequent Administrations may award additional certificates (but not badges) to him.

(3) The individual's removal from Presidential service for cause, which occurs after he has been awarded the certificate and badge, is grounds for the recall of the award elements.

(4) The certificate and badge may be awarded posthumously.

(c) *Responsibilities of award recipients.* Each recipient is required to sign a receipt for his certificate and badge, which will be serially numbered. The Presidential Service Badge, once earned, becomes a permanent part of the recipient's uniform, and may be worn after he leaves Presidential service. (See AFM 35–10 for instructions on wearing the badge on the uniform.) He may purchase (from commercial sources) miniature lapel pins, suitable for wear with civilian clothes.

NOTE: Holders of White House Service Badges may retain, but may not wear them.

§ 882.121 Combat Crew Member Badge.

Established by the Department of the Air Force, effective September 1, 1964.

(a) *Description.* A rectangular metal badge of oxidized sterling silver, measuring 3 x ¾ inches, and bearing the Air Force Coat of Arms (with the shield's background in ultramarine blue enamel) and the words "Combat Crew."

(b) *Criteria for wear.* The Combat Crew Member Badge may be worn only by an aircraft or missile launch crew member who either:

(1) Is assigned to a USAF operational unit subject to the Combat Readiness Rating System under the provisions of AFM 55–11; and

(i) Has been certified as combat ready (according to USAF and major command qualification criteria); and

(ii) Is currently serving in an aircraft or missile launch crew position as a combat crew member; or

(2) Is assigned to a USAF operational unit which is participating in flying operations in Southeast Asia, and is currently serving as a combat-ready aircrew member in that unit, participating in operations over an area where armed opposition is expected.

§ 882.122 Office of the Secretary of Defense Identification Badge.

(a) *Description.* The badge shows the eagle, shield, and arrows from the seal of the Department of Defense, against the background of rays encircled with stars and a wreath.

(b) *Requirement for wear.* This badge is worn by military personnel who have been issued a certificate of eligibility after they have been assigned to duty in an authorized position charged against the OSD personnel ceiling and have served not less than 1 year, after January 13, 1961, in the Office of the Secretary of Defense at the seat of government. Individuals holding a certificate of eligibility for wearing the badge earned before January 13, 1961, may continue to wear the badge. Personnel authorized to wear the badge may continue to wear it following reassignment from duty with the Office of the Secretary of Defense.

§ 882.123 Joint Chiefs of Staff Identification Badge.

(a) *Description.* The badge consists of an oval silver metal wreath of laurel containing the shield of the United States superimposed on four gold metal unsheathed swords. The blades and grips of the swords are entwined with a gold metal scroll surrounding the shield with the word JOINT at the top of the words CHIEFS OF STAFF at the bottom, all in blue enamel letters.

(b) *Requirement for wear.* This badge is worn by military personnel who have been issued a certificate of eligibility after they have been assigned to duty and have served not less than 1 year, after January 14, 1961, in the Organization of the Joint Chiefs of Staff. Personnel must be serving in a position of responsibility under the direct cognizance of the Joint Chiefs of Staff which requires, as a primary duty, the creation, development, or coordination of policies, principles, or concepts pertaining to a primary function. Personnel are authorized to wear it following reassignment from duty with the Joint Chiefs of Staff.

Subpart K—Devices

§ 882.130 General.

As used in this part, the term device includes but is not limited to, ribbon bars, lapel buttons, rosettes, oak leaf clusters, stars, arrowheads, and similar appurtenances used in the decorations, awards, and recognition program of the Air Force. AFM 35–10 describes the proper placement and wear of devices described in this subpart.

§ 882.131 Ribbon bar.

The ribbon bar is a metallic strip which is covered with ribbon. The design and color of the ribbon is identical with the suspension ribbon of the medal (decoration or service), or the unit award streamer it represents, as described in other subparts of this part. The ribbon bar is 1⅜ inches long by ⅜-inch wide and it may be equipped with an attaching device.

§ 882.133 Oak leaf clusters.

Oak leaf clusters are issued in two sizes—large and small—and in two colors—bronze and silver. The large size is worn on the suspension ribbon of the medal and the small size on the ribbon bar. A bronze oak leaf cluster is used for the second through the fifth, seventh through tenth, etc., entitlement or award. A silver oak leaf cluster is used for the sixth, eleventh, etc., entitlement or award, or in lieu of five bronze oak leaf clusters. The oak leaf cluster is worn on the pendant ribbon and ribbon bar of all U.S. military decorations and on the ribbon bar of the Air Force Good Conduct Medal, Air Force Longevity Service Award Ribbon, Air Reserve Forces Meritorious Service Ribbon, Distinguished Unit Citation, Presidential Unit Citation, and the Air Force Outstanding Unit Award.

§ 882.133 Service stars.

The service star is a bronze or silver five-pointed star of 3/16-inch diameter. A silver service star is worn in lieu of five bronze service stars. The service star is worn:

(a) On the service ribbon of the American Defense Service Medal to denote possession of the Foreign Service Clasp.

(b) On the service and suspension ribbons of the American Campaign, Asiatic-Pacific Campaign, European-African-Middle Eastern Campaign, and Korean Service Medals to denote campaign participation credit. (See AFP 900–1–2.)

(c) On the Philippine Defense and Liberation Ribbons to denote additional honors.

(d) On the service and suspension ribbon of the Armed Forces Expeditionary Medal to denote participation in more than one operation.

§ 882.134 Arrowheads.

(a) *Description and requirements for award.* The arrowhead, a bronze replica of an Indian arrowhead, one-fourth inch in height and one-eighth inch in width, is awarded to denote participation in a combat parachute jump, combat glider landing, or amphibious assault landing. The combat glider landing or parachute jump must have been made as an assigned or attached member of an organized force carrying out an assigned tactical mission. (An emergency combat parachute jump into enemy-held territory does not constitute eligibility for award of the arrowhead.) Units entitled to this award are designated in AFP 900–1–2.

(b) *How worn.* The arrowhead is worn on both the service and suspension ribbons of the Asiatic-Pacific Campaign Medal, European-African-Middle Eastern Campaign Medal, and the Korean Service Medal, point up, in a vertical position to the wearer's right of all service stars. Only one arrowhead will be worn on any one service or suspension ribbon, regardless of the number of times a person becomes eligible for the device.

§ 882.135 Clasps.

Clasps are authorized for wear on the Good Conduct Medal, American Defense Service Medal, Army of Occupation Medal, and Antarctica Service Medal.

(a) *Good Conduct Medal clasp.* A bar, one-eighth inch wide and 1¾-inches long, of bronze, silver, or gold, with loops, indicative of subsequent awards. It is worn on both the service ribbon and suspension ribbon of the medal itself. Clasps authorized for successive periods of service are as follows:

Successive periods of service	*Type of clasp*
3d	Bronze, 2 loops.
3d	Bronze, 3 loops.
4th	Bronze, 4 loops.
5th	Bronze, 5 loops.
6th	Silver, 1 loop.
7th	Silver, 2 loops.
8th	Silver, 3 loops.
9th	Silver, 4 loops.
10th	Silver, 5 loops.
11th	Gold, 1 loop.
12th	Gold, 2 loops.
13th	Gold, 3 loops.
14th	Gold, 4 loops.
15th	Gold, 5 loops.

(b) *American Defense Service Medal clasp.* A bronze bar, ⅛-inch wide and 1½-inches long; bearing the words "Foreign Service." It is worn only on the suspension ribbon of the medal. A bronze service star is worn on the service ribbon to denote award of the foreign service clasp.

(c) *Army of Occupation Medal clasp.* A bronze bar, ⅛-inch wide and 1⅛-inches long, bearing the word "Germany" or "Japan." It is awarded to differentiate service in the various occupation areas during World War II.

(1) *Areas represented by clasps.* (i) Germany clasp—Represents service with the U.S. occupation forces in Germany, Italy, or Austria.

(ii) Japan clasp—Represents service with the U.S. occupation forces in Japan or Korea.

(2) *How worn.* The clasp is worn only on the suspension ribbon of the Army of Occupation Medal. There is no device worn on the service ribbon to denote possession of the clasp.

(d) *Antarctica Service Medal clasp.* A bronze, gold, or silver bar, ¼-inch wide and 1¼-inches long; bearing the words "Wintered Over." It is worn only on the suspension ribbon of the medal. The clasp is authorized for personnel who stay on the Antarctic continent during the winter months; the bronze clasp represents the first winter over, the gold clasp the second winter, and the silver clasp the third and subsequent winters. Not more than one clasp may be worn on the suspension ribbon. See § 882.139 for description of disc for wear on service ribbon bar.

§ 882.136 Berlin Airlift Device.

The Berlin Airlift Device is a gold-colored metal miniature of a C–54 aircraft of ⅜-inch wing span, other dimensions proportionate. It is worn on both the service and suspension ribbons of the Army of Occupation Medal, with the nose of the aircraft pointed upward at a 30° angle and toward the wearer's right shoulder. The Berlin Airlift Device is awarded for service for 90 or more consecutive days between June 26, 1948, and September 30, 1949, while assigned or attached to a unit designated in orders of the Department of the Air Force (see AFP 900–1–2) for participation in the Berlin Airlift.

§ 882.137 Hour-Glass Device.

This device is an hour-glass with a Roman numeral "X" superimposed thereon, of bronze, five-sixteenths inch in height. It is worn centered on both the service and suspension ribbons of the Armed Forces Reserve Medal. One hour-glass device may be worn to denote service for each additional 10-year period served under the same conditions as prescribed for award of the basic Armed Forces Reserve Medal.

§ 882.138 The "V" (Valor) Device.

This device is a metallic, bronze, letter "V" which represents valor. It is worn on the pendant ribbon and ribbon bar of the BSM and JSCM when the former is awarded for heroism and the latter is awarded for acts or services involving direct participation in combat operations.

§ 882.139 Other service devices.

(a) *Oversea chevrons and bars.* The service devices listed in this section are authorized for optional wear by qualified personnel. The manner in which they are worn on the uniform is described in AFR 35–10.

(1) Oversea chevrons are authorized for each 6 months of oversea duty in a theater of operations during World War I.

(2) Oversea bars are authorized for each 6 months of duty outside the continental United States during World War II between December 7, 1941, and September 2, 1946, inclusive. Fractional parts of a 6-month period will not be accredited toward another bar.

(b) *Disc for ribbon bar of the Antarctica Service Medal.* A bronze, gold, or silver disc, five-sixteenths inch in diameter, with an outline of the Antarctic continent inscribed thereon, is authorized for wear on the service ribbon bar of the Antarctic Service Medal. These discs denote winter service in the Antarctic corresponding to the service defined in § 882.135(d) for the Antarctica Service Medal clasp. Not more than one disc may be worn on the ribbon bar.

(c) *Fourragere.* A fourragere consists of a single cord braided and knotted with a loop at the shoulder and a ferrule of metal at the free end. It is authorized for wear as the individual emblem representing the foreign unit award of the "Croix de Guerre", awarded by the French government, and the "Citation in the Order of the Day by the Belgian Army", awarded by the Belgium government (see Subpart I of this part).

§ 882.140 Gold Star Lapel Button.

This lapel button is made up of a gold star one-fourth inch in diameter mounted on a purple disc three-fourths inch in diameter. The star is surrounded by gold laurel leaves in a wreath five-eighths inch in diameter. The opposite side bears the inscription, "United States of America, Act of Congress, August 1947", and has space for engraving the recipient's initials. It has either a pin or clutch type fastening device. A forthcoming reproduction of the Gold Star Lapel Button will be identical except that the year on the reverse side will be 1966. The initial supply of the buttons will be used until exhausted.

(a) *Eligibility.* The Gold Star Lapel Button is distributed to widows, widowers (remarried or not), each parent (mother, father, stepmother, stepfather, mother through adoption, father through adoption, and foster parents who stood in loco *parentis*), each child, brother, sister, half-brother, half-sister, step-child, and adopted child, of members of the U.S. Armed Forces who lost their lives in the armed services of the United States during World War I (Apr. 6, 1917, to Mar. 3, 1921); World War II (Sept. 8, 1939, to July 25, 1947 at 12 o'clock noon); or during any subsequent period of armed hostilities in which the United States was engaged before July 1, 1958 (Korean Conflict June 27, 1950, to July 27, 1954); or who lose or lost their lives after June 30, 1958, while engaged in an action against an enemy of the United States; while engaged in military operations involving conflict with an opposing foreign force; or while serving with friendly foreign forces engaged in an armed conflict in which the United States is not a belligerent party against an opposing armed force. These buttons are furnished without cost.

(b) *Replacements.* Gold Star Lapel Buttons lost, destroyed, or made unfit for use through no fault or neglect of the persons to whom they were furnished may be replaced at cost.

(c) *Source of supply.* Gold Star Lapel Buttons, either initial issue or replacements, may be obtained by writing to MPRC, 9700 Page Boulevard, St. Louis MO 63132.

(d) *Penalty for fraudulent use.* The law specifies that: "Whoever shall (1) wear, display on his person, or otherwise use as an insignia, any Gold Star Lapel Button issued to another person under the provisions of the law; (2) falsely make, forge, or counterfeit, or cause or procure to be falsely made, forged, or counterfeited, or aid in falsely making, forging, or counterfeiting any lapel button authorized by law; or (3) sell or bring into the United States, or any place subject to the jurisdiction thereof, from any foreign place, or have in his possession any such false, forged, or counterfeited lapel buttons, shall be fined not more than $1,000 or imprisoned not more than 2 years, or both."

§ 882.141 Other lapel buttons.

The authorized lapel buttons are listed in this section. They may be worn only with civilian clothes.

(a) *Good Conduct Medal, American Defense Service Medal lapel buttons, and lapel buttons for all U.S. military decorations, except the Medal of Honor.* These lapel buttons are 2½₂-inch wide and ⅛-inch long and are in colored enamel, being a reproduction of the service ribbon.

(b) *World War II Honorable Service Lapel Button.* This button is of gold-colored metal, bearing an eagle on a ring around 13 stripes. It is awarded for honorable Federal military service between September 8, 1939, and December 31, 1946.

(c) *Air Force Lapel Button.* The Air Force Lapel Button consists of the winged Air Force star in gold- and silver-colored metal. All members of the Air Force on active duty; members of the Reserve components, including members of the Air Force Reserve Officers' Training Corps; and personnel carried on Air Force retired lists are entitled to wear the lapel button.

By Order of the Secretary of the Air Force.

LUCIAN M. FERGUSON,
Colonel, USAF Chief, Special Activities Group Office of The Judge Advocate General.

Title 42—PUBLIC HEALTH

Chapter I—Public Health Service, Department of Health, Education, and Welfare

SUBCHAPTER D—GRANTS

PART 53—GRANTS FOR CONSTRUCTION AND MODERNIZATION OF HOSPITALS AND MEDICAL FACILITIES

PART 54—GRANTS FOR SPECIALIZED SERVICE FACILITIES

PART 57—GRANTS FOR CONSTRUCTION OF HEALTH RESEARCH FACILITIES (INCLUDING MENTAL RETARDATION RESEARCH FACILITIES), TEACHING FACILITIES, STUDENT LOANS, EDUCATIONAL IMPROVEMENT AND SCHOLARSHIPS

PART 59a—NATIONAL LIBRARY OF MEDICINE GRANTS

Construction Grant Payments

Notice of proposed rule making, public rule making procedures, and delay in effective date have been omitted as unnecessary in the issuance of the following amendments to Parts 53, 54, 57, and 59a of Title 42, which amendments relate solely to grants for construction programs. The purpose of these amendments is to delete from the Public Health Service construction grant regulations all installment payment schedules and requirements.

These amendments shall become effective upon publication in the FEDERAL REGISTER.

Subchapter D of Chapter I of Title 42 is amended as follows:

1. In Part 53, subparagraphs (1) and (2) of paragraph (a) of § 53.130 are deleted.

2. In Part 54, § 54.5 is deleted, and subparagraphs (1) and (2) of paragraph (a) of § 54.115 and subparagraphs (1) and (2) of paragraph (a) of § 54.208 are deleted.

3. In Part 57, §§ 57.9, 57.108, and 57.408 are deleted.

4. In Part 59a, § 59a.8 is deleted.

(Sec. 215 of the PHS Act, 58 Stat. 690, 42 U.S.C. 216, Rev. Stat. § 161, 5 U.S.C. 22)

Dated: August 2, 1967.

[SEAL] WILLIAM H. STEWART,
Surgeon General.

Approved: August 11, 1967.

WILBUR J. COHEN,
Acting Secretary.

Chapter II—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 4361]

[AA–653]

ALASKA

Exclusion of Land From Chugach National Forest

By virtue of the authority vested in the President by section 1 of the act of June 4, 1877 (30 Stat. 34, 36; 16 U.S.C. 473) and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

The following described tract of land, occupied as a homesite, is hereby excluded from the Chugach National Forest and restored, subject to valid existing rights, for purchase as a homesite under section 10 of the act of May 14, 1898 (30 Stat. 413; 48 U.S.C. 461), as amended:

Homesite No. 192, Eyak Lake Section, Cordova Highway, Lot 3, U.S. Survey 4606.

Containing 0.52 acre.

HARRY R. ANDERSON,
Assistant Secretary of the Interior.

AUGUST 11, 1967.

MONTANA

Partial Revocation of Reclamation Project Withdrawals

By virtue of the authority contained in section 3 of the act of June 17, 1902 (32 Stat. 388; 43 U.S.C. 416), as amended and supplemented, it is ordered as follows:

1. The orders of the Bureau of Reclamation dated May 21, 1906, withdrawing lands for the Huntley Project, Montana, and February 16, 1909, withdrawing lands for the Yellowstone Project, are hereby revoked so far as they affect the following described land:

PRINCIPAL MERIDIAN

T. 2 N., R. 27 E.,
Sec. 36, SE¼NW¼.

The area described contains 40 acres in Yellowstone County.

2. Title to the lands revests in the Crow Indian Tribe pursuant to the act of May 19, 1958 (72 Stat. 121).

HARRY R. ANDERSON,
Assistant Secretary of the Interior.

AUGUST 11, 1957.

NEW MEXICO

Withdrawal for Protection of Experimental Areas and Scientific Studies

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described lands conveyed to the State of New Mexico by the act of March 2, 1927 (44 Stat. 1294) with mineral reservation, are hereby withdrawn from appropriation under the mining laws (30 U.S.C., Ch. 2), but not from leasing under the mineral leasing laws, in aid of programs of the New Mexico State University:

[Public Land Order 4264]

[New Mexico 0557886]

OKLAHOMA

Transfer of Jurisdiction Over Oil and Gas Deposits, Vance Air Force Base

Whereas, the hereinafter described acquired lands comprising a portion of Vance Air Force Base, are reported to be subject to drainage of their oil and gas deposits by wells on adjacent lands in private ownership; and

Whereas, it is in the public interest that such protective action be taken as will prevent loss to the United States by reason of drainage or threatened drainage from the said lands; and

Whereas, in order to facilitate such action, it is considered advisable that jurisdiction over the oil, gas, and other mineral deposits in such lands be transferred from the Department of the Air Force to the Department of the Interior; and

Whereas, such transfer has the concurrence of the Secretary of the Air Force;

Now, therefore, by virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. The jurisdiction over all mineral deposits (including oil and gas and constituents thereof, and all gaseous substances, including helium), owned by the United States in the following described lands comprising a portion of Vance Air Force Base, Okla., is hereby transferred from the Department of the Air Force to the Department of the Interior:

INDIAN MERIDIAN

T. 22 N., R. 7 W.,
Sec. 25, a strip of land 60 feet wide and 1,840 feet long, more particularly described as follows: Beginning at a point 1,078.84 feet east of the southwest corner of sec. 25, as the south end or point of the centerline; thence in a northeasterly direction from said point and at an angle of 73°17'40", a distance of 1,840 feet, and said strip being 30 feet on each side of said centerline, or a width of 60 feet;
Sec. 35, all;
Sec. 36, W½, and that part of the SE¼ lying west of the Chicago, Rock Island and Pacific Railroad, and a strip of land 50 feet in width over and across a portion of the NE¼ being 25 feet on each side of the centerline of a spur track to be located thereon, said centerline entering said subdivision at a point 640.62 feet south of the northwest corner of the NE¼ of said section; thence eastward 1,200 feet, more or less, then northeasterly on a 10° curve for a distance of 480 feet, more or less, to the west right-of-way line of the Chicago, Rock Island and Pacific Railway Co.

The areas described aggregate 994.36 acres, more or less.

2. The Secretary of the Interior shall take such action as may be necessary to protect the United States from loss on account of drainage or threatened drainage of oil and gas and their constituents and any gaseous substances (including helium), from such lands.

3. The jurisdiction of the Department of the Interior over such lands shall be limited only by the primary jurisdiction of the Department of the Air Force over the lands for military purposes.

4. The jurisdiction of the Department of the Interior over such mineral deposits shall continue until revocation of this order, and no action which may be taken by the Department of the Air Force to relinquish jurisdiction over the described lands for military purposes or to transfer such jurisdiction out of the Department of the Air Force shall affect in any way the jurisdiction of the Department of the Interior over the mineral deposits.

5. Prior to any advertisement for bids, the Department of the Air Force shall have the opportunity to indicate any further reservations and restrictions that are to be included in the proposed lease or leases.

6. Prior to execution of any lease or development authorized by the Department of the Interior, the approval of the Department of the Air Force is to be obtained to insure that there is no interference with the primary use of the lands for missions of the Department of the Air Force.

HARRY R. ANDERSON,
Assistant Secretary of the Interior.

AUGUST 11, 1967.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 17536; FCC 67-954]

PART 73—RADIO BROADCAST SERVICES

Table of Assignments, Fort Morgan, Colo.

In the matter of amendment of § 73.202, Table of Assignments, FM broadcast stations (Fort Morgan, Colo.), Docket No. 17536, RM-1159.

Report and order. 1. The Commission has before it for consideration its notice of proposed rule making (FCC 67-740) issued in this proceeding on June 22, 1967, and published in the FEDERAL REGISTER on June 28, 1967 (32 F.R. 9173), proposing to substitute Channel 269A for 232A at Fort Morgan, Colo., in response to a petition for rule making filed by Morgan County Broadcasting Co. (Morgan), licensee of Station KFTM-FM, Fort Morgan. Since KFTM-FM is authorized to operate on Channel 232A, proposed to be deleted at Fort Morgan, petitioner also requested that its authorization be modified to specify operation on Channel 269A in lieu of 232A.

2. The proposal is supported by Morgan and by Mullins Broadcasting Co. (Mullins), licensee of television Station KBTV, Channel 9, Denver, Colo. No oppositions were filed to the proposed amendment. The petitioner states that the second harmonic of Channel 232A is 188.6 Mc/s, which falls within TV Channel 9 (186–192 Mc/s) operated by KBTV (ABC outlet) in Denver and received off-the-air in Fort Morgan some 72 miles distant. It is stated that severe interference was experienced to the reception of KBTV in Fort Morgan and Brush (about 9 miles from Fort Morgan) soon after KFTM-FM began equipment tests, as evidenced by the flood of complaints received. Morgan states that immediate steps were taken to insure that KFTM-FM was operating in accordance with the rules and standards and to correct the complaints of interference by the installation of all types of available traps and filters, but met with little success. Statements are included to substantiate the existence of the interference and the failure of the various attemps to eliminate the problem. Morgan urges that the proposed substitution of channels is the only feasible manner of eliminating this problem, that it complies with the policy in this regard announced in the public notice of February 3, 1966, FCC 66-106 (Policy to Govern the Change of FM Channels to Avoid Interference to Television Reception), and that despite Morgan's good faith and compliance with all legal and technical principles, it is the only way in which it can continue to operate both KFTM and KFTM-FM. Morgan states that the problem is caused by overloading of the TV receivers and the generation of the FM station's second harmonic within the receivers involved; it urges that under the circumstances presented in this case the change in frequency requested would be the best solution in this small market in which the economic life of the FM station depends on the community it serves.

3. Mullins states that while Fort Morgan is just beyond the predicted Grade B contour of KBTV, it has a substantial number of viewers in Fort Morgan, that the interference caused to the reception of this station caused a "furor," and that the residents of Fort Morgan have no other signal of any affiliate of the ABC network. Mullins submits that is has attempted to cooperate in every possible way with the management of KFTM-FM to resolve the interference problem, and that the proposed change in channel for KFTM-FM falls squarely within the criteria specified for such changes in that it will not result in the loss of any FM assignment. It urges quick action in view of the fact that the only alternative is the loss of the only FM station in Fort Morgan or the loss of the service from the only FM station in Fort Morgan. It further suggests that Channel 232A, proposed to be deleted from Fort Morgan, should not be assigned in the future in any area where the same problem might occur, and that assignment of this channel will not be needed in view of the large number of available assignments outside the Denver metropolitan area.

4. Apparently the usual remedies available for the elimination of this type of interference have proved fruitless in this case because of the relative strengths of the TV and FM signals and the density of population near the FM station. On the basis of the information submitted, therefore, we are of the view that a sufficient showing has been made that the proposal conforms with our announced policy in regard to FM channel changes to avoid second harmonic interference to TV reception, and that in this case it would serve the public interest. Mullins suggests that Channel 232A not be assigned to "any community within or adjacent to the KBTV service area unless it can satisfy itself that no second harmonic intereference would take place." The spectrum space in all broadcast services is too valuable and in many areas already too scarce to provide guard bands or vacant assignments in order to protect against receiver deficiencies. We cannot therefore offer any guarantee as suggested by Mullins, if and when the need arises to use the FM channel in question. It should be noted that the second harmonic of all the channels between 226 and 240 fall within TV channel 9 and a similar relationship exists with other high band VHF TV channels.

5. Authority for the adoption of the amendment contained herein is contained in sections 4(i), 303, 307(b), and 316 of the Communications Act of 1934, as amended.

6. In view of the foregoing: *It is ordered*, That effective September 18, 1967, § 73.202 of the Commission's rules, the FM Table of Assignments, is amended to read, insofar as the community named is concerned, as follows:

City	Channel No.
Fort Morgan, Colo.	269A

7. *It is further ordered*, That effective September 18, 1967, the outstanding authorization of Morgan County Broadcasting Co., for the operation of Station KFTM-FM on Channel 232A at Fort Morgan, Colo., is modified to specify operation on Channel 269A in lieu of 232A subject to the following condition:

The permittee shall submit to the Commission by September 1, 1967, the technical information normally required for the issuance of a construction permit on Channel 269A, including any changes in antenna and transmission line.

8. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat. 1066, 1082, 1083, as amended, sec. 316, 66 Stat. 717; 47 U.S.C. 154, 303, 307, 316)

Adopted: August 9, 1967.

Released: August 14, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

[Docket No. 17095; FCC 67-948]

PART 73—RADIO BROADCAST SERVICES

Table of Assignments, Roanoke Rapids and Goldsboro, N.C.

In the matter of amendment of § 73.202, Table of Assignments, FM broadcast stations. (Port Jervis, N.J., Rockville, Ind., Waynesville, Mo., Roanoke Rapids, and Goldsboro, N.C., Thibodeaux, La., Crossville, Tenn., Danville, Ill., Lincoln and Omaha, Nebr., Clinton, Okla., Phoenix, Ariz., Fresno, Calif., San Antonio, San Marcos, Kenedy-Karnes, Georgetown, and Burnet, Tex., Columbus, Nebr., Salt Lake City, Utah, Bemidji, Minn., Longview, Wash., and Astoria, Oreg.), Docket No. 17095, RM-1065, RM-1078, RM-998, RM-1034, RM-1043, RM-1051, RM-1059, RM-1061, RM-1062, RM-1066, RM-1067, RM-1071, RM-1073, RM-1074, RM-1075.

Third report and order. 1. In our notice of proposed rule making (FCC 67-54) issued in this proceeding on January 12, 1967 (32 F.R. 464), comments were invited on a number of proposals for rule making to amend the FM Table of Assignments. Among these was RM-1034, filed by the Halifax Broadcasting Co., Inc. (Halifax), licensee of Station WCTB (AM), Roanoke Rapids, N.C., requesting the substitution of Channel 273 for 272A at Roanoke Rapids, N.C., by the deletion of Channel 272A at Goldsboro, N.C., as follows:

City	Channel No.	
	Present	Proposed
Roanoke Rapids, N.C.	272A	273
Goldsboro, N.C.	245, 272A	245

2. We stated in the Notice that we believed the present assignments to the Goldsboro and Roanoke Rapids areas appeared to be a fair and equitable distribution of available facilities in view of the relative size of the communities and the AM stations operating therein. However, in view of the data submitted and the contentions made by Halifax concerning the large "white area" to be served by the proposed Class C assignment in Roanoke Rapids, we felt that

[1] Commissioner Cox abstaining from voting; Commissioners Loevinger, Wadsworth, and Johnson absent.

rule making was warranted in this case. Comments and data were submitted by Halifax, George G. Beasley, and James Harrelson (WFMC, previously referred to as B&H), principals of the licensee of one of the Goldsboro daytime-only stations (WFMC), and Better Advertising, Inc., the licensee of the other station (WGLO), the latter two opposing the deletion of Channel 272A from Goldsboro and stating their interest in applying for it. The data included showings of "white area" but unfortunately these were based upon different assumptions and did not supply us with sufficient information to make a meaningful determination. The Halifax showing was based upon the 1 mv/m contours of all stations, existing ones with their actual facilities and assumed stations on unoccupied Class A channels with maximum facilities. The opponents contradicted this with a statement based upon coverage by stations' 50 uv/m contours, but did not supply the technical showings with respect to them, nor was it shown that these contours were interference-free. The Halifax showing was based on an assumed Class C station at Roanoke Rapids with 100 kw E.R.P. and an antenna height of 200 feet AAT, but it was stated that this station would probably use "maximum" facilities.

3. In view of the fact that a factual determination of the claimed "white area" is essential to a decision in this case and in view of the high cost of the proposal (the deletion of two Class A assignments and possibly a third precluded) we invited further comments and data in a further notice of proposed rule making (FCC 67-865) issued on June 9, 1967, from the parties herein on the question of the "white area" which would be covered based upon the following:

(a) Estimated FM 1 mv/m contours.

(b) Assuming reasonable facilities for all existing stations, maximum for Class A, and 75 kw and 500 feet antenna height AAT for Class C, or greater in the event the station already has greater facilities.[1]

(c) All unoccupied assignments in the area with the same facilities as in (b).

(d) With respect to the proposed station, Halifax should assume the facilities it will use if successful; opposing parties may assume, initially, 75 kw and 500 feet.

The reasons we felt that the above assumptions are reasonable were given in the Further Notice and will not be repeated here.

4. The proposal is aimed at substituting a Class C wide-area coverage assignment in Roanoke Rapids by deleting the second assignment (a Class A channel) at Goldsboro. A comparison of the populations and radio station assignments in the two communities is contained in the tabulation below:

City	Population		AM Stations	FM Assignments
	City	County		
Roanoke Rapids	13,320	38,956	1 Class IV	272A
Goldsboro	28,578	82,089	1 Unlimited, 2 Daytime.	245, 272A

Roanoke Rapids is the largest community in its county but not the county seat, while Goldsboro is both the largest and the county seat. Channel 245 is in operation in Goldsboro but no applications are on file for Channel 272A in either Goldsboro or Roanoke Rapids.

5. Halifax urges that Roanoke Rapids needs a Class C assignment because it is in the center of a "rural growth area" and is quite distant from any substantial centers of population. It submits that the population of Roanoke Rapids increased 63.3 percent from 1950 to 1960 and that the nearest large population centers are Raleigh (73 miles), Rocky Mount (35 miles), Norfolk (78 miles), Petersburg (55 miles), and Danville (100 miles). In an attached engineering statement, Halifax computes that a Class C FM station at Roanoke Rapids could provide a coverage area of 3,849 square miles as against 707 square miles for a Class A station. With respect to underserved area, Halifax computes that, based upon the assumptions outlined in the further notice, a first FM service ("white area") would be provided by the Class C station to an area of 872 square miles and a second service ("grey area") to 285 square miles, while the figures for a Class A station would be respectively 23[2] square miles and 103 square miles.[3] As to Goldsboro, Halifax submits that there are five FM stations which provide in excess of a 1 mv/m signal to it and three FM stations would provide 100 percent service to the entire proposed Goldsboro 1 mv/m contour. Halifax also makes a firm commitment to utilize facilities of 100 kw and antenna height of 500 feet above average terrain in the event Channel 273 is assigned to Roanoke Rapids. Petitioner submits that the "white area" includes all or substantial parts of six counties, of which Roanoke Rapids is the business, social and economic hub, that only two FM channels (both Class A) have been assigned in these counties, and that the nearest FM stations (six) are from 35 to 47 miles from Roanoke Rapids. Finally, it is urged that the proposal can be adopted without causing a loss of service to the Goldsboro area, where both AM and FM services are more plentiful than around Roanoke Rapids.[4]

6. The two Goldsboro daytime AM stations opposing the proposal, WFMC and WGLO, cite various facts as to Goldsboro's size and importance compared to Roanoke Rapids, pointing out that whereas the population of Goldsboro's county increased 27.7 percent between 1950 and 1960, that of Halifax County (Roanoke Rapids) increased only 1 percent, and Roanoke Rapids itself in a sense actually decreased in population by 844 (the 63.3 percent increase mentioned by Halifax represented expansion of the city limits). It is stated that Goldsboro is the largest city in the area between the Atlantic Ocean and Fayetteville, Raleigh, and Rocky Mount (40 miles and more away),[4] that it is the shopping center and wholesale distribution point for the Coastal Plains section of North Carolina and is surrounded by a large agricultural area whose crops consist of tobacco, livestock, poultry, wheat, etc., and that the Seymour Johnson Air Force Base with a complement of 6,000 persons is located at Goldsboro, and Mount Olive Junior College is located 12 miles from that city. It is urged that the proposal would deprive the important city of Goldsboro of a second and competitive FM outlet and the chance for a needed independent full-time voice, since the existing FM station is owned by the full-time regional AM licensee and duplicates the AM programs. It is asserted that the present pattern of assignments represents a fair and equitable distribution of facilities, and both parties assert that they will apply for Channel 272A if it is retained here.

7. These parties also attack Halifax's claims as to Roanoke Rapids' "six-county area" and "white area." Better Advertising asserts that that community's central location does not necessarily make it the "hub" of an area, or mean that the area is its area, noting the existence of other fairly sizable places therein such as Franklin and Emporia, Va., and asserting the significance of other cities near the area, such as Rocky Mount which claims much of the area as within its trading zone. It is pointed out that the stations in Rocky Mount and elsewhere mentioned by Halifax—all but one Class C—are not far distant and penetrate the area with their programs. It is asserted that the six counties have low per capita sales figures (one less than $500), sparse population, and no recent growth (the total population in 1960 was 166,548, nearly 5,000 less than 1950 and 2,000 less than 1940); and that there are unused FM allocations in the area; and that the three Virginia counties are in the basic trading areas of Richmond or Norfolk-Portsmouth and the

[1] 30 kw and 300 feet for Class B stations.

[2] In the Halifax engineering exhibit Station WSVS-FM at Crewe, Va., is shown in Zone I whereas it should be in Zone II. However, this error would affect the "white area" figure to a small degree only.

[3] The six-county area mentioned includes three North Carolina and three Virginia counties. Two Class A FM channels are assigned in the area (Roanoke Rapids and Lawrenceville, Va.) but the latter is used by a station outside of the area, at South Hill, Va., under the "26-mile rule." The largest other community in the area is Franklin, Va. (population 7,624). In 1962, Roanoke Rapids' county (Halifax) had retail sales of about $46,500,000, about 42 percent of the six-county total. As Halifax points out, that county is the largest of the six in population.

[4] We note, however, that Wilson and Kinston, N.C., both some 20 miles from Goldsboro, are of comparable size according to the U.S. census figures. Each has one FM channel assigned.

three North Carolina counties are in the Raleigh basic trading area. It is also pointed out that the proposed assignment of Channel 273 at Roanoke Rapids would preclude three Channel 272A assignments, present assignments at Goldsboro and Roanoke Rapids and a possible assignment at Edenton or another town in the coastal area to the east. We note that a channel (261A) is already assigned to Edenton, and there are other unused assignments in that portion of eastern North Carolina. A Class A station with maximum facilities provides a 1 mv/m signal to an area of about 700 square miles.

8. As to the "white area", in its earlier comment WFMC asserted that it does not exist because all of the area claimed by Halifax receives at least three 50 uv/m signals. However, as mentioned in the further notice, this was not supported by a showing as to what stations these represent or that the signals are interference-free. WFMC in responding to the further notice did not add significantly to its previous engineering material, asserting that the rules do not contain any method for computing FM interference and that it had decided not to incur the expense incurred in making such a showing.[5]

9. It is also claimed that Halifax might not be able to afford the estimated expense of $64,331 estimated to be needed for a Class C station with facilities of 100 kw and antenna height of 500 feet. WFMC suggests, therefore, that the petitioner submit a statement to the effect that an application will be filed for the facilities mentioned and that construction will proceed immediately. Finally, this party raises the question of a possible problem of FAA clearance for a 500-foot tower in the area which is said to be close to two airways.[6]

Conclusions. 10. We find the decision here a close and difficult one. We stated in our Notice that we believed the present assignments to the Goldsboro and Roanoke Rapids areas appeared to be a fair and equitable distribution of available facilities in view of the relative size of the two communities. However, we felt that the data and contentons subfelt that the data and contentions sub- "white areas" to be served by the proposed substitution of a Class C for the two Class A assignments warranted rule making in this case. We have carefully reviewed the comments and data submitted in the proceeding and cannot find that WFMC refutes the petitioner's important contentions concerning the "white areas" to be served. Even with all unoccupied assignments assumed to be utilized with reasonable facilities an area of 872 square miles could be provided with a first FM service for the Class C assignment. A Class A assignment at Roanoke Rapids would only provide an area of about 231 square miles with a first FM service. Goldsboro and its environs already have a Class C station and an unlimited time AM station. While WFMC contends that there is available three FM signals of a 50 uv/m level in the claimed "white area", it does not list these; nor is it shown that they would in fact be interference-free. Similarly, while they state that a Class A station at Roanoke Rapids would provide a 50 uv/m signal out to 47 miles, they do not show that this signal will not be subject to interference. In fact, a Class B station at Richmond on the first adjacent channel would limit such a station to about 20 miles in the direction of Richmond. While our rules state that a signal of 50 uv/m may be adequate for service in rural areas and in the absence of interference, the spacings we have adopted in most cases subject such signals to interference and limit stations to signals closer to the 1 mv/m contour. With respect to the contention that Channel 272A could also be assigned to Edenton, this community has been assigned a channel (261A), this and other nearby assignments are unused, and Edenton and other places in its area could be assigned other channels if the need arises. Thus, while this case is a close one, we are of the view that the record justifies the assignment of Channel 273 to Roanoke Rapids even though it requires the deletion of Channel 272A from Goldsboro and limits that community to one station. We are, therefore, adopting the proposal advanced by Halifax.[7]

11. With regard to the other objections of the Goldsboro parties, we find them to have insufficient merit to require a different decision. The fact that the area in question is sparsely settled weighs in favor of a wide-coverage assignment, since the likelihood of other stations developing in the area is thus less. As to the danger of a problem arising with air space clearance, this Class C assignment has a good deal of leeway in the selection of a site, thereby making it possible to avoid air space problems to a great degree. Finally, we do not have to decide the financial ability of the proponent of the assignment or any other possible applicant at this time. Nor do we feel that the assignment will lie fallow or be used inefficiently, since we are making the assignment subject to the use of at least 100 kw and 500 feet antenna height AAT. In the event the assignment is not applied for in a reasonable time, WFMC or any other interested party can file a petition to restore the previous assignments and consideration will be given to the situation at that time.

12. Authority for the adoption of the amendments adopted herein is contained in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

13. In accordance with the foregoing determination: *It is ordered*, That effective September 18, 1967, § 73.202 of the Commission's rules, the FM Table of Assignments, is amended to read, insofar as the communities named are concerned, as follows:

City	Channel No.
All in North Carolina:	
Goldsboro	245
Roanoke Rapids	[1] 273

[1] This assignment shall be used by stations employing no less than 100 kw and 500 feet antenna height AAT or the equivalent thereof.

14. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Adopted: August 9, 1967.

Released: August 14, 1967.

PART 73—RADIO BROADCAST SERVICES

Table of Assignments, Eagle Butte, S. Dak.

In the matter of amendment of the Table of Assignments in § 73.606(b) of the Commission's rules to assign Channel 13 to Eagle Butte, S. Dak. and reserve it for noncommercial educational use, Docket 17366, RM-1076.

Report and order. 1. The Commission has before it for consideration its notice of proposed rule making, released April 14, 1967 (FCC 67-451), proposing the assignment and reservation of Channel 13 for noncommercial educational use in

[5] Sec. 73.315(b) of the rules states that signals as low as 50 uv/m may provide service in rural areas. This of course is in the absence of interference. The rules concerning the commercial FM service no longer contain rules for computing interference (since stations are now assigned by a table of assignments based on mileage separations); but such determinations for the educational FM band are made as provided in the note to sec. 1.573. This section specifies necessary desired-to-undesired ratios of 10 to one cochannel, 2 to one first-adjacent channel, and 1 to 10 and 1 to 100 for second and third adjacent channel operations.

[6] On July 20, 1967, Halifax filed a pleading intended to be a reply to the reply comments of WFMC filed on July 17, 1967, the last day for filing reply comments in this matter. This request amounts to a request for permission to file rebuttal comments. This is normally not permitted in any rule making proceeding and we see no reason to make an exception in this one, especially since the parties have had ample opportunity to submit their views and data not only in response to the further notice of proposed rule making issued on June 9, 1967, but also to the original notice issued on Jan. 12, 1967.

[7] We note that in an unrelated proceeding, Docket No. 17627, RM-1121, a proposal is outstanding to assign Channel 262A to Murphreesboro, N.C., by making necessary changes. In the event this assignment is made, it would of course cut down the "white area" somewhat, depending on the location of the station and the facilities utilized. There would remain however, a fairly large unserved area which the proposed station at Roanoke Rapids would cover and therefore the adoption of this proposal would not affect our decision herein.

[8] Commissioners Loevinger, Wadsworth and Johnson absent.

Eagle Butte, S. Dak. There were no objections to the proposal.

2. Eagle Butte, S. Dak., a community of 496 persons located in Dewey County which contains 5,257 residents, at the present time has no television assignment. The petitioner (the South Dakota State Board of Directors for Educational Television) and the National Association of Educational Broadcasters in their comments support the assignment of Channel 13 to the small community of Eagle Butte on the basis that the Channel is to be the South Dakota Educational networks' sole outlet in the north central part of South Dakota. The commenters emphasize the fact that the proposed station can be successfully operated in Eagle Butte in that it will not be dependent on commercial revenue and that the proposed station is not to be a production center for the statewide network.

3. The proposed station is to be a key station in the South Dakota Educational network in the north central area of South Dakota. The need for educational and cultural service for the area becomes apparent when the distribution of the area's sparse population is taken into consideration. The tax base in the area does not appear to be sufficient to provide the school systems with some supplementary material needed in areas such as, science and mathematics, teacher training, specialized and professional instruction, and adult education. Supplementary service in these subjects can be brought to north central South Dakota economically, it is asserted by the petitioner, through the establishment of the proposed Eagle Butte addition to the statewide educational network.

4. In view of the above and the fact that the allocation can be accomplished without deleting any channel from any other community and without modifying or in any way altering any assignment in the present Table of Assignments, as well as the fact that the assignment and reservation of Channel 13 will not deprive the area of the potential for commercial service, we are of the view that it is in the public interest to assign Channel 13 to Eagle Butte, S. Dak., and to reserve it for noncommercial educational use.

5. Authority for the amendment adopted herein is found in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

6. *Accordingly, it is ordered*, That effective September 18, 1967, the Table of Assignments contained in § 73.606(b) of the Commission's rules and regulations is amended, insofar as the community named below is concerned to read as follows:

City	Channel No.
Eagle Butte, S. Dak.	+13

7. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Adopted: August 9, 1967.

Released: August 14, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] BEN F. WAPLE, *Secretary.*

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 32—HUNTING

National Wildlife Refuges, Illinois, and Certain Other States

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

ILLINOIS

CHAUTAUQUA NATIONAL WILDLIFE REFUGE

Public hunting of blue-winged, green-winged, and cinnamon teal on the Chautauqua National Wildlife Refuge, Ill., is permitted from September 16 through September 24, 1967, but only on the area designated by signs as open to hunting. This open area comprising 745 acres is delineated on a map available at the refuge headquarters, Havana, Ill., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Minneapolis, Minn. 55408. Hunting shall be in accordance with all applicable State and Federal regulations subject to the following special conditions:

(1) Blinds—Temporary blinds of approved material may be constructed. Pits may be dug in areas approved by the refuge manager.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 24, 1967.

ILLINOIS AND IOWA

UPPER MISSISSIPPI RIVER WILD LIFE AND FISH REFUGE

Public hunting of blue-winged, green-winged and cinnamon teal on the Upper Mississippi River Wild Life and Fish Refuge, in Illinois and Iowa, is permitted from September 16 through September 24, 1967, but only on the areas designated by signs as open to hunting. These open areas comprising 63,471 acres are delineated on maps available at the refuge headquarters, Winona, Minn., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Minneapolis, Minn. 55408. Hunting shall be in accordance with all applicable State and Federal regulations.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 24, 1967.

IOWA

MARK TWAIN NATIONAL WILDLIFE REFUGE

Public hunting of blue-winged teal, green-winged teal, and cinnamon teal on the Mark Twain National Wildlife Refuge, Iowa, is permitted from September 16 through September 24, 1967, but only on areas known as the Big Timber Division and that portion of the Louisa Division known as the Turkey Island area. These open areas are designated by signs as open to hunting, and comprise 1,660 acres, which are delineated on maps available at the refuge headquarters, Quincy, Ill., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn. 55408. Hunting shall be in accordance with all applicable State and Federal regulations subject to the following conditions:

(1) Blinds—Temporary blinds of approved material may be constructed. Blinds do not become the property of those constructing them and will be available on a daily basis.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 24, 1967.

CRAB ORCHARD NATIONAL WILDLIFE REFUGE

Public hunting of blue-winged, green-winged and cinnamon teal on the Crab Orchard National Wildlife Refuge, Ill., is permitted from September 16 through September 24, 1967, but only on the area designated by signs as open to hunting. This open area comprising 12,380 acres is delineated on a map available at the refuge headquarters, Carterville, Ill., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Minneapolis, Minn. 55408. Hunting shall be in accordance with all applicable State and Federal regulations subject to the following special conditions:

(1) Blinds—Temporary blinds of approved material may be constructed. Pits may be dug in areas approved by the refuge manager.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 24, 1967.

ILLINOIS AND IOWA

UPPER MISSISSIPPI RIVER WILD LIFE AND FISH REFUGE

Public hunting of blue-winged, green-winged and cinnamon teal on the Upper Mississippi River Wild Life and Fish Refuge, in Illinois and Iowa, is permitted from September 16 through September 24, 1967, but only on the areas designated by signs as open to hunting. These open areas comprising 63,471 acres are delineated on maps available at the refuge headquarters, Winona, Minn., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Minneapolis, Minn. 55408. Hunting shall be in accordance with all applicable State and Federal regulations.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 24, 1967.

IOWA

MARK TWAIN NATIONAL WILDLIFE REFUGE

Public hunting of blue-winged teal, green-winged teal, and cinnamon teal on the Mark Twain National Wildlife Refuge, Iowa, is permitted from September 16 through September 24, 1967, but only on areas known as the Big Timber Division and that portion of the Louisa Division known as the Turkey Island area. These open areas are designated by signs as open to hunting, and comprise 1,660 acres, which are delineated on maps available at the refuge headquarters, Quincy, Ill., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn. 55408. Hunting shall be in accordance with all applicable State and Federal regulations subject to the following conditions:

(1) Blinds—No permanent structures, excluding wood or brush duck blinds, shall be permitted; no blinds shall be locked or otherwise sealed against public entry.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuges generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 24, 1967.

SOUTH DAKOTA

LACREEK NATIONAL WILDLIFE REFUGE

Public hunting of blue-winged, green-winged, and cinnamon teal on the Lacreek National Wildlife Refuge, S. Dak., is permitted from September 9 through September 13, 1967, but only on the area designated by signs as open to hunting. This open area comprising 310 acres is delineated on a map available at the refuge headquarters, Martin, S. Dak., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn. 55408. Hunting shall be in accordance with all applicable State and Federal regulations.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 13, 1967.

W. P. SCHAEFER,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 11, 1967.

[F.R. Doc. 67-9636; Filed, Aug. 16, 1967; 8:45 a.m.]

PART 32—HUNTING

Charles Sheldon Antelope Range, Nev.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.32 Special regulations; big game for individual wildlife refuge areas.

NEVADA

CHARLES SHELDON ANTELOPE RANGE

Public hunting of deer, during the archery season from August 26 to September 17, 1967, and the firearms season from October 14 to November 12, 1967, and for antelope for the firearms season from August 26 to September 4, 1967, on the Charles Sheldon Antelope Range, Nev., is permitted only on the area designated by signs as open to hunting. This open area, comprising 365,000 acres, is designated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 730 Northeast Pacific Street, Portland, Oreg. 97208.

Hunting of deer and antelope is permitted in accordance with all applicable State regulations, except that the following special condition shall apply:

Camping is permitted at designated areas only.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 12, 1967.

JOHN D. FINDLAY,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 4, 1967.

[F.R. Doc. 67-9637; Filed, Aug. 16, 1967; 8:45 a.m.]

PART 32—HUNTING

Desert National Wildlife Range, Nev.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.32 Special regulations; big game for individual wildlife refuge areas.

NEVADA

DESERT NATIONAL WILDLIFE RANGE

Public hunting of desert bighorn sheep on the Desert National Wildlife Range, Nev., is permitted only on the area designated by signs as open to hunting. This open area, comprising 1,350,000 acres, is delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 730 Northeast Pacific Street, Portland, Oreg. 97208.

Hunting of bighorn sheep is permitted on Area 27–A from December 26, 1967, through January 7, 1968, and on Area 27–B from November 25 through December 17, 1967. All applicable State regulations shall apply.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 7, 1968.

CLAY E. CRAWFORD,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 8, 1967.

[F.R. Doc. 67-9638; Filed, Aug. 16, 1967; 8:45 a.m.]

PART 32—HUNTING

Horicon National Wildlife Refuge, Wisconsin

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

WISCONSIN

HORICON NATIONAL WILDLIFE REFUGE

Hunting of geese on the Horicon National Wildlife Refuge, Wis., is suspended for the 1967 season. This suspension is due to an agreed change in the goose management program for that area between the Bureau of Sport Fisheries and Wildlife and the State of Wisconsin.

W. P. SCHAEFER,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 11, 1967.

Proposed Rule Making

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 7937]

AIRWORTHINESS DIRECTIVES

British Aircraft Corporation Model BAC 1-11 200 Series Airplanes

The Federal Aviation Administration has under consideration a proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive applicable to British Aircraft Corp. Model BAC 1-11 200 Series airplanes. Notice of proposed rule making published in 32 F.R. 2450 required repetitive inspection of the Thermal Relief Valve, P/N AIR 91186, Modification PM 1653, installed in the No. 2 Auxiliary Hydraulic Power System, the replacement of defective parts and the eventual replacement of the valve with a modified unit, P/N AIR 93402/1. Service experience since the publication of the proposed AD indicates the modified unit, P/N AIR 93402/1, does not provide an adequate thermal relief device. Based on further investigation, it has been determined that the Thermal Relief Valve in Post-Modification PM 1653 airplanes should be inspected in accordance with British Aircraft Corp., Ltd., BAC One-Eleven Alert Service Bulletin 29-A-PM 2758, Issue 2, until the valve is removed, and the Non-return Valve, P/N AIR 91178, installed in the No. 2 AC pump delivery line of both Pre- and Post-Modification PM 1653 airplanes, should be converted to a Choke Valve, P/N AB48A1427, in accordance with BAC One-Eleven Service Bulletin No. 29-PM 2758, Issue 2, in order to provide a thermal relief device. The comments received in response to the notice of proposed rule making published in 32 F.R. 2450 have been fully considered in the revision of the proposed AD. Since the proposed AD now covers both Pre- and Post-Modification PM 1653 airplanes, the suggestion that the applicability statement be rewritten to clearly state that the AD applies only to Post-Modification 1653 airplanes is no longer pertinent. The 200-hour inspection interval has also been reviewed in light of one commentator's belief that it is unduly severe. The 200-hour inspection has been retained since the majority of the reported failures occurred within 200 hours' time in service from installation. In this connection, it should be noted that the inspections are a temporary measure pending the conversion of the nonreturn valve to a choke valve. For the reasons set forth above, the proposed AD published in 32 F.R. 2450, February 4, 1967, is hereby withdrawn and a new airworthiness directive is proposed which includes both Pre- and Post-Modification PM 1653 airplanes.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20590. All communications received on or before September 18, 1967, will be considered by the Administrator before taking action upon the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

BRITISH AIRCRAFT. Applies to Model BAC 1-11 200 Series airplanes.

Compliance required as indicated, unless already accomplished.

To prevent failure of the Thermal Relief Valve installed in the No. 2 Auxiliary Hydraulic Power System, introduced by Modification PM 1653, and to provide an adequate thermal relief device in all airplanes, accomplish the following:

(a) For Post Modification PM 1653 airplanes, within the next 200 hours' time in service after the effective date of this AD, and thereafter at intervals not to exceed 200 hours' time in service from the last inspection, check No. 2 Auxiliary Hydraulic System Thermal Relief Valve for satisfactory functioning in accordance with BAC One-Eleven Service Bulletin 29-A-PM 2758, Issue 2, or later ARB-approved issue, or FAA-approved equivalent.

(b) For Post Modification PM 1653 airplanes, within the next 600 hours' time in service after the effective date of this AD, and thereafter at intervals not to exceed 600 hours' time in service from the date of the last inspection or when a low maximum pressure is indicated in the No. 2 Auxiliary Hydraulic System or emergency elevator power system, conduct a bench test of Thermal Relief Valve P/N AIR 91186/2 in accordance with British Aircraft Corp., Ltd., BAC One-Eleven Alert Service Bulletin No. 29-A-PM 2758, Issue 2, or later ARB-approved issue, or FAA-approved equivalent.

(c) If defective parts are found during the inspections provided for in paragraphs (a) and (b), either modify the hydraulic system in accordance with paragraph (d), or replace the defective part with a serviceable P/N AIR 91186/2 and continue the inspections required by paragraphs (a) and (b).

(d) For Post Modification PM 1653 airplanes, within the next 1,800 hours' time in service after the effective date of this AD, remove Thermal Relief Valve P/N AIR 91186/2, Conduit Guide P/N AB58A3967, and Pipe P/N AB58/48/2675, and rework Lockheed Nonreturn Valve P/N AIR 91178 to the standard of Choke Valve Assembly P/N AB48A1427 in accordance with British Aircraft Corp., Ltd., BAC One-Eleven Service Bulletin No. 29-PM 2758, Part C, or FAA-approved equivalent.

(e) For Premodification PM 1653 airplanes, within the next 1,800 hours' time in service after the effective date of this AD, rework Lockheed Nonreturn Valve P/N AIR 91178 to the standard of Choke Valve Assembly P/N AB48A1427 in accordance with British Aircraft Corp., Ltd., BAC One-Eleven Service Bulletin No. 29-PM 2758, Part B, or FAA-approved equivalent.

(f) The repetitive inspections required by paragraph (a) and (b) of this AD may be discontinued when modifications in accordance with paragraph (d) of this AD have been accomplished.

Issued in Washington, D.C., on August 9, 1967.

R. S. SLIFF,
Acting Director,
Flight Standards Service.

[F.R. Doc. 67-9659; Filed, Aug. 16, 1967; 8:47 a.m.]

[14 CFR Part 71]

[Airspace Docket No. 67-SO-48]

FEDERAL AIRWAY

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would raise the floor on V-70 from 1,200 feet AGL to 9,500 feet MSL between Picayune, Miss., and Greene County, Miss. The minimum en route altitude on this segment of V-70 would be raised to 10,000 feet MSL.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Post Office Box 20636, Atlanta, Ga. 30320. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20590. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

A military training program was recently transferred to Keesler AFB, Biloxi, Miss. This program includes acrobatic training that may not be conducted on Federal airways. The airspace in the vicinity of Biloxi and within the range capabilities of the training aircraft is traversed by several airways. A study was directed toward realignment or revocation of these airways to the extent necessary to provide an acrobatic maneuver area. Relocating or restricting these airways in the immediate vicinity of Biloxi would seriously impair traffic on the principal airways to New Orleans, and the southwest. Farther north of Biloxi lies a sparsely populated area containing a National Guard restricted area and is crossed by V-70. This portion of V-70 is removed from the direct routes to New Orleans and is little used as was indicated by the latest peak day traffic count. Additionally, it was determined that the traffic could be accommodated at the higher altitudes.

In view of this unique situation, it appears that the floor of V-70 between Picayune and Greene County could be raised to 9,500 feet MSL without seriously disrupting air traffic and thereby provide the Air Force with sufficient airspace in which it may conduct its training activities.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued in Washington, D.C., on August 9, 1967.

T. MCCORMACK,
Acting Chief, Airspace and
Air Traffic Rules Division.

CIVIL AERONAUTICS BOARD

[14 CFR Part 234]

[Docket No. 18378; EDR-123]

FLIGHT SCHEDULES OF CERTIFICATED AIR CARRIERS: REALISTIC SCHEDULING REQUIRED

Withdrawal of Exemption of Intra-Hawaiian Air Transportation

AUGUST 14, 1967.

Notice is hereby given that the Civil Aeronautics Board has under consideration a proposed amendment to Part 234 (14 CFR Part 234) which would withdraw the present exemption of intra-Hawaiian air transportation and thereby subject such transportation to the requirements of existing Part 234.

The principal features of the proposed amendment are further described in the Explanatory Statement, and the proposed amendment is set forth in the proposed rule. This regulation is proposed under the authority of sections 102(d), 204(a), 404(a), 405(b), 407, and 411 of the Federal Aviation Act of 1958, as amended (72 Stat. 740; 49 U.S.C. 1302; 72 Stat. 743, 49 U.S.C. 1324; 72 Stat. 760, 49 U.S.C. 1374, 72 Stat. 760, 49 U.S.C. 1375; 72 Stat. 766, 49 U.S.C. 1377; 72 Stat. 769, 49 U.S.C. 1381).

Interested persons may participate in the proposed rule making through submission of ten (10) copies of written data, views, or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant matter in communications received on or before September 18, 1967, will be considered by the Board before taking final action on the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 710, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., upon receipt thereof.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

Explanatory statement. Part 234 in general requires certificated route carriers to publish flight schedules which are designed to enable each air carrier to safely perform as "scheduled time flights"[1] a minimum of 75 percent of all trips actually flown pursuant to each scheduled flight during any 3-month period, and to perform as "scheduled time flights" a minimum of 75 percent of all trips actually flown pursuant to each such scheduled flight during any 3-month period. Such carriers are also required to file monthly reports concerning their on-time schedule performance in nonstop passenger service between specified pairs of points more than 200 miles apart. The list of "reportable pairs" of points is issued by the Board and is compiled from the current annual issue of the Board's Domestic Origin-Destination Survey of Airline Passenger Traffic representing the 100 top-ranking domestic pairs of points in passenger volume as shown by this survey.[2] The part does not apply, inter alia, to supplemental air carriers or to intra-Hawaiian or intra-Alaskan air transportation.

By Senate Resolution No. 45, adopted March 29, 1967, the Senate of the State of Hawaii has requested the Board to amend Part 234 of its rules to withdraw the exemption granted to intra-Hawaiian air transportation and to require the intra-Hawaiian certificated route carriers[3] to adhere to realistic flight schedules and to file monthly reports of scheduled arrival performance in the same manner as certificated route carriers are required to comply with Part 234 with respect to their operations within the 48 contiguous States. This resolution will be treated as a petition for rule making under Rule 38 of the rules of practice (14 CFR 302.38).

The reasons set forth in the resolution for the action requested are as follows: (1) That the economic development of the State requires that air carriers offering scheduled intra-Hawaiian service conform to their published schedules as closely as possible consistent with public safety; (2) that the climate in the State seldom prohibits commercial flights as scheduled; and (3) that there is no reason to distinguish intra-Hawaiian air transportation from air transportation within or among any of the 48 mainland States of the United States and the District of Columbia, insofar as the requirements of Part 234 are concerned. No answers to the resolution have been filed.

The history of Part 234 indicates that when it was proposed in 1956,[4] some Alaskan route carriers objected to the application of the rule to intra-Alaskan air transportation because their services presented peculiar operating conditions which made their exclusion advisable. When the rule was finalized, the Board granted the objections of the Alaskan route carriers and exempted from the rule all intra-territorial operations[5] for the above-stated reason. (ER-223, 22 F.R. 6756, Aug. 22, 1957.) Since Hawaii also was at that time a U.S. territory, intra-Hawaiian air transportation was exempted from the rule when adopted and has never been made subject to the requirements of Part 234.[6] We believe that there is no substantial difference between intra-Hawaiian air transportation and air transportation between points within the 48 contiguous States insofar as the requirements of realistic scheduling and the other provisions of Part 234 are concerned. Therefore, we tentatively find that intra-Hawaiian air transportation should be brought within the governance of Part 234.

With respect to the reporting requirement, as stated above, § 234.8 requires each certificated route air carrier scheduling nonstop passenger flights between any of the 100 top-ranking domestic pairs of points in terms of revenue-passenger volume to file a monthly report of schedule arrival performance on designated passenger flights (CAB Form 438), except with respect to flights between pairs of points which are less than 200 miles apart. A review of the intra-Hawaiian routes operated by the two

[1] A "scheduled time flight" is defined in Part 234 as a scheduled flight which is completed within the block-to-block time allowed in the schedule, plus 15 minutes, excluding from consideration the on-the-ground time provided in the schedule or actually experienced at the intermediate points, if any, of such scheduled flight.

[2] The list also contains pairs of points between points in Alaska and Hawaii, on the one hand, and points in the 48 contiguous States, on the other hand, with a passenger volume greater than the 100th ranked domestic pair, as shown in the International Origin-Destination Survey of U.S.-Flag Airline Passenger Traffic.

[3] Aloha Airlines, Inc., and Hawaiian Airlines, Inc.

[4] Draft Release No. 80, 21 F.R. 2533, Apr. 18, 1956.

[5] Alaska was at that time a U.S. territory.

[6] By ER-837, 26 F.R. 9206, Sept. 30, 1961, the Board expressly exempted from the requirements of Part 234 intra-Hawaiian and intra-Alaskan operations.

Hawaiian certificated route carriers indicates that there are only three markets served by nonstop flights over 200-mile stage lengths[1] and that of these only one (Honolulu-Hilo) has sufficient traffic density to exceed the 100th of the top-ranking domestic pairs of points. Thus, as a practical matter, the Hawaiian route carriers will be required to file monthly reports of schedule arrival performance only with respect to their Honolulu-Hilo operations.

Certain editorial changes have been made in existing § 234.8 (a) and (b). See § 234.8 (a) and (b), infra.

Proposed rule. It is proposed to amend Part 234 of the Economic Regulations (14 CFR Part 234) as follows:

1. Amend § 234.2 to read as follows:

§ 234.2 Applicability.

This part applies to any route air carrier certificated pursuant to section 401(d) (1) or (2) of the Federal Aviation Act insofar as it is engaged in air transportation, other than helicopter service or community center or interairport service, within or among any of the 48 mainland States of the United States and District of Columbia or between points within Hawaii with respect to all flights, other than all-cargo flights, scheduled and performed in such transportation: *Provided*, That the provisions of § 234.8 shall apply also to such air transportation by route air carriers between any point in Hawaii or Alaska and any point in any of the 48 mainland States or the District of Columbia. This part does not apply to supplemental air carriers or to intra-Alaskan air transportation.

2. Amend § 234.8 (a) and (b) to read as follows:

§ 234.8 Reporting of schedule arrival performance.

(a) Each certificated route air carrier scheduling nonstop passenger flights (1) between any of the 100 top-ranking pairs of points in terms of revenue-passenger volume as set forth in Table 4 in the Board's Domestic Origin-Destination Survey of Airline Passenger Traffic, or (2) between the State of Hawaii or Alaska, on the one hand, and points in the 48 contiguous States, on the other hand, or within the State of Hawaii, with a passenger volume, as determined from the International Origin-Destination Survey of U.S.-Flag Airline Passenger Traffic, greater than the 100th ranked pair in the Domestic Survey described in subparagraph (1) above, shall, with respect to any such flights for each month, file in duplicate with the Board a "Monthly Report of Schedule Arrival Performance on Designated Passenger Flights," CAB Form 438 (Rev. 12–64);[2] *Provided*, That such report shall not be required with respect to flights between any pair of points which are less than 200 miles apart. The same information may be submitted on any comparable form prepared on automatic data processing equipment. Such substitute form shall be subject to Board approval and shall also be submitted in duplicate and contain the same column headings arranged in the same sequence as CAB Form 438. During any period that a carrier's obligation to provide service between a pair of points is suspended by the Board, the report need not be filed for such pair of points. The report shall be filed within 45 days of the end of the month which it covers and shall be certified to be correct by a responsible officer of the reporting carrier.

(b) The pairs of points on which reports are to be filed are shown in the "List of City Pairs for Use in Reporting on CAB Form 438" issued by the Board. Whenever the Surveys referred to in paragraph (a) of this section show a change in the top-ranking pairs, the Board will issue a revised reporting list indicating the date on which it is to become effective.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 87]

[Docket No. 17652; FCC 67-932]

AERONAUTICAL EN ROUTE STATIONS ENGAGED IN INTERNATIONAL HIGH FREQUENCY SERVICE

Frequencies Available for Assignment; Notice of Proposed Rule Making

In the matter of amendment to Part 87 of the Commission's rules to change the frequencies available for assignment to the Aeronautical En Route Stations engaged in International high frequency service.

1. Notice of proposed rule making in the above-entitled matter is hereby given.

2. The instant proposal is intended to provide for the orderly, efficient, and timely conversion from the present frequencies, available for assignment to stations in the aeronautical mobile (R) service, to those frequencies available under the new worldwide plan developed by the International Telecommunication Union (ITU) Extraordinary Administrative Radio Conference (EARC), Geneva, 1966 and coordinated worldwide by the ITU and the International Civil Aviation Organization (ICAO). A worldwide station assignment plan was prepared by the ICAO as a direct result of Recommendation 18/1 of the ICAO COM/OPS Divisional Meeting (Montreal 1966) and is in accord with the worldwide allotment plan as revised by the ITU EARC (Geneva 1966) and as contained in the revised allotment plan (Appendix 27) to the ITU Radio Regulations, Geneva, 1959. In order that the FCC licensees in this service make the conversion with the maximum safety to the aviation community and minimum radio interference it is necessary that the conversion of frequencies should be in exact compliance with the implementation time schedule of the plan which has been agreed to by the administrations of the airline operators. The present frequencies, their replacement frequencies and the schedule of implementation are detailed in the appendix, attached. The appendix proposes changes to the frequencies available for assignment in a service rather than an assignment plan for particular stations and the frequencies assigned thereto in the service. International air operators and licensees of aeronautical en route stations serving international air operators will wish to refer to the ICAO plan for station assignment which is contained in ICAO letter AN 7/6.6–67/49, Subject: Development of new High Frequency Plans, dated April 14, 1967. The ICAO document should be the guide in the implementation of the plan for the individual stations. Such ICAO documents, and revisions thereto when documented, are available to the FCC licensees upon application to ICAO.

3. The proposed amendments to the rules, as set forth in the appendix below are issued pursuant to the authority contained in sections 4(i) and 303 (c), (h) and (r) of the Communications Act of 1934, as amended.

4. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before September 18, 1967, and reply comments on or before September 28, 1967. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

5. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments filed shall be furnished to the Commission.

Adopted: August 9, 1967.

Released: August 11, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] BEN F. WAPLE, *Secretary.*

APPENDIX

Section 87.303 is amended to read as follows:

[1] Commissioners Loevinger, Wadsworth, and Johnson absent.

§ 87.303 International high frequency service.

Frequencies available for assignment by the authority having jurisdiction over the respective international aeronautical en route stations on the Major World Air Route Areas (MWARAs) as defined in the EARC Agreement (Geneva 1951) and revised by the EARC Agreement (Geneva 1966) are as follows:

(a) *Central East Pacific (CEP).*

Frequencies available before conversion date (kc/s)	Frequencies available after conversion date (kc/s)	Conversion date
3023.5	3467	[1] Sept. 19, 1968

[47 CFR Part 73]

[Docket No. 17660; FCC 67-953]

FM BROADCAST STATIONS

Experimental Period

In the matter of amendment of § 73.262 of the Commission's rules with respect to the experimental period of FM broadcast stations, Docket No. 17660, RM-1140.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. On April 25, 1967, the National Association of Broadcasters (NAB) filed a petition requesting that the Commission institute rule making proceedings looking toward an amendment of § 73.262 of the Commission's rules to permit a longer daily experimental period for FM stations for testing and maintaining apparatus and to permit experimentation, upon certain conditions, for improvement of the FM station's technical facilities.[1]

3. The provisions of § 73.262, as now in force, and as proposed by the NAB are set forth below. Section 73.262 presently reads as follows:

§ 73.262 *Experimental operation.* The period between 1 a.m. and 6 a.m., local standard time, may be used for experimental purposes in testing and maintaining apparatus by the licensee of any FM broadcast station on its assigned frequency and not in excess of its authorized power, without specific authorization by the Commission.

The provisions of § 73.262, as proposed by the NAB, read as follows:

§ 73.262 *Experimental operation.* (a) The period between 12 midnight and 6 a.m., local standard time may be used for experimental purposes in testing and maintaining apparatus by the licensee of any FM broadcast station on its assigned frequency and not in excess of its authorized power, without specific authorization from the Commission.

(b) FM broadcast stations may (upon informal application) conduct technical experimentation directed to the improvement of technical phases of operation during other time periods subject to the following conditions:

(1) That the licensee complies with the provisions of § 73.261 with regard to the minimum number of hours of transmission.

(2) That no transmissions are radiated outside of the authorized channel and subject to the condition that no interference is caused to the transmission of other FM broadcast stations.

4. NAB states that, because of the propagation characteristics of FM signals, the experimental period is too restrictive and that modifications be adopted to allow a greater flexibility in the testing and maintenance of FM facilities. Also, NAB states that FM stations should be permitted upon specified conditions, to conduct experimental tests directed to improvement of the technical phases of their operation.

5. NAB argues, in support of its request for increased hours of experimentation for testing and maintenance of facilities, that FM facilities are allocated upon the same fundamental philosophy as television facilities (which are not limited as to time during which nonprogram material may be transmitted); that the propagation characteristics of FM signals are similar to television signals, and that the nature of FM and television signals do not require restrictive time periods for experimentation as is required in the case of standard broadcast signals. Because of the similarities of FM and television signals, the NAB requests that the FM experimental period for testing and maintenance of facilities be lengthened 1 hour so as to permit testing from midnight to 6 a.m., local standard time, instead of from 1 a.m. to 6 a.m., local standard time. NAB further states that, because many FM stations operate on limited schedules and with limited personnel, the present rule works, in many cases, an unnecessary hardship on personnel by having to return to the station for the testing period thereby resulting in added expense to the licensee. The NAB claims that this 1-hour increase will result in no degradation of the Commission's technical standards, and no "perceptible" increase in interference will occur to other FM broadcast stations.

6. With respect to its request for permission for FM stations to conduct experimental tests looking toward improvement of its facilities, the NAB states that, with the increased complexity in the transmission of FM signals brought about by SCA and stereophonic broadcasting, it is necessary to conduct tests other than during the designated experimental period. This is claimed to be necessary because SCA and stereophonic broadcasting, in many cases, requires precise adjustment of both the receiver and the antenna system. Since the receiver adjustments are made by the listener and service personnel during daylight and early evening hours, the NAB requests that the Commission provide, upon proper conditions, that experimentation may be made in periods other than the designated experimental period. The conditons for experimentation looking toward improvement of an FM station are (1) that informal application must be made to the Commission; (2) that the FM station complies with § 73.261 of the rules which deals with minimum hours of transmission; and (3) that no interference is caused to other FM stations. NAB claims that this testing will not pollute the FM spectrum because of the propagation characteristics peculiar to the FM signal.

7. We believe that the arguments advanced by the NAB in support of their request justify the institution of rule making proceedings in the above-outlined matter. Accordingly, we are inviting comments in order that the NAB and other interested parties may submit their views and other relevant data. Authority for the adoption of the proposed rule is contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended.

8. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules, interested parties may file comments on or before September 18, 1967, and reply comments on or before October 3, 1967. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by the Notice.

9. In accordance with the provisions of § 1.419 of the rules, an original and 14 copies of all comments, replies, pleadings, briefs, and other documents shall be furnished the Commission.

Adopted: August 9, 1967.

Released: August 14, 1967.

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 906]

ORANGES AND GRAPEFRUIT GROWN IN LOWER RIO GRANDE VALLEY IN TEXAS

Container and Pack Regulations

Consideration is being given to the proposal, hereinafter set forth, by the Texas Valley Citrus Committee, established pursuant to the Marketing Agreement No. 141, as amended, and Order No. 906, as amended (7 CFR Part 906), regulating the handling of oranges and grapefruit grown in Lower Rio Grande Valley in Texas, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

The proposal is that the provisions of § 906.311(a)(1)(iv) be revised to (1) rescind the authority that permits use of the container with inside dimensions of 19¾ by 13½ by 13½ inches as a container for bulk fruit and to delete the provisions of (a)(2)(ii) and (3)(ii) of such section which relates to the count of fruit which must be packed in such container when so used, and (2) add a new container with inside dimensions of 13¼ by 10½ by 7¼ inches.

After such revision, the provisions of § 906.311(a) (29 F.R. 12869; 31 F.R. 11139) would read as follows:

§ 906.311 Container and pack regulations.

(a) *Order.* Except as otherwise provided herein or by, or pursuant to the provisions of Marketing Agreement No. 141, as amended, and this part, regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas, no handler shall, on and after the date hereinafter specified, handle any fruit unless such fruit is in a container or containers meeting the following specifications, and the pack of such fruit conforms to all applicable requirements of this section:

(1) *Containers.* (i) Containers with inside dimensions of 24⅝ by 11⅜ by 11⅜ inches;

(ii) Containers with inside dimensions of 16¼ by 10¼ by 10¼ inches;

(iii) Containers with inside dimensions of 16½ by 10¾ by 9½ inches;

(iv) Containers with inside dimensions of 13¼ by 10½ by 7¼ inches;

(v) Bags having a capacity of 5, 8, or 20 pounds of fruit;

(vi) Containers with inside dimensions of 19¾ by 13 by 12½ inches, 20 by 13¼ by 9¾ inches, and 19¾ by 13½ by 13½ inches: *Provided*, That such containers may be used only for the shipment of fruit in bags as provided in subdivision (v) of this subparagraph; and

(vii) Such other types and sizes of containers as may be approved by the Texas Valley Citrus Committee for testing in connection with a research project conducted by or in cooperation with the said committee: *Provided*, That the handling of each lot of fruit in such test containers shall be subject to prior approval, and under the supervision, of the Texas Valley Citrus Committee.

(2) *Oranges.* Oranges, when in any box or carton, shall be of a size within the diameter limits specified for one of the following pack sizes and otherwise be packed in accordance with the requirements of standard pack, except that not to exceed 10 percent, by count, of such oranges may be outside such diameter limits:

Pack sizes	Diameter limits in inches	
	Minimum	Maximum
100	3⅞	3⅛
125	3⅛	3⅜
163	2⅞	3⅛
200	2⅞	3⅛
252	2⅞	2⅞
324	2⅜	2⅝

(3) *Grapefruit.* Grapefruit, when in any box or carton, shall (i) be packed in accordance with the requirements of standard pack or (ii) be of a size within the diameter limits specified for the following pack size and otherwise be packed in accordance with the requirements of standard pack, except that not to exceed 10 percent, by count, of such grapefruit may be outside such diameter limits:

Pack size	Diameter limits in inches	
	Minimum	Maximum
46	4⅝	5

MILK IN DAYTON-SPRINGFIELD, OHIO, MARKETING AREA

Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Correction

In F.R. Doc. 67-9398, appearing at page 11535 of the issue for Thursday, August 10, 1967, the phrase reading "if it so desires" in the first paragraph on page 11554 should be deleted.

[7 CFR Part 1067]

MILK IN OZARKS MARKETING AREA

Notice of Proposed Suspension of Certain Provisions of Order

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), the suspension of certain provisions of the order regulating the handling of milk in the Ozarks marketing area is being considered for the months of August and September 1967.

The provisions proposed to be suspended are in the table of § 1067.11(b) opposite the months of August and September and are the figures "25" and "35," relating to the shipping requirements to maintain pool plant status of supply plants.

This action has been requested by three cooperative associations, representing more than 80 percent of the producers in this market. The cooperatives state that the proposed suspension is necessary to maintain pool plant status for supply plants so as to facilitate the orderly disposition of the market's reserve supply of milk during the months of August and September. An unusual increase in milk supply for this time of year has resulted in greater deliveries from farms directly to fluid milk processing plants, and has reduced the need for such plants to receive milk from supply plants.

In these circumstances it would be necessary for supply plants to make unneeded and uneconomical shipments to processing plants if they were to maintain pool status under existing shipping requirements. Proponents state that without the suspension the producer status of many farmers regularly associated with the market will be endangered.

All persons who desire to submit written data, views, or arguments in connection with the proposed suspension should file the same with the Hearing Clerk, Room 112-A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 3 days from the date of publication of this notice in the FEDERAL REGISTER. All documents filed should be in quadruplicate.

All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Signed at Washington, D.C., on August 14, 1967.

CLARENCE H. GIRARD,
Deputy Administrator, Regulatory Programs.

[7 CFR Part 1076]

MILK IN EASTERN SOUTH DAKOTA MARKETING AREA

Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Sioux Falls, S. Dak., on April 20, 1967, pursuant to notice thereof issued on April 3, 1967 (32 F.R. 5638).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Regulatory Programs, on July 13, 1967 (32 F.R. 10597; F.R. Doc. 67-8292), filed with the Hearing Clerk, U. S. Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision (32 F.R. 10597; F.R. Doc. 67-8292) are hereby approved and adopted and are set forth in full herein.

The material issues on the record of the hearing relate to:

1. The pool status of a stand-by plant operated by a cooperative association;
2. Revising the diversion provisions;
3. Accounting for route returns;
4. Replacing the "base-excess" plan with a "Louisville" plan of seasonal price adjustment; and
5. The administrative assessment.

The notice of hearing contained a proposal to remove Walworth County, S. Dak., from the marketing area. No one appeared at the hearing to support this proposal. Since no evidence was presented with respect to it, it will receive no further consideration in this decision.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof.

1. *The pool plant status of a plant operated by a cooperative association.* A plant, other than a distributing plant operated by a cooperative association should be a pool plant regardless of the volume of milk which moves from such plant to the pool plants of other handlers if more than 50 percent of the total milk supply of producers who are members of such cooperative association is shipped to pool distributing plants of other handlers either directly from the farm or by transfer from the plant of the cooperative association. A distributing plant operated by a cooperative association should continue to be required to meet the same performance standards as all other distributing plants to qualify for pool status.

The major cooperative association in the market operates a plant at Sioux Falls, S. Dak., where the major portion of the reserve supply of the market is manufactured into dairy products, primarily butter and nonfat dry milk. Milk is also received from manufacturing grade producers.

In addition to its manufacturing facilities, this plant has limited storage facilities for the handling of Grade A milk. These have been approved by the appropriate health authorities as a source of Grade A milk for both the local market and for interstate shipment. In the past, this plant has not served as a regular source of supply for pool plants, although occasional deliveries of fluid milk products are made to pool plants to supplement direct farm receipts. Occasionally in the past milk has also been shipped from the cooperative plant to markets to the south for fluid use.

Because of the limited volume of milk which moves through the plant en route to pool plants, this plant is unable to qualify as a pool plant. The producer milk received at such plant retains its pool status only as diverted milk.

At the present time, the market is undergoing a substantial change in the pattern of milk distribution. Several mergers and consolidations of distribution plants have already taken place, with the resultant closing of plants and the concentration of the bottling operation in a few large plants. This trend is expected to continue.

Throughout the marketing area there are several population centers, each of which had its own bottling plants and a local supply of milk. As these bottling plants close, it becomes increasingly necessary to receive the milk of the producers who supplied these plants at a central point where it can readily be moved to the remaining plants for fluid use or manufactured into dairy products when not needed for fluid uses.

The cooperative plant in addition to serving as the principal outlet for the reserve supply of the market, is taking on the function of a balancing plant for the handlers in the market. Even with an increased demand from pool distributing plants for milk from the cooperative plant as a result of the changing market situation, it is unlikely that it will meet the pooling standards in the immediate future. Since it may become necessary to receive the milk of some producers at this plant almost every day, the diversion provisions alone no longer provide a satisfactory means of retaining the milk of such producers in the pool.

The cooperative plant acts as the surplus disposal plant not only for the milk of its own members, but also for the milk of the smaller local bargaining cooperatives in the market, whenever requested to do so. This plant is being called on to handle more and more of the milk of the smaller organizations. As a result of the consolidation of plants described elsewhere in this decision, some of these cooperatives find it difficult to dispose of milk in the immediate vicinity of the producers' farms and the cooperative plant at Sioux Falls becomes the logical outlet for such milk.

The proposal of the cooperative associations was to grant pool plant status to a plant operated by a cooperative association whose members constitute the majority of the producers on the market. While such a provision would accommodate the situation in the market at the present time, it would not be appropriate if conditions were to change to the point that the major cooperative no longer represented a majority of the producers on the market. Similarly, it would not apply if it became necessary for one of the other cooperative associations to acquire a plant to handle the reserve supplies of the market.

Therefore, the order should provide that a plant operated by a cooperative association whose primary function is supplying milk to pool distributing plants of other handlers should be a pool plant. This will accommodate the efficient and orderly handling of the market's supply at the present time and prevent hardship resulting from further changes in the distribution pattern of the market that could take place in the future.

2. *Revision of the diversion provisions.* The volume of milk permitted to be diverted should be based on a percentage of total deliveries by all producers who are members of a cooperative association or whose milk is received at a pool plant. To be eligible for diversion a producer's milk should be received at a pool plant at least three days during a month.

The order currently provides that during the months of July through March the milk of an individual producer may be diverted to a nonpool plant for as many days during the month as it is received at a pool plant. With the closing of plants noted above, it has become necessary to divert increasing quantities of milk at some localities in the milkshed. Because of the location of certain farms in relation to the manufacturing plants, it is more economical to divert some loads than others.

In order to permit the most economical movement of milk and eliminate the extensive recordkeeping necessary to insure that each individual farmer's milk be received at a pool plant on at least half the days of delivery, the diversions should be based on a percentage of total deliveries of member producer milk. For the months of July through February a cooperative should be permitted to divert milk in an amount equal to 35 percent of its member producer milk received at all pool plants during the month.

Any handler operating a pool plant would likewise be permitted to divert up to 35 percent of the receipts at the plant from producers who were not members of a cooperative association which was diverting member milk in the same month. In both cases, diversions in excess of the amount permitted would not be producer milk. The cooperative association or the plant operator who diverted the milk would be required to designate the dairy farmers whose milk would be ineligible as producer milk. In the event the diverting cooperative association or plant operator failed to designate those producers whose milk was ineligible, all of the milk diverted to a nonpool plant by such cooperative association or plant operator would forfeit its producer milk status for the month.

No percentage limitation should be placed on the percentage of milk which may be diverted during the months of March through June. The present order permits unlimited diversion in April, May and June. However, the production pattern has changed in recent years to the point where the spring flush begins in March and tapers off in June. Thus, it is now necessary to divert substantial quantities of milk in March.

The present order provides no standard for identifying a producer's association with the market during the months of unlimited diversion. In order to insure a producer's association with the market, during these months as well as during the remainder of the year, it is provided that milk must be received at a pool plant from a producer at least three days each month in order for his milk to be eligible to be considered diverted milk if caused to be delivered to a nonpool plant during the remainder of the month.

3. *Accounting for route returns.* One handler proposed that the definition of a Class I product be changed to designate fluid milk products "sold" rather than "disposed of," from the plant as now required.

The purpose of his proposal was to obtain a Class II classification for packaged fluid milk products which were not sold—specifically route returns, leakers, etc. At the present time such items must be returned to the bottling plant so that the market administrator may physically verify the fact that they were dumped or disposed of as livestock feed. It was the contention of the handler that the handling and return to the plant of such items, particularly the leakers, created unsanitary conditions as well as being a nuisance.

While we sympathize with the position of the handler, the opportunity for physical verification of the return to the plant of items which left it as Class I is necessary to establish their subsequent reclassification as Class II.

The order specifically provides that any skim milk and butterfat shall be Class I unless the handler can establish to the satisfaction of the market administrator that such milk should be classified otherwise. The market administrator may reclassify a product once classified only upon verification of the fact that the original classification was incorrect. The only way the market administrator can verify that products which left a plant as packaged Class I items were subsequently utilized in a Class II classification is by a physical check of such items. Since handlers have numerous distribution points scattered over a very wide area, the only practical point for such a check is the plant at which the product originated and was originally classified as Class I.

A notation on the record of a distribution point that so many items were thrown away because of spoilage or leakage does not constitute a verifiable record. Hence, the proposal must be denied.

The proponent handler, noted in exceptions filed to the recommended decision that other handlers concurred with this proposal. The exception, however, afforded no basis for changing the terms of the order as recommended. For reasons set forth in these findings the exception is overruled.

4. *Elimination of the base plan and the substitution of a "Louisville" plan.* The "base-excess" plan of distributing returns to producers should be replaced with a take-out and pay-back incentive plan. The latter is often referred to as the "Louisville" plan.

Witnesses testified that the base and excess plan recently has become a cause of dissatisfaction to producers, particularly among members of the largest cooperative on the market. In recent months manufacturing plants in the area where these producers are located have been paying for manufacturing grade milk prices which are in excess of the average of the Minnesota-Wisconsin price series. This price series is used under the order for pricing Class II milk. It is also the price which producers receive for milk delivered in excess of base milk.

This price disparity is further aggravated by the fact that the average charge for hauling milk from the more distant farms to plants in Sioux Falls approximates 35 cents per hundredweight while the average charge from the farm to manufacturing plants is only 20 cents per hundredweight.

Producers object to receiving for their Grade A excess milk a lesser price than is being paid for manufacturing milk. Some producers have attempted to ship part of their milk to manufacturing plants and ship only their base milk to market. This practice, if increased, could disrupt the orderly marketing of milk and result in shortages of milk for the fluid market if many producers chose the same day to sell to a manufacturing plant.

Another consideration for terminating the base plan is the dislocation of producers that has occurred in some areas because of the plant consolidation discussed above and the resulting necessity of diverting substantial quantities of milk to nonpool plants. The fear was expressed that some producers might be overdiverted during the base-forming period. Since the overdiverted milk could not be included in establishing a producer's base, such producers would be seriously penalized through no fault of their own.

While all of the cooperative associations on the market favored the termination of the base plan, they felt that some seasonal adjustment of producer prices was necessary to maintain a favorable pattern of production.

The plant adopted herein provides that 15 cents per hundredweight be deducted in the computation of the uniform price in each of the months of March, April, May, and June. One-third of the amount so deducted would be added back in the uniform price computation for each of the months of September, October, and November.

This plan is necessary to provide the seasonal variation in prices to producers that will furnish them the incentive to maintain or improve the present seasonal pattern of production, thus insuring an adequate supply of pure and wholesome milk at all times. During the 4 months of heaviest production the uniform price will be reduced 15 cents per hundredweight. During the three months of shortest production the uniform price will be enhanced approximately 22 cents as a result of the payback's being made in the three months when production is lowest. The difference between spring and fall prices will be further accentuated by the fact that utilization in the short months is somewhat higher than in the spring as well as by the fact that class prices normally reach their peak at that time. It is estimated that the total difference between uniform prices in spring and fall will average approximately 45 cents per hundredweight.

The amount of the take-out and payback is less than that provided in a similar provision of the adjoining Sioux City, Iowa, order. The cooperative associations are confident, however, that the amounts provided herein will provide sufficient seasonal variation in price to maintain the present level production pattern.

5. *The administrative assessment.* No change should be made either in the maximum rate of the administrative assessment or in the manner of its application to partially regulated distributing plants.

It was proposed by a handler representative that the maximum rate of the administrative assessment be reduced from 5 cents to 4 cents, the amount presently being deducted to defray the costs of administering the order.

Although the 4-cent deduction is providing sufficient funds for the operations of the order at the present time, it is not impossible that at some time in the future additional expenses might be incurred which would require an increase in the amount of the assessment. While such an eventuality is not anticipated, in the event it should occur the market administrator should be in a position to secure the necessary funds without the formality of an amendment to the order. Hence, the maximum rate of assessment permissable should be maintained at five cents.

The same handler proposed that the monthly administrative assessment charged to a partially regulated distributing plant should be not less than the actual cost incurred by the market administrator in verifying the records of such plant.

No change should be made in the order in this respect. A uniform program for applying the administrative assessment to partially regulated plants was made effective by amendment to all orders which were in effect on July 1, 1964, following the decision of the Assistant Secretary of June 19, 1964 (29 F.R. 9214). The findings of that decision as they applied to the Eastern South Dakota and Sioux Falls-Mitchell orders, since merged into the present Eastern

South Dakota order, are still applicable to the present marketing area. Therefore, official notice is taken of the pertinent portions of the decision of June 19, 1964.

The proponent handler excepted to the recommended decision as it relates to administrative expense. For reasons set forth in these findings, however, the exceptions are overruled.

The question was also raised as to application of the administrative assessment when milk is purchased from the cooperative association as a handler. We believe the present order provisions are clear that the receiving handler is responsible for the administrative assessment when he receives milk from producers who are members of a cooperative association which is the handler for their milk. Hence, no amendment of the order in this respect is necessary.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on exceptions. In arriving at the findings and conclusions and the regulatory provisions of this decision, the exception filed was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with the exception, such exception is hereby overruled for the reasons previously stated in this decision.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Eastern South Dakota Marketing Area," and "Order Amending the Order Regulating the Handling of Milk in the Eastern South Dakota Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

Determination of representative period. The month of June 1967 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the attached order, as amended and as hereby proposed to be further amended, regulating the handling of milk in the Eastern South Dakota marketing area, is approved or favored by producers, as defined under the terms of the order, as amended and as hereby proposed to be further amended, and who during such representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

Signed at Washington, D.C., on August 14, 1967.

GEORGE L. MEHREN,
Assistant Secretary.

Order[1] Amending the Order Regulating the Handling of Milk in the Eastern South Dakota Marketing Area

§ 1076.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Eastern South Dakota marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Eastern South Dakota marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby further amended, as follows:

The provisions of the proposed marketing agreement and order amending the order contained in the recommended decision issued by the Deputy Administrator, Regulatory Programs, on July 13, 1967, and published in the FEDERAL REGISTER on July 19, 1967 (32 F.R. 10597; F.R. Doc. 67-8292), shall be and are the terms and provisions of this order, and are set forth in full herein.

§ 1076.12 [Amended]

1. In the introductory text preceding paragraph (a) of § 1076.12, the phrase "in paragraph (a) or (b)" is changed to read "in paragraph (a), (b), or (c)".

2. Section 1076.12 is revised by adding thereto a new paragraph (c) to read as follows:

(c) A plant, other than a distributing plant, operated by a cooperative association if more than 50 percent of the total milk supply of producer members of such cooperative association is shipped to pool distributing plants of other handlers during the month, either directly from the farm or by transfer from the plant of the cooperative association: *Provided,* That if a portion of such association's plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

3. In § 1076.14, paragraph (c) is revised to read as follows:

§ 1076.14 Producer milk.

* * * * *

(c) With respect to diversions to nonpool plants pursuant to paragraphs (a) (2) and (b) (1) of this section:

(1) A cooperative handler may divert for its account the milk of any member producer, whose milk is delivered to a distributing pool plant on at least 3 days during the month during the other days of such month. The total quantity of milk so diverted may be without limit during the months of March, April, May, and June, but shall not exceed 35 percent of its member producer milk received at all pool plants during any other month of the year. Diversions in excess of such percentage shall not be considered producer milk, and the diverting cooperative shall specify the dairy farmers whose milk is ineligible as producer milk. If the cooperative association fails to designate such dairy farmers whose milk is ineligible, producer milk status shall be forfeited with respect to all milk diverted to a nonpool plant by such cooperative association; and

(2) A handler in his capacity as the operator of a distributing pool plant may divert for his account the milk of any producer, other than a member of a cooperative association which has diverted milk pursuant to subparagraph (1) of this paragraph, whose milk is received at a pool plant on at least 3 days during the month, without limit during the other days of such month. The total quantity of milk so diverted may be without limit during the months of March, April, May, and June, but during any other month of the year shall not exceed 35 percent of the milk received from producers who are not members of a cooperative association which has diverted milk pursuant to subparagraph (1) of this paragraph. Diversions in excess of such percentage shall not be considered producer milk, and the diverting handler shall specify the dairy farmers whose milk is ineligible as producer milk. If the handler fails to designate such dairy farmers whose milk is ineligible, producer milk status shall be forfeited with respect to all milk diverted to a nonpool plant by such handler; and

(3) For the purpose of location adjustments pursuant to §§ 1076.53 and 1076.75, milk so diverted shall be priced at the location of the plant from which diverted.

§§ 1076.19, 1076.20 [Revoked]

4. Sections 1076.19 and 1076.20 are revoked.

5. In § 1076.27 paragraph (j) (2) is revised and (j) (3) is revoked as follows:

§ 1076.27 Duties.

* * * * *

(j) * * *

(2) The 12th day of each month the uniform price computed pursuant to § 1076.72 and the producer butterfat differential computed pursuant to § 1076.74;

(3) [Revoked]

* * * * *

6. In § 1076.30, paragraph (a) (1) (i) is revised to read as follows:

§ 1076.30 Reports of receipts and utilization.

* * * * *

(a) * * *

(1) * * *

(i) Producer milk,

* * * * *

7. In § 1076.31, paragraph (b) is revised to read as follows:

§ 1076.31 Payroll reports.

* * * * *

(b) The pounds of milk received and the average butterfat content thereof;

* * * * *

8. In § 1076.72 the heading "Computation of weighted average price" is changed to "Computation of uniform price," paragraph (b) is revised, and new paragraphs (c) through (g) are added to read as follows:

§ 1076.72 Computation of uniform price.

* * * * *

(b) Subtract not less than four cents nor more than five cents from the price computed pursuant to paragraph (a) of this section. The result shall be known as the "weighted average price", and except for the months of March through June and September through October, shall be the uniform price for milk received from producers;

(c) For the months specified in paragraphs (d) and (e) of this section, subtract from the amount resulting from the computations pursuant to § 1076.71 an amount computed by multiplying the hundredweight of milk specified in paragraph (a) (2) of this section by the weighted average price;

(d) Subtract during each of the months of March, April, May and June an amount computed by multiplying the total hundredweight of producer milk for such month by 15 cents;

(e) Add during each of the months of September, October and November one-third of the amount subtracted pursuant to paragraph (d) of this section;

(f) Divide the resulting sum by the total hundredweight of producer milk included in these computations; and

(g) Subtract not less than four cents nor more than five cents per hundredweight. The result shall be the uniform price for milk received from producers.

§ 1076.73 [Revoked]

9. Section 1076.73 is revoked.

10. In § 1076.75, paragraph (a) is revised to read as follows:

§ 1076.75 Location differentials to producers and on nonpool milk.

(a) The uniform price computed pursuant to § 1076.72 for producer milk received at a pool plant shall be reduced according to the location of the pool plant, at the rates set forth in § 1076.53; and

* * * * *

11. In § 1076.76, paragraph (b) is revised to read as follows:

§ 1076.76 Notification of handlers.

* * * * *

(b) The uniform price computed pursuant to § 1076.72.

* * * * *

§ 1076.80 [Amended]

12. In paragraph (a) (2) of § 1076.80, the word "prices" is changed to "price" and the phrase "and 1076.73" is deleted.

§§ 1076.90–1076.92 [Revoked]

13. Sections 1076.90, 1076.91, and 1076.92 and the centerhead applicable thereto are revoked.

Notice of Proposed Classification of Public Lands for Multiple Use Management

AUGUST 10, 1967.

1. Pursuant to the Act of September 19, 1964 (78 Stat. 986; 43 U.S.C. 1411-18), and to the regulations in 43 CFR, Parts 2410 and 2411, it is proposed to classify for multiple-use management all of the public lands in the area described below, together with any lands therein that may become public lands in the future. Publication of this notice has the effect (a) of segregating all the public land in the described area below from appropriation only under the agricultural land laws (43 U.S.C. Parts 7 and 9; 25 U.S.C. sec. 334) and from sales under section 2455 of the Revised Statutes (43 U.S.C. 1171) and (b) of further segregating the lands described in paragraph 3 of this notice from the operation of the general mining laws (30 U.S.C. 21). Except as provided in (a) and (b) above the lands shall remain open to all other applicable forms of appropriation, including the mining and mineral leasing laws. As used herein, "public lands" means any lands withdrawn or reserved by Executive Order No. 6910 of November 26, 1934, as amended, or within a grazing district established pursuant to the Act of June 28, 1934 (48 Stat. 1269), as amended, which are not otherwise withdrawn or reserved for a Federal use or purpose.

2. The public lands affected are located within the following described area and are shown on maps of Lemhi County, Idaho, on file in the Salmon District Office, Bureau of Land Management, Salmon, Idaho, and the Land Office, Bureau of Land Management, Federal Building, Boise, Idaho.

BOISE MERIDIAN

LEMHI COUNTY, IDAHO

Administered by the Salmon District I-4

T. 16 N., R. 19 E.,
Sec. 1, that portion in Lemhi County.
T. 16 N., R. 20 E.,
Secs. 1 to 6, inclusive, those portions in Lemhi County;
Secs. 11 to 14, inclusive, those portions in Lemhi County.
T. 17 N., R. 20 E., all public lands outside the National Forest boundary.
T. 18 N., R. 20 E.,
Secs. 1, 12, 13, 24, 25, and 36.
T. 15 N., R. 21 E.,
Secs. 1 to 4, inclusive;

T. 14 N., R. 29 E., unsurveyed, all public lands outside the National Forest boundary.
T. 11 N., R. 30 E., all public lands outside the National Forest boundary.

The area described contains approximately 531,160 acres of public land.

BOISE MERIDIAN

LEMHI COUNTY, IDAHO

Administered by the Idaho Falls District I-3

T. 11 N., R. 26 E.,
Secs. 3, 11, 14, 23, 24, 25, 26, 35, and 36, all public lands within Lemhi County and outside the National Forest boundary.
T. 11 N., R. 27 E.,
Sec. 30, W½;
Sec. 31.

The area described contains approximately 3,810 acres of public land.

3. As provided in paragraph 1 above, the following lands are further segregated from appropriation under the general mining laws:

BOISE MERIDIAN

LEMHI COUNTY, IDAHO

Little Morgan Creek Site

T. 15 N., R. 21 E.,
Sec. 1, SW¼NW¼, W½SW¼;
Sec. 2, SE¼NE¼, E½SE¼;
Sec. 11, NE¼NE¼.

Cow Creek Site

T. 16 N., R. 21 E.,
Sec. 8, lots 4 and 5.

Cronks Canyon Campground

T. 16 N., R. 21 E.,
Sec. 8, lot 8;
Sec. 17, lot 1.

Ezra Creek Recreation Site

T. 17 N., R. 21 E.,
Sec. 9, lots 1 and 4.

McKim Creek Site

T. 17 N., R. 21 E.,
Sec. 17, lot 2.

Lime Creek Site

T. 18 N., R. 21 E.,
Sec. 3, lot 6.

Ezra Creek Camp Site

T. 18 N., R. 21 E.,
Sec. 31, NE¼SW¼.

Ringle Creek Site

T. 18 N., R. 21 E.,
Sec. 33, lots 1, 4, and 5.

Dummy Creek Site

T. 19 N., R. 21 E.,
Sec. 14, lots 1 and 4.

Briney Creek Site

T. 19 N., R. 21 E.,
Sec. 23, lots 1 and 3, NE¼NW¼.

Waddington Creek Site

T. 19 N., R. 21 E.,
Sec. 34, lot 4.

Williams Creek Site

T. 20 N., R. 21 E.,
Sec. 10, N½;
Sec. 11, W½NW¼.

Twelve Mile Site

T. 20 N., R. 21 E.,
Sec. 35, lot 1.

Boyle Creek (Tower Creek) Site

T. 23 N., R. 21 E.,
Sec. 12, lot 6.
T. 23 N., R. 22 E.,
Sec. 7, lots 4 and 5;
Sec. 18, lot 1.

McDevitt Ridge Campsite

T. 19 N., R. 22 E.,
Sec. 24, NE¼NE¼.

Bolander's Ranch Site

T. 23 N., R. 22 E.,
Sec. 19, lots 4 and 6.

Haynes Creek Campsite

T. 19 N., R. 23 E.,
Sec. 2, SE¼NW¼, NE¼SW¼.

Baldy Ridge Campsite

T. 19 N., R. 23 E.,
Sec. 19, NE¼SE¼.

Cow Creek Campground

T. 18 N., R. 24 E.,
Sec. 12, SW¼NE¼.

Charbonneau Campground

T. 19 N., R. 24 E.,
Sec. 1, SW¼.

Agency Creek Campground

T. 19 N., R. 24 E.,
Sec. 25, SE¼NW¼.

Chief Tendoy Campground

T. 19 N., R. 28 E.,
Sec. 17, SE¼NE¼, NE¼SE¼, E½SW¼NE¼, E½NW¼SE¼.

White Creek Campground

T. 19 N., R. 25 E.,
Sec. 18, W½SE¼SE¼, NE¼SE¼SE¼.

"Smokey Cubs" Site

T. 16 N., R. 26 E.,
Sec. 24, S½NE¼, N½SE¼.
T. 16 N., R. 27 E.,
Sec. 19, SW¼NW¼, NW¼SW¼.

The total area of these sites is approximately 2,301 acres.

4. For a period of sixty (60) days from the date of publication of this notice in the FEDERAL REGISTER, all persons who wish to submit comments, suggestions, or objections concerning the proposed classification may present their views in writing to the Salmon District Manager, Bureau of Land Management, Post Office Box 430, Salmon, Idaho 83467.

5. A public hearing on this proposed classification will be held at 10 a.m. on September 28, 1967, in the Lemhi County Courthouse, Salmon, Idaho.

JOE T. FALLINI,
State Director.

[F.R. Doc. 67-9643; Filed, Aug. 16, 1967; 8:46 a.m.]

[Serial No. U-2022]

UTAH

Notice of Classification of Public Lands for Multiple Use Management

1. Pursuant to the Act of September 19, 1964 (78 Stat. 986; 43 U.S.C. 1411-18), and to the regulations in Title 43 CFR, Parts 2410 and 2411, the public lands within the area described below, together with any lands therein that may become public lands in the future, are classified for multiple use management. Publication of this notice segregates the public lands from appropriation under the agricultural land laws (43 U.S.C. Pts. 7 and 9; 25 U.S.C. 334), from sale under section 2455 of the Revised Statutes (43 U.S.C. 1171), and from disposition through State and private exchanges under Section 8 of the Act of June 28, 1934 (48 Stat. 1272), as amended by section 3 of the Act of June 26, 1936 (49 Stat. 1976; 43 U.S.C. 315g). The lands will remain open to all other applicable forms of appropriation including the mining and mineral leasing laws. As used herein, "public lands" means any lands withdrawn or reserved by Executive Order No. 6910 of November 26, 1934, as amended, or within a grazing district established pursuant to the Act of June 28, 1934 (48 Stat. 1269), as amended, which are not otherwise withdrawn or reserved for a Federal use or purpose.

2. The public lands affected are those administered by the Bureau of Land Management within the following described area:

All lands in Wayne and Garfield counties, Utah, lying between the Dirty Devil River and the Green and Colorado Rivers, exclusive of Canyonlands National Park and the extension thereto proposed by Senate Bill 26 of January 11, 1967, aggregating approximately 579,300 acres of public land.

3. Maps depicting these lands are on file and may be reviewed at the Bureau of Land Management's district office, 900 North Seventh East, Price, Utah 84501, and the State Office, Federal Building, 125 South State Street, Post Office Box 11505, Salt Lake City, Utah 84111.

4. No adverse comments were received following publication of a notice of proposed classification (32 F.R. 7638), or at the public hearing held at Bicknell, Utah, on June 22, 1967, except the Utah State Land Board has opposed segregation of any public lands from state selection through exchange, however, no specific objections to this classification proposal were made.

5. For a period of 30 days from the date of publication of this notice in the FEDERAL REGISTER, interested parties may submit comments to the Secretary of the Interior, LLM, 721, Washington, D.C. 20240. (43 CFR 2411.1-2(d))

R. D. NIELSON,
State Director.

[Serial No. U-2024]

UTAH

Notice of Classification of Public Lands for Multiple Use Management

1. Pursuant to the Act of September 19, 1964 (78 Stat. 986; 43 U.S.C. 1411-18), and to the regulations in Title 43 CFR, Parts 2410 and 2411, the public lands within the area described below, together with any lands therein that may become public lands in the future, are classified for multiple use management. Publication of this notice segregates the public lands from appropriation under the agricultural land laws (43 U.S.C. Pts. 7 and 9; 25 U.S.C. 334), and from sale under section 2455 of the Revised Statutes (43 U.S.C. 1171). The lands will remain open to all other applicable forms of apropriation including the mining and mineral leasing laws. As used herein, "public lands" means any lands withdrawn or reserved by Executive Order No. 6910 of November 10, 1934, as amended, or within a grazing district established pursuant to the Act of June 28, 1934 (48 Stat. 1269), as amended, which are not otherwise withdrawn or reserved for a Federal use or purpose.

2. The public lands affected are those administered by the Bureau of Land Management within the following described area which lies approximately 13 to 32 miles south of Roosevelt, Utah, in the southeast corner of Duchesne County and the west central portion of Uintah County:

Beginning at the point where the Uintah and Ouray Indian Reservation intersects the Green River in T. 9 S., R. 19 E., sec. 11, SLM; thence westerly and southerly along the Uintah and Ouray Indian Reservation boundary to a point where the Ashley National Forest boundary intersects the west line of sec. 27, T. 9 S., R. 15 E., SLM; thence south along the national forest boundary to the point where the national forest boundary intersects the west line of Lot 3, sec. 16, T. 10 S., R. 15 E., SLM; thence south about one-quarter mile to the north quarter corner of sec. 21, T. 10 S., R. 15 E., SLM; thence east one-quarter mile; south one-quarter mile; east one-quarter mile; south one-half mile; east one-quarter mile; south one-quarter mile; west one-quarter mile to the southeast corner sec. 21, T. 10 S., R. 15 E., SLM; thence south one-half mile; west one-quarter mile; south three-quarters mile; west one-quarter mile; south one-half mile; east one-quarter mile; south about one-quarter mile; thence east to the northeast corner sec. 4, T. 11 S., R. 15 E., SLM; thence south about 1 mile to the southwest corner sec. 3, T. 11 S., R. 15 E., SLM; thence east three-quarters mile; south one-quarter mile; east three-quarters mile; south one-quarter mile; east one-half mile; south one-quarter mile; east one-quarter mile; south one-quarter mile; east one-quarter mile; north one-quarter mile; east one-quarter mile; north one-quarter mile; east one-quarter mile to the east quarter corner sec. 12, T. 11 S., R. 15 E., SLM; thence east about three-quarters mile; north one-quarter mile; east one-half mile; north one-quarter mile; east one-half mile; north one-quarter mile; east three-quarters mile; south one-quarter mile; east one-quarter mile; south one-quarter mile; east one-half mile; south one-quarter mile; east three-quarters mile; south one-quarter mile; east 1 mile; south one-quarter mile to the southeast corner sec. 11, T. 11 S., R. 16 E., SLM; thence south one-quarter mile; east 1 mile; north one-quarter mile; east about 1 mile; south one-quarter mile; east one-quarter mile; south one-quarter mile; east one-quarter mile; south one-quarter mile; east one-half mile; south one-quarter mile to the southwest corner sec. 16, T. 11 S., R. 17 E., SLM; thence east one-half mile; south one-quarter mile; east one-quarter mile; south one-quarter mile; east one-half mile; south one-quarter mile; east one-quarter mile; north one-quarter mile; east three-quarters mile; north one-quarter mile; east one-quarter mile; north one-quarter mile; east one-quarter mile; north one-quarter mile; west one-quarter mile; north one-half mile; east three-quarters mile; south one-quarter mile; east 1 mile; south one-quarter mile; east one-half mile; north one-half mile; east three-quarters mile; south three-quarters mile; to the south quarter corner sec. 17, T. 11 S., R. 18 E., SLM; thence south three-quarters mile; thence west one-quarter mile; south one-half mile; east three-quarters mile; north one-quarter mile; east approximately one-half mile to a point on the Green River, said point being located near the northeast corner of Lot 3, sec. 28, T. 11 S., R. 18 E., SLM; thence northerly along the Green River to point of beginning.

The area described aggregates approximately 198,180 acres of public land.

3. Maps depicting these lands are on file and may be reviewed at the Bureau of Land Management's district office, 89 West Main Street, Vernal, Utah 84078, and the State Office, Federal Building, 125 South State Street, Post Office Box 11505, Salt Lake City, Utah 84111.

4. No adverse comments were received following publication of a notice of proposed classification (32 F.R. 7638), or at the public hearing held at Duchesne, Utah, on June 15, 1967.

5. For a period of 30 days from the date of publication of this notice in the FEDERAL REGISTER, interested parties may submit comments to the Secretary of the Interior, LLM, 721, Washington, D.C. 20240. (43 CFR 2411.1-2(d))

R. D. NIELSON,
State Director.

RINCON INDIAN RESERVATION, CALIF.

Ordinance Legalizing Sale of Intoxicants

Pursuant to the Act of August 15, 1953 (Public Law 277, 83d Cong., 1st sess.; 67 Stat. 586), I hereby certify that on July 30, 1967, the following ordinance relating to the application of the Federal Indian liquor laws on the Rincon Indian Reservation was duly enacted by the Rincon General Council which has jurisdiction over the area of Indian country included in the ordinance:

Whereas, Public Law 277, 83d Congress, approved August 15, 1953, provides that sections 1154, 1156, 3113, 3488, and 3618 of title 18, United States Code, commonly referred to as the Federal Indian liquor laws, shall not apply to any act or transaction within any area of Indian country, provided such act or transaction is in conformity with both the laws of the State in which such act or transaction occurs and with an ordinance duly adopted by the tribe having jurisdiction over such area of Indian country, certified by the Secretary of the Interior, and published in the FEDERAL REGISTER.

Therefore, be it resolved that the introduction, sale or possession of intoxicating beverages shall be lawful on the Rincon Reservation only within Tract 70 under the jurisdiction of the Rincon Band, said resolution pertaining only to said tract located in sec. 26, T. 10 S., R. 1 W., SBB & M, Calif., containing 3.90 acres more or less: *Provided*, That such introduction, sale or possession is in conformity with the laws of California

And be it further resolved, that any tribal laws, resolutions, or ordinances heretofore enacted which prohibit the sale, introduction, or possession of intoxicating beverages are hereby repealed.

Certification: This is to certify that the above resolution was passed by the Rincon General Council at a special duly called meeting held at the Rincon Meeting Hall, Rincon Reservation, on July 30, 1967, by a vote of 13 "for" and 0 "against".

HARRY R. ANDERSON,
Assistant Secretary of the Interior.

AUGUST 11, 1967.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

ASSISTANT TO THE SECRETARY FOR CIVIL RIGHTS

Delegation of Authority

The Secretary of Agriculture, pursuant to the authority vested in him by 7 CFR 15.2(c) of the Department of Agriculture's Regulations issued under the Civil Rights Act of 1964, hereby delegates to the Assistant to the Secretary for Civil Rights, U.S. Department of Agriculture, William M. Seabron, the authority to:

1. Make determinations required by 7 CFR 15.8(d) that compliance cannot be secured by voluntary means; and

2. Take or authorize the taking of any other action pursuant to 7 CFR 15.8(a) and 15.8(d) relating to compliance by "other means authorized by law."

Nothing herein shall preclude the Secretary of Agriculture from himself exercising the authority so delegated.

Done at Washington, D.C., this 11th day of August 1967.

ORVILLE L. FREEMAN,
Secretary of Agriculture.

[F.R. Doc. 67-9661; Filed, Aug. 16, 1967; 8:47 a.m.]

STATEMENT OF ORGANIZATION AND DELEGATIONS

Section 32a of the Statement of Organization and Delegations at 29 F.R. 16210 et seq. is amended to read as follows: "The functions of the Staff agencies are prescribed particularly in Title 1, Chapter 3 of the Administrative Regulations of the Department of Agriculture. The functions of each Staff agency may also be set forth as a notice in the FEDERAL REGISTER by the head of each such agency."

Done at Washington, D.C., this 11th day of August 1967.

ORVILLE L. FREEMAN,
Secretary of Agriculture.

DEPARTMENT OF COMMERCE

Bureau of International Commerce

[File No. 23(67)-11]

PETROSERVICE INTERNATIONAL GmbH

Notice of Related Party Determination

By order dated July 27, 1966, the Bureau of International Commerce, U.S. Department of Commerce entered an order against Manfred Hardt and other parties denying all privileges of participating in any manner or capacity in exportations from the United States of commodities or technical data through July 20, 1968. This order was published in the FEDERAL REGISTER on August 4, 1966 (31 F.R. 10480).

Section 382.1(b) of the Export Regulations provides in part that, to the extent necessary to prevent evasion of any order denying export privileges, said order may be made applicable to parties other than those named in the order with whom said named parties may then or thereafter be related by ownership, control, position of responsibility, affiliation, or other connection in the conduct of trade or related services. It has been determined by the Office of Export Control that within the purview of said section the firm Petroservice International GmbH located at Adolfsallee 27, 6200 Wiesbaden, Federal Republic of Germany, is a related party to said Manfred Hardt. Under this determination the terms of restriction of the order of July 27, 1966, are effective against said related party.

The said related party has been notified of this determination and has been advised that if he contends that the ruling is not justified or if at some future time it contends that it is no longer a related party to said Manfred Hardt, it may make application to have the ruling reconsidered or terminated. Due notice will be given of any termination or change in this related party determination.

Dated: August 9, 1967.

SHERMAN R. ABRAHAMSON,
Acting Director,
Office of Export Control.

Food and Drug Administration

AMCHEM PRODUCTS, INC.

Notice of Filing of Petition Regarding Pesticides

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 8F0631) has been filed by Amchem Products, Inc., Ambler, Pa., 19002, proposing the establishment of a tolerance of 0.3 part per million for negligible residues of the herbicide pyrazon (5-amino-4-chloro-2-phenyl-3(2H)-pyridazinone) in or on the raw agricultural commodities beets (roots and tops) and sugar beets (roots and tops).

The analytical method proposed in the petition for determining residues of the herbicide is a colorimetric technique based on hydrolysis to form aniline, which is diazotized and coupled, and determination of the absorbance of the resultant dye.

Dated: August 10, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

CIVIL AERONAUTICS BOARD

[Docket No. 17167; Order E-25820]

AIR CARRIER DISCUSSIONS

Supplementary Order Regarding Accessorial Cargo Services

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 11th day of August 1967.

By petition filed July 31, 1967, the Air Freight Forwarders Association (AFFA), requests a 1-month extension of the prior authority, granted by Order E-25146, May 15, 1967, for discussions relating to accessorial cargo services. In support of its request, AFFA states that the direct air carriers' discussions on this subject have been concluded, that two accessorial service agreements among some of the direct air carriers have resulted from such discussions and have been filed with the Board,[1] and that several others are being circulated for signature and may be filed with the Board in the near future. Accordingly, AFFA asserts that its members cannot resolve the issues among themselves pending a final filing by the direct air carriers, but that the forwarder discussion authority expired with July 31, 1967. Consequently, to provide a reasonable period of time for the forwarders to consider the direct carrier agreements, and to hold a further and final discussion meeting, AFFA seeks a 1-month extension of the forwarders' discussion authority. No person has advised the Board of any opposition to the AFFA petition.

The Board will approve the request of the Air Freight Forwarders Association. Any forwarder agreements which might result from these additional discussions would of necessity be cast in the light of whatever final action is taken by the direct air carriers. It seems reasonable to provide for additional time wherein the forwarders may consider the final actions of the airlines.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 412, and 414 thereof:

It is ordered, That:

1. Order E-25146, dated May 15, 1967, is amended to extend the indirect air carrier discussions on accessorial cargo services authorized therein for one month beginning with the service date of this order;

2. All other provisions of Order E-25146 remain unchanged.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

[F.R. Doc. 67-9688; Filed, Aug. 16, 1967; 8:50 a.m.]

[Docket No. 18365; Order E-25821]

MARTY'S FLYING SERVICE

Order To Show Cause Regarding Establishment of Final Service Mail Rate

Issued under delegated authority August 11, 1967.

The establishment of a final service mail rate for Martin J. McLaughlin doing business as Marty's Flying Service; Docket 18365.

By Order E-25108, May 5, 1967, the Board granted Martin J. McLaughlin doing business as Marty's Flying Service (Marty's) an exemption from Title IV of the Federal Aviation Act of 1958. Under this exemption, Marty's was authorized to carry mail between (a) Panama City, Tallahassee, and Orlando, Fla., and (b) Pensacola, Tallahassee, and Jacksonville, Fla. Subsequently, a final service mail rate of 17 cents per single engine aircraft mile and 23.5 cents per twin engine aircraft mile was established by Order E-25157, May 16, 1967.

The Postmaster General, at the request of Marty's, filed a petition on August 1, 1967, to increase the final service mail rates for the single engine transportation to 17.75 cents per aircraft mile. No adjustment on the twin engine aircraft rate is requested. The Post Office states that several months experience with this service has shown that there is greater ground time at Panama City than first anticipated, and, therefore, the present rate has not been fully compensatory to Marty's. However, this service has been very valuable to the Department, and it desires to continue to utilize Marty's services. It believes, from the experience under the present rate, that the proposed rates will be fair and reasonable compensation for this air transportation of mail by Marty's.

The Board, therefore, finds it in the public interest to adjust, determine, and fix the fair and reasonable rate of compensation to be paid to Marty's by the Postmaster General for transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, between the aforesaid points. Upon consideration of the Postmaster General's petition, and other matters officially noticed, the Board proposes to issue an order[1] to include the following findings, and conclusions:

This order will be published in the FEDERAL REGISTER.

[SEAL] HAROLD R. SANDERSON,
Secretary.

DELAWARE RIVER BASIN COMMISSION

COMPREHENSIVE PLAN

Notice of Public Hearing

Notice is hereby given that the Delaware River Basin Commission will hold a public hearing on Wednesday, August 23, 1967. The hearing will take place in the Conference Room on the 16th Floor of the Municipal Services Building, 15th and Kennedy Boulevard, Philadelphia beginning at 2 p.m. The subject of the hearing will be proposals to amend the Comprehensive Plan so as to include therein the following projects.

1. *Philadelphia Suburban Water Co.* An additional source of public water supply to be developed at the Bridgeport quarry in Upper Merion Township, Montgomery County, Pa. The new source will be used to augment existing company supplies and is expected to provide a daily average yield of 5.4 million gallons.

2. *City of New Castle.* A well water supply project to augment the city's supplies in New Castle, Del. Designated as School House Well No. 2, the new facility is expected to yield about 300 gallons per minute.

3. *Wyoming-Camden Sewer and Water Authority.* A well water supply project to augment existing public supplies in Wyoming, New Castle County, Del. The new facility is expected to yield 400 gallons per minute.

4. *Village of Deposit.* A well water supply project to augment public water supplies in the village of Deposit, Broome and Delaware Counties, N.Y. The new facility is expected to yield 350 gallons per minute.

5. *Womelsdorf Sewer Authority.* A sewage collection and treatment project for the Borough of Womelsdorf, Berks County, Pa. Secondary treatment will be provided for an average flow of 300,000 gallons per day prior to discharge to the Tulpehocken Creek.

Documents relating to the above proposed additions to the Comprehensive Plan may be examined at the Commission's offices. All persons wishing to testify are requested to register in advance with the Secretary to the Commission; Telephone 609-883-9500.

W. BRINTON WHITALL,
Secretary.

AUGUST 11, 1967.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 17057, 17629; FCC 67-910]

AIKEN CABLEVISION, INC., AND HOME CATV CO., INC.

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

In re petition of Aiken Cablevision, Inc., Aiken, S.C., Docket No. 17057, File No. CATV 100-19, for authority pursuant to § 74.1107 to operate CATV systems in North Augusta and Aiken, S.C.; and in re petition of Home CATV Co., Inc., city of Barnwell and town of Williston, S.C., Docket No. 17629, File No. CATV 100-145, for authority pursuant to § 74.1107 to operate CATV systems in the Augusta, Ga., television market.

1. Home CATV Co., Inc., proposes to operate two CATV systems in the city of Barnwell and the town of Williston, both Barnwell County, S.C. Home CATV proposes to carry the local signals of the two Augusta stations, Channels 6 (NBC, ABC) and 12 (CBS), and one Columbia, S.C., station, Channel 10 (NBC).[1] It is seeking to import the distant signals from Columbia: Channels 19 (CBS), 25 (ABC), and *35 (Educational); and from Charleston: Channels 2 (ABC), 4 (NBC), and 5 (CBS).[2]

2. The Augusta market has a total net weekly circulation of 186,500 television homes. The city of Augusta has a population of 70,626 and has Channels 6, 12, 26, and 54 assigned to it; also assigned within the market are Wrens, Ga.—*20; Aiken, S.C.—*44; and Allendale, S.C.—*14. Stations are operating on Channels 6, 12, and *20;[3] a construction permit has been granted for Channel *14; two applications have been filed for Channel 26; the one application for Channel 54 was withdrawn on June 23, 1967; Channel *44 is idle. Barnwell, 38 miles from Augusta and 10 miles from Williston, has a population of 4,568, while Williston, 32 miles from Augusta, has a population of 2,722. Neither of the communities is within the Augusta Urbanized Area or the Standard Metropolitan Statistical Area.

3. Two oppositions have been filed: Rust Craft Greeting Cards, Inc., licensee of Channel 12 (CBS), Augusta, states that the cumulative effect of CATV proposals in the Augusta market will be to erode the station's audience. Moreover, it challenges the duplication of network signals as not being within the contemplation of the Commission when it called for "multiple program choices" to be available. Augusta Telecasters, Inc., an applicant for Channel 26 in Augusta, claims that this proposal should be consolidated with a pending hearing in the same market, Cosmos Cablevision Corporation, 7 FCC 2d 223, 9 RR 2d 255.

4. On the facts presented in the petition and the opposing pleadings, we are unable to make the determination without hearing that importation of the requested distant signals would be consistent with the establishment and healthy maintenance of UHF development in the market. *Accordingly, it is ordered*, That the request for waiver is denied.

It is further ordered, That the request of Home CATV Co., Inc. (CATV 100-145), pursuant to § 74.1107 of the Commission's rules, is designated for hearing.

It is further ordered, That this proceeding is consolidated with, and upon the same issues as, the proceeding in Docket No. 17057.

Rust Craft Greeting Cards, Inc., and Augusta Telecasters, Inc., are already parties to the pending Augusta proceeding and need not be redesignated as parties. The burden of proof, as before, is upon the petitioner. A time and place for the hearing will be specified in another order.

Adopted: August 2, 1967.

Released: August 14, 1967.

NORTH ATLANTIC WESTBOUND FREIGHT ASSOCIATION

Notice of Agreement Filed for Approval

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1321 H Street NW., Room 609; or may inspect agreements at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 10 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

Mr. Ronald A. Capone, Kirlin, Campbell & Keating, The Farragut Building, 900 17th Street NW., Washington, D.C. 20006.

Agreement 5850-7, between the member lines of the North Atlantic Westbound Freight Association, proposes (1) the revocation and cancellation of a pending modification, Agreement 5850-6, which is presently in docketed proceedings (Docket No. 67-2), and (2) amendments of the basic agreement to increase the amount of the admission fee from £1,000 to £1,750.

Dated: August 14, 1967.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

RED SEA AND GULF OF ADEN/U.S. ATLANTIC AND GULF RATE AGREEMENT

Notice of a Petition Filed for Approval

Notice is hereby given that the following petition has been filed with the Commission for approval pursuant to section 14b of the Shipping Act, 1916, as amended (75 Stat. 762, 46 U.S.C. 814).

Interested parties may inspect a copy of the proposed contract form and of the petition at the Washington office of the Federal Maritime Commission, 1321 H Street NW., Room 609; or at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to the proposed contract form and the petition including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the proposed contract form and of the petition (as indicated hereinafter) and the comments should indicate that this has been done.

Notice of application to institute a dual rate system filed by:

Mr. James C. Pendleton, Secretary, Red Sea and Gulf of Aden/U.S. Atlantic and Gulf Rate Agreement, 26 Broadway, New York, N.Y. 10004.

Notice is hereby given that the member lines of the Red Sea and Gulf of Aden/U.S. Atlantic and Gulf Rate Agreement (Agreement No. 8558) have filed pursuant to section 14(b) of the Shipping Act, 1916, an exclusive patronage (dual rate) contract and an application for permission to institute a dual rate system for the movement of coffee from Red Sea and Gulf of Aden Ports to U.S. Atlantic and Gulf of Mexico Ports.

The application provides that contract rates shall be lower than the ordinary rates by a fixed percentage of 15 percent all in accordance with the terms and conditions described in the contract.

Dated August 14, 1967.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

FEDERAL POWER COMMISSION

[Docket Nos. G-3894 etc.]

ATLANTIC RICHFIELD CO. ET AL.

Notice of Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

AUGUST 8, 1967.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service heretofore authorized as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before August 31, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no protest or petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a protest or petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given: *Provided, however*, That pursuant to § 2.56, Part 2, Statement of General Policy and Interpretations, Chapter I of Title 18 of the Code of Federal Regulations, as amended, all permanent certificates of public convenience and necessity granting applications, filed after April 15, 1965, without further notice, will contain a condition precluding any filing of an increased rate at a price in excess of that designated for the particular area of production for the period prescribed therein unless at the time of filing such certificate application, or within the time fixed herein for the filing of protests or petitions to intervene the Applicant indicates in writing that it is unwilling to accept such a condition. In the event Applicant is unwilling to accept such condition the application will be set for formal hearing.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Acting Secretary.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein, nor should it be so construed.

[Docket Nos. G-3894 etc.]

ATLANTIC RICHFIELD CO. ET AL.

Findings and Order After Statutory Hearing

AUGUST 9, 1967.

Findings and orders after statutory hearing issuing certificates of public convenience and necessity, reinstating certificate and FPC gas rate schedule, amending certificates, permitting and approving abandonment of service, terminating certificates, and accepting related rate schedules and supplements for filing.

Each of the Applicants listed herein has filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce, for permission and approval to abandon service, or a petition to amend an existing certificate authorization, all as more fully described in the respective applications and petitions (and any supplements or amendments thereto) which are on file with the Commission.

The Applicants herein have filed related FPC gas rate schedules and propose to initiate, abandon or add natural gas service in interstate commerce as indicated by the tabulation herein. All sales certificated herein are at rates either equal to or below the ceiling prices established by the Commission's statement of general policy No. 61-1, as amended, or involve sales for which permanent certificates have been previously issued; except that the sale from the Permian Basin area of Texas is authorized to be made at the applicable area base rate and under the conditions prescribed in Opinion Nos. 468 and 468-A.

Wilshire Oil Company of Texas, Applicant in Docket No. CI61-198, has filed an application requesting the Commission to reinstate the certificate of public convenience and necessity heretofore issued in said docket and terminated by order of November 1, 1966, in Docket Nos. G-3083 et al., concurrently with the granting of permission and approval in Docket No. CI67-259 to abandon the subject sale. Concurrently with the termination of the certificate in Docket No. CI61-198 the Commission accepted for filing a notice of cancellation of Applicant's FPC Gas Rate Schedule No. 5. Applicant has advised the Commission that the owner of a production payment which was an economic burden on the leasehold has relinquished such payment in exchange for an overriding royalty of lesser amount which, in effect, notwithstanding the small amount of production of gas obtained from the leasehold, renders the continuance of operation and sale of gas no longer uneconomic. Applicant therefore requests that the certificate heretofore issued in Docket No. CI61-198 and its FPC Gas Rate Schedule No. 5 be reinstated.

The Commission's staff has reviewed each application and recommends each action ordered as consistent with all substantive Commission policies and required by the public convenience and necessity.

After due notice, no petitions to intervene, notices of intervention, or protests to the granting of any of the respective applications or petitions in this order have been received.

At a hearing held on July 27, 1967, the Commission on its own motion received and made a part of the record in these proceedings all evidence, including the applications, amendments, and exhibits thereto, submitted in support of the respective authorizations sought herein, and upon consideration of the record.

The Commission finds:

(1) Each Applicant herein is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission or will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and will therefore, be a "natural-gas company" within the meaning of said Act upon the commencement of the service under the respective authorizations granted hereinafter.

(2) The sales of natural gas hereinbefore described, as more fully described in the respective applications, amendments and/or supplements herein, will be made in interstate commerce, subject to the jurisdiction of the Commission, and such sales by the respective Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) The respective Applicants are able and willing properly to do the acts and to perform the services proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(4) The sales of natural gas by the respective Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are required by the public convenience and necessity and certificates therefore should be issued as hereinafter ordered and conditioned.

(5) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the certificate heretofore issued in Docket No. CI61-198 and subsequently terminated should be reinstated and that the related rate schedule should also be reinstated.

(6) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the certificate authorizations heretofore issued by the Commission in Docket Nos. G-3894, G-16139, CI63-575, CI65-564, and CI66-788 should be amended as hereinafter ordered and conditioned.

(7) The sales of natural gas proposed to be abandoned by the respective Applicants, as hereinbefore described, all as more fully described in the respective applications and in the tabulation herein, are subject to the requirements of subsection (b) of section 7 of the Natural Gas Act, and such abandonments should be permitted and approved as hereinafter ordered.

(8) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the certificates of public convenience and necessity heretofore issued to the respective Applicants relating to the abandonments hereinafter permitted and approved should be terminated.

(9) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the respective related rate schedules and supplements as designated in the tabulation herein should be accepted for filing as hereinafter ordered.

The Commission orders:

(A) Certificates of public convenience and necessity are issued upon the terms and conditions of this order, authorizing the sales by the respective Applicants herein of natural gas in interstate commerce for resale, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary for such sales, all as hereinbefore described and as more fully described in the respective applications, amendments, supplements, and exhibits in this proceeding.

(B) The certificates granted in paragraph (A) above are not transferable and shall be effective only so long as Applicants continue the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations, and orders of the Commission.

(C) The grant of the certificates issued in paragraph (A) above shall not be construed as a waiver of the requirements of section 4 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's regulations thereunder, and is without prejudice to any findings or orders which have been or may hereafter be made by the Commission in any proceedings now pending or hereafter instituted by or against the respective Applicants. Further, our action in this proceeding shall not foreclose nor prejudice any future proceedings or objections relating to the operation of any price or related provisions in the gas purchase contracts herein involved. Nor shall the grant of the certificates aforesaid for service to the particular customers involved imply approval of all of the terms of the respective contracts particularly as to the cessation of service upon termination of said contracts, as provided by section 7(b) of the Natural Gas Act. Nor shall the grant of the certificates aforesaid be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sales of natural gas subject to said certificates.

(D) The grant of the certificates issued herein on all applications filed after April 15, 1965, is upon the condition that no increase in rate which would exceed the ceiling prescribed for the given area by paragraph (d) of the Commission's statement of general policy No. 61-1, as amended, shall be filed prior to the applicable date, as indicated by footnote 8 in the attached tabulation.

(E) The initial rate for the sale authorized in Docket No. G-3894 shall be the applicable base area rate prescribed in Opinion No. 468, as modified by Opinion No. 468-A, as adjusted for quality, or the contract rate, whichever is lower; and no increase in rate in excess of said initial rate shall be filed before January 1, 1968.

(F) If the quality of the gas delivered by Applicant in Docket No. G-3894 deviates at any time from the quality standards set forth in Opinion No. 468, as modified by Opinion No. 468-A, so as to require a downward adjustment of the existing rate, a notice of change in rate shall be filed pursuant to the provisions of section 4 of the Natural Gas Act: *Provided, however*, That adjustments reflecting changes in B.t.u. content of the gas shall be computed by the applicable formula and charged without the filing of a notice of change in rate.

(G) Within 90 days from the date of initial delivery Applicant in Docket No. G-3894 shall file a rate schedule quality statement in the form prescribed in Opinion No. 468-A.

(H) The acceptance for filing of the related rate filing in Docket No. CI67-1732 is contingent upon Applicant's filing three copies of a billing statement as required by the regulations under the Natural Gas Act.

(I) The initial rate for the sale authorized in Docket No. CI63-575 shall be 15.0 cents per Mcf at 14.65 p.s.i.a., including tax reimbursement, plus B.t.u. adjustment; however, in the event that the Commission amends its policy statement No. 61-1, by adjusting the boundary between the Panhandle area and the "Other" Oklahoma area so as to increase the initial wellhead price for new gas in the area involved herein, Applicant thereupon may substitute the new rate reflecting the amount of such increase, and thereafter collect such new rate prospectively in lieu of the initial rate herein required.

(J) The certificates heretofore issued in Docket Nos. G-3894 and CI63-575 are amended by adding thereto authorization to sell natural gas to the same purchasers and in the same areas as covered by the original authorizations pursuant to the rate schedule supplements as indicated in the tabulation herein.

(K) The certificate heretofore issued in Docket No. CI65-564 is amended by deleting therefrom the interest of Mobil Oil Corp. and the related rate schedule is redesignated from Standard Oil Company of Texas, a division of Chevron Oil Co. (Operator), et al., to Standard Oil Company of Texas, a division of Chevron Oil Co.

(L) The certificates heretofore issued in Docket Nos. G-16139 and CI66-788 are amended by deleting therefrom authorization to sell natural gas from acreage assigned to Applicants in Docket Nos. CI67-1732 and CI67-1718, respectively.

(M) The certificate heretofore issued in Docket No. CI61-198 and the related rate schedule are reinstated, permission and approval to abandon the sale of natural gas issued in Docket No. CI67-259 are rescinded, and the acceptance for filing of Supplement No. 4 to Wilshire Oil Company of Texas FPC Gas Rate Schedule No. 5 is rescinded.

(N) Permission for and approval of the abandonment of service by the respective Applicants, as hereinbefore described, all as more fully described in the respective applications and in the tabulation herein are granted.

(O) Permission for and approval of the abandonment in Docket No. CI67-1729 shall not be construed to relieve Applicant of any refund obligation which may be ordered in the rate suspension proceedings pending in Docket Nos. RI66-127 and RI67-88.

(P) The certificates heretofore issued in Docket Nos. G-3555, G-4301, G-5617, G-12680, G-13321, G-13682, CI61-1715, CI62-1310, CI63-183, CI63-625, CI63-1467, CI64-901, CI64-1092, CI64-1185, CI64-1354, and CI66-363 are terminated.

(Q) The respective related rate schedules and supplements as indicated in the tabulation herein are accepted for filing, subject to the applicable Commission regulations under the Natural Gas Act to be effective on the dates as indicated in the tabulation herein.

By the Commission.

See footnotes at end of table.

[1] Jan. 1, 1968, moratorium provided by Opinion No. 468.
[2] By letter filed May 31, 1967, applicant accepts permanent authorization containing conditions similar to those imposed by Opinion No. 468, as modified by Opinion No. 468-A.
[3] Effective date: Date of initial delivery. (Applicant shall advise the Commission as to such date).
[4] Applicant is requesting reinstatement of its certificate and rate schedule and to resume a sale for which an abandonment was authorized on Nov. 1, 1966, in Docket No. CI67-256 (revised base arrangement makes sale economical).
[5] Effective date: Date of resumption of service.
[6] Amendment to the certificate filed to delete the interest of Mobil Oil Corp., a nonsignatory co-owner and to delete the term "(Operator) et al." from the rate schedule designation. Standard and Mobil are the only producers in the related rate filing. Mobil's letter dated Apr. 24, 1967, withdrawing authorization has been construed as an interest statement pursuant to sec. 154.91 and attached to the rate schedule as an exhibit.
[7] Jan. 1, 1968, moratorium pursuant to the Commission's statement of general policy No. 61-1, as amended.
[8] Ratifies contract dated Nov. 3, 1953, between the Ohio Oil Co., as seller and Tennessee Gas Pipeline Co., as buyer, currently on file as George Mitchell & Associates, Inc., Agent for Stephan C. Clark et al., FPC GRS No. 26 (dedicates acreage with various depth limitations).
[9] Basic contract ratified by Stephan C. Clark et al.
[10] Contract provides for a 1 year make-up Er gas paid for but not taken.
[11] Amends contract pricing provisions.
[12] Eliminates impermissible pricing provisions and provides for a rate of 15 cents for life of contract.
[13] Omitted.
[14] Omitted.
[15] Omitted.
[16] Production of gas no longer economically feasible.
[17] Effective date: Date of this order.
[18] Source of gas depleted.
[19] Between Flag Oil Corp. of Delaware and Arkansas Louisiana Gas Co. Adopts terms of Mar. 30, 1964, contract on file as Edwin L. Cox et al., FPC GRS No. 62.
[20] Assignment of ¼ interest in acreage from Edwin L. Cox to Applicant.
[21] No certificate or rate schedule filings were made for this sale under Manufacturers Contract No. L2430.
[22] 16.2 cents rate effective subject to refund in Docket No. RI67-98; 16 cents rate collected subject to refund in Docket No. RI66-127.
[23] On file as Gulf Oil Corp. FPC GRS No. 196.
[24] Assigns acreage from Gulf Oil Corp. to Applicant.

PUBLIC LAND LAW REVIEW COMMISSION

ORGANIZATION, FUNCTIONS, AND AVAILABILITY OF RECORDS AND INFORMATION

ORGANIZATION AND FUNCTIONS

Sec.
1. Organization.
2. Functions.

RECORDS AND INFORMATION

11. Records available.
12. Requests for inspection or copying of records.
13. Exempted records.
14. Schedule of fees.
15. Administrative review.

AUTHORITY: Sections 1–15 issued pursuant to the act of Sept. 19, 1964 (78 Stat. 982, 43 U.S.C. secs. 1391–1400) and 5 U.S.C. sec. 552.

ORGANIZATION AND FUNCTIONS

SECTION 1. *Organization.* (a) The Public Land Law Review Commission was established by the Act of September 19, 1964 (78 Stat. 982, 43 U.S.C. sections 1391–1400), hereinafter referred to as the Organic Statute, and is composed of 19 members, six of whom are members of the Committee on Interior and Insular Affairs of the U.S. Senate appointed by the President of the Senate, six members of the Committee on Interior and Insular Affairs of the U.S. House of Representatives appointed by the Speaker of the House, and six persons from outside the Federal Government, appointed by the President of the United States. The 19th member is the Chairman elected by the 18 appointed members.

(b) To aid and advise the Commission in the performance of its functions the Organic Statute provides for an Advisory Council and for Governors' Representatives. The Advisory Council is composed of 25 persons selected by the Commission representative of various major citizens' groups interested in the public lands and eight liaison officers designated by interested Federal departments and agencies. Each of the Governors of the 50 States has designated a Representative to the Commission. The Advisory Council, at the call of the Chairman, meets no less than once each 6 months.

(c) The principal members of the staff of the Commission are: Director; Assistant Director (Administration); Assistant Director (Program); General Counsel and Chief, Legal Group; Chief, Resources and Evaluation Group; and Administrative Officer.

(d) The Commission has delegated, with power to redelegate, all its administrative authority, including the authority to obligate funds, to the Chairman, who has redelegated all such authority to the Director. The Director is responsible, among other things, for the conduct of the Commission's study program and supervision of the staff of the Commission.

SEC. 2. *Functions.* (a) The principal functions of the Commission pursuant to the Organic Statute are to (1) study existing statutes and regulations governing the retention, management, and disposition of the public lands; (2) review the policies and practices of the Federal agencies having administrative jurisdiction over such lands; (3) compile data necessary to understand and determine the various demands on the public lands; and (4) recommend to the Congress and the President such modifications in existing laws, regulations, policies, and practices concerning the public lands as will, in the judgment of the Commission, best serve to provide the maximum benefit for the general public. The particular lands with respect to which the Commission is required to perform the foregoing functions are those categories of land and interests in land owned by the United States and listed in section 10 of the Organic Statute.

(b) Since the functions of the Commission are advisory in nature, as indicated in (a) above, it does not ordinarily render decisions or issue regulations affecting the rights or privileges of the general public. Pursuant to 5 U.S.C. sec. 552, records of the Commission, where they may affect the general public, will be made available at the offices of the Commission at 1730 K Street NW., Washington, D.C. 20006.

RECORDS AND INFORMATION

SEC. 11. *Records available.* (a) As used herein, Commission "records" include all opinions, orders, manuals, papers, maps, files, letters, memoranda, studies, reports, information, or other documentary materials in being that have come into the possession of the Commission in the discharge of its official duties, except documents originating in other Federal agencies and books or other published materials, or such documentary materials as study reports which the Commission has determined to publish or, in the opinion of the Director, will be published by the Commission. Articles, objects, equipment, and other nondocumentary materials are not included within "records."

(b) All records of the Commission shall be open to inspection or copying unless the record requested falls within one or more of the exempted categories set forth in section 13 hereof.

SEC. 12. *Requests for inspection or copying of records.* (a) Any person desiring to inspect or copy records known or believed to be in the possession of the Commission shall apply in person or in writing to the Administrative Officer of the Commission at the offices of the Commission at 1730 K Street NW., Washington, D.C. 20006. Personal requests may be made between the hours of 9 a.m. and 5 p.m. on weekdays (holidays excluded). The request should identify with particularity the document desired. An index identifying the subject matter of the records of the Commission is kept on file at the Commission offices for inspection on request.

(b) Except as may be otherwise provided in specific instances, a fee shall be levied for all record searches requiring more than 15 minutes in accordance with the schedule of fees set out in section 14 hereof. Likewise, a fee will be charged for copies of records or any portion thereof. These fees shall be so computed as to obtain full cost recovery of searching and copying.

SEC. 13. *Exempted records.* No record shall be withheld from inspection or copying unless such denial is authorized under the applicable provisions of the Organic Statute or 5 U.S.C. section 552 (b). However, the fact that a record or portion thereof is within one of the exempted classes under 5 U.S.C. section 552(b) does not imply that inspection or copying will be arbitrarily denied. In each instance the right to access will be carefully balanced with the general public interest considerations underlying the exemption. The following list contains examples of records which may be withheld from the public.

(a) Records required by section 8 of the Organic Statute to be kept confidential, i.e., material voluntarily submitted by witnesses on a confidential basis for the use of the Commission, or material which the Commission has required a witness or Government agency to produce and which theretofore had been submitted to a Government agency on a confidential basis protected by statute.

(b) Records required by Executive order to be kept secret in the interest of the national defense or foreign policy.

(c) Records related solely to the internal personnel rules and practices of the Commission. This exemption includes those internal instructions to Commission personnel concerning the manner in which such personnel carry out their assigned functions and activities for which the Commission has responsibility.

(d) Records exempted by statute other than 5 U.S.C. section 552.

(e) Trade secrets and commercial or financial information obtained from any person and privileged or confidential. This exemption will assure the protection of information furnished to and accepted by the Commission or any other Federal agency on the understanding that it will not be made public and will be protected as a confidential communication. The exemption includes certain business sales statistics; manufacturing, production or operating costs, inventories, customer lists; scientific or manufacturing processes, techniques, developments and designs; and various communications privileged under law. Commercial or financial information concerning such confidential matters as cost breakdowns, past profit, or overhead rates furnished to the Commission in contract proposals will not be disclosed, but the exemption does not include prices quoted to the Commission for materials or services.

(f) Intraagency memoranda or letters which would not be available by law to a private party in litigation with the Commission. Records concerning an incomplete transaction, such as a contract under negotiation, are not available for inspection since premature disclosure could have adverse effects upon both public and private interests. Minutes of

executive sessions of the Commission, or of the Commission and its Advisory Council or Governors' Representatives will not be available. However, a record will be maintained of the final vote of each member of the Commission on each matter on which such a vote is taken, and upon written request to the Director, with respect to any such identified matter, information as to final votes will be made available.

(g) Personnel and medical files and similar files, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. Among other things, it covers information given to the Commission in confidence and obtained from members of the public through questionnaires, surveys, and other inquiries. The names and duty stations of Federal employees are public information, but the public disclosure of employee home addresses and telephone numbers is not authorized.

(h) Geological and geophysical information and data (including maps) concerning wells. The explicit reference to wells does not preclude the exemption of similar data pertaining to other productive sites, such as mines, where the information has been obtained on a confidential basis.

SEC. 14. *Schedule of fees.* (a) Records search involving no more than 15 minutes will be made without charge. For searches requiring more than 15 minutes the charge will be at the rate of $2 for each half hour or fraction thereof after the first 15 minutes.

(b) Copying service will be performed at the following rates: The minimum charge will be $1. The fee for photocopying, including handling, will be at the rate of 35 cents per page.

(c) From time to time the Commission holds public meetings or hearings of which transcripts are prepared by reporters under contract with the United States. In such cases copies of material from such transcripts must be procured from such contract reporters.

SEC. 15. *Administrative review.* (a) In the event any record of the Commission is withheld from any person who applies therefor, administrative review of such withholding may be initiated by filing a written request for review within 30 days of the date of denial of the request. Review shall be made by the Director and requests for review shall be addressed to him at the offices of the Commission.

(b) The request for review shall set forth the circumstances of the denial and the reasons for appeal from the denial. No personal appearance, oral argument, or hearing will be involved.

(c) Decisions on review shall be in writing, shall briefly state the reasons for the decision, and shall be promptly communicated to the petitioner.

(d) All decisions on review by the Director shall be final and conclusive, and the applicant shall be presumed to have exhausted his administrative remedies. The petitioner may then file a complaint in a U.S. District Court of competent jurisdiction pursuant to 5 U.S.C. 552(a)(3).

MILTON A. PEARL,
Director.

SECURITIES AND EXCHANGE COMMISSION

[70-4519]

MICHIGAN CONSOLIDATED GAS CO.

Notice of Proposed Issue and Sale of Notes to Banks

AUGUST 11, 1967.

Notice is hereby given that Michigan Consolidated Gas Co. ("Michigan"), 1 Woodward Avenue, Detroit, Mich. 48226, a gas utility subsidiary company of American Natural Gas Co., a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 and 7 thereof as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Michigan proposes to issue and sell, from time to time commencing in September 1967 and in varying amounts as funds are required, its unsecured promissory notes in an aggregate face amount not exceeding $25 million to the following banks in the respective amounts shown:

First National City Bank, New York, N.Y.	$9,000,000
National Bank of Detroit, Mich.	9,000,000
Manufacturers Hanover Trust Co., New York, N.Y.	2,250,000
The Chase Manhattan Bank (National Association), New York, N.Y.	2,250,000
Manufacturers National Bank of Detroit, Mich.	1,250,000
The Detroit Bank & Trust Co., Detroit, Mich.	1,250,000
Total	25,000,000

Each note will be dated as of the date of issue, will mature November 30, 1968, and will bear interest at the prime rate in effect at First National City Bank, New York, N.Y., on the date of each borrowing, which interest rate will be adjusted to the prime rate in effect at such bank at the beginning of each 90-day period subsequent to the date of the first borrowing. There is no commitment fee, and the notes may be prepaid at any time without penalty. Michigan proposes to use the proceeds from the sale of the proposed notes to finance, in part, its construction costs, which for the year 1967 are estimated at $32,550,000. To the extent that the net proceeds from any permanent debt financing effected by Michigan prior to the maturity of the notes to be issued hereunder is not required for the retirement of such principal amount of debentures, the net proceeds will be applied in reduction of, or in total payment of, the notes to be issued hereunder and the lines of credit will be reduced by the amount of the notes prepaid.

Fees and expenses incident to the proposed transactions are estimated at $1,000, including legal fees of $500. The declaration states that no approval or consent of any regulatory body other than this Commission is necessary for the consummation of the proposed transactions.

Notice is further given that any interested person may, not later than September 6, 1967, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed contemporaneously with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS,
Secretary.

SUBSCRIPTION TELEVISION, INC.

Order Suspending Trading

AUGUST 11, 1967.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, $1 par value of Subscription Television, Inc., New York, N.Y., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period August 14, 1967, through August 23, 1967, both dates inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice 1096]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

AUGUST 11, 1967.

The following applications are governed by Special Rule 1.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with § 1.24(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of § 1.247(d)(4) of the special rule, and shall include the certification required therein.

Section 1.247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's General Policy Statement Concerning Motor Carrier Licensing Procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record.

The publications hereinafter set forth reflect the scope of the applications as filed by applicants, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

No. MC 200 (Sub-No. 223), filed July 28, 1967. Applicant: RISS & COMPANY, INC., 106 West 10th Street, Wilmington, Del. Mailing address: Temple Building, 903 Grand Avenue, Kansas City, Mo. Applicant's representative: Ivan E. Moody, 12th Floor, Temple Building, 903 Grand Avenue, Kansas City, Mo. 64106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Drugs, medicines, cough drops, toilet preparations, and soap*, from Philadelphia and Hatboro, Pa., to Mount Clemens, Mich. NOTE: If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 531 (Sub-No. 235), filed July 27, 1967. Applicant: YOUNGER BROTHERS, INC., 4904 Griggs Road, Post Office Box 14287, Houston, Tex. 77021. Applicant's representative: Wray E. Hughes (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from Long Beach, Calif., to Toledo, Ohio. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

No. MC 1222 (Sub-No. 30), filed July 31, 1967. Applicant: THE REINHARDT TRANSFER COMPANY, a corporation, 1410 10th Street, Portsmouth, Ohio 45662. Applicant's representative: Robert H. Kinker, 711 McClure Building, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Knocked down fiber board cartons*, not corrugated, nested solid, from Portsmouth, Ohio, to points in Indiana and Kentucky. NOTE: If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 3252 (Sub-No. 43), filed July 31, 1967. Applicant: PAUL E. MERRILL, doing business as MERRILL TRANSPORT CO., 1037 Forest Avenue, Portland, Maine. Applicant's representative: Francis E. Barrett, Jr., Investors Building, 536 Granite Street, Braintree, Mass. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and lumber stock*, from Portland and Fryeburg, Maine, to points in New York, New Jersey, Pennsylvania, Delaware, Maryland, North Carolina, Virginia, Indiana, Kentucky, Ohio, and Michigan. NOTE: If a hearing is deemed necessary, applicant requests it be held at Portland, Maine, or Boston, Mass.

No. MC 17683 (Sub-No. 23), filed July 27, 1967. Applicant: ELM CITY OIL CO., INC., 73 Emerald Street, Keene, N.H. 03431. Applicant's representative: Arthur A. Greene, Jr., 40 Stark Street, Manchester, N.H. 03101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products* in tank vehicles, from Springfield and Holyoke, Mass., to points in Windham and Windsor Counties, Vt., and points in Cheshire, Sullivan, Hillsborough, and Grafton Counties, N.H. NOTE: If a hearing is deemed necessary, applicant requests it be held at Concord, N.H.

No. MC 33322 (Sub-No. 14), filed August 2, 1967. Applicant: STERLING E. APGAR, JOHN N. APGAR, RUSSELL I. APGAR AND DOROTHY E. APGAR, a partnership, doing business as APGAR BROS., 232 West Union Avenue, Bound Brook, N.J. Applicant's representative: William P. Sullivan, 1825 Jefferson Place NW., Washington, D.C. 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Roofing and building materials* and *materials, equipment, and supplies* used in the manufacture, installation, or application of roofing and building materials, between Erie, Pa., and points within 10 miles thereof, on the one hand, and, on the other, points in Ohio, and points in Brooke, Hancock, Marshall, and Ohio Counties, W. Va., under contract with The Ruberoid Co. of South Bound Brook, N.J. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 39406 (Sub-No. 14), filed August 2, 1967. Applicant: CENTRAL MOTOR LINES, INCOPORATED, 324 North College Street, Post Office Box 1067, Charlotte, N.C. 28201. Applicant's representative: Leonard S. Cassell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the borough of Hatboro, Montgomery County, Pa., as an off-route point in connection with applicant's two presently authorized regular route operations as follows: (1) Between New York, N.Y., and North Augusta, S.C., and (2) between junction U.S. Highway 1 and U.S. Highway 130, near Milltown, N.J., and Easley, S.C. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Philadelphia, Pa.

[1] Copies of Special Rule 1.247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

No. MC 41116 (Sub-No. 31), filed July 31, 1967. Applicant: FOGELMAN TRUCK LINE, INC., Post Office Box 603, Crowley, La. 70526. Applicant's representative: Austin L. Hatchell, 1102 Perry Brooks Building, Austin, Tex. 78701. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer, fertilizer materials, acids, and chemicals*, including but not limited to *anhydrous ammonia, fertilizer solutions, insecticides, fungicides, herbicides, aqua ammonia, methanol, urea, and urea products*, from the plantsite of Gulf Oil Corp. (Faustina Works) at or near Donaldsonville, La., to points in Alabama, Arkansas, Louisiana, Mississippi, Missouri, Oklahoma, Tennessee, and Texas under a continuing contract with Gulf Oil Corp., Chemical Department. NOTE: Applicant holds common carrier authority in MC 123993, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at New Orleans or Baton Rouge, La.

No. MC 42487 (Sub-No. 676), filed July 26, 1967. Applicant: CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 175 Linfield Drive, Menlo Park, Calif. 94025. Applicant's representative: Robert C. Stetson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except liquid petroleum products, in bulk, in tank trucks and except household goods as defined in *Practices of Motor Carriers of Household Goods*, 17 M.C.C. 467, between Wells, Nev., and Salt Lake City, Utah, over U.S. Interstate Highway 80 (or U.S. Highway 40, on those portions of the route not presently designated as U.S. Interstate Highway 80), serving no intermediate points, and return over the same route. NOTE: If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif., or Salt Lake City, Utah.

No. MC 48958 (Sub-No. 97), filed July 27, 1967. Applicant: ILLINOIS-CALIFORNIA EXPRESS, INC., 510 East 51st Avenue, Denver, Colo. 80216. Applicant's representative: Morris G. Cobb, 601 Ross Street, Post Office Box 9050. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, including classes A and B explosives, but excluding household goods as defined by the Commission, livestock, commodities in bulk, those of unusual value, those requiring special equipment, and those injurious or contaminating to other lading, between Albuquerque, N. Mex., and El Paso, Tex.; (1) from Albuquerque over U.S. Highway 85 to El Paso and return over the same route, and (2) from Albuquerque over Interstate Highway 25 (U.S. Highway 85) to junction U.S. Highway 70 at or near Las Cruces, N. Mex., thence over U.S. Highway 70 to junction Interstate Highway 10 at or near Las Cruces, N. Mex., thence over Interstate Highway 10 (U.S. Highway 85) to El Paso and return over the same route, serving no intermediate points, as alternate routes for operating convenience only in connection with applicant's present authority. NOTE: If a hearing is deemed necessary, applicant requests it be held at Santa Fe or Albuquerque, N. Mex., or El Paso, Tex.

No. MC 51146 (Sub-No. 59), filed July 31, 1967. Applicant: SCHNEIDER TRANSPORT & STORAGE, INC., 817 McDonald Street, Green Bay, Wis. 54306. Applicant's representative: Charles W. Singer, 33 North Dearborn Street, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Such products* as are manufactured or distributed by manufacturers or converters of cellulose materials and products and paper and paper products (except commodities in bulk, in tank or hopper type equipment), from the plant and warehouse sites of Personal Products Co. and Cel Fibre, Inc., at or near Wilmington, Ill., to Kansas City, Mo., Omaha, Nebr., Pittsburgh, Pa., and points in Illinois, Indiana, Iowa, Kentucky, Lower Peninsula of Michigan, Minnesota, Missouri, Ohio, West Virginia, and Wisconsin, and (2) *returned and rejected shipments* of the above-described commodities, from the above-named destination area to the above-named origin points. NOTE: Applicant states that no duplicating authority is being sought. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 52064 (Sub-No. 25), filed July 27, 1967. Applicant: S & C TRANSPORT CO., INC., 65 State Street, South Hutchinson, Kans. 67501. Applicant's representative: James F. Miller, 7501 Mission Road, Shawnee Mission, Kans. 66208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Products used in the agricultural, water treatment, food processing, wholesale grocery, and institutional supply industries when shipped in mixed truckloads with salt and salt products*, from the plantsite of Morton Salt Co., South Hutchinson, Kans., to points in Minnesota, Arkansas, Nebraska, Oklahoma, North Dakota, Wyoming, points in Colorado on and east of U.S. Highway 85, points in Curry, Bernalillo, Mora, Santa Fe, Colfax, Harding, Los Alamos, Taos, Quay, Guadalupe, Union, San Miguel, Torrance, and Rio Arriba Counties, N. Mex., and points in Cochran, Bailey, Randall, Roberts, Crosby, Swisher, Potter, Sherman, Wichita, Lubbock, Castro, Oldham, Dallas, Cottle, Hall, Gray, Ochiltree, Yoakum, Dickens, Briscoe, Carson, Hansford, Floyd, Collingsworth, Hartley, Foard, Terry, Motley, Childress, Wheeler, Lipscomb, Lamb, Armstrong, Hutchinson, Wilbarger, Lynn, Hale, Donley, Moore, Hockley, Parmer, Deaf Smith, Hemphill, Hardeman, Garza, and Kent Counties, Tex. NOTE: If a hearing is deemed necessary, applicant requests it be held at Wichita or Topeka, Kans.

No. MC 59120 (Sub-No. 29), filed July 31, 1967. Applicant: EAZOR EXPRESS, INC., Eazor Square, Pittsburgh, Pa. 15201. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, serving the plantsite of Pittsburgh Plate Glass Co. at or near Kebert Park, Pa. (approximately 10 miles south of Meadville, Pa., near U.S. Highway 19), as an off-route point in connection with carrier's authorized regular route operation between Pittsburgh, Pa., and Meadville, Pa. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 59583 (Sub-No. 112), filed August 1, 1967. Applicant: THE MASON & DIXON LINES, INCORPORATED, Eastman Road, Kingsport, Tenn. 37660. Applicant's representative: Clifford E. Sanders, 321 East Center Street, Kingsport, Tenn. 37660. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, serving the Argonne Industrial District located in points in Will and Du Page Counties, Ill., over U.S. Highway 41 between Chicago, Ill., and the junction of U.S. Highway 41 with U.S. Highway 52 near Fowler, Ind., as an off-route point in connection with applicant's presently authorized regular-route authority. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 61440 (Sub-No. 111), filed July 19, 1967. Applicant: LEE WAY MOTOR FREIGHT, INC., 3000 West Reno, Oklahoma City, Okla. 73106. Applicant's representative: David Wm. West, 363 North First Avenue, Phoenix, Ariz. 85003. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, between points within a 25-mile radius of Phoenix, Ariz. NOTE: Applicant states it would tack at Phoenix, Ariz., and points in California, Arizona, New Mexico, Texas, Colorado, Oklahoma, Kansas, Missouri, Illinois, Ohio, Pennsylvania, and West Virginia. Common control may be involved. Applicant also states that no duplicating authority is being sought. If a hearing is deemed necessary, applicant requests it be held at Phoenix, Ariz.

No. MC 62826 (Sub-No. 20), filed August 3, 1967. Applicant: CAROLINA-NORFOLK TRUCK LINE, INC., 1405 Gordon Avenue, Richmond, Va. 23224. Applicant's representative: Francis W. McInerny, 1000 16th Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle over regular routes, transporting: *General commodities*, except those of unusual value, dangerous explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, serving points in North Carolina located east or north of a line beginning at the North Carolina-Virginia State line over North Carolina Highway 186 to its intersection with U.S. Highway 158 at or near Belcross, thence over U.S. Highway 158 to its intersection with U.S. Highway 17 at or near Elizabeth City, thence southerly over U.S. Highway 17 to Washington, N.C., thence along the north shore of the Pamlico River to Pamlico Sound, thence through the Ocracoke Inlet to the Atlantic Ocean as off-route territory in connection with applicant's regular routes extending between Washington, N.C., over U.S. Highway 17, U.S. Highway 158 and North Carolina Highway 166 to the Virginia-North Carolina State line. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 65916 (Sub-No. 10), filed August 3, 1967. Applicant: WARD TRUCKING CORP., Ward Tower, Altoona, Pa. 16603. Applicant's representative: Henry M. Wick, Jr., 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, dangerous explosives, livestock, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), serving Kebert Park, Greenwood Township (Crawford County), Pa., as an off-route point in connection with applicant's regular route operations. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it b held at Washington, D.C., or Harrisburg, Pa.

No. MC 69116 (Sub-No. 109), filed July 31, 1967. Applicant: SPECTOR FREIGHT SYSTEM, INC., 205 West Wacker Drive, Chicago, Ill. 60606. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, livestock, household goods as described by the Commission, commodities in bulk, and those requiring special equipment, (1) between Port Huron, Mich., and Flint, Mich., over Michigan Highway 21, serving no intermediate points; (2) between Flint, Mich., and Grand Rapids, Mich., over Michigan Highway 21, serving no intermediate points; (3) between Battle Creek, Mich., and Lansing, Mich., over Michigan Highway 78 serving no intermediate points; and, (4) between Lansing, Mich., and Flint, Mich., over Michigan Highway 78 serving no intermediate points, as alternate routes for operating convenience only, in connection with applicant's authorized regular-route operations. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 72907 (Sub-No. 19), filed August 3, 1967. Applicant: LIBERTY TRUCKING COMPANY, a corporation, 1401 West Fulton Street, Chicago, Ill. 60607. Applicant's representative: Nancy J. Johnson, 111 South Fairchild Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, serving Lake Mills, Wis., as an off-route point in connection with authorized regular route service on U.S. Highway 12 between Fort Atkinson and Madison, Wis. NOTE: If a hearing is deemed necessary, applicant requests it be held at Madison or Milwaukee, Wis., or Chicago, Ill.

No. MC 76032 (Sub-No. 214), filed July 26, 1967. Applicant: NAVAJO FREIGHT LINES, INC., 1205 South Platte River Drive, Denver, Colo. 80223. Applicant's representative: O. Russell Jones, 215 Lincoln Avenue, Post Office Box 2228, Santa Fe, N. Mex. 87501. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except classes A and B explosives, those of unusual value, livestock, farm products, grain and hay, fresh milk, fresh vegetables, perishable products which require refrigeration, lumber, in bulk, in truckloads, sand and gravel, coal in bulk, rock asphalt, commodities in bulk, corrosive acids, new automobiles, household goods as defined by the Commission, commodities requiring special equipment, and those injurious or contaminating to other lading, between La Mar, Colo., and junction U.S. Highways 54 and 154 at or near Mullinville, Kans.; from La Mar over U.S. Highway 50 to Dodge City, Kans., thence over U.S. Highway 154 to junction U.S. Highway 54, at or near Mullinville, Kans., and return over the same route, as an alternate route for operating convenience only, in connection with applicant's presently authorized regular routes, serving no intermediate point. NOTE: If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 80428 (Sub-No. 63), filed July 31, 1967. Applicant: McBRIDE TRANSPORTATION, INC., Goshen, N.Y. Applicant's representative: Robert V. Giannini, 900 Midtown Tower, Rochester, N.Y. 14604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Poultry feed*, in bulk, from Chatham, N.Y., to points in Massachusetts, Connecticut, Vermont, and Rhode Island. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Albany, N.Y.

No. MC 81495 (Sub-No. 2), filed July 17, 1967. Applicant: GRAYPORT TRANSFER & STORAGE COMPANY, INC., 601 Ninth Street, Hoquiam, Wash. 98550. Applicant's representative: George Kargianis, 609 Norton Building, Seattle, Wash. 98104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in Grays Harbor County, Wash. NOTE: If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash., or Portland, Oreg.

No. MC 85454 (Sub-No. 2) (Amendment), filed July 21, 1966, published in the FEDERAL REGISTER issue of September 1, 1966, amended and republished as amended, this issue. Applicant: BLACKWOOD'S MOTOR SERVICE, INC., 319 Pearl Street, Montgomery, Ill. 60538. Applicant's representative: George S. Mullins, 4704 West Irving Park Road, Chicago, Ill. 60641. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *General commodities*, (a) between points within 50 miles of Aurora, Ill., and (b) between points within 50 miles of Aurora, Ill., on the one hand, and, on the other, points in Illinois, (2) *general commodities* (except those of unusual value, and classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between points within a 50-mile radius of Aurora, Ill. (except points in the Chicago, Ill., commercial zone, in Illinois), and points in Benton, Carroll, Cass, Clinton, Fountain, Howard, Jasper, Lake, La Porte, Newton, Porter, Pulaski, Starke, Tippecanoe, Tipton, Warren, and White Counties, Ind. NOTE: The purpose of this republication is to change the words in the territorial description to read "between" points in Illinois, etc., "and" points located in the Indiana counties named, rather that "from" and "to". Applicant conducts operations in Illinois pursuant to a certificate of registration in MC 85454 (Sub-No. 1). Since applicant now seeks to conduct operations in Indiana, it now seeks a certificate of public convenience and necessity. If a hearing is deemed necessary, applicant requests it to be held in Chicago, Ill.

No. MC 87720 (Sub-No. 68), filed July 28, 1967. Applicant: BASS TRANSPORTATION CO., INC., Old Croton Road, Flemington, N.J. 08822. Applicant's representative: Bert Collins, 140 Cedar Street, New York, N.Y. 10006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Rubber heels, taps, soles, and soling*, from Ripley, Miss., to Harrisburg, Pa., and Chelsea, Mass.; (2) *rubber belting, matting, stair treads, packing, hose, machine parts, rubber heels, taps, soles, and soling*, from Cambridge and Chelsea, Mass., to Atlanta, Ga., and Ripley, Miss., and (3) *materials and supplies used in the manufacture of rubber heels, soles, taps, and soling*

(other than bulk), from Chelsea, Stoughton, and Cambridge, Mass., and Pottstown, Pa., to Ripley, Miss., under contract with American Biltrite Rubber Co., Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 95876 (Sub-No. 68), filed July 31, 1967. Applicant: ANDERSON TRUCKING SERVICE, INC., 203 Cooper Avenue North, St. Cloud, Minn. 56302. Applicant's representative: Donald A. Morken, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sectional wooden fencing, wood sections, wood posts, wood rails, and accessories* used in the installation thereof, from points in Amberg Township (Marinette County), Wis., to points in Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas, and Wyoming. NOTE: If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 96633 (Sub-No. 3), filed July 24, 1967. Applicant: UNITED DRAYAGE COMPANY, a corporation, 2425 Porter Street, Los Angeles, Calif. 90021. Applicant's representative: R. Y. Schureman, 1010 Wilshire Boulevard, Los Angeles, Calif. 90017. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading), between points in the county of Honolulu (Island of Oahu), Hawaii. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Honolulu, Hawaii.

No. MC 99892 (Sub-No. 2), filed July 31, 1967. Applicant: JOHN DONALD ROWE, 9879 San Fernando Road, Pacoima, Calif. 91331. Applicant's representative: R. Y. Schureman, 1010 Wilshire Boulevard, Los Angeles, Calif. 90017. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, dry, in bulk, between points in California. NOTE: If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

No. MC 102560 (Sub-No. 9), filed July 28, 1967. Applicant: FREILER INDUSTRIES, INC., Box 636, Amite, La. 70422. Applicant's representative: Harold R. Ainsworth, 2307 American Bank Building, New Orleans, La. 70130. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Steel and iron castings* (machined and unmachined), (2) *steel reinforcing bars, angles, channels, and beams;* (3) *wooden patterns for castings;* (4) *crated bolts, nuts, and bushings;* and (5) *bronze bearings and pillar blocks*, from the plantsite of Dibert, Bancroft & Ross Co., Ltd., located near Amite, La., to points in the United States (except Alaska and Hawaii). NOTE: If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 103880 (Sub-No. 401), filed July 28, 1967. Applicant: PRODUCERS TRANSPORT, INC., 215 East Waterloo Road, Akron, Ohio 44306. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from Flint, Mich., to Toledo, Ohio. NOTE: If a hearing is deemed necessary, applicant requests it be held at Cleveland, Ohio.

No. MC 103880 (Sub-No. 402), filed July 31, 1967. Applicant: PRODUCERS TRANSPORT, INC., 215 East Waterloo Road, Akron, Ohio 44306. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Chemicals and petroleum products*, in bulk, in tank vehicles, from Fort Wayne, Ind., to points in Michigan. NOTE: If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind., or Detroit, Mich.

No. MC 103993 (Sub-No. 292), filed July 28, 1967. Applicant: MORGAN DRIVE AWAY, INC., 2800 West Lexington Avenue, Elkhart, Ind. 46514. Applicant's representative: Robert E. Tessar (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers* designed to be drawn by passenger automobiles, from points in Humphrey County, Miss., to points in the United States (except Alaska and Hawaii). NOTE: If a hearing is deemed necessary, applicant requests it be held at Jackson, Miss., or Memphis, Tenn.

No. MC 104149 (Sub-No. 182), filed August 2, 1967. Applicant: OSBORNE TRUCK LINE, INC., 501 North 31st Street, Birmingham, Ala. Applicant's representative: John P. Carlton, 327 Frank Nelson Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plastic pipe, plastic or iron connections, fittings, and accessories*, from the plantsite and/or warehouse facilities of the Clow Corp. at or near Lincoln, Talladega County, Ala., to points in Arkansas, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia, and (2) *equipment, materials, and supplies* used in the manufacture, processing, and distribution of (1) above, on return. NOTE: If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala., or Atlanta, Ga.

No. MC 107002 (Sub-No. 340), filed August 7, 1967. Applicant: HEARIN-MILLER TRANSPORTERS, INC., Post Office Box 1123, Jackson, Miss. 39205. Applicant's representatives: Harold D. Miller, Jr., Post Office Box 222567, Jackson, Miss. 39205 and John J. Borth (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in packages and in drums, from Rogerslacy, Miss., to points in Alabama, Georgia, North Carolina, South Carolina, and Tennessee. NOTE: If a hearing is deemed necessary, applicant requests it be held at Jackson, Miss., or Birmingham, Ala.

No. MC 107107 (Sub-No. 384), filed July 27, 1967. Applicant: ALTERMAN TRANSPORT LINES, INC., 2424 Northwest 46th Street, Miami, Fla. 33142. Applicant's representative: Ford W. Sewell (Same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts* as described in section A of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Muncie and South Bend, Ind., to Miami, Fla. NOTE: If a hearing is deemed necessary, applicant requests it be held at Miami, Fla.

No. MC 107403 (Sub-No. 724), filed August 1, 1967. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: J. E. Nelson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bauxite ore*, in bulk, from West Monroe, La., to Redwood, Miss. NOTE: If a hearing is deemed necessary, applicant requests it be held at Baton Rouge, La., or Washington, D.C.

No. MC 107496 (Sub-No. 579), filed July 31, 1967. Applicant: RUAN TRANSPORT CORPORATION, Keosauqua Way at Third, Post Office Box 855, Des Moines, Iowa 50304. Applicant's representative: H. L. Fabritz (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank or hopper type vehicles, from the plantsite of Chemplex Co., located at or near Clinton, Iowa, to points in Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, New York, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Texas, Tennessee, Vermont, Virginia, West Virginia, and Wisconsin. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa.

No. MC 107515 (Sub-No. 584), filed July 27, 1967. Applicant: REFRIGERATED TRANSPORT CO., INC., Post Office Box 10799, Station A, Atlanta, Ga. 30310. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, (1) from Buffalo, Barber, and Fredonia, N.Y., to points in Michigan, Ohio, Indiana, and Illinois, and (2) from Fredonia, N.Y., to points in Georgia, Alabama, Florida, North Carolina, South Carolina, Tennessee, Mississippi, and

Kentucky. NOTE: If a hearing is deemed necessary, applicant requests it be held at Buffalo, N.Y., or Washington, D.C.

No. MC 107906 (Sub-No. 22), filed July 28, 1967. Applicant: TRANSPORT MOTOR EXPRESS, INC., Post Office Box 958, Fort Wayne, Ind. 46801. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), serving the site of the Pittsburgh Plate Glass Co. (Kebert Park) at or near Meadville, Pa., as an off-route point in connection with applicant's regular route operations. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 108207 (Sub-No. 226), filed July 31, 1967. Applicant: FROZEN FOOD EXPRESS, INC., 318 Cadiz Street, Post Office Box 5888, Dallas, Tex. 75222. Applicant's representative: J. B. Ham (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, dairy products and articles distributed by meat packinghouses*, as described in sections A, B, and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk in tank vehicles), from Fort Worth, Tex., to Muskogee, Okla. NOTE: If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or Chicago, Ill.

No. MC 108449 (Sub-No. 267), filed August 3, 1967. Applicant: INDIANHEAD TRUCK LINE, INC., 1947 West County Road C, St. Paul, Minn. 55113. Applicant's representative: Adolph J. Bieberstein, 121 West Doty Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, from the Williams Brothers Pipe Line Co. terminal located at or near Wausau, Wis., and points within 15 miles thereof to points in Minnesota, Wisconsin, and the Upper Peninsula of Michigan. NOTE: Applicant states it intends to tack at Minneapolis-St. Paul, Rochester, Wrenshall, and Duluth Petroleum Products terminal, Minn., to serve points in Iowa, North Dakota, and South Dakota, authorized in Subs 48, 183, and 242. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Minneapolis, Minn.

No. MC 108449 (Sub-No. 269), filed August 3, 1967. Applicant: INDIANHEAD TRUCK LINE, INC., 1947 West County Road C, St. Paul, Minn. 55113. Applicant's representative: Adolph J. Bieberstein, 121 West Doty Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, (1) from the Williams Brothers Pipe Line Co. terminal located at or near St. Cloud, Minn., and points within 10 miles thereof to points in Minnesota, North Dakota, South Dakota, Wisconsin, and the Upper Peninsula of Michigan, and (2) from the William Brothers Pipe Line Co. terminal located at or near Spencer or Spirit Lake, Iowa, and points within 15 miles thereof to points in Iowa, Illinois, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, and Wisconsin. NOTE: Applicant states tacking could be made at Superior, and Eau Claire, Wis., and Minneapolis-St. Paul, Minn., to serve the Upper Peninsula of Michigan and Iowa as authorized in certificate No. MC 108449, Sub 44. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Minneapolis, Minn.

No. MC 108449 (Sub-No. 270), filed August 3, 1967. Applicant: INDIANHEAD TRUCK LINE, INC., 1947 West County Road C, St. Paul, Minn. 55113. Applicant's representative: Adolph J. Bieberstein, 121 West Doty Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients*, in bulk, from Welcome, Minn., and points within 5 miles thereof, to points in Iowa, Minnesota, North Dakota, South Dakota, and Wisconsin. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 109637 (Sub-No. 323), filed July 31, 1967. Applicant: SOUTHERN TANK LINES INC., 4107 Bells Lane, Louisville, Ky. 40211. Applicant's representative: G. R. Thim (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Calcium carbide* in bulk, in specially equipped container trailers, and in bulk, in tank, or covered hopper vehicles, from the plantsites of National Carbide Division of Air Reduction Co., Inc. at Louisville and Calvert City, Ky., to points in Alabama, Arkansas, Georgia, Illinois, Indiana, Iowa, Michigan, Mississippi, Missouri, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky., or Washington, D.C.

No. MC 109821 (Sub-No. 24), filed July 26, 1967. Applicant: H. W. TAYNTON COMPANY, INC., 40 Main Street, Wellsboro, Pa. 16901. Applicant's representative: Robert DeKroyft, 233 Broadway, New York, N.Y. 10007. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities requiring special equipment, and commodities in bulk, between Wellsboro and Pittsburgh, Pa. NOTE: If a hearing is deemed necessary, applicant requests it be held at Wellsboro, Pa.

No. MC 110420 (Sub-No. 539) (Amendment), filed April 3, 1967, published in the FEDERAL REGISTER issue of April 20, 1967, amended and republished as amended, this issue. Applicant: QUALITY CARRIERS, INC., 100 South Calumet Street, Burlington, Wis. 53105. Applicant's representative: Allan B. Torhorst (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Diammonium phosphate*, in bulk, in tank vehicles, from Riverdale, Ill., to points in Illinois, Indiana, Michigan, Ohio, and Wisconsin; (2) Des Moines and Dubuque, Iowa, to points in Iowa, Illinois, Wisconsin, North Dakota, South Dakota, Nebraska, Kansas, Minnesota, and Missouri; and (3) Colfax and Depue, Ill., to points in Illinois, Wisconsin, North Dakota, South Dakota, Nebraska, Kansas, Minnesota, Missouri, Michigan, Ohio, Indiana, and Iowa. NOTE: The purpose of this republication is to add the words "in bulk, in tank vehicles" to the commodity description and to add Colfax, Ill., as an origin point in (3) above. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 110683 (Sub-No. 33), filed July 20, 1967. Applicant: SMITH'S TRANSFER CORPORATION OF STAUNTON, VIRGINIA, Box 1000, Staunton, Va. 24401. Applicant's representative: Francis W. McInerny, 1000 16th Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, household goods as defined by the Commission, classes A and B explosives, commodities in bulk and those requiring special equipment), (1) between Roanoke, Va., and Bristol, Va.-Tenn., from Roanoke over U.S. Highway 11 and/or Interstate Highway 81 to Bristol, Va.-Tenn., and return over the same route, (2) between Bristol, Va.-Tenn., and Pennington Gap, Va., from Bristol, Va.-Tenn., over U.S. Highway 58 to Dot, Va., thence over U.S. Highway 421 to Pennington Gap, Va., (3) between Abingdon, Va., and Big Stone Gap, Va., from Abingdon over U.S. Highway 19 and alternate U.S. Highway 58 to Big Stone Gap and return over the same route, and (4) from Norton, Va., over U.S. Highway 23 to Pound, Va., and return over the same route, serving all intermediate points on all of the foregoing routes, in (1), (2), (3), and (4) above, and off-route points in Smyth, Washington, Scott, Wise, and Lee Counties, Va. NOTE: Applicant states that it proposes to tack the authority sought with its present authority to serve Roanoke, Va. Applicant further states that it presently holds authority to serve all points on the routes and territories involved through Bluefield, Va.-W. Va., and the purpose of this application is to eliminate the requirement to observe Bluefield as a gateway. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 111069 (Sub-No. 49), filed July 27, 1967. Applicant: COLDWAY CARRIERS, INC., Post Office Box 38, Clarksville, Ind. 47131. Applicant's representative: Rudy Yessin, Post Office Box 457,

Frankford, Ky. 40601. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Frozen, prepared foods* in vehicles equipped with mechanical refrigeration, from Cleveland, Ohio, to points in Pennsylvania, New York, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, Maine, Vermont, and the District of Columbia, under contract with Stouffer Foods Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky., or Washington, D.C.

No. MC 111401 (Sub-No. 328), filed July 28, 1967. Applicant: GROENDYKE TRANSPORT, INC., 2510 Rock Island Boulevard, Post Office Box 632, Enid, Okla. 73701. Applicant's representative: Alvin L. Hamilton (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer, fertilizer materials, acids, and chemicals including but not limited to anhydrous ammonia, fertilizer solutions, insecticides, fungicides, herbicides, aqua ammonia, methanol, urea, and urea products*, in bulk, from the plantside of Gulf Oil Corp. (Faustina Works) at or near Donaldsonville, La., to points in Alabama, Arkansas, Mississippi, Missouri, Oklahoma, Tennessee, and Texas. NOTE: Applicant states it will tack at Donaldsonville, La., to serve points in its presently held authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City or St. Louis, Mo.

No. MC 111545 (Sub-No. 97) (Correction), filed July 3, 1967, published in FEDERAL REGISTER issue of July 20, 1967, and republished as corrected this issue. Applicant: HOME TRANSPORTATION COMPANY, INC., 1426 Franklin Road, S.E., Marietta, Ga. 30060. Applicant's representative: Robert E. Born (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Buildings*, complete, knocked down, or in sections, (a) between points in North Carolina on the one hand, and, on the other, points in Tennessee, Kentucky, Illinois, Wisconsin, Michigan, Indiana, Ohio, West Virginia, Virginia, Maryland, Delaware, Pennsylvania, New Jersey, New York, Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, Maine, and the District of Columbia, (b) between points in Georgia on the one hand, and, on the other, points in Illinois, Wisconsin, Michigan, Indiana, Ohio, Maryland, New Jersey, New York, Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, and Maine, and (c) between points in Barbour County, Ala., on the one hand, and, on the other, points in Illinois, Wisconsin, Michigan, Indiana, Ohio, Maryland, New Jersey, New York, Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, and Maine. NOTE: Applicant states with respect to paragraph (a) it would tack across the South Carolina State line serving between all points in North Carolina within 150 miles of Charlotte on the one hand, and, on the other, points in Tennessee, Kentucky, Illinois, Wisconsin, Michigan, Indiana, Ohio, West Virginia, Virginia, Delaware, Pennsylvania, New Jersey, New York, and the District of Columbia on such commodities requiring the use of special equipment, and with respect to paragraph (b) and (c) by tacking through a radius of 50 miles of either Atlanta, Cartersville, or Marietta, Ga., or Columbia, S.C., or through Charlotte, N.C., serving the States of Illinois, Wisconsin, Michigan, Indiana, Ohio, Pennsylvania, New Jersey, and New York, on such commodities which require the use of special equipment. Applicant states that it presently holds authority between points in Alabama, Florida, Georgia, Louisiana, Mississippi, and South Carolina and between points in those States on the one hand, and, on the other, points in North Carolina which could be tacked with the authority here sought. The purpose of this republication is to add an additional note erroneously omitted. Applicant states that no duplicating authority is being sought. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 112713 (Sub-No. 103), filed July 31, 1967. Applicant: YELLOW TRANSIT FREIGHT LINES, INC., Box 8462, 92d at State Line, Kansas City, Mo. 64114. Applicant's representative: John M. Records (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plant of Game Time, Inc., located at Litchfield (Hillsdale County), Mich., as an off-route point in connection with applicant's regular route operations to and from Detroit, Mich. NOTE: If a hearing is deemed necessary, applicant requests it be held at Lansing or Detroit, Mich.

No. MC 113828 (Sub-No. 134), filed August 4, 1967. Applicant: O'BOYLE TANK LINES, INCORPORATED, 4848 Cordell Avenue, Washington, D.C. 20014. Applicant's representative: William P. Sullivan, 1825 Jefferson Place, NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lime and limestone*, in bulk, from Austinville, Va., to points in North Carolina, and (2) *soda ash*, in bulk, from Saltville, Va., to points in the District of Columbia, Maryland, and New Jersey. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 113362 (Sub-No. 137), filed August 2, 1967. Applicant: ELLSWORTH FREIGHT LINES, INC., 220 East Broadway, Eagle Grove, Iowa. Applicant's representative: William J. Boyd, 29 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plastic pipe and tubing, plastic pipe fittings, and plastic articles*, from Franklin, Pa., to points in Indiana, Kentucky, and that part of Ohio on and west of Ohio Highway 4 from Sandusky, Ohio, to Marion, Ohio, thence along U.S. Highway 23 from Marion to the Ohio-Kentucky State line; and (2) *plastic articles*, from Franklin, Pa., to points in Illinois. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Pittsburgh, Pa.

No. MC 114364 (Sub-No. 143), filed July 31, 1967. Applicant: WRIGHT MOTOR LINES, INC., Post Office Box 1191, Cushing, Okla. 74023. Applicant's representative: Marion F. Jones, 420 Denver Club Building, Denver, Colo. 80202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Salt and salt products*, in bags, containers and bulk, from Edith, Woods County, Okla., to points in Arkansas, Colorado, Kansas, Louisiana, Missouri, New Mexico, and Texas, and (2) *charcoal*, from Baron, Okla., to points in Arkansas, Arizona, Colorado, Kansas, Missouri, Nebraska, New Mexico, and Texas. NOTE: If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla., or Kansas City, Mo.

No. MC 114364 (Sub-No. 144), filed July 31, 1967. Applicant: WRIGHT MOTOR LINES, INC., Post Office Box 1191, Cushing, Okla. 74023. Applicant's representative: Marion F. Jones, 420 Denver Club Building, Denver, Colo. 80202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from points in Utah, to points in Arizona, Arkansas, Colorado, Kansas, Missouri, New Mexico, Oklahoma, and Texas. NOTE: If a hearing is deemed necessary, applicant requests it be held at Phoenix, Ariz., or Salt Lake City, Utah.

No. MC 115162 (Sub-No. 149), filed August 3, 1967. Applicant: WALTER POOLE, doing business as POOLE TRUCK LINE, Post Office Box 310, Evergreen, Ala. 36401. Applicant's representative: Robert E. Tate, Suite 2025-2028, City Federal Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lumber* (a) from Ludlow, Ky., to points in Kentucky, Indiana, Illinois, Ohio, and Michigan, and (b) from Bellamy, Ala., to points in Mississippi; (2) *agricultural implements and tillage tools*, from Shadygrove, Pa., to Montgomery, Ala., (3) *foodstuffs*, canned and bottled, other than frozen, from Cade and Lozes, La., to points in Virginia, West Virginia, Maryland, Delaware, Pennsylvania, New York, New Jersey, Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, Maine, and the District of Columbia, (4) *brick and clay products*, from the plantsite of Delta Macon Brick & Tile Co., located at or near Macon, Miss., and from the plantsite of Atlas Brick & Tile Co., located at or near Shuqualak, Miss., to points in Alabama, and (5) *fullers earth or ground clay*, from Quincy, Fla., to New Orleans, La. NOTE: If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 115176 (Sub-No. 2), filed July 26, 1967. Applicant: MAYBELLE TRANSPORT COMPANY, a corporation, Post Office Box 573, Lexington, N.C. 27992. Applicant's representative: William P. Sullivan, 1825 Jefferson Place, NW., Washington, D.C. 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Paper and paper products*, between the plantsite of the Albemarle Paper Co. at Lexington, N.C., and points in Virginia under a continuing contract or contracts with Albemarle Paper Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 115257 (Sub-No. 39), filed July 24, 1967. Applicant: SHAMROCK VAN LINES, INC., Post Office Box 5447, Dallas, Tex. 75222. Applicant's representative: Max G. Morgan, 450 American National Building, Oklahoma City, Okla. 73102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crated new furniture*, between points in Shelby County, Tenn., on the one hand, and, on the other points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Maine, Massachusetts, Maryland, Michigan, New Hampshire, New Jersey, New York, Vermont, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Virginia, Wisconsin, West Virginia, Mississippi, Louisiana, Texas, Arkansas, Oklahoma, and the District of Columbia. NOTE: Applicant indicates it is possible to tack with Sub 25 certificate at points in Arkansas, Oklahoma, and Texas; Sub 30 certificate in South Carolina; Sub 29 certificate at points in North Carolina. There is a pending application in the Shamrock Sub 38 proceeding where it may be able to tack the authority sought there with the applied for authority. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 116273 (Sub-No. 96), filed July 31, 1967. Applicant: D & L TRANSPORT, INC., 3800 South Laramie Avenue, Cicero, Ill. 60650. Applicant's representative: Robert G. Paluch (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals* in bulk, in tank and hopper type vehicles, from the plantsite of Chemplex Co., at or near Clinton, Iowa, to points in Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Texas, Tennessee, Vermont, Virginia, West Virginia, and Wisconsin. NOTE: Applicant indicates tacking possibilities. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 117119 (Sub-No. 402), filed August 2, 1967. Applicant: WILLIS SHAW FROZEN EXPRESS, INC., Elm Springs, Ark. 72728. Applicant's representative: John H. Joyce, 26 North College, Fayetteville, Ark. 72702. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bakery products, other than frozen, and potato chips*, from Memphis, Tenn., to points in California on and south of U.S. Highway 40. NOTE: If a hearing is deemed necessary, applicant requests it be held at Little Rock, Ark., or Washington, D.C.

No. MC 119164 (Sub-No. 24), filed July 31, 1967. Applicant: J-E-M TRANSPORTATION CO., INC., Post Office Box 1315, Syracuse, N.Y. 13201. Applicant's representative: Robert V. Gianniny, 900 Midtown Tower, Rochester, N.Y. 14604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, in tank and hopper type vehicles, from Syracuse (Solvay), N.Y., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, Pennsylvania, Rhode Island, Vermont, Illinois, and West Virginia. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 119493 (Sub-No. 34), filed July 31, 1967. Applicant: MONKEM COMPANY, INC., Post Office Box 1196, West 20th Street Road, Joplin, Mo. 64801. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer* and *fertilizer materials*, dry, in bulk or in packages, *insecticides, fungicides, herbicides*, in packages, from the plantsite of Gulf Oil Corp. (Faustina Works) located at or near Donaldsonville, La. to points in Alabama, Arkansas, Mississippi, Missouri, Oklahoma, Tennessee, Texas, and Louisiana. NOTE: If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 121142 (Sub-No. 8) (Amendment), filed July 10, 1967, published FEDERAL REGISTER issue of August 10, 1967, amended and republished as amended, this issue. Applicant: J & G EXPRESS, INC., 489 Julienne Street, Jackson, Miss. 38202. Applicant's representative: James N. Clay III, 2700 Sterick Building, Memphis, Tenn. 38103. Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, transporting: *General commodities* (except household goods as defined by the Commission, commodities in bulk and those of unusual value), (1) between Grenada, Winona, Valden, Durant, Goodman, Pickens, Canton, Madison, Ridgeland, and Jackson, Miss., on the one hand, and, on the other, points in Mississippi on and north of U.S. Highway 82 and on and west of Interstate Highway 55; and (2) *regular route*, serving Raymond and Flora, Miss., as off-route points in conjunction with its authorized regular route operations between Jackson and Holly Springs, Miss. NOTE: Applicant states that tacking could take place at Grenada, Miss., or on Mississippi Highway 7, north of Grenada where it is west of Interstate Highway 55 to join with the territory being sought. The purpose of this republication is to include Flora, Miss., as an off-route point to be served, thereby broadening the application. If a hearing is deemed necessary, applicant requests it be held at Greenwood or Greenville, Miss.

No. MC 123004 (Sub-No. 1), filed July 31, 1967. Applicant: THE LUPER TRANSPORTATION COMPANY, a corporation, 350 East 21st Street, Wichita, Kans. 67214. Applicant's representative: James F. Miller, 7501 Mission Road, Shawnee Mission, Kans. 66208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, between Gulfport, Miss., and Wichita, Kans. NOTE: Applicant is also authorized to conduct operations as a contract carrier in Permit No. MC 30451, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Wichita, Kans., Oklahoma City, Okla., or Gulfport, Miss.

No. MC 123245 (Sub-No. 3), filed August 3, 1967. Applicant: LEESER & STAUFFER TRUCK SERVICE, INC., Taylor, Mo. 65471. Applicant's representative: Leonard A. Jaskiewicz, 1155 15th Street NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia* from the plantsite of American Cyanamid Co. at South River (Marion County), Mo., to points in Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Nebraska, Ohio, South Dakota, and Wisconsin. NOTE: Applicant holds contract carrier authority under MC 113865 and Subs 8 and 9, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo.

No. MC 123322 (Sub-No. 16), filed August 1, 1967. Applicant: BEATTY MOTOR EXPRESS, INC., Jefferson Avenue Extension, Washington, Pa. 15301. Applicant's representative: Harry M. Wick, Jr., 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass and glass products; and supplies and materials and equipment used or useful in the production, sale and distribution of such products* (except bulk raw materials), between Kebert Park, Greenwood Township, Crawford County, Pa., on the one hand, and, on the other, Cumberland, Md.; Crestline, Ohio; Shelby, Ohio; and Clarksburg, W. Va. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Harrisburg, Pa.

No. MC 123407 (Sub-No. 34), filed August 3, 1967. Applicant: SAWYER TRANSPORT, INC., 2424 Minnehaha Avenue, Minneapolis, Minn. 55404. Applicant's representative: Michael E. Miller, 502 First National Bank Building, Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition building board (including ceiling tile) and supplies and accessories* used in the installation thereof, from International Falls, Minn., to points in Indiana, Michigan, and Ohio. NOTE:

Applicant states that no duplicating authority is being sought. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 123415 (Sub-No. 12), filed July 31, 1967. Applicant: JAMES STUFFO, INC., Box 1061, Merchantville, N.J. 08109. Applicant's representative: Raymond A. Thistle, Jr., Suite 1710, 1500 Walnut Street, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lumber*, from points in Virginia, South Carolina, and North Carolina, to the plantsite of C. Harvis Sons, Inc., located at or near Hurffville, N.J., and (2) *pallets* between points in New Jersey, Pennsylvania, New York, Connecticut, Maryland, Virginia, Rhode Island, Massachusetts, Delaware, and the District of Columbia. NOTE: If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 124078 (Sub-No. 287), filed July 28, 1967. Applicant: SCHWERMAN TRUCKING CO., a corporation, 611 South 28th Street, Milwaukee, Wis. 53246. Applicant's representative: Richard H. Prevette (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in bulk, from Guntersville, Ala., to points in Mississippi, Florida, Georgia, South Carolina, North Carolina, Kentucky, Alabama, and Tennessee (except petroleum chemicals to Kingsport, Tenn.). NOTE: Applicant indicates it intends to tack Sub 225 at Lyles, Tenn., to serve points in New Jersey, Rhode Island, and Virginia.

No. MC 124078 (Sub-No. 288), filed July 31, 1967. Applicant: SCHWERMAN TRUCKING CO., a corporation, 611 South 28th Street, Milwaukee, Wis. 53246. Applicant's representative: Richard H. Prevette (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aqua ammonia, anhydrous ammonia, nitrogen fertilizer solutions, urea, nitric acid, and ammonium nitrate*, in bulk, in tank vehicles, from the plantsite of the Vistron Corp. located at Lima, Ohio, to points in Ohio. NOTE: If a hearing is deemed necessary, applicant requests it be held at Cleveland, Ohio.

No. MC 124212 (Sub-No. 42), filed August 1, 1967. Applicant: MITCHELL TRANSPORT, INC., 21111 Chagrin Boulevard, Cleveland, Ohio 44122. Applicant's representative: J. A. Kundtz, 1050 Union Commerce Building, Cleveland, Ohio 44115. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, from the plantsite of Lehigh Portland Cement Co., located at Union Bridge, Md., to points in West Virginia. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 124212 (Sub-No. 43), filed August 2, 1967. Applicant: MITCHELL TRANSPORT, INC., 21111 Chagrin Boulevard, Cleveland, Ohio 44115. Applicant's representative: J. A. Kundtz, 1050 Union Commerce Building, Cleveland, Ohio 44115. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, from the plantsite of Lehigh Portland Cement Co., located at Fogelsville, Pa., to points in Maryland. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 124410 (Sub-No. 9), filed August 2, 1967. Applicant: ROBERT A. STATON, doing business as BOB STATON TRANSPORT CO., Junction U.S. Highways 36 and 65, Chillicothe, Mo. 64601. Applicant's representative: Frank W. Taylor, Jr., 1221 Baltimore Avenue, Kansas City, Mo. 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer*, in bulk, from the site of the Tuloma Gas Products Co. facility at or near Brunswick, Mo., to points in Kansas, Iowa, and Nebraska. NOTE: If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 124603 (Sub-No. 1), filed July 31, 1967. Applicant: FRANK P. BATTAGLIA AND THOMAS TORCHIA, a partnership, doing business as PRODUCE TRANSPORT DISPATCH, 526 Southeast Ninth Avenue, Portland, Oreg. 97214. Applicant's representative: Earle V. White, 2400 Southwest Fourth Avenue, Portland, Oreg. 97201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (a) *Frozen fruits, berries, and vegetables*, from Woodburn, Salem, Harrisburg, and Eugene, Oreg., to points in and south of Sonoma, Napa, Yolo, Sacramento, San Joaquin, Mariposa, Madera, Fresno, Tulare, Kern, and San Bernardino Counties, Calif.; (b) *frozen fruits, berries, and vegetables*, from Portland, Forest Grove, Hillsboro, Gresham, and Stayton, Oreg., to points in and south of Sonoma, Napa, Yolo, Sacramento, San Joaquin, Mariposa, Madera, Fresno, Tulare, Kern, and San Bernardino Counties, Calif.; and (c) *avocado food dips and avocado halves, frozen*, from points in Los Angeles County, Calif., to Medford, Eugene, Salem, and Portland, Oreg., and Tacoma and Seattle, Wash. NOTE: If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg.

No. MC 125764 (Sub-No. 4), filed July 31, 1967. Applicant: LILAC CITY EXPRESS, INC., East 10222 Fourth Avenue, Spokane, Wash. 99206. Applicant's representative: Donald A. Ericson, 708 Old National Bank Building, Spokane, Wash. 99201. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Canned and bottled foodstuffs, and paper bags*, from points in Orange County, Calif., Marion, Washington, and Multnomah Counties, Oreg., and Clark County, Wash., to points in Spokane County, Wash., under contract with United Retail Merchants Food Stores, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Spokane, Wash.

No. MC 126039 (Sub-No. 5), filed July 30, 1967. Applicant: MORGAN TRANSPORTATION SYSTEM, INC., U.S. Highways 6 and 15, New Paris, Ind. 46553. Applicant's representative: Walter P. Jones, Jr., 601 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Containers and incidental parts*, between Ligonier, Ind., on the one hand, and, on the other, points in Illinois. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 126276 (Sub-No. 9), filed July 31, 1967. Applicant: FAST MOTOR SERVICE, INC., 12855 Ponderosa Drive, Palos Heights, Ill. Applicant's representative: Robert H. Levy, 29 South La Salle Street, Chicago, Ill. Authority sought to operate as a *contract carrier*, by motor vehicle over irregular routes, transporting: (1) *Glass containers, caps, covers, and disks for tops and jars*, from the plantsite of Ball Brothers Co., Inc., located at or near Okmulgee, Okla., to points in Louisiana and Jackson, Miss., and (2) *soda ash*, from Lake Charles and Baton Rouge, La., and Corpus Christi, Tex., to the plantsite of Ball Brothers Co., Inc., located at or near Okmulgee, Okla., under contract with Ball Brothers Co., Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 127253 (Sub-No. 40), filed July 27, 1967. Applicant: R. A. CORBETT TRANSPORT, INC., 111 West Laurel Street, Post Office Box 86, Lufkin, Tex. 75902. Applicant's representative: Ewell H. Muse, Jr., 415 Perry Brooks Building, Austin, Tex. 78701. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Fertilizer, fertilizer materials, acids, and chemicals*, including but not limited to anhydrous ammonia, fertilizer solutions, insecticides, fungicides, herbicides, aqua ammonia, methanol, urea, and urea products, in bulk, from the plantsite of Gulf Oil Corp. (Faustina Works) located at or near Donaldsonville, La., to points in Alabama, Arkansas, Mississippi, Missouri, Oklahoma, Tennessee, and Texas. NOTE: If a hearing is deemed necessary, applicant requests it be held at Kansas City, St. Louis, Mo., or New Orleans, La.

No. MC 128254 (Sub-No. 2) (Amendment), filed April 5, 1967, published in FEDERAL REGISTER issue of April 20, 1967, amended July 27, 1967, and republished as amended, this issue. Applicant: THEODORE SAVAGE, 16061 Warren Lane, Huntington Beach, Calif. 92647. Applicant's representative: Ernest D. Salm, 3846 Evans Street, Los Angeles, Calif. 90027. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, limited to traffic having a prior or subsequent movement by air, between the terminal of W T C Air Freight located in Los Angeles, Calif., on the one hand, and, on the other, points in Orange County, Calif., located south of a line running east and west through El Toro and Newport Beach (including service at El Toro, and restricted against service at Newport Beach), and points in San Diego County, Calif., under contract with W T C Air Freight. NOTE: The purpose of this republication is to delete the Los Angeles International Airport, as previously published, and show "between the terminal of W T C Air Freight located in Los Angeles, Calif." If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

No. MC 128486 (Sub-No. 1), filed July 31, 1967. Applicant: LILY TRANSPORT LINES, INC., 25 Denby Road, Boston, Mass. 02134. Applicant's representative: Frank J. Weiner, Investors Building, 536 Granite Street, Braintree, Mass. Authority sought to operate as a *contract carrier*, by motor vehicle over irregular routes, transporting: *Apple juice, and vinegars*, in bulk, in tank vehicles, from Highland, N.Y., and Buckfield, Maine, to Lawrence, Mass., under a continuing contract with Lincoln Foods, Inc., of Lawrence, Mass. NOTE: If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 128873 (Clarification), filed January 30, 1967, published FEDERAL REGISTER issue of February 24, 1967, and republished this issue as clarified at the initial hearing. Applicant: HOOPER OIL COMPANY, INC., 102 East Powell Street, Brownsville, Tenn. 38012. Applicant's representative: T. T. Hooper, Jr. (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from Leola, Warren, Prescott, Malvern, and Sheridan, Ark., to Brownsville, Jackson, and Union City, Tenn., and points in that part of Tennessee west of the Tennessee River, under contract with Riddle Lumber Sales Co., Jackson, Tenn. An order of the Commission, Division 1, dated July 20, 1967, orders that the said proceeding be reopened for further hearing at a time and place to be hereafter fixed; and that notice of this application, as clarified at the initial hearing, and notice of the action taken in said order, be published in the FEDERAL REGISTER. NOTE: If a hearing is deemed necessary, applicant requests it be held at Memphis or Nashville, Tenn.

No. MC 129027 (Sub-No. 2), filed August 3, 1967. Applicant: WILLIAM V. DEMAIO, doing business as TALBOT MOTOR LINES, 236 Smithbridge Road, Rural Delivery 2, Glen Mills, Pa. 19342. Applicant's representative: Raymond A. Thistle, Jr., Suite 1710, 1500 Walnut Street, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper and paper products, and cardboard and cardboard products*, from the plantsite of Dee Paper Co., Inc., in Chester, Pa., to points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Kentucky, Louisiana, Maryland, Massachusetts, Minnesota, Mississippi, Missouri, New Jersey, New York, North Carolina, South Carolina, Tennessee, Virginia, West Virginia, Rhode Island, Indiana, Ohio, and the District of Columbia. NOTE: If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 129046 (Sub-No. 3), filed August 3, 1967. Applicant: BURKS-PELZ TRANSFER, INC., 1724 West Franklin Street, Evansville, Ind. 47712. Applicant's representative: Louis J. Amato, Central Building, 1033 State Street, Bowling Green, Ky. 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages* in containers, (1) from Detroit, Mich., to Evansville, Ind., and Henderson, Ky., and (2) from Chicago, Ill., to Evansville, Ind. NOTE: Applicant holds contract carrier authority under MC 69876 and subs, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn., or Louisville, Ky.

No. MC 129127 (Correction), filed May 22, 1967, published in FEDERAL REGISTER issue of June 15, 1967, and republished as corrected this issue. Applicant: DOROTHY D. BOYLAN, doing business as BOYLAN MOTOR LINE, 501 Harrison Avenue, Harrison, N.J. Applicant's representative: Bert Collins, 140 Cedar Street, New York, N.Y. 10006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Chemicals*, in containers, from Newark, Carteret, and Linden, N.J., and Long Island City, N.Y., to points in Nassau, Suffolk, Westchester, Orange, and Rockland Counties, N.Y., and New York, N.Y., and (2) *returned and damaged shipments* on return, under contract with Chemical Solvents Co., and Lacquer Specialties, Inc. NOTE: The purpose of this republication is to show *Lacquer Specialties, Inc.*, in lieu of Union Carbide Co. in (2) above. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 129142, filed July 31, 1967. Applicant: ALABAMA FOOD EXPRESS, INC., 130 Finley Avenue West, Birmingham, Ala. Applicant's representative: D. H. Markstein, Jr., 818 Massey Building, Birmingham, Ala. 35203. No. MC 129303, filed August 1, 1967. Applicant: GEORGE E. MURPHY, Route 3, Box 389, Pollack Avenue, Newburgh, Ind. 47630. Applicant's representative: Clifford E. Sanders, 321 East Center Street, Post Office Box G, Kingsport, Tenn. 37660. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Cinder blocks, clay and clay products, shale and shale products, concrete and concrete products, and mortar mixes*, (1) from Fairdale, Ky., to points in Alexander, Clark, Clay, Clinton, Crawford, Cumberland, Edwards, Effingham, Fayette, Franklin, Gallatin, Hamilton, Hardin, Jackson, Jasper, Jefferson, Johnson, Lawrence, Marion, Massac, Monroe, Perry, Pope, Pulaski, Randolph, Richland, St. Clair, Saline, Union, Wabash, Washington, Wayne, White, and Williamson Counties, Ill.; and Clay, Crawford, Daviess, Dubois, Floyd, Gibson, Greene, Harrison, Knox, Lawrence, Martin, Orange, Owen, Perry, Pike, Posey, Spencer, Sullivan, Vanderburgh, Vigo, and Warrick Counties, Ind.; and (2) from Evansville, Ind., to points in Alexander, Clark, Clay, Clinton, Crawford, Cumberland, Edwards, Effingham, Fayette, Franklin, Gallatin, Hamilton, Hardin, Jackson, Jasper, Jefferson, Johnson, Lawrence, Marion, Massac, Monroe, Perry, Pope, Pulaski, Randolph, Richland, St. Clair, Saline, Union, Wabash, Washington, Wayne, White, and Williamson Counties, Ill.; and Allen, Ballard, Barren, Breckinridge, Bullitt, Butler, Caldwell, Calloway, Carlisle, Christian, Crittenden, Daviess, Edmonson, Fulton, Graves, Grayson, Hancock, Hardin, Hart, Henderson, Hickman, Hopkins, Jefferson, Livingston, Logan, Lyon, McCracken, McLean, Marshall, Meade, Muhlenberg, Ohio, Simpson, Todd, Trigg, Union, Webster, and Warren Counties, Ky., under contract with General Shale Products Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 129302, filed August 3, 1967. Applicant: WILLIAM A. JORDAN, doing business as JORDAN TRANSFER COMPANY, Post Office Box 358, West Point, Miss. 39773. Applicant's representative: Paul F. Sullivan, Suite 913, Colorado Building, 1341 G Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Clay, Lowndes, Oktibbeha, Noxubee, Winston, Attala, Choctaw, Webster, Grenada, Yalobusha, Calhoun, Chickasaw, Monroe, Itawamba, Pontotoc, Lafayette, Panola, Alcorn, Tishomingo, Prentiss, Lee, and Union Counties, Miss., restricted to shipments moving in containers and having an immediately prior or subsequent movement by rail, motor, water, or air and moving on through bills of lading of forwarders, operating under the section 402(b)(2) exemption. NOTE: If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn., or Washington, D.C.

No. MC 129304, filed August 3, 1967. Applicant: ELEANOR M. ALEXANDER, doing business as COAST VAN & STORAGE, 2512 South Harbor, Santa Ana, Calif. 92704. Applicant's representative: Paul F. Sullivan, Suite 913, Colorado Building, 1341 G Street NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission restricted to shipments moving in containers and having an immediately prior or subsequent movement by rail, motor, water, or air and moving on through bills of lading of forwarders operating under the section 402(b)(2) exemption, between points in Los Angeles, Orange, and San Diego Counties, Calif. NOTE: If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif., or Washington, D.C.

MOTOR CARRIERS OF PASSENGERS

No. MC 3647 (Sub-No. 397), filed July 28, 1967. Applicant: PUBLIC SERVICE COORDINATED TRANSPORT, 180 Boyden Avenue, Maplewood, N.J. 07040. Applicant's representative: Richard Fryling (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage, express, and newspapers, in the same vehicle with passengers*, within Mount Laurel Township, N.J., from junction New Jersey Highway 73 and Interstate Highway 295, over Interstate Highway 295 to junction New Jersey Highway 38, and return over the same route, for operating convenience only in connection with presently authorized regular route operations, serving no intermediate points, except at the junction of the termini for joinder purposes only. NOTE: If a hearing is deemed necessary, applicant requests it be held at Camden, N.J., or Philadelphia, Pa.

No. MC 128891 (Sub-No. 2) (Correction), filed May 31, 1967, published FEDERAL REGISTER issue of June 22, 1967, and republished as corrected this issue. Applicant: ADVENTURELINES, INC., 14 Shelton Avenue, Trenton, N.J. 08618. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Passengers and their baggage*, in special operations, between points in Bucks County, Pa., east of County Route 532 and points in Mercer County, N.J., limited to passengers, boarding or alighting at Educational Testing Service, and (2) *passengers and their baggage*, in special operations, and round trip, from points in Mercer County, N.J., to points in New Jersey, New York, and Pennsylvania, and return. NOTE: The purpose of this republication is to correct (1) above. If a hearing is deemed necessary, applicant requests it be held at Trenton or Princeton, N.J.

APPLICATION FOR BROKERAGE LICENSE

No. MC 130039 (Correction), filed May 26, 1967, published FEDERAL REGISTER issue of June 29, 1967, and republished as corrected, this issue. Applicant: WILLIAM NEZOWY, doing business as ASTRO TRAVEL SERVICE, 1411 Walnut Street, Philadelphia, Pa. Applicant's representative: Alan Kahn, Suite 1920, Two Penn Center Plaza, John F. Kennedy Boulevard at 15th Street, Philadelphia, Pa. 19102. For a license (BMC–5) to engage in operations as a broker at Philadelphia, Pa., in arranging for transportation in interstate or foreign commerce of *individual passengers and groups of passengers and their baggage* in passenger motor vehicles, in special operations, in round trip tours, beginning and ending in points in Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa., and Gloucester, Camden, and Burlington Counties, N.J., and extending to points in the United States including ports of entry on the international boundary line between the United States and Canada. NOTE: The purpose of this republication is to show Philadelphia, Pa., as the location of Broker's office, which was previously omitted.

APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING HAVE BEEN REQUESTED

No. MC 17002 (Sub-No. 42), filed July 31, 1967. Applicant: CASE DRIVEWAY, INC., 6001 U.S. Route 60, East, Huntington, W. Va. 25714. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New and used mining and tunneling machinery and parts thereof*, between points in Boyd County, Ky., on the one hand, and, on the other, points in Alabama, Arizona, Colorado, Idaho, Illinois, Michigan, Missouri, Montana, Nevada, New Jersey, New Mexico, New York, Ohio, Pennsylvania, Texas, Utah, Virginia, West Virginia, Wisconsin, and Wyoming. NOTE: Applicant states it would tack the proposed authority with its present authority at Boyd County, Ky., for through service between points in Kentucky, Ohio, Pennsylvania, West Virginia, and Virginia.

No. MC 114965 (Sub-No. 34), filed July 31, 1967. Applicant: CYRUS TRUCK LINES, INC., Box 327, Iola, Kans. 66749. Applicant's representative: Charles H. Apt, Box 328, Iola, Kans. 66749. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia* in bulk, in tank vehicles, from Trenton, Mo., to points in Iowa, Kansas, and Nebraska.

No. MC 129262 (Correction), filed July 20, 1967, published FEDERAL REGISTER issue of August 10, 1967, corrected and republished as corrected, this issue. Applicant: AYERS & MADDUX, INC., 510 East Olympic Boulevard, Los Angeles, Calif. 90015. Applicant's representative: Donald Murchison, 211 South Beverly Drive, Beverly Hills, Calif. 90212. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alcoholic beverages and alcoholic liquors*, in bulk, in tank vehicles (with no authorization to transfer property from one vehicle to another), from ports of entry on the international boundary line between the United States and Mexico, to points in California, Michigan, Illinois, Ohio, and Connecticut. NOTE: The purpose of this republication is to add the destination State of Connecticut, which was inadvertently omitted in the previous publication.

By the Commission.

[Notice 484]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 14, 1967.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC 67 (49 CFR Part 340), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protest must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protest must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 31321 (Sub-No. 9 TA), filed August 10, 1967. Applicant: SOUTHWESTERN TRANSFER COMPANY, INC., Post Office Box 1611, El Paso, Tex. 79948. Applicant's representative: Joe G. Fender, 802 Houston First Savings Building, Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such *commodities* as require special handling or special equipment by reason of size or weight, and *commodities* which do not require special handling, or the use of special equipment, when moving in the same shipment on the same bill of lading and for the same consignee as commodities which because of size or weight require special handling, or the use of special equipment, between points in Colorado and New Mexico; for 180 days. NOTE: Applicant will tack between Colorado and Arizona over New Mexico as gateway territory, utilizing the authority proposed to be required and applicant's present certificate MC 31321. Applicant will not tack the proposed extended authority with present authority to serve to and from points in Texas. Applicant will interline to and from California utilizing its present certificate MC 31321, as above indicated, interchanging in Arizona with Underhill Transfer Co., which holds certificate MC 32525 authorizing general commodities between points in California and Arizona within 25 miles of Yuma, Ariz. Supporting shippers: There are five shippers' supporting statements attached to application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or at the field office named below. Send protests to: Haskell E. Ballard, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 918 Tyler Street, Amarillo, Tex. 79101.

No. MC 63101 (Sub-No. 6 TA), filed August 10, 1967. Applicant: KEENE'S TRANSFER, INC., doing business as KEENE'S TRANSFER, 1019 East Avenue, Box 87, Tomah, Wis. 54660. Applicant's representative: John T. Porter, First National Bank Building, 1 South Pinckney Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fiberglass plastic products, and supplies and materials* used in connection therewith, from Necedah, Wis., to points in the Chicago, Ill., commercial zone, as defined by the Commission; for 180 days. Supporting shipper: KenCo Plastics, Inc., Necedah, Wis. 54646. Send protests to: Barney L. Hardin, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 214 North Hamilton Street, Madison, Wis. 53703.

No. MC 115162 (Sub-No. 150 TA), filed August 10, 1967. Applicant: WALTER POOLE, doing business as POOLE TRUCK LINE, Post Office Box 310, Evergreen, Ala. 36401. Applicant's representative: Robert E. Tate, Suite 2023–27, City Federal Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Brick and clay products*, from the plantsite of Delta Macon Brick & Tile Co. at or near Macon, Miss., and the plantsite of Atlas Brick & Tile Co. at or near Shuqulak, Miss., to points in Alabama; for 180 days. Supporting shipper: Jenkins Brick Co., Post Office Box 91, Montgomery, Ala. 36101. Send protests to: B. R. McKenzie, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 823, 2121 Building, Birmingham, Ala. 35203.

No. MC 117392 (Sub-No. 7 TA), filed August 10, 1967. Applicant: FRANK W. EDMANDS, INC., 16 Woodbury Avenue, Saugus, Mass. 01906. Applicant's representative: Mary E. Kelley, 10 Tremont Street, Boston, Mass. 02108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Rock salt*, in bulk, in dump vehicles, between points in Essex, Middlesex, Suffolk, Norfolk, Plymouth, Bristol, and Barnstable Counties, Mass.; for 150 days. Supporting shipper: International Salt Co., Clarks Summit, Pa. Send protests to: Maurice C. Pollard, District Supervisor, Bureau of Operations, Interstate Commerce Commission, John F. Kennedy Building, Government Center, Boston, Mass. 02203.

No. MC 128746 (Sub-No. 8 TA), filed August 10, 1967. Applicant: D'AGATA NATIONAL TRUCKING CO., 3240 South 61st Street, Philadelphia, Pa. 19153. Applicant's representative: G. Donald Bullock, Post Office Box 146, Wyncote, Pa. 19095. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages*, in containers, from Latrobe, Pa., to Camden, N.J.; for 150 days. Supporting shipper: Hub Beer Distributors, Inc., Post Office Box 821, Camden, N.J. 08104. Send protests to: Peter R. Guman, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 900 U.S. Customhouse, Second and Chestnut Streets, Philadelphia, Pa. 19106.

No. MC 129280 (Sub-No. 1 TA), filed August 10, 1967. Applicant: EARL F. BELL, INC., 7008 Poplar Avenue, Takoma Park, Md. 20012. Applicant's representative: Earl F. Bell, Box 1399 Rockville, Md. 20850. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lumber, plywood, and precut packages*, from Silver Spring, Md., to Chantilly, Fairfax County, Va.; and *rejected shipments* on return; under contract with Levitt & Sons, Inc.; for 150 days. Supporting shipper: Levitt & Sons, Inc., 3930 Walnut Street, Fairfax, Va. 22030. Send protests to: Robert D. Caldwell, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 1220, 12th and Constitution Avenue NW., Washington, D.C. 20423.

No. MC 129318 TA, filed August 10, 1967. Applicant: DAVID C. LOFTIN, doing business as ACME MOVING & STORAGE COMPANY, 105 Sioux Street, Post Office Box 1333, Dothan, Ala. 36301. Applicant's representative: Alan F. Wohlstetter, 1 Farragut Square South, Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Houston, Dale, Henry, Barbour, Coffee, Geneva, Pike, and Covington Counties, Ala.; restricted to shipments having a prior or subsequent movement beyond said points in containers, and further restricted to pickup and delivery services incidental to and in connection with packing, crating, and containerization, or unpacking, uncrating and decontainerization of such shipments; under contract No. DABC 01–67–C–0125, awarded for the contract period January 1 to December 31, 1967, between applicant and the military establishment located at Fort Rucker, Ala.; for 180 days. Supporting shipper: None. Copy of contract is attached to application. Send protests to: B. R. McKenzie, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 823, 2121 Building, Birmingham, Ala. 35203.

By the Commission.

[Notice 29]

MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 14, 1967.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 279), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–69797. By order of August 14, 1967, the Transfer Board approved the transfer to Hopkins Motor Coach, Inc., Dover, Del., of the operating rights in certificate Nos. MC–115156 (Sub-No. 1) and MC–115156 (Sub-No. 2) issued February 20, 1962, and January 3, 1966, respectively to Philip R. Price, doing business as Price's Charter Service, Chance, Md., authorizing the transportation of: Passengers and their baggage, in the same vehicle, between specified points in Maryland. Charles Moran, 1329 E Street NW., Washington, D.C. 20004, attorney for applicants.

LIST OF CFR SECTIONS AFFECTED

1949–1963

This volume contains a compilation of the "List of Sections Affected" for all titles of the Code of Federal Regulations for the years 1949 through 1963. All sections of the CFR which have been expressly affected by documents published in the daily Federal Register are enumerated.

Reference to this list will enable the user to find the precise text of CFR provisions which were in force and effect on any given date during the period covered.

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15 per year, payable in advance. The charge for individual copies varies in proportion to the size of the issue ($1.5 cents for the first 80 pages and 5 cents for each additional group of 40 pages, as actually bound). Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

List of CFR Parts Affected

(Codification Guide)

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1967, and specifies how they are affected.

Title 7—AGRICULTURE

Chapter X—Consumer and Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture

[Milk Order 125]

PART 1125—MILK IN PUGET SOUND, WASH., MARKETING AREA

Order Amending Order

§ 1125.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Puget Sound, Wash., marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than September 1, 1967. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the marketing area.

The provisions of the said order are known to handlers. The recommended decision of the Deputy Administrator, Regulatory Programs, was issued April 7, 1967, and the decision of the Assistant Secretary containing all amendment provisions of this order was issued July 17, 1967. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective September 1, 1967, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (5 U.S.C. 553(d) (1966))

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in sec. 8(c)(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who participated in a referendum in which each individual producer had one vote and who during the determined representative period were engaged in the production of milk for sale in the marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the following provisions are substituted for specified order provisions as indicated below, and the handling of milk in the Puget Sound, Wash., marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby further amended, through December 31, 1969, as follows:

Class I base plan provisions. 1. Section 1125.110 is substituted for § 1125.17 as follows:

§ 1125.110 Production history base and Class I base.

(a) "Production history base" means a quantity of milk in pounds per day produced by a producer in a past period as computed pursuant to § 1125.120.

(b) "Class I base" means a quantity of milk in pounds per day as computed pursuant to § 1125.121 for which a producer may receive the base milk price.

2. Section 1125.111 is substituted for § 1125.18 as follows:

§ 1125.111 Base milk and excess milk.

(a) "Base milk" means:

(1) Milk received from a producer which is not in excess of his Class I base multiplied by the number of days in the month, except that if milk is received from a producer for only part of a month, base milk shall be milk received from such producer which is not in excess of his Class I base multiplied by the number of days of production of producer milk delivered during the month;

(2) Milk received from a producer to whom no Class I base has been issued, in the amount assigned pursuant to § 1125.122(b)(1); and

(3) Milk received from a producer to whom a Class I base has been issued, in the amount assigned pursuant to § 1125.122(b)(2).

(b) "Excess milk" means milk received from a producer during the month that is in excess of base milk received from such producer during the month.

3. Section 1125.22(k)(2) is substituted for the present § 1125.22(k)(2), as follows:

§ 1125.22 Duties.

* * * * * *

(k) * * *

(2) On or before the 13th day of each month, the weighted average and uniform prices computed pursuant to §§ 1125.71 and 1125.72, the location adjustment for excess milk computed pursuant to § 1125.81(a)(2), and the butterfat differential computed pursuant to § 1125.82, each applicable to milk received during the preceding month;

* * * * * *

4. In § 1125.35(a), subparagraph (7) is added as follows:

§ 1125.35 Handler report to producers.

(a) * * *

(7) The Class I and Class II prices for 3.5 percent milk, and the marketwide percentage of producer milk utilized in each class during the month.

* * * * * *

5. Section 1125.81(a)(2) is substituted for the present § 1125.81(a)(2) as follows:

§ 1125.81 Location adjustment to producers and on nonpool milk.

(a) * * *

(2) There shall be added to the uniform price for excess milk received from producers at plants located in District 1 or in the counties of Kitsap, Mason, or Pierce, a location adjustment not to exceed 25 cents per hundredweight, rounded to the nearest full cent, computed by dividing the amount computed

pursuant to § 1125.54(c) by the total hundredweight of excess milk received at such plants.

* * * * *

6. Sections 1125.120, 1125.121, 1125.122, 1125.123, and 1125.124 are substituted for §§ 1125.60 and 1125.61 as follows:

§ 1125.120 Computation of production history bases.

The market administrator shall determine production history bases computed as follows:

(a) For each producer who delivered milk on 120 days or more during the months of August through December 1966, such production history base shall be the highest of:

(1) The total pounds of producer milk delivered by such person to a handler on 120 days or more during the months of August 1966 through December 1966, inclusive, divided by the number of days from the date of his first delivery within such period to the end of such 5-month period;

(2) The amount similarly computed with respect to such person's deliveries, during the months of August 1965 through December 1965, inclusive; or

(3) The amount similarly computed with respect to such person's deliveries during the months of August 1964 through December 1964, inclusive.

(b) For each person who held designation as a producer-handler for 120 days or more in the months of August through December 1966, the production history base shall be the daily average of his own production of milk for 120 days or more in the months of August through December 1964, August through December 1965, and August through December 1966, whichever is highest.

(c) Each person who becomes a producer as a result of a plant to which he delivers milk becoming a pool plant under the order pursuant to § 1125.8 shall have a production history base computed as though his deliveries of Grade A milk to such plant in the prior periods used for determining bases specified in paragraph (a) of this section had been deliveries of producer milk.

(d) With respect to computation of such bases the following rules shall apply:

(1) If a producer operated more than one farm at the same time during any specified August–December period, a separate computation shall be made with respect to producer milk delivered from each such farm for such period except that only one computation shall be made with respect to milk production resources and facilities of a producer-handler specified in § 1125.14(b)(1);

(2) Only one base shall be allotted with respect to milk produced by one or more persons where the land, buildings and equipment used are jointly owned or operated.

(3) Deliveries of milk during the months of August through December 1966 from a farm currently operated by a person who since August 1, 1966, has received a base by transfer pursuant to § 1125.61(a) shall be considered to be deliveries of the current operator for purposes of computation of production history base, and no production history base shall be computed for any other person from deliveries of milk from such farm.

(4) Deliveries of milk from a farm for which the producer has lost a base pursuant to § 1125.61(b) since February 1, 1967, shall not be used to compute a production history base for such producer.

§ 1125.121 Computation of Class I base for producers with production history bases.

(a) Each producer for whom a production history base pursuant to § 1125.120 (a) or (b) may be computed and who delivered milk regularly to a handler in May 1967 shall be issued Class I base as follows:

(1) The total of the Class I bases to be issued to such persons shall be the sum of:

(i) The average daily dispositions pursuant to § 1125.41(a) of producer milk for the year 1966 multiplied by 1.20; and

(ii) The total of the average daily dispositions of milk of their own production for the year 1966 by any such persons then holding designation as producer-handlers, multiplied by 1.20.

(2) The Class I base for each such person shall be determined by multiplying his production history base by a percentage rounded to the third decimal place obtained by dividing the total of Class I bases pursuant to subparagraph (1) of this paragraph by the sum of the production history bases issued to such producers.

(b) The Class I base for each person to whom no Class I base has been issued pursuant to paragraph (a) or (c) of this section who held designation as a producer-handler in May 1967 which is no longer effective, and who has become a producer shall be the production history for such person computed pursuant to § 1125.120 (a) or (b), multiplied by the percentage specified in paragraph (a)(2) of this section. Such Class I base shall not be in effect for such person for any month for which such person holds designation as a producer-handler.

(c) The Class I base of each person for whom a production history base is determined pursuant to § 1125.120(c) shall be his production history base multiplied by the percentage specified in paragraph (a)(2) of this section.

§ 1125.122 Computation of base milk for new producers and hardship cases.

For each month a quantity of base milk shall be computed for each producer who does not hold a production history base pursuant to § 1125.120 and a quantity of additional base milk shall be computed for each producer to whom a "hardship" adjustment has been issued as follows:

(a) Compute the sum of:

(1) 1.20 times the pounds by which producer milk classified as Class I exceeds the sum of the following in the corresponding month of 1966:

(i) The pounds of producer milk classified as Class I;

(ii) The Class I disposition of producers with Class I bases who then held designation as producer-handlers; and

(iii) The Class I disposition of milk by pool plants described in § 1125.120(c); and

(2) The pounds by which the current monthly total of Class I bases issued to producers exceeds the total of base milk delivered pursuant to § 1125.111(a)(1) in the month.

(b) Assign the resulting pounds, if any, as base milk pro rata to:

(1) The pounds of milk delivered during the month by each producer without a daily base; and

(2) The pounds of milk delivered by a producer to whom a hardship adjustment is issued, that are the lesser of:

(i) The pounds of such adjustment times the number of days in the month; or

(ii) The pounds by which total deliveries of milk in the month by such producer exceed base milk pursuant to § 1125.111(a).

§ 1125.123 Base rules.

The following rules shall be observed in the determination of bases:

(a) A Class I base or a portion of a Class I base may be transferred from one person to another if the conditions listed below are met:

(1) The market administrator is notified in writing by the holder of the Class I base on or before the last day of the month of transfer of the name of the person to whom the Class I base is to be transferred, the effective date of the transfer and the amount of Class I base to be transferred if less than the entire Class I base held by the transferor;

(2) It is established to the satisfaction of the market administrator that the conveyance of such base is bona fide and not for the purpose of evading any provision of this order, and comes within the remaining provisions of this paragraph;

(3) A transfer may be made only to a producer (a person who is currently a producer on the market or who will become a producer under the terms of the order by the last day of the month of transfer);

(4) A transfer of Class I base may not be made in amounts of less than 100 pounds, or the entire base, whichever is smaller;

(5) A transfer of a portion of a Class I base shall be a partial transfer and shall be effective only on the first day of a month. A transfer where the transferee producer will combine the Class I base received with Class I base already held shall be considered a partial transfer;

(6) A transfer of a complete Class I base of a producer to a person who does not already hold a Class I base will be effective on the date of transfer of herd and farm, or on the date specified if no herd and farm is transferred;

(7) A person who has received Class I base by transfer pursuant to subparagraph (5) or (6) of this paragraph within the preceding 12-month period may not further transfer all or a portion of his Class I base except as permitted under the provisions of § 1125.124;

(8) A person who was issued hardship adjustment pursuant to the provisions of § 1125.124 may not transfer all or a portion of his Class I base to another person until 2 years after the hardship adjustment was issued. Such hardship adjustments are not transferable;

(9) Class I base issued pursuant to § 1125.121(c) may not be transferred in whole or in part for a period of 2 years after it was issued to any person other than a member of the baseholder's immediate family who continues delivery of producer milk from the same farm from which such baseholder delivered producer milk; and

(10) Class I base issued pursuant to 1125.121(b) may not be transferred in whole or in part unless such transfer is to a member of the baseholder's immediate family who continues delivery of producer milk from the same farm from which such baseholder delivered producer milk for a period of 2 years from the date upon which the producer to whom it was issued last held designation as a producer-handler.

(b) If a producer delivers milk for fluid use other than as diverted producer milk to a plant not regulated under this Part 1125, which is engaged in distribution of fluid milk products to wholesale or retail outlets or in supplying fluid milk products to a plant so engaged, such producer shall have his base milk reduced by an amount equal to his Class I base for each day's production from which any such deliveries were made to such nonpool plant during the month.

(c) A person who discontinues deliveries of producer milk for a period of 60 consecutive days after a Class I base is issued to him shall forfeit any Class I base held pursuant to the provisions of this order, except that a person entering military service may retain his Class I base until 1 year after being released from active military duty.

(d) As soon as production history bases and Class I bases are computed by the market administrator notice of the amount of each producer's production history base and Class I base shall be given by the market administrator to the producer, to the handler receiving such producer's milk, and to the cooperative association of which the producer is a member. Each handler, following receipt of such notice, shall promptly post in a conspicuous place in his plant a list or lists showing the Class I base of each producer whose milk is received at such plant.

(e) Only one quantity of base milk pursuant to either § 1125.111 (a) (1) or (3) shall be computed with respect to milk produced by one or more persons where the land, buildings and equipment used, are jointly owned or operated.

(f) A producer who transfers Class I base computed pursuant to § 1125.121 shall have his production history base reduced in the same proportion that the Class I base transferred was of the total Class I base held by the transferor producer.

(g) As a condition for designation as a producer-handler pursuant to § 1125.14, of any person who has held Class I base any time during the 12-month period preceding such designation or of any member of the immediate family of such a person, or of any affiliate of such a person, or of any business unit of which such a person is a part, such baseholder shall forfeit Class I base in an amount equal to the highest amount held at any time during such 12-month period.

§ 1125.124 Relief from hardship or inequity.

Requests of producers for relief from hardship or inequity arising under the provisions of § 1125.120 through § 1125.123 will be subject to the following:

(a) A producer may request review of the following circumstances because of alleged hardship or inequity:

(1) He was not issued a Class I base pursuant to § 1125.121;

(2) His production history base pursuant to § 1125.120 is alleged to not be representative of his level of milk production in the base period due to a loss of milk production beyond the control of the producer such as loss of buildings, herds, or other facilities by fire, flood, or storms, official quarantine, or military service of the producer or his son;

(3) Loss or potential loss of Class I base pursuant to § 1125.123 (b) or (c); and

(4) Inability to transfer base due to the provisions of § 1125.123(a) (7), (8), (9) or (10);

(b) The producer shall file with the market administrator a request in writing for review of hardship or inequity not later than 45 days after notice pursuant to § 1125.123(d) with respect to requests pursuant to paragraph (a)(1) or (2) of this section, or not later than 45 days after the occurrence with respect to requests pursuant to paragraph (a)(3) or (4) of this section, setting forth:

(1) Conditions that caused the alleged hardship or inequity;

(2) The extent of the relief or adjustment requested;

(3) The basis upon which the amount of adjustment requested was determined; and

(4) Reasons why the relief or adjustment should be granted.

(c) One or more Producer Base Committees shall be established and function as follows:

(1) Each Producer Base Committee shall consist of five producers appointed by the market administrator.

(2) Each committee shall review the requests for relief from hardship or inequity referred to it by the market administrator at a meeting in which the market administrator or his representative serves as recording secretary and at which the applicant may appear in person if he so requests.

(3) Recommendations with respect to each such request shall be endorsed at the meeting by at least three committee members and shall:

(i) With respect to requests pursuant to paragraph (a) (1), (3), or (4) of this section, either reject such request or indicate the nature and extent to which the producer shall be granted exception to the provisions involved and the effective date thereof.

(ii) With respect to requests pursuant to paragraph (a)(2) of this section, either reject the request or provide adjustment in the form of a daily quantity of "hardship" adjustment milk which when delivered in excess of such producer's Class I base, may be included in the computation of base milk pursuant to § 1125.122 and the effective date thereof. In considering such requests the loss of milk production due to the following shall not be considered a basis for hardship adjustment:

(a) Loss of milk due to mechanical failure of farm tank or other farm equipment; and

(b) Inability to obtain adequate labor to maintain milk production, except that hardship adjustment may be granted in the case of a producer or the son of a producer who entered into military service directly from employment in milk production;

(4) Recommendation of the Producer Base Committee shall:

(i) If to deny the request, be final upon notification to the producer, subject only to appeal by the producer to the Director, Dairy Division within 45 days after such notification; or

(ii) If to grant the request in whole or in part, be transmitted to the Director, Dairy Division, and shall become final unless vetoed by such Director within 15 days after transmittal.

(5) Committee members shall be reimbursed by the market administrator from the funds collected under § 1125.88 for their services at $20.00 per day or portion thereof, plus necessary travel and subsistence expenses incurred in the performance of their duties as committee members.

(d) The market administrator shall maintain files of all requests for alleviation of hardship and the disposition of such requests. These files shall be open to the inspection of any interested person during the regular office hours of the market administrator.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: September 1, 1967.

Signed at Washington, D.C., on August 15, 1967.

JOHN A. SCHNITTKER,
Acting Secretary.

Chapter XIV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Price Support Regs., 1967—Crop Dry Edible Bean Supp.]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1967 Crop Dry Edible Bean Loan and Purchase Program

The General Regulations Governing Price Support for the 1964 and Subsequent Crops (Revision 1) (31 F.R. 5941) and the 1966 and Subsequent Crops Dry Edible Bean Supplement (31 F.R. 6904), which contain regulations of a general nature with respect to price support operations, are further supplemented for 1967 crop dry edible beans as follows:

Sec.
1421.2480 Purpose.
1421.2481 Availability.
1421.2482 Maturity of loans.
1421.2483 Support rates.

AUTHORITY: The provisions of this subpart issued under sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 68 Stat. 1063, 15 U.S.C. 714c, 7 U.S.C. 1421, 1441.

§ 1421.2480 Purpose.

This supplement contains additional program provisions which together with the provisions of the General Regulations Governing Price Support for the 1964 and Subsequent Crops (Revision 1) and any amendments thereto or revisions therpof, and the 1966 and Subsequent Crop Dry Edible Bean Supplement and any amendments thereto, apply to loans and purchases for 1967 crop dry edible beans.

§ 1421.2481 Availability.

A producer desiring a price support loan must request a loan on his eligible beans on or before March 31, 1968. To obtain price support through a sale to CCC, a producer must give the appropriate ASCS county office notice of his intent to sell his eligible beans to CCC on or before the loan maturity date specified in § 1421.2481.

§ 1421.2482 Maturity of loans.

Unless demand is made earlier, loans on dry edible beans will mature on April 30, 1968.

§ 1421.2483 Support rates.

The support rate for beans placed under a loan other than a loan on beans stored commingled in an approved warehouse shall be the applicable basic support rate specified in paragraph (a) of this section for the county in which the beans were produced, adjusted as provided in paragraph (d) of this section. The support rate for loans on beans stored commingled in approved warehouse storage and for settlement of all loans and purchases shall be the applicable basic support rate specified in paragraph (a) of this section for the county in which the beans were produced, (1) adjusted in accordance with paragraphs (b), (c), and (d) this section, and (2) adjusted also, in the case of settlements, by such discounts as CCC may establish for class, grade, and quality factors not specified in this section which affect the value of the beans, such as (but not limited to) splits, damage, contrasting classes, and foreign material. The discounts established for the purposes of settlement will be based upon the market discounts for such factors at the time the beans are delivered to CCC, as determined by CCC. Producers may obtain schedules of such factors and discounts at ASCS county offices approximately one month prior to the loan maturity date. Except in the case of large lima beans, if the beans have been moved by truck to approved storage in a higher support rate county, or if the warehouse guarantees delivery by truck to approved storage or on track in a higher support rate county, the support rate shall be determined on the basis of the basic support rate specified in paragraph (a) of this section for the county in which the beans are stored or to which delivery is guaranteed, rather than the county in which the beans were produced. Settlement shall be made in accordance with the provisions of § 1421.72.

(a) *Basic county support rates.* The basic county support rates per 100 pounds net weight for beans of all classes grading U.S. No. 1 are as follows:

Class and area	Rate per 100 pounds U.S. No. 1 in jute bags
Pinto:	
Area I—In New Mexico, all counties except McKinley, Rio Arriba, San Juan, Taos and Valencia	$6.57
Area II—Kansas, Nebraska, Oklahoma, and Texas. In Colorado, the counties of Larimer, Boulder, Gilpin, Clear Creek, Jefferson, Teller, Fremont, Pueblo, Huerfano, and Las Animas and all counties east thereof in Colorado. In Wyoming, the counties of Goshen, Laramie, and Platte	6.47
Area III—In New Mexico, the counties of McKinley, and Valencia	6.37
Area IV—Arizona, California, South Dakota, and Utah. In Wyoming, all counties not in Area II. In Colorado, all counties not in Area II. In New Mexico, the counties of Rio Arriba, San Juan, and Taos	6.27
Area V—Idaho and Montana	6.17
Area VI—Washington	6.97
Area VII—Other States	6.07
Great Northern:	
Area I—Nebraska, Minnesota, and North Dakota. In Colorado, all counties east of 104° longitude. In Wyoming, the counties of Goshen, Laramie, and Platte	7.21
Area II—South Dakota. In Wyoming, all counties not in Area I	7.01
Area III—Montana and Idaho. In Oregon, Malheur County	6.91
Area IV—Other States and counties	6.71
Pea (Navy) and Medium White:	
Area I—Michigan, New York, Maine, Minnesota, and Wisconsin	6.66
Area II—Other States	6.15
Small White and Flat Small White	7.82
Dark Red Kidney	8.51
Light and Western Red Kidney	8.70
Pink	7.32
Small Red:	
Area I—Idaho and Colorado	7.47
Area II—Washington	7.37
Area III—Other States	7.42
Large Lima:	
Area I—In California, the counties of Monterey, San Luis Obispo, Santa Barbara, Ventura, Los Angeles, Orange, and San Diego	10.39
Area II—Other counties in California	10.24
Baby Lima	8.59

(b) *Premium.*

	Cents per 100 pounds
Grade U.S. CHP (Pea beans)	25
Grade U.S. CHP (all other beans)	10
Grade U.S. Extra No. 1	10

(c) *Discount.*

	Cents per 100 pounds
Grade U.S. No. 2	25
Paper package	09

(d) *Deduction for processing charges.* In the case of beans which have not been processed (i.e., commercially cleaned), the rate shall be reduced by the following amounts (except for beans stored comingled in an approved warehouse):

	Dollars per 100 pounds from U.S. No. 1 rate
All States except Michigan and New York	$1.00
Michigan, Pea beans only	1.00
Michigan, other classes	1.50
New York	2.00

Chapter XVIII—Farmers Home Administration, Department of Agriculture

SUBCHAPTER C—LOANS PRIMARILY FOR PRODUCTION PURPOSES

[FHA Instructions 441.5, 441.6]

PART 1833—ECONOMIC OPPORTUNITY LOANS TO INDIVIDUALS

A new Part 1833 consisting of Subparts A and B is added to Chapter XVIII, Title 7, Code of Federal Regulations (31 F.R. 14109), prescribing regulations for making Economic Opportunity loans to individuals. The new part reads as follows:

Subpart A—Loans to Farmers

Sec.
1833.1 General.
1833.2 Objectives.
1833.3 Definitions.
1833.4 Supervision.
1833.5 Relationship of Economic Opportunity and other FHA loans.
1833.6 Determining "reasonable assurance of repayment" for Economic Opportunity loans.
1833.7 Eligibility.
1833.8 Certification of County Committee.
1833.9 Loan purposes.
1833.10 Limitations and special requirements.
1833.11 Rates and terms.
1833.12 Nondiscrimination.
1833.13 Security policies.
1833.14 Loan approval.
1833.15 Loan forms and routines.
1833.16 Review and approval or rejection.
1833.17 Loan closing.
1833.18 Revision in the use of Economic Opportunity loan funds.

Subpart B—Loans to Nonfarm Rural Families for Nonagricultural Enterprises

1833.31 General.
1833.32 Objectives.
1833.33 Definitions.
1833.34 Supervision.
1833.35 Determining "reasonable assurance of repayment" for Economic Opportunity loans.
1833.36 Eligibility.
1833.37 Certification of County Committee.
1833.38 Loan purposes.
1833.39 Limitations and special requirements.
1833.40 Rates and terms.
1833.41 Nondiscrimination.
1833.42 Security policies.
1833.43 Loan approval.
1833.44 Loan forms and routines.
1833.45 Approval or rejection.
1833.46 Loan closing.
1833.47 Revision in the use of Economic Opportunity loan funds.

AUTHORITY: The provisions of this Part 1833 issued under sec. 602, 78 Stat. 528, 42 U.S.C. 2942; Order of Director, Office of Economic Opportunity, 29 F.R. 14764; Orders of Secretary of Agriculture, 29 F.R. 16210, 32 F.R. 6650.

Subpart A—Loans to Farmers

§ 1833.1 General.

This subpart prescribed jointly by the Director, Office of Economic Opportunity, and the Secretary of Agriculture, includes the policies, procedures, and authorizations for making Economic Opportunity loans for agricultural and nonagricultural enterprises to low-income farm families under the provisions of section 302, Title III, of the Economic Opportunity Act of 1964.

§ 1833.2 Objectives.

The objectives of these loans are to improve the capacity of the applicant family through the acquisition and development of resources so as to produce and maintain a higher income and thereby generate at least a modest increase in their level of living and make some improvement in their financial situation. Loans to finance nonagricultural enterprises are intended to assist low-income farm families in establishing a new enterprise or expanding or reorganizing existing enterprises needed to supplement the earnings received from their farming operations.

(a) In areas in which approved community action programs are in operation or programs are in process of development, County Supervisors will carry on all Farmers Home Administration (FHA) activities in such a manner as to further implement such community action programs to the maximum extent possible. Therefore, in the making of each Economic Opportunity loan, the applicant will be encouraged to participate in and to make maximum use of the community action programs.

(b) State Directors will give preference in the use of Economic Opportunity loan funds to those counties that have approved community action programs.

(c) In order to determine whether the proposed loan will result in an increase in the capacity, income, and level of living as referred to in this paragraph, a careful analysis and comparison will be made of the family's situation for the year previous to their application for FHA assistance as reflected on Form FHA 410–1, "Application for FHA Services," and elsewhere in the borrower's case folder, for the first crop year after they receive FHA assistance as shown in Form FHA 431–2, "Farm and Home Plan," and for the typical year after they receive FHA assistance also shown on Form FHA 431–2.

§ 1833.3 Definitions.

(a) *Low-income farm family.* A low-income farm family means an established farm family with limited assets whose income now and recently from all sources is and was insufficient to:

(1) Provide the family with basic needs for a minimum level of living in their community.

(2) Pay necessary farm and other operating expenses.

(3) Meet required payments on their farm and other essential income producing property.

(b) *Established farm family.* An established farm family as used herein is a family that is farm oriented, has a farm background, has under lease or owns, or will have under lease or will own at the time of loan approval what is recognized as a farm in the community, and is producing at least a portion of their subsistence needs from crops or livestock.

§ 1833.4 Supervision.

The farm families who are to receive loans under this subpart are confronted with such problems as, very limited resources; low incomes; indebtedness beyond their present ability to repay; ineffective management of their operations, income, and credit; lack of management skills; and an unsatisfactory level of living. Therefore, these families will be provided intensive supervision in order that they may be properly assisted in overcoming their problems and thus improve their incomes, levels of living, and financial situations.

§ 1833.5 Relationship of Economic Opportunity and other FHA loans.

(a) Applicants for credit assistance from the FHA will be considered for the type of loan which will be most effective in assisting them to improve their farms, incomes, levels of living, and financial situations. Thus, first consideration will ordinarily be given to the making of other FHA loans to an applicant.

(b) When an applicant cannot qualify for other FHA loans or his needs cannot be fully met with such loans, consideration will be given to meeting as much of his needs as possible with an Economic Opportunity loan. Such a loan will enable many applicants to continue in farming and remain in their rural communities and in some instances improve their situations to the point where other FHA loans can be made to further assist them in also achieving the objectives for such loans.

(c) An Economic Opportunity loan may be made to an applicant simultaneously with an initial Operating loan under the provisions of § 1831.2(b) of this chapter, or an initial Emergency loan under Part 1832 of this chapter.

(d) An Economic Opportunity loan may be made simultaneously with an initial loan made under Part 1821 or Part 1822 of this chapter, or to a borrower indebted for any other FHA loan, provided the Economic Opportunity loan is made for purposes not authorized for the other loan(s).

§ 1833.6 Determining "reasonable assurance of repayment" for Economic Opportunity loans.

Before making an Economic Opportunity loan, it must be determined that there is "reasonable assurance of repayment." Repayment ability will be based on a farm and home plan showing the first year's operations as well as those for a typical year. Such plan will be developed with an agreed to by the applicant and should reflect sufficient income

to improve the level of living, pay operating expenses, make payments on debts as necessary to retain income producing property, and also repay the Economic Opportunity loan under the liberal terms authorized herein. "Reasonable assurance of repayment," as used herein, takes into consideration, among other things, the following factors:

(a) Economic Opportunity loans are made only to low-income farm families who are confronted with serious resource and other problems. Therefore, in order to reduce the relatively high risk involved in making a loan under these conditions, County Supervisors will help such families to exercise wise use of loan funds and will provide intensive supervision to help assure that the objectives of the loan will be achieved.

(b) Economic Opportunity loans are made primarily for purposes that will increase income and, therefore, will enhance the repayment ability of the applicant.

(c) Economic Opportunity loans generally will be scheduled for repayment over longer periods of time than other FHA loans thereby keeping annual installments at a modest level.

§ 1833.7 Eligibility.

To be eligible for an Economic Opportunity loan each applicant must:

(a) Be the head of an established low-income farm family or a legally competent member of the family who, after the loan is made, will be primarily responsible for the management and the operation of the farming or nonagricultural enterprise which contributes directly and substantially to the family income. For this purpose, an individual living alone is eligible as a family.

(b) Be an individual who has sufficient experience as an owner-operator of a farm, farm tenant, share cropper, or farm laborer, by having been reared on a farm, or has had sufficient experience or training which, with FHA supervision, will assure reasonable prospects of success in the farming operation or the nonagricultural enterprise in connection with which the loan will be made.

(c) Possess the character, ability, and industry necessary to carry out the proposed operations and in the opinion of the County Committee will honestly endeavor to carry out the undertaking required of him in connection with the loan.

(d) Be unable to finance the required adjustments and improvements in his farming operation or the needed nonagricultural enterprise through his own resources, income, FHA loans, and credit under reasonable rates and terms from other sources.

(e) Have reasonable prospects, with the assistance of a loan and the use of other available resources and supervision, of being able to generate at least a modest increase in his income and level of living and make some improvement in his financial situation.

(f) If funds are included in the loan for a nonagricultural enterprise, produce only goods or services from that enterprise for which there is a need that is not being adequately supplied by others in the community and for which there is a reasonably reliable market.

(g) Have such tenure on the farm to be operated as necessary to permit him to achieve the objectives of the loan as described in § 1833.2.

(h) Possess legal capacity to incur the obligations of the loan.

(i) Not be engaged in a larger than family-farming operation after the loan is made.

§ 1833.8 Certification of County Committee.

Before a loan is approved, the County Committee will certify on Form FHA 440–2, "County Committee Certification or Recommendation," that the applicant is eligible for a loan in accordance with the provisions of § 1833.7.

§ 1833.9 Loan purposes.

(a) Loans for agricultural purposes may include funds for the following:

(1) Purchase of livestock, poultry, fish, and farm equipment.

(2) Purchase of an undivided interest in farm equipment or facilities to be operated under a joint arrangement or as a group service.

(3) Purchase of feed, seed, fertilizer, and the payment of other essential farm operating expenses which will result in or contribute to the long-term improvement in the applicant's income as referred to in § 1833.2.

(4) Paying costs incident to expanding or adding farm enterprises or reorganising the farming system for more profitable operation.

(5) Purchase of livestock for subsistence needs, purchase of minimum essential home furnishings and equipment, and payment of minimum essential family subsistence expenses provided the objectives of the loan as described in § 1833.2 cannot otherwise be met and the amount of funds advanced for such purposes is an incidental part of the loan.

(6) Acquisition of memberships in farm purchasing and marketing and farm service-type cooperative associations or to purchase stock in such associations to enable the applicant to obtain services needed to improve his income and financial situation.

(7) Purchase, construction, alteration, repair, or relocation of essential buildings.

(8) Land and water development, use, and conservation essential to the operation of the farm including such things as fencing, drainage, irrigation, and the establishment and improvement of permanent hay or pasture.

(9) Purchase of real estate.

(10) Payment of debts secured by liens on real property or livestock and farm equipment. However, the amount advanced for payment of the debts may not exceed the normal value of the real property or market value of the livestock and farm equipment as determined by the County Supervisor and documented in Table A of Form FHA 431–2, minus the amount of any other indebtedness secured by liens on the property after the refinancing is accomplished.

(11) Purchase of a milk base either with or without cows where such action is necessary to assure the applicant a satisfactory market for his dairy products.

(12) Payment of expenses incident to loan closing.

(b) Loans for nonagricultural purposes may include funds for the following:

(1) Purchase of essential equipment, tools, facilities, animals, birds, and fish.

(2) Purchase, construction, alteration, repair, and relocation of buildings.

(3) Payment of necessary operating expenses, and the purchase of necessary inventory.

(4) Paying costs incident to establishing a new enterprise, expanding or reorganizing the enterprise for more profitable operation.

(5) Purchase of livestock for subsistence needs, purchase of minimum essential home furnishings and equipment, and payment of minimum essential family subsistence expenses provided that the objectives of the loan, as described in § 1833.2, cannot otherwise be met and the amount of funds advanced for such purposes is an incidental part of the loan.

(6) Purchase of real estate.

(7) Payment of debts secured by liens on real or chattel property used in a nonagricultural enterprise. However, the amount advanced for payment of the debts may not exceed the normal value of the real property or the market value of the chattel property as determined by the County Supervisor and documented in Table A of Form FHA 431–2, minus the amount of any other indebtedness secured by liens on the property after the refinancing is accomplished.

(8) Acquisition of membership or stock in cooperative associations financed under the provisions of Subpart D, Part 1823 of this chapter, and other cooperative associations providing similar services in the community.

(9) Purchase of a franchise, contract, or a privilege when such action is necessary for the enterprise.

(10) Purchase of an undivided interest in equipment or facilities to be operated under a joint arrangement.

(11) Payment of expenses incident to loan closing.

§ 1833.10 Limitations and special requirements.

(a) The amount of each loan will be limited to the needs of the applicant and his reasonable ability to pay. A loan may not be made which will result in a total principal and interest (calculated to the date of loan approval) balance outstanding for Economic Opportunity loans in excess of $3,500 to an individual or to a family.

(b) A joint loan may be made to two eligible applicants living together or separately, and operating jointly an agricultural or nonagricultural enterprise. When joint loans are made, both individuals will execute the application, payment authorization, notes, and other documents required in connection with making and closing the loan. A joint loan may not exceed the limitation set forth in paragraph (a) of this section.

(c) Separate loans may be made to eligible applicants who are engaged jointly in an agricultural or nonagricultural enterprise provided not more than two individuals are interested in the enterprise, and provided the applicants are not members of the same family.

(d) No loan will be made to finance any nonagricultural enterprise or facility used by the applicant in the production of industrial products in his home or on his premises for a manufacturer rather than in such manufacturer's place of business. This would not prohibit an applicant who is a bona fide independent producer from producing in his own home or on his premises products to be sold to a manufacturer, wholesaler, or retailer whether contracted for in advance or sold in some other manner.

§ 1833.11 Rates and terms.

(a) Interest will be charged at the rate of 4½ percent per annum. Interest will accrue from the date of the loan check on outstanding principal only and will not be compounded.

(b) Loans will be scheduled for repayment over the minimum period consistent with the applicant's reasonable ability to repay as determined by an analysis of the farm and home operations and the nonagricultural enterprise when such an enterprise is involved.

(1) Principal payments on such loans will be scheduled at least annually unless it is determined that income sufficient to meet the initial payment will not be received within 12 months from the date of the loan check in which case the initial payment may be scheduled on a date coinciding with the date the income is to be received, but not beyond the end of the second full year following the date of the loan. At least one payment will be scheduled during each 12-month period thereafter.

(2) When conditions warrant such action, principal payments may vary in amounts. For example, when an agricultural or nonagricultural enterprise is being expanded or added, a variable or graduated payment could be used if necessary.

(3) In no event will any payment be scheduled later than 15 years from the date of the loan check.

§ 1833.12 Nondiscrimination.

No person in the United States shall, on grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under the program authorized in this subpart.

§ 1833.13 Security policies.

Economic Opportunity loans will be made on the basis of the borrower's promissory note and loan agreement without taking other security except:

(a) When an Economic Opportunity loan is made to an FHA borrower or to an applicant who is also receiving another FHA loan and a significant amount of Economic Opportunity funds is used to acquire, improve, or refinance debts on property that is covered or will be covered by a lien securing the other FHA loan, all Economic Opportunity loans will be secured by lien on such property.

(1) In such cases when the other FHA loan is a direct loan, the notes for both the Economic Opportunity and the other FHA loans will be described in the same lien instrument. On the other hand, when the other FHA loan is insured, a separate lien instrument will be required for the Economic Opportunity loan. When separate lien instruments are taken, the lien securing the loan resulting in the larger investment in the security will be given priority.

(b) When a significant amount of Economic Opportunity loan funds is used to purchase or make repairs to licensed motor vehicles or motor boats, or to refinance debts thereon, liens normally will be taken on such property. This action is authorized because of the problems involved in transferring title to such property when the borrower refuses to do so and when it is necessary for the FHA to repossess and sell it in liquidation cases. Liens on motor vehicles will be taken in the same manner as for Operating loans. Liens on motor boats will be taken in accordance with instructions issued by the State Director.

§ 1833.14 Loan approval.

County Supervisors and Assistant County Supervisors, grade GS–7 and above, are authorized to approve loans made under this subpart.

§ 1833.15 Loan forms and routines.

(a) *Form FHA 410–1, "Application for FHA Services."* Applications for loans will be taken on Form FHA 410–1.

(b) *Form FHA 440–2, "County Committee Certification or Recommendation."* When the applicant is determined to be eligible for a loan, the County Committee will execute Form FHA 440–2 before the loan is approved.

(c) *Form FHA 431–2, "Farm and Home Plan."* Form FHA 431–2 will be developed with all applicants in the same manner as for other FHA loans to individuals. In addition, the actual columns in Tables B through K of that form will show the information for a typical year and the column headings will be changed accordingly. This, along with the information contained in Form FHA 410–1 and other information in the borrower's case folder, will assist the applicant and the County Supervisor in determining whether the objectives of the loan will be achieved.

(d) *Form FHA 431–4, "Business Analysis — Nonagricultural Enterprise."* This form will be developed with all applicants requesting loans for the financing of nonagricultural enterprises. The information contained in this form, along with that shown in the application and the farm and home plan, will assist the applicant and County Supervisor in determining whether the objectives of the loan will be achieved. The nonagricultural enterprise must return sufficient income to pay its operating expenses, depreciation, and make a reasonable contribution to the family's living expenses.

(e) *Form FHA 431–1, "Long-Time Farm and Home Plan."* Form FHA 431–1 may be used when necessary in planning long-time aims and objectives with applicants.

(f) *Form FHA 441–1, "Promissory Note."* The amount of each loan and the scheduled payments thereon will be in multiples of $10. Not more than four payments on a single note will be scheduled for any year. The time limitations for payment schedules prescribed in § 1833.11 run from the date of the loan check instead of the date of the note. Form FHA 441–1 will be dated as of the date of execution by the applicant. The requirements for the applicant's spouse to execute the note are the same as for loans made under Part 1831 of this chapter.

(g) *Form FHA 440–9, "Supplementary Payment Agreement."* This form will be used, as needed, when applicants and borrowers who will be receiving income from the nonagricultural enterprise, wages, and so forth, from which payments are to be made on the loan.

(h) *Form FHA 440–1, "Payment Authorization."* Form FHA 440–1 will be prepared for the total amount of the Economic Opportunity loan including the amount for both agricultural purposes and nonagricultural purposes when both purposes are included.

(i) *Immediate and future disbursement.* Loan funds may be disbursed in an immediate loan advance or in one or more future loan advances in the same manner as for loans made under Part 1831 of this chapter.

(j) *Loan agreement.* Form FHA 441–19, "Loan Agreement," will be used in lieu of other security instruments. It will be the County Supervisor's responsibility to see that the requirements in the loan agreement are carried out and to take any necessary actions as prescribed therein.

(k) *Voluntary debt adjustment.* Voluntary debt adjustment assistance will be provided when the adjustment of debts appears necessary to establish a sound financial position and operation. Form FHA 403–1, "Debt Adjustment Agreement," will be used to document satisfactory agreements for the adjustment of a debt.

(l) *Form FHA 441–10, "Nondisturbance Agreement."* Form FHA 441–10 will be used when necessary to obtain nondisturbance agreements from creditors of an applicant who are in a position to interfere with his operations.

§ 1833.16 Review and approval or rejection.

(a) *Approval of loans.* If a loan is approved, the loan approval official will date and sign Form FHA 440–1 and insert his title in the spaces designated for this purpose. The loan approval official also will prescribe any special conditions of approval.

(b) *Rejection of loans.* If a loan is rejected, the loan approval official will indicate the reasons for the rejection, in

detail. The County Supervisor will notify the applicant of the rejection and will return to him the original of Form FHA 441–1 and any executed security instruments.

§ 1833.17 Loan closing.

(a) *Check delivery.* County Office employees in bonded positions will receive and deliver loan checks. All loan checks will be deposited in supervised bank accounts except when all purchases are being made from one vendor at the same time and the loan check is endorsed payable to the vendor in the presence of an FHA employee. Form FHA 402–1, "Deposit Agreement," will be used for supervised bank accounts. Upon receipt of a loan check and if the depository bank does not require the applicant's endorsement for deposit, the County Supervisor will deposit the loan check in the supervised bank account and furnish the applicant a copy of the deposit slip. If the bank will not accept the loan check for deposit in a supervised bank account without the applicant's endorsement, the County Supervisor will retain the check and arrange with the applicant for a time and place for its deposit.

(b) *Fees.* Notary and other fees incident to all loan closing or servicing will be paid by the borrower from personal funds or from proceeds of the loan. Whenever cash is accepted by FHA personnel to be used to pay such fees, Form FHA 440–12, "Acknowledgment of Payment For Recording, Lien Search, and Releasing Fees," will be executed. FHA personnel who accept custody of such fees will make it clear to the borrower that the amount so accepted is not received by the Government as credit on the borrower's indebtedness but is accepted only for the purpose of paying such fees on behalf of the borrower.

§ 1833.18 Revision in the use of Economic Opportunity loan funds.

The County Supervisor is authorized to approve changes in the purposes for which loan funds are to be used provided such changes are for authorized purposes and will accomplish the purpose of the loan program. Documentation and routines when changes are made in the use of loan funds will be the same as for loans made under Part 1831 of this chapter.

Subpart B—Loans to Nonfarm Rural Families for Nonagricultural Enterprises

§ 1833.31 General.

This subpart prescribed jointly by the Director, Office of Economic Opportunity, and the Secretary of Agriculture, includes the policies, procedures, and authorizations for making Economic Opportunity loans for nonagricultural enterprises to low income rural families under the provisions of section 302, Title III, of the Economic Opportunity Act of 1964.

§ 1833.32 Objectives.

The objectives of these loans are to improve the capacity of the applicant family through the acquisition and development of resources so as to produce and maintain a higher income and thereby generate at least a modest increase in their level of living and make some improvement in their financial situation. Loans to finance nonagricultural enterprises are intended to assist low income rural families in establishing a new enterprise or expanding or reorganizing existing enterprises to supplement their earnings.

(a) In areas in which approved community action programs are in operation or programs are in the process of development, County Supervisors will carry on all Farmers Home Administration (FHA) activities in such a manner as to further implement such community action programs to the maximum extent possible. Therefore, in the making of each Economic Opportunity Loan the applicant will be encouraged to participate in and to make maximum use of the community action programs. State Directors will give preference in the use of Economic Opportunity loan funds to those counties that have approved community action programs.

(b) In order to determine whether the proposed loan will result in an increase in the capacity, income, and level of living as referred to in this paragraph, a careful analysis and comparison will be made of the family's situation for the year previous to their application for FHA assistance as reflected on Form FHA 410–1, "Application for FHA Services," Form FHA 410–2, "Supplement to Application for FHA Services (For Applicants Who Depend on Off-Farm Income)," and elsewhere in the borrower's case folder, and for the first year after they receive FHA assistance also shown on Form FHA 431–4, "Business Analysis—Nonagricultural Enterprise."

§ 1833.33 Definitions.

(a) *Rural family.* A rural family is one whose permanent place of abode is in the open country or in any place of less than 5,500 persons which is not a part of an urban area. It shall not include a family which:

(1) Lives in a closely settled area (where the principal land use and occupancy is residential or commercial) surrounding, adjacent to, or growing out of, a town, village, or place of more than 5,500 people. When determining whether a residential area is to be considered near to, or a part of, a place of 5,500 persons or more, minor open spaces due to physical barriers, commercial or industrial developments, parks, areas reserved for convenience or appearance, or narrow strips of cultivated land will be disregarded.

(2) Lives in a subdivision of substantial size which is being developed in a rural area, unless a large proportion of the residents will obtain most of their income from employment in the surrounding rural area.

(b) *Low-income rural family.* A low-income rural family means a family with limited assets whose income now and recently from all sources is and was insufficient to:

(1) Provide the family with basic needs for a minimum level of living in their community,

(2) Pay necessary business or other operating expenses, and

(3) Meet required payments on their essential income producing property.

§ 1833.34 Supervision.

The rural families who are to receive loans under this subpart are confronted with such problems as, very limited resources; low incomes; indebtedness beyond their present ability to repay; ineffective management of their operations, income, and credit; lack of management skills; and an unsatisfactory level of living. Therefore, these families will be provided intensive supervision in order that they may be properly assisted in overcoming their problems and thus improve their incomes, level of living, and financial situation.

§ 1833.35 Determining "reasonable assurance of repayment" for Economic Opportunity loans.

Before making an Economic Opportunity loan, it must be determined that there is "reasonable assurance of repayment." Repayment ability will be based on the information contained in Form FHA 431–3, "Family Budget," and Form FHA 431–4 showing the first year's operations as well as those for a typical year. Such information will be developed with and agreed to by the applicant and should reflect sufficient income to improve the level of living, pay operating expenses, make payments on debts as necessary to retain income producing property, and also repay the Economic Opportunity loan under the liberal terms authorized herein. "Reasonable assurance of repayment," as used herein, takes into consideration, among other things, the following factors:

(a) Economic Opportunity loans are to be made only to low income families who are confronted with serious resource and other problems. Therefore, in order to reduce the relatively high risk involved in making a loan under these conditions, County Supervisors will help such families to exercise wise use of loan funds and will provide intensive supervision to help assure that the objectives of the loan will be achieved.

(b) Economic Opportunity loans are made primarily for purposes that will increase income and, therefore, will enhance the repayment ability of the applicant.

(c) Economic Opportunity loans generally will be scheduled for repayment over longer periods of time than most other types of loans for similar purposes under the existing conditions thereby keeping annual installments at a modest level.

§ 1833.36 Eligibility.

To be eligible for an Economic Opportunity loan each applicant must:

(a) Be the head of a low income rural family or a legally competent member of the family who, after the loan is made, will be primarily responsible for the management and the operation of the enterprise which contributes directly and substantially to the family income. For this purpose an individual living alone is eligible as a family.

(b) Be an individual who has sufficient experience or training which, with FHA supervision, will assure reasonable prospects of success in the nonagricultural enterprise in connection with which the loan will be made.

(c) Possess the character, ability, and industry necessary to carry out the proposed operations and in the opinion of the County Committee will honestly endeavor to carry out the undertakings required of him in connection with the loan.

(d) Be unable to finance the needed nonagricultural enterprise through his own resources, income, or credit under reasonable rates and terms from other sources.

(e) Have reasonable prospects, with the assistance of a loan and the use of other available resources and supervision, of being able to generate at least a modest increase in his income and level of living and make some improvement in his financial situation.

(f) Produce only goods or services from the nonagricultural enterprise for which there is a need that is not being adequately supplied by others in the community and for which there is a reasonably reliable market.

(g) Possess legal capacity to incur the obligations of the loan.

§ 1833.37 Certification of County Committee.

Before a loan is approved, the County Committee will certify on Form FHA 440–2, "County Committee Certification or Recommendation," that the applicant is eligible for a loan in accordance with the provisions of § 1833.36.

§ 1833.38 Loan purposes.

(a) Loans for nonagricultural purposes may include funds for the following:

(1) Purchase of essential equipment, tools, facilities, animals, birds, and fish.

(2) Purchase, construction, alteration, repair, and relocation of buildings.

(3) Payment of necessary operating expenses and the purchase of necessary inventory.

(4) Paying costs incident to establishing a new enterprise, expanding the enterprise or reorganizing the enterprise for more profitable operation.

(5) The purchase of livestock for subsistence needs, the purchase of minimum essential home furnishings and equipment, and the payment of minimum essential family subsistence expenses provided the objectives of the loan cannot otherwise be met and that the amount of funds advanced for such purposes is an incidental part of the loan.

(6) Purchase of real estate.

(7) Payment of debts secured by liens on real or chattel property used in a nonagricultural enterprise. However, the amount advanced for payment of the debts may not exceed the normal value of the real property or the market value of the chattel property as determined by the County Supervisor and documented in Table A of Form FHA 431–3, minus the amount of any other indebtedness secured by liens on the property after the refinancing is accomplished.

(8) Acquisition of membership or stock in cooperative associations financed under the provisions of Subpart D, Part 1823 of this chapter, and other cooperative associations providing similar services in the community.

(9) The purchase of a franchise, contract or a privilege when such action is necessary for the enterprise.

(10) Purchase of an undivided interest in equipment or facilities to be operated under a joint arrangement.

(11) The payment of expenses incident to loan closing.

§ 1833.39 Limitations and special requirements.

(a) The amount of each loan will be limited to the needs of the applicant and his reasonable ability to pay. A loan may not be made which will result in total principal and interest (calculated to the date of loan approval) balance outstanding on Economic Opportunity loans in excess of $3,500 to an individual or to a family.

(b) A joint loan may be made to two eligible applicants living together or separately and operating jointly a nonagricultural enterprise. When joint loans are made, both individuals will execute the application, payment authorization, notes, and other documents required in connection with making and closing the loan. A joint loan may not exceed the limitation set forth in paragraph (a) of this section.

(c) Separate loans may be made to eligible applicants who are engaged jointly in a nonagricultural enterprise provided not more than two individuals are interested in the enterprise, and provided the applicants are not members of the same family.

(d) No loan will be made to finance any nonagricultural enterprise or facility used by the applicant in the production of industrial products in his home or on his premises for a manufacturer rather than in such manufacturer's place of business. This would not prohibit an applicant who is a bona fide independent producer from producing in his own home or on his premises products to be sold to a manufacturer, wholesaler, or retailer whether contracted for in advance or sold in some other manner.

§ 1833.40 Rates and terms.

(a) Interest will be charged at the rate of 4½ percent per annum. Interest will accrue from the date of the loan check on outstanding principal only and will not be compounded.

(b) Loans will be scheduled for repayment over the minimum period consistent with the applicant's reasonable ability to repay after taking into consideration the information shown on Form FHA 431–3, Form FHA 431–4, and other pertinent facts.

(1) Principal payments on such loans will be scheduled at least annually unless it is determined that income sufficient to meet the initial payment will not be received within 12 months from the date of the loan check, in which case the initial payment may be scheduled on a date coinciding with the date the income is to be received but not beyond the end of the second full year following the date of the loan. At least one payment will be scheduled during each 12-month period thereafter.

(2) When conditions warrant such action, principal payments may vary in amounts. For example, when a nonagricultural enterprise is being expanded or added, a variable or graduated payment could be used if necessary.

(3) In no event will any payment be scheduled later than 15 years from the date of the loan check.

§ 1833.41 Nondiscrimination.

No person in the United States shall, on grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under the program authorized in this subpart.

§ 1833.42 Security policies.

Economic Opportunity loans will be made on the basis of the borrower's promissory note and loan agreement without taking other security except:

(a) When an Economic Opportunity loan is made to an FHA borrower or to an applicant who is also receiving another FHA loan and a significant amount of Economic Opportunity funds is used to acquire, improve, or refinance debts on property that is covered or will be covered by a lien securing the other FHA loan, all Economic Opportunity loans will be secured by lien on such property.

(1) In such cases when the other FHA loan is a direct loan, the notes for both the Economic Opportunity and the other FHA loans will be described in the same lien instrument. On the other hand, when the other FHA loan is insured, a separate lien instrument will be required for the Economic Opportunity loan. When separate lien instruments are taken, the lien securing the loan resulting in the larger investment in the security will be given priority.

(b) When a significant amount of Economic Opportunity loans is used to purchase or make repairs to licensed motor vehicles or motor boats, or to refinance debts thereon, liens normally will be taken on such property. This action is authorized because of the problems involved in transferring title to such property when the borrower refuses to do so and when it is necessary for the FHA to repossess and sell it in liquidation cases. Liens on motor vehicles will be taken in the same manner as for loans made under Part 1831 of this chapter. Liens on motor boats will be taken in accordance with instructions issued by the State Director.

§ 1833.43 Loan approval.

County Supervisors and Assistant County Supervisors, grade GS–7 and above, are authorized to approve loans made under this subpart.

§ 1833.44 Loan forms and routines.

(a) *Form FHA 410–1, "Application for FHA Services."* Applications for loans will be taken on Form FHA 410–1 in the same manner as for other FHA loans to individuals.

(b) *Form FHA 410–2, "Supplement to Application for FHA Services (For Applicants Who Depend on Off–Farm Income)."* Applicants who are employed in other than their own nonagricultural enterprise will complete this form to show their employment record.

(c) *Form FHA 440–2, "County Committee Certification or Recommendation."* When the applicant is determined to be eligible for a loan, the County Committee will execute Form FHA 440–2 before the loan is approved.

(d) *Form FHA 431–3, "Family Budget."* This form will be developed with all applicants for whom loans are to be considered.

(e) *Form FHA 431–4, "Business Analysis—Nonagricultural Enterprise."* This form will be developed with all applicants for whom loans are to be considered. The information contained in this form, along with that shown in the application and other information in the loan docket, will assist the applicant and County Supervisor in determining whether the objectives of the loan will be achieved. The nonagricultural enterprise must return sufficient income to pay its operating expenses, depreciation, and make a reasonable contribution to the family's living expenses.

(f) *Form FHA 441–1, "Promissory Note."* The amount of each loan and the scheduled payments thereon will be in multiples of $10. Not more than four payments on a single note will be scheduled for any year. The time limitations for payment schedules prescribed in § 1833.40 run from the date of the loan check instead of the date of the note. Form FHA 441–1 will be dated as of the date of execution by the applicant. The requirements for the applicant's spouse to execute the note are the same as for loans made in accordance with Part 1831 of this chapter.

(g) *Form FHA 440–9, "Supplementary Payment Agreement."* This form will be used, as needed, when applicants and borrowers who will be receiving income from the nonagricultural enterprise, wages, and so forth, from which payments are to be made on the loan.

(h) *Form FHA 440–1, "Payment Authorization."* Form FHA 440–1 will be prepared for the total amount of the Economic Opportunity loan.

(i) *Immediate and future disbursement.* Loan funds may be disbursed in an immediate loan advance or in one or more future loan advances in the same manner as for loans made under Part 1831 of this chapter.

(j) *Form FHA 441–19, "Loan Agreement."* This form will be used in lieu of other security instruments. It will be the County Supervisor's responsibility to see that the requirements in the loan agreement are carried out and to take any necessary actions as prescribed therein.

(k) *Voluntary debt adjustment.* Voluntary debt adjustment assistance will be provided when the adjustment of debts appears necessary to establish a sound financial position and operation. Form FHA 403–1, "Debt Adjustment Agreement," will be used to document satisfactory agreements for the adjustment of a debt.

(l) *Form FHA 441–10, "Nondisturbance Agreement."* This form will be used when necessary to obtain nondisturbance agreements from creditors of an applicant who are in a position to interfere with his operations.

§ 1833.45 Approval or rejection.

(a) *Approval of loans.* If a loan is approved, the loan approval official will date and sign Form FHA 440–1 and insert his title in the spaces designated for this purpose. The loan approval official also will prescribe any special conditions of approval.

(b) *Rejection of loans.* If a loan is rejected, the loan approval official will indicate the reasons for the rejection, in detail in the loan docket or by memorandum. The County Supervisor will notify the applicant of the rejection and will return to him the original of Form FHA 441–1 and any executed security instruments.

§ 1833.46 Loan closing.

(a) *Check delivery.* County office employees in bonded positions will receive and deliver loan checks. All loan checks will be deposited in supervised bank accounts except when all purchases are being made from one vendor at the same time and the loan check is endorsed payable to the vendor in the presence of an FHA employee. Form FHA 402–1, "Deposit Agreement," will be used for supervised bank accounts. Upon receipt of a loan check and if the depository bank does not require the applicant's endorsement for deposit, the County Supervisor will deposit the loan check in the supervised bank account and furnish the applicant a copy of the deposit slip. If the bank will not accept the loan check for deposit in a supervised bank account without the applicant's endorsement, the County Supervisor will retain the check and arrange with the applicant for a time and place for its deposit.

(b) *Fees.* Notary and other fees incident to loan closing or servicing will be paid by the borrower from personal funds or from proceeds of the loan. Whenever cash is accepted by FHA personnel to be used to pay such fees, Form FHA 440–12, "Acknowledgement of Payment For Recording, Lien Search, and Releasing Fees," will be executed. FHA personnel who accept custody of such fees will make it clear to the borrower that the amount so accepted is not received by the Government as credit on the borrower's indebtedness but is accepted only for the purpose of paying such fees on behalf of the borrower.

§ 1833.47 Revision in the use of Economic Opportunity loan funds.

The County Supervisor is authorized to approve changes in the purposes for which loan funds are to be used provided such changes are for authorized purposes and will accomplish the purpose of the loan program. Documentation and routines when changes are made in the use of loan funds will be the same as for loans made under Part 1831 of this chapter.

Dated: August 11, 1967.

FLOYD F. HIGBEE,
Acting Administrator,
Farmers Home Administration.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 32—HUNTING

Kofa Game Range, Ariz.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER:

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

ARIZONA

KOFA GAME RANGE

Public hunting of bighorn sheep and deer on the Kofa Game Range, Ariz., is permitted only on the area designated by signs as open to hunting. The bighorn sheep season is from November 25, through December 10, 1967, inclusive, and the deer season is from September 9, through September 25, 1967, inclusive, and from October 27, through November 12, 1967, inclusive. The open bighorn sheep and deer hunting area, comprising 660,041 acres is delineated on maps available at refuge headquarters, Yuma, Ariz., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, N. Mex. 87103.

Hunting shall be in accordance with all applicable State regulations covering the hunting of bighorn sheep and deer subject to the following special condition:

(1) Bighorn sheep limited to 10 permits issued by the Arizona Game and Fish Department.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 10, 1967.

CLAUDE F. LARD,
Refuge Manager, Kofa Game Range, Yuma, Ariz.

AUGUST 8, 1967.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

[Reg. Docket No. 8318; Amdt. 549]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

The amendments to the standard instrument approach procedures contained herein are adopted to become effective when indicated in order to promote safety. The amended procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the complete procedure is republished in this amendment indicating the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for making this amendment effective within less than 30 days from publication.

In view of the foregoing and pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 97 (14 CFR Part 97) is amended as follows:

1. By amending the following automatic direction finding procedures prescribed in § 97.11(b) to read:

ADF STANDARD INSTRUMENT APPROACH PROCEDURES

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 66 knots
					66 knots or less	More than 66 knots

Chapter II—Civil Aeronautics Board

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. No. ER–504; Amdt. 5]

PART 221—CONSTRUCTION, PUBLICATION, FILING AND POSTING OF TARIFFS OF AIR CARRIERS AND FOREIGN AIR CARRIERS

Denied Boarding Compensation Tariffs

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 3d day of August 1967.

On January 10, 1967, the Board issued a notice of proposed rule making, EDR–109, Docket 16563 (32 F.R. 459), in which it proposed to issue a new Part 250 and to amend Part 221 so as to require carriers to file tariffs providing denied boarding compensation to such passengers.

In the light of the comments received and the findings set out in Regulation ER–503 published simultaneously herewith, the Board hereby amends Part 221 of the Economic Regulations (14 CFR Part 221) by amending § 221.38 (a) by adding a new subparagraph (7), effective October 17, 1967, as follows:

§ 221.38 Rules and regulations.

(a) *Contents.* * * *

(7) *Denied boarding compensation.* For carriers subject to Part 250, denied boarding compensation as specified in Part 250.

* * * * *

(Secs. 204(a), 416(a), Federal Aviation Act of 1958 (72 Stat. 743, 771; 49 U.S.C. 1324 and 1386) Interpret or apply secs. 102, 403, 404, 411, Federal Aviation Act of 1958 (72 Stat. 740, 758, 760, 769; 49 U.S.C. 1302, 1373, 1374, and 1381); secs. 3, 4, Administrative Procedure Act (81 Stat. 54; 80 Stat. 383; 5 U.S.C. 552, 553))

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

[F.R. Doc. 67–9741; Filed, Aug. 17, 1967; 8:47 a.m.]

[Reg. No. ER–503]

PART 250—PRIORITY RULES, DENIED BOARDING COMPENSATION TARIFFS AND REPORTS OF UNACCOMMODATED PASSENGERS

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 3d day of August 1967.

In a notice of proposed rule making published in the FEDERAL REGISTER on January 17, 1967 (32 F.R. 459) and circulated as EDR–109, Docket 16563, the Board proposed to amend Part 221 and to issue a new Part 250 of the Economic Regulations. The new part would require carriers to establish and file with the Board priority rules for determining which passengers holding confirmed reserved space shall be denied boarding on an oversold flight. In addition, the amendment to Part 221 and the new Part 250 would require carriers to file tariffs providing specified denied boarding compensation to such passengers. Finally, the new part would require carriers to file reports of unaccommodated passengers.

Interested persons were offered an opportunity by the notice to participate in the making of this rule through submission of written data, views, or arguments. Consolidated comments on behalf of 28 air carriers have been submitted by the Air Transport Association of America (ATA). In addition supplementary comments have been filed by certain air carriers,[1] and a number of comments have been received from members of the traveling public. Due consideration has been given to all relevant matter presented.

The Board has decided to adopt the rule with the modifications set forth below. Except as modified herein, the tentative findings set forth in the Explanatory Statement to the proposed rule (EDR–109, supra) are incorporated herein by reference and made final.

In considering the comments filed by ATA and supplementary comments filed by various air carriers, we are met at the outset with the contention that certain aspects of the proposed rule are beyond the scope of the Board's statutory authority. Specifically, the carriers claim that the Board's power to regulate denied boarding compensation derives solely from section 1002 of the Act. It is asserted that under sections 1002 (d) and (f) the Board can prescribe a rule, regulation, or practice affecting a rate, fare, or charge for interstate, overseas, or foreign air transportation, or the value of service thereunder, only if the Board, after notice and hearing, finds the present rule, regulation, or practice unlawful. Since no hearing has been held, it is argued that we cannot prescribe denied boarding compensation.

We do not agree. The fact that denied boarding compensation is the subject of tariff filings does not compel us to act only pursuant to the tariff and rate-fixing procedures of the Act. While tariff procedures undoubtedly are available and represent a convenient and logical method for setting forth the practices which the carriers follow with respect to reservations and denied boarding compensation, we would be empowered, in our judgment, to impose the requirements here involved by regulation which did not require the filing of tariffs. Furthermore, while the rate-fixing procedures of the Act also are available and appropriate for dealing with specific problems peculiar to individual carriers in relation to such practices, the problems with which we are here confronted go beyond the mere regulation of rates and practices affecting the value of services. We are here concerned with the broad problem of air carrier reservation procedures, including circumstances in which the carriers are utilizing a system of confirmed reservations notwithstanding their inability to assure that such reservations will in fact be honored. The problem thus cuts across a number of areas of Board jurisdiction and carrier responsibility, and the provisions and purposes of section 411 of the Act are involved to a far greater extent than are the rate-fixing ones. Section 411 precludes "unfair or deceptive practices or unfair methods of competition in air transportation or the sale thereof." This provision, the antidiscrimination provision, and the overall public interest provisions and purposes of the Act militate against a reservation system which leads members of the traveling public to believe that they have firm reservations when in fact they do not, without there being some adequate compensation features available to those persons whose reservations are not honored. The Board is not required to sit idly by and permit such a result. Neither does it believe that it is required to proceed by cumbersome evidentiary hearings to take the action here involved, particularly since the issues and action involved are largely ones of policy and judgment in future applications whose resolution does not turn upon findings of fact concerning disputed evidentiary matters. Nor is this result legally required because tariffs are involved. See American Airlines v. Civil Aeronautics Board, 359 F. 2d 624 (C.A.D.C., 1966), cert. denied, 385 U.S. 843.

Congress has given the Board not only a wide regulatory authority with respect to carrier practices, but the specific function of promoting adequate, economical, and efficient service by air carriers at reasonable charges, without unjust discriminations, undue preferences, or advantages, or unfair or destructive competitive practices. And, in addition, Congress has given the Board the power to classify carriers and service and the power to issue implementing rules and regulations.[2] See American Airlines v. Civil Aeronautics Board, supra. On the other hand, the carriers have the duty, under section 404(a), to enforce just and reasonable classifications, rules, regulations and practices relating to interstate and overseas air transportation, and section 404(b) proscribes unjust discrimination.

In our opinion the action proposed is clearly within our rule making powers under sections 204(a) and 416(a). We are here basically concerned with the policy the Board should adopt with respect to the reservations practices of route carriers which operate flights to and from the contiguous States. Thus, unlike adjudication, we are not evaluating a respondent's past conduct or determining past and present rights and liabilities, and the issues do not relate to evidentiary facts, but to policymaking conclusions to be drawn from the facts.

The facts to which our policy is directed have been set out in EDR–109. There, we noted the dimensions of the oversales problem and the reservations practices of the carriers which contribute to it. It was concluded that the present reservations system of the carriers is designed to provide maximum benefits to the traveling public and to reduce the carriers' reservations costs. However, it was concluded that these ends are achieved at a price of substantial inconvenience and hardship to those relatively few passengers who are oversold and denied boarding although holding confirmed reservations. Under these circumstances two policy avenues were open to the Board. It could reduce oversales by closely regulating the details of the reservations systems of the carriers with the inevitable result of curtailing the present flexibility by which passengers make, change and cancel reservations. No carrier suggests that this course should be taken by the Board, and several comments state that the present proposal is preferable to our earlier proposal which would have placed severe restrictions on existing reservations practices.[3] The second policy course

[1] Eastern Air Lines, Lake Central Airlines, Mohawk Airlines, Northwest Airlines, Pan American World Airways, Trans Caribbean Airways, Trans-Texas Airways, Trans World Airlines, and United Air Lines.

[2] Section 204(a) provides: "The Board is empowered to perform such acts, to conduct such investigations, to issue and amend such orders, and to make and amend such general or special rules, regulations, and procedure, pursuant to and consistent with the provisions of this Act, as it shall deem necessary to carry out the provisions of, and to exercise and perform its powers and duties under this Act."

Section 416(a) provides: "The Board may from time to time establish such just and reasonable classifications or groups of air carriers for the purposes of this title as the nature of the services performed by such air carriers shall require; and such just and reasonable rules and regulations, pursuant to and consistent with the provisions of this title, to be observed by each such class or group, as the Board finds necessary in the public interest."

[3] EDR–95, Oct. 12, 1965.

is that which has been followed: To take positive steps to assure prompt, effective and adequate compensation to passengers who are denied boarding and to refrain from detailed regulation of the carriers' reservations practices. Clearly, commensurate with our responsibilities, a third policy avenue was not open: To do nothing. Certainly we cannot properly tolerate a system which represents to the public a commitment that a passenger has a firm reservation when that commitment is not honored upwards of 50,000 times a year and the passengers holding these unhonored reservations are offered little or no compensation.

We further emphasize that the facts upon which our policy is based are not contested nor are there any issues involved which are of a type which could be resolved in an evidentiary hearing. And in this connection we point out that neither ATA nor any carrier has stated what kinds of facts they propose to adduce at an oral hearing, and by what witnesses, nor is there any proffer as to particular lines of cross-examination which required explanation at an oral hearing.[4]

Moreover, there has been no refutation of the Board's findings in EDR–109 that the compensation provided in carriers' present tariffs for failure to accommodate passengers with confirmed reserved space "falls far short of being adequate"[5] and that it is not completely equitable in view of its being primarily limited to domestic transportation. Thus, ATA does not claim that the existing tariff is adequate. Instead, it claims that the objective of "prompt, effective and adequate compensation to oversold passengers" is accomplished "under existing rules and practices." The "practices" referred to,[6] however, vary from carrier to carrier, are conducted on an ad hoc basis depending upon the situation, and are not obligatory. We cannot accept the voluntary provision of amenities by air carriers to some oversold passengers as a substitute for requiring air carriers to offer prompt, effective and adequate monetary compensation to all oversold passengers.[7]

In their separate comments, the only carriers which appear to defend the present level of the denied boarding compensation tariff are TWA and United. TWA believes that, although the statistics show that those accepting denied boarding compensation received only an average of $20, "it can be argued equally well from these statistics that the vast majority of oversale passengers deemed the existing compensation to be adequate" and United states that from all the evidence the Board has before it, "it could equally as well conclude that the oversold passenger has been compensated too handsomely."

We cannot agree. An average payment of $20 for a carrier's failure to provide a passenger with confirmed reserved space is, on its face, a mere token which cannot reasonably be considered adequate to compensate a passenger for the inconvenience, distress, and, in many cases, hardship and monetary loss resulting from an oversale. And clearly no inference can be drawn from the fact that passengers in the main accept what is offered to them rather than engage in costly litigation with the carrier.

For the reasons set forth, we conclude that it is within the Board's rule making powers to require carriers to file denied boarding compensation tariffs at a level prescribed by the Board, as well as to require the filing of priority rules and reports of unaccommodated passengers. We further conclude that the rule as proposed, except for the modifications hereinafter set forth, is necessary to give effect to the Board's policy that air carriers conducting flights to and from the contiguous States shall be required to offer prompt, effective and adequate compensation to oversold passengers.

We have, however, given careful consideration to the views of the carriers and the public as submitted in their comments on EDR–109 concerning implementation of our policy. Set forth below is our disposition of the significant matters raised.

We deal first with the suggestion of Northwest, Pan American, and TWA that the rule should not apply to international routes.[8] These carriers argue that, since foreign air carriers do not offer denied boarding compensation, U.S. flag carriers would be at a competitive disadvantage if they were required to do so. And TWA states that, if the Board wishes to consider denied boarding compensation in international air transportation at all, then it should consider such only with a view to equal treatment of United States and foreign flag carriers.[9]

In our view, the above comments do not justify excepting foreign air transportation by U.S. air carriers from application of the requirement to provide adequate compensation to oversold passengers. Far from being a competitive disadvantage, it would appear to us that if U.S.-flag carriers do provide denied boarding compensation and their foreign competitors do not, the competitive disadvantage lies with the latter. Furthermore, once U.S.-flag carriers are known to provide denied boarding compensation and foreign air carriers do not, competitive pressures may well force the latter to provide equal or substantially equal treatment to oversold passengers. Finally, the per carrier expense of denied boarding payments has not been shown, or even alleged, to be of such magnitude as to affect the relative operating costs of U.S.-flag carriers vis-a-vis their foreign competitors.

In this latter connection we point out that the cost of denied boarding compensation to the carriers as a whole will be of relatively minor proportion. In 1966, according to ATA, the domestic trunk and local service airlines boarded some 95 million passengers, and the estimated 50,000 oversold passengers represented only five one-hundredths of 1 percent of the passengers boarded. It is clear that we are dealing with a minimal cost item relative to total revenues.

Turning to other aspects of the rule, it was proposed that the required tariffs provide for compensation to be paid a passenger holding confirmed reserved space at the rate of 200 percent of the value of the first remaining flight coupon with a $50 minimum and a $200 maximum. ATA and carriers commenting on the level of compensation are unanimously of the belief that it is excessive. ATA states, however, that it may well be that a case can be made for a rate in the range of 100 percent of the fare with no maximum for flights within the continental United States, and maintains that the proposed $50 minimum would be particularly harsh on local service carriers. Eastern opposes the $50 minimum, and asserts that 100 percent of the value of the first remaining flight coupon with a $25 minimum and a $200 maximum, plus full amenities where warranted, is a more realistic level.[10] Northwest argues that if such a requirement is imposed on foreign air transportation, the maximum should not be more than $100, and TWA believes that an international oversale "penalty" should not in any event exceed 50 percent of the first remaining flight coupon and that a maximum limit of $150 would be more than equitable.[11]

The level of compensation to be provided oversold passengers must be determined on the basis of reasonable and responsible judgment in the light of comment offered on the proposal and the attendant facts of record. On balance we are persuaded that the appropriate level of compensation would be 100 percent of the first remaining flight coupon with a maximum of $200 and a minimum of $25.

Compensation at the rate of 100 percent of the value of the first remaining flight coupon, as suggested by ATA and certain carriers, is equal to the amount invested by the passenger and represents the value of the transportation which the carrier failed to provide under its commitment to the passenger. Therefore, we believe that this level would in a general way make the passenger "whole" for the damage suffered by him, would be high enough, in our view, to provide adequate compensation to passengers accepting it and still not be so high as to invite abuses by some passengers.

While Eastern agrees that a $200 maximum would be appropriate, Northwest and TWA oppose this maximum for international travel.[12] The latter argues that the maximum, as well as the percentage rate, for international travel should be below domestic standards, as the inconvenience tends to be less for international travelers.

We agree that delays for international travelers are of generally less significance than for domestic travelers. Because of the length of transit, time differentials, customs clearance requirements, and extended stays abroad which are usual in international travel, these travelers ordinarily do not budget their time so tightly as in the case of domestic travelers, and a delay of a few hours occasioned by denied boarding would not cause undue hardship. We shall recognize these differences in international travel by revising the proposed rule to provide that, in foreign air transportation a passenger shall not be eligible for compensation if the carrier arranges for alternate means of transportation, which, at the time such arrangement is made, is planned to arrive at the passenger's next point of stopover earlier than, or not later than 4 hours after, the time the flight, for which confirmed reserved space is held, is planned to arrive. In view of this revision, there is no justification for compensating eligible denied boarding passengers in foreign air transportation at a lower level than domestic passengers.

With respect to the proposed $50 minimum, it is contended that it would be particularly harsh on local service carriers and on trunklines with respect to short-hauls, since it could result in payments up to 500 percent of the fare in principal local service markets and over 300 percent in certain short-haul trunk markets.

In light of these comments we have decided to revise the minimum to $25. Under this minimum, payments of more than 200 percent of the flight coupon will result only where its value is less than $12.50. At the same time a $25 minimum gives recognition to the fact that compensation directly geared to the value of a flight coupon in this limited category would not be adequate.

As indicated above, in international travel the "one-hour rule" respecting arrangement of alternate means of transportation to passengers will be revised to 4 hours. In addition, the final rule will provide that, with respect to interstate and overseas air transportation, a passenger shall not be eligible for compensation if the carrier arranges for alternate means of transportation, which, at the time such arrangement is made, is planned to arrive at the passenger's next point of stopover, earlier or not later than two hours after, the time the flight, for which confirmed reserved space is held, is planned to arrive.

In our opinion the proposed 1-hour rule would be too restrictive. As a practical matter there would be relatively few opportunities for carriers to provide alternate transportation under these conditions. A 2-hour provision will give the carriers flexibility in arranging alternate transportation for the passengers' benefit and a 2-hour delay at a stopover point should not, in general, cause undue inconvenience to passengers. Furthermore, ATA points out that where a passenger must make a connection with another flight requiring for example a 2-hour stopover, if the carrier arranges alternate transportation which would permit him to make the connection he would not be inconvenienced. Nevertheless, despite the lack of inconvenience to the passenger, he would be eligible for compensation under a 1-hour rule if the alternate flight reached the stopover point more than 1 hour after the planned arrival of the flight on which he had been originally booked. For the above reasons, the proposed rule will be revised in the manner indicated.

The proposed rule did not provide an exception for eligibility for denied boarding compensation where the flight on which the passenger holds confirmed reserved space is unable to accommodate him because of (1) extraordinary fuel requirements, (2) reduction in allowable takeoff or landing weight for reasons beyond the carrier's control, or (3) substitution of equipment of lesser capacity when required by operational and/or safety reasons. These exceptions are contained in the carriers' present denied boarding compensation tariff, and ATA, TWA, Trans Caribbean, and Trans-Texas contend that the rule should include them.[13] ATA believes that to require the payment of denied boarding compensation under the three situations described above would be a retrograde step not in the public interest. ATA states that the practicalities of air transportation sometimes make the aircraft scheduled for a particular flight unavailable for such reasons as mechanical problems or because it is grounded by weather at some other airport. When this occurs, and the only available airplane is one of smaller capacity, ATA contends that it is in the public interest to substitute the smaller airplane, and carry as many passengers as it will accommodate rather than to cancel the flight, and the same considerations apply where it is necessary to block seats because of weather or fuel requirements.

We have determined to revise the rule only to provide an exception for the case of substitution of equipment of lesser capacity when required by operational and/or safety reasons.

While the carriers cannot predict that circumstances on a particular flight will require the blocking of seats because of weather or fuel requirements, they can predict that such conditions will arise from time to time, particularly at certain stations. By accepting reservations up to 100 percent of the seats on the aircraft, the carriers in effect gamble that these circumstances will not occur on a particular flight. This policy, which is under the control of the carriers, inevitably produces oversales. Such oversales, moreover, could be substantially eliminated by accepting reservations for something less than the total number of seats. While the present policy may well be the most economic, we see no reason why it should in effect be subsidized by the oversold passenger. We shall not, therefore, adopt the first two exceptions suggested above.

The exception with respect to substitution of equipment does, however, have merit. While the blocking of space to reduce takeoff weight to an allowable level would normally affect comparatively few passengers on any given flight, the substitution of equipment of lesser capacity because of mechanical failure, for example, may require a large number of passengers to be denied boarding with a consequent substantial loss to the carrier were it required to pay denied boarding compensation. Further, unlike the case of payload restrictions, denied boardings arising from aircraft substitutions are more truly beyond the carriers' control, since they could not reasonably be expected to withhold from advance sale the very large number of seats that would be required to reasonably insure against the possibility of oversales. Also, in the case of equipment substitutions, economic pressures might well force the carrier to cancel the flight altogether rather than pay compensation to passengers denied boarding because of the substitution. Accordingly, we believe that it would be in the

[4] See American Airlines, Inc. v. Civil Aeronautics Board, supra, 359 F. 2d at 633.

[5] Eastern specifically agrees with this finding.

[6] ATA states that "the carriers generally absorb the costs of such amenities as overnight hotel accommodation in those rare instances where the oversold passenger cannot be boarded until the next day, local and long distance phone calls or telegrams to advise of changed arrival time, meals, ground transportation, and even the chartering of air taxi planes to facilitate movement of the passenger." ATA adds: "For representative carriers, the annual costs of such amenities approximate the amounts paid out as denied boarding compensation."

[7] On the other hand, the requirement that carriers provide denied boarding compensation to oversold passengers is not intended to preclude carriers from according these amenities to passengers.

[8] Trans Caribbean requests that the New York-San Juan market also be excluded from the provisions of the rule until such time as "more realistic" provisions can be worked out to cure the related problems in the market. In support, it relies on extreme peaking problems and a high level of no-shows and multiple bookings during peak times. Far from furnishing a reason for excluding the New York-San Juan market, the matters cited by Trans Caribbean illustrate that this is a market where the oversales problem is particularly acute and the rule needed. Furthermore, no-shows and multiple bookings are within the capacity of the carrier to control.

[9] TWA also contends that the rule would require modification of various IATA resolutions, particularly Resolution 278, and that the Board should take this factor into account. We are not convinced that modification of any IATA resolution would be required. But if such were the case, it would pose no obstacle to promulgation of the rule.

[10] Mohawk also supports compensation at the rate of 100 percent of the first remaining flight coupon with a $25 minimum.

[11] TWA advocates a domestic "penalty" of 100 percent of the first remaining coupon and a $150 maximum.

[12] In addition, Pan American believes that the temptation to fraud inherent in a proposal that would pay $200 to a passenger with a ticket showing a confirmed reservation for which no record could be located would be greater in foreign air transportation because of the greater value in many countries of $200 in U.S. currency.

[13] Eastern, however, endorses the deletion of these exceptions.

general interest of the traveling public to permit this exception to eligibility for denied boarding compensation. We shall be prepared, however, to eliminate this exception should we find that abuses have occurred.

Section 250.7 of the proposed rule[14] would require every carrier to tender a passenger eligible for denied boarding compensation, on the day and place the denied boarding occurs, a draft for the appropriate amount of compensation, with the reverse side of the draft including a release from liability when the draft is endorsed by the passenger, provided that the draft is endorsed and paid within 30 days of the date on which the denied boarding occurs. ATA objects to the requirement of release from liability if the draft is endorsed and paid within 30 days. It states that most carriers regard the existing tariff which "contemplates"[15] the transaction being completed at the time of denied boarding as a cleaner and more expeditious way to handle oversale incidents. TWA and Trans Caribbean also oppose the 30-day period, while Eastern believes it reasonable. And Mohawk does not oppose it, but states that it will petition for relief if at some later date it finds such time lag to be burdensome.

In our opinion, it would be manifestly unfair to require passengers to make a decison, immediately after being denied boarding, as to whether to accept compensation as liquidated damages for all damages incurred by the passenger as a result of the carrier's failure to provide the passenger with confirmed reserved space. Passengers who are denied boarding should instead be given the opportunity of making the election after the consequences of denied boarding have occurred and are known to them. We believe the 30-day limit will insure this result without undue delay in settling the incident.

In addition to the comments noted above, ATA states, with respect to the requirement that tender of the draft be made at the time and place the denied boarding occurs, that in some situations it has been found that it better suits the passenger's convenience if this is done at the point of destination.[16] (For example, even the few minutes required to complete the compensation transaction might cause the passenger to miss, or to risk missing, an alternative flight.) According to ATA, some carriers feel a minor rewording of the present rule may be in order to cover such situations.

We agree with ATA that where a carrier arranges alternate means of transportation for an oversold passenger it may be impossible to prepare and tender the draft prior to departure time. Accordingly, the rule will be changed by adding a proviso that where a carrier arranges, for the passenger's convenience, alternate means of transportation which departs before the draft can be prepared and tendered the passenger, tender shall be made by mail or other means within 24 hours after the time the denied boarding occurs.

In addition, Trans Caribbean states that the rule raises substantial questions of administration, since it is not always possible for ticket counter personnel to tell whether a passenger holding an apparently valid ticket but whose name is not on the reservation list actually holds a valid confirmed reservation. According to the carrier, the most common example of this problem is the returning passenger who has not reconfirmed his reservation.

We find that Trans Caribbean's contention is without substantial merit. Section 250.4, of the rule specifies that denied boarding compensation tariffs apply "to a passenger holding confirmed reserved space who presents himself for carriage at the appropriate time and place, having complied fully with the carrier's requirements as to ticketing, check-in and reconfirmation procedures and being acceptable for transportation under the carrier's tariff * * *." We note that Trans Caribbean is the only carrier mentioning the problem referred to, and we are not persuaded that it is not within the control of the carrier.

Section 250.8 of the proposed rule provides that every carrier shall furnish passengers who are denied boarding, immediately after the denied boarding occurs, a written statement explaining the terms, conditions and limitations of the denied boarding compensation. Such a statement was to have included certain specified language. ATA, Eastern, and TWA contend that the specified language is lengthy and somewhat confusing.

We have decided to accord to the carriers the option of using a statement containing the prescribed language or of using a statement of their own making: *Provided*, That it includes the substance of the prescribed language and it is submitted to and approved by the Board prior to its use. Concurrently with the issuance of the instant rule, we are issuing a final rule amending Part 385 by delegating to the Director, Bureau of Operating Rights, the authority to approve or disapprove the statement.

Finally, § 250.9 of the proposed rule would require carriers to file with the Board reports of unaccommodated passengers. ATA and TWA, while otherwise not objecting to the proposal, take the position that reports by U.S.-flag carriers in competitive markets with foreign-flag carriers should be withheld from public disclosure. We agree, and the final rule will provide that reports filed covering international services shall be withheld from public disclosure. Disclosure of such information would adversely affect the interest of these carriers, since it would enable foreign air carriers to have access to it for competitive reasons, and disclosure is not required in the interest of the public.

Accordingly, the Civil Aeronautics Board hereby amends the Economic Regulations, effective October 17, 1967, by adding a new Part 250 to read as follows:

Sec.
250.1 Definitions.
250.2 Applicability.
250.3 Priority rules.
250.4 Filing of denied boarding compensation tariffs.
250.5 Amount of denied boarding compensation.
250.6 Exceptions to eligibility for denied boarding compensation.
250.7 Denied boarding compensation as liquidated damages.
250.8 Denied boarding compensation drafts.
250.9 Written explanation of denied boarding compensation.
250.10 Reports of unaccommodated passengers.

AUTHORITY: The provisions of this Part 250 issued under secs. 204(a) and 416(a), 72 Stat. 743 and 771; 49 U.S.C. 1324 and 1386. Interpret or apply secs. 102, 403, 404, and 411 of the Federal Aviation Act of 1958, 72 Stat. 240, 758, 760, and 769; 49 U.S.C. 1302, 1373, 1374, and 1381; and secs. 3 and 4 of the Administrative Procedure Act, 81 Stat. 54, 80 Stat. 383; 5 U.S.C. 552 and 553.

§ 250.1 Definitions.

For the purpose of this part:

"Carrier" means an air carrier, except a helicopter operator or an air carrier conducting intra-Alaska service exclusively, holding a certificate issued by the Board pursuant to section 401(d) (1) and (2) of the Act, authorizing the transportation of persons.

"Confirmed reserved space" means space on a specific date and on a specific flight and class of service of a carrier which has been requested by a passenger and which the carrier or its agent has verified, by appropriate notation on the ticket, as being reserved for the accommodation of the passenger.

"Stopover" means a deliberate interruption of a journey by the passenger, agreed to in advance by the carrier, at a point between the place of departure and the place of destination.

"Value of the first remaining flight coupon" means the applicable one-way fare, including any surcharge, less any applicable discount.

§ 250.2 Applicability.

This part applies to all carriers as defined in § 250.1 and applies to flights or portions of flights originating or terminating in the United States, its territories or possessions, but excludes flights originating and terminating within the State of Alaska.

§ 250.3 Priority rules.

Every carrier shall establish priority rules and criteria for determining which passengers holding confirmed reserved space shall be denied boarding on an oversold flight. Every carrier shall file with the Board two copies of such rules and criteria, including that portion of its company manual instructing employees on the order of boarding priorities in case of an oversold flight. Such rules and criteria shall not make, give or cause any undue or unreasonable preference or advantage to any particular person or subject any particular person to any unjust discrimination of any undue or unreasonable prejudice or disadvantage in any respect whatsoever.

§ 250.4 Filing of denied boarding compensation tariffs.

Subject to the exceptions provided in § 250.6, every carrier shall file tariffs providing compensation to a passenger holding confirmed reserved space who presents himself for carriage at the appropriate time and place, having complied fully with the carrier's requirements as to ticketing, check-in and reconfirmation procedures and being acceptable for transportation under the carrier's tariff, and the flight for which the passenger holds confirmed reserved space is unable to accommodate the passenger and departs without him.

NOTE: See § 221.38(a)(7) of this chapter.

§ 250.5 Amount of denied boarding compensation.

Subject to the exceptions provided in § 250.6, the tariffs required by this part shall provide for compensation to be paid a passenger holding confirmed reserved space, as described in § 250.4, at the rate of 100 percent of the value of the first remaining flight coupon with a $25 minimum and a $200 maximum.

§ 250.6 Exceptions to eligibility for denied boarding compensation.

A passenger shall not be eligible for denied boarding compensation if:

(a) The flight for which the passenger holds confirmed reserved space is unable to accommodate him because of: (1) Government requisition of space; or (2) substitution of equipment of lesser capacity when required by operational and/or safety reasons; or

(b) The carrier arranges for alternate means of transportation, which, at the time such arrangement is made, is planned to arrive at the passenger's next point of stopover earlier than, or not later than two hours after, the time the flight, for which confirmed reserved space is held, is planned to arrive in the case of interstate and overseas air transportation, or 4 hours after such time in the case of foreign air transportation; or

(c) The passenger is accommodated on the flight for which he holds confirmed reserved space, but is offered accommodations or is seated in a section of the aircraft other than that specified in his ticket at no extra charge: *Provided*, That a passenger seated in a section for which a lower fare is charged shall be entitled to an appropriate refund.

§ 250.7 Denied boarding compensation as liquidated damages.

The tariffs required by this part shall specify that the carrier will tender, on the day and place the denied boarding occurs, compensation in the amount specified above, which, if accepted by the passenger, shall constitute liquidated damages for all damages incurred by the passenger as a result of the carrier's failure to provide the passenger with confirmed reserved space.

§ 250.8 Denied boarding compensation drafts.

Every carrier shall tender to a passenger eligible for denied boarding compensation, on the day and place the denied boarding occurs, a draft for the appropriate amount of compensation provided in § 250.5, and the reverse side of such draft shall include a release stating that when the draft is endorsed by the passenger, the passenger thereby relieves the carrier from liability for all claims for damages which might accrue to the passenger as a result of the carrier's failure to provide the passenger with space on the flight in question, provided that the draft is endorsed and paid within 30 days of the date on which the denied boarding occurs: *Provided, however*, That where a carrier arranges, for the passenger's convenience, alternate means of transportation which departs before the draft can be prepared and tendered the passenger, tender shall be made by mail or other means within 24 hours after the time the denied boarding occurs.

§ 250.9 Written explanation of denied boarding compensation.

Every carrier shall furnish passengers who are denied boarding on flights on which they hold confirmed reserved space, immediately after the denied boarding occurs, a written statement explaining the terms, conditions and limitations of the denied boarding compensation provided by this part. Each carrier shall, prior to the effective date of this rule, file three copies of the statement with the Bureau of Operating Rights, and the statement shall include the language hereinafter set forth: *Provided, however*, That where a carrier desires to use a statement of its own making which contains the substance of the following language, it may do so after it has submitted the statement to the Board and the Board has approved it.

Tariffs filed by this carrier with the Civil Aeronautics Board provide denied boarding compensation to a passenger holding confirmed reserved space where the flight for which the passenger holds such space is unable to accommodate him and departs without him.

Passengers eligible for denied boarding compensation shall be compensated at the rate of 100 percent of the value of the first remaining flight coupon on their tickets with a $200 maximum and a $25 minimum. The carrier is required to tender to each such passenger, on the day and place the denied boarding occurs, a draft in the amount specified above which, if endorsed and paid within 30 days, shall relieve the carrier from liability for all claims for damages which might accrue to the passenger as a result of the carrier's failure to provide the passenger with space on the flight in question. Where, however, the carrier arranges, for the passenger's convenience, alternate means of transportation which departs before the draft can be prepared and tendered the passenger, tender will be made by mail or other means within 24 hours after the time the denied boarding occurs.

In order to qualify for such compensation a passenger must have complied fully with the carrier's requirements as to ticketing, check-in and reconfirmation procedures and be acceptable for transportation under the carrier's tariff. However, a passenger is not eligible for compensation if (a) the flight for which the passenger holds confirmed reserved space is unable to accommodate him because of Government requisition of space or substitution of equipment of lesser capacity for operational and/or safety reasons; (b) the carrier arranges for alternate means of transportation, which, at the time such arrangement is made, is planned to arrive at the passenger's next point of stopover earlier than, or not later than 2 hours after, the time the flight, for which confirmed reserved space is held, is planned to arrive in the case of interstate and overseas transportation, or 4 hours after such time in the case of foreign air transportation; or (c) the passenger is accommodated on the flight for which he holds confirmed reserved space, but is offered accommodations or is seated in a section of the aircraft other than that specified in his ticket at no extra charge: *Provided*, That a passenger seated in a section for which a lower fare is charged shall be entitled to an appropriate refund.

§ 250.10 Reports of unaccommodated passengers.

Carriers shall file reports with the Bureau of Accounts and Statistics, in CAB Form 250 (Appendix A of this part),[1] with respect to the applicable markets specified hereinafter, of the total number of revenue passengers boarded and the number of unaccommodated passengers in three categories: denied boarding on aircraft, downgrades and upgrades. The markets for which such reports shall be filed are those for which on-time reporting is filed in accordance with Part 234 of the Board's Economic Regulations and, in addition, New York-San Juan. Local service carriers shall, in addition to reports which may be required by Part 234, file such data for the five top-ranking markets of each. The reports shall cover the third month in each calendar quarter and shall be filed within 45 days after the month covered by the report. In addition, carriers shall file, on a monthly basis, the information requested in Appendix B of this part (CAB Form 251).[1] These reports may be on a system basis or limited to those stations accounting for 67 percent of the carrier's total enplanements, or the top 15 stations, whichever number is greater. The information in Item 4 shall be limited to the passengers enplaned at the reported stations and not the system total. Further, a list of the stations included should be appended to each report. These reports are to be submitted within 30 days after the month covered by the report. Those carriers with both domestic and international operations shall file separate reports for each. Reports covering international operations shall be withheld from public disclosure.

NOTE: The reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON, *Secretary*.

[F.R. Doc. 67-9739; Filed, Aug. 17, 1967; 8:50 a.m.]

[1] Appendices A and B filed as part of the original document.

[14] Sec. 250.7, 250.8, and 250.9 of the proposed rule referred to herein are recodified in the final rule as §§ 250.8, 250.9, and 250.10, respectively.

[15] There is no time limit specified in the existing tariff.

[16] It is noted, however, that the point of destination could well be a station not served by the carrier required to make the tender.

SUBCHAPTER E—ORGANIZATION REGULATIONS

[Reg. No. OR-32; Amdt. 1]

PART 385—DELEGATIONS AND REVIEW OF ACTION UNDER DELEGATION; NONHEARING MATTERS

Delegation to Director, Bureau of Operating Rights

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 3d day of August 1967.

Concurrently herewith the Board is adopting an amendment to Part 221 (Construction, Publication, Filing and Posting of Tariffs of Air Carriers and Foreign Air Carriers) and a new Part 250 (Priority Rules, Denied Boarding Compensation Tariffs and Reports of Unaccommodated Passengers). In the Preamble to new Part 250, the Board provided that copies of the written statement explaining the terms, conditions, and limitations of denied boarding compensation, filed by carriers pursuant to § 250.9, shall be submitted for examination and approval. It further stated that it would, by concurrent amendment of Part 385, delegate to the Director, Bureau of Operating Rights, the authority to approve or disapprove the statement. The amendment herein gives effect to this determination.

Since this amendment is a rule of internal agency organization and procedure, notice and public procedure are not required, and the rule may be made effective on less than 30 days' notice.

Accordingly, the Civil Aeronautics Board hereby amends Part 385 of its Organization Regulations (14 CFR Part 385) by adding a new paragraph (u) to § 385.13, effective October 17, 1967, to read as follows:

§ 385.13 Delegation to the Director, Bureau of Operating Rights.

* * * * *

(u) Approve or disapprove written statements filed by air carriers pursuant to § 250.9 of this chapter (Economic Regulations) explaining the terms, conditions, and limitations of denied boarding compensation provided by Part 250 of this chapter.

(Sec. 204(a), 72 Stat. 743; 49 U.S.C. 1324. Interpret or apply sec. 1001, 72 Stat. 788; 49 U.S.C. 1481, and Reorganization Plan No. 3 of 1961, 26 F.R. 5969)

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON, *Secretary.*

[F.R. Doc. 67-9740; Filed, Aug. 17, 1967; 8:47 a.m.]

Title 12—BANKS AND BANKING

Chapter I—Bureau of the Comptroller of the Currency, Department of the Treasury

PART 1—INVESTMENT SECURITIES REGULATION

Redevelopment Agency of City of Vallejo Marina Vista Project Area Parking Lease Revenue Bonds

§ 1.190 Redevelopment Agency of the City of Vallejo Marina Vista Project Area Parking Lease Revenue Bonds.

(a) *Request.* The Comptroller of the Currency has been requested to rule that the $415,000 Marina Vista Project Area Parking Lease Revenue Bonds of the Redevelopment Agency of the City of Vallejo are eligible for purchase, dealing in, underwriting, and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Redevelopment Agency of the City of Vallejo is a public body, corporate and politic, created under the Community Redevelopment Law of the State of California. Under the law, the Agency has power to issue bonds for any of its corporate purposes. It is engaged in the redevelopment of the Marina Vista Project Area of the City of Vallejo and has resolved to issue these bonds to finance the acquisition of facilities for free off-street public parking for the benefit of the project area.

(2) The parking facilities acquired will be leased to the City of Vallejo, which has agreed to pay as rental to the Agency an amount sufficient to pay the principal of and interest on the bonds and any expenses of the Agency for insurance, taxes, or assessments relating to the parking facilities. The City, which possesses general powers of taxation, has thus committed its faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion, therefore, that the $415,000 Marina Vista Project Area Parking Lease Revenue Bonds of the Redevelopment Agency of the City of Vallejo are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24, and as such are eligible for purchase, dealing in, underwriting and unlimited holding by national banks.

Dated: August 14, 1967.

[SEAL] WILLIAM B. CAMP, *Comptroller of the Currency.*

[F.R. Doc. 67-9729; Filed, Aug. 17, 1967; 8:46 a.m.]

PART 1—INVESTMENT SECURITIES REGULATION

San Carlos Civic Center Authority Lease Revenue Bonds

§ 1.192 San Carlos Civic Center Authority Lease Revenue Bonds.

(a) *Request.* The Comptroller of the Currency has been requested to rule that the $1,900,000 San Carlos Civic Center Authority 1967 Revenue Bonds, are eligible for purchase, dealing in, underwriting, and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The San Carlos Civic Center Authority is a public entity created under the laws of the State of California by an agreement between the City of San Carlos and the County of San Mateo. The Authority is empowered by the agreement to acquire, construct, and lease certain public buildings and to issue bonds to finance such projects. It is issuing these bonds to acquire an existing public library, now owned by the County, which will be leased back to the County, and to construct a civic center complex to house all departments of the City government which will be leased to the City.

(2) Under the agreement, the County has unconditionally promised to pay certain fixed annual rentals to the Authority and the City has unconditionally promised to pay annual rentals to the Authority in an amount, which when added to the rental payments of the County, will be sufficient to meet annual interest and principal payments on these bonds as well as other necessary expenses. The City, which possesses general powers of taxation has thus committed its faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion, therefore, that the $1,900,000 San Carlos Civic Center Authority 1967 Revenue Bonds, are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and, as such, are eligible for purchase, dealing in, underwriting and unlimited holding by national banks.

Dated: August 14, 1967.

[SEAL] WILLIAM B. CAMP, *Comptroller of the Currency.*

[F.R. Doc. 67-9730; Filed, Aug. 17, 1967; 8:47 a.m.]

PART 1—INVESTMENT SECURITIES REGULATION

Thomaston-Upson County Office Building Revenue Bonds

§ 1.191 Thomaston-Upson County Office Building Revenue Bonds.

(a) *Request.* The Comptroller of the Currency has been requested to rule that the $390,000 Thomaston-Upson County Office Building Authority Revenue Bonds, Series 1967, are eligible for purchase, dealing in, underwriting, and unlimited holding by national banks pursuant to paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* The Thomaston-Upson County Office Building Authority is a public corporation and instrumentality of the State of Georgia created by an amendment to the Constitution of the State of Georgia for the purpose of acquiring, constructing, equipping, maintaining and operating self-liquidating projects embracing buildings and facilities for use by the City of Thomaston and for use by such other agencies and political subdivisions of the State of Georgia or the Government of the United States as may contract with the Authority for the use of such facilities. The Authority is issuing these bonds to finance the construction of a county jail and of a new county office building and additions and improvements to the present Upson County Building which will be leased to Upson County. Under the lease rental agreement, the County agrees to levy an annual ad valorem tax on all taxable property within the County at such rates as may be necessary to make the rental payments to enable the Authority to pay the principal of and interest on the bonds as the same shall mature and acknowledges that the obligation to make the payments required shall be deemed to be a general obligation of the County.

(c) *Ruling.* It is our conclusion, therefore, that the $390,000 Thomaston-Upson County Office Building Authority Revenue Bonds, Series 1967, are general obligations of a State or political subdivision thereof under paragraph Seventh of 12 U.S.C. 24, and as such are eligible for purchase, dealing in, underwriting, and unlimited holding by national banks.

Dated: August 14, 1967.

[SEAL] WILLIAM B. CAMP, *Comptroller of the Currency.*

[F.R. Doc. 67-9728; Filed, Aug. 17, 1967; 8:47 a.m.]

PART 1—INVESTMENT SECURITIES REGULATION

Los Angeles County-West Covina Civic Center Authority Citrus District Courthouse Revenue Bonds

§ 1.193 Los Angeles County-West Covina Civic Center Authority Citrus District Courthouse Revenue Bonds.

(a) *Request.* The Comptroller of the Currency has been requested to rule that the $1,600,000 Los Angeles County-West Covina Civic Center Authority, Citrus District Courthouse Revenue Bonds are eligible for purchase, dealing in, underwriting, and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Los Angeles County-West Covina Civic Center Authority is a public entity created under the laws of the State of California by an agreement between the County of Los Angeles and the City of West Covina. Under this agreement, the Authority is empowered to acquire land and construct and lease public buildings and to issue bonds to finance such projects. The Authority is issuing these bonds to finance such projects. The Authority is issuing these bonds for the purpose of constructing public buildings which will be leased to the County.

(2) Under the lease-rental agreement the County has unconditionally promised to pay annual rentals to the Authority in an amount sufficient to meet annual interest and principal payments on these bonds as well as other necessary expenses. The County, which possesses general powers of taxation, has thus committed its faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion, therefore, that the $1,600,000 Los Angeles County-West Covina Civic Center Authority, Citrus District Courthouse Revenue Bonds are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and, as such, are eligible for purchase, dealing in, underwriting, and unlimited holding by national banks.

Dated: August 14, 1967.

[SEAL] WILLIAM B. CAMP, *Comptroller of the Currency.*

[F.R. Doc. 67-9731; Filed, Aug. 17, 1967; 8:47 a.m.]

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 67-194]

PART 1—GENERAL PROVISIONS

Field Audit Staff and Customs Agency Service

The purpose of the following amendments to the Customs Regulations is to effect changes in the organization of the Field Audit Staff and the Customs Agency Service.

Audit activities in Customs Region No. 5, with headquarters at New Orleans, La., presently under the jurisdiction of the Director, Field Audit, Miami, Fla., are being assigned to the office of the Director, Field Audit, Houston, Tex. To reflect this change the table in § 1.4a of the Customs Regulations is amended as follows:

1. The column headed "Audit Office" is amended by moving the word "Branch" from its present position below "Miami" to a position below "Houston."

2. The column headed "Address" is amended by moving the address "U.S. Customhouse, New Orleans, La. 70130" from its present position below the address of the Miami Audit office to a position below the address of the Houston Audit office.

3. The column headed "Customs Regions" is amended by deleting "and V" in the line opposite the address of the Miami Audit office, and by adding "V and" before "VI" in the line opposite the address of the Houston Audit office.

(R.S. 251, sec. 624, 46 Stat. 759; 5 U.S.C. 301, 19 U.S.C. 66, 1624)

The offices of the Customs Agent in Charge, New Orleans, La., and the Customs Agent in Charge, Mobile, Ala., in Customs Agency Service Region No. 2 are being transferred to Region No. 3 under the jurisdiction of the Supervising Customs Agent, Houston, Tex.

The geographical jurisdiction of the Customs Agents in Charge, Mobile, Ala., and Jacksonville, Fla., is changed to divide the northern part of the State of Florida at the east bank of the Ochlockonee River.

The Republic of Cuba has been removed from the jurisdiction of the Supervising Customs Agent, Miami, Fla.

The jurisdiction of the Senior Customs Representative, Mexico City, has been extended to include all other Latin American countries.

The geographical jurisdiction of the Senior Customs Representatives at Paris, France, and Frankfurt, Germany, has been changed. The Senior Customs Representative, Paris, France, has been assigned complete jurisdiction of customs investigations in Belgium.

The jurisdiction of the Senior Customs Representative, Hong Kong, B.C.C., has been extended to include a larger area in the Far East.

To reflect the changes in the Customs Agency Service the table in § 1.5 is amended as follows:

1. In Customs Agency Service Region No. 2 make the following changes:

In the column headed "Area of jurisdiction (Customs districts and foreign countries)" the area of jurisdiction of the Supervising Customs Agent, Miami, is amended by deleting "the republic of Cuba."

Under "Customs Agency Service Suboffices" the column headed "Headquarters" is amended by deleting therefrom "Customs Agent in Charge, Mobile" and "Customs Agent in Charge, New Orleans."

In the column headed "Geographical jurisdiction" the geographical jurisdiction of the Customs Agent in Charge, Jacksonville is amended to read as follows:

That part of the State of Georgia extending south of a line drawn from Brunswick along U.S. Route 84 to Waycross and along Route 82 to the Alabama border; and that part of northern Florida lying east of the east bank of the Ochlockonee River and bounded on the south by a line drawn from Cedar Key to Ocala to Daytona Beach.

The column "Geographical jurisdiction" also is amended by deleting therefrom the descriptions of the geographical jurisdiction of the Customs Agents in Charge, Mobile and New Orleans.

2. In Customs Agency Service Region No. 3 make the following changes:

Under "Customs Agency Service Suboffices" the column headed "Headquarters" is amended by inserting below "Senior Customs Representative, Mexico

City" the words "Customs Agent in Charge, Mobile" and immediately following the words "Customs Agent in Charge, New Orleans."

In the column headed "Geographical jurisdiction" the geographical jurisdiction of the Senior Customs Representative, Mexico City, is amended to read:

The Republic of Mexico and all other Latin American Countries.

The column headed "Geographical jurisdiction" also is amended by inserting below "The republic of Mexico" a description of the geographical jurisdiction of the Customs Agent in Charge, Mobile, reading:

The State of Alabama; that part of the State of Mississippi lying south of 31° north latitude; that portion of Tennessee east of the western crossing of the Tennessee River; and that part of the State of Florida lying west of the east bank of the Ochlockonee River.

and immediately following a description of the geographical jurisdiction of the Customs Agent in Charge, New Orleans, reading:

All the States of Louisiana (except the parishes of Cameron and Calcasieu), Mississippi (except that part lying south of 31° north latitude), and Arkansas; and that portion of Tennessee west of the western crossing of the Tennessee River.

3. In Customs Agency Service Region No. 6 the geographical jurisdiction of the Senior Customs Representative, Paris, France, is amended to read:

France, Luxembourg, Monaco, Belgium.

and the geographical jurisdiction of the Senior Customs Representative, Frankfurt, Germany, is amended to read:

The Netherlands, Denmark, Norway, Sweden, Finland, Germany, Austria, Liechtenstein.

4. In Customs Agency Service Region No. 7 the geographical jurisdiction of the Regional Customs Representative, Tokyo, Japan, is amended to read:

That part of the Far East north of Okinawa, and Okinawa.

and the geographical jurisdiction of the Senior Customs Representative, Hong Kong, B.C.C., is amended to read:

Australia and New Zealand; that part of the Far East south of Hong Kong; Hong Kong and Taiwan.

(R.S. 251, sec. 624, 46 Stat. 759; 5 U.S.C. 301, 19 U.S.C. 66, 1624)

These amendments shall become effective upon publication in the FEDERAL REGISTER.

[SEAL] LESTER D. JOHNSON,
Commissioner of Customs.

Approved: August 10, 1967.

MATTHEW J. MARKS,
Acting Assistant Secretary of the Treasury.

[F.R. Doc. 67-9732; Filed, Aug. 17, 1967; 8:47 a.m.]

[T.D. 67-196]

PART 12—SPECIAL CLASSES OF MERCHANDISE

Entry of Motor Vehicles and Motor Vehicle Engines Under Motor Vehicle Air Pollution Control Act [1]

Under the provisions of the Motor Vehicle Air Pollution Control Act (Title II of the Clean Air Act, as added by Public Law 89-272), 42 U.S.C. 1857, et seq., the Department of Health, Education, and Welfare, in 45 CFR, Part 85 has promulgated regulations which prescribe standards for the prevention or control of air pollution that must be met by certain new motor vehicles or new motor vehicle engines. These regulations are applicable to new motor vehicles and new motor vehicle engines beginning with the model year 1968.

The importation into the United States for sale or resale of any new motor vehicle or new motor vehicle engine manufactured after the effective date of regulations under the Motor Vehicle Air Pollution Control Act is prohibited unless such motor vehicle or engine is in conformity with the standards so prescribed. To prescribe regulations providing for the admission or refusal of new motor vehicles or new motor vehicle engines subject to standards promulgated under the provisions of the Motor Vehicle Air Pollution Control Act which are offered for importation into the United States, Part 12 is amended to add a new center head and section as follows:

NEW MOTOR VEHICLES AND NEW MOTOR VEHICLE ENGINES

§ 12.73 Motor vehicle air pollution control.

(a) *Standards prescribed by the Department of Health, Education, and Welfare.* Certain new motor vehicles or new motor vehicle engines are subject to the standards prescribed by the Secretary of Health, Education, and Welfare under section 202 of the Motor Vehicle Air Pollution Control Act (42 U.S.C. 1857f-1),[2] as set forth in regulations in 45 CFR Part 85. A new motor vehicle or a new motor vehicle engine subject to such standards is not permitted entry into the United States unless it is in all material respects the same construction as a test vehicle or engine which has been certified to be in conformity with such standards or otherwise approved by the Secretary of Health, Education, and Welfare, in accordance with said regulations in 45 CFR Part 85.

(b) *Requirements for entry and release.* Each motor vehicle or motor vehicle engine offered for importation (other than for personal use by the importer) into the customs territory of the United States shall be refused entry unless there is filed with the entry, in duplicate, a declaration verified by the importer or consignee which identifies it and affirms that:

(1) Such motor vehicle or motor vehicle engine is not subject to the Motor Vehicle Air Pollution Control Act for reasons specified in the declaration (e.g., the vehicle or engine was manufactured prior to Mar. 30, 1966, the effective date of the regulations promulgated in 45 CFR Part 85; the vehicle or engine is not "new" within the meaning of section 208(3) of the Motor Vehicle Air Pollution Control Act; the vehicle or engine is a pre-1968 year model; etc.); or

(2) Such motor vehicle or motor vehicle engine is in all material respects the same construction as a test vehicle or engine;

(i) For which a certificate of conformity identified by number and date has been issued in accordance with regulations in 45 CFR Part 85, or for which a determination of conformity has been made under such part, by the Secretary of Health, Education, and Welfare, and is being entered during a period for which such determination or certification is valid; or

(ii) For which application for a determination or certification of conformity is pending before the Secretary of Health, Education, and Welfare, in accordance with regulations in 45 CFR Part 85; or

(3) The importer or consignee has undertaken, in accordance with 45 CFR 85.203(a), to bring any motor vehicles or motor vehicle engines identified as part of the entry and subject to the Motor Vehicle Air Pollution Control Act into conformity with a test vehicle or engine approved or certified in accordance with 45 CFR Part 85, or for which application for such approval or certification is pending.

No written declaration shall be required under this paragraph for the importation of an individual motor vehicle or motor vehicle engine unless the district director of customs has reason to believe that the importation is being made for purposes of resale and not for the personal use of the importer. The duplicate copy of any declaration filed under this paragraph shall be forwarded by the district director of customs directly to the Surgeon General, Department of Health, Education, and Welfare, Washington, D.C.

(c) *Release under bond.* If a declaration filed in accordance with paragraph (b) of this section states that the entry is being made under circumstances described in paragraph (b) (2) (ii) or (3) of this section, the entry shall be accepted only if the importer gives a bond on customs Form 7551, 7553, or 7595 for the production of a statement certifying in accordance with 45 CFR 85.203(c) that the motor vehicles or motor vehicle engines described in the declaration filed by the importer conform in all material respects with a test vehicle or engine which has been certified or approved for a period during which the entry of such vehicles or engines is made. The bond shall be in the amount required under § 25.4(a) of this chapter. Within 90 days after such entry, or such additional period as the district director of customs may allow for good cause shown, the importer or consignee shall deliver to the district director the certified statement described in this paragraph. If the certified statement described in this paragraph is not delivered to the district director of customs for the port of entry of such vehicles or engines within 90 days of the date of entry or such additional period as may be allowed by the district director, for good cause shown, the importer or consignee shall deliver or cause to be delivered to the district director of customs those motor vehicles or motor vehicle engines which were released in accordance with this paragraph. In the event that any such motor vehicle or motor vehicle engine is not redelivered within 5 days following the date specified in the preceding sentence, liquidated damages shall be assessed in the full amount of a bond given on Form 7551. When the transaction has been charged against a bond given on Form 7553 or 7595, liquidated damages shall be assessed in the amount that would have been demanded under the preceding sentence if the merchandise had been released under a bond given on Form 7551.

(d) *Merchandise refused entry.* If a new motor vehicle or new motor vehicle engine is denied entry under the provisions of paragraph (b) or (c) of this section, the district director of customs shall refuse to release the merchandise for entry into the United States and shall issue a notice of such refusal to the importer.

(e) *Disposition of merchandise refused entry into the United States; redelivered merchandise.* New motor vehicles or new motor vehicle engines which are denied entry under paragraph (b) or (c) of this section or which are redelivered in accordance with paragraph (c) of this section and which are not exported under customs supervision within 90 days from the date of notice of refusal of admission or date of redelivery shall be disposed of under customs laws and regulations: *Provided, however,* That any such disposition shall not result in an introduction into the United States of a new motor vehicle or new motor vehicle engine in violation of the Motor Vehicle Air Pollution Control Act. (Sec. 484, 46 Stat. 722, as amended, sec. 203, 79 Stat. 993; 19 U.S.C. 1484, 42 U.S.C. 1857f-2.)

(R.S. 251, sec. 624, 46 Stat. 759; 19 U.S.C. 66, 1624)

Since motor vehicles and motor vehicle engines subject to the standards prescribed in 45 CFR Part 85 may now be in transit to U.S. ports for entry, it is important that these regulations be put in effect at the earliest possible date. It is therefore found that notice and public procedure under 5 U.S.C. 553 is impracticable and good cause is found for adopting these regulations effective upon publication in the FEDERAL REGISTER.

[SEAL] LESTER D. JOHNSON,
Commissioner of Customs.

Approved: July 31, 1967.

TRUE DAVIS,
Assistant Secretary of the Treasury.

Approved: August 14, 1967.

JOHN W. GARDNER,
Secretary of Health, Education, and Welfare.

[F.R. Doc. 67-9719; Filed, Aug. 17, 1967; 8:46 a.m.]

[1] See also 45 CFR Part 85, F.R. Doc. 67-9718, infra.

[2] As defined in the Motor Vehicle Air Pollution Control Act, a new motor vehicle or new motor vehicle engine is one the equitable or legal title to which has never been transferred to an ultimate purchaser; and an ultimate purchaser is the first person who in good faith purchases such new motor vehicle or new engine for purposes other than resale. (42 U.S.C. 1857f-7 (3), (5))

Title 45—PUBLIC WELFARE

Subtitle A—Department of Health, Education, and Welfare, General Administration

PART 85—CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLES AND NEW MOTOR VEHICLE ENGINES

Subpart—Importation of New Motor Vehicles or New Motor Vehicle Engines [1]

The following regulations establish procedures for the importation of new motor vehicles and new motor vehicle engines into the United States pursuant to section 203(b)(2) of the Clean Air Act. Copies of proposed procedures were forwarded on June 13, 1967, to representatives of all foreign manufacturers known to be importing automobiles into the United States, together with notice of a meeting affording them an opportunity to discuss the proposal with representatives of the Department of Health, Education, and Welfare. The meeting was held on July 24, 1967, and the regulations set forth below incorporate procedures agreed upon by this Department and those persons who submitted written or oral comments.

The importation of vehicles and engines subject to the Clean Air Act is prohibited unless such vehicles and engines conform to the applicable standards which were published effective March 30, 1966 (31 F.R. 5170). The regulations below establish procedures for the entry of vehicles and engines which presently conform to such standards as well as those which this Department determines will be brought into conformity with such standards subsequent to entry.

Since failure to adopt the necessary procedures promptly would work to the detriment of those affected by them, the Department finds that it is in the public interest and that good cause exists for the adoption of these regulations effective immediately upon publication in the FEDERAL REGISTER. To insure that all parties and interests may participate in the further formulation of the regulations, interested persons are invited to submit data, views, comments, or arguments concerning the regulations hereby promulgated within 30 days after the publication of this document in the FEDERAL REGISTER in writing by mail to the Secretary, Health, Education, and Welfare, Attention: National Center for Air Pollution Control, Washington, D.C. 20201. Consideration will be given such submissions with a view to making any amendments to the regulations that are found to be necessary or desirable as fully as though such submissions had been received in response to a proposal.

Subpart—Importation of New Motor Vehicles or New Motor Vehicle Engines

Sec.
85.200 Applicability.
85.201 Determination of conformity of new motor vehicles and new motor vehicle engines not covered by certification.
85.202 Admission of new motor vehicles and new motor vehicle engines covered by certification or determination of conformity.
85.203 Admission of new motor vehicles and new motor vehicle engines not covered by certification or determination of conformity at the time of entry.
85.204 Notice to Customs officials.

AUTHORITY: The provisions of this subpart issued under sec. 203, 79 Stat. 993, 42 U.S.C. 1857f-2.

§ 85.200 Applicability.

The provisions of this subpart are applicable to new motor vehicles and new motor vehicle engines which are subject to the standards prescribed in this part and are offered for importation into the United States by a manufacturer for sale or resale. As used in this subpart, the term United States means the customs territory of the United States as defined in 19 U.S.C. 1202 and the Virgin Islands, Guam, and American Samoa.

[1] See also 19 CFR Part 12, F.R. Doc. 67-9719, supra.

§ 85.201 Determination of conformity of new motor vehicles and new motor vehicle engines not covered by certification.

(a) Any manufacturer of new motor vehicles or new motor vehicle engines not covered by a certificate of conformity issued under § 85.62, who desires to import such vehicles or engines into the United States for sale or resale, may submit a request meeting all the requirements of § 85.61(b), for a determination by the Secretary whether the vehicle or engine is in conformity with the standards prescribed in this part.

(b) If, after a review of the test reports and data submitted by the manufacturer and data derived from such additional testing as the Surgeon General may conduct, the Secretary determines that the new motor vehicle or new motor vehicle engine conforms to the regulations of this part, he will issue a determination to such effect with respect to such vehicle or engine: *Provided*, That such determination for the purpose of the preceding proviso shall be for a period of not less than 1 model year as the Secretary may prescribe, and may be made upon such terms as he may deem necessary to assure that any new motor vehicle or new motor vehicle engine meeting the requirements of the preceding proviso will meet the requirements of this part relating to durability and performance.

§ 85.202 Admission of new motor vehicles and new motor vehicle engines covered by certification or determination of conformity.

(a) Any new motor vehicle or new motor vehicle engine which is in all material respects substantially the same construction as the test vehicle or engine for which a certificate of conformity has been issued under § 85.62 or, with respect to which a determination of conformity has been made under § 85.201, shall be deemed to be in conformity with the regulations prescribed in this part and shall not be refused admission into the United States under section 203(b)(2) of the Act, if the entry documents contain a declaration by the manufacturer that such a certificate or determination of conformity has been issued, giving the number and date thereof, and that the new motor vehicle or new motor vehicle engine for which entry is requested is in all material respects the same construction as the test vehicle or engine for which the certificate or determination was issued, and is being entered during the period for which the certificate or determination is effective.

§ 85.203 Admission of new motor vehicles and new motor vehicle engines not covered by certification or determination of conformity at the time of entry.

Any new motor vehicle or new motor vehicle engine which is not in all material respects the same construction as a test vehicle or engine for which a certificate of conformity has been issued or for which a determination of conformity has been made, shall be conditionally admitted in accordance with 19 CFR 12.73(c), but shall be refused final admission into the United States under section 203(b)(2) of the Act, unless:

(a) Not later than 5 days following such conditional admission the Secretary has received a written request submitted by the manufacturer and containing any of the following information and agreements that may be applicable:

(1) A statement that the vehicles or engines are in conformity with a test vehicle or engine for which an application is pending before the Secretary.

(2) A statement specifying the modifications or alterations which are necessary to bring the vehicles or engines into conformity with the regulations, together with assurances satisfactory to the Secretary that such alterations will in fact be accomplished.

(3) The place and date by which the modifications or alterations will be accomplished, said date to be no greater than 75 days from the date of entry.

(4) The place(s) where such vehicles will be stored until a determination of conformity has been made.

(5) An acknowledgement of responsibility for the custody of the vehicles or engines until such time as the Secretary notifies the manufacturer that the vehicles conform to the regulations in this part.

(6) Authorizations for representatives of the Department of Health, Education, and Welfare to inspect the vehicles or engines at any reasonable time for the purpose of making a determination of conformity.

(b) The bonding and entry requirements of the Secretary of the Treasury set forth in 19 CFR 12.73 have been met; and

(c) The Secretary issues to the manufacturer a statement certifying that the vehicles or engines are in conformity with a test vehicle or engine which has been certified or approved for a period during which the entry is made.

§ 85.204 Notice to Customs officials.

The Surgeon General will notify the Commissioner of Customs and the Governors of the Virgin Islands, Guam, and American Samoa of the issuance of certificates of conformity, determinations of conformity, and certifications issued under § 85.203(c).

Dated: July 28, 1967.

[SEAL] JOHN W. GARDNER, *Secretary.*

Title 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[3d Rev. S.O. 935-A]

PART 195—CAR SERVICE

Appointment of Embargo Agents

At a session of the Interstate Commerce Commission, Division 3, held in Washington, D.C., on the 4th day of August 1967.

Upon further consideration of Third Revised Service Order No. 935 (32 F.R. 5931) and good cause appearing therefor:

It is ordered, That § 195.935 *Service Order No. 935* (Appointment of embargo agents) be, and it is hereby, vacated and set aside.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That this order shall become effective at 11:59 p.m., August 16, 1967; that copies of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of the order shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 3.

[SEAL] H. NEIL GARSON, *Secretary.*

[S.O. 995]

PART 195—CAR SERVICE

Appointment of Embargo Agents

At a session of the Interstate Commerce Commission, Division 3, held in Washington, D.C., on the 4th day of August 1967.

It appearing, that the matter of car service (sec. 1, pars. 10–17, inclusive, of the Interstate Commerce Act) being under consideration, it is the opinion of the Commission that whenever any carrier by railroad, subject to Part I of the Interstate Commerce Act, is unable to control freight traffic movements, because car accumulations, threatened congestions, or other interferences of a temporary nature compel restrictions against car movements, car service will be promoted in the interest of the public and the commerce of the people by the appointment of agents with authority to direct the placement of embargoes; that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 195.995 Service Order No. 995.

(a) Appointment of embargo agents: R. D. Pfahler, Director, and N. Thomas Harris, Assistant Director, Bureau of Operations, Interstate Commerce Commission, Washington, D.C., are hereby appointed agents of the Interstate Commerce Commission and vested with authority to direct the placement of embargoes by railroads at such points where freight cars are being unduly delayed due to accumulations, congestions, or emergency situations.

(b) Embargoes placed under this order shall be at the direction of the agents of the Commission and shall be published through the Association of American Railroads, Car Service Division, and in conformity with the Association of American Railroads' "Instructions to Govern the Placing and Handling of Embargoes" and "Code of Car Service and Per Diem Rules—Freight."

(c) Application: The provisions of this order shall apply to cars moving in intrastate and foreign commerce as well as interstate commerce.

(d) Rules, regulations, and practices suspended: The operation of all rules, regulations, and practices insofar as they conflict with the provisions of this order, is hereby suspended.

(e) Effective date: This order shall become effective at 11:59 p.m., August 16, 1967.

(f) Expiration date: The provisions of this order shall expire at 11:59 p.m., December 31, 1967, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 3.

[4th Rev. S.O. 562-A]

PART 197—ROUTING OF TRAFFIC

Rerouting of Traffic; Appointment of Agents

At a session of the Interstate Commerce Commission, Division 3, held in Washington, D.C., on the 4th day of August 1967.

Upon further consideration of Fourth Revised Service Order No. 562 (32 F.R. 5931) and good cause appearing therefor:

It is ordered, That § 197.562 *Service Order No. 562* (Rerouting traffic—appointment of agents) be, and it is hereby, vacated and set aside.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That this order shall become effective at 11:59 p.m., August 16, 1967; that copies of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of the order shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 3.

[SEAL] H. NEIL GARSON, *Secretary.*

[F.R. Doc. 67-9748; Filed, Aug. 17, 1967; 8:48 a.m.]

[S.O. 994]

PART 197—ROUTING OF TRAFFIC

Rerouting of Traffic; Appointment of Agents

At a session of the Interstate Commerce Commission, Division 3, held in Washington, D.C., on the 4th day of August 1967.

It appearing, that the matter of car service (sec. 1, pars. 10–17, inclusive, of the Interstate Commerce Act) being under consideration, it is the opinion of the Commission that whenever any carrier by railroad, subject to Part I of the Interstate Commerce Act, is, for any reason, unable to transport traffic offered, car service will be promoted in the interest of the public and the commerce of the people by the appointment of agents with authority to reroute and divert such traffic; that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

§ 197.994 Service Order No. 994.

(a) *Rerouting of traffic—appointment of agents.* R. D. Pfahler, Director, and N. Thomas Harris, Assistant Director, Bureau of Operations, Interstate Commerce Commission, Washington, D.C., are hereby appointed agents of the Interstate Commerce Commission and vested with authority to authorize diversion and rerouting of loaded and empty freight cars from and to any point in the United States whenever, in their opinion, an emergency exists whereby any railroad is unable to move traffic currently over its lines.

(b) *Application.* The provisions of this order shall apply to shipments moving in intrastate commerce as well as to those moving in interstate commerce.

(c) *Effective date.* This order shall become effective at 11:59 p.m., August 16, 1967.

(d) *Expiration date.* This order shall expire at 11:59 p.m., December 31, 1967, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 3.

[SEAL] H. NEIL GARSON, *Secretary.*

Title 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

SUBCHAPTER E—DEFENSE CONTRACTING

PART 163—DEFENSE CONTRACT FINANCING REGULATIONS

Miscellaneous Amendments

The following amendments to this Part 163 are issued by direction of the Assistant Secretary of Defense (Installations and Logistics) pursuant to authority contained in Department of Defense Directive No. 4105.30, dated March 11, 1959 (24 F.R. 2260), as amended, and 10 U.S.C. 2202.

1. Sections 163.2, 163.3, 163.4, 163.6, 163.12–3, 163.16, 163.17, 163.26, 163.30, and 163.31 are revised to read as follows:

§ 163.2 Purposes.

This part is intended to (a) state basic contract financing policy, (b) assure proper uniformity in policies procedures and forms, (c) provide for application of the fundamental management principle of internal check and balance, (d) insure that the need for advance or progress payments by contractors will not be treated as a handicap in awarding contracts, (e) facilitate and accelerate the making of progress payments requested by small business concerns under Government contracts, and (f) emphasize the usefulness and desirability of providing proper contract financing assistance to small business concerns. In addition, Subpart F of this part provides for the prompt ascertainment and timely collection of contract debts owed to the Department of Defense, provides an inducement for prompt payment by requiring the charging of interest on such indebtedness, states policies governing postponement of payments and covers compromises and other actions on certain claims pursuant to the Federal Claims Collection Act of 1966.

§ 163.3 Application.

This part supersedes all regulations, directives, procedures, and instructions inconsistent herewith. This part applies throughout the Department of Defense. Within this part, the words "Department," "Military Department," "Procuring Activity," and "Secretary," have the same meanings as those defined in §§ 1.201–5, 1.201–6, 1.201–14, and 1.201–15 of this chapter.

§ 163.4 Implementation.

Changes and additions for this part will be developed within the Contract Finance Committee, in the manner contemplated by §§ 163.12–3 and 163.32.

§ 163.6 Guaranteed loans—authority.

(a) Under section 301(a) of the Defense Production Act of 1950, as amended, and section 301 of Executive Order No. 10480, as amended by Executive Order No. 11062, and DoD Directive No. 5100.34, the Department of the Army, the Department of the Navy, the Department of the Air Force, and the Defense Supply Agency, among others, are designated as "guaranteeing agencies," and authorized by section 302(a) of Executive Order No. 10480 "to guarantee in whole or in part any public or private financing institution (including any Federal Reserve Bank), by commitment to purchase, agreement to share losses, or otherwise, against loss of principal or interest on any loan * * * which may be made by such financing institution for the purpose of financing any contractor, subcontractor, or other person in connection with the performance of any contract or other operation deemed by the guaranteeing agency to be necessary to expedite production and deliveries or services under Government contracts for the procurement of materials or the performance of services for the national defense, or for the purpose of financing any contractor, subcontractor, or other person in connection with or in contemplation of the termination, in the interest of the United States of any contract made for the national defense."

(b) As defined in section 702(d) of the Defense Production Act of 1950, as amended, "the term 'national defense' means programs for military and atomic energy production or construction, military assistance to any foreign nation, stockpiling, and directly related activity."

§ 163.12–3 Responsibility—administration—Contract Finance Committee.

(a) The responsibility for insuring uniform administration of financing in accordance with directions shall be in the Assistant Secretary of Defense (Installations and Logistics). Specific cases need not be referred to the Office of the Assistant Secretary (Installations and Logistics), unless policy or important procedural problems are involved, and the day-to-day financing operations shall be the responsibility of the Military Departments and the DSA.

(b) Responsibility for financing in each Department shall be in the Under or Assistant Secretary responsible for the comptroller function, with the focal point of such activities at Departmental headquarters although contract financing offices may be established at the operational level determined by that Department.

(c) There shall be a Contract Finance Committee composed of a representative of the Assistant Secretary of Defense (Installations and Logistics) as Chairman, a representative of the Assistant Secretary of Defense (Comptroller) and two representatives of each Military Department and the DSA (one representing procurement and one representing the contract finance office), which Committee shall meet upon call by the Chairman, upon his initiative or when requested by a member of the Committee. This Committee shall advise and assist the Assistant Secretary of Defense (Installations and Logistics) in assuring proper and uniform application of policies and the development of procedures and forms, and may from time to time recommend to the Secretary of Defense through the Assistant Secretary of Defense (Installations and Logistics) such further policy directives on the subject of financing as may appear desirable. This Committee shall be responsible also for the formulation, revision and promulgation of uniform regulations on contract financing (§ 163.32). For matters involving guaranteed loans, a representative of the Board of Governors of the Federal Reserve System may be invited to meet with the Committee. The Committee also may from time to time secure the advice of representatives of other branches of the Government and other persons and may invite such representatives and persons to its meetings.

§ 163.16 Uniformity.

Uniform financing policies and, so far as practicable, uniform procedures and standard forms are to be used by the Departments and, to the extent mutually agreed upon by the Departments, facilities and personnel are to be used in common.

§ 163.17 Small business.

Immediate and continuing attention must be given at all levels to insure that constructive measures will be taken to facilitate and accelerate necessary contract financing assistance to small business concerns. Every reasonable effort must be made to assist small business concerns in the resolution of their problems relative to the financing of contract performance, including any cases in which it may be reasonably necessary to increase the rate for progress payments and to assist them in understanding and complying with the requirements of performance as to payment forms, inspection and cost accounting. However, the issuance of a certificate of competency by the Small Business Administration shall not be considered as a requirement that contract financing must be provided by a Department.

§ 163.26 Coordination before contract award.

For effective application of the principles stated in § 163.24, each purchasing office should be staffed with, or have available and use the services of persons qualified and competent to evaluate credit and financial problems. Among other things, the duties of such persons would be to arrange, prior to contract awards, and so far as practicable, prior to subcontract arrangements, that financing for performance of contemplated contracts and subcontracts is reasonably assured prior to or contemporaneously with the making of contracts. In those exceptional cases where there is substantial doubt that a prospective contractor has the financial capacity or credit resources essential to the performance of the contemplated contract, the interested procuring activity, after having determined that no satisfactory alternative sources of supply are readily available on terms equally as favorable to the Government, should prior to placement of the contract, consult with the appropriate contract financing office of the interested Department, to determine whether financing can prudently be arranged. These contract financing officers are the Director of Contract Financing Office of the Comptroller of the Army; the Director of Contract Financing, Office of the Comptroller of the Navy; the Deputy Comptroller of the Air Force; and the Comptroller, Defense Supply Agency. For other Departments (§ 1.201–5 of this chapter), the contract financing office will be within the office of the Agency Comptroller. In such consultation it should be resolved, if placement of the contract is deemed beneficial to the interests of the Government, whether and by what means financing should be provided.

§ 163.30 Report of adverse developments—prompt decisions.

When materially adverse developments concerning a borrower having a guaranteed loan, or concerning a contractor having advance payments or progress payments, become known to a procuring or contract administration activity, pertinent facts, including report of remedial or protective action taken or proposed, should be reported by the procuring or contract administration activity to the contract financing office of the Department principally concerned with the contract financing, so that timely appropriate protective or remedial action may be taken by coordinated action of all concerned. However, the filing of such reports shall not relieve the personnel responsible for administration of the contract from taking such action as is deemed proper, prudent, and beneficial to the Government. When there are reasons to doubt the prudence of continuing progress payments or advance payments in cases involving performance difficulties or financial deterioration, decision must be made promptly and with proper regard to the harmful effects of delay on the continued operation of the contractors concerned.

§ 163.31 Reports.

Each Department shall submit reports of financing activities at such times and in such form as may be prescribed by the Assistant Secretary of Defense (Installations and Logistics) and approved by or for the Assistant Secretary of Defense (Comptroller).

2. Sections 163.32, 163.33, 163.33a–3, and 163.38 are revised; § 163.38–1 is revoked; and §§ 163.40, 163.40–1, 163.40–2, and 163.42 are revised, as follows:

§ 163.32 Deviations—amendments.

Actions in the exercise of the judgment and discretion allowed by these regulations are not deviations. Actions contrary to or inconsistent with or varying from these regulations would be deviations. Deviations will be permitted only when necessary in exceptional circumstances, after (a) the proposed deviation has been presented to the Contract Finance Committee, (b) the recommendations of that Committee have been obtained, and (c) the approval of the Assistant Secretary of Defense (Installations and Logistics) or his designated representative has been given. The above procedure will be followed also for amendments to this part (see § 1.163.4.) The provisions of Subchapter A of this chapter pertaining to deviations (§§ 1.109–2 and 1.109–3 of this chapter) and to amendments (§ 1.105 of this chapter) do not apply to these contract financing regulations.

§ 163.33 Interpretations.

It is important that this part and the clauses set forth herein be applied fairly and uniformly for all contractors. When a serious question of interpretation or application of this part arises within a procuring activity, and is regarded as being of general importance, if the circumstances reasonably permit the obtaining of an advance opinion on the question from Departmental headquarters, the question should be presented, through procurement channels, to the procurement policy office at headquarters of the Department primarily interested. If the circumstances do not reasonably permit request for advance opinion, report of an interpretation made (if regarded as important and of general interest for uniform application or interpretation of this part) should be made to the appropriate one of the Departmental headquarters procurement policy offices. Those offices are expected to take appropriate and timely action to obtain the views of interested offices of the other Departments, including the contract financing offices (§ 163.26). When questions submitted are considered to be of importance in the general interest of uniformity and of fair and effective administration of this part, appropriate revision of this part will be considered in the manner outlined in § 163.4. In period between any amendments of this part, it is contemplated that information on important interpretations of general interest, reported to or made at Departmental headquarters, will be made available to procuring activities for dissemination to interested purchasing offices.

§ 163.33a–3 Guaranteed loans for foreign contract performance.

When contracts or subcontracts are to be performed in a foreign country, financing by means of loans guaranteed by the Departments seldom will be practicable because of difficulties of loan administration and enforcement. When loans are to be utilized for financing of such contracts or subcontracts, it is considered generally preferable that the loans be provided within the internal financial system of the foreign country concerned, without Department guarantee.

§ 163.38 Loan guarantees to other Government agencies.

Loan guarantees are not issued to other Departments or Agencies of the Government.

§ 163.38–1 Other Government agencies. [Revoked]

§ 163.40 Guaranteeing agency.

Where a prospective borrower under a V-loan has defense contracts or subcontracts in which more than one of the guaranteeing agencies are interested, the guaranteeing agency in such case will be in general that agency which, as of the time of the application for the guarantee, has the preponderance of interest in such contracts and subcontracts on the basis of the dollar amount of the prospective borrower's unfilled and unpaid balances of such contracts and subcontracts and estimated claims under terminated contracts (exclusive of contracts with advance payments, if such advance payments are not to be liquidated by the proposed guaranteed loan). If the application is approved and a guarantee agreement is executed on behalf of such agency having the preponderance of interest, that agency will bear all losses and expenses and receive all revenues under such guarantee without allocation to other agencies of the Government. In this connection, among the Military Departments (§ 1.201–5 of this chapter), single service procurement contracts are deemed those of the purchasing department. In exceptional cases, one Department may act for others, and sharing arrangements are permitted.

§ 163.40–1 Effect on preponderance of progress payments or denial of certificate of eligibility.

Among the Departments, the determination of preponderance of interest, under § 163.40, is made without regard to the existence of progress payments on particular contracts, and without regard to the issuance or nonissuance of certificates of eligibility on particular contracts.

§ 163.40–2 Shifting of preponderance.

During the course of a guaranteed loan, preponderance of interest in the borrower's defense production contracts may shift from one of the Departments, as guaranteeing agency, to another Department. When such preponderance has shifted materially so that substantial preponderance is in one of the Departments other than the guaranteeing agency, action on requests for increases in the amount of guaranteed loans, and on requests for extension of maturity for a period of more than 6 months, ordinarily will be taken by the Department then having such preponderance of interest. However, in the above situation, action will be taken by the Department which has guaranteed the loan, if the loan is in distress, with fairly foreseeable losses, and the requested extension or increase is for the purpose of orderly liquidation of the loan in a manner designed to reduce the amount of the loss. If such a loan is not in distress, and losses are not fairly foreseeable, and the greater part of the borrower's defense production contracts are determined to be eligible for a continuing guaranteed loan, and the circumstances of the case are such that favorable action would have been taken by the then guaranteeing agency if it had remained preponderantly interested in the borrower's defense production contracts, similar favorable action will be taken by

the Department then having such preponderance of interest. In these cases, while new application for guarantee is required, the file of the contract financing office which has authorized the existing guarantee will be transferred to the contract financing office of the Department then having preponderant interest in the case, and the information to be submitted with the application need be only current financial information, data concerning the borrower's defense production contracts, and other pertinent facts concerning the borrower and his operations, to the extent necessary to supplement and bring up to date the information previously furnished to the guarantor. In order not to disturb or impair any security for the existing loan, and for the convenience of all concerned, it is preferable that the new guarantee merely replace the former guarantee, with appropriate recitals as to cancellation of the former guarantee, and with appropriate revision of the existing loan agreement and of such collateral security instruments as may require revision.

§ 163.42 Asset formula.

It is the policy of the guaranteeing agencies that borrowings under guaranteed loans made primarily for working capital purposes should be limited, in accordance with an asset formula, to amounts which do not exceed specified percentages (90 percent or less) of the borrower's investment in defense production contracts. The formula may include all items for which the borrower would be entitled to payment on performance or termination of defense contracts, but would not include any amounts (for which no work has been done nor expenditures made by the borrower) to become due as the result of later performance under the borrower's contracts. However, any such asset formula would be subject to relaxation in appropriate cases to the extent and for the time actually necessary for contract performance where the contractor's working capital and credit are inadequate. This "asset formula" does not include "cash collateral" or bank deposit balances. When progress payments are involved, they are deducted last, to produce a safer borrowing base.

3. Paragraph (a) in § 163.49 is revised; and §§ 163.56–1, 163.62–1, 163.70, 163.72, 163.74, 163.77, 163.78–1, 163.78–7, and 163.79 are revised, as follows:

§ 163.49 Procedure for certificate of eligibility.

* * * * *

(a) As indicated in § 163.48(b), the determination in the certificate of eligibility is based upon giving full weight to practical considerations. It is also intended that in determining whether the materials or services can be procured readily from an alternative source without prejudice to the national defense, due consideration will be given to the effect of the use of alternative sources on established major policies affecting procurement, such as those relating to the mobilization base. If the reletting of contracts with other sources would involve conflict with any of such policies, such reletting in conflict with any such policy should be deemed prejudicial to the national defense. Also, in considering the practicability of alternative sources, in addition to the considerations outlined above, regard should be given to the question whether such potential alternate sources would require Government financing by progress payments, or advance payments, or Government supported financing by means of a guaranteed loan. If such financing would be required for alternative sources, such alternate sources may be fairly considered not "readily available" within the meaning of the certificate of eligibility.

* * * * *

§ 163.56–1 Delegation of authority.

The authority in each case to make findings and determinations with respect to advance payments and to approve contract provisions for advance payments, or to authorize the terms and conditions thereof, may be delegated within each Department no further than, to the Comptroller of the Army (and an alternate within his office) in the Department of the Army; to the Director of Contract Financing (and an alternate within his office) in the Department of the Navy; to the Deputy Comptroller of the Air Force (and an alternate responsible to such Deputy Comptroller); and to the Comptroller, Defense Supply Agency, or an alternate responsible to him. For other Departments (§ 1.201–5 of this chapter), this delegation of advance payment authority may be only to the Comptroller of the Agency, or an alternate responsible to him. However, to the extent deemed necessary or prudent and efficient under exceptional circumstances, further delegations of this advance payment authority may be made with the approval of the Assistant Secretary of Defense (Installations and Logistics).

§ 163.62–1 Action by contracting officer—disapproval.

If the contracting officer determines that the requested advance payment should be disapproved, the contractor's request, information submitted, report of investigation (if any), and statement of reasons for adverse determination should be sent forward immediately to the appropriate contract financing office (§ 163.26). This information may be useful in connection with existing or prospective arrangements for other financing, and for such further action as may be appropriate to enhance uniform application of this part.

§ 163.70 Percentage or stage of completion.

Progress payments based on a percentage or stage of completion will be confined to contracts for construction (§ 10.101–6 of this chapter), shipbuilding and ship conversion, alteration or repair. For all other contracts, including any separate contracts for engines, machinery, equipment, or other components for ships, the only types of progress payment provisions will be those based on costs, as authorized herein. However, on existing contracts which provide for progress payments based on a percentage or stage of completion, it is not required that provision for progress payments based on costs be substituted in connection with future amendments, supplements, or modifications, if such substitution is found impracticable.

§ 163.72 Customary progress payments—standards.

(a) Certain types of contracts involve a long "lead time" or preparatory period, normally approximating 6 months or more between the beginning of work and the first delivery, and may require contractor's predelivery expenditures that will have a material impact on the contractor's working funds. Familiar examples include, among others, contracts for aircraft, engines, complex items of electrical or electronics equipment, heavy handling equipment, production machines and equipment, tanks and other items of heavy ordnance.

(b) Progress payments have been traditional and customary on this class of contracts, on the basis of a percentage of total costs or of direct labor and material costs.

(c) Percentages for customary progress payments shall be not more than 70 percent of total costs or 85 percent of direct labor and material costs of the work done under the undelivered portion of the contract, except that for negotiated contracts with small business concerns and for procurement by "Small Business Restricted Advertising" or pursuant to § 163.73–3, these percentages may be 75 percent of total costs or 90 percent of direct labor and material costs whenever deemed reasonably necessary. Higher percentages will be regarded as unusual, and not within the category of customary progress payments.

(d) The long lead time or preparatory period in these cases, and the accompanying predelivery expenditures that may have a material impact on the contractor's working funds, are regarded as making these customary progress payments reasonably necessary, and as making the general preference for private financing not applicable to this class of cases. Provision for customary progress payments will be made as a matter of course when requested by contractors who are known (from experience or adequate preaward investigation) to be reliable, competent, capable of satisfactory performance, in satisfactory financial condition, and to have an adequate accounting system and controls. In such cases, it is not necessary to require projections of cash receipts and expenditures or other demonstration of actual reasonable need for progress payments. However, in order to minimize administrative effort and expense, progress payments will be discouraged on relatively small contracts of the stronger and larger contractors who are not small business concerns, e.g., contracts for less than $1,000,000, unless the circumstances of a group of such contracts, for contemporaneous performance, make such contracts the approximate equivalent of a larger contract that would have a material impact on the contractor's working funds. If a small business concern, and the contract involved, meet the above standards for customary progress payments, the smallness of the contract shall not deter the making of provision for customary progress payments to such small business concerns.

(e) Progress payments, at standard percentages, may be provided on letter contracts without regard to the length of lead time (§ 163.84).

§ 163.74 Unusual progress payments—standards—procedure.

(a) Progress payments based on costs, other than progress payments of the class and within the limits set forth in §§ 163.72 and 163.73, will be regarded as unusual, and will require special approval. This is deemed necessary for the purpose of minimizing risks, and in order to establish and maintain the greatest practicable uniformity with regard to such progress payments within and among the Departments. Any contractor seeking provision for progress payments that is "unusual," within the meaning of this part, will be required to demonstrate fully his actual need therefor, with due regard to the preference for private financing, including guaranteed loans. Requests for "unusual" progress payments shall be approved only under exceptional circumstances and must have the specific approval of the Head of a Procuring Activity (§ 1.201–7 of this chapter) or of a general or flag officer designated for that purpose.

(b) Such cases must involve a preparatory period requiring contractor's predelivery expenditures that are large in relation to the contract price and in relation to the contractor's working capital and credit. Contract provisions for progress payments in this category will be only supplementary to private financing, including guaranteed loans, in amounts necessary for contract performance. The percentage rates and costs bases for progress payments in this category will be determined on a minimum basis commensurate with the contractor's production schedule requirements and minimum inventory lead time, with due regard to the contractor's projected cash needs, cash resources and their planned application.

(c) All requests involving progress payments at rates exceeding 85 percent (or 90 percent for small business concerns) of direct labor and material costs or exceeding 70 percent (or 75 percent for small business concerns) of total costs, if regarded favorably by the Head of a procuring Activity (§ 1.201–7 of this chapter) or by a specially designated general or flag officer within a procuring activity, will be forwarded, with supporting information, for approval of a designated office or person at Departmental Headquarters of the Department directly concerned. Such office or person may be the contract financing office at Departmental headquarters or such person or persons, located at Departmental headquarters and responsible to the Under or Assistant Secretary responsible for the comptroller function, as may be designated for this purpose by such Under or Assistant Secretary. Such requests, before approval, will be coordinated speedily with representatives of the other Departments and of the Assistant Secretary of Defense (Installations and Logistics). Progress payments at standards rates (§ 163.72) on letter contracts are not deemed unusual.

§ 163.77 Advance payments.

When advance payments and progress payments are authorized in the same contract, progress payment percentages will not exceed the standard percentages mentioned in §§ 163.72 and 163.73.

§ 163.78–1 Progress payments.

See § 163.11. The term "progress payments" must be distinguished from "partial payments." The term "partial payments" describes only (a) payments for partial deliveries accepted by the Government under a contract, or (b) specified payments for significant "milestones" of accomplished performance, and (c) partial payments on contract termination claims.

§ 163.78–7 Contract price.

The term "contract price" means the total amount fixed by the contract (other than any portion of the contract specifically providing for cost reimbursement only), as amended, to be paid for complete performance of the contract. If the contract provides for escalation or for redetermination of price, this term means the initial price until changed and not the ceiling price. If the contract is of the incentive type, the term means the ceiling or maximum price. For letter contracts and similar preliminary contractual instruments, this term means the maximum expenditure authorized by the contract, as amended.

§ 163.79 Contract clauses.

One of the following Progress Payments clauses shall be used whenever progress payments are to be made to a contractor based upon a percentage of costs.

4. Paragraph (c) of § 163.81–2 is revised; §§ 163.85, 163.85–1, 163.85–2, 163.85–3, 163.85–4, 163.85–5, and 163.85–6 are revoked; and in § 163.86, paragraph (a) is revised, as follows:

§ 163.81–2 Alternate method.

* * * * *

(c) With regard only to items for which final prices have been established under contracts, progress payment liquidation percentages conforming to the standards stated in paragraph (a) of this section, but less than the minimum liquidation percentages stated and outlined in paragraph (b) of this section (e.g., less than 70 percent when progress payments are based on 75 percent of total costs or less than 65.3 percent when progress payments are based on 70 percent of total costs) may be established by amendment of contracts, or initially on firm fixed price contracts only, upon submission of satisfactory information by the contractor showing separately (1) the cost of items that have been delivered, accepted, and invoiced, (2) the cost of work not delivered, accepted, and invoiced, (3) the estimated costs of completion, and (4) for amendments, an applicable profit on the items for which final prices have been established that is higher than the amount of profit permitted to be released by application of the progress payment liquidation percentage then specified in the contract.

* * * * *

§ 163.85 Transition. [Revoked]

§ 163.85–1 Separate contracts. [Revoked]

§ 163.85–2 Existing indefinite quantity contracts. [Revoked]

§ 163.85–3 Supplements, amendments, and modifications—when new clause not required. [Revoked]

§ 163.85–4 Supplements, amendments, and modifications—gradual operation of new clause. [Revoked]

§ 163.85–5 Supplements, amendments, and modifications concerning progress payments. [Revoked]

§ 163.85–6 Amendments reducing the rate of progress payments. [Revoked]

§ 163.86 Contracting financing office clearance.

* * * * *

(a) Those involving progress payments at rates exceeding 85 percent of direct labor and material costs or exceeding 70 percent of total costs, except as authorized by §§ 163.72 and 163.73;

* * * * *

5. Sections 163.88, 163.92, 163.92–1, 163.93–3, 163.96, 163.97, 163.98, and 163.98–1 are revised to read as follows:

§ 163.88 Contractor's request.

All invoices for progress payments on contracts containing the Progress Payment clause set out in § 163.79, and on contracts containing any deviation from that clause approved pursuant to §§ 163.86 and 163.87, will be supported by the Contractor's Request for Progress Payment (DD Form 1195) with any supporting information that may be reasonably required. The use of this form is subject to the instructions set forth on the reverse thereof.

§ 163.92 Maximum unliquidated amount.

In all cases where the contract price is sufficient to cover all costs of complete performance, and liquidation of progress payments is effected in accordance with § 163.79–1(b) or § 163.79–2(b), the amount of unliquidated progress payments will never exceed the maximum limit provided by § 163.79–1(a)(3)(i) or § 163.79–2(a)(3)(i), unless liquidation percentages have been based on cost estimates that are less than actual costs. In such cases, if the contract involves a profit to the contractor, the actual unliquidated progress payment amount

will always be less than the maximum limit stated in § 163.79–1(a)(3)(i) and § 163.79–2(a)(3)(i) after the first delivery payment unless liquidation percentages have been based on cost estimates that are less than actual costs. So long as performance is satisfactory and there is no reason to believe that the contract will involve a loss to the contractor or that a liquidation rate fixed pursuant to § 163.81–2 or § 163.79–2(b) is too low, there will be no need or reason to verify the relationship of the amount of unliquidated progress payments to the maximum limit prescribed by § 163.79–1(a)(3)(i) and § 163.79–2(a)(3)(i). However, when the rate or quality of performance is unsatisfactory, or the rate of rejections is unduly high, or there is excessive wastage or spoilage, or it appears that unduly low costs have been attributed by the contractor to delivered items, or a loss to the contractor is otherwise indicated, or that the liquidation rate is too low, careful examination should be made to determine whether or not the unliquidated progress payments exceed the maximum amount permitted by § 163.79–1(a)(3)(i) or § 163.79–2(a)(3)(i). The services of the cognizant audit agency should be utilized to the fullest extent available, together with the services of qualified cost analysis and engineering personnel as required. See § 163.88 and section III, General Instructions, DD Form 1195.

§ 163.92–1 Quarterly statements on price revision contracts.

Many price revision contracts now contain the payment limitation provisions required by Department of Defense Directive No. 4105.7 and substantially as set forth in §§ 7.108 and 7.109 of this chapter. Quarterly statements submitted by contractors pursuant to those contract provisions should be compared from time to time with the Contractor's Request for Progress Payments in order to assure so far as reasonably possible that costs attributed to delivered items on the quarterly statements are excluded from the costs set forth as the basis for unliquidated progress payments on the DD Form 1195. If there is apparent disparity, request for completion of section III of the DD Form 1195 (§ 163.88) would be appropriate.

§ 163.93–3 Excessive inventory.

When inventory allocated to the contract is found substantially to exceed reasonable requirements (§ 163.79–1(c)(3) and § 163.79–2(c)(3)), the simplest form of adjustment to correct or avoid overpayment will be to eliminate the costs of such excess inventory from the costs shown in item 7 of the contractor's request set out in DD Form 1195. If that is not regarded as sufficient in a particular case, or if the adjustment in item 7 of the request will not accomplish full correction, additional deductions, to the extent necessary for the correction, should be made, to liquidate progress payments, incident to billings for payments other than progress payments. Transfer of such excess inventory from the contract should also be required. The expression "reasonable requirements" includes a reasonable accumulation of inventory for future use to assure continuity of operations.

§ 163.96 Amendments to provide progress payments.

There should be ordinarily no occasion to amend contracts to provide for progress payments unless there has been material change from the circumstances contemplated by the parties when invitations for bids were issued or the contract was entered into without progress payment provisions. However, cases do occur (a) in which the actual lead time or preparatory period between the beginning of work and the first delivery substantially exceeds the estimated lead time and in fact runs or will run over 6 months (§ 163.72) or (b) in which unusual circumstances bring about unexpected substantial accumulation of predelivery costs having material impact on the contractor's working funds (§ 163.74). These cases may arise from occurrences such as (1) uncertainties or errors in specifications, (2) contract change notices, (3) Government delays in testing, inspection, furnishing of material or equipment, furnishing of stock numbers, packaging or shipping instructions or shipping documents, or completion of contract supplements, (4) stretch-outs or stop-work orders, (5) performance difficulties of subcontractors and suppliers, and (6) causes beyond the control and without the fault or negligence of the contractor, of the kinds mentioned in § 8.707(c) of this chapter. In these kinds of cases, requests of contractors for amendments to provide progress payments should be considered promptly, in the light of the circumstances then existing. If the circumstances then existing approximate conditions under which progress payments would have been properly provided in conformity with this part at contract inception, if the new circumstances had been foreseen, progress payments should be provided by amendment. In this connection, see particularly §§ 163.15, 163.17, 163.18, 163.19, 163.20, 163.23, 163.23–1, 163.74, and 163.97. In conformity with the standards and procedures of § 7.505 of this chapter, unusual progress payments may be provided by amendment.

§ 163.97 Consideration for amendments providing for progress payments.

Contracts may not be modified except in the interest of the Government. Contracts may be amended to provide for progress payments or larger progress payments only when the amendment provides new and valuable consideration moving to the Government. Appropriate price reduction may provide this consideration. In the varying circumstances of individual cases, the consideration for progress payments need not necessarily be monetary. Agreements by the contractor, incorporated in such an amendment, for the benefit of and substantially advantageous to the Government, may constitute sufficient consideration for an amendment providing for progress payments. When estimated financing costs have been included as an element (whether or not identified) in the contract price, it is fair to expect elimination of the applicable portion of that element of the price when progress payments or larger progress payments are provided by amendment. The fair and reasonable consideration for the progress payment amendment should approximate in a value as nearly as practically ascertainable the amount by which the contract price would have been smaller if a progress payment clause, or the amended larger progress payment clause, had been contained in the contract in the first instance. In the absence of definite information on this point, pertinent factors for estimating the fair and reasonable amount of consideration would include (a) the amounts of progress payments expected to be outstanding for estimated periods of time, (b) the cost of equivalent working funds to the contractor, and (c) the estimated profit rate expected to be earned by contract performance. If not accomplished by a contract price reduction, other concessions or agreement by the contractor, advantageous to the Government and incorporated in the amendment, may be fairly evaluated and accepted as being of value reasonably equivalent to a price reduction. This consideration should be such as is fair, equitable and reasonable in the light of the circumstances of each case. See § 163.96. This consideration should be for the progress payment amendment, and there shall be no provision for interest or other specific charge for progress payments, or for a reduction in payments after the progress payment amendment (other than any agreed discount for prompt payment) by reason of the making of progress payments.

§ 163.98 Scope.

This subpart provides uniform policies and procedure for the ascertainment and collection of contract debts, for the charging of interest thereon, for deferral of payments, for compromise and termination of certain claims, and for reporting of contractor bankruptcies. Except as specified herein, it applies to all indebtedness arising in connection with contracts for procurement of property or services, contracts for sale or use of Government property, and from charges for Government services.

§ 163.98–1 Exclusion and limitation.

This subpart does not apply to claims of the Government against military or civilian employees or their dependents, arising in connection with current or past employment by the Government. Its provisions concerning interest and deferral of payments and compromise or termination of certain claims do not apply to indebtedness resulting from statutory renegotiation, nor to claim against common carriers for transportation overcharges or freight or cargo loss or damage.

6. In § 163.99, paragraphs (i) and (j) are revised and paragraphs (k) and (l) are revoked; and §§ 163.101–4, 163.101–5, 163.102, 163.106–2, 163.107, 163.109, and 163.109–1 are revised, as follows:

§ 163.99 Examples.

* * * * *

(i) Delinquency in payment called for by agreement or arrangement for deferral or postponement of payments;

(j) Statutory renegotiation. See § 163.98–1.

(k) [Revoked]

(l) [Revoked]

§ 163.101–4 Records after transfer.

(a) Upon transfer of a case to the contract financing office (§ 163.109), the debt record maintained by a contracting officer shall be closed by appropriate reference to the date of transfer.

(b) When a disbursing officer is primarily responsible for collection (§ 163.100), he should maintain his record of the debt until he receives payment or is advised of collection.

(c) In all cases transferred to a contract financing office (§ 163.109), that office shall establish and maintain an accounts receivable record showing all pertinent information relating to the debt, including an indebtedness and payment record reflecting current status, to be closed upon collection or compromise, or referral of the case to the General Accounting Office or to the Department of Justice.

§ 163.101–5 Deferral request records and copies.

When the contract financing office enters into a deferral agreement (§ 163.109) or a compromise (§ 163.123), it will furnish copies to the appropriate contracting officer and disbursing officer when deemed necessary. When the contract financing office denies a deferral request, or does not reach agreement with a contractor on a deferment, it will give timely notice to the appropriate contracting officer and disbursing officer when deemed necessary.

§ 163.102 Cash collection—non-postponement.

Except as expressly authorized in this subpart (§§ 163.112, 163.113, 163.114, 163.121, and 163.123), there shall be no postponement of payment of indebtedness, or compromise of indebtedness, and amounts due shall be paid in one sum upon demand, in cash or by credit against existing unpaid billings due to the contractor.

§ 163.106–2 Special demand by contract financing office.

If no previous demand has given notice of interest charge, the first demand made by the contract financing office (§ 163.26) will give notice of interest charge to be effective from the initial demand previously made, on amounts not paid before the expiration of 30 days after the date of the first demand.

§ 163.107 Reduction of amount—interest.

When, after demand giving notice of interest charge, the amount demanded is reduced to a lesser amount, or the debt demanded is replaced by a lesser debt, interest shall be charged on the reduced or substituted lesser amount at 6 percent per annum from the date specified by the first demand made for payment of the higher amount. No agreement may be made to the contrary.

§ 163.109 Transfer to contract financing office.

(a) Transfer of the case will be made to the contract financing office (1) upon receipt of a contractor's request for deferral, or (2) whether or not postponement is requested, upon the expiration of 45 days without full collection after the date of demand, as herein provided. Transfer shall be to the contract financing office of the Department within which its Procuring Activity awarded the contract, i.e., the contract financing office of the Procuring Department, except that debts (§ 163.98) originating in DCAS shall be transferred to the contract financing office of DSA (§ 163.26). When a contract financing office receives a case involving a contract awarded by a Procuring Activity of another Department, it shall promptly notify the contract financing office of the Procuring Department.

(b) Deferment requests, with appropriate supporting information will be sent forward as speedily as possible to the contract financing office (§ 163.26) of the Department concerned for appropriate action. In connection with transmittal of a deferment request, or if payment is not made and withholdings have not resulted in full collection within 45 days after the date of demand (except the demands mentioned in § 163.105) the case file, and accountability, will be transferred to the contract financing office (§ 163.26) of the military department which established the debt. The case file submitted shall contain adequate identifying and explanatory information, including relevant memoranda and correspondence, accounting data, amounts and dates of any collections, name and location of disbursing office and of assignee, date of filing of appeal, if any, information on hand concerning financing condition of the contractor, contractor's deferment proposal, if any, and recommendations for action on the deferment proposal. After this transfer, the contract financing office will have full responsibility for collection action, but this transfer shall not operate to relieve a certifying or disbursing officer of liability for overpayments or illegal payments as fixed under applicable law. Such transfer will be accomplished by the office having primary responsibility regarding the debt (§ 163.100).

(c) When a debt has been transferred to the contract financing office by the office having primary responsibility, all subsequent debts of the same contractor, for which that same office has primary responsibility, shall also be transferred immediately by that office to the same contract financing office, unless there is assurance of prompt payment in full.

§ 163.109–1 Small amounts.

The transfers required by § 163.109 will not be made for amounts less than $50.00. However, it is incumbent on contracting officers and disbursing officers to effect collection whenever and by such means as are practicable. (See § 163.101.)

7. Section 163.119 is revised; new paragraph (c) is added to § 163.119–1; §§ 163.120 and 163.121 are revised; and new §§ 163.123, 163.123–1, and 163.124 are added, as follows:

§ 163.119 Exceptions to interest clause requirement.

Contract provision for interest need not be included in (a) small purchases (see Subpart F, Part 3 of this chapter); (b) purchases described in §§ 16.303, 16.304, 16.501, and 16.504 of this chapter, or in Part 5 of this chapter; (c) purchases under indefinite delivery type contracts existing before the effective date of this subpart; (d) amendments of contracts existing before the effective date of this subpart; or (e) contracts with agencies of the U.S. Government, foreign governments or agencies thereof, State or local governments or agencies thereof, or nonprofit contracts with nonprofit educational or research institutions. Further exceptions may be established by the Contract Finance Committee (§ 163.12–3), with the approval of the Assistant Secretary of Defense (Installations and Logistics) or his representative.

§ 163.119–1 Further exceptions.

* * * * *

(c) Transportation contracts with common carriers for common carrier services, e.g., common carrier transportation services procured by transportation requests, transportation warrants, bills of lading, and similar transportation forms (§ 1.102 of this chapter).

§ 163.120 Exemptions from administrative interest charge.

Contractors and contracts mentioned in § 163.119(e), and other contractors in exceptional circumstances, may be exempted from the administrative interest charges required by this subpart when so agreed by the Contract Finance Committee (§ 163.12–3) with the approval of the Assistant Secretary of Defense (Installations and Logistics) or his representative.

§ 163.121 Responsibilities.

(a) The contract financing office (§ 163.26) of each military department, will take appropriate actions to effect collection of debts referred to it, including administration of deferment agreements, to cause debts to be listed on the consolidated list of contractors indebted to the United States, commonly known as the "Hold-up List," to remove names from the "Hold-up List," to determine administrative uncollectibility, and to refer debts to the General Accounting Office or the Department of Justice as appropriate. Within each Department, no arrangement for postponement or deferral of payments may be made without the approval of the contract financing office. Acting in conformity to the standards stated in this subpart those offices may approve or deny deferment proposals transmitted to them or made di-

rectly to them by contractors, or approve such proposals on prescribed conditions.

(b) Responsibility for assuring effective administration in accordance with this subpart shall be in the Assistant Secretary of Defense (Installations and Logistics). Responsibility for effective administration under this subpart in each Department shall be in the Under or Assistant Secretary responsible for the comptroller function. The Contract Finance Committee (§ 163.12–3) shall advise and assist the Assistant Secretary of Defense (Installations and Logistics) in assuring proper application of policies and the development of procedures hereunder, and in the formulation of such further instructions on this subject as may appear desirable. That Committee is responsible for this part and will develop and promulgate herein supplemental instructions on this subject.

(c) Reports will be made by each Department in connection with the subject matter of this subpart at such times and in such form as may be prescribed or approved by the Assistant Secretary of Defense (Comptroller) and the Assistant Secretary of Defense (Installations and Logistics).

§ 163.123 Compromise.

The Federal Claims Collections Act of 1966 (P.L. 89–508, 80 Stat. 308), July 19, 1966, authorizes the compromise of certain claims that do not exceed $20,000. This statute also authorizes termination or suspension of collection action on such claims. Actions under this statute must conform to standards prescribed jointly by the Attorney General of the United States and the Comptroller General of the United States. These controlling standards have been established by joint regulations published in the FEDERAL REGISTER of October 15, 1966, pages 13381–13385, Title 4, Chapter II, entitled, "Joint Regulations Prescribing Standards for Administrative Collection, Compromise, Termination of Agency Collection Action, and Referral to General Accounting Office, and to Department of Justice for Litigation, of Civil Claims by Government for Money or Property."

§ 163.123–1 Delegation.

Department of Defense Authority under the above statute and joint regulations (§ 163.123) has been delegated to the Departments (§ 163.3). Within each Department, for those debts covered by this subpart (§163.98) authority to act in conformity to the cited statute and joint regulations has been delegated to the contract financing office (§ 163.26).

§ 163.124 Bankruptcy reporting.

For those debts covered by this subpart (§ 163.98), claims in bankruptcy or insolvency, or in proceedings for reorganization or rearrangement will be furnished to the Department of Justice. These claims are (a) those which have been transferred to a contract financing office (§ 163.109), (b) those on their way to a contract financing office at inception of bankruptcy or insolvency proceedings, (c) those pending and not forwarded to a contract financing office at inception of bankruptcy or insolvency proceedings, and (d) those which are the consequence of bankruptcy or insolvency proceedings. Proof of claim, with pertinent supporting data and documentation shall be furnished to the Department of Justice by the contract financing office (§ 163.26) or by such other office or offices as may be designated within a Department. Information will be supplied to the contract financing office by the office of origin of a debt as soon as possible after the beginning of proceedings for bankruptcy, insolvency, reorganization, or rearrangement. Information, reports, and proof of claim under this paragraph are not expected on debts of less than $150.

[Rev. 22, Appendix E, ASPR, Apr. 3, 1967] (Sec. 2202, 70A Stat. 120; 10 U.S.C. 2202. Interpret or apply sec. 301, 702(d), 64 Stat. 800, 816, as amended, secs. 2307, 7364, 70A Stat. 131, 455, as amended, sec. 1, 72 Stat. 972; 50 U.S.C. Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

[7 CFR Part 729]

PEANUTS

Proposed Proclamation Regarding 1968 National Marketing Quota, National Acreage Allotment, and Apportionment of National Acreage Allotment (Less Reserve for 1968 New Farms) to States

The Secretary of Agriculture is required by section 358(a) of the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1358(a)), to proclaim, between July 1 and December 1 of each calendar year, the amount of the national marketing quota for peanuts for the crop produced in the next succeeding calendar year. The amount of such quota is the total quantity of peanuts which will make available for marketing a supply of peanuts from the crop with respect to which the quota is proclaimed equal to the average quantity of peanuts harvested for nuts during the 5 years immediately preceding the year in which such quota is proclaimed, adjusted for current trends and prospective demand conditions.

Section 358(a) of the act further provides that the national marketing quota for peanuts shall be converted to a national acreage allotment by dividing such quota by the normal yield per acre of peanuts for the United States determined by the Secretary on the basis of the average yield per acre of peanuts in the 5 years preceding the year in which the quota is proclaimed, with such adjustment as may be found necessary to correct for trends in yields and for abnormal conditions of production affecting yields.

Section 358(a) of the act also requires that the national marketing quota be a quantity of peanuts sufficient to provide a national acreage allotment of not less than 1,610,000 acres.

Section 358(c)(1) of the act (7 U.S.C. 1358(c)(1)) provides that the national acreage allotment for any year, less the acreage to be allotted to new farms under section 358(f) of the act (7 U.S.C. 1358(f)), shall be apportioned among the States on the basis of their shares of the national acreage allotment for the most recent year in which such apportionment was made. Pursuant to this provision of the Act, the national acreage allotment for the 1968 crop of peanuts will be apportioned to States on the basis of their shares of the 1967 national acreage allotment.

Before any action is taken with respect to proclaiming the national marketing quota, establishing the national acreage allotment, apportioning the national acreage allotment (less reserve) among the States, or determining the percentage of the national acreage allotment to be reserved for new farms, consideration will be given to any data, views, and recommendations relating thereto which are submitted in writing to the Director, Policy and Program Appraisal Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250.

All written submissions must be postmarked not later than 30 days after publication of this notice in the FEDERAL REGISTER.

All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in a manner convenient to the public business (7 CFR 1.27(b)).

Signed at Washington, D.C., on August 11, 1967.

E. A. JAENKE,
Acting Administrator, Agricultural Stabilization and Conservation Service.

BEURRE D'ANJOU, BEURRE BOSC, WINTER NELIS, DOYENNE DU COMICE, BEURRE EASTER, AND BEURRE CLAIRGEAU VARIETIES OF PEARS GROWN IN OREGON, WASHINGTON, AND CALIFORNIA

Expenses and Fixing of Rate of Assessment for 1967–68 Fiscal Period and Carryover of Unexpended Funds

Consideration is being given to the following proposals submitted by the Control Committee, established pursuant to the marketing agreement, as amended, and Order No. 927, as amended (7 CFR Part 927), regulating the handling of Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in Oregon, Washington, and California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

(1) That expenses that are reasonable and necessary to be incurred by the Control Committee, during the period July 1, 1967, through June 30, 1968, will amount to $41,635.38.

(2) That the rate of assessment for such period, payable by each handler in accordance with § 927.41 be fixed at one cent ($0.01) per standard western pear box of pears, or an equivalent quantity of pears in other containers or in bulk.

(3) That unexpended funds in excess of expenses incurred during the fiscal period ended June 30, 1967, in the amount of $13,024.72, be carried over as a reserve in accordance with § 927.42 of the said marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than the 10th day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: August 14, 1967.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[7 CFR Part 1133]

MILK IN INLAND EMPIRE MARKETING AREA

Notice of Proposed Suspension of Certain Provisions of Order

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as ameneded (7 U.S.C. 601 et seq.), the suspension of certain provisions of the order regulating the handling of milk in the Inland Empire marketing area is being considered for the period of September, October, and November 1967.

The provisions proposed to be suspended are: In paragraph (c) of § 1133.12 (producer milk definition), the provision: "15 percent in the months of September, October, and November," where such provision appears in both subparagraphs (1) and (2) of such paragraph. The provisions relate to the limit on diverting the milk of producers in each of the months of September through November.

The proposed suspension would permit handlers to divert producer milk from a pool plant to a nonpool plant during the months of September through November 1967 without limit. The order presently provides for diversion not in excess of 15 percent for each of the months during the period September through November.

A cooperative association representing a substantial number of producers supplying the market has requested this suspension pending the issuance of a

final order on amendments considered at a public hearing held at Spokane, Wash., on July 25, 1967. One of the proposals considered at the hearing concerned diversion limits.

Proponent stated that marketing conditions which necessitated suspension of the diversion provisions for the period April through July 1967 (32 F.R. 6341) will continue to exist for the period September through November 1967. Producer deliveries have increased in recent months more than usual for the season. It is expected, therefore, that milk in excess of 15 percent (as required for each of the months of September through November) of that delivered to pool plants will need to be diverted to nonpool plants for manufacture into butter, cheese, nonfat dry milk, etc.

The proposed suspension will permit dairy farmers who have supplied the fluid milk requirements of the market to continue as producers under the order.

All persons who desire to submit written data, views, or arguments in connection with the proposed suspension should file the same with the Hearing Clerk, Room 112–A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 3 days from the date of publication of this notice in the FEDERAL REGISTER. All documents filed should be in quadruplicate.

All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Signed at Washington, D.C., on August 14, 1967.

CLARENCE H. GIRARD,
Deputy Administrator,
Regulatory Programs.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 91]

[Docket No. 8340; Notice 67–37]

PRIORITY HANDLING REPORTS

Compliance With ATC Clearance and Instructions

The Federal Aviation Administration (FAA) is considering amending Part 91 of the Federal Aviation Regulations to provide that the report, presently required from a pilot who is given priority by air traffic control in an emergency, be submitted only upon the request of ATC.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20590. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. The proposal contained in the notice may be changed in the light of comments received. All comments submitted will be available in the Rules Docket for examination by interested persons, both before and after the closing date for comments.

Section 91.75(d) currently requires a pilot in command who is given priority by ATC in an emergency to submit a detailed report of the emergency to the nearest FAA Regional Office within 48 hours.

The requirement for submitting this report was inserted into the air traffic rules in 1947 to minimize the practice of a pilot declaring an emergency in order to receive preferential handling by ATC. At this time turbojet aircraft were being introduced into the air traffic control system and pilots of those aircraft often declared emergencies in order to obtain priorities.

Since 1947, various factors have changed. Advancements in turbojet operational capability (especially fuel management), improved pilot familiarization, and improved procedures for handling these aircraft have made priority emergencies virtually nonexistent.

On August 23, 1966, the U.S. Air Force requested an exemption from § 91.75(d) citing as a primary reason the fact that, in many instances, ATC may grant a pilot priority and not inform the pilot. This regulation requires a pilot to file a report whether or not he may be aware that he has received priority handling. Therefore, it appears that the basis for the Air Force request is applicable to other pilots also. Since the need for the regulation has lessened proportionately with the decrease in priority emergencies, it now appears desirable to require priority reports only upon request of the ATC facility involved. This would reflect the diminishing basis for the requirement and avoid the incongruity of automatically requiring a report from a pilot receiving priority handling who may not be aware of the service received.

In consideration of the foregoing, it is proposed to amend paragraph (d) of § 91.75 to read as follows:

§ 91.75 Compliance with ATC clearances and instructions.

* * * * *

(d) Each pilot in command who (though not deviating from a rule of this subpart) is given priority by ATC in an emergency, shall, if requested by ATC, submit a detailed report of that emergency within 48 hours to the chief of that ATC facility.

This amendment is proposed under the authority of sections 307 and 313 of the Federal Aviation Act of 1958 (49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on August 10, 1967.

ARCHIE W. LEAGUE,
Director, Air Traffic Service.

ATOMIC ENERGY COMMISSION

[10 CFR Part 70]

SPECIAL NUCLEAR MATERIAL

Withdrawal of Notice of Proposed Rule Making

On March 5, 1963, the Atomic Energy Commission published for public comment in the FEDERAL REGISTER (28 F.R. 2111) a proposed revision of its regulation 10 CFR Part 70 which, among other things, would have added criticality considerations and other licensing criteria to the regulations applicable to licensing of special nuclear material. In consideration of the comments received and further study of the problem, the notice of proposed rule making, published in the FEDERAL REGISTER on March 5, 1963 (28 F.R. 2111), entitled "'Licensing of Special Nuclear Material' to Add Criticality Considerations and Other Licensing Criteria" is hereby withdrawn. The Commission is developing another revision of Part 70 which will, among other things, reflect its consideration of the comments received on the notice which is being withdrawn.

(Sec. 161, 68 Stat. 948; 42 U.S.C. 2201)

Issued at Germantown, Md., this 7th day of August 1967.

For the Atomic Energy Commission.

W. B. MCCOOL,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 89]

[Docket No. 17581; FCC 67–961]

SPECIAL RADIO SERVICE

Eligibility of Medical Associations; Order Extending Time for Filing Comments

In the matter of amendment of § 89.507 of the Commission's rules to make medical associations eligible for authorization in the Special Radio Service.

1. The National Association of Radiotelephone Systems (NARS) has requested the Commission to extend the time for filing comments in the above-captioned matter. Comments are required to be filed on or before August 14, 1967. NARS has asked that the comment date be extended to October 2, 1967, and that reply comments be extended from August 24, 1967, to October 16, 1967. In support of the requested extension NARS states that it is interested in the subject rule making; that it considers private cooperative systems to be "violative of the Communications Act and Regulations * * * and, if tolerated, * * * will drive the regulated carrier out of business * * *"; that its annual national convention will be held September 10–13, 1967; and, that the extension would provide an adequate opportunity for discussion and deliberation of this proceeding and the preparation of appropriate pleadings based upon recommendations of the annual convention.

2. On August 10, 1967, Allied Telephone Companies Association (Allied) also requested extension of the filing date to September 15, 1967. Allied states that its board of directors would meet on August 11, 1967, to determine the Association's position with respect to this proceeding and that it needs the additional time to prepare its comments thereafter.

3. The notice in this proceeding was issued on July 10, 1967. NARS has not shown that the time allotted has not been sufficient for preparation of its comments. It is clear that NARS has an established policy with respect to the issues, and has not shown that it needs policy guidance thereon from the national convention. It is noted that the NARS convention has been scheduled well in advance and the Commission cannot be expected to schedule the flow of its rule making proceeding to accommodate industry association conventions, absent a good showing that new and otherwise unobtainable information would develop in such conventions.

4. Nor has Allied justified its request. The basic policy decision was to be made by its board of directors on August 11, 1967, and Allied has not shown that it needs more than a month thereafter to prepare and file its comments.

5. On the other hand, there is a need to conclude the instant proceeding as soon as possible because, among other reasons, there are pending applications to be disposed and there are a number of systems in operation for which future plans cannot be made until a decision in this matter is reached.

6. Accordingly, the requests of NARS and Allied are denied. However, the filing date will be extended for a period of two weeks to permit them to file their comments.

7. In view of the foregoing: *It is ordered*, That the time for filing comments in the above-captioned proceeding is extended from August 14, 1967, to August 28, 1967, and the time for filing reply comments from August 24, 1967, to September 7, 1967.

Adopted: August 14, 1967.

Released: August 15, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 67–9755; Filed, Aug. 17, 1967; 8:48 a.m.]

[1] Commissioner Cox dissenting; Commissioners Wadsworth and Johnson absent.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 424]

[No. 32464]

CARRIERS BY INLAND AND COASTAL WATERWAYS

Uniform System of Accounts

AUGUST 1, 1967.

Notice is hereby given pursuant to the provisions of section 4(a) of the Administrative Procedure Act that the Commission has under consideration proposed amendments of the Uniform System of Accounts for Carriers by Inland and Coastal Waterways, to be effective as of January 1, 1967, with regard to the accounting treatment of extraordinary and prior period items in the determination of net income.

The proposed regulations would (a) generally require that items affecting net income be recorded in appropriate profit and loss accounts, rather than by direct entry to retained income account, and (b) explain, definite, and provide accounts and categories for ordinary income, extraordinary items, prior period items, and applicable income taxes.

The revised rules herein proposed will have several notable advantages over current regulations which conditionally permit direct entry to retained income. Moreover, in asserting more objective criteria with respect to determination of materiality than presently exist, the proposed changes are intended to minimize the need to interpret existing regulations.

The detailed statement of proposed rule set forth below completely states the proposed revisions to the applicable parts of the Uniform System of Accounts for Carriers by Inland and Coastal Waterways, considered necessary to accomplish the stated objectives.

All carriers affected by the proposed rules and other interested parties who desire to do so should submit written views and comments for consideration, as soon as possible, and not later than September 15, 1967. The Commission will consider all such responses and representations before deciding this matter, after which such order as may be found appropriate will be entered. An original and three copies of any such response should be submitted.

Notice shall be given Carriers by Inland and Coastal Waterways hereby affected and to the general public by depositing this notice in the office of the Secretary of the Commission at Washington, D.C., and by filing this notice with the Director, Office of the Federal Register.

(Sec. 313, 54 Stat. 944, as amended; 49 U.S.C. 913)

By the Commission, Division 2.

[SEAL] H. NEIL GARSON,
Secretary.

DETAILED STATEMENT OF PROPOSED RULE

I. INSTRUCTIONS DELETED AND AMENDED

Item No. 1. Instruction "2 Definitions", is amended by adding the following after the last sentence of paragraph (k): "See instructions 3 and 4."

Item No. 2. Instruction "4 Delayed items and adjustments", is revised as follows:

4 Extraordinary and prior period items.

(a) All items of profit and loss recognized during the year are includible in ordinary income except nonrecurring items which in the aggregate for the same class are both material in relation to operating revenues and ordinary income for the year and are clearly not identified with or do not result from the usual business operations of the year. Important items of the kind which occur from time to time and which, when material in amount, are to be excluded from ordinary income are those resulting from unusual sales of property and investment securities other than temporary cash investments; from wars and similar calamities and catastrophes, which are not a recurrent hazard of the business and which are not usually covered by insurance; from change of accounting principles; and from prior period items (other than ordinary adjustments of a recurring nature). Material items are those which, unless excluded from ordinary income, would distort the accounts and impair the significance of ordinary income for the year. Items so excludible from ordinary income are to be entered directly in the income accounts provided for extraordinary and prior period items upon approval of the Commission.

Adjustments constituting items of customary business activities or corrections or refinements resulting from the natural use of estimates inherent in the accounting process, including those arising from disposal of a unit of property sold or retired in the regular course of business operations, shall not be considered extraordinary or prior period items regardless of size.

(b) In determining materiality, items of a similar nature should be considered in the aggregate; dissimilar items should be considered individually. As a general standard, an item to qualify for inclusion as an extraordinary or prior period item, shall exceed 1 percent of total water-line operating revenues and ten percent of ordinary income for the year.

(c) Ordinary delayed items and adjustments arising during the current year which are applicable to or related to transactions of prior years shall be included in the same accounts which would have been charged or credited had the item been taken up or adjusted in the period to which it pertained. Ordinary delayed items exclude items of the character described in paragraph (a).

Item No. 3. Instruction "11 Depreciation accounting" is amended by revising the last sentence of paragraph (e) and the text of paragraphs (f) and (g) as follows:

(e) * * * Any differences between the service value of the particular unit or item retired and the amount charged to account 150 shall be included in the appropriate income account.

(f) *Insurance recoverable.* When amounts are recoverable from insurance companies or chargeable to the insurance reserve in connection with retirement of depreciable property, the difference between the insurance recoverable and the net book value of the property (book cost less recorded depreciation) shall be included in the appropriate income account.

(g) *Inadequate or excessive balance.* A carrier may request, or the Commission may direct, that special accounting be applied in situations causing undue inflation or deflation of depreciation reserves. A carrier's request for special accounting shall contain full particulars concerning the situation, including the basis for its proposal. Alternative accounting techniques shall be applied to the extent approved or directed by the Commission.

Item No. 4. Instruction "23 Book cost of securities owned" is amended by revising the last sentence of paragraph (b) as follows:

(b) * * * The amount of such adjustment shall be charged to account 527, "Miscellaneous income charges", or account 570, "Extraordinary items", as appropriate.

Item No. 5. Instruction "27 Discount, premium, and expense on long-term debt" is amended by revising paragraph (d) as follows:

(d) Except as otherwise provided in this instruction, the balance in each account shall be carried until the reacquirement of the securities to which it relates at which time the proportion (based on the relation of the amount reacquired to the total outstanding before reacquirement) of the balance in the account for the particular class of long-term debt reacquired shall be closed to account 507, "Miscellaneous income", account 527, "Miscellaneous income charges", or account 570, "Extraordinary items", as appropriate.

Item No. 6. Instruction "44 Cost of construction" is amended by revising the second sentence of paragraph (g) as follows:

(g) * * * Such costs shall be included in the cost of the work in connection with which the injury or damage occurs, except that unusual losses that result in the destruction of units that have to be entirely replaced prior to completion of the projects shall be charged to account 525, "Losses from sale or disposition of property", or account 570, "Extraordinary items", as appropriate; * * *

Item No. 7. Instruction "47 Retirements and replacements" is amended by revising the last sentence of paragraph (b)(2), the last two sentences of paragraph (c) and all of paragraph (d) as follows:

(b) * * *

(2) * * * If retired property is held by the carrier for other than water-line service, its appraised value shall be included in account 160, "Noncarrier physical property", provided the appraised value shall not exceed the net book value (book cost less recorded depreciation) of such retired property.

(c) *Land retired.* * * * If the land is sold, the necessary adjustment between the book cost and the sale price shall be included in account 508, "Profits from sale or disposition of property", account 525, "Losses from sale or disposition of property", or account 570, "Extraordinary items", as appropriate. If the land is retained, the lesser of its appraised value or book cost shall be charged to account 160, "Noncarrier physical property", and the necessary adjustment included in account 525, or account 570, as appropriate.

(d) *Sale of property.* In case carrier or noncarrier depreciable property is sold or otherwise disposed of and the net proceeds realized, including insurance and salvage, are in excess of the net book value (book cost less recorded depreciation), such excess shall be credited to account 508, "Profits from sale or disposition of property", or account 570, "Extraordinary items", as appropriate.

Item No. 8. The text of instruction "52 Purpose of retained income account" is revised as follows:

52 Purpose of retained income account.

The retained income accounts are designed to show the changes in retained income during each calendar year as affected by the balance of the income account as reported for the period; by any disposition of retained income made solely at the option of the carrier; and, when authorized by the Commission, other items.

Item No. 9. Instruction "61 Purpose of income accounts" as amended by revising paragraphs (a) and (b) as follows:

The income accounts are designed to show as nearly as practicable for each calendar year the amount of money that a carrier becomes entitled to receive for transportation services rendered, the income accrued upon investments in securities and noncarrier property, the accrued costs payable for the transportation services rendered; the amounts accrued for taxes, for use of moneys, for use of properties of others, and for extraordinary and prior period items. See instruction 4.

II. TEXTS OF BALANCE SHEET ACCOUNTS DELETED AND AMENDED

Item No. 1; Account 115 Material and supplies. The text of this account is amended by revising paragraph (d) as follows:

(d) Reusable material recovered in connection with maintenance work or the demolishing of fixed improvements or equipment shall be charged to this account at amounts not to exceed cost, estimated if not known. Scrap and nonusable materials shall be carried at estimated salvage value; when sold or disposed of, the difference between proceeds and recorded values shall be adjusted (as far as practicable) through the accounts which were credited when the material was recovered and taken into this account.

Item No. 2; Account 147 Land. The text of this account is amended by revising paragraph (b) as follows:

(b) Proceeds from the sale of timber, mineral deposits or improvements purchased with land, less the cost of removal, shall be credited to this account up to the amount of the purchase price allocated as their cost. Any excess shall be credited to account 507, "Miscellaneous income", or, when qualifying as extraordinary pursuant to instruction 4, shall be included in account 570, "Extraordinary items".

Item No. 3; Account 150 Depreciation reserve; transportation property. The text of this account is amended by revising the second sentence of paragraph (a) as follows:

(a) * * * It shall also include other entries which may be authorized by the Commission; see instruction 11. * * *

Item No. 4; Account 161 Depreciation reserve; noncarrier physical property. The text of this account is amended by revising the last sentence of paragraph (b) as follows:

(b) * * * In case the net proceeds realized, including insurance and salvage, are in excess of the net book value (book cost less recorded depreciation), such excess shall be credited to account 508, "Profits from sale or disposition of property", or account 570, "Extraordinary items", as appropriate.

Item No. 5; Account 174 Debt discount and expense. The text of this account is amended by revising paragraph (b) as follows:

(b) When an issue of debt securities, or any part thereof, is refunded and at the date of refunding there is a balance of unamortized discount and expense relating thereto, such amount, together with any premium paid in retiring the debt, shall be charged to account 527, "Miscellaneous income charges", or account 570, "Extraordinary items", as appropriate.

Item No. 6; Account 175 Other deferred debits. The text of paragraph (a) of this account is amended by revising the third tabulated item as follows:

Balance in account 601, "Material and stores expenses";

Item No. 7; Account 190 Reacquired and nominally issued long-term debt. The text of this account is amended by revising paragraph (b) as follows:

(b) The difference between the par value of long-term debt and the amount paid therefor, including commissions and expenses in connection with its reacquisition and the portion of unamortized premium, discount, and expense relating to the long-term debt reacquired shall be included in account 507, "Miscellaneous income", account 527, "Miscellaneous income charges", or account 570, "Extraordinary items", as appropriate.

Item No. 8; Account 231 Premium on long-term debt. The text of this account is amended by revising paragraph (b) as follows:

(b) When an issue of debt securities, or any part thereof, is refunded and at the date of refunding there is a balance of unamortized premium relating thereto, such amount shall be credited to account 507, "Miscellaneous income", or account 570, "Extraordinary items", as appropriate.

Item No. 9; Account 232 Other deferred credits. The text of paragraph (a) of this account is revised by deleting the second tabulated item.

Item No. 10; Account 280 Retained income—unappropriated. The text of this account is amended by revising paragraph (b) as follows:

(b) The balance of all retained income accounts (281 to 287, inclusive) shall be closed into this account at the end of each calendar year.

Item No. 11. The system of accounts, following the caption "Retained Income Accounts", is revised by deleting the following account numbers, titles and texts:

282 Profits from unusual sales of property.
284 Losses from unusual sales of property.
288 Federal income taxes assigned to retained income.

Item No. 12; Account 283 Miscellaneous credits. The text of this account is revised as follows:

283 Miscellaneous credits.

This account shall include other credit adjustments, net of assigned income taxes, not provided for elsewhere in this system, but only after such inclusion has been authorized by the Commission.

Item No. 13; Account 285 Miscellaneous debits. The text of this account is revised as follows:

285 Miscellaneous debits.

(a) This account shall include losses from resale of reacquired capital stock, and charges which reduce or write off discount on capital stock issued by the company, but only to the extent that such charges exceed credit balances in paid-in surplus for shares reacquired.

(b) This account shall also include other debit adjustments, net of assigned income taxes, not provided for elsewhere in this system, but only after such inclusion has been authorized by the Commission.

III. TEXTS OF INCOME ACCOUNTS REVISED AND AMENDED

Item No. 1; Account 504 Interest income. The text of this account is amended by revising the last sentence of paragraph (b) as follows:

(b) * * * Any discount or premium remaining unextinguished upon the maturity and satisfaction of such securities shall be cleared to account 507, "Miscellaneous income", or to account 527, "Miscellaneous income charges", as appropriate.

Item No. 2; Account 507 Miscellaneous income. The list of items following the text of this account is revised as follows:

ITEMS

1. Profits from sale of securities, including temporary cash investments.
2. Proceeds from the sale of timber or improvements purchased with the land, or mineral deposits, in excess of the cost thereof including cost of recovery.
3. Credits resulting from adjustments required to bring to par long-term obligations issued or assumed by the carrier and reacquired at a cost less than par value.
4. Unamortized premium on long-term debt reacquired before maturity.
5. Profits derived from conversion of money of a foreign country into U.S. money.
6. Fees collected in connection with the exchange of coupon bonds for registered bonds.
7. Cancellation of liability accounts (including unclaimed wages) or erroneous collections (except unrefundable revenue overcharges) written off because of carrier's inability to locate the creditor or payee.
8. Recovery of fines previously charged to account 527, "Miscellaneous income charges".
9. Remittances received from anonymous sources.

When the profits, proceeds or adjustments resulting from any of the first four items are of amounts sufficiently large to constitute extraordinary items, pursuant to instruction 4, such profits, proceeds or adjustments shall be credited to account 570, "Extraordinary items".

Item No. 3; Account 508 Profits from sale or disposition of property. The text of this account is amended by deleting the last sentence and adding the following new paragraph:

When the profit from the sale of carrier and noncarrier property is of an amount sufficiently large to constitute an extraordinary item, pursuant to instruction 4, such profit shall be credited to account 570, "Extraordinary items".

Item No. 4; Account 525 Losses from sale or disposition of property. The text of this account is amended by deleting the last sentence and adding the following new paragraph:

When the loss from the sale of carrier and noncarrier property is of an amount sufficiently large to constitute an extraordinary item, pursuant to instruction 4, such loss shall be charged to account 570, "Extraordinary items".

Item No. 5; Account 527 Miscellaneous income charges. The list of items following the text of this account is revised as follows:

ITEMS OF EXPENSE

1. Losses resulting from revaluation or sale of securities of others held as investments.
2. Debits resulting from adjustments required to bring to par long-term debt obligations issued or assumed by the carrier and reacquired at a cost exceeding par value.
3. Unextinguished discounts and expenses on funded debt reacquired before maturity.
4. Loss on funds due to bank failures.
5. Book cost (in excess of reserve provisions) of improvements on leased property at time of reversion to lessor.
6. Payments of liabilities previously written off.
7. Penalties and fines for violations of the Interstate Commerce Act, and other Federal or state laws, when not specifically provided for elsewhere.
8. Calls for bids in accordance with provisions of mortgages.
9. Cost of advertising bonds drawn for redemption.
10. Losses due to conversion of money of a foreign country into U.S. money.
11. Premiums on bonds to assure performance of agreements when chargeable to income accounts.
12. Taxes on interest on carrier's funded debt paid at the source under tax-free covenants.
13. Trusts, current expenses of maintaining and administering.
14. Trustee's commissions and fees for paying out bond interest and expense including registrars' fees connected with such payments.

When the losses or adjustments resulting from any of the first four items are of amounts sufficiently large to constitute extraordinary items, pursuant to instruction 4, such losses or adjustments shall be charged to account 570, "Extraordinary items".

Item No. 6; Account 532 Income taxes. The title, text and note following the text of this account are revised as follows:

532 Income taxes on ordinary income.

(a) This account shall include accruals for Federal and state income taxes, when not in lieu of a property tax, applicable to ordinary income. See the texts of account 590, "Income taxes on extraordinary and prior period items", account 283, "Miscellaneous credits", and account 285, "Miscellaneous debits", for recording other income tax consequences.

Details pertaining to the tax consequences of other unusual and significant items, and also cases where tax consequences are disproportionate to related amounts included in income accounts, shall be submitted to the Commission for consideration and decision as to proper accounting.

(b) Federal income taxes which are refundable or reduced as the result of a carry-back or carry-forward of operating loss shall be credited to this account, if a carry-back, in the year in which the loss occurs, or if a carry-forward, in the year in which such loss is applied to reduce taxes. However, when the amount constitutes an extraordinary item pursuant to instruction 4, it shall be included in account 580, "Prior period items".

Item No. 7. The system of accounts, following the text of account 532, "Income taxes on ordinary income", is amended by adding the following caption, account numbers, titles and texts:

EXTRAORDINARY AND PRIOR PERIOD ITEMS

570 Extraordinary items (net).

(a) This account shall include extraordinary items accounted for during the current accounting year in accordance with the text of instruction 4, upon approval of the Commission. Among the items which shall be included in this account are:

Net gain or loss on sale of (a) property and equipment, or (b) timber, mineral deposits or improvements purchased with land.
Net gain or loss on sale of securities acquired for investment purposes, and charges to write down the ledger value of such securities because of impairment of value.
Changes in application of accounting principles.

(b) Income tax consequences of charges and credits to this account shall be recorded in account 590, "Income taxes on extraordinary and prior period items".

(c) This account shall be maintained in a manner sufficient to identify the nature and gross amount of each debit and credit.

580 Prior period items (net).

(a) This account shall include unusual delayed items accounted for during the current accounting year in accordance with the text of instruction 4, upon approval of the Commission. Among the items which shall be included in this account are:

Unusual adjustments, refunds, or assessments of Federal income taxes of prior years.
Similar items representing transactions of prior years which are not identifiable with or do not result from business operations of the current year.

(b) Income tax consequences of charges and credits to this account shall be recorded in account 590, "Income taxes on extraordinary and prior period items".

(c) This account shall be maintained in a manner sufficient to identify the nature and gross amount of each debit and credit.

590 Income taxes on extraordinary and prior period items.

This account shall include the estimated income tax consequences (debit or credit) assignable to the aggregate of items of both taxable income and deductions from taxable income which, for accounting purposes, are classified as "unusual and extraordinary", and are recorded in accounts 570, "Extraordinary items", and 580, "Prior period items".

IV. INCOME STATEMENT AMENDED

Item No. 1; Form of income statement. This caption is designated 599 Form of Income Statement.

Item No. 2. The following centered caption is added after the opening paragraph, above "I. Water-line operating income":

ORDINARY ITEMS

Item No. 3. Under "III. Miscellaneous deductions from income:", after "Total income deductions", the line item "Net income before fixed charges [1]" is revised as follows:

Ordinary income before fixed charges [1]_____

Item No. 4. Under "IV. Fixed charges:", after "Total fixed charges", the line item "Net income before provision for income taxes" is revised as follows:

Ordinary income before provision for income taxes [1] _____

Item No. 5. After "V. Provision for income taxes:" all line items are deleted and the following are added:

532. Income taxes on ordinary income_____
Ordinary income [1]_____

EXTRAORDINARY AND PRIOR PERIOD ITEMS [1]

570. Extraordinary item (net)_____
580. Prior period items (net)_____
590. Income taxes on extraordinary and prior period items_____
Total extraordinary and prior period items_____
Net income [1]_____

V. MISCELLANEOUS AMENDMENTS

Item No. 1. The list of instructions, accounts and financial statements is amended to the following extent:

(a) The title of instruction "4 Delayed items and adjustments" is changed to:

4 Extraordinary and prior period items.

(b) The number "299" is prefixed to "Form of balance sheet statement."

(c) The following account numbers and titles are deleted:

262 Profits from unusual sales of property.
264 Losses from unusual sales of property.
268 Federal income taxes assigned to retained income.

(d) The caption "Ordinary Items" is added directly below "Income Accounts."

(e) The number "399" is prefixed to Condensed Revenue Accounts for Small Carriers.

(f) The number "499" is prefixed to Condensed Expense Accounts for Small Carriers.

(g) The title of "532 Income taxes" is changed to:

532 Income taxes on ordinary income.

(h) The following caption and line items are added after "532 Income taxes on ordinary income":

EXTRAORDINARY AND PRIOR PERIOD ITEMS

570 Extraordinary items (net).
580 Prior period items (net).
590 Income taxes on extraordinary and prior period items.

(i) The number "599" is prefixed to "Form of Income Statement."

Item No. 2. In the system of accounts, following the text of account 280, "Retained income—unappropriated", and below "Balance Sheet Statement", the following account number and title are added:

299 Form of balance sheet statement.

Item No. 3. After the note following the text of account 287, "Dividend appropriations of retained income", below caption "Income Accounts", the following caption is added:

ORDINARY ITEMS

Item No. 4. In the system of accounts, following the text of account 355, "Interdepartmental credits", and below the caption "Small carriers", the following account number and title are added:

399 Condensed revenue accounts for small carriers.

Item No. 5. In the system of accounts, following the text of account 495, "Interdepartmental debits", and below the caption "Small Carriers", the following account number and title are added:

499 Condensed expense accounts for small carriers.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[Bureau Order No. 551, Amdt. 111]

CENTRAL OFFICE PERSONNEL AND AREA DIRECTORS

Delegation of Authority

AUGUST 10, 1967.

Order 551 (an order by which the Commissioner of Indian Affairs delegates authority to Bureau officials), as amended, is further amended as hereinafter indicated:

1. In section 2, paragraph (a) is revised to include the Director of Administration and the Director of Engineering among those officials authorized to exercise, within the scope of their functional responsibilities, any and all authority conferred upon the Commissioner of Indian Affairs by the Secretary of the Interior. As so revised, section 2 reads as follows:

SEC. 2. *Authority of Central Office personnel.* (a) The Deputy Commissioner may exercise any and all authority conferred upon the Commissioner of Indian Affairs by the Secretary of the Interior. The Assistant Commissioners, the Director of Administration, the Director of Engineering, and those persons designated to act in their place during their absence may exercise, within the scope of their functional responsibilities, any and all authority conferred upon the Commissioner of Indian Affairs by the Secretary of the Interior.

* * * * *

2. In section 3, paragraph (b) is revised to delete the language therein concerning the execution of contracts, as all authority with respect to the function referred to by that language is contained in Order 566. As so revised, section 3 reads as follows:

SEC. 3. *Authority of Area Directors.*

* * * * *

(b) The Assistant Area Director and the Area Administrative Officer under the general direction and supervision of the Area Director may severally exercise all the power and authority of the Area Director.

* * * * *

ROBERT L. BENNETT,
Commissioner.

Bureau of Land Management

[N-1519]

NEVADA

Notice of Proposed Withdrawal and Reservation of Lands

AUGUST 10, 1967.

The Atomic Energy Commission has filed the above application for the withdrawal of the lands described below, from all forms of appropriation under the public land laws, including permits or leases under the Taylor Grazing Act and the mining and mineral leasing laws.

The applicant desires the land for the location of a seismic instrumentation station in connection with underground nuclear detonations.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Room 3008, Federal Building, 300 Booth Street, Reno, Nev.

The Department's regulations (43 CFR 2311.1-3(c)) provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

MOUNT DIABLO MERIDIAN, NEVADA

T. 30 N., R. 42 E.,
A parcel of land in unsurveyed sec. 35 more particularly described as follows:
Beginning at the corner common to secs. 26, 27, 34, 35;
Thence S. 89°56'52" E., 2,152.76 feet, to a point on the south section line of sec. 26;
Thence S. 0°57'57" W., approximately 1,655 feet, along the center line of Sierra Pacific Power Co.'s right-of-way to power pole No. 45088;
Thence S. 0°57'57" W., 56.4 feet, to a point on the center line of said right-of-way;
Thence S. 89°3'3" E., 20 feet, to corner No. 1, the true point of beginning;
Thence N. 0°57'57" E., 200 feet, to corner No. 2;
Thence S. 89°3'3" E., 200 feet, to corner No. 3;
Thence S. 0°57'57" W., 200 feet to corner No. 4;
Thence N. 89°3'3" W., 200 feet, to corner No. 1, the true point of beginning.

The area described contains 0.91 acres.

ROLLA E. CHANDLER,
Land Office Manager.

Fish and Wildlife Service

[Docket No. C-372]

RALPH WALTER HAZARD

Notice of Loan Application

AUGUST 14, 1967.

Ralph Walter Hazard, 212 Mohawk Road, Santa Barbara, Calif. 93105, has applied for a loan from the Fisheries Loan Fund to aid in financing the purchase of a used 45.1-foot, registered length wood vessel to engage in the fishery for sole, hake, rockfishes, lingcod, California halibut, shrimp, pompano, perch, and sablefish.

Notice is hereby given pursuant to the provisions of Public Law 89-85 and Fisheries Loan Fund Procedures (50 CFR Part 250, as revised Aug. 11, 1965) that the above entitled application is being considered by the Bureau of Commercial Fisheries, Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, Bureau of Commercial Fisheries, within 30 days from the date of publication of this notice. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operations of the vessel will or will not cause such economic hardship or injury.

J. L. MCHUGH,
Acting Director,
Bureau of Commercial Fisheries.

CIVIL AERONAUTICS BOARD

[Docket No. 18387; Order No. E-25524]

ANTILLES AIR BOATS, INC.

Order Granting Exemption

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 14th day of August 1967.

Application of Antilles Air Boats, Inc., for an exemption from the maximum takeoff weight limitation of Part 298 of the Economic Regulations.

On June 30, 1967, Antilles Air Boats, Inc. (Antilles), filed a petition in Docket 18387 for reconsideration of Order E-25287, adopted June 13, 1967, which denied Antilles' application requesting exemption authority to operate a 47-passenger VS-44A Sikorsky Seaplane between the harbors of Charlotte Amalie, St. Thomas, and Christiansted, St. Croix, U.S. Virgin Islands, and between the harbors of Charlotte Amalie, St. Thomas, and Old San Juan, Puerto Rico. Antilles requests reconsideration only insofar as that order denies Antilles an exemption to the extent necessary to permit it to operate a VS-44A seaplane between the harbors of Charlotte Amalie, St. Thomas, and Christiansted, St. Croix.

In support of its petition for reconsideration, Antilles alleges in pertinent part that airboats serve the public convenience and necessity between St. Thomas and St. Croix in a way that is impossible for land-based, airport-bound aircraft. A passenger's transit time between Charlotte Amalie and Christiansted is 25 minutes by airboat, compared with 2 hours by land plane including ground transportation. The carrier also states that such commuter scheduling and commuter convenience between the downtown harbors of the two principal cities, with their community of interest in government and commerce, is a "needed service" which the certificated carriers, Pan American World Airways, Inc. (PAA), and Caribbean Atlantic Airways, Inc. (Caribair), do not, and are unwilling or unable to provide. Antilles points out that neither PAA nor Caribair provides turnaround service, so that there is no reliability regarding the number of seats which will be available on each local flight and reliability of departure times is diminished by mechanical failures, weather conditions, and airport congestion in other places. In addition, Antilles alleges that the flight times of PAA and Caribair are not appropriate for commuting between the two islands. Finally, Antilles notes that the use of the 47-passenger seaplane to relieve congestion in commuter hours is absolutely necessary for it to meet the service demands which the public has placed on it; otherwise, the multiple-aircraft operations which it would have to undertake, with flights a few minutes apart, would put ramp facilities beyond saturation, causing delays and degradation of service.

The government of the U.S. Virgin Islands filed an answer supporting Antilles' petition. Caribair filed an answer opposing Antilles' petition on the grounds that the petition alleges no new facts or circumstances that were not previously considered by the Board and that Antilles has not presented an estimate of the feasibility of its proposed service.

Upon consideration of the pleadings and all relevant facts, we have decided, on reconsideration, to grant Antilles exemption authority to the extent necessary to permit it to operate one 47-passenger VS-44A seaplane between the harbors of Charlotte Amalie, St. Thomas, and Christiansted, St. Croix. Antilles' harbor-to-harbor proposal is, in our judgment, a highly specialized and distinctive service which will provide significant benefits to the traveling public in the St. Thomas-St. Croix market. The nonstop distance between St. Thomas and St. Croix is 46 miles with the airport at St. Thomas being 2 miles from the main city of Charlotte Amalie while the airport at St. Croix is on the opposite side of the island, 9 miles from the city of Christiansted. Antilles will use the downtown harbors of the two cities and thus will provide a convenience not available from the airport to airport operations. Antilles presently operates 19 round-trip turnaround flights harbor-to-harbor daily in this market and is the principal carrier. The limited authority requested herein will merely permit Antilles to improve its service in a market in which it is already the dominant carrier. Finally, we note that neither PAA nor Caribair, the certificated carriers in this market, provide turnaround service such as Antilles presently provides and would improve with the authority requested herein. In sum, we think the unique convenience of turnaround scheduling of harbor-to-harbor service in this market is of such benefit to the traveling public that the grant of this limited exemption to Antilles to improve its present service is warranted.[1]

In reaching its conclusion, the Board has taken into account the limited nature of the request and the relatively small size of the applicant's operations as considerations which warrant use of its exemption power. To require the applicant to engage in a certification proceeding in order to conduct the service authorized herein would subject it to a financial burden wholly disproportionate to its operations, and would be an undue burden on the carrier and not in the public interest.

Upon consideration of the foregoing, the Board finds that the enforcement of section 401 of the Act and Part 298 of the Board's Economic Regulations, insofar as they would otherwise prevent Antilles from engaging in the air transportation hereinafter permitted, would be an undue burden on Antilles by reason of the limited extent of, and unusual circumstances affecting, its operations, and is not in the public interest.

Accordingly, it is ordered:

1. That Antilles Air Boats, Inc., be and it hereby is temporarily exempted from provisions of section 401 of the Federal Aviation Act of 1958, as amended, and Part 298 of the Board's Economic Regulations to the extent necessary to permit Antilles to operate a 47-passenger VS-44A seaplane between the harbors of Charlotte Amalie, St. Thomas, and Christiansted, St. Croix: *Provided:* That in the conduct of the service authorized herein Antilles shall be deemed an air taxi operator within the meaning of Part 298 of the Board's Economic Regulations, and shall comply with and be subject to the provisions of said part;

2. That within 10 days of the effective date of the exemption granted herein, Antilles shall comply with the insurance requirements of §§ 208.11–208.13 of the Economic Regulations with respect to any air transportation performed pursuant to this order; and certificates of insurance reflecting compliance with this requirement throughout the effectiveness of this exemption authority shall be filed in this docket by Antilles; and

3. That this order may be amended or revoked at any time in the discretion of the Board without hearing.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

[F.R. Doc. 67-9742; Filed, Aug. 17, 1967; 8:47 a.m.]

[1] Our limited award to Antilles will not, however, have any impact on or in any way prejudice our decision in the Puerto Rico-Virgin Islands Service Case, Docket 14643. Unlike the Virgin Islands Case proposals, Antilles operates a totally different harbor-to-harbor service, and, in addition, the proposals in the certificate proceeding do not involve turnaround service.

[Docket No. 17286]

BRITISH EAGLE INTERNATIONAL AIRLINES, LTD.

Notice of Oral Argument

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that oral argument in the above-entitled proceeding is assigned to be held on September 6, 1967, at 10 a.m., e.d.s.t., in Room 1027, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., before the Board.

Dated at Washington, D.C., August 15, 1967.

In re applications of K.C.O.D. Broadcasting Corp., Springfield, Mo., requests: 97.3 mc, No. 247; 49.4 kw; 190 feet, Docket No. 17637, File No. BPH-5643; Baptist Bible College, Springfield, Mo., requests: 97.3 mc, No. 247; 100 kw (horizontal), 100 kw (vertical); 481.85 feet, Docket No. 17638, File No. BPH-5686; for construction permits.

1. The Commission has under consideration the above captioned and described applications which are mutually exclusive in that operation by the applicants as proposed would result in mutually destructive interference.

2. From the information in its application, K.C.O.D. Broadcasting Corp. requires a total of $53,161 to construct and operate for 1 year without revenue. To meet this requirement it shows $27,800 in pledges. Adequate substantiation, however, has not been provided for the additional amount anticipated from first-year revenues. Accordingly, an issue will be specified to determine the availability of the additional $25,361 required.

3. Information submitted in the K.C.O.D. Broadcasting Corp. application does not provide a basis for determining what steps, if any, have been taken to ascertain the programing needs and interests of Springfield and the proposed service area. A mere statement of long-time residence in the area is inadequate for this purpose, and a "Suburban" issue against K.C.O.D. Broadcasting Corp. will be specified.

4. Although both applicants propose specialized programing, comparison of the programing proposals is not appropriate since both propose predominantly religious programing. Since both applicants are silent on the matter, issues will be specified to determine whether the proposed facilities would be available for the presentation of views of other religious groups—see George E. Borst et al., FCC 65-207, 4 RR 2d 697 (1965).

5. Data submitted by the applicants indicate that there would be a significant difference in the size of the areas and populations which would receive service from the proposals. Consequently, for the purposes of comparison, the areas and populations within the 1 mv/m contours together with the availability of other FM services of 1 mv/m or greater intensity in such areas will be considered under the comparative issue, for the purpose of determining whether a comparative preference should accrue to either of the applicants.

6. Except as indicated below, the applicants are qualified to construct and operate as proposed. However, because of their mutual exclusivity, the Commission is unable to make the statutory finding that a grant of the applications would serve the public interest, convenience and necessity, and is of the opinion that the applications must be designated for hearing on the issues set forth below.

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine whether K.C.O.D. Broadcasting Corp. has available to it the additional $25,361 required to construct and operate for 1 year without revenue

and thus demonstrate its financial qualifications.

2. To determine K.C.O.D. Broadcasting Corp.'s efforts to ascertain the programing needs and interests of the area to be served and the manner in which K.C.O.D. Broadcasting Corp. proposes to meet such needs and interests.

3. To determine whether and under what circumstances the facilities proposed by K.C.O.D. Broadcasting Corp. would be available for the presentation of programs by other religious groups.

4. To determine whether and under what circumstances the facilities proposed by Baptist Bible College, Inc., would be available for the presentation of programs by other religious groups.

5. To determine which of the proposals would better serve the public interest.

6. To determine, in the light of the evidence adduced pursuant to the foregoing issues which, if either, of the applications should be granted.

It is further ordered, That to avail themselves of the opportunity to be heard, the applicants, pursuant to § 1.221 (c) of the Commission's rules, in person or by attorney shall, within twenty (20) days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: August 2, 1967.

Released: August 15, 1967.

LOCKHEED AIRCRAFT CORP. AND JIMSAIR, INC.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Lockheed Aircraft Corp., Burbank, Calif., Docket No. 17650, File No. 106-A-L-47; Jimsair, Inc., San Diego, Calif., Docket No. 17651, File No. 26-A-L-47; for Aeronautical Advisory Station to serve the San Diego International Airport, San Diego, Calif.

1. The Commission's rules (§ 87.251 (a)) provide that only one aeronautical advisory station may be authorized to operate at a landing area. The above-captioned applications both seek Commission authority to operate an aeronautical advisory station at the San Diego International Airport, San Diego, Calif., and, therefore, are mutually exclusive. Inasmuch as the applications are mutually exclusive, it is necessary to designate the applications for hearing. Except for the issues specified herein each applicant is otherwise qualified.

2. In view of the foregoing: *It is ordered*, That pursuant to the provisions of section 309(e) of the Communications Act of 1934, as amended, that the above-captioned applications are hereby designated for hearing in a consolidated proceeding at a time and place to be specified in a subsequent order on the following issues:

(a) To determine which applicant would provide the public with better aeronautical advisory service based on the following considerations:

(1) Location of the fixed-base operation and proposed radio station in relation to the landing area and traffic patterns;

(2) Hours of operation;

(3) Personnel available to provide advisory service;

(4) Experience of applicant and employees in aviation and aviation communications;

(5) Ability to provide information pertaining to primary and secondary communications as specified in § 87.257 of the Commission's rules;

(6) Proposed radio system including control and dispatch points; and

(7) The availability of the radio facilities to other fixed-base operators.

(b) To determine in light of the evidence adduced on the foregoing issues which, if either, of the applications should be granted.

3. *It is further ordered*, That to avail themselves of an opportunity to be heard Lockheed Aircraft Corp. and Jimsair, Inc., pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this order file with the Commission, in triplicate, a written appearance stating an intention to appear on the date set for hearing and present evidence on the issues specified in this order.

Adopted: August 9, 1967.

Released: August 15, 1967.

[Docket Nos. 17656-17658; FCC 67-950]

MONTANA NETWORK ET AL.

Memorandum Opinion and Order; Designating Applications for Consolidated Hearing on Stated Issues

In re applications of: The Montana Network, Lewistown, Mont., Docket No. 17656, File No. BPTTV-2738; Crain-Snyder Television, Inc., Lewistown, Mont., Docket No. 17657, File No. BPTTV-2742; Snyder & Associates, Inc., Lewistown, Mont., Docket No. 17658, File No. BPTTV-2807; for Construction Permits for New VHF Television Broadcast Translator Stations.

1. The Commission has before it for consideration the above-captioned applications, each requesting a construction permit for a new 100-watt VHF television broadcast translator station to operate on assigned Channel 13 in Lewistown, Mont. The Montana Network (BPTTV-2738) proposes to rebroadcast its Station KOOK-TV, Channel 2, Billings, Mont. (CBS, ABC); Crain-Snyder Television, Inc. (BPTTV-2742), proposes to rebroadcast its Station KULR-TV, Channel 8, Billings, Mont. (NBC); and Snyder & Associates (BPTTV-2807) proposes to rebroadcast its Station KRTV, Channel 3, Great Falls, Mont. (NBC). Lewistown is not within the predicted Grade B contour of any television broadcast station. Television service is provided to the community by two community-type UHF translator stations licensed to Central Montana TV Association[1] and a community antenna television (CATV) system operated by Perfect TV, serving approximately 1,900 subscribers.[2]

2. The three applications before us each specifies operation on output Channel 13, which is an assigned and unused channel allocated in the Television Table of Assignments (§ 73.606 of the Commission's rules) with power of 100 watts, pursuant to § 74.702(g) of the Commission's rules. They are, therefore, mutually exclusive in that operation by the applicants as proposed would result in mutually destructive interference. Prior to the Commission's authorization of high power translators operating on assigned but unused television broadcast channels,[3] problems of mutual exclusivity between translators were rare and caused little concern to the Commission. This case is the first where we have been required to designate the applications for hearing and we believe that it would be appropriate at this time to state our policy in handling mutually exclusive applications for facilities such as these.

3. Mutually exclusive applications for 100-watt translators on assigned channels present two unique problems. First, it is difficult to frame issues for a hearing which will provide a realistic basis for decision because the Commission's usual comparative criteria have been developed in contests between applicants for stations capable of local program origination. Here, however, there appears to be little basis upon which the proposals may be meaningfully compared. The second problem is that a hearing would tend to defeat the Commission's purposes in authorizing high power translators on assigned channels because the Commission intended to provide a simple and inexpensive means of utilizing unused television channels in order to provide early television service to small markets until such time as regular television broadcast stations could be authorized on the channels. If the early inauguration of new television broadcast service were to be delayed because of a comparative hearing for the translators, this purpose would be largely defeated.

4. The persons most concerned with the early inauguration of the proposed new television translator service are, of course, the residents of the area to be served. In making our comparative evaluation, we will consider such factors as the television service presently available off-the-air (i.e., for which of the competing services is there the greatest need), the extent to which the competing applicants would meet the local tastes, needs and interests of the community, and the extent to which each of the applicants would offer the prospect of eventual operation of a regular television broadcast station on the channel. We will give great weight to the expressed preferences of the local residents and we intend to afford the applicants wide latitude in the evidence which may be offered.

5. We find each of the applicants qualified to construct, own and operate the proposed new television broadcast translator station. The applications are, however, mutually exclusive and the Commission is therefore unable to make the statutory finding that grant of the applications would serve the public interest, convenience, and necessity and is of the opinion that the applications must be designated for hearing in a consolidated proceeding upon the issues set forth below. In view of the unusual nature of this proceeding; i.e., a comparative hearing on television translator applications, and in order to minimize the delay inherent in a comparative proceeding, we direct the examiner and the applicants to explore every possibility for the submission of the case in written form, including the use of a stipulated statement of the facts and of the testimony and other evidence with respect to the issues specified herein.

Accordingly, it is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the above-captioned applications of the Montana Network, Crain-Snyder Television, Inc., and Snyder & Associates, Inc., are designated for hearing in a consolidated proceeding upon the following issues:

1. To determine, on a comparative basis, which of the proposals would best meet the programing tastes, needs and interests of the community.

2. To determine which of the applicants offers the best prospect for eventual construction and operation of a regular television broadcast station on the channel in Lewistown.

3. To determine which of the proposals would best serve the public interest.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

It is further ordered, That the hearing hereby ordered shall be held at a time and before a hearing examiner to be specified in a subsequent order.

It is further ordered, That this proceeding shall be expedited to the extent possible consistent with requirements of procedural due process.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) off the Commission's rules, in person or by attorney, shall, within twenty (20) days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: August 9, 1967.

Released: August 15, 1967.

VOICE OF THE NEW SOUTH, INC. (WNSL)

Order Designating Application for Hearing on Stated Issues

In re application of Voice of the New South, Inc. (WNSL), Laurel, Miss., has: 1260 kc, 5 kw, day, requests: 1260 kc, 500 w, 5 kw-LS, DA-N, U, Docket No. 17634, File No. BP-16819, for construction permit.

1. The Commission has before it for consideration the above application seeking nighttime operation for Station WNSL.

2. According to the applicant's data, the proposed RSS nighttime limitation contour (21.67 mv/m) would cover only about 60 percent of the city of Laurel. Thus, the proposal does not meet the requirements § 73.30(c) of the Commission's rules. In its latest amendment, the applicant requested a waiver of that section, alleging, inter alia, that the proposal would provide a first primary nighttime service to 2,681 persons residing in an area of 0.73 square mile within the city limits of Laurel (population 27,889) and a first primary nighttime service to rural areas (16.22 square miles) having a population of 875.

3. The Commission has carefully considered the grounds and data submitted in support of the waiver request, but is

[1] Commissioners Bartley, Loevinger, and Wadsworth absent.

[1] Commissioners Loevinger, Johnson, and Wadsworth absent.

[1] Station K70CK, rebroadcasting Station KFBB-TV, Channel 5, Great Falls, Mont (ABC, CBS), and Station K74BL, rebroadcasting Station KULR-TV, Channel 8, Billings, Mont. (NBC), Crain-Snyder Television's Station KULR-TV is, therefore, presently carried in Lewistown by translator.

[2] According to the Commission's information, this is a five-channel system carrying Stations KOOK-TV and KRTV by off-the-air pickup and four Salt Lake City, Utah, stations by microwave relay; KCPX-TV, Channel 4 (ABC); KSL-TV, Channel 5 (CBS); and KUTV, Channel 2 (NBC) and KUED, Channel 7, on a shared basis. The Montana Network and Snyder & Associates stations are, therefore, presently available in Lewistown by the CATV system.

[3] Report and order in Docket No. 15858, 1 FCC 2d 15, 5 RR 2d 1702.

[4] Commissioners Loevinger, Johnson, and Wadsworth absent.

unable at this time to conclude that a waiver would serve the public interest, and is of the opinion that the matter should be fully explored in an evidentiary hearing.

4. In view of the foregoing, the Commission is unable to make the statutory finding that a grant of the subject application would serve the public interest, convenience, and necessity, and is of the opinion that the application must be designated for hearing on the issues set forth below.

Accordingly, it is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operation of Station WNSL and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation of Station WNSL meets the requirements of § 73.30(c) of the Commission's rules, and, if not, whether circumstances exist which would warrant a waiver of said section.

3. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether a grant of the application would serve the public interest, convenience and necessity.

It is further ordered, That, to avail itself of the opportunity to be heard, the applicant herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicant herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: August 2, 1967.

Released: August 14, 1967.

[70-4524]

DELMARVA POWER & LIGHT CO.

Notice of Proposed Issue and Sale of First Mortgage and Collateral Trust Bonds at Competitive Bidding

AUGUST 14, 1967.

Notice is hereby given that Delmarva Power & Light Co. ("Delmarva"), 600 Market Street, Wilmington, Del. 19899, a registered holding company and a public-utility company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating sections 6 and 7 of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Delmarva proposes to issue and sell, subject to the competitive bidding requirements of Rule 50, $25 million principal amount of first mortgage and collateral trust bonds, ——% series due September 1, 1997. The interest rate (which shall be a multiple of one-eighth of 1 percent) and the price to Delmarva, exclusive of accrued interest (which shall be not less than 100 percent nor more than 102.75 percent of the principal amount thereof), for the bonds will be determined by the competitive bidding. The bonds will be issued under a mortgage and deed of trust, dated October 1, 1943, between Delmarva and the Chemical Bank New York Trust Co., trustee, as heretofore supplemented and as to be further supplemented by a 34th supplemental indenture to be dated September 1, 1967.

Delmarva will apply the proceeds from the sale of bonds toward the cost of its own construction program and that of its subsidiary companies including the payment of short-term notes due banks issued for construction purposes prior to such sale. The system construction program during 1967 and 1968 is estimated at $73,288,000.

It is represented that the issuance of the bonds is subject to the approval of The Public Service Commission of Delaware and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. A statement of the fees and expenses to be incurred by Delmarva in connection with the sale of the bonds will be supplied by amendment.

Notice is further given that any interested person may, not later than September 5, 1967, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS, *Secretary.*

HAMILTON MANAGEMENT CORP.

Notice of Filing of Application for Exemption

AUGUST 14, 1967.

Notice is hereby given that Hamilton Management Corp. ("Applicant"), 777 Grant Street, Denver, Colo. 80217, a Delaware corporation, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 ("Act") for an order of the Commission exempting three companies, International Balanced Fund, Inc., International

Growth Fund, Inc., and International Income Fund, Inc. ("the new funds"), of which Applicant is the investment adviser and sole stockholder, from the provisions of sections 10(a), 15(a), 15(c), 30(b)(1), 30(b)(2), 30(d), and 32(a) of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant, a wholly owned subsidiary of International Telephone and Telegraph Corp., is primarily engaged in the business of rendering investment advice to Hamilton Funds, Inc., a registered diversified open-end management investment company, and of underwriting and distributing the securities of Hamilton Funds, Inc., and Hamilton Fund, a unit investment trust. The new funds were incorporated under the laws of the State of Delaware on May 1, 1967. Each is registered under the Act as a diversified open-end management investment company although none intends to make a public offering of its securities for several years.

Applicant requests that each such new fund be granted the following exemptions to remain in effect with respect to each only so long as each does not make a public offering of its securities and Applicant remains its sole stockholder:

Exemption from section 10(a), insofar as it requires that no more than 60 percent of the members of the Board of Directors of each such new fund be persons who are investment advisers of, affiliated persons of an investment adviser of, or officers or employees of such company;

Exemption from sections 15(a) and 15(c), insofar as they require approval of the investment advisory contract, at least annually, by vote of a majority of the outstanding voting securities of the company or by a majority of the unaffiliated directors of the company;

Exemption from sections 30(b)(1) and 30(b)(2), insofar as they require (1) the filing of information and documents with the Commission on a semiannual or quarterly basis, and (2) the filing with the Commission of copies of every periodic or interim report or similar communication containing financial statements and transmitted to the company's stockholder; and

Exemption from section 32(a) insofar as it requires the selection of an independent public accountant by the unaffiliated directors of the registered company.

Applicant represents that so long as the new funds make no public offering of their securities and so long as they have only one stockholder, there is no public interest to be protected and, consequently, the new funds should be exempt from the above-listed provisions of the Act.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security, or transaction from any provision of the Act or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than August 31, 1967, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[File No. 1–4079]

TEL-A-SIGN, INC.

Order Suspending Trading

AUGUST 14, 1967.

The common stock of Tel-A-Sign, Inc., being listed and registered on the American Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934, and being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such Exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to sections 15(c)(5) and 19(a)(4) of the Securities Exchange Act of 1934, that trading in such security on the American Stock Exchange and otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period August 15, 1967, through August 24, 1967, both dates inclusive.

By the Commission.

[70–4521]

WEST TEXAS UTILITIES CO. AND CENTRAL AND SOUTH WEST CORP.

Notice of Proposed Amendment of Articles of Incorporation

AUGUST 14, 1967.

Notice is hereby given that Central and South West Corp. ("Central"), 902 Market Street, Wilmington, Del. 19899, a registered holding company and its electric utility subsidiary company, West Texas Utilities Co. ("West Texas"), 1062 North Third Street, Abilene, Tex. 79604, have filed a joint application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating sections 6(a), 7, 9, 10, and 12(f) of the Act and Rules 20 and 50 of the general rules as applicable to the proposed transactions. All interested persons are referred to the application-declaration which is summarized below, for a complete statement of the proposed transactions.

West Texas proposes to change, by amendment to its Articles of Incorporation, the 2,800,000 authorized shares of its common stock of the par value of $10 each, both issued and unissued, into 2,800,000 shares of common stock of the par value of $15 each and to transfer from earned surplus to the common stock capital account the sum of $12,375,000—the equivalent of $5 for each of the 2,475,000 shares of common stock ($10 par value) now outstanding.

At June 30, 1967, the common stock capital and the earned surplus of Southwestern amounted to $24,750,000 and $23,391,152, respectively. Giving effect to the proposed transfer, common stock capital would be increased to $37,125,000 and earned surplus would be reduced to $11,016,152. The transactions are proposed for the principal purpose of effectuating a permanent capitalization of a portion of the company's earned surplus. Each of the outstanding common shares having a par value of $10 will, after the proposed transactions, constitute a common share having a par value of $15.

The affirmative vote of the holders of at least two-thirds of the outstanding shares of common stock is required to adopt the proposed amendments. Central, owner of all of the common stock of West Texas, proposes to give and execute its consent in writing to the adoption of the proposed amendments to the Articles of Incorporation.

Fees and expenses in connection with the proposed transactions to be paid by West Texas are estimated not to exceed $1,500, including legal fees of $1,000. It is stated that no State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than September 5, 1967, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

TARIFF COMMISSION

[APTA–W–16; TC Publication 212]

CERTAIN WORKERS OF EATON YALE & TOWNE'S STAMPING DIVISION PLANT, CLEVELAND, OHIO

Report to Automotive Agreement Adjustment Assistance Board in Adjustment Assistance Case

AUGUST 15, 1967.

The Tariff Commission today reported to the Automotive Agreement Adjustment Assistance Board the results of its investigation No. APTA–W–16, conducted under section 302(e) of the Automotive Products Trade Act of 1965. The Commission's report contains factual information for use by the Board, which determines the eligibility of the workers concerned to apply for adjustment assistance. The workers in this case were employed in the Cleveland, Ohio, Stamping Division plant of Eaton Yale & Towne, Inc.

Only certain sections of the Commission's report can be made public since much of the information it contains was received in confidence. Publication of such information would result in the disclosure of certain operations of individual firms. The sections of the report that can be made public are reproduced on the following pages.

Introduction. In accordance with section 302(e) of the Automotive Products Trade Act of 1965 (79 Stat. 1016), the U.S. Tariff Commission herein reports the results of an investigation (APTA–W–16) concerning the possible dislocation of certain workers engaged in the production of miscellaneous automotive stampings at the Cleveland, Ohio, plant of the Eaton Stamping Division, Eaton Yale & Towne, Inc. The Commission instituted the investigation on June 27, 1967, upon receipt of a request for investigation on June 26, 1967, from the Automotive Assistance Committee of the Automotive Agreement Adjustment Assistance Board. Public notice of the investigation was given in the FEDERAL REGISTER (32 F.R. 9596) on July 1, 1967.

The Automotive Assistance Committee's request for the investigation resulted from a petition for determination of eligibility to apply for adjustment assistance that was filed with the Assistance Board on June 21, 1967, by the International Union, United Automobile Aerospace & Agricultural Implement Workers of America (U.A.W.) and its Local No. 307, on behalf of a group of workers at the Cleveland plant of the Eaton Stamping Division of Eaton Yale & Towne, Inc. Neither the petitioners nor any other party requested a hearing before the Commission, and none was held.

The petition alleged that the transfer of the production of automotive stampings from the Cleveland plant to the Eaton Spring Division plant in Detroit, Mich., resulted in the permanent layoff of 65 workers between April 15, 1967, and May 24, 1967. The petition further alleged that the transfer would not have occurred if the Eaton Spring Division had not moved its flat leaf spring operation from Detroit to Chatham, Ontario, leaving space vacant at the Detroit plant. The petition attributed the aforementioned transfer of production and layoff of 65 employees at the Cleveland plant to the United States-Canadian Trade Agreement Concerning Automotive Products, signed January 16, 1965.

The information reported herein was obtained from a variety of sources, including Eaton Yale & Towne, Inc., the International Union, U.A.W., and its Local 307, the Commission's files, and through fieldwork by members of the Commission's staff.

Investigation No. APTA–W–7; Automotive flat leaf springs. The present investigation (APTA–W–16) is related to an earlier investigation (APTA–W–7) that had been completed by the Commission on March 30, 1967. In investigation No. APTA–W–7, a petition was filed by the U.A.W. with the Automotive Agreement Adjustment Assistance Board alleging that a permanent layoff of workers at the Eaton Yale & Towne Detroit spring plant had resulted from the transfer of the production of automotive flat leaf springs from Detroit to Eaton's newly established plant in Chatham, Ontario.

On March 30, 1967, the Tariff Commission presented its report on APTA–W–7 to the Adjustment Assistance Board.[1] On April 14, 1967, the Board reported its determination that the workers of the leaf spring department at Eaton's Detroit plant, who had become unemployed or underemployed after January 7, 1967, had been dislocated primarily as a result of the United States-Canadian Automotive Products Agreement and were thus eligible to apply for adjustment assistance.[2]

The automotive product involved—miscellaneous metal stampings. The products involved in this investigation are those automotive stampings which were produced at the Eaton Stamping Division plant in Cleveland, the production of which was shifted to the Eaton Spring Division plant in Detroit. These products consist primarily of radiator and fuel tank caps, filler necks, bumper guards, arm rest assemblies, and hubcaps for trucks.

The aforementioned articles are dutiable under item 692.27 of the Tariff Schedules of the United States at 8.5 percent ad valorem unless they are Canadian articles for use as "original motor-vehicle equipment", in which event they are entered duty free under item 692.28.

Eaton Yale & Towne, Inc., and its Eaton Stamping Division. Eaton Yale & Towne, Inc., with headquarters in Cleveland, Ohio, is a large diversified corporation doing business through numerous divisions, subsidiaries, and foreign affiliates. Its net sales in 1966 were valued at $796 million; approximately 50 percent of this total was accounted for by the sale of passenger car products and components for trucks and off-the-highway vehicles. Other important segments of the corporation's business include materials handling and construction equipment, and locks and builder's hardware.

The Eaton Stamping Division of Eaton Yale & Towne, Inc., was a single plant division with its plant and headquarters in Cleveland. The Division was formed as a successor to the Easy-On Cap. Co., whose assets were acquired by Eaton in the early 1930's. The Cleveland plant contains 197,000 square feet of manufacturing space and 35,000 square feet of office space. It is a single-story masonry structure which is about 40 years old.

MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 15, 1967.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 279), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-68887. By order of August 10, 1967, the Transfer Board approved the transfer to Whitney Tank Lines, Inc., Tampa, Fla., of certain operating rights of McKenzie Tank Lines, Inc., Tallahassee, Fla., specifically, a portion of the operating rights in certificate No. MC-112520 (Sub-No. 61), issued March 21, 1963, the entire operating rights in certificate No. MC-112520 (Sub-No. 107), issued March 4, 1966, a portion of the operating rights in certificate No. MC-112520 (Sub-No. 115), issued March 10, 1967, and the entire operating rights in certificate No. MC-112520 (Sub-No. 139), issued November 28, 1966, authorizing the transportation over irregular routes, of phosphoric acid, in bulk, in tank vehicles, from Bonnie, Brewster, and Tampa, Fla., to Mobile, Ala.; phosphate, phosphate products, and phosphate byproducts, in bulk, in tank or hopper vehicles, from points in Polk County, Fla., to points in Hillsboro County, Fla.; phosphate rock, diammonium phosphate, superphosphate, triple-superphosphate, hydrofluosilicic acid, phosphate acid, and phosphatic feed supplements, in bulk, in tank and hopper-type vehicles, from points in Citrus and Marion (Counties) south of the Cross Florida Canal, Pinellas, Hillsborough, Manatee, Polk, Pasco, Hardee, Sarasota, Orange, Hernando, Charlotte, Lee, De Soto, Highlands, Okeechobee, Indian River, Brevard, and Osceola Counties, Fla., to points in Florida, Alabama, and Georgia, as restricted, and superphosphoric acid, in bulk, in tank vehicles, from points in Polk County, Fla., to Fremont, Nebr. Dan R. Schwarts, 1730 American Heritage Life Building, Jacksonville, Fla. 32202, attorney for applicants.

No. MC-FC-69744. By order of August 9, 1967, the Transfer Board approved the transfer to Boward Moving & Storage, Inc., Staunton, Va., of the operating rights of Meadows Transfer, Inc., Harrisonburg, Va., in certificate No. MC-109325, issued August 12, 1959, authorizing the transportation, over irregular routes, of household goods, between Harrisonburg, Va., to points in Virginia within 25 miles of Harrisonburg, on the one hand, and, on the other, points in Virginia, Ohio, North Carolina, Maryland, Pennsylvania, West Virginia, and the District of Columbia. M. Bruce Morgan, 201 Azar Building, Glen Burnie, Md. 21061, attorney for applicants.

No. MC-FC-69759. By order of August 9, 1967, the Transfer Board approved the transfer to Guy E. Wilson, Inc., 156 Porter Place, Rutland, Vt., of the operating rights in permit No. MC-107481 (Sub-No. 1), issued May 10, 1951, to Guy E. Wilson, 156 Porter Place, Rutland, Vt., authorizing the transportation of such merchandise as is dealt in by retail and chain grocery and food business houses, and equipment, materials, and supplies used in the conduct of such business, over irregular routes, from Waterford, N.Y., to all points in Vermont.

No. MC-FC-69830. By order of August 9, 1967, the Transfer Board approved the transfer to Balboa Warehouse Corp., doing business as Pacific Transfer Van & Truck Co., San Diego, Calif., of the operating rights in certificate No. MC-72715, issued May 22, 1942, to R. S. Stowell, doing business as Western Parcel Service, San Diego, Calif., authorizing the transportation of: General commodities, with the usual exceptions, between points in San Diego, Calif. Daniel W. Baker, 405 Montgomery Street, San Francisco, Calif, 94104, attorney for transferee. George Ritner, 411 Broadway, San Diego, Calif. 92101, attorney for transferor.

No. MC-FC-69831. By order of August 9, 1967, the Transfer Board approved the transfer to Dave's Trucking Co., Inc., Port Chester, N.Y., of the operating rights in certificate No. MC-2923, issued June 13, 1960, to David Azorsky and Joseph Wein, doing business as Dave's Trucking Co., Port Chester, N.Y., authorizing the transportation of: General commodities, with the usual exceptions, between specified points in New York, New Jersey, and Connecticut. Charles H. Trayford, 137 East 36th Street, New York, N.Y. 10016, and Paul Archer, Northcourt Building, White Plains, N.Y. 10601, attorneys for applicants.

No. MC-FC-69835. By order of August 9, 1967, the Transfer Board approved the transfer to J. Rollman & Son, Inc., Lititz, Pa., of the operating rights in certificates Nos. MC-17131 and MC-17131 (Sub-No. 1), issued August 22, 1961, and April 6, 1964, respectively, to Luke B. Hollinger, Lancaster, Pa., authorizing the transportation, over irregular routes, of fertilizer and lumber between Bowmansville, Pa., and points within 15 miles of Bowmansville, on the one hand, and, on the other, Baltimore, Md., and cabbage, farm machinery, equipment, and parts thereof, fertilizer, flour, general commodities, with exceptions, hay and straw, lumber, and potatoes from and to various points in Pennsylvania, Maryland, Ohio, New Jersey, Delaware, and the District of Columbia; and over regular routes, fertilizer from Baltimore, Md., to Strasburg, Pa., serving certain intermediate and off-route points. Christian V. Graf, 407 North Front Street, Harrisburg, Pa., attorney for applicants.

No. MC-FC-69842. By order of August 9, 1967, the Transfer Board approved the transfer to Bob Hilmer, doing business as Hilmer Truck Lines, Dysart, Iowa, of the operating rights in permits Nos. MC-126548 (Sub-No. 1) and MC-126548 (Sub-No. 4) issued October 11, 1965, and December 21, 1965, respectively, to Robert R. Reed, Grinnell, Iowa, authorizing the transportation of: Lumber, boards, pallets, and skids, from Belle Plaine, Iowa, to points in Indiana, Ohio, Illinois, and Wisconsin. Kenneth F. Dudley, Post Office Box 279, Ottumwa, Iowa 52501, representative for applicants.

No. MC-FC-69845. By order of August 9, 1967, the Transfer Board approved the transfer to Ralph Guggenheim, Willseyville, N.Y., of the certificate in No. MC-127301, issued February 23, 1966, to Roy G. Grover, doing business as Grover Trucking, Willseyville, N.Y., authorizing the transportation of: Building materials, from the site of the Wickes Corp., approximately 10 miles west of Endicott, N.Y., to points in Bradford, Lackawanna, Susquehanna, Wayne, and Wyoming Counties, Pa. Raymond A. Richards, 23 West Main Street, Webster, N.Y. 14580, representative for applicants.

No. MC-FC-69846. By order of August 9, 1967, the Transfer Board approved the transfer to Service Transfer, Inc., Sitka, Alaska, of the certificate in No. MC-124128 (Sub-No. 1) and MC-124128 (Sub-No. 2), issued March 18, 1965, and July 28, 1965, respectively, to Keith B. Snowden, doing business as Service Transfer, Sitka, Alaska, authorizing the transportation of: General commodities, excluding commodities in bulk and other specified commodities, between points in Alaska south and east of the United States-Canada boundary line north of Haines, Alaska, and between points on Baranof Island, Alaska. N. C. Banfield, 311 Franklin Street, Juneau, Alaska 99801, attorney for applicants.

Guide to Record Retention Requirements

[Revised as of January 1, 1967]

This useful reference tool is designed to keep businessmen and the general public informed concerning published requirements in laws and regulations relating to record retention. It contains over 900 digests detailing the retention periods for the many types of records required to be kept under Federal laws and rules.

The "Guide" tells the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept. Each digest also includes a reference to the full text of the basic law or regulation providing for such retention.

The booklet's index, numbering over 2,000 items, lists for ready reference the categories of persons, companies, and products affected by Federal record retention requirements.

Price: 40 cents

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, U.S. Government Printing Office Washington, D.C. 20402

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15 per year, payable in advance. The charge for individual copies varies in proportion to the size of the issue (15 cents for the first 80 pages and 5 cents for each additional group of 40 pages, as actually bound). Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

List of CFR Parts Affected

(Codification Guide)

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1967, and specifies how they are affected.

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 213—EXCEPTED SERVICE

Department of Commerce

Section 213.3114 is amended to show that full-time employment of supervisors, assistant supervisors, supervisors' clerks and enumerators under Schedule A may be extended for an additional year with prior Commission approval. Effective on publication in the FEDERAL REGISTER, subparagraph (1) of paragraph (d) of § 213.3114 is amended as set out below.

§ 213.3114 Department of Commerce.

* * * * *

(d) *Bureau of the Census.*

(1) Supervisors, assistant supervisors, supervisors' clerks, and enumerators in the field service for temporary, part-time, or intermittent employment, for not to exceed 1 year: *Provided*, That such appointments may be extended for additional periods of not to exceed one year each; but that prior Commission approval is required for extension of full-time employment for longer than 1 year.

(5 U.S.C. 3301, 3302, E.O. 10577, 19 F.R. 7521, 3 CFR, 1954–1958 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

Title 7—AGRICULTURE

Chapter III—Agricultural Research Service, Department of Agriculture

PART 354—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

Commuted Travel Time Allowances

Pursuant to the authority conferred upon the Director of the Plant Quarantine Division by § 354.1 of the regulations concerning overtime services relating to imports and exports, effective July 31, 1966 (7 CFR 354.1), administrative instructions (7 CFR 354.2), prescribing the commuted travel time that shall be included in each period of overtime or holiday duty are hereby revised to read as follows:

§ 354.2 Administrative instructions prescribing commuted travel time.

Certain periods of overtime and holiday duty, as defined in § 354.1 shall, in addition, include a commuted travel time period for the respective areas in which employees are located, if such travel is performed solely on account of overtime or holiday service. The prescribed commuted travel time periods are as follows:

Windsor Locks, Conn. (served from Boston, Mass.).

(64 Stat. 561)

These revised administrative instructions shall be effective on and after August 19, 1967, on which date they shall supersede 7 CFR 354.2 effective January 27, 1966, as amended.

The purposes of this revision are to add to the "One Hour, Within Metropolitan Area" list the item "San Diego, Calif." and to delete from said list "Long Beach Harbor, Calif." and "Los Angeles Harbor, San Pedro, Calif."; to add to the "Two Hours, Within Metropolitan Area" list the items "San Francisco, Calif. (including Oakland, and Alameda, Calif.)" and "San Pedro, Calif. (including Los Angeles, Los Angeles Harbor, Los Angeles International Airport, Long Beach Harbor and Long Beach Municipal Airport, Calif.)"; and to delete from the said list "Long Beach Municipal Airport, Calif.", "Los Angeles International Airport, Calif." and "San Francisco, Calif."; to add to the "Two Hours, Outside Metropolitan Area" list the items "Camp Pendleton USMC, Oceanside, Calif. (served from San Diego, Calif.)", "Crockett, Calif. (served from San Francisco, Calif.)", "El Segundo, Calif. (served from San Pedro, Calif.)", "Hamilton AFB, Novato, Calif. (served from San Francisco, Calif.)", "Martinez, Calif. (served from San Francisco, Calif.)", "Moffett Field NAS, Sunnyside, Calif. (served from San Francisco, Calif.)", "Pittsburg, Calif. (served from San Francisco, Calif.)", "Port Chicago, Calif. (served from San Francisco, Calif.)", "Redwood City, Calif. (served from San Francisco, Calif.)", "Richmond, Calif. (served from San Francisco, Calif.)", "Rodeo, Calif. (served from San Francisco, Calif.)", "Seal Beach, Calif. (served from San Pedro, Calif.)", and "Vallejo, Calif. (served from San Francisco, Calif.)"; to add to the "Three Hours, Outside Metropolitan Area" list the items "Antioch, Calif. (served from San Francisco, Calif.)", "Burbank, Calif. (served from San Pedro, Calif.)", "Ontario, Calif. (served from San Pedro, Calif.)", and "Any undesignated California port served from San Diego, San Pedro, or San Francisco, Calif." and to delete from the said list "March Field, Calif. (served from Norton AFB, Calif.)"; to add to the "Five Hours, Outside Metropolitan Area" list the items "Indianapolis, Ind. (served from Chicago, Ill.)" and "Louisville, Ky. (served from Toledo, or Cleveland, Ohio)" and to delete from the said list "George AFB, Victorville, Calif."; to add to the "Six Hours, Outside Metropolitan Area" list the items "Des Moines, Iowa (served from Chicago, Ill.)", "Kansas City, Mo. (served from Chicago, Ill.)", "Omaha, Nebr. (served from Chicago, Ill.)", and "St. Louis, Mo. (served from Chicago, Ill.)"; and to combine into a single list all existing amendments of these administrative instructions.

These commuted travel time periods have been established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which the employee performs such overtime or holiday duty when such travel is performed solely on account of such overtime or holiday duty. Such establishment depends upon facts within the knowledge of the Plant Quarantine Division. It is to the benefit of the public that these instructions be made effective at the earliest practicable date. Accordingly, pursuant to the provisions of 5 U.S.C. 553, it is found upon good cause that notice and public procedure on these instructions are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making these instructions effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Hyattsville, Md., this 15th day of August 1967.

[SEAL] F. A. JOHNSTON,
Director, Plant Quarantine Division.

[F.R. Doc. 67-9808; Filed, Aug. 18, 1967; 8:48 a.m.]

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Valencia Orange Reg. 216]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.516 Valencia Orange Regulation 216.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 17, 1967.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period August 20, 1967, through August 26, 1967, are hereby fixed as follows:

(i) District 1: 140,000 cartons;

(ii) District 2: 560,000 cartons;

(iii) District 3: unlimited movement.

(2) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 18, 1967.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 67-9879; Filed, Aug. 18, 1967; 11:20 a.m.]

[Lemon Reg. 281]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.581 Lemon Regulation 281.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 15, 1967.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period August 20, 1967, through August 26, 1967, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 232,500 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 16, 1967.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

Title 12—BANKS AND BANKING

Chapter II—Federal Reserve System

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

PART 262—RULES OF PROCEDURE

1. Effective immediately, Part 262 is revised to read as follows:

Sec.
262.1 Basis and scope.
262.2 Procedure for regulations.
262.3 Applications.
262.4 Adjudication with formal hearing.
262.5 Appearance and practice.
262.6 Forms.

AUTHORITY: The provisions of this Part 262 issued under sec. 552, Title 5, United States Code.

§ 262.1 Basis and scope.

This part is issued pursuant to section 552 of Title 5 of the United States Code, which requires that every agency shall publish in the FEDERAL REGISTER statements of the general course and method by which its functions are channeled and determined and rules of procedure and descriptions of forms available or the places at which forms may be obtained.

§ 262.2 Procedure for regulations.

(a) *Notice.* Notices of proposed regulations of the Board or amendments thereto are published in the FEDERAL REGISTER, except as specified in paragraph (e) of this section or otherwise excepted by law. Such notices include a statement of the terms of the proposed regulations or amendments and a description of the subjects and issues involved; but the giving of such notices does not necessarily indicate the Board's final approval of any feature of any such proposal. The notices also include a reference to the authority for the proposed regulations or amendments and a statement of the time, place, and nature of public participation.

(b) *Public participation.* The usual method of public submission of data, views, or arguments is in writing. It is ordinarily preferable that they be sent to the appropriate Federal Reserve Bank, which forwards them to the Board. The locations of the 12 Federal Reserve Banks and the boundaries of the Federal Reserve districts are shown in Appendix A to the Board's Rules of Organization.[1]

(c) *Preparation of draft and action by Board.* In the light of consideration of all relevant matter presented or ascertained, the Legal Division, in collaboration with other Divisions of the Board's staff, prepares drafts of proposed regulations or amendments, and the staff submits them to the Board. The Board takes such action as it deems appropriate in the public interest. Any other documents that may be necessary to carry out any decision by the Board in the matter are usually prepared by the Legal Division, in collaboration with the other Divisions of the staff.

(d) *Effective dates.* Any substantive regulation or amendment thereto issued by the Board is published not less than 30 days prior to the effective date thereof, except as specified in paragraph (e) of this section or as otherwise excepted by law.

(e) *Exceptions as to notice or effective date.* In certain situations, notice and public participation with respect to proposed regulations may be impracticable, unnecessary, contrary to the public interest, or otherwise not required in the public interest, or there may be reason and good cause in the public interest why the effective date should not be deferred for 30 days. The reason or reasons in such cases usually are that such notice, public participation, or deferment of effective date would prevent the action from becoming effective as promptly as necessary in the public interest, would permit speculators or others to reap unfair profits or to interfere with the Board's actions taken with a view to accommodating commerce and business and with regard to their bearing upon the general credit situation of the country, would provoke other consequences contrary to the public interest, would unreasonably interfere with the Board's necessary functions with respect to management or personnel, would not aid the persons affected, or would otherwise serve no useful purpose. The following may be mentioned as some examples of situations in which advance notice or deferred effective date, or both, will ordinarily be omitted in the public interest: The review and determination of discount rates established by Federal Reserve Banks, and changes in general requirements regarding reserves of member banks, maximum interest rates on time and savings deposits, or credit for purchasing or carrying securities.

[1] See F.R. Doc. 67-9712, Federal Reserve System, in Notices section, *infra*.

§ 262.3 Applications.

(a) *Form.* Any application, request, or petition (hereafter referred to as "application") for the approval, authority, determination, or permission of the Board with respect to any action for which such approval, authority, determination, or permission is required by law or regulation of the Board (including actions authorized to be taken by a Federal Reserve Bank or others on behalf of the Board pursuant to authority delegated under Part 265) shall be submitted in accordance with the pertinent form, if any, listed in § 262.6. Copies of any such form and details regarding information to be included therein may be obtained from any Federal Reserve Bank. Any application for which no form is listed in § 262.6 should be signed by the person making the application or by his duly authorized agent, should state the facts involved, the action requested, and the applicant's interest in the matter, and should indicate the reasons why the application should be granted. Applications for access to, or copying of, records of the Board should be submitted as provided in § 261.4(d) of this chapter.

(b) *Procedure.* Any application should be sent to the Federal Reserve Bank of the district in which the person making the application is located, and that Bank will forward it to the Board when appropriate. The Reserve Bank makes such investigation as may be necessary and reports the relevant facts, with its recommendation, to the Board.

(c) *Comments by staff.* In the light of consideration of all relevant matter presented or ascertained, the Board's staff prepares and submits to the Board comments on the subject. The Board in due course takes such action as it deems appropriate in the public interest. Such documents as may be necessary to carry out any decision by the Board are prepared by the Board's staff. With respect to actions taken by a Federal Reserve Bank on behalf of the Board under delegated authority, statements and necessary documents are prepared by the staff of such Federal Reserve Bank.

(d) *Notice of granting or denial.* Prompt notice is given to the applicant of the granting or denial in whole or in part of any application. In the case of a denial, except in affirming a prior denial or where the denial is self-explanatory, such notice is accompanied by a simple statement of the grounds for such action.

(e) *Action at Board's initiative.* When the Board, without receiving an application, takes action with respect to any matter as to which opportunity for hearing is not required by statute or Board regulation, similar procedure is followed, including investigations, reports, and recommendations by the Board's staff and by the Reserve Banks, where appropriate.

(f) *Bank holding company and merger applications.* In addition to procedures applicable under other provisions of this part, the following procedures are applicable in connection with the Board's consideration of applications under section 3 of the Bank Holding Company Act of 1956 (12 U.S.C. 1842), hereafter called "holding company applications," and of applications under section 18(c) of the Federal Deposit Insurance Act (12 U.S.C. 1828), hereafter called "merger applications." Unless otherwise indicated, these procedures apply to both types of applications.

(1) The Board issues each week a list that identifies holding company and merger applications received during the preceding week. Notice of receipt of each holding company application is published in the FEDERAL REGISTER as provided in § 222.4(e)(2) of this chapter (Regulation Y).

(2) If a hearing is required by law or if the Board determines that a hearing for the purpose of taking evidence is desirable, the Board issues an order for such a hearing, and notice thereof is published in the FEDERAL REGISTER. Any such hearing is conducted by a hearing examiner or hearing officer in accordance with the Board's Rules of Practice for Formal Hearings (Part 263 of this chapter) and, unless otherwise ordered by the Board, is public.

(3) In any case in which a formal hearing is not ordered by the Board, the Board may afford the applicant and other properly interested persons (including Governmental agencies) an opportunity to present views orally before the Board or its designated representative. Unless otherwise ordered by the Board, any such oral presentation is public and notice of such public proceeding is published in the FEDERAL REGISTER.

(4) The Board's action on an application is embodied in an Order that indicates the votes of members of the Board and is accompanied by a Statement of the reasons for the Board's action. Both the Order and accompanying Statement are released to the press. Normally, the Statement is issued at the time of issuance of the Order; where this is not practicable, the Statement is issued as promptly as possible. Each such Order is published in the FEDERAL REGISTER; and the Order and Statement are published in the next succeeding issue of the Federal Reserve Bulletin.

(5) (i) Each Order of the Board approving a holding company application includes, pursuant to the Act approved July 1, 1966 (12 U.S.C. 1849(b)), a requirement that the transaction approved shall not be consummated before the thirtieth calendar day following the date of such Order.

(11) Each Order of the Board approving a merger application includes, pursuant to the Act approved February 21, 1966 (12 U.S.C. 1828(c)(1)(6)), a requirement that the transaction approved shall not be consummated before the thirtieth calendar day following the date of such Order, except as the Board may otherwise determine pursuant to emergency situations as to which the Act permits consummation at earlier dates.

(iii) Each Order approving an application also includes, as a condition of approval, a requirement that the transaction approved shall be consummated within three months and, in the case of acquisition by a holding company of stock of a newly organized bank, a requirement that such bank shall be opened for business within six months, but such periods may be extended for good cause by the Board (or by the appropriate Federal Reserve Bank where authority to grant such extensions is delegated to the Reserve Bank).

(6) After action by the Board on an application, the Board will not grant any request for reconsideration of its action unless the request presents relevant facts that, for good cause shown, were not previously presented to the Board, or unless it otherwise appears to the Board that reconsideration would be appropriate.

(7) Unless the Board shall otherwise direct, each holding company and merger application is made available for inspection by the public except for portions thereof as to which the Board determines that nondisclosure is warranted under section 552(b) of Title 5 of the United States Code.

§ 262.4 Adjudication with formal hearing.

In connection with adjudication with respect to which a hearing is required by law or is ordered by the Board, the procedure is set forth in Part 263 of this chapter, entitled "Rules of Practice for Formal Hearings".

§ 262.5 Appearance and practice.

Appearance and practice before the Board in all matters are governed by § 263.3 of this chapter.

§ 262.6 Forms.

The following forms, which are available at the Federal Reserve Banks, shall be used for the purposes indicated:

Form	
30	Application for Federal Reserve Bank Stock—Organizing National Bank.
30a	Application for Federal Reserve Bank Stock—Nonmember State Bank Converting into National Bank.
56	Application for Adjustment in Holdings of Federal Reserve Bank Stock (Except by Mutual Savings Banks).
56a	Application of Mutual Savings Bank for Adjustment in Holdings of Federal Reserve Bank Stock.
70	Application for Prior Written Consent to Effect a Merger or Other Transaction Pursuant to Section 18(c) of the Federal Deposit Insurance Act (Resulting Bank to be a State Member Bank).
83	Application for Membership in the Federal Reserve System (Cover Sheet).
83A	Application for Membership in the Federal Reserve System (State Banks except Mutual Savings Banks)
83B	Application for Membership in the Federal Reserve System (Mutual Savings Banks Authorized to Purchase Stock in Federal Reserve Bank).
83C	Application for Membership in the Federal Reserve System (Mutual Savings Banks Not Permitted to Subscribe for Stock in Federal Reserve Bank).
83D	Application for Stock in the Federal Reserve Bank (Mutual Savings Bank Admitted to Membership upon Deposit of Appropriate Amount with Federal Reserve Bank and Now Permitted to Subscribe for Federal Reserve Bank Stock under Laws under Which Organized).
83E	Certificate of Directors and Cashier.
86	Application for Cancellation of Federal Reserve Bank Stock—Liquidating Member Bank
86a	Application for Cancellation of Federal Reserve Bank Stock—Member Bank Merging or Consolidating with Nonmember Bank.
86b	Application for Cancellation of Federal Reserve Bank Stock—Converting National Bank
87	Application for Cancellation of Federal Reserve Bank Stock—Insolvent Member Bank
105	Report of Condition of State Member Bank
105e	(Form 105e)—Report of Condition of State Member Bank (Publisher's Copy)
107	Report of Income and Dividends of State Member Bank (Calendar Year)
107b	Report of Income and Dividends of State Member Bank (6-Month Period)
151	Articles of Association—Corporation To Do Business under Section 25(a) of the Federal Reserve Act
152	Organization Certificate—Corporation To Do Business under Section 25(a) of the Federal Reserve Act
220	Report of an Affiliate of a State Member Bank
220a	Report of an Affiliate of a State Member Bank (Publisher's Copy)
240	Report of Member Firm of a National Securities Exchange
314	Report of Condition by Foreign Banking Corporation (Semiannual)
414	Computation of Reserve To Be Carried With Federal Reserve Bank by Member Bank
F-1	Registration Statement for Securities of a Bank
F-2	Annual Report
F-3	Current Report
F-4	Quarterly Report
F-5	Proxy Statement; Statement Where Management Does Not Solicit Proxies
F-6	Statement in Election Contest
F-7	Initial Statement of Beneficial Ownership of Securities
F-8	Statement of Changes in Beneficial Ownership of Securities
F-9	Financial Statements
F-10	Registration Statement for Additional Classes of Securities of a Bank
F-20	Amendment to Registration Statement or Periodic Report of Bank
T-1	Agreement, Resolution, Certificate—to Qualify under Section 8(a) of the Securities Exchange Act of 1934
T-2	Agreement, Resolution, Certificate—to qualify under Section 8(a) of the Securities Exchange Act of 1934 (Bank with Principal Place of Business outside 50 States of United States)
Y-1	Application for Prior Approval of Action to Become a Bank Holding Company Pursuant to Section 3(a)(1) of the Bank Holding Company Act of 1956
Y-1A	Certificate of Directors or Other Governing Body Authorizing Application Pursuant to Section 3(a)(1) of the Bank Holding Company Act of 1956
Y-2	Application for Prior Approval of Acquisition of Bank Shares Pursuant to Section 3(a)(3) of the Bank Holding Company Act of 1956
Y-2A	Certificate of Directors or Other Governing Body Authorizing Application Pursuant to Section 3(a)(3) of the Bank Holding Company Act of 1956
Y-5	Registration Statement of Bank Holding Company Pursuant to Section 5(a) of the Bank Holding Company Act of 1956
Y-6	Annual Report of Bank Holding Company Pursuant to the Bank Holding Company Act of 1956

2.a. This action is pursuant to and in accordance with the provisions of section 552 of Title 5 of the United States Code.

b. The provisions of section 553 of Title 5, United States Code, relating to notice and public participation and to deferred effective dates, are not followed in connection with the adoption of this action, because the rules involved are procedural in nature and accordingly do not constitute substantive rules subject to the requirements of such section.

Dated at Washington, D.C., the 9th day of August, 1967.

By order of the Board of Governors.

[SEAL] KENNETH A. KENYON, *Assistant Secretary.*

[F.R. Doc. 67-9711; Filed, Aug. 18, 1967; 8:45 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter II—Civil Aeronautics Board

SUBCHAPTER D—SPECIAL REGULATIONS

[Reg. No. SPR-19]

PART 378—INCLUSIVE TOURS BY SUPPLEMENTAL AIR CARRIERS, CERTAIN FOREIGN AIR CARRIERS, AND TOUR OPERATORS

Amendment Extending Prior-Approval Requirement

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 10th day of August 1967.

In SPDR-8 (Docket 18487), dated May 1, 1967, and published at 32 F.R. 6847, the Board gave notice that it had under consideration an amendment to Part 378 which would extend the requirement of prior approval of all inclusive tour charters through December 31, 1968. The Board tentatively found that experience to date under the prior-approval procedure was so limited that the Board should continue, for at least an additional year, to exercise control over inclusive tours before granting a blanket exemption to tour operators.

Only World Airways, Inc. (World), a supplemental air carrier, and American International Travel Service, Inc. (AITS), a tour operator, responded to the proposal. Neither opposes extension of the prior-approval procedure, but each suggests additional substantive changes in the regulation governing inclusive tours. World proposes that an application for a Statement of Authorization should be automatically approved if the Board does not act within a specified period; *e.g.*, 15 or 30 days of the filing of an application; AITS requests that the Board establish two classes of tour operators based on experience and financial fitness. One class would be required to obtain prior approval of all their inclusive tour charters. The requirements for qualification of this class would include a modest showing of experience and modified bonding requirements. The second class of tour operators would consist of those which establish their financial fitness and successful experience and post a very large bond in the form set forth in the appendix to Part 378. The latter would receive operating authority valid until May 13, 1971, subject to the filing of quarterly financial statements showing continuing financial fitness.

World's proposal presents a number of practical problems at the present time. Unfortunately too many applications for inclusive tour authorization are incomplete in one or more requirements and require considerable analysis before approval can be granted or denied. The Board recognizes the necessity and desirability for ample lead time to merchandise tours after Board approval is granted. This problem can be alleviated by the early submission of inclusive tour requests and by the applicants' careful attention to the specific requirements of Part 378. As the tour operators, the carriers and the Board itself gain experience with processing these applications, greater expedition will result. The Board continually re-evaluates its internal procedures to that end.

AITS' proposals go to the financial fitness of tour operators and the bonding requirements of Part 378, matters beyond the scope of the present rule-making proceeding. As the Board has previously indicated, we are studying the present bonding requirements and we contemplate that possible modifications will be handled in a separate rule-making proceeding at an early date.

We shall therefore amend Part 378 as proposed in SPDR-8.

In consideration of the foregoing, the Board hereby amends Part 378 of the Special Regulations (14 CFR Part 378), effective September 18, 1967, as follows:

1. Amend § 378.10 to read:

§ 378.10 Requirement of a Statement of Authorization.

No inclusive tour or series of tours scheduled to commence on or before December 31, 1968, shall be operated, nor shall any tour operator sell or offer to sell, solicit, or advertise such tour or tours, unless there shall be in effect a Statement of Authorization issued by the Board authorizing the specific tour or series of tours.

2. Amend paragraph (a) of § 378.18 to read:

§ 378.18 Procedure applicable to periods on or after January 1, 1969.

(a) No inclusive tour or series of tours scheduled to commence on or after January 1, 1969, shall be operated, nor shall any tour operator sell or offer to sell, solicit, or advertise such tour or tours, unless there is on file with the Board a Tour Prospectus satisfying the requirements of § 378.13. If a series of tours is to be operated for one tour operator pursuant to one charter contract, the Prospectus may cover the entire series, provided the elapsed time between the commencement of the first tour and the completion of the last tour shall not be over 180 days. The Tour Prospectus shall be filed at least 60 days before commencement of the tour or tours. Late filing of the Prospectus will not be permitted except for good cause shown.

* * * * *

(Sec. 204(a) of the Federal Aviation Act of 1958, as amended, 72 Stat. 743; 49 U.S.C. 1324)

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON, *Secretary.*

[F.R. Doc. 67-9798; Filed, Aug. 18, 1967; 8:47 a.m.]

SUBCHAPTER E—ORGANIZATION REGULATIONS

[Reg. No. OR-23]

PART 385—DELEGATIONS AND REVIEW OF ACTION UNDER DELEGATION; NONHEARING MATTERS

Delegation To Issue Statements of Authorization for Inclusive Tours

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 15th day of August 1967.

This amendment is being issued concurrently with SPR-19, which extends the prior-approval requirement for inclusive tour charters through December 31, 1968. The Board has determined that processing of applications for Statements of Authorization to conduct inclusive tours which meet the requirements of Part 378 and established precedent can be expedited by delegating the Board's function of approving such applications to the Director of the Bureau of Operating Rights.

Since this amendment is a rule of agency organization and procedure, notice and public procedure hereon are not required and the amendment may be made effective immediately.

Accordingly, the Board hereby amends Part 385 (14 CFR Part 385) by adding paragraph (v) to § 385.13, effective August 15, 1967, to read as follows:

§ 385.13 Delegation to the Director, Bureau of Operating Rights.

* * * * *

(v) Approve applications for a Statement of Authorization to conduct inclusive tours filed pursuant to Part 378 of this chapter (Special Regulations), which meet the requirements of Part 378 and established Board precedent.

(Secs. 204(a) and 1001 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 788; 49 U.S.C. 1324, 1481, and Reorganization Plan No. 3 of 1961, 75 Stat. 837, 26 F.R. 5989.)

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON, *Secretary.*

[F.R. Doc. 67-9799; Filed, Aug. 18, 1967; 8:47 a.m.]

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 67-197]

PART 1—GENERAL PROVISIONS

Ports of Entry

Carriers with truck terminals located outside the port limits of Pittsburgh, Pa., are experiencing delays in the release of bonded merchandise, with resulting delays in delivering shipments to consignees. In order to provide better customs service at these truck terminals and in other areas where there has been an increase in customs activities, it has been decided to extend the port limits of Pittsburgh, Pa.

Accordingly, by virtue of the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623 (19 U.S.C. 2), which was delegated to the Secretary of the Treasury by the President in Executive Order No. 10289, September 17, 1951 (3 CFR, Ch. II), and pursuant to authorization given to me by Treasury Department Order No. 190, Rev. 4 (30 F.R. 15769), the geographic limits of the customs port of Pittsburgh, Pa., in the Philadelphia, Pa., district (Region III), comprising all of Allegheny County and a portion of Westmoreland County as described in Treasury Decision 66-220, are extended to include all of Allegheny County and that part of Westmoreland County in the State of Pennsylvania described as follows:

Commencing at the point of intersection of the Pennsylvania Turnpike and the Allegheny-Westmoreland County line; thence southeasterly along the Pennsylvania Turnpike to the northern boundary of North

Huntingdon Township; thence southeasterly along said boundary of North Huntingdon Township to the point of junction of said boundary with Township Route T799; thence southeasterly along Township Route T799 to the point of junction with Route U.S. 30; thence westerly along Route U.S. 30 to the point of junction with legislative Route 64103; thence southwesterly along legislative Route 64103 to the point of intersection with Township Route T647; thence westerly along Township Route T647 to the point of junction with the North Huntingdon Township line; thence along the southern boundary of North Huntingdon Township to the Allegheny-Westmoreland County line; thence north along the Allegheny-Westmoreland County line to the point of beginning.

Section 1.2(c) of the Customs Regulations is amended by substituting "(including the territory described in T.D. 67-197)", for "(including the territory described in T.D. 66-220)" after "Pittsburgh, Pa.," in the column headed "Ports of entry" in the Philadelphia, Pa., district (Region III).

(80 Stat. 379, sec. 1, 37 Stat. 434, sec. 1, 38 Stat. 623, as amended, R.S. 251, sec. 624, 46 Stat. 759; 5 U.S.C. 301, 19 U.S.C. 1, 2, 66, 1624)

[SEAL] MATTHEW J. MARKS,
Acting Assistant Secretary of the Treasury.

AUGUST 14, 1967.

[F.R. Doc. 67-9803; Filed, Aug. 18, 1967; 8:48 a.m.]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart C—Food Additives Permitted in the Feed and Drinking Water of Animals or for the Treatment of Food-Producing Animals

BUQUINOLATE

The Commissioner of Food and Drugs, having evaluated the data submitted in a petition filed by The Norwich Pharmacal Co., Post Office Box 191, Norwich, N.Y. 13815, and other relevant material, has concluded that the food additive regulations should be amended to provide for the safe use of buquinolate (ethyl-4-hydroxy - 6,7-diisobutoxy - 3-quinolinecarboxylate) as an aid in the prevention of coccidiosis caused by the organism *E. maxima*. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120), § 121.291 (a) is amended by changing the text in the fourth column of the table to read as follows:

§ 121.291 Buquinolate (ethyl-4-hydroxy-6,7-diisobutoxy-3-quinoline-carboxylate).

(a) * * *

Principal ingredient	Grams per ton	Limitations	Indications for use
Buquinolate..	* * *	* * *	As an aid in the prevention of coccidiosis caused by *E. tenella*, *E. necatrix*, *E. maxima*, and *E. acervulina*.

* * * * *

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: August 14, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

[F.R. Doc. 67-9806; Filed, Aug. 18, 1967; 8:48 a.m.]

SUBCHAPTER C—DRUGS

PART 148n—OXYTETRACYCLINE

Oxytetracycline Hydrochloride

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357), and delegated by him to the Commissioner of Food and Drugs (21 CFR 2.120), § 148n.2 *Oxytetracycline hydrochloride* is amended to raise the maximum allowable moisture content for the drug by changing in paragraph (a)(1)(vi) the portion that reads "than 1.5 percent" to read "than 2.0 percent."

Since this order merely changes the maximum moisture content for the subject drug without affecting its safety, efficacy, or stability, notice and public procedure and delayed effective date are not prerequisites to this promulgation.

Effective date. This order shall become effective upon publication in the FEDERAL REGISTER.

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357)

Dated: August 14, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

[F.R. Doc. 67-9804; Filed, Aug. 18, 1967; 8:48 a.m.]

Title 29—LABOR

Chapter XIII—Bureau of Labor Standards, Department of Labor

PART 1500—CHILD LABOR REGULATIONS, ORDERS, AND STATEMENTS OF INTERPRETATION

State Certificates of Age

The age, employment, or working certificates or permits of several States are designated in 29 CFR 1500.21 as having the same force and effect as Federal certificates of age issued under section 3(l) of the Fair Labor Standards Act of 1938 (52 Stat. 1061 as amended; 29 U.S.C. 203).

In a document promulgated on June 30, 1966, and published in the FEDERAL REGISTER on July 8, 1966 (31 F.R. 9348), it was provided that these designations would expire on June 30, 1967.

Pursuant to section 3(l) and section 11(b) of the Fair Labor Standards Act of 1938 (52 Stat. 1061 and 1066 as amended; 29 U.S.C. 203 and 211), and Reorganization Plan No. 2 of 1946 (3 CFR 1943–1948 Comp., p. 1064), I hereby extend the designations contained in 29 CFR 1500.21 until June 30, 1968.

Signed at Washington, D.C., this 14th day of August, 1967.

W. WILLARD WIRTZ,
Secretary of Labor.

[F.R. Doc. 67-9776; Filed, Aug. 18, 1967; 8:45 a.m.]

Title 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 7—SPECIAL REGULATIONS RELATING TO PARKS AND MONUMENTS

Fire Island National Seashore; Vehicular Use

On page 10803 of the FEDERAL REGISTER of July 22, 1967, there was published a notice and text of a proposed amendment to Part 7, Chapter I, Title 36, Code of Federal Regulations. As stated in that notice, the purpose of this amendment is to protect the Federal lands and interests in lands within the Fire Island National Seashore, to protect members of the public using such properties and to provide for such limited use of Seashore lands by motor vehicles for recreational and other purposes as will not conflict with conservation of the natural resources of the area.

Interested persons were given a period of 15 days within which they could submit written comments, suggestions, or objections to the proposed amendment. An overwhelming number of the comments received were from persons who favored strict limitations upon vehicle use within the Seashore. A number of communications were received from persons and organizations who objected to portions of the proposed regulations and suggested amendments thereto. To the extent the comments and suggestions were appropriate and consistent with the objectives stated in the notice and the act authorizing establishment of the Seashore, they are reflected in the regulations which are hereby adopted.

There is a great urgency that these regulations be placed into effect immediately because the season of heaviest visitor use is already underway. During this time, particularly, restrictions on the use of vehicles are needed to provide for the safety of people using the Seashore and to assure preservation of the area's unique natural values. The effectiveness of these regulations during the current season of heavy use will be evaluated and if changes are found necessary, amendments will be proposed before the next season. In view of the pressing need for vehicular controls at the Fire Island National Seashore, the following regulations shall become effective upon the date they are published in the FEDERAL REGISTER.

STEWART L. UDALL,
Secretary of the Interior.

AUGUST 17, 1967.

Part 7 of Chapter I, Title 36 of the Code of Federal Regulations, is amended by the addition of a new section reading as follows:

§ 7.20 Fire Island National Seashore.

(a) *Operation of motor vehicles*—(1) *Definitions.* The following terms or phrases, when used in this section, have the meanings hereinafter respectively ascribed to them:

(i) *Seashore lands.* Any lands owned or hereafter acquired by the United States or in which the United States possesses or hereafter acquires a proprietary interest.

(ii) *Motor vehicle.* Any self-propelled land vehicle.

(iii) *Official vehicle.* Any motor vehicle while used on official business of the U.S. Government, the State of New York, the County of Suffolk and of towns, villages, and communities situated on Fire Island.

(iv) *Public utility vehicle.* Any vehicle owned or operated by a public utility or a public service company enfranchised or licensed to supply Fire Island residents with electricity, water, or telephone service.

(v) *Service vehicle.* Any vehicle owned or operated by or on behalf of an individual, partnership, or corporation engaged in the business of furnishing construction, maintenance, or repair services, including, but not limited to, building, plumbing, installation or repair of household appliances, carpentry, painting, landscaping, garbage collection and delivery service.

(vi) *Emergency vehicle.* Any hearse, fire engine, and any motor vehicle while engaged in transporting, or bringing medical assistance to sick or injured persons.

(vii) *School bus.* Any motor vehicle owned or operated by or on behalf of a school district or other public or private entity maintaining elementary or secondary schools, while in use for transporting elementary or secondary school children and their teachers to and from school activities.

(viii) *Dune crossing.* An access way over a primary or transverse dune designated and marked as a dune crossing.

(ix) *Superintendent.* The Superintendent of the Fire Island National Seashore or his authorized representative.

(2) *Permits.* No motor vehicles, other than official vehicles, emergency vehicles, and school buses, shall be operated across Seashore lands, except under permit issued by the Superintendent.

(i) No permit shall be issued for any motor vehicle having a manufacturer's rated capacity in excess of 1 ton: *Provided*, That application may be made to the Superintendent for a special trip permit for a vehicle of greater capacity to carry heavier loads for which water transportation is not available or feasible.

(ii) No permit shall be issued for any motor vehicle not equipped, in the judgment of the Superintendent, to travel over sand.

(iii) Permits may be issued for periods of 1 day or longer, depending upon the reasonable requirements of the applicant, but not to extend beyond December 31 of the year of issuance.

(iv) Special permits may be issued to those persons who have satisfied the Superintendent that, by reason of their advanced age or infirmity, they require the use of a motor vehicle.

(v) The Superintendent is authorized to establish a system of permits consistent with the requirements of these regulations. Permits shall be displayed at all times in such manner as to be readily visible on any motor vehicle.

(3) *Authorized and Prohibited Travel.* (i) Travel on Seashore lands by official vehicles, emergency vehicles, and schoolbuses is permitted at all times.

(ii) Travel on Seashore lands by service vehicles between Robert Moses State Park and the westerly boundary of Smith Point County Park is permitted, except that during the period of June 1 through September 15 such travel shall be restricted to the hours between 5 p.m. of 1 day and 10 a.m. of the following day.

(iii) Travel on Seashore lands by public utility and bottled gas delivery vehicles while used for the installation, maintenance and repair of facilities is permitted only upon the issuance by the Superintendent of a special use permit prescribing such terms and conditions respecting the use of Seashore lands as the Superintendent may determine necessary for the protection of the Seashore and members of the public.

(iv) Travel on Seashore lands by all other vehicles between Robert Moses State Park and the easterly boundary of Ocean Ridge is permitted, except that during the period of June 1 through September 15 such travel shall be restricted to the hours between 7 a.m. and 10 a.m. and between 5 p.m. and 7 p.m.

(v) Travel on Seashore lands by all other vehicles between the easterly boundary of Ocean Ridge and the westerly boundary of Smith Point County Park is prohibited, except under prior existing rights of ingress and egress.

(vi) Any motor vehicle having a valid permit may be operated at all times on Seashore lands lying between the easterly boundary of Smith Point County Part and Moriches Inlet.

(4) *Rules of travel.* (i) So far as practicable, vehicles shall be operated in established tracks. When two vehicles approach from opposite directions in the same track, the operator with the water to his left shall yield by turning out of the track to the right.

(ii) No vehicle shall be parked closer than ten (10) feet or farther than twenty (20) feet from the established track or designated route.

(iii) No person shall operate a motor vehicle on Seashore lands at a speed greater than is reasonable and prudent, having regard to the safety and welfare of others, and to the objective of causing minimum damage to beach or other areas in which such vehicle is operated, and not in any event to exceed twenty-five (25) miles per hour.

(iv) No motor vehicle shall be operated on any portion of a dune except at posted dune crossings.

(v) The Superintendent may designate routes of travel across Seashore lands by the posting of appropriate signs. Where routes are so designated, vehicles shall be operated only within the designated routes.

(vi) No motor vehicle shall be operated by other than the holder of a valid operator's license.

(vii) No person who is under the influence of intoxicating liquor shall operate a motor vehicle on Seashore lands.

(viii) In an emergency, the Superintendent may suspend, for such period or periods as he shall deem advisable, any or all of the foregoing restrictions on vehicular travel, and he may announce such suspension by whatever means are available. In the event of high winds and waves, storms, or other adverse weather conditions, the Superintendent may close all or any portion of the Seashore lands to vehicular travel for such period as he shall deem advisable in the interests of public safety.

(5) *Violations.* Violation of any of the foregoing regulations shall be punishable as provided by law. The Superintendent

may, furthermore, suspend or revoke any permit for violation of any of the foregoing regulations. Failure to operate a motor vehicle in conformance with the terms of a permit shall be deemed a violation of the regulations in this part.

[F.R. Doc. 67-9677; Filed, Aug. 18, 1967; 10:35 a.m.]

Title 42—PUBLIC HEALTH

Chapter I—Public Health Service, Department of Health, Education, and Welfare

SUBCHAPTER F—QUARANTINE, INSPECTION, LICENSING

PART 77—FACILITIES USED FOR AIR POLLUTION CONTROL; CERTIFICATIONS FOR INVESTMENT TAX CREDIT PURPOSES

On February 22, 1967, notice of proposed rule making was published in the FEDERAL REGISTER (32 F.R. 3169) which set forth the text of regulations, proposed to be adopted as Part 77, establishing the procedure and requirements for obtaining the Secretary's certifications pursuant to section 48(h)(12)(C)(ii) of the Internal Revenue Code of 1954, as added by Public Law 89-800.

Pursuant to the above notice, a number of comments have been received from interested persons, and due consideration has been given to all relevant matter presented. In addition, the enactment of Public Law 90-26 which ended the suspension period for the investment tax credit on March 9, 1967, has rendered unnecessary some of the provisions in the proposed rules.

In light of the above, a number of revisions have been made in the rules as proposed, principally with respect to those criteria which the Secretary will consider in determining whether a facility is in compliance with the general policies of the United States as set forth in § 77.7(a) and with respect to advice on the certifications of proposed facilities.

In accordance with the statement in the notice of proposed rule making, Part 77, as set forth below, is hereby adopted effective on publication.

Sec.
77.1 Applicability.
77.2 Definitions.
77.3 Requirements for certification.
77.4 General provisions.
77.5 Applications.
77.6 State certification.
77.7 General policies.

AUTHORITY: The provisions of this Part 77 issued under sec. 301, 80 Stat. 378; 5 U.S.C. 301.

§ 77.1 Applicability.

The regulations of this part apply to certifications by the Secretary pursuant to section 48(h)(12)(C)(ii) of the Internal Revenue Code of 1954, as amended (26 U.S.C. 48(h)(12)(C)(ii)).

§ 77.2 Definitions.

As used in this part, all terms not defined herein shall have the meaning given them in the Act.

(a) "Act" means the Clean Air Act, as amended (42 U.S.C. 1857 et seq.).

(b) "Secretary" means the Secretary of Health, Education, and Welfare.

(c) "Surgeon General" means the Surgeon General of the Public Health Service.

(d) "State" means a State, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa.

(e) "State air pollution control agency" means a single State agency designated by the Governor of that State as the official State air pollution control agency for purposes of the Act as provided in section 302(b)(1) of the Act.

(f) "Applicant" means any person who files an application with the Surgeon General for certification that a facility is in compliance with the applicable regulations of Federal agencies and the general policies of the United States for cooperation with the States in the prevention and abatement of air pollution under the Act.

(g) "Facility" means property for which certification is sought under this part.

§ 77.3 Requirements for certification.

The Surgeon General will certify a facility if he determines that such facility is in compliance with the applicable regulations of Federal agencies, if any, the general policies of the United States for cooperation with the States in the prevention and abatement of air pollution under the Act as set forth in § 77.7, and if the applicant complies with all the other requirements of this part.

§ 77.4 General provisions.

(a) An applicant shall file a separate application in accordance with this part for each facility.

(b) Applications shall be submitted to the National Center for Air Pollution Control, Public Health Service, Washington, D.C. 20201, through the State air pollution control agency.

(c) A copy of each application submitted to a State air pollution control agency shall be forwarded by the applicant to the National Center for Air Pollution Control at the time such application is submitted to the State agency.

(d) An amendment to an application shall be submitted in the same manner as the original application and shall be considered a part of the original application.

(e) No certification will be made by the Surgeon General for any facility prior to the time it is placed into operation and the application, or amended application, in connection with such facility so states.

(f) No certification will be made for any facility unless the application or amended application is accompanied by a certification of the State air pollution control agency in accordance with § 77.6.

(g) If the facility is certified by the Surgeon General, notice of certification will be issued and forwarded to the applicant. If the facility is denied certification, the Surgeon General will advise the applicant in writing of the reasons therefor.

(h) Notice of actions taken under paragraph (g) of this section will be given to the appropriate State air pollution control agency.

§ 77.5 Applications.

Applications for certification under this part shall be submitted on such forms as the Surgeon General may prescribe, shall be signed by the applicant or agent thereof, and, in addition to any other information which the Surgeon General may reasonably require, shall include the following:

(a) Name, address, and Internal Revenue identifying number of the applicant;

(b) Type and narrative description of the facility for which certification is sought, including a copy of schematic or engineering drawings;

(c) Address of facility location;

(d) A general description of the operation in connection with which such facility is used and a description of the specific process or processes whose emissions are controlled by the facility;

(e) Description of the effect of such facility in terms of type and quantity of pollutants or contaminants removed, altered, or disposed of by such facility when plant or process is in full operation;

(f) Identification of the applicable State and local air pollution control requirements and standards;

(g) Date when such facility is placed in operation.

§ 77.6 State certification.

The certification of the State air pollution control agency in accordance with 26 U.S.C. 48(h)(12)(C)(ii) that the facility described in such application is in conformity with the State program or requirements for control of air pollution shall be executed by an agent or officer authorized to act on behalf of the State air pollution control agency and accompanied by evidence of such authority.

§ 77.7 General policies.

(a) The general policies of the United States for cooperation with the States in the prevention and abatement of air pollution under the Act are to cooperate with and to assist the States and local governments in improving and protecting the Nation's air resources by the prevention and abatement of conditions which cause or contribute to or which are likely to cause or to contribute to air pollution which endangers the health or welfare of any persons.

(b) In determining whether a facility complies with these general policies the Surgeon General will take into consideration the following:

(1) Recommendations issued pursuant to sections 103(e) and 105 of the Act which are applicable to facilities of the same type and located in the area to which the recommendations are directed.

(2) Whether the facility in operation meets local government requirements for control of air pollution, including emission standards, applicable to the facility.

Dated: August 14, 1967.

[SEAL] JOHN W. GARDNER, *Secretary.*

[F.R. Doc. 67-9606; Filed, Aug. 18, 1967; 8:48 a.m.]

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 16776; FCC 67-957]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

PART 74—EXPERIMENTAL, AUXILIARY, AND SPECIAL BROADCAST SERVICES

Frequency Allocations and Assignment

In the matter of amendment of Parts 2 and 74 of the Commission's rules with respect to the 150.8-162 Mc/s band to allocate presently unassignable spectrum to the land mobile services by adjustment of certain of the band edges, Docket No. 16776.

Report and order. 1. Notice of proposed rule making in the above-entitled matter was adopted by the Commission on July 20, 1966, and duly published in the FEDERAL REGISTER on July 27, 1966 (31 F.R. 10133). Interested parties were invited to file comments on or before September 1, 1966, and reply comments on or before September 15, 1966. In response to a petition by National Association of Radiotelephone Systems the Commission extended the time for filing reply comments to September 30, 1966. Comments were received from the following parties:

New York State Telephone Association, Inc.
Radio Specialists Co.
Central Committee on Communication Facilities of the American Petroleum Institute.
American Telephone & Telegraph Co.
GT&E Service Corp.
Professional & Sales Answering Service.
Southern California Radio Taxicab Association.
United States Independent Telephone Association.
National Committee for Utilities Radio.
National Association of Radiotelephone Systems.
Motorola, Inc.
The Western Union Telegraph Co.
Electronic Industries Association.

Reply comments were filed by National Association of Radiotelephone Systems.

2. In its notice, the Commission proposed to allocate to various land mobile radio services 210 kc/s of unused spectrum in the 150.8-162 Mc/s band. This spectrum materialized as a result of previous channel splitting in that band. By adjusting certain band edges, seven (7) clear channels, each 30 kc/s wide, would be made available to the land mobile services. It was proposed to allocate the seven channels as follows:

(1) Three 30 kc/s channels, centered on frequencies 152.480, 157.740 and 158.460 Mc/s, to the Industrial Radio Service;

(2) Four 30 kc/s channels, centered on frequencies 152.240, 152.840, 158.100 and 158.700 Mc/s, to the Domestic Public Land Mobile Radio Service.

In addition, Part 74 and footnote NG4 of the Table of Frequency Allocations in Part 2 would be amended to permit continued operation of remote pickup stations in the 152.84-153.38 Mc/s portion of the spectrum, but on a noninterference basis to domestic public operations in addition to services already protected.

3. A number of comments were prompted by a suggestion in the notice that the four domestic public frequencies might be apportioned equally among wireline and nonwireline common carriers. Since this subject is being examined in detail in Docket 16775, those comments will be considered in that proceeding. Similarly, comments concerning the further apportionment and/or use of frequencies herein allocated to the Industrial Service will be disposed of in Docket 16777.

4. In general, the comments concurred in the proposed frequency allocation with the belief that its adoption would promote better utilization in this region of the spectrum. Representatives of private land mobile interests expressed their encouragement at the prospect of an additional 90 kc/s of spectrum. Comments from the common carriers confirmed their need for the new channels to accommodate increasing demands for public service.

5. While no one objected to the proposals, Southern California, Radio Taxicab Association requested that the Commission consider and weigh the frequency needs of the Taxicab Service in the matter of allocation of the 150 Mc/s "guard band" channels. That the Commission recognizes and is very much concerned over the frequency shortage in all of the land mobile radio services, including the Taxicab Service, is manifest in the numerous studies and other docket proceedings presently under way in an attempt to relieve the situation. Unfortunately, the relatively small, though valuable, frequency segments involved in this proceeding if designated for ordinary land mobile operations could afford only brief and minor transient relief to the over all frequency problem. It is primarily for this reason that the Commission has been intent upon finding an allocation scheme that will permit a more efficient and effective utilization of the frequencies in the public interest. To make this determination, all of the factors and petitions relevant to the use of the channels have been carefully considered by the Commission, first in preparation of the proposal and now in the finalization of the rules. As a result of those considerations and in view of generally favorable public response to the notice, it has been decided herein to make the frequencies available for assignment in the Industrial and Domestic Public Radio Services for types of operations to be determined in related Dockets 16777 and 16778.

6. Therefore, since the factors leading to the proposed frequency allocation have remained essentially unaltered and the Commission believes that such action is consistent with public interest, convenience and necessity, the rule amendments are being adopted as proposed.

7. In view of the foregoing: *It is ordered,* Pursuant to the authority contained in sections 4(i) and 303 of the Communications Act of 1934, as amended, that effective September 22, 1967, Parts 2 and 74 of the Commission's rules are amended as set forth below.

8. *It is further ordered,* That the proceedings in Docket 16776 are hereby terminated.

(Secs. 4, 303, 48 Stat., as amended 1066, 1082; 47 U.S.C. 154, 303)

Adopted: August 9, 1967.

Released: August 16, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] BEN F. WAPLE, *Secretary.*

I. Part 2 of the Commission's rules is amended as follows:

In § 2.106, The Table of Frequency Allocations is amended in respect to the frequency bands 152-153.7325 Mc/s and 157.45-159.48 Mc/s as follows, and footnote NG4 is amended as set forth below:

[1] Commissioners Loevinger, Wadsworth, and Johnson absent.

Band (Mc/s)	Service	Class of station	Frequency (Mc/s)	Nature of services
7	8	9	10	11
• • •	• • •	• • •	• • •	• • •
152–152.255	LAND MOBILE.	Base, Land mobile.		DOMESTIC PUBLIC.
152.255–152.405	LAND MOBILE.	Base, Land mobile.		LAND TRANSPORTATION. (NG38)
152.405–152.495	LAND MOBILE.	Base, Land mobile.		INDUSTRIAL.
152.495–152.855	LAND MOBILE.	Base, Land mobile.		DOMESTIC PUBLIC. (NG4)
152.855–153.7325	LAND MOBILE.	Base, Land mobile.		INDUSTRIAL. (NG4)
• • •	• • •	• • •	• • •	• • •
157.45–157.725	LAND MOBILE.	Base, Land mobile.		LAND TRANSPORTATION. (NG5) (NG38)
157.725–157.755	LAND MOBILE.	Base, Land mobile.		INDUSTRIAL.
157.755–158.115	LAND MOBILE.	Base, Land mobile.		DOMESTIC PUBLIC.
158.115–158.475	LAND MOBILE.	Base, Land mobile.		INDUSTRIAL.
158.475–158.715	LAND MOBILE.	Base, Land mobile.		DOMESTIC PUBLIC.
158.715–159.45	LAND MOBILE.	Base, Land mobile.		PUBLIC SAFETY.

• • • • • • • • •

NG4 The use of the frequencies in the band 152.84–153.38 Mc/s may be authorized, in any area, to remote pickup broadcast base and mobile stations on the condition that harmful interference will not be caused to stations operating in accordance with the Table of Frequency Allocations.

II. Part 74 of the Commission's rules is amended as follows:

In § 74.402(a), footnote 3 is amended to read as follows:

[3] Subject to the condition that no harmful interference is caused to stations operating in accordance with the Table of Frequency Allocations.

[F.R. Doc. 67-9751; Filed, Aug. 18, 1967; 8:45 a.m.]

[Docket No. 16777; FCC 67-988]

PART 91—INDUSTRIAL RADIO SERVICES

Frequencies Available

In the matter of amendment of Part 91 of the Commission's rules to allocate certain unassigned band-edge frequencies in the 150.8–162 Mc/s band, Docket No. 16777; petition of the Forest Industries Radio Communications for assignment of additional frequency space to the Forest Products Radio Service in the 150 Mc/s bands, RM–707; petition of Special Industrial Radio Service Association, Inc., for allocation of additional frequencies to the Special Industrial Radio Service in the 150 Mc/s bands, RM–752; petition of National Committee for Utilities Radio for amendment of Parts 21, 89, 91, and 93 of the Commission's rules to allocate certain frequencies in the 150–162 Mc/s bands, RM–884.

Report and order. 1. On July 22, 1966, the Commission issued its notice of proposed rule making in the above-entitled proceeding which was published in the FEDERAL REGISTER on July 27, 1966, 31 F.R. 10136. The time for filing comments and reply comments has expired. All comments filed have been carefully considered.

2. In its Report and Order in Docket 16776, adopted today, the Commission allocated the channels 152.48, 157.74, and 158.46 Mc/s to the private land mobile radio services. The objective of the instant proceeding is to allocate this spectrum to a specific use. In the Notice we propose to divide the 90 kc/s of spectrum space into 9 channels of 10 kc/s each and to make these channels available for one-way paging communications in the Industrial Radio Services. In addition to comments on this proposal, information was specifically requested on the availability of equipment to be used on these frequencies as proposed.

3. Comments were filed by Radio Systems, Inc., Forest Industries Radio Communications Association (FIRCA), NAM Communications Committee (NAM), The Land Mobile Communications Section of the Electronic Industries Association (EIA), Central Committee on Communication Facilities of the American Petroleum Institute (API), Special Industrial Radio Services Association (SIRSA), National Association of Business and Educational Radio, Inc. (NABER), National Committee for Utilities Radio (NCUR), Albertson Communications, Inc., Pattersonville Telephone Co., and by the American Telephone and Telegraph Co. (AT&T). NABER also filed reply comments.

4. The first basic issue raised by the comments was whether the 90 kc/s of space under consideration should be made available for paging communications or whether it should be allocated in one or more of the private land mobile services for two-way use. SIRSA, FIRCA, and NCUR urged that this space should be allocated to the coordinated Industrial Services for two-way base-mobile communications. All others agreed with our proposal to make it available for paging. SIRSA, FIRCA, and NCUR argued primarily that there is no present requirement for paging in the services they represent (the Special Industrial, Forest Products, and Power Radio Services, respectively) although these services need additional frequencies for normal base/mobile communications. Those who supported our proposal stated that there is a growing need for comunications with individuals on the move, especially in certain industries such as manufacturing and in many service organizations, and indicated that the potential exists for expanded use of paging communications. For example, NAM detailed extensive use of paging in the aircraft and automobile manufacturing industries to contact key personnel on the move, and NABER pointed out that IBM now operates nearly 7,000 paging units in 66 major cities and that it plans to expand this operation to a total of 150 cities. Further, all agreed that paging systems, now operated on two-way radio channels, are not compatible with two-way systems on the same frequency in the same area. For this reason, it was suggested that eventually all exclusively paging systems should be confined to specific frequencies and that our proposal would be a good step in that direction.

5. We have considered all of the arguments on this issue and we conclude that the 90 kc/s of space under consideration should be allocated for one-way paging use, both tone alert and tone alert with voice message. SIRSA, FIRCA, and NCUR presented basically the same arguments contained in their respective petitions which were considered when the Notice in this proceeding was adopted. The Commission is aware of the needs of the land mobile services for additional frequencies. However, we believe that the allocation of this spectrum to one-way paging would result in the overall benefit of the land mobile radio services. First, it is undisputed that there is a growing need for one-way paging for which some provisions should be made. Also, as pointed out in the comments, operation of a busy one-way paging system on a two-way frequency makes it practically useless for two-way operations in the same area. Experience gained from one-way paging uses on regular two-way frequencies indicates a growing conflict between these two types of users. Thus, the availability of frequency space for one-way paging systems would permit existing and future licensees to establish paging operations on these frequencies thus providing some measure of relief for two-way frequencies they now occupy. The Commission realizes that the space under consideration would not be adequate to satisfy all paging needs. However, other sources for additional frequency space will be explored in the near future. At that time, consideration will be given to confining all one-way paging systems to frequencies designated for that purpose, as urged in the comments. In the meantime, this heretofore unused spectrum should accommodate part of existing one-way paging requirements.

6. The comments, especially those of the EIA and others, opposed our proposal to divide the 90 kc/s of spectrum into 9 channels. They argued that operation of paging systems on 10 kc/s channels with equipment currently available would cause destructive interference not only to paging systems in adjacent frequencies but also to existing two-way systems on adjacent two-way channels. The pointed out that the current technical standards for the 150–162 Mc/s band and available equipment are designed for operation on 30 kc/s and recommended that, since the 90 kc/s of spectrum space consists of 3 separate segments interspersed between frequencies now used in other services, it should be divided into 3 separate assignable channels. In view of these comments, each of the 30 kc/s spaces will be made assignable as one channel. However, we will periodically review this matter to determine whether special technical standards for one-way paging should be established.

7. NAM requested that two-thirds of the spectrum space under consideration, or 6 out of the proposed 9 channels, should be allocated to the Manufacturers Radio Service to meet the growing need for paging communications in sprawling manufacturing plants. We recognize the growing need for one-way paging in the manufacturing industry. However, as noted above, the requirements for paging communications are not confined to the manufacturing industry. Indeed, city-wide or even areawide paging systems, such as those operated by IBM, for which these frequencies are well suited, are licensees in the Business Radio Service. Accordingly, we have concluded that these frequencies should be allocated to the Business Radio Service in order to make them broadly available. Manufacturers, of course, will have access to these frequencies, although not exclusively as suggested by NAM.

8. SIRSA suggested that if the Commission concludes that the frequencies in question should be allocated for paging, two-way systems in the Special Industrial Radio Service and other coordinated services should be permitted to share this spectrum with paging systems. It argued that paging systems most likely would be operated in urban areas, while some of the categories of industries eligible in the Special Industrial Radio Service operate principally in rural areas and can use these frequencies without conflict with paging systems in urban areas. For the reasons stated above, we think that these frequencies should be allocated primarily for paging communications and indications are that they will be used extensively for that purpose in most areas of the country. However, we do want to encourage their fullest possible use. Accordingly, we will also make them available to the Special Industrial Radio Service and to the Forest Products Radio Service (where operations are also conducted in rural areas) on a secondary basis subject to no protection from interference from paging systems. Our experience has indicated the undesirability of permitting one-way paging and two-way systems to share frequencies. To insure that new one-way paging systems are installed on appropriately designated frequencies and to protect lower power plant area and city one-way paging systems from higher power voice two-way systems, users in the Special Industrial and Forest Products Radio Services will be required to protect one-way paging from any harmful interference.

9. In view of the limited number of frequencies, it is expected that licensees will cooperate in their selection of frequencies, will share one-way paging systems, and will employ and coordinate the use of audio tones used for selective signaling. These methods should result in the more effective use of the limited frequencies. However, pending further study, we will not impose these requirements now. NAM also suggested that provisions should be made for authority to operate paging systems with carrier controlled relays, and to exempt paging operations on these frequencies from the control point and attended operation requirements of § 91.107 of the rules. We recognize that special rules, perhaps including those suggested by NAM, may be required to govern one-way paging operations. However, we believe that such rules should be considered thoroughly in another proceeding so that all interested persons would have an opportunity to comment thereon.

10. In the interim, we think that we should establish power limitations for paging systems to be operated on the frequencies made available herein. Some of those who filed comments addressed themselves to this matter. API, for example, suggested that we limit the maximum permissible power on these frequencies to approximately 30 watts input. NAM suggested a maximum power in the order of 100 watts. We believe that current paging requirements will be met best by imposing different power limitations on each of the frequencies. As noted above, there are in operation now paging systems covering entire metropolitan areas. To accommodate those and others like them, we propose to permit a maximum of 600 watts on one of the frequencies. On the remaining two frequencies we will permit 120 and 30 watts maximum power, respectively, which, we think, is adequate for most one-way paging operations within city and plant areas. In either case, however, existing rules (see § 91.106(a)) require licensees to use no more power than they need for adequate coverage and licensees of paging systems are subject to this requirement.

11. *Accordingly, it is ordered*, Pursuant to authority contained in sections 4(i) and 303 of the Communications Act of 1934, as amended, that, effective September 22, 1967, Part 91 of the Commission's rules is amended as shown below.

12. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended 1066, 1082; 47 U.S.C. 154, 303)

NOTE: Rules changes herein will be covered by T.B. V(64)–15.

Adopted: August 9, 1967.

Released: August 16, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] BEN F. WAPLE, *Secretary.*

Part 91 of the Commission's rules is amended as follows:

1. In § 91.354 the Frequency Table in paragraph (a) is amended in part by the addition of the following frequencies in appropriate numerical sequence, and paragraph (b) is amended by adding subparagraph (21) as follows:

§ 91.354 Frequencies available.

(a) • • •

FOREST PRODUCTS RADIO SERVICE FREQUENCY TABLE

Frequency or band	Class of station(s)	Limitations
• • •	• • •	• • •
152.48	Base or mobile	21
• • •	• • •	• • •
157.74	Base or mobile	21
• • •	• • •	• • •
158.46	do	21

• • • • • • • • •

(b) • • •

(21) This frequency is available in this service on a secondary basis to one-way paging communications authorized in the Business Radio Service and is also available on the same basis in the Special Industrial Radio Service. Operations on this frequency must cause no harmful interference to one-way paging systems licensed in the Business Radio Service.

2. In § 91.504 the Frequency Table in paragraph (a) is amended in part by the addition of the following frequencies in appropriate numerical sequence, and paragraph (b) is amended by adding subparagraph (19) as follows:

§ 91.504 Frequencies available.

(a) • • •

SPECIAL INDUSTRIAL RADIO SERVICE FREQUENCY TABLE

Frequency or band	Class of station(s)	General reference	Limitations
• • •	• • •	• • •	• • •
152.48	do	do	19
• • •	• • •	• • •	• • •
157.74	do	do	19
• • •	• • •	• • •	• • •
158.46	do	Permanent use	19

• • • • • • • • •

[1] Commissioner Cox concurring and issuing a statement filed as part of the original document; Commissioners Loevinger, Wadsworth, and Johnson absent.

(b) • • •

(19) This frequency is available in this Service on a secondary basis to one-way paging communications authorized in the Business Radio Service and is also available on the same basis in the Forest Product Radio Service. Operations on this frequency must cause no harmful interference to one-way paging systems licensed in the Business Radio Service.

• • • • • •

3. In § 91.554 the Frequency Table in paragraph (a) is amended in part by the addition of 152.480, 157.740 and 158.460 Mc/s in appropriate numerical sequence, and paragraph (b) is amended by adding subparagraphs (25), (26), (27), and (28) as follows:

§ 91.554 Frequencies available.

(a) • • •

BUSINESS RADIO SERVICE FREQUENCY TABLE

Frequency or band	Class of station(s)	General reference	Limitations
• • •	• • •	• • •	• • •
152.480	Base	One-way paging	25, 26.
154.540	Base or mobile	Permanent use	10, 11.
• • •	• • •	• • •	• • •
157.740	Base	One-way paging	25, 26, 28.
158.460	do	do	26, 27, 28.

• • • • • •

(b) • • •

(25) This frequency will be assigned only for one-way paging communications to mobile receivers. A2, A3, F2, or F3 emissions may be authorized. Transmissions for the purpose of activating or controlling remote objects on this frequency is not authorized.

(26) Operation on this frequency is limited to 120 watts to the final radio frequency stage.

(27) Operation on this frequency is limited to 30 watts to the final radio frequency stage.

(28) This frequency will not be assigned to stations for use at temporary unspecified locations.

[F.R. Doc. 67-9752; Filed, Aug. 18, 1967; 8:45 a.m.]

Title 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission and Department of Transportation

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Ex Parte No. 343]

PART 191—LOCOMOTIVE INSPECTION OTHER THAN STEAM LOCOMOTIVE RULES

Miscellaneous Amendments

AUGUST 15, 1967.

The Federal Railroad Administrator at his office in Washington, D.C., on the 5th day of August A.D. 1967.

Upon consideration of the record in the above-entitled proceeding, including the Interstate Commerce Commission's Decision and Order of March 6, 1967, which was served on March 17, 1967, and the petitions for reconsideration of said Decision and Order filed by the Association of American Railroads and the railway labor organizations and their respective replies thereto;

It appearing, that said order was stayed by the timely filing of petitions for reconsideration and that notice of such stay was published in the FEDERAL REGISTER on June 6, 1967; and

It appearing, that the petitions for reconsideration filed by railway labor organizations and the Association of American Railroads do not show any material errors of fact or law in the determinations made by the Interstate Commerce Commission in its Decision and Order of March 6, 1967; therefore

I find, that the evidence considered in the light of the petitions for reconsideration and replies thereto does not warrant a result different from that reached by the Interstate Commerce Commission, except for the deletion of the phrase "the function of which is to apply or release the airbrakes" in § 191.208(c), and that the Decision and Order of the Interstate Commerce Commission, of March 6, 1967, being proper and correct in all material respects, should be and they are hereby affirmed and adopted, as corrected; and

It is ordered, That the petitions for reconsideration be and they are hereby denied, and

It is further ordered, That the Administration's Rules and Instructions for Inspection and Testing of Locomotives Other Than Steam be, and they are hereby amended or deleted, as shown below; and

It is further ordered, That the effective date of the amendments to, or deletions of, rules as indicated in the Appendix, shall become effective 60 days from the date of service of this order;

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy in the Office of the Director of the Bureau of Railroad Safety and by filing it with the Director, Office of the Federal Register.

[SEAL] A. SCHEFFER LANG, *Administrator*.

§ 191.201 Locomotive unit.

• • • • • •

(b) *Marking front.* The letter "F" shall be legibly shown on each side of every locomotive unit near the end, which, for identification purposes, will be known as the front end. The unit number shall be legibly shown on each side of every locomotive unit and shall be shown on the specification card, Form No. 4–A.

• • • • • •

BRAKE EQUIPMENT: AIR BRAKES

§ 191.206 Main reservoir tests.

(c) *Telltale holes.* Each main reservoir of the type described in the note below, hereafter put into service may be drilled over its entire surface with telltale holes made by a standard three-sixteenths inch drill, which holes shall be spaced not more than twelve inches apart, measured both longitudinally and circumferentially, and drilled from the outer surface to an extreme depth determined by the formula

$$D=\frac{6PR}{S-0.6P}$$

where D=extreme depth of telltale holes in inches but in no case less than one-sixteenth inch; P=certified working pressure in pounds per square inch; S=one-fifth of the minimum specified tensile strength of the material in pounds per square inch; and R=inside radius of the reservoir in inches. One row of holes shall be drilled lengthwise of the reservoir on a line intersecting the drain opening. No reservoir so drilled needs to be subjected to the requirement of paragraph (a) or (b), except the requirement for a hydrostatic test before being put in service. Whenever any such telltale hole shall have penetrated the interior of any such reservoir, the reservoir shall be permanently withdrawn from service. At the option of the carrier, such drilling may be applied to any reservoir now in service, in lieu of the tests provided for by paragraphs (a) and (b) of this section, but not without the said hydrostatic test after first being drilled.

NOTE: Paragraph (c) applies only to welded reservoirs originally constructed to withstand at least five times the maximum working pressure fixed by the chief mechanical officer of the railroad desiring to come within the terms of such paragraph, as evidenced by a manufacturer's certificate to that effect filed with the Commission.

§ 191.208 Cleaning.

(a) The filtering devices or dirt collectors located in the main reservoir supply line to the air brake system must be cleaned, repaired, or replaced as often as conditions require to maintain them properly in a safe and suitable condition for service, and not less frequently than once each 6-month period.

(b) Brake cylinder relay valve portions, main reservoir safety valves, brake pipe vent valve portions, and feed and reducing valve portions in the air brake system (including related dirt collectors and filters) must be cleaned, repaired, and tested as often as conditions require to maintain them properly in a safe and suitable condition for service, and not less frequently than once each 12-month period.

(c) All other valves and valve portions in the air brake system (including related dirt collectors and filters) must be cleaned, repaired, and tested as often as conditions require to maintain them properly in a safe and suitable condition for service, and not less frequently than once each 24-month period.

(d) The date of testing or cleaning, and the initials of the shop or station at which the work is done, shall be legibly stenciled in a conspicuous place on the parts, or placed on a card displayed under transparent cover in the cab of each locomotive unit.

DRAWGEAR BETWEEN LOCOMOTIVE UNITS, CONNECTIONS BETWEEN TRUCKS AND DRAFTGEAR

§ 191.212 General provisions.

• • • • • •

(c) *Removal of drawbars and pins.* Lost motion in drawbars and pins when used between units or trucks shall not exceed one-half inch at each pin, and shall be checked by tramming.

(d) *Removal of drawbars and pins.* Lost motion in articulated connections when used between units or trucks shall not exceed one-half inch at each pin, and shall be checked by tramming.

• • • • • •

ELECTRICAL EQUIPMENT

§ 191.247 Jumpers; cable connections.

• • • • • •

(b) *Tests; record.* Cable connections between units and jumpers that carry current having a potential of 600 volts or more shall be thoroughly cleaned, inspected, and tested as often as conditions require to maintain them in safe and suitable condition for service, but not less frequently than every 3 months, by immersing the cable portion in water and subjecting each conductor with another, and with the water, to a difference in potential of not less than one and three-fourths times the normal working voltages for not less than one minute. Date and place of inspection and test shall be legibly marked on the jumper or cable or on a tag securely attached thereto.

• • • • • •

PERIODICAL REPORTS

§ 191.331 Monthly locomotive unit inspection and report.

(a) *30-day locomotive unit inspection and report.* Not less than once every 30 days a report shall be made on Form 1–A, covering each locomotive unit in use, which shall show the condition of the unit as determined by an inspection made in accordance with the law and these rules and instructions. The railroad may perform the inspection required by this rule within the 5 days next following the expiration of the 30-day period, if conditions beyond the control of the railroad render such additional time necessary; and in that event proper notation shall be made on the reverse of the report on Form 1–A. The report shall be prepared on a good grade of pale blue paper, size 6 x 9 inches, and subscribed and sworn to, before an officer authorized to administer oaths, by the inspectors who made the inspection, and by the officer in charge. A duplicate copy of this report shall be filed in the office of the mechanical officer having charge of the locomotive and within 10 days after each inspection one copy shall be transmitted to the U.S. District Inspector.

(b) *Cab report.* A copy of the last inspection report shall be displayed under transparent cover in a conspicuous place in the cab of each unit. This copy must be a duplicate in all ways of the report filed with the district inspector, except it need not be sworn to, and in the event this copy is destroyed or becomes lost or illegible it may be replaced by a conformed copy.

(c) *Out of service report.* When a locomotive is withheld from service for 30 or more consecutive days or was out of service when it would otherwise be due for inspection, an out-of-service report covering such unit shall be made on the reverse of Form 1–A. The out-of-service time shall be totalled and recorded on the reverse of Form 1–A and the interval prescribed for any particular test or inspection required by these rules may then be extended by the number of such consecutive out-of-service days recorded since the date of the last previous test or inspection, except as provided in paragraph (d) of this section. The report shall be made on each date on which an inspection or test would have been due except for the extension and shall show the name of the railroad, the place where made, the initials and number of the unit, the place where unit is out of service, and the reason for being out of service.

(d) *Out-of-service report when filed.* The out-of-service report shall be transmitted to the United States District Inspector in charge within 10 days after the 30-day inspection period for which it is to cover. One copy of the report will be retained in the office of the mechanical officer having charge of the locomotive. It need not be sworn to but must be signed by the officer in charge of the locomotive unit. When out-of-service report has been filed, an inspection must be made and report made on Form 1–A before the unit is again returned to service.

§ 191.334 Extensions.

(a) *Automatic extensions for time out of service.* The time for making inspections and tests on units and boilers which are out of service for 30 or more consecutive days may be extended without application as hereinafter provided. Time out of service shall be properly accounted for by out-of-service reports and notations made on the back of each subsequent inspection report and cab card for time claimed out of service. Less than 30 days out of service will not be counted toward extensions.

Agricultural Stabilization and Conservation Service

[7 CFR Part 817]

REQUIREMENTS RELATING TO BRINGING OR IMPORTING SUGAR, OR LIQUID SUGAR INTO CONTINENTAL UNITED STATES

Notice of Proposed Rule Making

Notice is hereby given that the Secretary of Agriculture pursuant to authority vested in him by the Sugar Act of 1948, as amended (61 Stat. 922, as amended) is considering amendment of Sugar Regulation 817 (29 F.R. 6477, 12452; 30 F.R. 15316; 31 F.R. 8536, 16518, 32 F.R. 10345).

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed regulation shall file the same in duplicate with the Director of the Sugar Policy Staff, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 15 days after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in a manner convenient to the public business (7 CFR 1.27(b)).

The proposed amendment, which would revise and consolidate Sugar Regulation 817 and make several changes in the requirements relating to bringing or importing sugar into the continental United States, is set forth essentially in form and language appropriate for issuance if adopted by the Secretary as follows:

Basis and purpose and bases and considerations. The regulations contained in §§ 817.1 through 817.12 are issued pursuant to section 403(a) of the Sugar Act of 1948, as amended (61 Stat. 922, as amended) hereinafter called the Act.

This revision of Sugar Regulation 817 supercedes the revision which became effective May 19, 1964, and amendments thereto. The purpose of this revision is to consolidate and clarify the regulation by deleting parts which are no longer applicable, to make minor clarifying changes in wording and to make additions necessitated by the 1965 amendments to the Sugar Act. Procedural requirements are amended in the following respects and for the reasons given in the paragraphs that follow.

Section 817.2(f) is changed to redefine "Collector" of Customs to mean the "District Collector of Customs", to conform with the recent reorganization of the Bureau of Customs. In paragraph (j) of § 817.2 the term "sugar" has been redefined to also mean "liquid sugar". This will eliminate much repetition by using the word "sugar" in the many places where "sugar and liquid sugar" were formerly used. Paragraph (m), (n), and (o) have been added to § 817.2 to define "port of departure", "producing area" and "release" in order to carry out effectively the quota provisions of the Act.

Paragraph (f) of § 817.3 has been amended to clarify the requirement that sugar which is manipulated or used in the manufacture of a product under customs custody or in a Foreign Trade Zone for subsequent entry into the continental United States must be either charged to a direct-consumption quota or put under bond for quota-exempt use pursuant to provisions of this Part 817.

Paragraph (d) of § 817.4 which permits the acceptance of applications for importation by telegram has been amended by setting forth the condition under which such applications will be approved as preventing delay in unlading a carrier.

Section 817.5 is changed so that raw sugar produced from sugarcane grown in Hawaii, coming into the port of San Francisco for further processing, may be released by the Collector without authorization from the Secretary except when advised to the contrary.

The provision in § 817.6(b) that establishes priority of approval of SU-3 and set-aside applications that become eligible for approval at the same time where the quantity applied for exceeds the quantity available for authorization has been changed as follows: Such remaining quantity available for authorization on SU-3's shall be apportioned equally among applications but no application will be approved for a quantity larger than that applied for. Such remaining quantity available for authorization on set-aside of quota applications shall be allocated if possible on the basis of agreement among applicants, otherwise allocations will be apportioned among the applicants in the same manner as quantities pursuant to SU-3 applications.

Paragraph (a) of § 817.7 has been expanded to permit the commingling of sugar on a carrier from more than one producing area, provided, that arrangements in writing have been made to furnish documents to the Sugar Quota Group that will provide a basis for determining the proper charges to the quotas of the respective producing areas.

Section 817.8 which includes a summary of the authorizations for sugar to be brought into the United States for purposes other than to fill current quotas is amended as follows: (1) Paragraph (b)(3) on the Distillation of Alcohol is expanded to include production of alcohol (other than by distillation) pursuant to 1965 Sugar Act Amendments; (2) paragraph (b)(4) is changed to regulate the importation of livestock feed products that contain large and abnormal amounts of sugar. Sugar is now being entered into a Foreign Trade Zone mixed therein with grain products and Knolin (clay product) and subsequently entered in the form of a mixture for livestock feed. It is our understanding that the sugar in this type of product could be separated quite readily, therefore such products should be subjected to appropriate regulations to reduce the likelihood of the sugar being used for quota purposes; (3) paragraph (c) has been amended to permit the release under bond for refining and storage the remaining portion of the last cargo imported under a quarterly quota limitation. This provision was included in Sugar Regulation 811 for 1967.

Section 817.9 on bonds to cover releases has been amended as follows: Paragraphs (a), (b), and (d) have been revised to include sugar used in the production of alcohol (other than by distillation) for purposes other than human food use as contained in the Sugar Act Amendments of 1965, paragraph (e)(2) has been revised to provide for a separate Certificate of Use for sugar used in the distillation and production of alcohol and paragraph (e) has been further amended by adding a new subparagraph (4) which provides that each refiner holding over-quota sugar in inventory under bond for refining and storage pending availability of a quota shall upon request by the Secretary supply information necessary to determine that such refiner has met the inventory requirements pursuant to the bond obligation.

Pursuant to the authority vested in the Secretary of Agriculture by section 403(a) of the Act, Part 817 is revised and amended to read as follows:

Sec.
817.1 Purpose and persons affected.
817.2 Definitions.
817.3 Restrictions on importing sugar and liquid sugar.
817.4 Application by importer.
817.5 Release by a Collector.
817.6 Specific authorization for release.
817.7 Applicable quota and allotment.
817.8 Authorization for purposes other than to fill current quotas.
817.9 Bonds to cover releases.
817.10 Sugar-containing products and mixtures.
817.11 Records and reports.
817.12 Delegation of authority.

AUTHORITY: The provisions of this Part 817 issued under sec. 403, 61 Stat. 932; 7 U.S.C. 1153. Interpret or apply secs. 101, 202, 205, 209, 211, 212; 61 Stat. 922, as amended, 924, as amended, 926, as amended, 928; 7 U.S.C. 1101, 1112, 1115, 1121, 1122.

§ 817.1 Purpose and persons affected.

(a) Under authority contained in the Sugar Act of 1948, as amended (61 Stat. 922, as amended) and subject to the provisions contained in Part 811 of this chapter, the regulations in this part establish the procedures applicable to (1) importing or bringing sugar into the continental United States from all domestic offshore areas and foreign countries, (2) importing or bringing sugar in a sugar-containing product or mixture into the United States, Hawaii, or Puerto Rico, and (3) reporting the applicable evaluation provided for in Part 810 of this chapter and the subsequent processing and movement of imported sugar.

(b) Persons affected by the provisions of this part include importers, mainland refiners, allottees of offshore domestic sugar quotas, shipping companies engaged in the transportation of sugar to ports in the continental United States, persons otherwise engaged in the movement of sugar in interstate or foreign commerce and surety companies undertaking obligations with respect to offshore sugar.

§ 817.2 Definitions.

As used in this part:

(a) The term "Act" means the Sugar Act of 1948, as amended (61 Stat. 922).

(b) The term "person" means an individual, partnership, corporation, association, estate, trust, or other business enterprise or legal entity, and, wherever applicable, any unit, instrumentality, or agency of a government, domestic or foreign.

(c) The term "Department" means the U.S. Department of Agriculture.

(d) The term "Secretary" means the Secretary of Agriculture or any officer or employee of the Department to whom the Secretary has delegated the authority or to whom authority may hereafter be delegated to act in his stead.

(e) The term "Sugar Quota Group" means the Sugar Quota Group of the Policy and Program Appraisal Division, Agricultural Stabilization and Conservation Service of the Department, Washington, D.C. 20250, or any other organizational unit within the Department to which administration of the Quota and Allotment provisions of the Sugar Act may hereafter be delegated.

(f) The term "Collector" means the District Director, U. S. Bureau of Customs for the Customs Region in which the port of entry is located, except that for Region II, such term means the Regional Commissioner or the appropriate Assistant Regional Commissioner.

(g) The terms "import," "importation" and "importing" mean the act of bringing sugar into the continental United States (including Alaska) from either an insular domestic area or a foreign country. For purposes of the regulations of this part, the time of importation shall not be earlier than the time and date that a carrier arrives within the port limit of a Customs port or point of entry as shown by the log of the carrier with intent to therein unlade, except when such time and date is in conflict with official records of the Customs port of arrival in which event the time and date shown by Customs records shall govern.

(h) The term "importer" means any person who brings or imports sugar or liquid sugar into the continental United States from either an offshore domestic area or a foreign country including but not limited to the owner, consignor, consignee, transferee, or purchaser of such sugar or the broker acting in behalf of such person.

(i) The term "refiner" means any person who subjects offshore sugar or liquid sugar to processes as provided in Part 810 of this subchapter.

(j) The terms "sugars," "sugar," "raw sugar," "direct-consumption sugar" and "liquid sugar" have the meanings ascribed to each in section 101 (b), (c), (d), (e), and (f), respectively, of the Act subject to the provisions of Part 810 of this subchapter with respect to the distinction between raw and direct-consumption sugar. The term "Sugar" also shall mean "liquid sugar".

(k) The term "quota" means any quota, direct-consumption limitation within a quota, proration or allotment of either a quota or direct-consumption limitation, or any quantity authorized for purchase and importation from foreign countries established by the Secretary in Part 811 of this subchapter pursuant to the Act.

(l) The term "allotment" means any allotment of any quota made by the Secretary pursuant to section 205(a) of the Act.

(m) The term "port of departure" means the port of departure in the producing area, except that where sugar is from a country or area having no seaport of its own and the sugar must be transported to another country or area for marine shipment, the term means the port at which the sugar is placed on a carrier for shipment to the continental United States.

(n) The term "producing area" means the country or area in which the sugarcane or sugar beets from which the sugar was produced were grown.

(o) The term "release" means the act on the part of a Collector permitting a carrier to be unloaded and the sugar to be imported.

§ 817.3 Restrictions on importing sugar and liquid sugar.

(a) Any person is hereby prohibited from importing at any one time more than 100 pounds of sugar except pursuant to the provisions of this part.

(b) Sugar shall be imported only at Customs ports of entry.

(c) Subsequent provisions of this part do not apply to operators of common carriers importing a quantity of sugar no larger than reasonably required for consumption by passengers and crew to the termination of a trip beginning in an insular area or foreign country.

(d) A copy of the carrier's manifest, bills of lading, or other shipping documents covering all sugar in a shipment must be submitted to the Collector before delivery to the consignee of sugar for direct-consumption or within 72 hours after the beginning of unlading of sugar which is to be further refined.

(e) In any case in which the Collector is not authorized pursuant to § 817.5 to permit the release of any sugar at the time of arrival at the port of entry, he shall take custody of such sugar whether of domestic or foreign origin and shall retain custody, at the risk and expense of the consignee or owner, until authorized to permit release thereof in accordance with § 817.5. In taking and retaining custody pursuant to the regulations of this part of sugar of foreign origin, the Collector shall be governed by the provisions of §§ 4.37, 4.38, 19.1 through 19.9 and 19.12 of Chapter I, Title 19, Code of Federal Regulations, which are made applicable to such custody by reference as fully as if set forth in full herein. In taking and retaining custody of sugar of domestic origin, pursuant to the regulations of this part, the Collector shall place and hold such sugar in a public warehouse or in a private warehouse: *Provided*, That if

sugar is retained in custody in a private warehouse, it shall be either (1) segregated from all other sugar or (2) if commingled with other sugar, additions to or withdrawals from the unsegregated mass shall be made only in the presence of a Customs officer.

(f) (1) Sugar may be unladed from a carrier and placed in Customs custody for manipulating therein or brought into a Foreign Trade Zone for manipulating therein or manufacturing therein another product—for subsequent entry into and consumption in the continental United States—only if such sugar is authorized for entry within an applicable quota or pursuant to § 817.8 or § 817.10.

(2) Any quantity of sugar of any origin removed from a carrier and placed in the custody of a Collector or in a Foreign Trade Zone shall be reported within 24 hours from the time such sugar is removed from the carrier. Such report shall be made by the importer who shall furnish all information required pursuant to paragraph (a) of § 817.4. The report shall be made on appropriate copies of the "Sugar Quota Clearance Record" and must be submitted to the Collector for confirmation and transmittal to the Sugar Quota Group.

(g) Sugar released by a Collector pursuant to § 817.5 for further processing shall not be delivered for direct-consumption without prior authorization by the Secretary. The application for such authorization (change of purpose) must be made on appropriate copies of the "Sugar Quota Clearance Record," and must show all of the information specified in paragraph (a) of § 817.4 and shall be submitted to the Sugar Quota Group.

§ 817.4 Applications by importer.

(a) A separate application for specific authorization by the Secretary pursuant to § 817.6 for release of sugar by a Collector must be submitted to the Sugar Quota Group as provided in this section on appropriate copies of Form SU–3 entitled "Sugar Quota Clearance Record" not more than 10 days prior to the departure date stated thereon, showing the following information regarding the sugar to be delivered to a single refinery or importer from each cargo:

(1) Port and date of arrival: If the port is not known when the application is submitted, this information must be supplied before a Collector will be authorized to release the sugar.

(2) Name or other specific identification of the carrier.

(3) Name of the producing area, the port of departure, the date the carrier is expected to depart from such port, and if from Puerto Rico, or any area when the applicable quota or portion thereof is allotted, name of the processor of the sugar from sugarcane, and for direct-consumption sugar, the name of the refiner, if a person other than the processor.

(4) Name and address of the person to whom delivery is to be made from the importing carrier. If not known when an application is submitted, this information must be supplied before a Collector will be authorized to release the sugar.

(5) Separate quantities in pounds if crystalline, or in gallons if liquid, to be imported as shown on the application: (i) For further processing; (ii) for direct-consumption; (iii) subject to a separate quota or allotment; and (iv) for a purpose other than to fill a current quota.

(6) Name, address and authorized signature of the applicant.

(b) Any application made pursuant to paragraph (a) of this section constitutes a representation by the applicant that at the time the application is made:

(1) He has control of the quantity of sugar which is subject to shipment as specified;

(2) Firm commitment has been made by the shipping company for shipment as described on the application; and

(3) The date of departure of the carrier stated on the application is (i) the date specified to the applicant or shipper by the Master, Owner or Agent of such carrier as the expected departure date, or (ii) the date the shipper expects the carrier to depart based on the date the carrier will be available for loading as specified by the Master, Owner, or Agent of such carrier, plus the normally required loading time.

(c) The application specified in paragraph (a) of this section shall be submitted to the Sugar Quota Group for the issuance of an authorization by the Secretary to the appropriate Collector for the release of sugar as provided in § 817.5.

(d) The specific authorization by the Secretary required pursuant to § 817.5 may be issued prior to the receipt of an application and appropriate copies of the "Sugar Quota Clearance Record" provided (1) such authorization is necessary to avoid a delay in unlading a carrier that has arrived in port, or the arrival of which is imminent, and (2) all of the information required pursuant to paragraph (a) of this section is transmitted to the Sugar Quota Group by telegram and the required application is being mailed the same day.

(e) (1) With respect to importations of sugar from foreign countries, application for set-aside of quota or quota proration for the importation of a specified quantity of sugar may be made to the Sugar Quota Group and approved, as provided in this subparagraph (1). Such application for set-aside shall be in the form of a Set-Aside Application and Agreement Form SU–8–A as hereafter set forth. The submission of a Set-Aside Application does not relieve the applicant of the necessity of submitting an application for authorization for release of sugar as required under paragraph (a) of this section. Any application for set-aside of quota or quota proration submitted pursuant to this subparagraph (1) covering a quantity of sugar to be imported within a quota or quota proration established in Part 811 of this chapter for a specified foreign country, or a quantity of sugar to be imported within a quota deficit quantity established for allocation or allocated in Part 811 of this chapter may be approved by the Secretary, except as limited by any time periods specified in Part 811 of this chapter, not more than 75 days prior to the first day of the 3-month importation period stated in the Set-Aside Application and Agreement. During the period from the date of approval of a set-aside application through the 15th day after the end of the importation period stated therein, both dates inclusive, and subject to the terms and conditions of such Application and Agreement, the quota and quota proration designated in the application shall be set aside to the extent of the quantity of sugar approved for set-aside under such Application and Agreement. A sugar quota set-aside agreement would not be effective to reserve a quota in the event that the President acting under section 202(d)(1)(B) of the Act withholds or suspends the quota applicable to the sugar covered by the set-aside agreement, since the agreement is necessarily based on there being a quota in effect at the time of importation.

(2) Set-Aside Applications and Agreements submitted pursuant to subparagraph (1) of this paragraph shall be submitted in duplicate on Form SU–8–A to provide the following information and certification:

SUGAR QUOTA SET-ASIDE APPLICATION AND AGREEMENT

I, _____ of
(Name of applicant)

_____
(Street address) (City) (State)

hereby certify that as owner, or as agent or broker for the owner, I have under my sole control _____ short tons (commercial weight) of sugar in _____
(Name of country)

and I hereby make application under the provisions of § 817.4(e)(1) of Sugar Regulation 817 for the set-aside of that quantity of the quota or quota proration for such country established in Sugar Regulation 811.

I agree that in consideration of the approval of this application I will import the sugar into the continental United States during the 3-month importation period specified in this agreement in accordance with the provisions of this agreement and applicable provisions of Sugar Regulation 817 and 811.

It is hereby agreed by and between the United States of America and the undersigned that the failure to import the quantity of sugar approved for set-aside of quota or quota proration pursuant to this application will substantially damage the program established under the Sugar Act of 1948, as amended, for providing supplies of sugar to be consumed at prices that will not be excessive to consumers in the United States; that the amount of such damages is very difficult to accurately estimate; that the undersigned will pay liquidated damages to the United States of 0.50 cent per pound for each pound of sugar approved for set-aside of quota or quota proration under this application which is not imported into the continental United States on or before the 15th day after the end of the importation period stated in this application, except that no liquidated damages shall be paid (i) for a quantity of sugar not imported which is within an allowance for normal shipping losses and normal loading variations equal to the smaller of 11 per centum of the quantity imported (commercial weight) or 5,000 tons, and (ii) for sugar not imported with respect to which the applicant, within a period of time prescribed by the Administrator, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, furnishes evidence satisfactory to the Administrator that importation within the period ending 15 days after the end of the importation period stated in this application was prevented by disasters at sea, acts of God, strikes so extensive and of such duration as to prevent such importation, or the occurrence of an insuperable and extraordinary interference which could not have been foreseen or prevented by the applicant's exercise of prudence, diligence, and care.

I further certify that I have arranged for and will deposit an irrevocable letter of credit within 3 business days after the approval date of this application and agreement expiring no earlier than 60 days after the end of the importation period stated in this agreement, issued by _____
(Name and address of bank)
in an amount not less than an amount determined by multiplying the total number of tons stated in this application by 2,000 and multiplying the product thereof by 0.5 cent. It is further agreed that such letter of credit shall authorize the Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, to draw upon the letter of credit on the basis of a written statement signed by the Administrator, Agricultural Stabilization and Conservation Service, or his authorized representative, which sets forth that a specified amount is due as liquidated damages under the terms and conditions of this Application and Agreement. It is further agreed that if such letter of credit or a wire notice from a U.S. bank of the issuance of such letter of credit, as described above is not received by the Agricultural Stabilization and Conservation Service within 3 business days after the approval date of this Application and Agreement as furnished to the applicant from the Sugar Quota Group, any approval of this Application and Agreement will be canceled and this Application and Agreement shall be null and void.

In the event the full quantity applied for cannot be approved, I will accept a smaller quantity of not less than _____ short tons, commercial weight.

Importation period: The sugar covered by this agreement will be imported during the 3-month period beginning _____ (Date) and ending _____ (Date).

Solely for the general guidance of the U.S. Department of Agriculture, I anticipate that the sugar will arrive as follows:

Month	*Short tons, commercial weight*
_____	_____
_____	_____
_____	_____

Signed _____
Title _____

Date _____

Approved as Set-Aside No. _____, for _____ short tons (commercial weight), on _____ (Date)

By _____
(Head, Sugar Quota Group)

(f) (1) Any application made pursuant to this section for authorization for release, pursuant to § 817.5 of sugar to be imported within a quota for foreign countries shall contain the following certification by the applicant, except that the last sentence may be omitted if not applicable:

The applicant certifies that the sugar identified herein was produced from (sugarcane) (sugar beets) grown in the producing area identified herein, and that this sugar is to be imported within the quota established for such area in Sugar Regulation 811. The sugar covered by this application is being imported under application for set-aside number _____ approved _____; and such quantity (does) (does not) fully discharge the obligation to import under the terms of that set-aside agreement.

(2) Any application made pursuant to this section for a purpose stated in § 817.8 shall contain the applicant's agreement and certification as follows, except that the last sentence may be omitted if the sugar is to be further refined or improved in quality:

This application is made subject to the conditions of bond on Form SU–17 number _____ (Insert bond number, if already approved) on which _____ (Insert name of bond principal), and _____ of _____ (Address of surety) is surety, under which all of the sugar authorized on this application to be brought or imported into the continental United States is to be _____ (Insert one of the purposes stated in paragraph (b) of § 817.8)

The applicant certifies that the sugar covered by this application was produced from (sugarcane) (sugar beets) grown in the producing area as identified on the application. The applicant further certifies that the sugar is not to be further refined and that the identical sugar will be ultimately delivered to the person who will use such sugar or an equivalent quantity, for the stated quota-exempt purpose.

(g) (1) Within 30 days after release by the Collector pursuant to § 817.5, of sugar declared to be for further processing, the results of weights, samples and tests and the name of the person retaining the reserve portion of each sample as provided for in Part 810 of this subchapter shall be reported to the Sugar Quota Group on the applicable copy of the "Sugar Quota Clearance Record," Form SU–3, or a duplicate of such copy, together with information specified in paragraph (a) of this section. The period within which the report required pursuant to this paragraph must be made may be extended for good cause shown with respect to a specified shipment upon request to and approval by the Secretary.

(2) Within 60 days after release by the Collector pursuant to § 817.5 of sugar declared to be for direct-consumption, the weight of such sugar actually imported into the continental United States and the polarization of such sugar shall be reported to the Sugar Quota Group on the applicable copy of the "Sugar Quota Clearance Record," Form SU–3, or a duplicate of such copy together with the information specified in paragraph (a) of this section. For the purpose of such report, the polarization of such sugar shall be reported as 100° polarization unless the sugar is actually subjected in the continental United States to the applicable sampling, testing and evaluation as provided in §§ 810.6, 810.7 and 810.8 of this subchapter. For the purpose of such report, the weight reported on sugar imported from foreign countries shall be the weight of such sugar determined by the Collector at the time of unlading or entry of such sugar and on sugar brought into the continental United States from domestic areas shall be the weight of such sugar determined by the importer and the carrier of such sugar for purposes of settlement with the carrier.

§ 817.5 Release by a Collector.

A Collector may release sugar from any area for any purpose only upon specific authorization by the Secretary pursuant to § 817.6 with respect to each application, required under § 817.4, except that the quantities for which no application is required pursuant to § 817.3 may be released by a Collector at any time, and except that raw sugar produced from sugarcane grown in Hawaii coming to the port of San Francisco for further processing may be released by the Collector without authorization by the Secretary, unless the Collector is notified by the Department not to release such sugar thereafter without authorization by the Secretary. Unless instructed to the contrary on Form SU–3–B, Collectors may release without further authorization, sugar in excess of the quantity authorized on a specific authorization, within a tolerance not to exceed the smaller of 1 percent of the authorized quantity or 4,000 pounds.

§ 817.6 Specific authorization for release.

(a) *Time of issue and duration of validity.* Specific authorizations by the Secretary for release by a Collector will be issued no more than 5 days prior to the stated date of departure of the carrier on which the sugar is to be shipped. The authorization shall be valid for the period specified thereon, subject to extension by the Secretary for good cause. In case the port of arrival or the name of the receiver is not known when the application becomes eligible pursuant to paragraph (b) of this section, the authorization will not be transmitted to the Collector until all the information required by paragraph (a) of § 817.4 is received by the Sugar Quota Group.

(b) *Order of eligibility of applications for authorizations for release of sugar and for the set-aside of quantities for future release.* The order of eligibility for authorization or approval of applications provided for in this paragraph (b) is subject to such modifications as are specified in Part 811 of this chapter. An application on "Sugar Quota Clearance Record," Form SU–3 for authorization to a Collector for the release of sugar which is not being imported under an application for set-aside approved under § 817.4 (e) shall become eligible for authorization at 12:01 a.m. on the fifth calendar

day prior to the date stated on the application as the date of departure of the shipment of sugar from the producing area or at the time of receipt of the application, whichever time occurs later. An application for set-aside submitted pursuant to § 817.4(e) shall become eligible for approval at 12:01 a.m. on the first day that such application for set-aside may be approved as provided in § 817.4(e), or at the time of receipt of the application, whichever time occurs later. The Secretary shall authorize the release by the Collector of sugar not being imported under an application for set-aside and approve applications for set-aside in the same order as such applications for release or set-aside become eligible for authorization or approval. If an application for the release of sugar and an application for set-aside applicable to the same quota become eligible for authorization and approval at the same time, the application for release of sugar shall have priority. If two or more applications for the release of sugar applicable to the same quota become eligible for authorization at the same time, such applications shall be authorized in the order of the date of departure stated thereon, earliest first. If two or more such applications state the same dates of departure and the unfilled balance of the quota or quota proration is less than the total quantity of sugar covered by such applications, the quantity authorized for release under each such application shall be authorized in the order of the date of arrival stated thereon, earliest first, and if any applications then remain having the same date of arrival the authorizations will be made as follows: An equal share of the quota balance shall be calculated by dividing such balance by the total number of such applications. All such applications that cover a quantity in each application less than such equal share shall be approved. The total of such approved quantities shall be deducted from the quota balance. The remaining quota shall be divided equally among the remaining applications but not to exceed the quantity applied for in any such applications, and the quantity assigned to each such remaining application as a result of such division shall be authorized for release under such application. If two or more applications for set-aside received from separate applicants become eligible at the same time and the unfilled balance of the quota or quota proration is less than the total quantity of sugar covered by such applications, no approvals will be made until the applicants have been consulted and agreement between them has been reached as to the quantities to be approved for each application. If the Secretary determines that such an agreement has not been reached by a date specified by him in writing to the applicants, the quantity to be approved under each application shall be determined by the same method described above for issuing authorizations when applications for release have the same date of arrival.

(c) *Substitution.* Release of a quantity of sugar subject to a quota or allotment may be authorized by the Secretary after such quota or allotment has been filled, provided an equivalent quantity of sugar previously released pursuant to § 817.5 within the same quota or allotment has been delivered into the custody of a Collector. The Collector shall retain custody of such equivalent quantity of sugar in accordance with § 817.3(e) until released pursuant to § 817.5.

(d) *Importation for quota-exempt purposes.* Authorization may be issued by the Secretary on applications for release of sugar in excess of the applicable quota or not covered by a quota for the purposes stated in sections 211 and 212 of the Act subject to the limitations specified in those sections and the conditions established in § 817.8.

(e) *Extent of authorizations.* Except as provided in paragraphs (c) and (d) of this section, no authorization shall be issued pursuant to paragraph (a) of this section and no application for set-aside shall be approved as provided in § 817.4 (e) when the quantity of sugar released for consumption in the continental United States, together with the quantity covered by valid authorizations for release or applications for set-aside issued or approved hereunder, equals the applicable quota.

(f) *Denial of authorizations and approval of applications for set-aside.* Authorizations on applications for release of sugar and approval of applications for set-aside may be denied if the applicant has failed to report in the manner and within the time prescribed in this part with respect to shipments previously imported or quantities covered by approved applications for set-aside and shipped to the continental United States, or if any information on an application or set-aside agreement previously submitted and approved is determined not to have been substantially correct, and the applicant fails to submit information satisfactory to the Administrator Agricultural Stabilization and Conservation Service that the incorrectness was due to causes beyond the control of the applicant or due to honest error.

§ 817.7 Applicable quota, quota proration, allocation, quantity, and allotment.

(a) Sugar imported other than as provided in § 817.8 shall be subject to any quota, proration of a quota or allocation for the producing area as shown on the application provided for in § 817.4, except that application may be made to import sugar pursuant to section 202(d)(2)(A) of the Act within the quantity available for foreign countries as a group and except that if the Secretary determines that the producing area shown on the application is incorrect, such sugar shall be subject to any quota, proration or allocation for the correct producing area as determined by the Secretary. Sugar from more than one producing area may not be commingled on the same carrier unless arrangements in writing have been made to furnish documents to the Sugar Quota Group that will provide a basis for satisfactorily and properly effecting the charges to the quotas of the respective producing areas.

(b) *Allotment.* (1) When the quota which is applicable pursuant to paragraph (a) of this section has been allotted pursuant to section 205(a) of the Act, the sugar imported pursuant to the application shall be subject to the allotment made to the person named thereon as the allottee if the application is made by (i) such allottee; (ii) a person authorized by the allottee by letter to the Sugar Quota Group to make such representations on behalf of the allottee for all or a specified portion of his allotment for the designated year, or (iii) an applicant who purchased the sugar from the allottee or a person holding an authorization under subdivision (ii) of this subparagraph. The quantity of sugar stated on an application as subject to the allotment of the allottee named thereon shall not exceed the supply of sugar processed by such allottee which was not previously marketed pursuant to Part 816 of this subchapter or previously imported or applied for pursuant to this part.

(2) Nothing in this paragraph shall preclude the Secretary from applying imported sugar to fill the allotment of the allottee who processed such sugar in any case where he determines that the foregoing provisions of this paragraph have been evaded, not complied with or are inapplicable. The term "processed" as used in this paragraph means the production of sugar from sugarcane or the production of direct-consumption sugar from raw sugar.

(c) *Quantity and time of effect.* (1) Each quantity authorized for release pursuant to § 817.6 and each quantity covered by an application for set-aside approved pursuant to § 817.4(e) shall be effective for filling the applicable quota as established in Part 811 of this subchapter at the time the applicable authorization is issued or application for set-aside is approved. Each quantity of sugar produced from sugarcane grown in Hawaii coming to the port of San Francisco and released by the Collector without authorization by the Secretary to the Collector as provided in § 817.5 shall be effective for filling the Hawaiian quota at the time the authorization is issued to the importer. For the purposes of this paragraph the raw value of the authorized quantity shall be estimated by considering the relationship between other authorized quantities for recent shipments from the same producing area and the raw values thereof determined as provided in Title I of the Act on the basis of weights and tests determined pursuant to Part 810 of this subchapter and such other factors as the Secretary deems applicable.

(2) Upon receipt of and on the basis of the report required pursuant to § 817.4 (g) for raw sugar or direct-consumption sugar covering an application initially

given effect pursuant to subparagraph (1) of this paragraph, the quantity effective for filling the applicable quota shall be the quantity of sugar imported pursuant to the authorization represented by either raw or direct-consumption sugar, determined as prescribed in Part 810 of this subchapter to the extent of its raw value, as defined in Title I of the Act and as finally computed from the weights and tests determined pursuant to Part 810 of this subchapter, except that the raw value of liquid sugar imported from Puerto Rico shall be computed by multiplying the total sugar content thereof by the factor 1.07.

(3) Whenever the Secretary determines that (i) a default in a condition of a bond accepted pursuant to § 817.9 has occurred or, (ii) a quantity of sugar authorized for release for importation as raw sugar is direct-consumption sugar pursuant to § 810.5(c) of this subchapter by virtue of its use for which authorization pursuant to § 817.3(g) was not granted, or (iii) a quantity of sugar has been imported without authorization for release as required pursuant to § 817.5, the quantity of sugar involved in such default, change of purpose, or importation without authorization shall be applied to the applicable quota or allotment in effect for the year in which the importation occurred after all importations made in accordance with the regulations of this part to which the same quota and allotment were applicable have been applied thereto.

§ 817.8 Authorization for purposes other than to fill current quotas.

(a) Upon fulfillment of the requirements of §§ 817.3 and 817.4 and the applicable provisions of this section and § 817.9, the authorization required pursuant to § 817.5 may be given to the Collector to release sugar for importation for the purposes specified in this section without effect on a quota at the time of importation, except that sugar may not be imported pursuant to this section from any country with which the United States is not in diplomatic relations or from any country whose quota has been withheld or suspended by the President pursuant to section 202(d)(1)(B) of the Act. Accordingly, the application required by § 817.4 must show that the sugar covered by such application was produced from sugar beets or sugarcane grown in the producing area as identified on the application.

(b) Sugar may be released for importation by or delivery to the principal on a bond accepted pursuant to § 817.9 to fulfill the following purposes:

(1)(i) Entries of sugar processed from sugarcane grown in Hawaii or Puerto Rico consigned to a continental United States refiner for the express purpose or refining and/or repackaging for subsequent return of an equivalent quantity to the producing area for consumption therein, and (ii) exportations as sugar within the provisions of section 313 of the Tariff Act of 1930, as amended, or direct shipment (otherwise than under the provisions of section 313 of the Tariff Act of 1930, as amended) as sugar by the importer or refiner to a territory or possession of the United States, excluding the Virgin Islands. (Sugar shipped to Hawaii or Puerto Rico is subject to the provisions of section 211(c) of the Act and the applicable provisions of regulations of the Secretary establishing (a) sugar requirements and quotas for Hawaii and Puerto Rico, (b) allotments of sugar quotas for Hawaii and Puerto Rico, and (c) requirements relating to the marketing of sugar for consumption in Hawaii and Puerto Rico. Section 209(e) of the Act prohibits the importation into the Virgin Islands for consumption therein of any sugar in excess of 100 pounds in any calendar year produced from sugarcane or sugar beets grown in any area other than Puerto Rico, Hawaii or the continental United States.)

(2) Manufacture and exportation of other articles within the provisions of section 313 of the Tariff Act of 1930, as amended.

(3) Distillation of alcohol, including all polyhydric alcohols, or production (other than by distillation) of alcohol, including all polyhydric alcohols, but not including any such alcohol or resulting byproducts for human food consumption.

(4) Sugar for livestock feed or for the production of livestock feed. For the purposes of the regulations of this part:

(i) "Livestock" shall mean horses, mules, cattle, swine, sheep, goats, poultry, and honey bees;

(ii) "Sugar for livestock feed" shall mean sugar used for feeding livestock by the person who received such sugar, excluding any sugar received as an ingredient of a mixture or product;

(iii) "Sugar for the production of livestock feed" shall mean sugar, excluding any sugar contained as an ingredient of a mixture or product, put into a mixing or manufacturing process that produces only feed for livestock; and

(iv) "Sugar for livestock feed or for the production of livestock feed" also means any livestock feed product containing sugar in excess of 50 percent by weight or value entering the United States or Puerto Rico for use as livestock feed from a foreign country, a Foreign Trade Zone, or from Customs Custody, and such product shall be subject to the provisions of this part.

(c) The remaining portion of the single shipment of raw sugar of which a portion is authorized for importation pursuant to § 817.6 as the final quantity to fill the applicable calendar year quota or the applicable quarterly limitation, may be authorized for release for importation by or delivery to a refiner who is the principal on a bond accepted pursuant to § 817.9 under which the principal is obligated to hold the sugar so imported or an equivalent quantity at the refinery, at which such sugar was received until release within the applicable quota or allotment is authorized by the Secretary: *Provided*, That the remaining portion of the single shipment so authorized for release shall be limited to the smaller of either 5 percent of the applicable calendar year quota or 5,000 short tons, raw value, or the smaller of 10 percent of the applicable quarterly limitation or 5,000 short tons, raw value.

(d) Whenever the Secretary has given public notice that such action will not interfere with the effective administration of the Act, raw sugar may be authorized for release for importation by or delivery to a refiner who is the principal on a bond accepted pursuant to § 817.9 under which the principal is obligated to hold the sugar or an equivalent quantity subject to such conditions as may be specified in such notice until release within the applicable quota or allotment is authorized by the Secretary.

(e) Upon fulfillment of the requirements of §§ 817.3 and 817.4 the authorization required pursuant to § 817.5 may be issued to the Collector for the release of sugar for purposes stated in section 212 of the Act other than those specified in paragraph (b) of this section, within the limitations specified in such section 212 of the Act.

§ 817.9 Bonds to cover releases.

(a) No authorization for the purposes specified in § 817.8 (b), (c), and (d) shall be issued nor shall a Notice of Delivery which covers the delivery of a quantity of sugar to the principal of another bond be accepted until the Secretary has accepted a bond meeting the requirements of this section. The Secretary may accept a bond to cover importations or deliveries which may be made during the period of time specified in the bond or for a specified importation or delivery.

(b) *Principal and surety.* Any person having an interest therein may be the principal on the bond covering sugar to be exported with benefit of drawback of duty, or covering sugar for the distillation or production of alcohol other than by distillation, including all polyhydric alcohols. Only the importer or refiner may be the principal on a bond to cover sugar to be shipped to a territory or possession of the United States or used for livestock feed, or for the production of livestock feed. Only a refiner may be the principal on a bond covering sugar to be imported for further processing as provided for in § 817.8 (c) and (d). The surety or sureties shall be among those listed by the Secretary of the Treasury as acceptable on Federal bonds.

(c) *Obligation*—(1) *Establishment and effective date.* The obligation under the bond shall be made effective and be established by: (i) The Secretary's issuance of the authorization required pursuant to § 817.5 for release of the sugar by the Collector; or (ii) the Secretary's acceptance of a Notice of Delivery covering a quantity of sugar delivered by the principal of a bond to the principal of another bond pursuant to subparagraph (1)(iii) of paragraph (d) of this section, such Notice of Delivery to be executed jointly by the principals of the two bonds involved on a form prescribed by the Secretary.

(2) *Monetary amount.* The monetary amount of the obligation under the bond shall not be less than the sum of the amounts applicable to all quantities of sugar covered at any one time thereunder by virtue of the issuance of authorizations required pursuant to § 817.5 for release of sugar by the Collector or acceptance of Notices of Delivery, and such obligations shall be effective whether or not the surety receives notice from the Secretary of the issuance of such an authorization or the acceptance of a Notice of Delivery. The monetary amount applicable to each quantity of sugar covered by each authorization for release of sugar by the Collector or by each Notice of Delivery, and made subject to a bond accepted under this Part shall be the "spot" quotation per pound of raw sugar deliverable on the New York Coffee and Sugar Exchange under Contract No. 10 as established by that Exchange for the last business day before the date of application to the Secretary for the issuance of such authorization, or before the delivery date or the last date of the delivery period shown on such Notice of Delivery multiplied by the weight in pounds of such quantity of sugar. The amount applicable to each quantity of liquid sugar covered by each authorization for release of liquid sugar by the Collector or by each Notice of Delivery shall be computed upon the basis of the same price per pound, ascertained as heretofore stated in this paragraph, multiplied by the pounds of the "total sugar content," as defined in section 101(l) of the Act, of such quantity of liquid sugar. The quantity of sugar covered by each authorization required pursuant to § 817.5 for release by the Collector or by each Notice of Delivery shall be the quantity stated in the Notice of Delivery or in the application submitted on the Sugar Quota Clearance Record, or the quantity stated in the report made to and received by the Sugar Quota Group in accordance with § 817.4(g) if differing from the quantity stated in the authorization for release of sugar by the Collector.

(d) *Conditions.* Any bond accepted pursuant to this part shall provide for the following conditions to apply to sugar authorized to be release by the Collector pursuant to the provisions of § 817.8.

(1) Consistent with the certification required pursuant to § 817.4(f)(2), the identical sugar, or the raw value equivalent of the sugar, authorized under the bond to be imported for the purpose of exporting sugar shall be:

(i) Exported within 6 months after the date of importation with drawback of duty subsequently allowed pursuant to section 313 of the Tariff Act of 1930, as amended, as evidenced by the reports of such exportation and allowance from the principal and the Collector as provided for in paragraph (e) of this section;

(ii) Shipped within 6 months after the date of importation to a territory or possession of the United States other than the Virgin Islands as evidenced by the report by the principal of such shipment as provided for in paragraph (e) of this section, or

(iii) Delivered within 6 months after the date of importation to the principal on another bond accepted pursuant to this section.

(2) Consistent with the certification required pursuant to § 817.4(f)(2), the identical sugar, or the raw value equivalent of the sugar, authorized under the bond to be imported, or authorized to be delivered subsequent to importation under another bond, for the manufacture of products to be exported, shall be exported in manufactured products within 3 years after the date of importation of the sugar with drawback of duty subsequently allowed pursuant to section 313 of the Tariff Act of 1930, as amended, as evidenced by the reports of such exportation and allowance of drawback by the principal and the Collector, as provided for in paragraph (e) of this section;

(3) Consistent with the certification required pursuant to § 817.4(f)(2), the identical sugar, or the raw value equivalent of the sugar, authorized under a bond to be imported for the distillation or production of alcohol or for livestock feed, or for the production of livestock feed, shall be so used within 1 year after the date of importation as subsequently evidenced by a certificate of use as provided for in paragraph (e) of this section. The use of sugar for livestock feed or the production of livestock feed shall be as provided in § 817.8(b)(4).

(4) The raw value equivalent of the raw sugar authorized under a bond to be imported by or delivered to a refiner pursuant to the provisions of § 817.8(c) shall be held at the refinery at which such sugar was received until release of such sugar within the applicable quota is authorized by the Secretary.

(5) The raw value equivalent of the raw sugar authorized under a bond to be imported by or delivered to a refiner pursuant to the provisions of § 817.8(d) shall be held by the refiner subject to such conditions as may be specified in the public notice given by the Secretary authorizing the release for importation of sugar for the purpose specified in paragraph (d) of § 817.8.

(6) Any bond furnished pursuant to this part shall provide that the obligation established thereunder will remain in full force and effect until the Secretary notifies the principal and surety of release thereof. The Secretary may release all or any part of the monetary amount of the obligation of the bond which is applicable to the quantity of sugar covered by an issued authorization for release thereof by a Collector or by an accepted Notice of Delivery with respect to which quantity either the applicable conditions set forth in subparagraphs (1) through (5) of this paragraph have been fulfilled, or another bond has been accepted: *Provided*, That, nothing in this section shall preclude the Secretary from: (i) Accepting evidence other than that provided for in subparagraphs (1), (2), and (3) of this paragraph to establish that any of the conditions provided in such subparagraphs have been fulfilled, or (ii) determining that any of the conditions provided in subparagraphs (1) through (5) of this paragraph have been fulfilled by virtue of the destruction or other disposition of sugar having an effect for quota purposes as if the applicable conditions set forth in such subparagraphs have been fulfilled, or (iii) extending at his discretion the time for fulfillment of any of the conditions set forth in subparagraphs (1) through (5) of this paragraph upon the written request of and for good cause shown by the principal named on the bond and without notice to the surety on such bond.

(7) Upon default in any applicable condition heretofore set forth, and the expiration of any extension of time for fulfillment thereof that may be granted in writing by the Secretary, payment shall be made to the United States of America of a sum equal to the full amount of the obligation determined as prescribed in paragraph (c) of this section which is applicable to the quantity of sugar covered by an authorization for release of sugar by the Collector or by a Notice of Delivery, and with respect to which quantity the default occurred in whole or in part.

(8) The payment or the acceptance of any payment made to the United States of America pursuant to this paragraph shall not be deemed to preclude or to constitute a waiver of recovery of any forfeiture, penalty or liability provided for by the Act or any other provision of law.

(e) *Reports of evidence that conditions of bond have been fulfilled.* (1) All principals on bonds given for the purpose specified in § 817.8(b) (1) or (2) shall, by the 10th of each month, submit a report to the Sugar Quota Group showing the following information: (i) With respect to allowances of drawback of duty for exportations for which drawback of duty was allowed in the month preceding the month in which the report is submitted, the identity, by number, of the bond to which the exported quantity of sugar should apply, the date of exportation of the sugar, the quantity of sugar exported or used in the manufacture of the exported sugar or the sugar used in the manufacture of the exported articles, the port and date of entry or withdrawal of the sugar designated as a basis for drawback of duty and the consumption entry or warehouse withdrawal number, the country of origin of the sugar designated as a basis for drawback of duty, and the quantity and polarization or, if liquid sugar, the total sugar content of the designated liquid sugar on which drawback of duty was allowed; and (ii) with respect to sugar shipped to a territory or possession of the United States within the preceding month; the identity, by number, of the bond to which the shipped quantity of sugar should apply, the date of shipment and the destination of the sugar and the producing area of the shipped sugar.

(2) The principal on a bond given for a purpose specified in § 817.8(b) (3) or (4) shall transmit to the Sugar Quota Group no later than 30 days after the 1-year use period provided for in § 817.9 (d)(3) or authorized extension thereof, certificates executed by the persons who used the sugar showing the following information on forms prescribed by the Secretary as follows:

(i) In the case of use for distillation or production of alcohol, Form SU–23A:

The undersigned hereby certifies that between _____, 19__ and _____, 19__, he has used the following quantity or quantities of liquid or crystalline sugar for the purpose or purposes indicated:

[Pounds]

Use	Liquid	Crystalline	
	Sugar content	Actual weight	Raw value weight
(1) Used for distillation of alcohol			
(2) Used for production of alcohol (other than by distillation) for other than human food consumption			

The undersigned further certifies that the quantity of sugar shown on this certification of use does not include any sugar previously covered by another U.S. Department of Agriculture Certificate of Use; that the quantity shown on this certificate does not include any sugar previously credited or subsequently to be credited against an obligation on a bond covering sugar exported in a sugar-containing product and that none of the sugar shown on this certificate was used in the production (other than by distillation) of alcohol, including any resulting byproducts, for human food consumption.

(ii) In case of use for livestock feed or production of livestock feed, Form SU–23:

The undersigned certifies that between _____, 19__ and _____, 19__, he
(Date) (Date)
has used the following quantity or quantities of sugar for the purpose or purposes as stated below:

	Pounds
(1) Use to feed livestock	_____
(2) Used in the production of livestock feed:	
(a) For his subsequent use in feeding livestock	_____
(b) For subsequent sale to others for feeding livestock	_____

The undersigned further certifies that each quantity of sugar shown in this Certificate of Use does not include a quantity of sugar previously covered by another U.S. Department of Agricultural Certificate of Use; that any quantity of sugar shown on this certificate used to feed livestock or for the production of livestock feed does not include any sugar contained as an ingredient of a mixture or product at the time such sugar was received except sugar imported as a livestock feed product containing sugar in excess of 50 percent by weight or value; that such sugar was either fed to livestock by the person receiving it or was put into a mixing or manufacturing process that produces only feed for livestock; and that the term "livestock" as used throughout this certificate means horses, mules, cattle, swine, sheep, goats, poultry, and honeybees.

Each certificate shall be endorsed by the principal of the bond acknowledging that the use of the sugar, to which the certificate applies, is to apply to the fulfillment of the conditions of the bond on which he is the principal and the bond shall be identified on the endorsement.

(3) Each Collector shall, by the 10th of each month report all allowances of drawback in the preceding month which were based on exportations of sugar or manufactured sugar-containing articles. Such report shall show the following information: The person who manufactured the exported product and the date of exportation; and with respect to the sugar designated as a basis for the claim for drawback of duty, the date and port of entry or withdrawal, the consumption entry or warehouse withdrawal number (if warehouse withdrawal numbers of a separate series are not assigned, the warehouse entry number should be furnished), the producing area, the quantity and polarization or, if liquid sugar, the total sugar content, on which drawback was allowed.

(4) Each refiner who is a principal on a bond given for the purpose specified in either paragraph (c) or (d) of § 817.8 shall furnish to the Secretary at his request such information as the Secretary requires to determine that such refiner has met the inventory requirements pursuant to the applicable bond obligation.

§ 817.10 Sugar-containing products and mixtures.

NOTE: The basis and purpose and bases and considerations for this § 817.10 have been set forth fully in the FEDERAL REGISTER at 31 F.R. 16518 and 31 F.R. 9495.

(a) The importation or bringing into the continental United States, Hawaii, or Puerto Rico of any sugar-containing product or mixture shall not be subject to any import quantity limitations pursuant to the provisions of this part unless and until the Secretary has made effective a determination that the prospective importation of such sugar-containing product or mixture will substantially interfere with the attainment of the objectives of the Act. A proceeding to make a determination required by this section as well as any amendment or repeal thereof will be instituted by the Secretary either upon the Secretary's own initiative, or upon the written petition of an interested person if the Secretary has reasonable grounds to believe, on the basis of information accompanying the petition and other information available to him, that there may be a substantial interference with attainment of the objectives of the Act. Petitions should be submitted to the Director, Sugar Policy Staff, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250. A proceeding to make a determination that the importation or bringing into the continental United States, Hawaii, or Puerto Rico of a sugar-containing product or mixture will or will not substantially interfere with the attainment of the objectives of the Act, or an amendment or repeal of such a determination, shall be instituted by publishing a notice of the proposed rule making, and affording interested persons an opportunity to submit written data, views, and arguments and to submit the same orally if provision is made therefore in the notice. The determination shall be published in the FEDERAL REGISTER. A determination may pertain to one or more sugar-containing products or mixtures or a group of similar sugar-containing products or mixtures. In making a determination that the bringing in or importing of a sugar-containing product or mixture will or will not substantially interfere with the attainment of the objectives of the Act, the Secretary shall give consideration to (1) the total sugar content of the product or mixture in relation to other ingredients therein or to the sugar content of other products or mixtures for similar use; (2) the costs of the mixture in relation to the costs of its ingredients for use in the continental United States, Hawaii, or Puerto Rico; (3) the present or prospective volume of importations relative to past importations of the product or mixture; (4) whether it will be marketed to the ultimate consumer in the identical form and package in which it is imported or the extent to which it is to be further subjected to processing or mixing with similar or other ingredients; and (5) other pertinent information. Information relating to the above listed factors should accompany any petition to the Secretary to institute a proceeding as provided in this section or shall be furnished by persons having such information upon request by the Secretary.

(b) If the Secretary has determined pursuant to paragraph (a) of this section that the prospective importation or bringing into the continental United States, Hawaii, or Puerto Rico of a sugar-containing product or mixture will substantially interfere with the attainment of the objectives of the Act, a total quantity of such sugar-containing product or mixture shall not be brought or imported into the continental United States, Hawaii, or Puerto Rico in any one year from any one country or area in excess of the quantity which the Secretary determines will not so interfere, but not less than (1) the average annual importations of the product or mixture from the country or area during the most recent 3 consecutive years for which reliable data are available; or (2) 100 short tons, raw value, of sugar content of the product or mixture from any one country or area in the event that no reliable data of quantities imported or brought in from the country or area for 3 consecutive years are available. Persons having information or data of quantities of a sugar-containing product or mixture imported or brought in during any of the most recent 3 consecutive years from a country or area may submit such information or data to the Director, Sugar Policy Staff, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250, for consideration of its reliability for use.

(c) (1) Any sugar-containing product or mixture as to which the Secretary has determined that the actual or prospective importation or bringing thereof into

the continental United States, Hawaii, or Puerto Rico will substantially interfere with the attainment of the objectives of the Act, shall not be imported or brought into the continental United States, Hawaii, or Puerto Rico until a release directed to the Collector has been obtained by the importer from the Secretary. If the Secretary or his delegate determines that the release of the product is permissible in accordance with limitations provided in paragraph (d) of this section such release will be issued upon application to the Sugar Quota Group, Policy and Program Appraisal Division, ASCS, U.S. Department of Agriculture, Washington, D.C. 20250, in quintuplicate on a prescribed form designated as Form SU–9A. Application forms will be available from the above mentioned source and at all Customs Houses, and will provide for the following information regarding the product to be imported on each carrier:

The name and address of the importer.
The name of the carrier which is to transport the product to the U.S. port or point of entry.
The port or point of departure of such carrier.
The date of departure from such point or port.
The port or point of entry.
The date of arrival.
The quantity of product to be imported (total pounds or gallons).
The country of origin (where manufactured).
The name of the product.
Whether the identical product as packaged will be marketed to the ultimate consumer.
The percentage of sugar and each other ingredient in the product including moisture.
A certification that the information contained in the application is true and correct to the best of the importer's knowledge and belief and that he will furnish the Department within 30 days after importation the consumption entry or warehouse withdrawal number, the actual weight entered, and verification of the composition of the product.
The date submitted, signature and title of the person signing the application.

(2) An application for issuance of an authorization to a Collector for the release of a sugar-containing product or mixture shall become eligible for authorization at 12:01 a.m. of the fifth day prior to the date of departure of the shipment as stated on the application, or at the time of receipt of the application whichever time occurs later. An authorized application shall be canceled if the covered shipment does not leave the port or point of departure on or before the fifth day after the scheduled departure date as stated on such application, or if a duty-paid entry on such shipment is not made at the port of entry on or before 15 days after the scheduled arrival date as stated on such application, except that the period during which the application is valid may be extended by the Secretary. The entire quantity of an importer's shipment scheduled to depart on a carrier from the same port of departure, on the same date of departure, and having the same destination, must be covered by one application. The Secretary shall authorize applications for the release of sugar-containing products by the Collector in the same order as such applications become eligible for authorization or approval. If two or more applications covering products from the same country become eligible for authorization at the same time, such applications shall be authorized in the order of the date of departure, earliest first. If two or more applications for release submitted by different applicants become eligible for authorization at the same time and have the same date of departure and the quantity permissible for importation within the limitations provided in paragraph (d) of this section is less than the total quantity covered by such applications, the quantity authorized for release under each such application shall be determined as follows. An equal share of the quantity permissible for importation shall be calculated by dividing such quantity by the total number of such applications. All such applications that cover a quantity in each application less than such equal share shall be approved and the quantities stated therein shall be authorized for release. The total of the quantities covered by such approved applications shall be deducted from the quantity permissible for importation, the remainder shall be divided equally among the remaining applications but not to exceed the quantity applied for in any such application, and the quantity assigned to each such remaining application as a result of such division shall be authorized for release under such application.

(3) An application made pursuant to this section constitutes a representation by the applicant that at the time the application is made:

(i) He has control of the quantity of the product which is subject to shipment as specified;

(ii) Firm commitment has been made by the shipping company for shipment as described on the application; and

(iii) The date of departure of the carrier stated on the application is (a) the date specified to the applicant or shipper by the Master, Owner or Agent of such carrier as the expected departure date, or (b) the date the shipper expects the vessel to depart based on the date the carrier will be available for loading as specified by the Master, Owner or Agent of such carrier plus the normally required loading time.

(4) Authorizations of applications for the release of the sugar-containing product may be denied if the applicant has failed to report in the manner and within the time prescribed in this section with respect to a previous importation or if any information on an application previously submitted and approved is determined not to have been substantially correct, and the applicant fails to submit information satisfactory to the Administrator, Agricultural Stabilization and Conservation Service that the incorrectness was due to cause beyond the control of the applicant or due to honest error.

(d) It is hereby determined upon the basis and considerations set forth in F.R. Doc. 66–7654 (31 F.R. 9495) and 66–13856 (31 F.R. 16518) that prospective importation into the continental United States, Hawaii, and Puerto Rico of the following described sugar-containing products or mixtures will substantially interfere with the attainment of the objective of the Act and shall be subject to the import limitations provided in this paragraph (d) of this section: Products or mixtures which (1) contain more than 25 percent sugar expressed as a percent of the total weight of solids (excluding moisture and volatile matter); (2) contain solid ingredients other than sugar consisting principally of either butterfat or flour or both; and (3) either are to be further subjected to processing or mixing with similar, or other ingredients, or are not to be marketed to the ultimate consumer in the identical form and package in which imported. The total quantity of all such products or mixtures which may be imported during the calendar year 1967 from each of the following countries shall not exceed the amount stated as follows for such country, except that the total quantity of products or mixtures containing butterfat which may be imported from a foreign country is also subject to the quantity import limitations on butterfat containing products imposed by Presidential Proclamations issued pursuant to section 22 of the Agricultural Adjustment Act, as amended (7 U.S.C. 624).

Country	Pounds
Australia	14,090,000
Austria	827,000
Belgium	14,090,000
Canada	11,650,000
Denmark	1,926,000
Sweden	397,000
United Kingdom	2,159,000
Any other country	(1)

[1] 100 short tons, raw value, or sugar content (dry basis), the equivalent of 187,000 pounds, refined sugar.

None of the described products or mixtures shall be imported except pursuant to the procedural requirements contained in paragraph (c) of this § 817.10.

§ 817.11 Records and reports.

(a) For the purposes of this part, any quantities of sugar imported as crystalline sugar which are subsequently converted into and marketed as liquid sugar shall be reported subsequent to such conversion as the quantities of crystalline sugar so converted and the raw value thereof shall be determined as prescribed in paragraph (1), (2), or (3) of section 101(h) of the Act, applicable to the crystalline sugar so converted. Liquid sugar, exclusive of that imported as liquid sugar, for which the quantities of converted crystalline sugar are unknown shall be reported in terms of the total sugar content and the raw value thereof shall be determined by multiplying the total sugar content by the factor 1.07.

(b) Each person subject to the provisions of this part shall keep and preserve, for a period of 2 years following the end of the calendar year in which the sugar was imported into the continental United States, an accurate record of the receipt, processing and movement of such sugar and of all tests, gallonages and weights pertaining thereto, except that all records relating to the receipt and disposition of sugar authorized for release pursuant to § 817.8 shall be kept and preserved for a period of 2 years following the end of the calendar year in which the sugar was disposed of pursuant to the requirements of § 817.9(d). Upon request by any authorized employee of the Department, such records shall be made freely available for examination by such employee during the regular working hours of any business day.

(c) Each person subject to the provisions of this part shall make application for authorizations provided for in this part and shall report information as and when required by the Secretary on forms specified by him and approved by the Bureau of the Budget under the Federal Reports Act of 1942. In addition to the applications, authorizations and reports otherwise specifically referred to in this part, this requirement shall include, but is not necessarily limited to, the information prescribed on Form SU–73 or Form SU–74 for refiners, or on Form SU–75 for other importers. The following described forms are available for use in accordance with the provisions of the regulations in this Part 817, and all may be obtained at the office of the Sugar Quota Group, Policy and Program Appraisal Division, Agricultural Stabilization and Conservation Service, Room 6622 South Building, United States Department of Agriculture, Washington, D.C. 20250. In addition, Forms SU–3, SU–8A and SU–9A are generally available at Customs Houses at principal ports of entry.

FORMS

SU–3—Sugar Quota Clearance Record.
SU–8A—Sugar Quota Set-Aside Application and Agreement.
SU–9A—Application for Release of a Sugar Containing Product or Mixture.
SU–17—Bond for Entry of Sugar Without Charge to Quota.
SU–18—Notice of Delivery of Quota-Exempt Sugar for Manufacture of Articles for Export.
SU–19—Monthly Report of Drawback Allowances.
SU–20—Report of Exportations and Allowances of Drawback to Fulfill Conditions of Bonds.
SU–20–1—Report of Shipments to Territories or Possessions in Fulfillment of Conditions of Bonds.
SU–23—Certificate of Use of Sugar for Livestock Feeding or Production of Livestock Feed.
SU–23–A—Certificate of Use of Sugar for Distillation or Production of Alcohol.
SU–24—Certification of Inventory of Over-Quota Sugar.
SU–63—Destination by States of Sugars Delivered for Direct Consumption.
SU–64—Sugar Deliveries by Type of Buyer.
SU–64–A—Dextrose Sales, Domestic, by Type of Buyer.
SU–73—Sugar Production and Movement Report—Refiners Who Also Process Mainland Sugarcane.
SU–74—Sugar Production and Movement Report—Refiners Who Do Not Process Mainland Sugarcane.
SU–75—Sugar Receipts and Movement Report (Importers Who Do Not Operate Refineries).

(d) Each person subject to the provisions of this part who applies for a set-aside which has been approved pursuant to § 817.4(e) shall report any quantity of sugar which has been shipped and which is to be imported into the continental United States under such application. Such report shall be made within 2 days after the date of departure of the sugar from the area of origin and shall show the date of departure, the quantity of sugar shipped and the expected date of arrival. An application for authorization for release of sugar as provided for in § 817.4(a) may be submitted within the same time limitation in lieu of the report required by this paragraph.

§ 817.12 Delegation of authority.

The Director, or Deputy Director, of the Sugar Policy Staff, the Director, Deputy Director of the Policy and Program Appraisal Division, or the Head, Sugar Quota Group of that Division (or any person in such division designated in writing by the Director), Agricultural Stabilization and Conservation Service of the Department, is hereby authorized to act on behalf of the Secretary in administering §§ 817.1 through 817.11 except as otherwise provided for in paragraph (e) of § 817.4, paragraph (f) of § 817.6 and paragraph (d) of § 817.8.

NOTE: The reporting and/or recordkeeping requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Signed at Washington, D.C., this 15th day of August 1967.

H. D. GODFREY,
Administrator, Agricultural Stabilization and Conservation Service.

Consumer and Marketing Service

[7 CFR Part 1032]

MILK IN SOUTHERN ILLINOIS MARKETING AREA

Termination of Proceeding To Suspend Certain Provision of Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), notice of proposed rule making was issued by the Deputy Administrator, Regulatory Programs, on July 13, 1967, with respect to proposed suspension of a certain provision of the order regulating the handling of milk in the Southern Illinois marketing area. Interested persons were invited to submit views, data or arguments to the Hearing Clerk not later than July 22 in connection with the proposed suspension.

The provision in § 1032.14(b)(2) proposed to be suspended reads, "on any day during the months of May and June and in any other month for not more than 8 days of production of producer milk by such producer". Such provision relates to the diversion of producer milk by handlers from a pool plant to a nonpool plant.

On the basis of all facts available to the Department, including written views, data and arguments submitted by interested parties, it appears that the pool plants involved can handle the volume of milk on the market during the month of August under the existing diversion provisions of the order and still retain their pool status. Therefore, it appears that the proposed suspension is not needed for the month of August 1967.

It is hereby found and determined that the proposed suspension for the month of August 1967, of the aforesaid provision of the order relating to the diversion of milk should not be effectuated; and the proceeding begun in this matter on July 13, 1967, should be and is hereby terminated.

Signed at Washington, D.C., on August 16, 1967.

GEORGE L. MEHREN,
Assistant Secretary.

[F.R. Doc. 67–9809; Filed, Aug. 18, 1967; 8:48 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 21]

[Docket No. 16778; FCC 67–959]

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

Allocation of Presently Unassignable Spectrum by Adjustment of Certain of the Band Edges

1. On July 20, 1966, the Commission issued a notice of inquiry in the above-entitled matter which was duly published in the FEDERAL REGISTER (31 F.R. 10135, July 27, 1966). Comments were solicited concerning the manner in which the frequency pairs 152.840/158.100 Mc/s and 152.240/158.700 Mc/s should be established for use respectively by wireline common carriers and non-wire-line common carriers in the Domestic Public Land Mobile Radio Service. Comments, data, views, and arguments thereon were due on September 30, 1966, and reply comments were due on October 31, 1966. On October 25, 1966, the Commission received and on October 31, 1966, granted the Radio Relay Corp. "Petition for Extension of Time" to November 15, 1966, to file reply comments in this proceeding. This action was published in the FEDERAL REGISTER (31 F.R. 14318, Nov. 5, 1966).

2. Written comments were filed by Allied Telephone Co. Association (Allied), American Telephone & Telegraph Co. (AT & T), GT & E Service Corp. (GT & E), National Association of Radiotelephone Systems (NARS), National Committee for Utilities Radio (NCUR), United States Independent Telephone Association (USITA), and the Western Union Telegraph Co. (Western Union). Reply comments were filed by Aircall New York Corp. (Aircall), American

Telephone & Telegraph Co. (AT & T), Page Call, Inc. (Page Call), Radio Relay Corp. (Radio Relay), and George W. Smith (Smith). Additionally, on January 18, 1967, AT & T submitted a "Petition for Leave to File Response Comments" which accompanied the petition. Good cause having been shown therein, the "Response to Reply Comments" is accepted for filing.

3. In Docket No. 16778 and in Docket No. 16776,[1] which is closely related thereto, the Commission's proposal to allocate the 30 kc/s frequency pair 152.240/158.700 Mc/s for use by non-wire-line carriers was not opposed in any filing, and the proposed common carrier allocations were supported in whole or in part by the Electronic Industries Association's Land Mobile Communications Section, as well as by Motorola, Inc., NARS, NCUR, New York State Telephone Association, Professional Sales and Answering Service, and the United States Independent Telephone Association (USITA). Such proposed allocations to common carriers were also supported in whole or in part in Docket No. 16778 filings by Allied, AT&T, GT&E, NARS, Radio Relay, and Western Union. No oppositions to the proposed frequency allocations were filed therein.

4. Comments, filed by NARS and Smith, requesting the Commission to take action with regard to frequency allocation of the frequency pair 454.00/459.00 Mc/s and frequencies in the 35–44 Mc/s band are beyond the scope of this proceeding and therefore are not considered herein. Reallocation of Domestic Public Land Mobile Radio Frequency Allocations in the 35–44 Mc/s band is the subject of a pending rule making petition (RM–1069) filed by Special Industrial Radio Service Association (SIRSA). Persons wishing to bring such matters before the Commission are referred to the provisions of Subpart C of Part 1 of the Commission's Rules which deals with rule making proceedings.

5. Comments filed with respect to the manner in which the frequencies 152.240 Mc/s and 158.700 Mc/s should be utilized by non-wire-line common carriers did not advocate that those frequencies should be dedicated exclusively to one-way signaling (radio paging) service. In fact, NARS opposed an exclusive allocation to either the one-way or two-way land mobile service. The consensus of filings appeared to favor such frequencies being dedicated to two-way land mobile service plus one-way signaling service. NARS also recommended that secondary use of such frequencies by non-wire-line carriers be provided for in the Rural Radio Service. Such recommendations are embodied in the notice of proposed rule making which is being adopted herein. We believe it desirable to also provide in our proposal for the secondary Rural Radio Service use, by wire-line common carriers, of the frequency pair 152.840/158.100 Mc/s whose primary use is being dedicated to the domestic public land mobile radio service.

6. Wire-line common carriers filed no comments with regard to the specific uses to be permitted non-wire-line carriers on the frequency pair 152.240/158.700 Mc/s. However, numerous wire-line and non-wire-line common carriers expressed views as to what usage wireline common carriers should be permitted to make of the frequency pair 152.840/158.100 Mc/s in the domestic public land mobile radio service. AT&T, GT&E, and Western Union advocated that the frequencies be designated exclusively for one-way signaling (radio paging) service, and USITA requested that the frequencies be made available for both one-way signaling and two-way land mobile service. Aircall, Page Call, Radio Relay, and Smith expressed strong opposition to permitting the wire-line carriers to use such frequencies exclusively for one-way signaling service.

7. The wire-line carriers do not render one-way service exclusively on any channel in the greater Los Angeles area. Smith, who operates a one-way signaling system at Santa Ana, Calif., indicates that since there are already four frequencies allocated for the exclusive use of common carrier one-way signaling service in the 35–44 Mc/s band, which are licenseable to wire-line as well as non-wire-line common carriers, it would be unfair to unbalance the present competitive position between non-wire-line carriers and wire-line carriers by permitting the latter to use the additional frequencies 152.840 Mc/s and 158.100 Mc/s exclusively for radio paging when comparable provision is not being made for the non-wire-line carriers. We note, however, that Smith was offered an opportunity in response to our notice of inquiry to recommend that the non-wire-line carrier pair of frequencies (152.240 Mc/s and 158.700 Mc/s) be designated exclusively for one-way signaling service; but he did not do so. Smith further argues that the wire-line carriers should render their one-way signaling service on the frequencies allocated for two-way service. However, he does not make adequate allowance for the fact that the wire-line carriers' land mobile radio channels in many areas (e.g., the Los Angeles area) are overloaded with two-way land mobile traffic and therefore it is not practicable to render any substantial amount of one-way signaling service on those channels; there are hundreds of persons who have been on waiting lists for two-way service for years, but have not been able to subscribe to such service offering of wire-line carriers because of frequency shortages. Although we do not quarrel with Smith's contention that it is technologically possible to integrate one-way and two-way communications service on the same radio channel, it is not feasible to do so practicably where heavy requirements for both types of service must be satisfied. In any event Smith, as well as other interested parties, will have ample opportunity to address this matter in response to our questions regarding the basic policy of making the frequencies in question available to wire-line carriers and the competitive effects of such policy set forth in paragraph 16, below.

8. Smith alleges that wire-line carriers have 33 pairs of frequencies available for rendering one-way signaling service on a secondary basis and an additional four frequencies on an exclusive basis for such service whereas non-wire-line carriers have only four frequencies. It is to be noted, however, that the four frequencies mentioned are allocated exclusively for one-way signaling service and are equally assignable to wire-line and non-wire-line carriers on a shared basis, provided the systems sharing such frequencies do not cause harmful interference to each other. (We note that in the greater Los Angeles area, four frequencies are preempted from further assignment by their use at Long Beach by American Mobile Radio, Inc. (35.58 Mc/s), at Los Angeles by Mobilfone, Inc. (43.22 Mc/s and 43.58 Mc/s), and at Santa Ana by Smith (35.22 Mc/s)). The following facts are pertinent: (1) only the base station half of the 33 pairs may be used for one-way signaling as an adjunct to the two-way service; (2) 10 of these pairs are assignable only in accordance with a prescribed geographical zone allocation plan under which only one pair is assignable to each of the 10 zones which cover the 48 contiguous States and the District of Columbia; and (3) six of the pairs of frequencies in the 450–460 Mc/s band are not assignable to the land mobile radio service because of their reservation for domestic public air/ground radiotelephone service. Further, the imbalance is not as great as Smith would have us believe since he does not mention that there are also 14 pairs of frequencies presently allocated for the exclusive use of non-wire-line carriers for two-way service and that they may provide one-way service on the base station half of each frequency pair as an adjunct to the two-way service.

9. Page Call, Aircall, and Radio Relay allege that there is no need to expand the capacity for one-way signaling in the greater New York, N.Y.-Newark, N.J., area by providing the frequencies 152.840 Mc/s and 158.100 Mc/s exclusively for one-way signaling service by wireline carriers. We note that the four channels which are allocated exclusively for one-way service in the 35–44 Mc/s band are already implemented by these non-wire-line carriers in this area (viz. Aircall on 43.58 Mc/s at New York; Page Boy, Inc., on 35.22 Mc/s at New York; Radio Relay on 43.22 Mc/s at New York; and Page Call on 35.58 Mc/s at Newark) and, that because of the clear-channel concept of common carrier services, they are not assignable to other radio systems in the area due to considerations of harmful interference which would stem therefrom. Furthermore, as set forth below, public acceptance of the 150 Mc/s service supports the proposal herein.

[1] Docket 16778 deals with the amendment of Part 2 of the Commission's rules concerning the allocation of presently unassignable spectrum to the land mobile services by adjustment of certain of the band edges in the 150.8–162 Mc/s band and disposition of rule making petitions pertinent thereto.

10. In support of its contention that non-wire-line carriers have ample capacity to meet the need for one-way signaling service, Radio Relay calls attention to what it alleges is the limited subscriber handling capacity (3,200 users) of the AT&T (Bell Telephone System) developmental 150 Mc/s band "Bellboy" system. AT&T advises, however, that the system is presently being redesigned to provide capacity for 6,500 users. There are no data available which indicate the number of subscribers Radio Relay can now accommodate. It alleges, however, that it is "in the process of developing and packaging digital circuitry which will make it feasible to serve (32,768) customers with a peak backup of no more than 10 minutes." However, the 10 minutes peak waiting time is dependent upon Radio Relay being able to distribute its traffic load equally among each of the eight base stations in its radio system complex and to operate each station independently and concurrently. We note, however, that a filing on September 23, 1965, by Radio Relay in connection with its Station KEC745 shows that it is unable to operate all of its stations concurrently because to do so would result in interference within its own system. Instead, the eight stations are arranged in two coordinated groups which are operated sequentially. On this basis it appears that, for the 5 percent peak system activity assumed by Radio Relay, a system with 32,768 subscribers would experience a waiting time of over 31 minutes.

11. In a report, filed with the Commission on December 8, 1964, concerning the operation of its one-way signaling system (Station KEC745), Radio Relay stated:

> It was then decided to determine the times when a person was most likely to be paged, with the following conclusions:
>
> 1. The maximum possibility of a person being paged would occur when he was away from his office.
>
> 2. When a user was at another office or place of business, a spectators sport or the theater.
>
> 3. When he was in transit or another form of public movement.

This report shows the importance of reaching subscribers when they are within buildings.

12. Radio Relay in its filings in this proceeding contends, through information developed by others, that station area coverage at 35 Mc/s is superior to coverage at 150 Mc/s. We do not dispute such representation inasmuch as area coverage is normally determined by tests and measurements made outdoors. However, in its comments, Radio Relay does not conclusively show that radio signal building penetration at 35 Mc/s is better than at 150 Mc/s, nor does it discount the degraded radio system performance in the 35–44 Mc/s band when long range skip interference is present. Such interference follows the 11-year sunspot cycle and such phenomenon does not manifest itself at 150 Mc/s. Similarly, Smith's allegation that penetration of radio signals at 35 Mc/s is equal to that in the 150 Mc/s band is not supported by substantial evidence. On the other hand, AT&T's representation that signal penetration is better at 150 Mc/s than at 35 Mc/s is substantiated by extensive tests. In review of the foregoing, there is ample ground for the proposal herein that frequencies in the 150 Mc/s band be allocated for one-way signaling.

13. In addressing ourselves further to the question of need to provide for the establishment of additional one-way signaling facilities in the Domestic Public Land Mobile Radio Service, we note that in connection with its application (File No. 7182–C2–P–65) for a construction permit to add an eighth transmitter location to its Station KEC745, Radio Relay filed (September 2, 1965) an "Opposition to petition to deny and request for immediate grant without hearing; and alternative request for consolidated hearing" wherein it alleges that major cities like New York had a definite need for additional one-way facilities.

14. Another factor to be considered in connection with our notice of proposed rule making is the actual experience which the developmental one-way signaling stations in the 150 Mc/s band have had in attracting customers. Such stations are being operated by Pacific Northwest Bell Telephone Co. (Station KON 911 at Seattle, Wash.) and by the Chesapeake & Potomac Telephone Co. (Station KGC 590 at Washington, D.C.). The Seattle station commenced on April 10, 1962, and after 56 months of operation was serving 1,882 subscriber units. It is to be noted that Tele-Comm, Inc., a non-wire-line carrier, licensed to operate Station KOP 253 on 35.22 Mc/s on August 1, 1963, but had not rendered any one-way signaling service to subscribers as late as December 1966. The Washington, D.C., Bell station commenced on September 9, 1963, and 39 months thereafter was serving 2,957 subscriber units. On the other hand, Contact of Washington, Inc., nonwire carrier in Washington, D.C., was licensed to operate station KGA 806 on 45.58 Mc/s on October 7, 1953, and by the end of 1966 was serving 21 subscribers.

15. The foregoing experience indicates that service in the 150 Mc/s band by wire-line carriers is acceptable to users and has enjoyed substantial growth. We feel, therefore, that there is ample basis for the issuance of the notice of proposed rule making insofar as it relates to the assignment of two frequencies in the 150 Mc/s band to be used exclusively by common carriers in the landline message telephone service for providing a one-way signaling service.

16. Before reaching a final determination with respect to the aforementioned assignment of frequencies to wire-line carriers, we feel that respondents to our proposed rule making should be given an opportunity to address themselves to a basic policy question. This relates to the question of whether wire-line carriers should be permitted to provide a one-way signaling service by means of frequencies exclusively assigned to them for this purpose in the 150 Mc/s band. Specifically, we request that interested parties address themselves to the following issues:

a. Would such assignment result in a departure from the normal and historic two-way service provided by the landline carriers?

b. What effect, if any, would such assignment have on the ability of non-wire-line carriers to compete with wire-line carriers in the provision of one-way service?

c. In light of answers to the two foregoing questions, should the Commission make an assignment of two frequencies in the 150 Mc/s band to wire-line carriers to be used exclusively in providing a one-way signaling service or would the public interest better be served by not making any assignment of these frequencies to wire-line carriers?

17. NCUR's comments requested the Commission to provide sufficient safeguards to prevent "splatter" interference to the Power Radio Service operations on the frequency 158.13 Mc/s, which is allocated to that service (cf. § 91.254). The Commission is satisfied that with 30 kc/s channel spacing between assigned frequencies, using voice modulation or tone signaling, interference-free operation is feasible within the same geographic area. Since the nearest frequency to 158.13 Mc/s which we are proposing to make available for assignment in the Domestic Public Land Mobile Radio Service is 158.100 Mc/s, the 30 kc/s spacing between channels is maintained and we see no special need for concern, particularly where modulating signal levels can be properly set and maintained at a constant level. As determined by AT&T from tests which they have conducted in Washington, D.C., the signal splatter from one channel into an adjacent channel is attributable to internal transmitter noise modulation and not to the audio modulating frequencies below 3,000 cycles per second which are used therein. Such transmitter noise is present to varying degrees in all transmitting equipment. Special treatment usually is required to reduce its level to that desired by AT&T for its Washington, D.C., operation.

18. The proceedings in the notice of inquiry phase in Docket No. 16778 are hereby terminated and the proposed amendments to Part 21 of the Commission's rules appended hereto are issued under the authority contained in section 4(i) and 303 of the Communications Act of 1934, as amended.

19. Any interested person who is of the opinion that the proposed amendments should not be adopted or should not be adopted in the form set forth herein, and any person desiring to support this proposal may file with the Commission on or before September 22, 1967, a written statement or brief setting forth his comments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. All relevant and timely comments will be considered before final action is taken in this matter. In reaching its decision, the Commission may also take into account any other relevant in-

formation before it, in addition to the specific comments invited by this notice. If comments are submitted warranting oral argument, notice of the time and place of such oral argument will be given.

20. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, and comments filed shall be furnished the Commission.

Adopted: August 8, 1967.

Released: August 16, 1967.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

1. It is proposed to amend § 21.501 of the Commission's rules by addition to paragraph (c) the frequency pair 152.24/158.70 Mc/s for use of non-wire-line common carriers in providing one-way signaling and two-way communication service, and by addition of new paragraph (h) to designate the frequencies 152.84 Mc/s and 158.10 Mc/s for use exclusively for one-way signaling by wire-line common carriers. The present text of paragraph (h) is being deleted because no station assignments exist in the 890–902 Mc/s band in this service. As amended, § 21.501 will read as follows:

§ 21.501 Frequencies.

. . . . .

(c) For assignment to stations of communication common carriers not also engaged in the business of providing a public landline message telephone service for General and Dispatch Communications (provided that Signaling Communications may also be furnished by any facility rendering such General or Dispatch service):

Base station frequencies (Mc/s)	*Mobile, dispatch and auxiliary test station frequencies (Mc/s)*
152.06	158.40
152.09	158.52
152.09	158.55
152.12	158.58
152.15	158.61
152.18	158.64
152.21	158.67
152.24	158.70
454.06	459.06
454.10	459.10
454.15	459.15
454.20	459.20
454.25	459.25
454.30	459.30
454.35	459.35

. . . . .

(h) For assignment to base stations of communication common carriers engaged also in the business of affording public landline message telephone service, for use exclusively in providing a one-way signaling service to mobile receivers:

152.84 Mc/s	158.10 Mc/s

. . . . .

2. It is proposed to amend § 21.601(a) of the Commission's rules by addition of the frequencies 152.84 Mc/s, 158.10 Mc/s, and 158.70 Mc/s to read as follows:

§ 21.601 Frequencies.

(a) The following frequencies are available primarily to the Domestic Public Land Mobile Radio Service and on a secondary basis to stations in the Rural Radio Service, provided no harmful interference is caused to stations in the Domestic Public Land Mobile Radio Service:

Central office and interoffice station frequencies (Mc/s)	*Rural subscriber and interoffice station frequencies (Mc/s)*
152.51[1]	[1] 157.77
152.54[1]	[1] 157.80
152.57[1]	[1] 157.83
152.60[1]	[1] 157.86
152.63[1]	[1] 157.89
152.66[1]	[1] 157.92
152.69[1]	[1] 157.95
152.72[1]	[1] 157.98
152.75[1]	[1] 158.01
152.78[1]	[1] 158.04
152.81[1]	[1] 158.07
152.84[1]	[1] 158.10
	[1] 158.40
	[1] 158.52
	[1] 158.55
	[1] 158.58
	[1] 158.61
	[1] 158.64
	[1] 158.67
	[1] 158.70
	[1] 459.06
	[1] 459.10
	[1] 459.15
	[1] 459.20
	[1] 459.25
	[1] 459.30
	[1] 459.35
454.40[1]	[1] 459.40
454.45[1]	[1] 459.45
454.50[1]	[1] 459.50
454.55[1]	[1] 459.55
454.60[1]	[1] 459.60
454.65[1]	[1] 459.65
454.70[1 2]	[1 2] 459.70
454.75[1 2]	[1 2] 459.75
454.80[1 2]	[1 2] 459.80
454.85[1 2]	[1 2] 459.85
454.90[1 2]	[1 2] 459.90
454.95[1 2]	[1 2] 459.95

[1] This frequency is available for assignment only to stations of communication common carriers engaged also in the business of affording public landline message telephone service.

[2] This frequency is available for assignment only to stations of communication common carriers not also engaged in the business of providing a public landline message telephone service.' (NOTE: There is pending, in Docket 13847, a proposal to delete frequencies available for central office and interoffice stations for miscellaneous common carriers and to retain the frequencies for rural subscriber stations as designated by this footnote designator 2.)

[3] Pending promulgation of rules and regulations to govern the public air-ground radiotelephone service, and subject to further Order of the Commission, frequencies in the 454.675–455.000 Mc/s and 459.675–460.000 Mc/s bands are not available for operation of new radio facilities in the Rural Radio Service. In the interim, the authorizations of stations using such frequencies may be renewed, subject to Commission determination relative to use of such frequencies by the public air-ground radiotelephone service.

[F.R. Doc. 67-9753; Filed, Aug. 18, 1967; 8:45 a.m.]

[1] Commissioner Cox abstaining from voting; Commissioners Loevinger, Wadsworth, and Johnson absent.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 114]

[No. 34861]

UNIFORM SYSTEM OF ACCOUNTS FOR ELECTRIC RAILWAYS

Notice of Proposed Rule Making

AUGUST 11, 1967

Notice is hereby given pursuant to the provisions of section 4(a) of the Administrative Procedure Act that the Commission has under consideration proposed amendments of the Uniform System of Accounts for Electric Railways, to be effective as of January 1, 1967, with regard to the accounting treatment of extraordinary and prior period items in the determination of net income.

The proposed regulations would (a) generally require that items affecting net income be recorded in appropriate profit and loss accounts, rather than by direct entry to earned surplus account, and (b) explain, define and provide accounts and categories for ordinary income, extraordinary items, prior period items and applicable income taxes.

The revised rules herein proposed will have several notable advantages over current regulations which conditionally permit direct entry to earned surplus. Moreover, in asserting more objective criteria with respect to determination of materiality than presently exist, the proposed changes are intended to minimize the need to interpret existing regulations.

The Detailed Statement of Proposed Rule contained in the appendix below completely states the proposed revisions to the applicable parts of the Uniform System of Accounts for Electric Railways, considered necessary to accomplish the stated objectives.

All carriers affected by the proposed rules and other interested parties who desire to do so should submit written views and comments for consideration, as soon as possible, and not later than September 30, 1967. The Commission will consider all such responses and representations before deciding this matter, after which such order as may be found appropriate will be entered. An original and three copies of any such response should be submitted.

Notice shall be given Electric Railways hereby affected and to the general public by depositing this Notice in the office of the Secretary of the Commission at Washington, D.C., and by filing this Notice with the Director, Office of the Federal Register.

(13, 20, 24 Stat. 383, as amended; 49 U.S.C. 12, 20)

By the Commission, division 2.

[SEAL] H. NEIL GARSON,
Secretary.

APPENDIX

DETAILED STATEMENT OF PROPOSED RULE

I. The Table of Contents is amended as follows:

(a)

	From	*To*
	CHANGE	
114.01–6	Delayed items.	114.01–6 Extraordinary and prior period items.
114.02–3	Delayed items.	114.02–3 Extraordinary and prior period items.
114.03–2	Delayed items.	114.03–2 Extraordinary and prior period items.
114.306	Miscellaneous credits.	114.306 Other credits to earned surplus.
114.317	Miscellaneous debits.	114.317 Other debits to earned surplus.

(b) The following lines are deleted:

114.51–2 Retirements; power.
114.212–1 Delayed income credits.
114.226 Income applied to sinking and other reserve funds.
114.227 Income appropriated for investment in physical property.
114.228 Miscellaneous appropriations of income.
114.229 Delayed income debits.
114.312 Stock discount extinguished through surplus.
114.419 Retirements.

(c) After Income Accounts add:

ORDINARY ITEMS

(d) The following lines are added after § 114.225:

EXTRAORDINARY AND PRIOR PERIOD ITEMS

114.270 Extraordinary items (net).
114.280 Prior period items (net).
114.290 Income taxes on extraordinary and prior period items.

II. Operating expenses; instructions and Accounts Amended:

Item No. 1. Section 114.01–6 is revised to read as follows:

§ 114.01–6 Extraordinary and prior period items.

(a) All items of profit and loss recognized during the year are includible in ordinary income except nonrecurring items which in the aggregate for the same class are both material in relation to operating revenues and ordinary income, and are clearly not identified with or do not result from the usual business operations for the year. Important items of the kind which occur from time to time and which, when material in amount, are to be excluded from ordinary income are those resulting from unusual sales of property and investment securities other than temporary cash investments, from company bonds, reacquired, from change in the application of accounting principles, and from prior period items (other than ordinary adjustments of a recurring nature). Material items are those which, unless excluded from ordinary income, would distort the accounts and impair the significance of ordinary income for the year. Items so excludible from ordinary income accounts provided for extraordinary and prior period items upon approval of the Commission.

(b) Adjustments, constituting items of a character typical of customary business activities or representing corrections or refinements resulting from the natural use of estimates inherent in the accounting process, shall not be considered extraordinary or prior period items regardless of amount.

(c) In determining materiality, items of a similar nature should be considered in the aggregate; dissimilar items should be considered individually. As a general standard, an item to qualify for inclusion as an extraordinary or prior period item shall exceed one percent of total operating revenues and ten percent of ordinary income for the year.

(d) Ordinary delayed items and adjustments arising during the current year which are applicable to or related to transactions of prior years shall be included in the same accounts which would have been charged or credited if the item had been taken up or adjusted in the period to which it pertained. Ordinary delayed items excludes items of the character described in paragraph (a).

Item No. 2. The first sentence of § 114.01–8 *Salvage and value of material removed*, is revised to read as follows: "As used in this system of accounts, the terms 'salvage' and 'value of material removed' include the value of the carrier (not to exceed cost, estimated if not known), recovered or removed in the process of repairing, renewing, replacing or abandoning roadway, structures, and equipment."

Item No. 3. The last sentence of § 114.01–9, "Insurance recovered" is deleted.

Item No. 4. Section 114.01–10 *Property retired*, is amended by revising the first sentence of the second paragraph as follows: "When the amount chargeable to operating expenses in connection with the retirement of nondepreciable property is so material that its inclusion would distort the ordinary income for the year, the service value shall be recorded in account 270, 'Extraordinary items', when authorized by the Commission. See instruction 1–6."

Item No. 5. The last sentence of the second paragraph of § 114.01–14 *Depreciation*, is revised as follows: "The carrier may request, or the Commission may direct, that special accounting be applied in situations causing undue inflation or deflation of depreciation reserves, such as premature or unusual retirements or sales of depreciable property, or related insurance recoveries. A carrier's request for special accounting shall contain full particulars concerning the situation, including the basis for its proposal. Alternative accounting techniques shall be applied to the extent approved or directed by the Commission."

Item No. 6. Section 114.26–2 *Retirements; way and structures*, is revised to read as follows:

§ 114.26–2 Retirements; way and structures.

(a) This account shall include the service value of nondepreciable way and structure retired and not replaced, the ledger value of which is credited to account 401, "Road and equipment". It shall also include the service value of nondepreciable property which the carrier has been authorized by the Commission to charge to operating expenses in anticipation of its ultimate retirement from service.

(b) When the amounts referred to in paragraph (a) of this account are sufficiently large to constitute an extraordinary item, pursuant to section 114.01–6, they shall be credited to account 270, "Extraordinary items".

Item No. 7. Section 114.51–2 *Retirements; power*, is deleted.

Item No. 8. Section 114.0–7 *Accounts for small carriers, Class II*, is amended by deleting line 51–2, "Retirements—Power."

Item No. 9. Section 114.0–8 *Accounts for small carriers, Class III*, is amended by deleting line 51–2, "Retirements—Power."

III. Operating revenues; instructions amended:

Item No. 1. Section 114.02–3 is revised as follows:

§ 114.02–3 Extraordinary and prior period items.

See § 114.01–6 *Extraordinary and prior period items.*

IV. Income instructions and accounts amended:

Item No. 1. Section 114.03–2 is revised as follows:

§ 114.03–2 Extraordinary and prior period items.

See § 114.01–6 *Extraordinary and prior period items.*

Item No. 2. The last sentence of § 114.03–4 *Income from sinking and reserve funds*, is deleted.

Item No. 3. Section 114.03–6 *Form of income statement*, is amended as follows:

(a) Add the caption "Ordinary Items" above "Operating Income".

(b) Delete line 212–1, "Delayed income credits" and line 229, "Delayed income debits".

(c) Delete all lines between "Total deductions from gross income", and "Income Accounts" and add the following line items:

ORDINARY INCOME

EXTRAORDINARY AND PRIOR PERIOD ITEMS

270 Extraordinary items (net)
280 Prior period items (net)
290 Income taxes on extraordinary and prior period items.
Total extraordinary and prior period items.
Net income (or loss).

Item No. 4. Above § 114.201 *Railway operating revenues*, add center caption "Ordinary Items" between "Income Accounts" and "Credit".

Item No. 5. Section 114.212 *Miscellaneous income*, is amended by adding the following: Among the items which shall be included in this account are:

Profits from sale or transfer of land.
Profits from sale of investment securities.
Profits for sale or retirement of property assignable to account 404, "Miscellaneous physical property".
Unreleased premiums on funded debt securities reacquired before maturity.

Cancellation of balance sheet accounts representing unclaimed wages and vouchered accounts written off because of inability to locate creditors.

Credit from adjustments to bring funded debt securities issued or assumed to par when reacquired at less than par.

Collection of old accounts previously written off to profit and loss.

When the profits or adjustments resulting from any of the first four items are of an amount sufficiently large to constitute extraordinary items, pursuant to instruction 1–6, such profit or proceeds shall be credited to account 270, "Extraordinary Items."

Item No. 6. Section 114.213–1 *Delayed income credits*, is deleted.

Item No. 7. The first paragraph of § 114.215 *Taxes assignable to transportation operations*, is designated paragraph (a) and the next two paragraphs are revised to read as follows:

• • • • •

(b) The taxes on leased property shall be included in this account by the carrier obligated to assume such expenses under the terms of the lease.

(c) Monthly accruals of income taxes applicable to ordinary income shall be included in this account. See texts of account 290, "Income taxes on extraordinary and prior period items", account 306, "Other credits to earned surplus", and account 317, "Other debits to earned surplus", for recording other income tax consequences.

(d) Details pertaining to the income tax consequences of other unusual and significant items, and also cases where tax consequences are disproportionate to related amounts included in income accounts, shall be submitted to the Commission for consideration and decision as to proper accounting.

(e) Income taxes which are refundable or reduced as the result of carry-back or carry-forward of operating loss shall be credited to this account, if a carry-back, in the year in which the loss occurs, or if a carry-forward, in the year in which such loss is applied to reduce taxes. However, when the amount constitutes an extraordinary item, pursuant to section 114.01–6, it shall be included in account 280, "Prior period items".

Item No. 8. Section 114.225 *Miscellaneous debits*, is amended by adding the following: "Among other items which shall be included in this account are:

Losses from sale or transfer of land.

Losses from sale of investment securities.

Losses from sale or retirement of property assignable to account 404, "Miscellaneous physical property".

Unextinguished discount on funded debt securities reacquired before maturity.

Debits from adjustments to bring funded debt securities issued or assumed to par when reacquired at less than par.

Payment of old accounts previously written off to profit and loss.

When the profits or adjustments resulting from any of the first four tabulated items are of an amount sufficiently large to constitute extraordinary items, pursuant to instruction 1–6, such profits or proceeds shall be credited to account 270, "Extraordinary items"."

Item No. 9. Sections 114.226 to 114.229 are deleted.

Item No. 10. The system of accounts following § 114.225 is amended by adding the following:

EXTRAORDINARY AND PRIOR PERIOD ITEMS

§ 114.270 Extraordinary items (net).

(a) This account shall include extraordinary items accounted for during the current accounting year in accordance with § 114.01–6, upon approval of the Commission. Among the items which shall be included in this account are:

Net gain or loss on sale of land used for transportation purposes and of noncarrier property.

Net gain or loss on sale of securities acquired for investment purposes, and charges to write down the ledger value of such securities because of impairment of value.

Net gain or loss on reacquisition of company bonds.

Loss on retirement of transportation property because of abandonment or other cause for which depreciation reserve has not been provided.

Changes in application of accounting principles.

(b) Income tax consequences of charges and credits to this account shall be included in account 290, "Income taxes on extraordinary and prior period items".

(c) This account shall be maintained in a manner sufficient to identify the nature and gross amount of each debit and credit.

§ 114.280 Prior period items (net).

(a) This account shall include unusual delayed items accounted for during the current accounting year in accordance with the text of § 114.01–6, upon approval of the Commission. Among the items which shall be included in this account are:

Unusual adjustments, refunds or assessments of income taxes of prior years.

Unusual adjustments of reserves of prior years determined to be excessive or deficient.

Similar items representing transactions of prior years which are not identifiable with or do not result from business operations of the current year.

(b) Income tax consequences of charges and credits to this account shall be included in account 290, "Income taxes on extraordinary and prior period items".

(c) This account shall be maintained in a manner sufficient to identify the nature and gross amount of each debit and credit.

§ 114.290 Income taxes on extraordinary ... and prior period items.

This account shall include the estimated income tax consequences (debit or credit) assignable to the aggregate of items of both taxable income and deductions from taxable income which, for accounting purposes, are classified as unusual and extraordinary and are includible in account 270, "Extraordinary items", or 280 "Prior period items", as appropriate.

V. Earned surplus instructions and accounts amended:

Item No. 1. Section 114.306 *Miscellaneous credits*, is revised to read as follows:

§ 114.306 Other credits to earned surplus.

(a) This account shall include other credit adjustments, net of assigned income taxes, not provided for elsewhere in this system but only after such inclusion has been authorized by the Commission.

(b) The records supporting entries in this account shall be so maintained that an analysis thereof may be readily made available.

Item No. 2. Section 114.312 *Stock discount extinguished through surplus*, is deleted.

Item No. 3. Section 114.317 *Miscellaneous debits*, is revised to read as follows:

§ 114.317 Other debits to earned surplus.

(a) This account shall include (1) losses on resale of reacquired capital stock, (2) charges which reduce or write off discount on capital stock issued by the company, and (3) in pooling of equity interests situations, the excess of the value of the surviving company's capital stock over the aggregate total of the capital stock of the separate companies before such merger or consolidation, but only to the extent that capital surplus is not available for such purposes. (See § 114.05–2.)

(b) This account shall include other debit adjustments, net of assigned income taxes, not provided for elsewhere in this system, but only after such inclusion has been authorized by the Commission.

(c) The records supporting entries in this account shall be so maintained that an analysis thereof may be readily made available.

VI. General balance sheet instructions and accounts amended:

Item No. 1. The first sentence of the second paragraph of § 114.05–2 *Discount and premium on capital stock*, is revised to read as follows: "Entries in these accounts representing discounts shall be carried therein until offset (a) by premiums realized on subsequent sales of the same class of stock, (b) by assessments levied on the stockholders, (c) by charges to account 448, 'Unearned surplus', to the extent of the credit balance carried therein, (d) by charges to account 317, 'Other debits to earned surplus'; or discount may be retained in account 423–1, 'Discount on capital stock', until the stock to which the discount applies is reacquired or retired."

Item No. 2. The last sentence of the fourth paragraph of § 114.05–2 *Discount and premium on capital stock*, is revised to read as follows: "*Provided, however*, That the excess of a debit over the balance carried in unearned surplus shall be charged to account 317, 'Other debits to earned surplus'."

• • • • •

Item No. 3. The fourth paragraph of § 114.05–3 is revised to read as follows:

Except as provided in this section, the balance in each of the discount, expense, and premium accounts shall be carried therein until the reacquirements of the securities to which they relate, at which time the proportion (based on the ratio of the amount of funded debt reacquired to the actual outstanding before reacquirement) of discount, expense, and premium for the class of funded debt reacquired shall be cleared to account 212, "Miscellaneous income", account 225, "Miscellaneous debits", or to account 270, "Extraordinary items", as appropriate, in accordance with the text of these accounts.

Item No. 4. Section 114.05–7 *Form of general balance sheet statements*, is amended by deleting line 419, "Retirements".

Item No. 5. The note to § 114.401–3 *Reserve for depreciation—Road and equipment*, is deleted and the following paragraph is added:

A carrier may request, or the Commission may direct, that special accounting be applied in situations causing undue inflation or deflation of depreciation reserves, such as premature or unusual retirements or sales of depreciable property, or related insurance recoveries. A carrier's request for special accounting shall contain full particulars concerning the situation, including the basis for its proposal. Alternative accounting techniques shall be applied to the extent approved or directed by the Commission.

Item No. 6. The second paragraph of § 114.406–1 is revised to read as follows: "When such investments are written down, written off, sold, or otherwise disposed of at a loss, the losses sustained shall be charged to this account to the extent of the total credit balance in the account and the remainder, if any, shall be charged to account 225, 'Miscellaneous debits', or account 270, 'Extraordinary items', as appropriate."

Item No. 7. The second paragraph of § 114.418 *Discount on funded debt*, is revised to read as follows:

• • • • •

When an issue of funded debt, or any part thereof, is canceled and at the date of cancellation there is a balance of unamortized discount and expense relating thereto, the amount of such balance, together with any premium paid in retiring the debt, shall be charged to account 225, "Miscellaneous debits", or account 270, "Extraordinary items", as appropriate.

Item No. 8. Section 114.419 *Retirements*, is deleted.

Item No. 9. NOTE D of § 114.423 *Capital stock*, is revised to read as follows:

• • • • •

NOTE D: When par value capital stock is exchanged for capital stock without par value, any sums resting in discount, expense, and premium accounts with respect thereto shall be charged to account 448–1, "Paid-in surplus": *Provided*, That any debit in excess of the credit balance carried in that account shall be included in account 317, "Other debits to earned surplus".

Item No. 10. The second paragraph of § 114.440 *Premium on funded debt*, is revised to read as follows:

• • • • •

When an issue of funded debt or any part thereof is cancelled and at the date of cancellation there is a balance of unamortized premium relating thereto, the amount of such balance shall be credited to account 212, "Miscellaneous income", or account 270, "Extraordinary items", as appropriate.

VII. Road and equipment instructions and accounts amended:

Item No. 1. The first paragraph of § 114.06–7 *Land sold or reclassed*, is revised to read as follows:

If any land the cost of which has been included in these accounts is sold, the appropriate account shall be credited with the amount at which such property stands charged therein at the time of the disposal, and the difference between the amount thus credited and the amount received from the sale or disposal of the property shall be included in account 212, "Miscellaneous income", account 225, "Miscellaneous debits", or account 270, "Extraordinary items", pursuant to § 114.01–6, as appropriate.

• • • • •

Item No. 2. The last sentence of Note B of § 114.501 *Engineering*, is amended to read as follows:

• • • • •

NOTE B: • • • If the project is continued, expenditures for all surveys in connection therewith shall then be transferred to this account, and, if abandoned, to appropriate income accounts.

[F.R. Doc. 67–9797; Filed, Aug. 18, 1967; 8:47 a.m.]

FEDERAL REGISTER, VOL. 32, NO. 161—SATURDAY, AUGUST 19, 1967

Notices

DEPARTMENT OF STATE

Agency for International Development

HOUSING GUARANTY PROGRAM

Reopening

AUGUST 19, 1967.

The Foreign Assistance Act ("FAA") of 1966 directed that additional authority to issue housing guaranties provided by that statute be utilized by the Agency for International Development (A.I.D.) for pilot demonstration projects in Latin American countries. Guaranties are issued to eligible investors against loss of loan investments pursuant to section 224 of the Foreign Assistance Act of 1961, as amended. This announcement is intended to describe the Pilot Demonstration Program (Program), and outline the more important A.I.D. policies which govern its operation. The present Announcement is also intended to serve as a notification that A.I.D. will again accept applications for housing guaranties. Acceptance of applications by A.I.D. under the present Program will be limited to pilot demonstration projects, in accordance with the policies and criteria set forth below.

I. *The Program*—A. *General.* 1. The Program is an integral part of the Alliance for Progress. Accordingly, A.I.D. intends to utilize the guaranty authority, to the maximum extent possible, to support those projects which are most responsive to the Alliance objective of achieving qualitative and quantitative improvements in the home construction and finance industries throughout the hemisphere. Therefore, in evaluating applications, special consideration will be given to projects which will contribute to these goals. A.I.D. seeks to encourage the use of significantly better financing, marketing, management and building techniques to meet these objectives, and will entertain proposals employing improvements and/or innovations in methods, materials and design in home and community planning and construction which will result in reduced initial costs and carrying charges and improved housing while at the same time being consistent with sound underwriting criteria.

2. Projects will be selected competitively, and all eligible applications submitted prior to the terminal dates described in Section B, paragraph 2, below will be subjected to competitive evaluation.

3. Total guaranty authority now available for this program was determined in accordance with the guidelines provided by the President's Balance of Payments Committee.

B. *Eligible countries.* 1. The countries for which applications will be accepted by A.I.D. under the Program are limited to the following: British Honduras, Jamaica, Panama, Peru, and Venezuela.

2. Applications under the Program will be accepted by A.I.D. only at the office of the A.I.D. Mission (or in British Honduras at the U.S. Consulate) in the country for which the application is intended and only during the first 15 days of the month in which applications are due, in accordance with the schedule which follows:

Country	Terminal date
Panama	Jan. 15, 1968
British Honduras	Feb. 15, 1968
Jamaica	Mar. 15, 1968
Peru	Apr. 15, 1968
Venezuela	May 15, 1968

Applications will be accepted during ordinary business hours Monday through Friday from the first day of the month until close of business on the terminal dates shown.

3. The available authority has tentatively been distributed as follows:

Panama	$6,000,000
British Honduras	1,000,000
Jamaica	6,000,000
Peru	9,000,000
Venezuela	9,000,000

4. AID reserves the right to change the participating countries and/or the distribution of resources at its sole discretion.

C. *Eligible Projects*—1. *Program Category.* Eligible applications under the Program will be limited to Pilot Demonstration Projects, more fully described in paragraph 2e. below.

2. *Eligibility criteria*—a. *Joint venture.* The application must propose sponsorship by a bonafide joint venture between United States and host country entities. The application should expressly state the division of responsibilities envisioned, stock ownership proposed, and any other information which would help explain how the joint venture would operate. The U.S. partner must have proven experience in comparable residential development. Particular attention in the application should be devoted to the exact participation of each partner to the joint venture.

b. *Limit on applications.* No applicant may file more than one application in any one country.

c. *Applications previously submitted.* Applications previously submitted under earlier housing guaranty programs and not approved must be resubmitted utilizing the present form of application. Such applications must meet all requirements of this Program.

d. *Sales price.* The maximum sales price of any dwelling unit shall not exceed $7,500 taking into consideration that this ceiling must also provide for all anticipated price increases resulting from increased material and labor cost during the construction of the project.

e. *Pilot demonstration features.* (i) All projects submitted must demonstrate a contribution to the advancement of housing and/or community development in the locality for which it is proposed. This advancement may be in land planning, design, construction, building materials, production techniques, use of manpower, marketing procedures, financing, community planning or organization, or such other demonstration features as may be responsive to the Program objectives.

(ii) A.I.D. continues to consider as one of its most important goals the development of institutions in Latin America which will participate in the Alliance for Progress by helping in the economic and social development of the hemisphere. Accordingly, pilot demonstration projects which will also promote the development of trade unions, cooperatives and mortgage credit institutions, or which provide for financial participation of local institutions, as lenders or guarantors, will be welcomed under this program.

f. *Bonding and warranties.* (i) Sponsors will be required to provide surety that if a project is terminated prematurely, it will be done in an orderly fashion. This will require that work begun be completed and that all financial obligations of the Sponsor be satisfied. This surety may be in the form of a payment bond or a bank guaranty in an amount not less than 10 percent of the cost of the project, or if neither payment bonds nor bank guaranties are available, in such other form as may be acceptable to A.I.D.

(ii) Sponsors will also be required to escrow 2.7 percent of the sales price for a 12-month period after the closing of each house to insure that the Sponsor meets the conditions of his warranties.

g. *Applications.* All applications must be submitted in the English language. All exhibits must be submitted in English, or must be accompanied by English translations. Five complete sets of applications and exhibits must be submitted.

II. *General information.* An explanation of the terminology used in the Contract of Guaranty and other documents may be helpful to those unfamiliar with the Program.

A. *Sponsor.* The Sponsor normally develops a project, submits it to A.I.D. for review and is responsible, once the project is determined to be eligible for guaranty coverage, to see it through to completion. The Sponsor will normally be an individual or entity with considerable experience in organizing and carrying out large scale residential construction projects. All Sponsors shall:

1. Be joint ventures of United States and Latin American individuals or entities, which entities shall be substantially beneficially owned by United States or Latin American citizens.

2. Demonstrate actual experience and present capacity in developing housing projects and financial capacity to complete the proposed project.

3. Certify that they are not presently barred from doing business with the Federal Housing Administration or other agencies of the U.S. Government.

4. Demonstrate ability to secure construction financing without an A.I.D. guaranty of such construction financing.

5. Furnish warranties against construction defects for not less than 1 year from completion of construction of the respective dwellings. (A.I.D. may require more extensive warranties depending on normal practice in the countries in which the projects are located.)

B. *The investor.* 1. Section 223(c) of the Foreign Assistance Act of 1961, as amended, defines "eligible U.S. Investors" as follows:

"(c) the term 'eligible United States investors' means United States citizens, or corporations, partnerships, or other associations created under the laws of the United States or any State or territory and substantially beneficially owned by United States citizens, as well as foreign corporations, partnerships, or other associations: *Provided*, That the eligibility of a foreign corporation shall be determined without regard to any shares, in aggregate less than 5 per centum of the total of issued and subscribed share capital, required by law to be held by persons other than the United States owners."

2. Investors in the Program to date have included insurance companies, commercial banks, and the trustees of the pension and retirement funds of the AFL/CIO unions. Pursuant to the Housing Act of 1965, the U.S. Federal savings and loan associations are now able to participate. It is also understood that action by various state legislatures or state supervisory agencies now permits or soon will permit a substantial number of state chartered savings and loan associations to enjoy a similar status.

3. Sponsors are not required to provide evidence of the availability of a long-term investor at the time of applications. The first contact between the sponsor and investor need not take place until A.I.D. has completed its evaluation and issued a Letter of Advice to the successful applicants.

C. *The investment.* 1. The investment must be in the form of a long-term (usually at least 15 years) dollar loan to provide mortgage financing for a home ownership program. The monthly payments on the mortgages, together with the mortgage financing, down payments and closing costs should produce funds adequate to cover all project costs. Investments in rental projects are not eligible.

2. The rate of interest to the investor is governed by the provisions of the Foreign Assistance Act of 1961, as amended, which are as follows: "Section 222(h). In the case of any loan investment for housing guaranteed under * * * this Act * * * the Administrator of the Agency for International Development shall prescribe the rate of interest allowable to the eligible U.S. investor, which rate shall not be less than one-half of one per centum above the then current rate of interest applicable to housing mortgages insured by the Department of Housing and Urban Development. In no event shall the Administrator prescribe an allowable rate of interest which exceeds by more than one per centum the then current rate of interest applicable to housing mortgages insured by such Department."

3. The Administrator of A.I.D. has fixed the interest rate at not more than one-half of 1 percent above the ceiling applicable at the time the guaranty is authorized by A.I.D.

4. The present maximum yield to the investor permitted under the Program is 6½ percent per annum. This yield will be adjusted periodically pursuant to section 222(h) quoted in paragraph C.2 above.

5. The typical investment to date has been made for a 20-year term. Henceforth, A.I.D. is prepared to evaluate on a case by case basis the possibility of extending the amortization period beyond 20 years but not to exceed 25 years in order that lower income families may be able to share in the benefits of the program.

6. The amount of the A.I.D. guaranty is limited to a maximum of $3 million per project. The minimum total project cost will be $1 million.

7. A.I.D. reserves the right to increase or decrease the amount of guaranty authorization requested.

D. *The Administrator.* 1. A.I.D. analyses potential administrators in each country and will select the administrator for projects under the Program.

2. The administrator must be located within the country and preferably in the city in which the project is located. Individual mortgages financed from the proceeds of a guarantied investment may not be held or serviced by an investor or institution located within the United States.

3. The competence of the administrator is basic to the success of the project since it has primary responsibility to inspect and otherwise supervise the project from its inception through the servicing of the individual mortgages until they are completely paid off.

E. *Fees, reserves and other charges*—1. *Fees*—a. *Application fees*—(i) *Submission Fee.* Each application must be accompanied by a Submission Fee in the amount of one thousand dollars ($1,000). This fee shall be paid in the form of a certified check payable in U.S. dollars drawn on a U.S. bank and made payable to the Agency for International Development. This fee will become non-refundable upon acceptance of the application as described in Part III, Section A.

(ii) *Acceptance fee.* Upon issuance by A.I.D. of a "Letter of Advice" to the applicant in which the amount of guaranty authorized by A.I.D. will be stated, along with other conditions of the authorization, an Acceptance Fee shall become due and payable. This fee shall be in the amount of two dollars ($2) per one thousand dollars ($1,000) of the amount of the guaranty authorized.

b. *A.I.D. guaranty fee.* The A.I.D. guaranty fee is based upon the unpaid principal balance of the guarantied loan investment and is payable monthly as follows:

(i) One-half of one percent per annum where repayment of the loan in U.S. dollars has been guarantied by the government of the country in which the project is located.

(ii) One percent per annum where mortgages are insured in local currency by a government mortgage insurance institution, housing agency or other public or private institution acceptable to A.I.D. of the country in which the project is located.

(iii) Two percent per annum in all other cases.

c. *Inspector's fee.* Each sponsor of an approved project will be required to place in escrow, with the administrator at the time that the guaranty contracts for the project are signed (and to maintain such escrow fund with monthly deposits), an amount equal to the sum of three months salary for the certifying project inspector. These sums will constitute a project charge, which will be incorporated in the sales price and will be recoverable by the sponsor as stages of the project are completed.

d. *Reserves.* (i) A.I.D. requires that reserves be established to cover defaults by individual mortgagors as well as maintenance of value of local currencies. These reserves are established through an initial payment by the mortgagor at the time the mortgages are closed plus the payment of a fixed monthly charge, as part of the home purchaser's monthly payments. The amounts of such charges vary from country to country. Further information will be available from the A.I.D. Missions in the respective countries and from the U.S. consulate in British Honduras.

(ii) A.I.D. will require, wherever appropriate, adjustable mortgage payments by homeowners. Adjustable mortgages are normally based on a formula which adjusts the outstanding mortgage balance periodically in accordance with a reliable index which reflects the trend of internal costs and prices in a particular country.

(iii) A.I.D. may also require, in certain situations, a guaranty of repayment of the investment in U.S. dollars by the government of the country in which the project is located.

e. *Other charges.* There are many cost variables both within a country and among countries. It is therefore suggested that applicants use ten percent (10%) interest per annum as the sum of applicable charges when estimating the homeowners' monthly payments, unless more accurate figures are available for the particular project.

F. *Establishing sales prices.* 1. A.I.D. will evaluate proposed selling prices on the basis of estimates submitted by the applicant and reviewed by or on behalf of A.I.D.

2. The sponsor should consult the local USAID Mission or the U.S. Consulate in British Honduras regarding the appropriate level of sales prices and should be prepared to demonstrate the existence of an unserved market in the income group for which the project is intended.

3. A.I.D. will give special consideration to those projects having sales prices substantially below the $7,500 ceiling price.

G. Community facilities. 1. All applications should carefully consider the basic needs of a community over and above that for improved housing. A.I.D. will, therefore, carefully evaluate the sponsor's effort to assure that education, transportation, recreation, shopping, health facilities and other basic community necessities are provided.

2. A.I.D. will consider inclusion of the cost of community facilities, such as a community center, as part of the cost of the project, providing it can be demonstrated that such facilities add to the value of the dwelling.

3. As an essential element in sound community planning, applications must incorporate proposals governing the use of protective covenants and community organizations to control the uses of and alterations to the dwellings, as well as other arrangements necessary to maintain the standards of the community. Such arrangements shall also commit the sponsor or builder to remain responsible for the maintenance and operation of utilities and facilities until such responsibility is legally assumed by another acceptable entity.

III. Processing of applications—A. Preadmission stage. 1. The primary contact for a potential sponsor is the United States A.I.D. Mission ("USAID") (or in British Honduras, the Consulate) situated in the country in which the proposed project is located. The sponsor should establish that the USAID has no objection to the submission of the application for the proposed project before developing the application. USAID will advise what additional conditions, if any, apply in the particular country. As stated in Part I, Section E, paragraph 2, above, applications will be accepted only at the USAID office in the country where the project is proposed and at the U.S. Consulate in British Honduras.

2. Mission and consular personnel will be available to provide general guidance to prospective applicants from the date hereof until the due date stipulated in Part I, Section B above.

3. At the time applications are submitted, USAID personnel will review applications for completeness and will advise the applicant in writing that the application is complete or will advise what items are missing. USAID personnel will finish their review for completeness as soon as possible.

4. Any applicant whose application is found to be incomplete will be given 15 days from the date of notification of same in which to provide the missing information. If, after this 15-day period, the USAID personnel determine the application still to be incomplete, it shall then be rejected in writing and may not be resubmitted. All applications so rejected by A.I.D. shall be returned to the applicant together with the Submission Fee described in Part II, Section K, paragraph 1a.(1), above. This is the only condition under which the Submission Fee will be returned to the applicant.

B. Prefeasibility review. 1. All applications accepted by A.I.D. pursuant to Section A above, will be subjected to competitive evaluation in two stages. During the first, or prefeasibility review, all applications will be reviewed by A.I.D., and those projects considered most responsive to A.I.D.'s objectives will be selected for more exhaustive (feasibility) studies. A.I.D. expects to complete the first stage processing within 120 days of the final date applications are accepted in a particular country. Applicants shall be notified in writing of the disposition of their application at this point.

2. During prefeasibility review, the applicant will be expected to have an authorized representative available in the country in which the proposed project is located to provide A.I.D. representatives with such clarifications as may be requested.

C. Feasibility review. 1. All applications considered feasible as a result of the prefeasibility review shall be subject to a second or feasibility review. This review will include full local investigations of each project.

2. A.I.D. is privileged to be able to avail itself of the cumulative skills, experience and personnel of the Federal Housing Administration (FHA) through FHA's International Division which, under contract with A.I.D. provides technical and staff services to the A.I.D. Housing and Urban Development Division in the administration of the Housing Investment Guaranty Program. The FHA will send a team of men to investigate each project selected for Feasibility Review. The technical judgments of the FHA shall serve as guides for A.I.D. in fulfillment of its housing guaranty responsibilities.

3. A.I.D. will also make use of the skills of its own personnel and such other consultants it considers necessary to investigate and evaluate each project.

4. As in prefeasibility review, the applicant will be expected to have an authorized representative available in the country in which the project is to be located to provide A.I.D. representatives with such additional information and clarifications as may be required.

D. Acceptance. After feasibility reviews are completed, A.I.D. will select the successful projects, and issue letters of advice. Applicants not selected will be notified in writing. All decisions by A.I.D. are final.

IV. A closing note. The success of the Program is a key element of the Alliance for Progress. The staff of A.I.D. will furnish all possible assistance to applicants in order to insure submission of the best possible applications and the ultimate development of the finest and most creative group of projects.

JAMES FOWLER,
Deputy U.S. Coordinator, Alliance for Progress.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[Docket No. B-418]

HAROLD A. LOFTES

Notice of Loan Application

AUGUST 15, 1967.

Harold A. Loftes, 16 Tarlton Road, Wakefield, R.I. 02879, has applied for a loan from the Fisheries Loan Fund to aid in financing the construction of a new 60-foot L.O.A. steel stern dragger to engage in the fishery for red hake, flounders, and fish for industrial uses.

Notice is hereby given pursuant to the provisions of Public Law 88-85 and Fisheries Loan Fund Procedures (50 CFR Part 250, as revised Aug. 11, 1965) that the above entitled application is being considered by the Bureau of Commercial Fisheries, Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, Bureau of Commercial Fisheries, within 30 days from the date of publication of this notice. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operations of the vessel will or will not cause such economic hardship or injury.

H. E. CROWTHER,
Director, Bureau of Commercial Fisheries.

National Park Service

[Order No. 44]

DEPUTY ASSOCIATE DIRECTOR, NATIONAL PARK SERVICE AND REGIONAL DIRECTOR, NATIONAL CAPITAL REGION

Redelegation of Authority Relating to District of Columbia Zoning Commission

The authority delegated by the Secretary of the Interior to the Director, National Park Service to serve as a member of the Zoning Commission of the District of Columbia is hereby redelegated to Deputy Associate Director J. E. N. Jensen, National Park Service, and to Regional Director T. Sutton Jett, National Capital Region, as his first alternate in the event of his inability to serve.

Order No. 30 of June 22, 1964, which delegated the above authority to the Regional Director, National Capital Region is rescinded.

(Act of March 1, 1920, 41 Stat. 500; Section 2 of Reorganization Plan No. 3 of 1950; DM 245.1, 27 F.R. 6395)

Dated: August 7, 1967.

GEORGE B. HARTZOG, Jr.,
Director, National Park Service.

[F.R. Doc. 67-9774; Filed, Aug. 18, 1967; 8:45 a.m.]

[Order No. 45]

DEPUTY ASSOCIATE DIRECTOR, NATIONAL PARK SERVICE, REGIONAL DIRECTOR, NATIONAL CAPITAL REGION, AND ASSOCIATE REGIONAL DIRECTOR, NATIONAL CAPITAL REGION

Redelegation of Authority Relating to National Capital Planning Commission

The authority vested in the Director of the National Park Service to serve as an ex officio member of the National Capital Planning Commission is hereby redelegated to the following officials of the National Park Service:

1st Alternate—Deputy Associate Director J. E. N. Jensen.
2d Alternate—Regional Director T. Sutton Jett, National Capital Region.
3d Alternate—Associate Regional Director, Robert C. Horne, National Capital Region.

(Act of July 19, 1952; 66 Stat. 781)

Dated: August 7, 1967.

GEORGE B. HARTZOG, Jr.,
Director, National Park Service.

ILLINOIS STATE UNIVERSITY ET AL.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Office of Scientific and Technical Equipment, Business and Defense Services Administration, Washington, D.C. 20230, within 20 calendar days after the date on which this notice of application is published in the FEDERAL REGISTER.

Regulations issued under cited Act, published in the February 4, 1967, issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Office of Scientific and Technical Equipment, Department of Commerce, Room 5123, Washington, D.C.

A copy of each comment filed with the Director of the Office of Scientific and Technical Equipment must also be mailed or delivered to the applicant, or its authorized agent, if any, to whose application the comment pertains; and the comment filed with the Director must certify that such copy has been mailed or delivered to the applicant.

CIVIL AERONAUTICS BOARD

[Docket No. 16650; Order No. E-25627]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Worldwide Cargo Rates

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 15th day of August 1967.

Pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, there have been filed agreements between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the traffic conferences of the International Air Transport Association (IATA), adopted at meetings held in San Juan, P.R., in April and May 1967. The agreements, which have been designated the CAB Agreements 19622[1] and 19632,[2] are intended to be effective for a 2-year period from October 1, 1967.

The agreements relate solely to cargo matters and encompass the bulk of the rate resolutions adopted at San Juan.[3] In general terms, the agreements propose cargo rates to apply worldwide, a revised container program, reduced rate trans-

[1] R-4.
[2] R-1 through R-62 except those portions of R-8 and R-4 acted upon in Orders E-25341 and E-25412, and R-10 through R-12.
[3] All other rates resolutions were adopted for early effectiveness and were acted upon in Order E-25301, dated June 15, 1967.

portation for cargo agents and, in addition, the readoption or revalidation, with limited amendments generally of a clarifying or technical character, of resolutions previously approved.

The general trend of the rates proposed by the agreements on major routes in air transportation is downward except in the Western Hemisphere. In this area, the general cargo rate structure will be revised by the elimination of rates and weight breaks at the 200- and 400-kilogram breakpoints. Current rates at other breakpoints, however, will be retained. Insofar as specific commodity rates are concerned a few rates will be canceled and the minimum weight requirements for some items will be increased, generally from 45 to 100 kilograms.

On the North Atlantic, the general cargo rates will be reduced by about 11 percent for shipments of 200 kilograms to about 13 percent for shipments of 500 kilograms and over. Overall, adjustments proposed by the agreement in the specific commodity rate structure are relatively few. Some rates will be canceled, minimum weight requirements for some items will be increased, and a few additional reduced rates will be offered, including reduced rates to apply in both directions for chemicals, westbound for books, and eastbound for nuclear reactor parts.

Revisions proposed in the North/Central Pacific routes will provide across-the-board cuts in general cargo rates. Reductions based on San Francisco-Tokyo will range from about 5 percent for shipments under 45 kilograms to 9 percent for shipments of 500 kilograms and over. These will be coupled with the introduction of reduced rates for a number of commodities. Outbound reduced rates, West Coast to Tokyo, will be offered under two very broad commodity descriptions encompassing a substantial portion of traffic that now moves by air to Tokyo. One description includes office and business machinery, machinery and tools and surface vehicles, and the other covers electrical equipment. Rates under these descriptions will provide reductions of about 23 percent for items now moving under the general cargo rates.

While the agreements incorporate some reductions of cargo traffic moving via the North/Central Pacific, we would observe that the rate levels remain higher than those applicable via the North Atlantic; but, there is no indication that transportation costs are higher. We are approving these agreements since they do embrace reductions. This is a step in the right direction. However, the Board believes that further reductions are warranted, and expects that future IATA negotiations will be directed toward achieving this objective.

The agreements also propose more attractive rates for shipments moving via the South Pacific. Northbound general cargo rates heretofore have provided one break at 45 kilograms with a 25-percent discount from the under-45 kilogram rates. These will be conformed with the pattern that applies southbound. This includes additional weight breaks at 100 kilograms and at increments of 100 kilograms through 500 kilograms. Rates under the revised scale will provide reductions up to 14 percent for shipments of 500 kilograms and over.

For the most part, minimum charges in the Western Hemisphere, which generally range from $10 to $19 between specified points or areas, will remain unchanged. The minimum charge between points not now specified will be increased from $8 to $10. Current minimum charges between Houston/New Orleans/San Antonio and Mexico City will be reduced from $10 to $8. Minimum charges on the North Atlantic will be increased by $3 except from the Middle East where they will remain the same. They will result in a charge to/from New York/Boston/San Juan of $18 and to/from interior U.S. points of $21.

Reductions proposed will, in many instances, be greater than those commented on above when coupled with revisions in the container program. Basically, the revised rules provide that the charges for containerized shipments shall be based on the net weight of the consignment less a discount related to the size of the container, instead of a discount based on gross weight as provided under current rules. The discount, which will increase as the size of the container increases, may not exceed 10 percent of the charges applicable to the net weight. Allowances will range from $4 for a 17.97-cubic-foot container to $165.08 for a 494.29-cubic-foot container, and these will apply to 17 standard-size containers. But a 2-year phaseout period for other containers now registered will permit application of the full allowance for the first year and one-half for the second year.

Resolutions governing the charges for the carriage of animals have been revised to establish, within the framework of one resolution, worldwide rates to apply to the carriage of animals. Insofar as air transportation is concerned and in general terms, the agreement would, with limited revisions, extend to the Western Hemisphere and the Pacific, charges that have been approved for the carriage of animals via the North Atlantic; namely, the applicable under-45-kilogram rate without further discounts for larger volume shipments. Exceptions include baby poultry (under 72 hours old), fish, frogs, microbes, and insects which may (under the current agreement) move under the under-45-kilogram or the 45-kilogram rates, and monkeys and primates which are not subject to the current agreement. Revisions, while retaining the current rates for baby poultry, would eliminate the 45-kilogram rate for shipments of fish, frogs, microbes, and insects and would specifically provide for the carriage of monkeys and primates via the North Atlantic and Pacific at the applicable general cargo rates.[4] By the terms of the resolution, provision is specifically made for the departure from the minimums prescribed by use of rates established under specific commodity rate resolutions.

Consumer complaints have been filed by several U.S. firms[5] alleging that the resolution proposes increases, principally for import shipments of birds and fish from the Orient, that are unwarranted. In general, the complainants contend that in light of improved handling techniques, packaging and communication, shipments of birds or fish should be no more costly to the carriers than shipments of baby poultry which has the benefit of the 45-kilogram rate, or monkeys which may move under the general cargo rates. Correspondence has also been received from firms in foreign countries relating generally to alleged increased costs for shipments of birds to the United States. Data and comments received generally assume that current rates, particularly those that apply under specific commodity rate resolutions, will no longer be available. The supporting data supplied fail to show that the instant resolution will result in actual increases for traffic now carried. Moreover, the carriers have specifically retained the flexibility to establish rates to protect the traffic they are now carrying and to establish additional rates in particular markets where special rates are demonstrated to be economically feasible. If at some time in the future it is demonstrated that the resolution results in exorbitant charges, the Board will have ample opportunity to review its approval and modify it accordingly.

The Board has deferred action on an earlier application for approval of an agreement providing reduced-fare transportation for cargo agents, pending revisions which would bring the travel allowance proposed more in line with the business needs of the carriers and agents. The San Juan resolutions, which we are herein approving, permit the carriers collectively to provide two trips per year for each approved agency location at a 75-percent discount for agents located in the United States.[6] The rates that will apply to U.S.-based cargo agents are substantially similar to those applicable to passenger sales agents, including a

[4] Insofar as the carriage of monkeys and primates to/from India/Pakistan and Far East points via the Atlantic is concerned, the agreement would maintain the current under-45-kilogram rate which the Board has previously found unacceptable and we are maintaining our outstanding condition that the rates shall not be applicable in air transportation.

[5] Exceptions relate to charges for baby poultry and monkeys and primates which will not be subject to the basic resolution in the Western Hemisphere.

[5] Aquarium Supply Co., Tampa Livestock Distributors, Inc., Allied American Bird Co., and the Star Bird Co.

[6] The quota for agents located in other countries will be calculated on the basis of two trips per year per carrier per location.

conference-administered feature, a 12-month employment eligibility requirement, and a certification that the passes will be used for education and market development purposes.

A new resolution provides for a Worldwide Air Cargo Commodity Classification (WACCC) to replace the present system of numbering specific commodities. The new system is based on the existing United Nations Standard International Trade Classification (SITC), and provision is made for full transition to the new system by September 1, 1968. The new system is designed to lead to more precise descriptions and thereby overcome to a considerable degree problems or erroneous rating, and to facilitate an interchange of statistical information. We would observe, however, that the listing which is presented as part of the agreement departs from the SITC in a number of instances by the inclusion of generic groupings and in an overlapping of items between groups. Therefore, approval herein should in no way be construed as an approval of the commodity descriptions or as authority to depart from the provisions of Part 221 of the Board's Economic Regulations which govern the filing of tariffs.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, makes the following findings:

1. The Board finds, on the basis of all facts presently known, that those resolutions set forth in Appendix A[1] and contained in Agreements CAB 19622 and 19632 do not affect air transportation within the meaning of the Act.

2. The Board does not find those resolutions set forth in Appendix B[1] and contained in Agreement CAB 19632 to be adverse to the public interest or in violation of the Act.

3. The Board does not find those resolutions set forth in Appendix C[1] and contained in Agreement CAB 19632, to be adverse to the public interest or in violation of the Act: *Provided*, That approval is subject to the conditions specified with respect to each.

4. The Board finds that the petitions filed by Aquarium Supply Co., Tampa Livestock Distributors, Inc., Allied American Bird Co., and the Star Bird Co. should be dismissed.

Accordingly, it is ordered, That:

1. Jurisdiction is disclaimed with respect to those portions of Agreements CAB 19622 and 19632 set forth in finding paragraph 1;

2. That portion of Agreement CAB 19632, set forth in finding paragraph 2 is approved;

3. That portion of Agreement CAB 19632 set forth in finding paragraph 3 is approved subject to the conditions stated therein; and

4. The petitions filed by Aquarium Supply Co., Tampa Livestock Distributors, Inc., Allied American Bird Co., and the Star Bird Co. are dismissed.

Any air carrier party to the agreement, or any interested person, may, within 15 days from the date of service of this order, submit statements in writing containing reasons deemed appropriate, together with supporting data, in support of or in opposition to the Board's action herein. An original and 19 copies of the statements should be filed with the Board's Docket Section. The Board may, upon consideration of any such statements filed, modify or rescind its action herein by subsequent order.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON, *Secretary.*

A. P. MOLLER-MAERSK LINE AND KAWASAKI KISEN KAISHA, LTD.

Notice of Agreement Filed for Approval

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1321 H Street NW., room 609; or may inspect agreements at the office of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

Mr. A. A. De Giglio, "K" Line New York, Inc., 29 Broadway, New York, N.Y. 10006.

Agreement 9471-1, between A. P. Moller-Maersk Line and Kawasaki Kisen Kaisha, Ltd., modifies the basic transshipment agreement between these two lines as follows:

(1) Local freight rates paid by the initial carrier (Moller-Maersk) to local carriers for transportation between Indonesian ports shall not be included in the through rates for apportionment purposes.

(2) Delivering carrier (K Line) shall receive a minimum of $22 per revenue ton on through revenue.

(3) Provides that when the initial carrier pays local freight to local carriers,

documents evidencing such payment must be furnished the delivering carrier.

(4) Provides that delivering carriers share of transshipment expenses shall not exceed $2 per revenue ton.

Dated: August 16, 1967.

By order of the Federal Maritime Commission.

FEDERAL POWER COMMISSION

[Docket Nos. RP68-1, RP66-4]

FLORIDA GAS TRANSMISSION CO.

Notice of Extension of Time

AUGUST 14, 1967.

On August 11, 1967, staff counsel filed a request for an extension of time within which to file notices of intervention and petitions to intervene in the above-designated matter. Staff counsel states that several customers of Florida Gas Transmission Co. were apparently inadvertently not served with a copy of the Commission's order issued July 19, 1967, consolidating these proceedings.

Upon consideration of the above, notice is hereby given that the time is extended to and including September 6, 1967, within which notices of intervention and petitions to intervene may be filed.

KENNETH F. PLUMB,
Acting Secretary.

[F.R. Doc. 67-9767; Filed, Aug. 18, 1967; 8:45 a.m.]

[Docket No. CP68-40]

FLORIDA GAS TRANSMISSION CO.

Notice of Application

AUGUST 11, 1967.

Take notice that on August 7, 1967, Florida Gas Transmission Co. (Applicant), Post Office Box 44, Winter Park, Fla. 32789, filed in Docket No. CP68-40 a "budget-type" application pursuant to subsection (c) of section 7 of the Natural Gas Act, as implemented by subsection (c) of § 157.7 of the regulations under the Act, for a certificate of public convenience and necessity authorizing the construction and operations of certain natural gas sales and transportation facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to construct and operate, during the 12-month period following the granting of the authorization sought herein, various gas sales and transportation facilities as follows:

(1) For the transportation and sale of volumes of natural gas previously authorized for transportation or sale to existing distributors;

(2) For direct sales of natural gas to consumers located outside the franchise area of any local distributor; and

(3) Miscellaneous rearrangements of existing pipeline facilities of Applicant.

Applicant states that deliveries to any one distributor or consumer, through the facilities proposed to be installed, will not exceed 100,000 Mcf annually, and such natural gas will not be used by any distributor or consumer for boiler fuel purposes as defined by the Commission.

The total estimated cost of Applicant's proposed construction is not to exceed $300,000 and will be financed with internally generated funds.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before September 7, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Acting Secretary.

[F.R. Doc. 67-9768; Filed, Aug. 18, 1967; 8:45 a.m.]

[Docket No. RI68-60]

HUNT INDUSTRIES (OPERATOR) ET AL.

Order Providing for Hearing on and Suspension of Proposed Change in Rate

AUGUST 14, 1967.

Hunt Industries (Operator) et al. (Hunt)[1] tendered for filing a proposed change in their presently effective rate schedule for sales of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge is contained in the following designated filing:

Description: Notice of Change, dated June 30, 1967.

Purchaser and producing area: Montana-Dakota Utilities Co. (North Tioga Area, Burke County, N. Dak.).

Rate schedule designation: Supplement No. 2 to Hunt's FPC Gas Rate Schedule No. 6.

Effective date: August 24, 1967.[2]

Amount of annual increase: $650.

Effective rate: 16.0¢ per Mcf.[3]

Proposed rate: 17.0¢ per Mcf.[4]

Pressure base: 14.73 p.s.i.a.

Hunt's proposed periodic rate increase from 16.0 cents to 17.0 cents per Mcf, totaling $650 annually, is for a sale of gas to Montana-Dakota Utilities Co. in Burke County, N. Dak. The Commission's Statement of General Policy No. 61-1 did not prescribed ceiling rates in North Dakota. Consequently no formal guideline prices exist in the area. However, the proposed rate exceeds the highest rate permanently certificated in this area, which is 16.0 cents per Mcf. We therefore conclude that the proposed rate should be suspended for 5 months from August 24, 1967, the proposed effective date, as hereinafter ordered.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the proposed change, and that Supplement No. 2 to Hunt's FPC Gas Rate Schedule No. 6 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Ch. I), a public hearing shall be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 2 to Hunt's FPC Gas Rate Schedule No. 6.

(B) Pending such hearing and decision thereon, Supplement No. 2 to Hunt's FPC Gas Rate Schedule No. 6 is hereby suspended and the use thereof deferred until January 24, 1968, and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8

[1] Address is: 1401 Elm St., Dallas, Tex. 75202. Attention: Donald K. Young, Esquire.

[2] The stated effective date is the effective date proposed by Respondent.

[3] Initial rate.

[4] Periodic rate increase.

and 1.37(f)) on or before October 4, 1967.

By the Commission.

[SEAL] GORDON M. GRANT, *Secretary.*

[F.R. Doc. 67-9780; Filed, Aug. 18, 1967; 8:46 a.m.]

[Docket No. CP67-237]

LONE STAR GAS CO.

Notice of Petition To Amend

AUGUST 14, 1967.

Take notice that on August 1, 1967, Lone Star Gas Co. (Petitioner), 301 South Harwood Street, Dallas, Tex. 75201, filed in Docket No. CP67-237 a petition to amend the order issued by the Commission May 2, 1967, by authorizing Petitioner to put back in service a portion of pipeline presently abandoned, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By the above-mentioned order, Petitioner was permitted to abandon certain natural gas pipeline facilities since they were no longer needed or required as the supplies of natural gas connected thereto had become depleted. By the instant filing, Petitioner seeks authorization to place back in service approximately 9,562 feet of 6-inch pipeline, Line GDH-B, for the purpose of making a sale of natural gas to an oil field rate customer. Petitioner states that it is necessary to use the pipeline segment described above for the purpose of rendering the service proposed and Petitioner therefore requests the Commission to amend the above-mentioned order as requested.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before September 11, 1967.

KENNETH F. PLUMB, *Acting Secretary.*

[Docket No. RI68-50]

MIDWEST OIL CORP.

Order Providing for Hearing on and Suspension of Proposed Change in Rate

AUGUST 14, 1967.

On July 18, 1967, Midwest Oil Corp. (Midwest),[1] tendered for filing a proposed change in its presently effective rate schedule for sales of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 11, 1967.

Purchaser and producing area: Panhandle Eastern Pipe Line Co. (Joy, Littlehawk, Hunter, and Joy-Foster Units, Dewey County, Okla.) (Oklahoma "Other" Area).

Rate schedule designation: Supplement No. 4 to Midwest's FPC Gas Rate Schedule No. 27.

Effective date: August 18, 1967.[2]
Amount of annual increase: $238.
Effective rate: 15.495 cents per Mcf.[3][4]
Proposed rate: 17.561 cents per Mcf.[3][4]
Pressure base: 14.65 psia.

Midwest proposes a rate increase from 15.0 cents to a contractually due rate of 17.0 cents per Mcf (plus Btu adjustment) for its sales of gas to Panhandle Eastern Pipe Line Co. from the Joy, Littlehawk, Hunter, and Joy-Foster Units, Dewey County, Okla. (Oklahoma "Other" Area). The instant increase amounts to $238 annually. Since Midwest's proposed 17.0 cents (plus Btu adjustment) rate exceeds the area increased rate ceiling of 11.0 cents per Mcf for the Oklahoma "Other" Area as announced in the Commission's Statement of General Policy No. 61-1, as amended, we conclude that it should be suspended for 5 months from August 18, 1967, the proposed effective date, as hereinafter ordered.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the proposed change, and that Supplement No. 4 to Midwest's FPC Gas Rate Schedule No. 27 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. D, a public hearing shall be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 4 to Midwest's FPC Gas Rate Schedule No. 27.

(B) Pending such hearing and decision thereon, Supplement No. 4 to Midwest's FPC Gas Rate Schedule No. 27 is hereby suspended and the use thereof deferred until January 18, 1968, and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before October 4, 1967.

By the Commission.

[SEAL] GORDON M. GRANT, *Secretary.*

[Docket No. RI67-456]

OKLAHOMA NATURAL GAS CO.

Order Amending Order Providing for Hearings on and Suspension of Proposed Changes in Rates To Permit Substitute Rate Filing

AUGUST 14, 1967.

On June 1, 1967, Oklahoma Natural Gas Co. (Oklahoma Natural) filed with the Commission a proposed change in rate from 17.0 cents to 18.0 cents per Mcf, which pertains to its jurisdictional sales of natural gas from the Northeast Ivanhoe Field, Beaver County, Okla. (Oklahoma "Other" Area), to Northern Natural Gas Co. The Commission by order issued June 16, 1967, suspended for 5 months Oklahoma Natural's rate filing until December 1, 1967, and thereafter until made effective in the manner prescribed by the Natural Gas Act. Oklahoma Natural's suspended rate increase has not been made effective pursuant to section 4(e) of the Natural Gas Act.

On July 17, 1967, Oklahoma Natural submitted an amended notice of change in rate, designated as Supplement No. 1 to Supplement No. 1 to Oklahoma Natural's FPC Gas Rate Schedule No. 27, amending Supplement No. 1 to its aforementioned rate schedule to provide for a rate increase to 18.015 cents instead of the 18.0 cents per Mcf rate filed on June 1, 1967. Oklahoma Natural's amended filing to the 18.015 cents rate includes partial reimbursement of the 0.02 cent increase in Excise Tax imposed by House Bill No. 782 in the State of Oklahoma. Such tax became effective on July 1, 1967. The proposed tax portion of the increase amounts to $44 annually.

Oklahoma Natural's proposed rate of 18.015 cents per Mcf exceeds the area ceiling of 11.0 cents per Mcf for increased rates in the Oklahoma "Other" Area as announced in the Commission's Statement of General Policy No. 61-1, as amended, as did the previously suspended rate in said docket. Since Oklahoma Natural's corrective rate filing includes partial reimbursement of the tax increase imposed by the State of Oklahoma, we believe that it would be in the public interest to accept the corrected rate filing subject to the suspension proceeding in Docket No. RI67-456, with the suspension period of such corrective rate filing to terminate concurrently with the suspension period (December 2, 1967) of the original filing in said docket.

Oklahoma Natural requests a retroactive effective date of July 1, 1967, the date the Oklahoma tax increase became effective, for its corrective rate filing. Good cause has not been shown for waiving the 30-day notice requirement provided in section 4(d) of the Natural Gas Act to permit an earlier effective date for Oklahoma Natural's proposed rate filing and such request is denied.

The Commission finds: Good cause exists for amending the Commission's order issued June 16, 1967, in Docket No. RI67-456, to the extent hereinafter provided.

The Commission orders:

(A) The suspension order issued June 16, 1967, in Docket No. RI67-456, is amended only so far as to permit the 18.015 cents per Mcf rate contained in Supplement No. 1 to Supplement No. 1 to Oklahoma Natural's FPC Gas Rate Schedule No. 27 to be filed to supersede the 18.0 cents per Mcf rate provided in Supplement No. 1 to Oklahoma Natural's FPC Gas Rate Schedule No. 27, subject to the suspension proceeding in Docket No. RI67-456. The suspension period for such substitute filing shall terminate concurrently with the suspension period (Dec. 2, 1967) presently in effect in said docket.

(B) In all other respects, the order issued by the Commission on June 16, 1967, in Docket No. RI67-456, shall remain unchanged and in full force and effect.

By the Commission.

[SEAL] GORDON M. GRANT, *Secretary.*

[Docket No. E-7365]

PACIFIC POWER & LIGHT CO.

Notice of Application

AUGUST 14, 1967.

Take notice that on July 28, 1967, Pacific Power & Light Co. (Applicant) of Portland, Oreg., filed an application seeking authority pursuant to section 203 of the Federal Power Act to acquire all of the electric distribution system and associated facilities of the Walla Walla City County Airport Board, Walla Walla, Wash., (Board). The Board is a municipal body engaged in the operation of airport facilities in the City of Walla Walla, Wash.

The facilities to be acquired consist of all the overhead and associated underground electric distribution system, including street lighting facilities but excepting facilities used to light runways and taxi strips, belonging to the Board and located at the City-County Airport in Walla Walla. The consideration to be paid by Applicant for these facilities is the sum of $95,000.

With respect to energy supplied to the Board, Applicant will continue to provide said energy at rates set forth in that certain agreement between the Board and Applicant dated January 15, 1955, except that such rates shall be subject to change to correspond with percentages of any increase or decrease and revisions made in Applicant's applicable General Service Schedule filed with and approved by the Washington Utilities and Transportation Commission.

There will be no change in rates to customers other than the Board located on the airport property. These customers presently are billed under the rates of Applicant applicable to customers requiring similar service in the metropolitan area of Walla Walla on file with the Washington Utilities and Transportation Commission.

Any person desiring to be heard or to make any protest with reference to said application should, on or before September 7, 1967, file with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file and is available for public inspection.

KENNETH F. PLUMB, *Acting Secretary.*

[Docket No. RI68-10]

TAMARACK PETROLEUM CO., INC.

Order Accepting Contract and Agreements, Providing for Hearing on and Suspension of Proposed Change in Rate; Correction

AUGUST 2, 1967.

In the order "Order Accepting Contract and Agreements, Providing for Hearing on and Suspension of Proposed Change in Rate," issued July 21, 1967, and published in the FEDERAL REGISTER, August 1, 1967 (F.R. Doc. 67-8773, 32 FR. 11182), Docket No. RI68-10, under column headed "Rate Sched. No." on lines 3 and 4, change Rate Schedule No. 16 to read Rate Schedule No. 13.

GORDON M. GRANT, *Secretary.*

[F.R. Doc. 67-9783; Filed, Aug. 18, 1967; 8:46 a.m.]

[Docket No. CP68-41]

TENNESSEE GAS PIPELINE CO.

Notice of Application

AUGUST 11, 1967.

Take notice that on August 8, 1967, Tennessee Gas Pipeline Co., a division of Tenneco, Inc. (Applicant), Post Office Box 2511, Houston, Tex. 77001, filed in Docket No. CP68-41 an application pursuant to subsection (c) of section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities and the sale and delivery of quantities of natural gas to a resale customer, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to construct and operate approximately 1,175 feet of 20-inch pipeline and to enlarge an existing meter station. Applicant also seeks authorization to sell and deliver to Trunkline Gas Co. (Trunkline), pursuant to a gas sales contract between Applicant and Trunkline, dated July 13, 1967, a quantity of 127.75 million Mcf of natural gas over a 3-year period from November 1, 1967, to November 1, 1970. Applicant states that Trunkline has indicated that it requires the volumes of natural gas in order to assure an adequate gas supply in meeting its existing markets while it acquires other supplies of natural gas to meet its growing market requirements. Applicant states that it has the deliverability to perform the service proposed above and that the rendition of such proposed service will not affect its ability to render service to its existing customers.

Applicant states that the total cost of the facilities proposed above will be approximately $196,344 and that Applicant and Trunkline will share equally the cost of the 20-inch pipeline. Applicant will finance its share of the costs through funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before September 8, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Acting Secretary.*

[F.R. Doc. 67-9770; Filed, Aug. 18, 1967; 8:45 a.m.]

[1] Address is: 1700 Broadway, Denver, Colo. 80202.

[2] The stated effective date is the effective date proposed by Respondent.

[3] Base rate subject to upward and downward Btu adjustment for gas containing more or less than 1,000 Btu's per cubic foot.

[4] Includes base rate of 15.0 cents plus 0.495 cent upward Btu adjustment before increase and 17.0 cents plus 0.561 cent upward Btu adjustment after increase. Present Btu content of gas is 1,033 Btu's per cubic foot.

SECURITIES AND EXCHANGE COMMISSION

[70-4522]

APPALACHIAN POWER CO.

Notice of Proposed Issue and Sale of Notes to Banks

AUGUST 15, 1967.

Notice is hereby given that Appalachian Power Co. ("Appalachian"), 40 Franklin Road, Roanoke, Va. 24011, an electric utility company and a subsidiary company of American Electric Power Co., Inc., a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 and 7 thereof as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Appalachian proposes to issue and sell to a group of 10 banks, from time to time prior to December 31, 1968, up to an aggregate of $48,500,000 of promissory notes outstanding at any one time. The notes will be dated in each case as of the date of the borrowings and will mature not more than 270 days after the date of issuance. They will bear interest from the date thereof at the then current prime credit rate (presently 5½ percent per annum) and will be prepayable at any time, in whole or in part, without premium. Appalachian requests the Commission's approval for the issue and sale of such amount of notes not exempted pursuant to the first sentence of section 6(b) of the Act.

The aggregate line of credit established with each of the ten banking institutions is as follows:

First National City Bank, New York, N.Y.	$7,275,000
Irving Trust Co., New York, N.Y.	7,275,000
Manufacturers Hanover Trust Co., New York, N.Y.	5,820,000
Continental Illinois National Bank and Trust Co., Chicago, Ill.	5,820,000
Morgan Guaranty Trust Co., of New York, New York, N.Y.	5,336,000
Chase Manhattan Bank, New York, N.Y.	4,850,000
Mellon National Bank and Trust Co., Pittsburgh, Pa.	4,850,000
Bankers Trust Co., New York, N.Y.	2,425,000
Chemical Bank New York Trust Co., New York, N.Y.	2,425,000
Northern Trust Co., Chicago, Ill.	2,425,000
Total	48,500,000

The proceeds from the issue and sale of the notes will be used by Appalachian to reimburse its treasury for past expenditures in connection with its construction program, to pay part of the cost of its future construction program, which is estimated at $107 million for the second half of 1967 and 1968, and for other corporate purposes. All of Appalachian's notes payable to banks outstanding at the time of its next permanent financing, expected before the end of 1968, will be paid from the proceeds of such financing.

The declaration states that expenses incident to the proposed transactions are estimated not to exceed $500. It is represented that the proposed transactions will be authorized by the Virginia State Corporation Commission and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than September 6, 1967, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F.R. Doc. 67-9777; Filed, Aug. 18, 1967; 8:46 a.m.]

[70-4523]

INDIANA & MICHIGAN ELECTRIC CO.

Notice of Proposed Issue and Sale of Notes to Banks

AUGUST 15, 1967.

Notice is hereby given that Indiana & Michigan Electric Co. ("Indiana"), 2101 Spy Run Avenue, Fort Wayne, Ind. 46805, a public-utility subsidiary company of American Electric Power Co., Inc., a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 and 7 thereof as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of proposed transactions.

Indiana proposes to issue and sell to a group of ten banks, from time to time prior to December 31, 1968, up to an aggregate of $34,525,000 of promissory notes outstanding at any one time. The notes will be dated in each case as of the date of the borrowings and will mature not more than 270 days after the date of issuance. The notes will bear interest from such date at the then current prime credit rate (presently 5½ percent per annum) and will be prepayable at any time, in whole or in part, without premium. Indiana requests the Commission's approval for the issue and sale of such amount of notes not exempted pursuant to the first sentence of section 6(b) of the Act.

The aggregate line of credit established with each of the ten banking institutions is as follows:

First National City Bank, New York, N.Y.	$5,180,000
Irving Trust Co., New York, N.Y.	5,175,000
Manufacturers Hanover Trust Co., New York, N.Y.	4,140,000
Continental Illinois National Bank and Trust Co., Chicago, Ill.	4,140,000
Morgan Guaranty Trust Co. of New York, New York, N.Y.	3,800,000
Chase Manhattan Bank, New York, N.Y.	3,450,000
Mellon National Bank and Trust Co., Pittsburgh, Pa.	3,450,000
Bankers Trust Co., New York, N.Y.	1,730,000
Chemical Bank New York Trust Co., New York, N.Y.	1,730,000
Northern Trust Co., Chicago, Ill.	1,730,000
Total	34,525,000

The proceeds from the issue and sale of the notes will be used by Indiana to reimburse its treasury for past expenditures in connection with its construction program, to pay part of the cost of its future construction program, which is estimated at approximately $82,000,000 for the second half of 1967 and 1968, and for other corporate purposes. All of Indiana's notes payable to banks outstanding at the time of its next permanent financing, expected before the end of 1968, will be paid from the proceeds of such financing.

The declaration states that no fees or expenses are to be paid or incurred by Indiana or any associate company in connection with the proposed transactions. It is also stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than September 6, 1967, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[F.R. Doc. 67-9778; Filed, Aug. 18, 1967; 8:46 a.m.]

FEDERAL RESERVE SYSTEM

RULES OF ORGANIZATION OF THE BOARD OF GOVERNORS

Effective immediately, the Rules of Organization of the Board of Governors of the Federal Reserve System are as follows:

SECTION 1. *Basis and scope.* These Rules are issued by the Board of Governors of the Federal Reserve System (the "Board") pursuant to the requirement of section 552 of Title 5 of the United States Code that each agency shall publish in the FEDERAL REGISTER a description of its central and field organization.

SEC. 2. *Composition and location*—(a) *Governors, Chairman, Vice Chairman.* The Board consists of seven members appointed by the President, by and with the advice and consent of the Senate, for 14-year terms. The members of the Board are required by law to devote their entire time to the business of the Board. One of them is designated by the President as Chairman and one as Vice Chairman, to serve as such for terms of four years. At meetings, the Chairman presides or, in his absence, the Vice Chairman presides. In the absence of the Chairman and Vice Chairman, the Board elects a member to act as Chairman Pro Tempore. The Chairman of the Board, subject to its supervision, is its active executive officer. The Board usually meets daily to consider matters relating to monetary and credit policies, regulatory and supervisory duties with which it has been charged by the Congress, and administrative and other questions arising in the conduct of the work of the Board.

(b) *Location and business hours.* The principal offices of the Board are in the Federal Reserve Building, 20th Street and Constitution Avenue NW., Washington, D.C. 20551. The Board's regular business hours are from 8:45 a.m. to 5:15 p.m. each weekday except Saturday; but such business hours may be changed from time to time.

SEC. 3. *Central organization.* The Board's central organization consists of the members of the Board and the following Divisions and officials:

(a) *Office of the Secretary* is headed by the Board's Secretary, who acts as the administrative officer of the Board in its relations with the Divisions of its staff, with the Federal Reserve Banks, and with the general public. This Office clears and conducts official correspondence of the Board and is charged with responsibility for maintaining and providing reference service to the official records of the Board and the Federal Open Market Committee.

(b) *Legal Division,* headed by the Board's General Counsel, advises and assists the Board with respect to legal matters, including legislation, regulations, interpretations, opinions, applications, hearings, orders, and litigation.

(c) *Division of Research and Statistics,* headed by a Director, provides the Board, the Federal Open Market Committee, and other System officials with the economic information needed for current operations and the formulation of credit and monetary policies; and prepares, publishes, and interprets a variety of statistical series in the financial and nonfinancial fields.

(d) *Division of International Finance,* headed by a Director, advises and assists the Board on international financial and economic matters and conducts research in this field. It carries on staff work in connection with the supervision of foreign operations of the Federal Reserve System and the membership of the Chairman of the Board on the National Advisory Council on International Monetary and Financial Policies.

(e) *Division of Bank Operations,* headed by a director, advises and assists the Board with respect to matters concerning the operation of the Federal Reserve Banks and the printing, issue, and redemption of Federal Reserve notes; collects and prepares data regarding the condition, operations, expenses, and earnings of Reserve Banks; and maintains liaison with the Treasury Department and other Government agencies on fiscal agency operations of Reserve Banks.

(f) *Division of Examinations,* headed by a Director, periodically examines the Federal Reserve Banks and reviews and appraises their audit activities; coordinates the bank supervisory functions of the System and evaluates the examination procedures of the Reserve Banks; exercises general supervision of the commercial and fiduciary activities of State member banks; administers the supervisory features of laws and regulations relating to affiliates and bank holding companies; supervises various foreign banking activities of member banks and foreign banking and financing corporations; administers the public disclosure provisions of the Securities Exchange Act of 1934, as amended, in their application to State member banks; processes and presents to the Board applications filed pursuant to the Bank Holding Company Act and the Bank Merger Act and various other applications submitted under the provisions of the Federal Reserve Act or related statutes; and advises the Board regarding developments in banking and bank supervisory policies and procedures.

(g) *Division of Personnel Administration,* headed by a Director, is responsible for the administration of the Board's personnel program, serves as the Board's security office, and advises and assists the Board on personnel matters pertaining to the Federal Reserve Banks.

(h) *Division of Administrative Services,* headed by a Director, serves as the central procurement, duplicating, communications, and service unit of the Board and advises and assists the Board with respect to such matters. It also performs various administrative functions, including the distribution of Board publications and the operation of the Board's building and other facilities.

(i) *Office of the Controller,* headed by the Board's Controller, is responsible for maintaining an effective internal financial management system, including budgeting, accounting, reporting, internal and contract auditing, and operational analyses; determining assessments on the Federal Reserve Banks for funds to cover expenses of the Board; receiving and disbursing the Board's funds; and handling reimbursement to the Treasury Department for the printing, issuance, and redemption of Federal Reserve notes.

(j) *Office of Defense Planning,* headed by a Coordinator, is responsible for the development of the Board's defense emergency planning program, the coordination of that program with those of the Federal Reserve Banks and of other Government departments and agencies, and promotion of the commercial bank preparedness program.

(k) *Division of Data Processing,* headed by a Director, provides systems analysis, programming, and other data processing support for the Board and its

staff; schedules and operates the Board's electronic and automatic data processing equipment; collects and processes statistical information on banking developments; advises on statistical methods and statistical operations; and advises on the design of and prepares graphic displays in connection with economic analyses and presentations.

(l) *Other personnel.* In addition to the Divisions mentioned above, the staff of the Board includes Advisers and Assistants to the Board and a Legislative Counsel. The Federal Reserve Bulletin is issued monthly under the direction of a Staff Editorial Committee. The Board does not employ hearing officers as regular members of its staff; but, in accordance with applicable provisions of law and in individual cases as the need may arise, the Board obtains and utilizes hearing officers, whose functions in such capacity are appropriately separated, as required by law, from investigative and prosecuting functions of the staff.

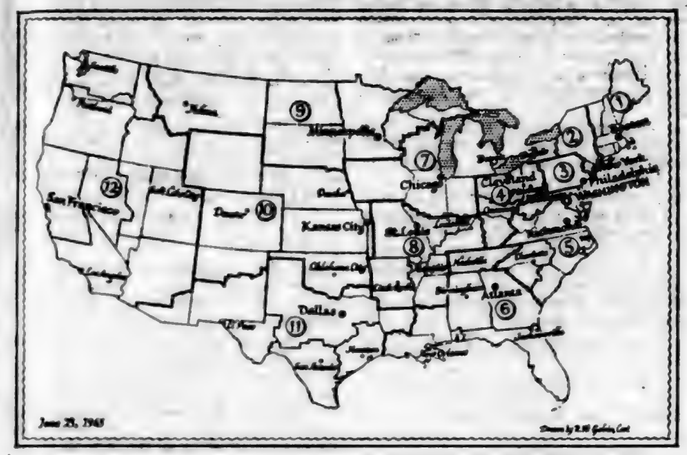
SEC. 4. *Field organization*—(a) *Federal Reserve Banks.* The United States is divided into 12 Federal Reserve districts. In one city in each Federal Reserve district there is located a Federal Reserve Bank, and in 10 of the districts there are one or more branches of the Federal Reserve Bank in other cities. Each Federal Reserve Bank is a separate legal entity, created pursuant to the Federal Reserve Act and operating under the general supervision of the Board. The locations of the 12 Federal Reserve Banks and their 24 branches and the boundaries of the Federal Reserve district and branch territories are shown in the Appendix. Each Federal Reserve Bank, in addition to its other duties, carries out local functions for the Board pursuant to instructions of the Board, and in many matters acts as the Board's field representative in the Bank's district. It assists in the regional administration of the Board's regulations and policies, keeps the Board informed of local conditions, and recommends such actions as it thinks appropriate in particular cases. In general, persons concerned with Federal Reserve matters should deal in the first instance with the Federal Reserve Bank of the appropriate district or a Branch thereof, and the Board requests all persons to follow this procedure.

(b) *Federal Reserve Agents.* At each Federal Reserve Bank, one of the three directors of the Bank appointed by the Board is designated by the Board as Chairman of the Board of Directors of the Bank and as Federal Reserve Agent. He acts as the Board's official representative and maintains a local office of the Board on the premises of the Federal Reserve Bank.

SEC. 5. *Delegations of authority.* The Board does not delegate any of its functions relating to rule-making or pertaining principally to monetary or credit policies or involving any questions of general policy. However, the Board delegates certain of its supervisory and other functions prescribed by statute or regulations of the Board to its members or employees or to the Federal Reserve Banks as provided in its Rules Regarding Delegation of Authority (12 CFR 265). In addition, the Board delegates to the Federal Reserve Banks certain functions not provided for by statute or regulations of the Board, including authority to extend the time within which certain transactions may be consummated, such as acquisitions of shares by bank holding companies, filing of annual reports by bank holding companies, establishments of branches by member banks and by foreign banking and financing corporations, and accomplishment of membership of State banks in the Federal Reserve System.

Dated at Washington, D.C., the 9th day of August 1967.

By order of the Board of Governors.



[SEAL] KENNETH A. KENYON, *Assistant Secretary*

[S.O. 994; ICC Order 1]

CHICAGO, ROCK ISLAND, AND PACIFIC RAILROAD CO.

Rerouting and Diversion of Traffic

In the opinion of R. D. Pfahler, Agent, the Chicago, Rock Island, and Pacific Railroad Co. is unable to transport traffic routed over its line between Shumaker, Ark., and Shumaker Ordnance Plant, Ark., because of track conditions.

It is ordered, That:

(a) Rerouting traffic: The Chicago, Rock Island, and Pacific Railroad Co. is unable to transport traffic routed over its line between Shumaker, Ark., and Shumaker Ordnance Plant, Ark., because of track conditions. This carrier and its connections are hereby authorized to reroute or divert such traffic over any available route to expedite the movement. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Concurrence of receiving roads to be obtained: The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) Notification to shippers: Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 11:59 p.m., August 16, 1967.

(g) Expiration date: This order shall expire at 11:59 p.m., September 30, 1967, unless otherwise modified, changed or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as Agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Office of the Federal Register.

Issued at Washington, D.C., August 16, 1967.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER,
Agent.

[F.R. Doc. 67-9793; Filed, Aug. 18, 1967; 8:47 a.m.]

[S.O. 994; ICC Order 2]

FRANKFORT & CINCINNATI RAILROAD CO.

Rerouting and Diversion Traffic

In the opinion of R. D. Pfahler, Agent, the Frankfort & Cincinnati Railroad Co. is unable to transport traffic routed over its line because of work stoppage and having placed an embargo on all freight destined to stations on its line from Hailey, Ky., to Paris, Ky., inclusive.

It is ordered, That:

(a) Rerouting traffic. Because of work stoppage and having placed an embargo, the Frankfort & Cincinnati Railroad Co. being unable to transport traffic in accordance with shippers' routing, is hereby authorized to reroute or divert such traffic over any available route to expedite the movement. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Concurrence of receiving roads to be obtained. The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted before the rerouting or diversion is ordered.

(c) Notification to shippers. Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 11:59 p.m., August 16, 1967.

(g) Expiration date: This order shall expire at 11:59 p.m., October 31, 1967, unless otherwise modified, changed, or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as Agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Office of the Federal Register.

Issued at Washington, D.C., August 16, 1967.

SOUTHERN INDUSTRIAL RAILROAD, INC.

Rerouting and Diversion of Traffic

In the opinion of R. D. Pfahler, Agent, the Southern Industrial Railroad, Inc., is unable to transport traffic routed over its line via Moravia and Trask, Iowa, because of track conditions.

It is ordered, That:

(a) Rerouting traffic: The Southern Industrial Railroad, Inc., and its connections, being unable to transport traffic routed over its line via Moravia and Trask, Iowa, because of track conditions, are hereby authorized to reroute or divert such traffic over any available route to expedite the movement. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Concurrence of receiving roads to be obtained: The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) Notification to shippers: Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 11:59 p.m., August 16, 1967.

(g) Expiration date: This order shall expire at 11:59 p.m., August 31, 1967, unless otherwise modified, changed, or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as Agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Office of the Federal Register.

Issued at Washington, D.C., August 16, 1967.

CHICAGO, BURLINGTON & QUINCY RAILROAD CO.

Rerouting and Diversion of Traffic

In the opinion of R. D. Pfahler, Agent, the Chicago, Burlington & Quincy Railroad Co. is unable to transport traffic to and from Savannah, Missouri, because of damage to a bridge at Rosendale, Mo.

It is ordered, That:

(a) Rerouting traffic: The Chicago, Burlington & Quincy Railroad Co., being unable to transport traffic to and from Savannah, Missouri, because of damage to a bridge at Rosendale, Mo., that carrier and its connections are hereby authorized to reroute or divert such traffic over any available route to expedite the movement. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Concurrence of receiving roads to be obtained: The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) Notification to shippers: Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 11:59 p.m., August 16, 1967.

(g) Expiration date: This order shall expire at 11:59 p.m., October 31, 1967, unless otherwise modified, changed or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as Agent of all railroads subscribing to the car service and per diem agreement under the terms of the agreement and that it be filed with the Director, Office of the Federal Register.

[Notice 25]

MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 16, 1967.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 279), appear below:

As provided in the Commission's general rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 30 days from the date of service of the order. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-69482. By order of August 4, 1967, Division 3, acting as an appellate division, approved the transfer to McGuire Lumber & Supply, Inc., Wylliesburg, Va., of the operating rights in certificate No. MC-16672, issued August 16, 1961, to the Tobacco Trail Transport, Inc., La Plata, Md., authorizing the transportation, over irregular routes, of lumber from South Boston, Va., and points within 35 miles thereof, to Pittsburgh, Pa., and points in Pennsylvania, Ohio, and West Virginia within 75 miles of Pittsburgh, restricted against transportation from Drakes Branch, Va., to Pittsburgh, Pa., and points in Pennsylvania and West Virginia within 75 miles of Pittsburgh. William Graham Boyce, Jr., 1520 Fidelity Building, Baltimore, Md., attorney for transferor.

[SEAL] H. NEIL GARSON,
Secretary.

Title 3—THE PRESIDENT

Proclamation 3800

THIRTIETH ANNIVERSARY OF THE BONNEVILLE PROJECT ACT

By the President of the United States of America

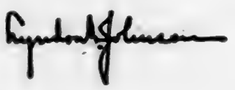
A Proclamation

Until the 20th of August 1937, the great Columbia River System was an untamed, untapped resource.

On that day, President Franklin D. Roosevelt signed the Bonneville Project Act—and a new era began in the Pacific Northwest.

Within a few years after its creation, the Bonneville system was providing power for the aircraft factories, the shipyards, and other critical industries of World War II.

Now, thirty years later, the Bonneville Power Administration is the Nation's largest hydroelectric utility. It utilizes twenty-one Federal dams, and nine more are under construction.



Today—through the facilities of the Bonneville Power Administration—Pacific Northwest families use more than ten times as much electricity as they did in 1940.

In the future, Bonneville will play a central role in complex power systems extending from the Canadian Treaty dams in British Columbia to Southern California and Arizona.

It is appropriate that Americans should celebrate the thirtieth anniversary of an Act that has contributed so greatly to our economic development.

NOW, THEREFORE, I, LYNDON B. JOHNSON, President of the United States of America, do hereby proclaim August 20, 1967, as Bonneville Project Day. I urge State and local public officials, industrial leaders, the press, and all private citizens in the Pacific Northwest and around the Nation to join in observing the Bonneville anniversary.

IN WITNESS WHEREOF, I have hereunto set my hand this eighteenth day of August in the year of our Lord nineteen hundred and sixty-seven, and of the Independence of the United States of America the one hundred and ninety-second.

THE WHITE HOUSE

[F.R. Doc. 67-9915; Filed, Aug. 21, 1967; 9:52 a.m.]

Executive Order 11367

PLACING AN ADDITIONAL POSITION IN LEVEL IV OF THE FEDERAL EXECUTIVE SALARY SCHEDULE

By virtue of the authority vested in me by section 5317 of title 5 of the United States Code, as amended, and as President of the United States, section 1 of Executive Order No. 11248 of October 10, 1965, as amended, is further amended by adding thereto the following:

(5) Assistant Director for Executive Management, Bureau of the Budget, Executive Office of the President.

THE WHITE HOUSE,
August 18, 1967.

[F.R. Doc. 67-9916; Filed, Aug. 21, 1967; 9:52 a.m.]

Rules and Regulations

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

SUBCHAPTER B—HUNTING AND POSSESSION OF WILDLIFE

PART 10—MIGRATORY BIRDS

Open Seasons, Bag Limits, and Possession of Certain Migratory Game Birds

Section 10.53(b) of Title 50 CFR is revised to read as follows:

§ 10.53 Seasons and limits on waterfowl, coots, and Wilson's snipe.

• • • • •

(b) (1) A special open season for taking scoter, eider, and old-squaw ducks is prescribed during the period between September 25 and January 10 in all coastal waters and all waters of rivers and streams lying seaward from the first upstream bridge in the States of Maine, Massachusetts, New Hampshire, Rhode Island, and Connecticut; and in those coastal waters of New York State lying in Long Island and Block Island Sounds and the waters of Gardiner's Bay lying east of a line from the Long Beach Bay lighthouse to the most easterly point of Ram Head on Shelter Island to the Cedar Point light; including any coastal waters of New York lying south of Long Island; and the States of New Jersey, Maryland, and North Carolina in any waters of the Atlantic Ocean and/or in any tidal waters of any bay which are separated by at least 1 mile of open water from any shore, island and emergent vegetation: *Provided*, That any such areas have been described, delineated, and designated as special sea duck hunting areas under the hunting regulations adopted by the respective States. The daily shooting hours are from one-half hour before sunrise until sunset, and the daily bag limit is seven and the possession limit is 14, singly or in the aggregate of these species. In all other areas of these States and in all other States in the Atlantic Flyway, scoter, eider, and old-squaw ducks may be taken only during the open season for taking other ducks. During the open season on other ducks in all States in the Atlantic Flyway, a daily bag limit of seven and a possession limit of 14 scoter, eider, and old-squaw ducks, singly or in the aggregate of these species, are permitted in addition to the basic daily bag and possession limits prescribed for other ducks.

(2) Notwithstanding the provisions of § 10.3(b)(4), the shooting of crippled waterfowl from a motorboat under power will be permitted on those coastal water areas open to sea duck hunting during the special open season and all waters of rivers and streams lying seaward from the first upstream bridge in the States of Maine, Massachusetts, New Hampshire, Rhode Island, and Connecticut; and in those coastal waters of New York State lying in Long Island and Block Island Sounds and the waters of Gardiner's Bay lying east of a line from the Long Beach Bay lighthouse to the most easterly point of Ram Head on Shelter Island to the Cedar Point light, including any coastal waters of New York State lying south of Long Island; and the States of New Jersey, Maryland, and North Carolina, under the following conditions: Any person who cripples any migratory waterfowl while shooting from a fixed position may, within a 200-yard radius of such fixed position, pursue, shoot, and retrieve such crippled waterfowl from a motorboat under power.

• • • • •

This revision relieves an existing restriction and shall become effective on date of publication in the FEDERAL REGISTER.

JOHN S. GOTTSCHALK,
Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 17, 1967.

[F.R. Doc. 67-9844; Filed, Aug. 21, 1967; 8:48 a.m.]

SUBCHAPTER C—THE NATIONAL WILDLIFE REFUGE SYSTEM

PART 32—HUNTING

Wapanocca National Wildlife Refuge, Ark.

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the Migratory Bird Conservation Act of February 18, 1929, as amended (45 Stat. 1222, 16 U.S.C. 715), and the Endangered Species Preservation Act of October 15, 1966 (80 Stat. 926, 16 U.S.C. 668aa), it is proposed to amend 50 CFR 32.11 by the addition of Wapanocca National Wildlife Refuge, Ark., to the list of areas open to the hunting of migratory game birds, as legislatively permitted.

It has been determined that the regulated hunting of migratory game birds may be permitted as designated on Wapanocca National Wildlife Refuge without detriment to the objectives for which the area was established.

Notice and public procedure on this amendment are deemed contrary to the public interest because of the proximity of the migratory game bird season in the State of Arkansas. Since the amendment benefits the public by allowing migratory game bird hunting on Wapanocca National Wildlife Refuge, it shall become effective upon publication in the FEDERAL REGISTER.

Section 32.11 is amended by the addition of the following area as one where hunting of migratory game birds is authorized:

§ 32.11 List of open areas; migratory game birds.

• • • • •

ARKANSAS

WAPANOCCA NATIONAL WILDLIFE REFUGE

• • • • •

JOHN S. GOTTSCHALK,
Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 17, 1967.

[F.R. Doc. 67-9812; Filed, Aug. 21, 1967; 8:45 a.m.]

PART 32—HUNTING

Washita National Wildlife Refuge, Okla.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

OKLAHOMA

WASHITA NATIONAL WILDLIFE REFUGE

The public hunting of quail and rabbits on the Washita National Wildlife Refuge, Okla., is permitted only on the areas designated by signs as open to hunting. This open area, comprising 1,560 acres, is delineated on maps available at refuge headquarters, Butler, Okla., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, N. Mex. 87103.

Upland game hunting shall be in accordance with all applicable State regulations governing the hunting of quail and rabbits subject to the following special conditions:

(1) The open season for quail hunting on the refuge extends from November 20, 1967, through January 15, 1968, inclusive.

(2) The open season for rabbit hunting on the refuge extends from November 20, 1967, through January 15, 1968, inclusive. Hunting will be permitted only on Tuesdays, Thursdays, Saturdays, and national holidays.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 15, 1968.

LESLIE F. BEATY,
Refuge Manager, Washita National Wildlife Refuge, Butler, Okla.

AUGUST 4, 1967.

[F.R. Doc. 67-9013; Filed, Aug. 21, 1967; 8:45 a.m.]

PART 32—HUNTING

Necedah National Wildlife Refuge, Wis.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

WISCONSIN

NECEDAH NATIONAL WILDLIFE REFUGE

Public hunting of deer, coyote, fox, skunk, and raccoon on the Necedah National Wildlife Refuge, Wis., is permitted with bow and arrow from September 23 through November 12, 1967, and December 2 through December 31, 1967, and with firearms from November 18 through November 26, 1967, but only on those areas designated by signs as open to hunting. These open areas, comprising approximately 39,500 acres are delineated on a map available at the refuge headquarters, Necedah, Wis., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn. 55408. Hunting shall be in accordance with all applicable State and Federal regulations subject to the following special condition:

(1) The carrying of firearms by bow hunters is prohibited.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1967.

EDWARD J. COLLINS,
Refuge Manager, Necedah National Wildlife Refuge, Necedah, Wis.

AUGUST 15, 1967.

[F.R. Doc. 67-9014; Filed, Aug. 21, 1967; 8:45 a.m.]

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 15894; FCC 67-950]

PART 21—DOMESTIC PUBLIC RADIO SERVICES (OTHER THAN MARITIME MOBILE)

Authorization of Facilities; Memorandum Opinion and Order

In the matter of amendment of §§ 21.503 and 21.504(a) of the Commission's rules concerning the authorization of facilities in the 35–44 Mc/s, 152–162 Mc/s and 450–460 Mc/s bands allocated to the Domestic Public Land Mobile Radio Service.

1. On November 16, 1964, the Commission issued a notice of proposed rule making in the above-entitled matter which was duly published in the FEDERAL REGISTER (29 F.R. 15584, Nov. 20, 1964). It was proposed therein to amend certain sections of Part 21 of the Commission's rules and regulations to readjust the location of radio signal field strength contours within which base stations in various frequency bands in the Domestic Public Land Mobile Radio Service will be afforded protection from harmful cochannel electrical interference and within which consideration will be accorded claims of competitive economic injury. Comments were invited regarding these proposals on or before December 23, 1964, and January 22, 1965, was fixed as the date by which comments or briefs in reply should be submitted. Upon good cause shown in National Mobile Radio System's "Petition for Extension of Time" (filed Dec. 22, 1964), these filing dates were respectively extended to February 24, 1965 and March 22, 1965, by Commission order issued January 4, 1965, and published in the FEDERAL REGISTER (30 F.R. 155, Jan. 7, 1965). Written comments, which are hereinafter considered, were filed by American Telephone and Telegraph Co. (AT&T) and National Mobile Radio System (NMRS).

2. Both AT&T and NMRS comments strongly supported the Commission's rule making proposal. Generally, both desire assurance that proposed rules will be administered judiciously and that departures from these rules may be allowed for good cause in any specific case if the public interest, convenience and necessity would be served thereby.

3. Inasmuch as the proposed rule changes (§§ 21.503 and 21.504(a)) are intended to apply equally to miscellaneous common carriers and to wireline telephone companies, AT&T pointed out the propriety of also amending related § 21.502 to make it applicable to all common carriers in the Domestic Public Land Mobile Radio Service in lieu of its present limited applicability to miscellaneous common carriers only. The AT&T recommendation is accepted and § 21.502 is accordingly amended herein. In its comments directed at proposed § 21.503, AT&T indicated a need to amend the proposed rules to enable cochannel stations to be authorized at mileage separations less than those tabulated in § 21.503 in cases where transmitting antennas are employed, which do not have uniform radiation characteristics in all directions in the horizontal plane. We agree in principle and therefore § 21.502 is also amended to show that the classification of a base station in any specific direction is dependent upon the combination of effective radiated power and the transmitting antenna height above average terrain in that direction. Thus, a base station using an antenna with a directional radiation pattern is a station of changing classification, the class changing with changes in the azimuth of the radiated signal. Since the rule modifications herein being made in § 21.502 are directly related to the matter under consideration in this proceeding and are editorial in nature, public rule making procedure is not required with regard to § 21.502 prior to adoption of the changes indicated.

4. In commenting on proposed § 21.503, AT&T expressed concern that no deviation from the tabulated minimum mileage separations specified therein could be permitted except in situations where unusual propagation conditions are involved. We do not agree. Consideration will be given to requests for short-spacing between cochannel base stations where the applicant can conclusively show that service required to be rendered cannot be provided in conformity with engineering criteria specified by the rules and that the authorization of the short-spaced station will be in the public interest, convenience and necessity. Because the factors in support of any requests for short-spaced station authorizations vary considerably from case to case, it is not practicable to set forth in a rule the situations where short-spacing will be permitted. Each case must be judged upon its own merit and will be considered only in instances where an appropriate request for rule waiver is submitted in compliance with § 21.20(b).

5. NMRS in its request urges that the Commission set forth a declaration of policy in specific language in the proposed rule amendments to indicate "its willingness to consider other engineering criteria in individual cases, which clearly justify determinations at variance from the criteria of the Carey Report". Further, with respect to the proposed § 21.504, NMRS suggests that where a more reliable technical standard (for defining the service areas of a base station for purposes of affording protection against harmful cochannel electrical interference and for defining the area within which consideration will be accorded claims of competitive economic injury) can be demonstrated, the Commission should be receptive to such a showing, provided it does not depend solely upon the preference or unexplained conclusions of the carrier. The NMRS proposal for a Commission declaration of policy with respect to these matters is rejected in light of the provisions of § 21.20(b) which assures that consideration will be given to all requests for rule waivers which are properly made. However, to be meaningful, we expect such requests to be supported by extensive quantitative engineering field strength measurement data gathered over a significant geographic area and covering a substantial time period within each of the four seasons of the year. We wish to stress that requests for waivers of our rules should be submitted only in the most exceptional circumstances.

6. AT&T pointed out the desirability of incorporating into § 21.504 the radio wave propagation curves upon which the instant rule making is predicated. We concur, and § 21.504(b) is herein amended accordingly.

7. The instant rule making did not propose to amend § 21.506 to effect a change in the maximum permissible effective radiated power of base stations. Therefore, AT&T's request in the proceeding that the maximum permissible effective radiated power for base stations in the 450–460 Mc/s band be raised to provide communication range equivalent to that obtainable from a base station operating with 500 watts effective radiated power in the 152–162 Mc/s band is beyond the scope of this proceeding. Similarly, AT&T's recommendation that the 43 decibels above one microvolt per meter service contour for base stations providing one-way signaling service be made applicable to the 35–44 Mc/s band only is also outside the scope of the instant proceeding. Accordingly, such request and recommendation are not considered herein. We do not mean to suggest that we would not give favorable consideration to constructive proposals submitted in an appropriate rule making petition proposing higher power and other field strengths for certain bands of frequencies provided that sufficient engineering data is supplied to support such a proposal.

8. In connection with the adoption of the attached Memorandum Opinion and Order, the Commission notes that Working Group No. 5 of the Advisory Committee for Land Mobile Radio Services has compiled a report which contains, among other things, radio wave propagation charts that are not in exact agreement with the charts which we are now adopting for Part 21 of our rules. When that report is filed with the Commission, it will be given due consideration in determining whether further amendment of Part 21 is necessary. However, we believe that the adoption of the Part 21 rule changes proposed at this time will not be an obstacle in further rule changes should this appear desirable.

9. Authority for the amendments adopted herein is contained in sections 4(i), 4(j), 303(r), and 409(c) of the Communications Act of 1934, as amended. *Accordingly, it is ordered*, Effective September 22, 1967, that §§ 21.502, 21.503, 21.504(a) and 21.504(b) of the rules and regulations are amended as set forth below, and that this proceeding is terminated.

(Secs. 4, 303, 409, 48 Stat. as amended, 1066, 1082, 1096; 47 U.S.C. 154, 303, 309)

Adopted: August 9, 1967.

Released: August 15, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] BEN F. WAPLE,
Secretary.

1. Section 21.502 is amended to read as follows:

§ 21.502 Classification of base stations.

Base stations in the Domestic Public Land Mobile Radio Service shall be classified, as set forth below, according to their transmitting antenna height above average terrain in any particular direction and according to their effective radiated power in the horizontal plane of the antennas in that direction.

Antenna height above average terrain (feet)	Class of station				
400 to 500	C	B	B	A	A
300 to 400	C	C	B	B	A
200 to 300	D	C	C	B	B
100 to 200	D	D	C	C	B
0 to 100	E	D	D	C	C
	30	60	120	250	500
	Effective radiated power (watts).				

2. Section 21.503 is amended to read as follows:

§ 21.503 Geographical separation of co-channel stations.

(a) Base stations engaged in two-way communications, employing frequency modulation or phase modulation and operating cochannel in this service, shall normally be separated by not less than the distances shown below:

Class of station in the band 35–44 Mc/s	Minimum mileage separation between co-channel stations				
A	105				
B	99	92			
C	93	87	76		
D	88	81	70	68	
E	82	75	65	52	40
	A	B	C	D	E
	Class of station				

Class of station in the band 152–162 Mc/s	Minimum mileage separation between co-channel stations				
A	83				
B	78	72			
C	73	67	55		
D	69	62	54	43	
E	65	59	50	39	29
	A	B	C	D	E
	Class of station				

Class of station in the band 450–460 Mc/s	Minimum mileage separation between co-channel stations				
A	73				
B	68	59			
C	66	56	43		
D	63	53	41	38	
E	60	51	38	35	27
	A	B	C	D	E
	Class of station				

(b) In any particular case, where it appears that unusual radio wave propagation conditions are involved, the Commission may require greater separation than indicated in the tables in paragraph (a) of this section, or make assignments at lesser station spacing. Reference may be made to § 73.611(d) of this chapter for methods of computing mileage separation between station locations.

3. Section 21.504 is amended to read as follows:

§ 21.504 Service area of base station.

(a) The limits of reliable service area of a base station engaged in two-way communication service with mobile stations are considered to be described by a field strength contour of 31 decibels above one microvolt per meter for stations operating on frequencies in the 35–44 Mc/s band, 37 decibels above one microvolt per meter for stations operating on frequencies in the 152–162 Mc/s band, and 39 decibels above one microvolt per meter for stations operating on frequencies in the 450–460 Mc/s band. The limits of reliable service area of a base station engaged in one-way signaling service is considered to be 43 decibels above one microvolt per meter. Service within such areas is generally expected to have an average reliability of not less than 90 percent.

(b) The field strength contours described in paragraph (a) of this section shall be regarded as determining the limits of the reliable service area of the related base stations for the purpose of providing protection to such stations from co-channel electrical harmful interference and defining the area within which consideration will be accorded claims of economic competitive injury. The following F(50,50) radio wave propagation charts shall be used in connection with making such determinations, and shall be used in combination with the following F(50,10) radio wave propagation charts in the determination of areas of harmful interference between co-channel stations:

Title 7—AGRICULTURE

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Lemon Reg. 280, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553 (1966)) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

Order, as amended. The provisions in paragraph (b)(1)(ii) of § 910.580 (Lemon Regulation 280, 32 F.R. 11697) are hereby amended to read as follows:

§ 910.580 Lemon Regulation 280.

Chapter XIV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Price Support Regs., 1967-Crop Soybean Supp.]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1967-Crop Soybean Loan and Purchase Program

This annual crop year supplement, together with the General Regulations Governing Price Support for the 1964 and Subsequent Crops (Revision 1) (31 F.R. 5941), and any amendments thereto, and the 1966 and Subsequent Crops Soybean Supplement (31 F.R. 6013), and any amendments thereto, contain the provisions for price support loans and purchases for the 1967-crop of soybeans.

Sec.
1421.2971 Availability.
1421.2972 Warehouse charges.
1421.2973 Maturity of loans.
1421.2974 Support rates, premiums, and discounts.

AUTHORITY: The provisions of this subpart issued under sec. 4, 62 Stat. 1070 as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 203, 301, 401, 63 Stat. 1054; 7 U.S.C. 1446(d), 1447,1421.

§ 1421.2971 Availability.

A producer desiring a price support loan must request a loan on his eligible soybeans on or before June 30, 1968. To obtain price support through a sale to CCC, a producer must give the appropriate ASCS county office notice of his intent to sell his eligible soybeans to CCC on or before July 31, 1968.

§ 1421.2972 Warehouse charges.

Subject to the provisions of § 1421.2958, the schedules of deductions set forth in this section shall apply to soybeans stored in an approved warehouse (i) operating under the Uniform Grain Storage Agreement, or (ii) operated by an Eastern common carrier.

(a) *Warehouses approved under the Uniform Grain Storage Agreement.*

SCHEDULE OF DEDUCTIONS FOR STORAGE CHARGES FOR MATURITY DATE OF JULY 31, 1968

Storage start date: [1]	Deduction (cents per bushel)
Prior to Aug. 17, 1967	13
Aug. 17–Sept. 13, 1967	12
Sept. 14–Oct. 11, 1967	11
Oct. 12–Nov. 8, 1967	10
Nov. 9–Dec. 6, 1967	9
Dec. 7, 1967–Jan. 3, 1968	8
Jan. 4–Jan. 31, 1968	7
Feb. 1–Feb. 28, 1968	6
Feb. 29–Mar. 27, 1968	5
Mar. 28–April 24, 1968	4
April 25–May 22, 1968	3
May 23–June 19, 1968	2
June 20–July 31, 1968	1

[1] All dates inclusive.

(b) *Warehouses operated by Eastern common carriers.* (1) Eligible soybeans stored in the following approved Eastern common carrier warehouses may be placed under loan or offered for sale to CCC:

(i) Canadian National Railway Co., Portland Elevator, Warehouse Code 9–2101, Portland, Maine.

(ii) Pennsylvania Railroad Co., Canton Elevator, Warehouse Code 9–2151, Baltimore, Md.

(2) Schedule of deductions for storage charges:

Maturity date of July 31, 1968 [1]

	Deduction (cents per bushel) [2]
Prior to Aug. 17, 1967	18
Aug. 17–Sept. 5, 1967	17
Sept. 6–Sept. 25, 1967	16
Sept. 26–Oct. 15, 1967	15
Oct. 16–Nov. 4, 1967	14
Nov. 5–Nov. 24, 1967	13
Nov. 25–Dec. 14, 1967	12
Dec. 15, 1967–Jan. 3, 1968	11
Jan. 4–Jan. 23, 1968	10
Jan. 24–Feb. 12, 1968	9
Feb. 13–Mar. 3, 1968	8
Mar. 4–Mar. 23, 1968	7
Mar. 24–Apr. 12, 1968	6
Apr. 13–May 2, 1968	5
May 3–May 22, 1968	4
May 23–June 11, 1968	3
June 12–July 1, 1968	2
July 2–July 31, 1968	1

[1] Storage commence date, all dates inclusive.

[2] Deduction shall be reduced by 2 cents per bushel if producer presents evidence that elevation charges were prepaid.

§ 1421.2973 Maturity of loans.

Loans mature on demand but not later than July 31, 1968.

§ 1421.2974 Support rates, premiums and discounts.

Farm-stored soybean loans shall be made at the basic county support rate for the county in which the soybeans were produced, adjusted only for the Weed Control discount where applicable. The support rate for warehouse-storage loans and for soybeans acquired under a loan or by purchase shall be the basic support rate for the county in which the soybeans were produced adjusted by the applicable premiums and discounts prescribed in paragraphs (b) and (c) of this section. Settlement of loans and purchases shall be made as provided in § 1421.72 of the General Regulations.

(a) *Basic county support rates.* Basic county support rates for the classes Green Soybeans and Yellow Soybeans grading No. 2 and containing from 13.8 to 14.0 percent moisture are as follows:

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 8212; Amdt. 39-467]

PART 39—AIRWORTHINESS DIRECTIVES

Ratier-Figeac Model FH 76-1-07 Propellers

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring the replacement of the bronze actuator socket with a steel actuator socket on Ratier-Figeac Model FH 76-1-07 propellers was published in 32 F.R. 8681.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

RATIER-FIGEAC. Applies to Model FH 76-1-07 propellers installed on Pilatus PC-6A Series aircraft.

Compliance required within the next 200 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent jamming of the pitch change actuator, replace the bronze actuator socket, P/N FH 76-1-120-02, with a steel actuator socket, P/N FH 76-1-120-02, in accordance with Ratier Figeac Service Bulletin 61-45, dated October 1966, or later SGAC-approved issue, or an FAA-approved equivalent.

This amendment becomes effective August 22, 1967.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on August 14, 1967.

EDWARD C. HODSON,
Acting Director,
Flight Standards Service.

[Airspace Docket No. 67-EA-23]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On page 8978 of the FEDERAL REGISTER for June 23, 1967, the Federal Aviation Administration published proposed regulations which would designate a 700-foot floor transition area over Concord Airpark, Painesville, Ohio.

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulations are hereby adopted effective 0001 e.s.t., October 12, 1967.

(Sec. 307(a), Federal Aviation Act of 1958; 72 Stat. 749; 49 U.S.C. 1348)

Issued in Jamaica, N.Y., on August 7, 1967.

WAYNE HENDERSHOT,
Acting Director, Eastern Region.

Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a 700-foot floor transition area for Painesville, Ohio, described as follows:

PAINESVILLE, OHIO

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the center, 41°40'00" N., 81°12'00" W., of Concord Airpark, Painesville, Ohio; within 2 miles each side of the Runway 13 centerline extended from the 5-mile radius area to 6 miles southeast of the end of the runway; within 2 miles each side of the Runway 20 centerline extended from the 5-mile radius area to 7 miles south of the end of the runway and within 2 miles each side of the Chardon VOR 350° radial extending from the 5-mile radius area to the VOR, excluding those portions within the Willoughby, Ohio, and Chagrin Falls, Ohio, transition areas.

[F.R. Doc. 67-9824; Filed, Aug. 21, 1967; 8:46 a.m.]

[Docket No. 8347; Amdts. 185-2, 187-3]

PART 185—TESTIMONY BY EMPLOYEES AND PRODUCTION OF RECORDS IN LEGAL PROCEEDINGS

PART 187—FEES FOR COPYING AND CERTIFYING RECORDS

Public Availability of Information

The purpose of this rule-making action is to effect the changes in the Federal Aviation Regulations made necessary by the taking effect of the "public information act" (5 U.S.C. sec. 552, as revised by P.L. 90-23) on July 4, 1967, and of the Department of Transportation regulation implementing that act, 49 CFR Part 7, entitled Public Availability of Information.

The Department regulation applies to all "operating administrations" of the Department of Transportation, including the Federal Aviation Administration. Subpart H of the Department regulation contains a schedule of fees. Additional rules applicable to FAA only are set forth in Appendix C to 49 CFR Part 7.

The Department regulation does not cover the subject-matter of FAR Part 185, Testimony by FAA Employees and Production of Records in Legal Proceedings. However because of the affinity of this subject-matter to public availability of information, it is necessary to make certain changes in Part 185 to ensure uniformity of policy in the application of Part 185 and the Department regulation. At the same time NAFEC Counsel is being authorized to perform legal functions under Part 185.

Part 187 is amended to limit its applicability to services for which fees are not prescribed in other parts of this chapter or in the Department regulation, 49 CFR Part 7. The Department regulation only covers fees for services incidental to making information available to the public. Thus it does not prescribe fees for licenses or services incidental to licensing or other FAA programs. The $2 fee now prescribed in § 187.3(b) for certain duplicate originals of certificates is also prescribed in other provisions of this chapter (see, e.g., §§ 47.17, 61.13, 63.16, 65.16, and 143.8).

It follows that Part 187 may now be limited to prescribing residuary fees for replacements, duplicates, or facsimiles of licenses for which fees are not otherwise specifically prescribed, and fees for copies of documents requested for purposes other than those dealt with in 49 CFR Part 7. The fees for copies of licenses are at the same level as at present, and the amounts of the other fees are the same as those in 49 CFR Part 7.

[1] Use column which yields the higher applicable discount.

This rule-making action is taken under the authority of Title V of the Independent Offices Appropriations Act of 1952 (65 Stat. 290) and secs. 301(c), 302(f), 303 (d), 305, 307(b), 313(a), and 314 of the Federal Aviation Act of 1958 (49 U.S.C. 1341(c), 1343(d), 1344, 1346, 1348(b), 1354(a), and 1355). Since this action relates to agency organization, management, and personnel, and to public property, notice of rule making and public procedure thereon are not required and the action may be made effective less than 30 days after its publication.

In consideration of the foregoing, effective August 22, 1967.

1. Part 185 of the Federal Aviation Regulations (14 CFR Part 185) is amended—

a. By amending § 185.1 to read as follows:

§ 185.1 Scope.

This part prescribes the rules of the Federal Aviation Administration with respect to testimony of its employees and the release or disclosure of FAA materials and records, in legal proceedings, and the serving of legal process and pleadings.

b. By amending the first sentence of the introductory text of § 185.3 to read as follows:

§ 185.3 Deviation from policy.

Only the General Counsel, the appropriate Regional Counsel, the Aeronautical Center Counsel, or NAFEC Counsel, may grant permission to deviate from a policy prescribed in this part. * * *

* * * * *

§ 185.9 [Amended]

c. By amending § 185.9 by deleting the words "or the Chief Counsel of the Aeronautical Center" wherever they occur, and inserting in place thereof the words "the Aeronautical Center Counsel, or NAFEC Counsel".

d. By amending § 185.9(b) by deleting the words "the release of which is prohibited by standard Agency practices" and inserting in place thereof the words "which are not available for public disclosure".

e. By amending the last sentence of § 185.11(a) to read as follows:

§ 185.11 Legal proceedings between private litigants: factual testimony.

(a) * * * However, he must obtain the permission of the General Counsel, the appropriate Regional Counsel, the Aeronautical Center Counsel, or NAFEC Counsel, before disclosing any information that is made unavailable by law or under Part 7 of the Regulations of the Secretary of Transportation entitled "Public Availability of Information" (49 CFR Part 7).

* * * * *

f. By amending § 185.15 to read as follows:

§ 185.15 Legal proceedings between private litigants: disclosure of FAA materials and records.

(a) Copies of any FAA materials or records available for public inspection under Part 7 of the Regulations of the Secretary of Transportation (49 CFR Part 7) are made available to litigants upon request under that part. It is not necessary to subpoena them.

(b) If an employee receives a subpoena or request to produce FAA materials or records in court he shall refer it to the General Counsel, the appropriate Regional Counsel, the Aeronautical Center Counsel, or NAFEC Counsel. If the request or subpoena calls for producing documents the release of which is authorized, counsel shall advise that the request or subpoena be honored.

(c) An FAA employee may not produce an FAA document or record in court except upon a clearance from the General Counsel, the appropriate Regional Counsel, the Aeronautical Center Counsel, or NAFEC Counsel. If an FAA employee is served with a subpoena calling for producing FAA records under his actual control but that are not made available for disclosure under 5 U.S.C. section 552 or other law and Subpart F of 49 CFR Part 7, the General Counsel, Regional Counsel, the Aeronautical Center Counsel, or NAFEC Counsel, as appropriate, shall request the cooperation of the local U.S. attorney and shall attempt to have the subpoena withdrawn or vacated. If this cannot be done, the employee shall appear at the time and place specified in the subpoena, accompanied by an FAA or Department of Transportation or Department of Justice attorney, as appropriate, and explain to the court that a provision of law or a regulation prohibits him from producing the documents or records, whether in answer to a subpoena or otherwise.

(d) If an FAA employee who follows the procedure set forth in paragraph (c) of this section is ordered to show cause why he should not be cited for contempt of court, the FAA or Department of Transportation requests the Department of Justice to represent the employee.

g. By conforming the references to §§ 185.1 and 185.15 in the Table of Contents to their headings as amended herein.

2. Part 187 of the Federal Aviation Regulations (14 CFR Part 187) is amended to read as follows:

Sec.
187.1 Scope.
187.3 Duplicates of licenses.
187.7 Copies; seal.
187.15 Payment of fees.

AUTHORITY: The provisions of this Part 187 issued under Title V, Independent Offices Appropriations Act of 1952 (65 Stat. 290); secs. 301(c), 302(f), 303(d), 305, 307(b), 313(a), 314, Federal Aviation Act of 1958; 49 U.S.C. 1341(c), 1343(d), 1344, 1346, 1348(b), 1354(a), 1355.

§ 187.1 Scope.

This part prescribes fees only for FAA services for which fees are not prescribed in other parts of this chapter or in 49 CFR Part 7. The fees for services furnished in connection with making information available to the public are prescribed exclusively in 49 CFR Part 7.

§ 187.5 Duplicates of licenses.

The fee for furnishing to a person entitled thereto a replacement, duplicate, or facsimile of a certificate or other document evidencing a license, for which a fee is not specifically provided elsewhere in this chapter, is $2.

§ 187.7 Copies; seal.

The fees for furnishing photostatic or similar copies of documents and for affixation of the seal for a certification or validation are the same as those provided in Subpart H of 49 CFR Part 7.

§ 187.15 Payment of fees.

The fees prescribed in this part may be paid by check, draft, or money order payable to the Federal Aviation Administration.

Issued in Washington, D.C., on August 15, 1967.

WILLIAM F. MCKEE,
Administrator.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 51]

FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS

Inspection, Certification, and Standards; Notice of Proposed Rule Making

Notice is hereby given that the U.S. Department of Agriculture is considering the revision of Regulations (Inspection, Certification, and Standards) Fresh Fruits, Vegetables and other products[1] (7 CFR 51.1–51.61).

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposal should file the same in duplicate, not later than September 15, 1967, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, where they will be available for public inspection during official hours of business (par. (b) of § 1.27, as amended at 29 F.R. 7311).

Statement of considerations leading to the proposed revision of the regulations. These regulations were last revised January 4, 1967, but there have been five amendments since that date, the most recent in 1962. The proposed revision would bring the regulations in line with current practices and would incorporate the several amendments.

Most of the changes proposed are in the interest of clarity and would not affect present policies and procedures of the Department. Proposed additions to the regulations would include:

(1) Expansion of § 51.50 *Operations and operating procedure*, which is a part of the requirements for plants operating under continuous inspection on a contract basis. Provisions which are normally part of the contract would be included in this section for ready reference by those who are interested in continuous inspection.

(2) A small package fee rate for Inspection Service has been used for many years, primarily for small lots moving to Canada and for other small lots where no detailed inspection reports are required. These fees would be added to paragraph (d) of § 51.38.

(3) Section 51.52 would authorize the Administrator to issue licenses permitting the manufacture, identification, distribution, and sale of any official device designated as a USDA color standard, defect guide or other similar aid.

The proposed regulations, as revised, are as follows:

ADMINISTRATIVE

Sec.
51.1 Administration of Regulations.

DEFINITIONS

51.2 Terms defined.
51.3 Designation of official certificates, memoranda, marks other identifications and devices for purposes of the Agricultural Marketing Act.

INSPECTION SERVICE

51.4 Where inspection service is offered.
51.5 Who may obtain inspection service.
51.6 How to make applications.
51.7 Form of application.
51.8 Filing of application.
51.9 When application may be rejected.
51.10 When application may be withdrawn.
51.11 Authority to request inspection.
51.12 Accessibility of products.
51.13 Basis of service.
51.14 Order of inspection service.
51.15 Financial interest of inspector.
51.16 Postponing inspection service.
51.17 Official sampling.
51.18 Certificate forms.
51.19 Issuance of certificates.
51.20 Issuance of corrected certificates.
51.21 Disposition of inspection certificates.
51.22 Disposition of samples.
51.23 Report of inspection results prior to issuance of formal report.

APPEAL INSPECTION

51.24 When appeal inspection may be requested.
51.25 Where to file for an appeal inspection and information required.
51.26 Record of filing time.
51.27 When appeal inspection may be refused.
51.28 When an application for an appeal inspection may be withdrawn.
51.29 Order in which made.
51.30 Who shall perform appeal inspections.
51.31 Appeal inspection certificate.

LICENSING OF INSPECTORS

51.32 Who may be licensed.
51.33 Application to become a licensed inspector.
51.34 Suspension or revocation of license of licensed inspector.
51.35 Surrender of license.
51.36 Renewal of license.

SCHEDULE OF FEES AND CHARGES AT DESTINATION MARKETS

51.37 Amount of fees, rates and charges.
51.38 Basis for charges.
51.39 Fees for appeal inspections.
51.40 Traveling, and other expenses.
51.41 Fees for additional copies of inspection certificates.
51.42 Charges for inspection services on a contract basis.
51.43 How fees shall be paid.
51.44 Disposition of fees.

SCHEDULE OF FEES AND CHARGES AT SHIPPING POINT

51.45 Fees and charges at shipping point.

MISCELLANEOUS

Sec.
51.46 Denial of inspection service.
51.47 Political activity.
51.48 Inspector's identification.
51.49 Approved identifications.
51.50 Custody of official inspection marking devices.
51.51 Prohibited uses of approved identification.
51.52 Licensing and identification of certain official devices.

REQUIREMENTS FOR PLANTS OPERATING UNDER CONTINUOUS INSPECTION ON A CONTRACT BASIS

51.53 Continuous inspection.
51.54 Plant survey.
51.55 Premises.
51.56 Buildings and structures.
51.57 Facilities.
51.58 Equipment.
51.59 Operations and operating procedures.
51.60 Termination of contracts.
51.61 Congressional interest in contracts.

AUTHORITY: The provisions of this subpart issued under secs. 203, 205, 60 Stat. 1087, as amended, 1090 as amended; 7 U.S.C. 1622, 1624.

§ 51.1 Administration of regulations.

The Administrator, Consumer and Marketing Service, U.S. Department of Agriculture, is charged with the administration of the regulations in this part, except at his discretion, he may delegate any or all such functions to any other officer or employee of the Consumer and Marketing Service of the Department.

DEFINITIONS

§ 51.2 Terms defined.

Words in the regulations in this part in the singular form shall be deemed to import the plural, and vice versa, as the case may demand. For the purposes of the regulations in this part, unless the context otherwise requires, the following terms shall have the following meanings:

(a) *Act.* "Act" means the applicable provisions of the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq.) as amended (7 U.S.C. 1621 et seq.), or any other act of Congress conferring like authority.

(b) *Administrator.* "Administrator" means the Administrator of Consumer and Marketing Service.

(c) *Applicant.* "Applicant" means any interested party who has applied for inspection service under the regulations in this part.

(d) *Condition.* "Condition" means the relative degree of soundness of a product which may affect its merchantability and includes those factors which are subject to change and may result from, but not necessarily limited to, age, improper handling, storage or lack of refrigeration. Examples of condition factors include maturity or stage of ripeness; state of freshness, such as crispness, tenderness, or toughness; wilting; shriveling or flabbiness; mechanical injuries resulting from improper handling after packing; progressive pathological, physiological, and virus diseases, including fungal and bacterial rots; and freezing damage which may occur in transit or storage; or any other factor which may occur, develop, or progress in the marketing channels.

(e) *Consumer and Marketing Service.* "Consumer and Marketing Service" means the Consumer and Marketing Service of the Department.

(f) *Department.* "Department" means the U.S. Department of Agriculture.

(g) *Grade.* "Grade" means a class or rank of quality.

(h) *Inspector.* "Inspector" means any employee of the Department authorized by the Secretary or any other person licensed by the Secretary, to investigate, sample, inspect, and certify, in accordance with the regulations in this part, to any interested party the quality, quantity and/or condition of any fresh product covered in this part, and to perform related duties in connection with the inspection service.

(i) *Inspection Service.* "Inspection Service" means:

(1) The Service established and conducted under the regulations in this part for the determination and certification or other identification as to the grade, the quality and/or condition of fresh fruits or vegetables and related products including the condition of container.

(2) Performance by an inspector of any related services such as reporting the temperatures of loads or lots of fresh products.

(3) To observe conditions under which a product is being packed, to observe plant sanitation as a prerequisite to inspection of the packed product either on a continuous or periodic basis, or checkload the inspected product in connection with the marketing of the product.

(4) The issuance of inspection certificates or reports relating to subparagraphs (1), (2), and (3) of this paragraph.

(j) *Interested party.* "Interested party" means any person who has a financial interest in the product for which inspection is requested.

(k) *Lot.* "Lot" means any number of containers which contain a product of the same kind located in the same conveyance, warehouse, packing house or on the same dock or platform and which are available for inspection at the same time: *Provided*, That:

(1) Products which are different from each other as to grade, variety, size, condition, identification marks, or other factors may be deemed to be separate lots;

(2) If the applicant requests more than one inspection certificate covering different portions of the same lot, the quantity of the lot covered by each certificate shall be deemed to be a separate lot; and,

(3) If said product is packed in more than one size or type of container, each such size or type may be deemed to be a separate lot.

(l) *Person.* "Person" means any individual, partnership, association, business trust, corporation, any organized group of persons (whether incorporated or not), the United States (including, but not limited to, any corporate agencies thereof), and any State, county, or municipal government, any common carrier, and any authorized agent of any of the foregoing.

(m) *Packing plant.* "Packing plant" means the premises, buildings, structures, and equipment including but not limited to, machines, utensils, fixtures, employed or used with respect to preparation and packing the product.

(n) *Quality.* "Quality" means the combination of the inherent properties or attributes of a product which determines its relative degree of excellence.

(o) *Regulations.* "Regulations" means the regulations in this subpart.

(p) *Sample.* "Sample" means any number of sample units to be used for inspection.

(q) *Sample Unit.* "Sample Unit" means a container and/or its entire contents, a portion of the contents of a container or other unit of a commodity, or a composite mixture of a commodity to be used for inspection.

(r) *Sampling.* "Sampling" means the act of slecting samples of a commodity for the purpose of inspection under the regulations in this part.

(s) *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the Consumer and Marketing Service to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 51.3 Designation of official certificates, memoranda, marks, other identifications and devices for purposes of the Agricultural Marketing Act.

Subsection 203(h) of the Agricultural Marketing Act of 1946, as amended by Public Law 272, 84th Congress, provides criminal penalties for various specified offenses relating to official certificates, memoranda, marks or other identifications, and devices for making such marks or identifications, issued or authorized under section 203 of said act, and certain misrepresentations concerning the inspection or grading of agricultural products under said section. For the purpose of said subsection and the provisions in this part, the terms listed below shall have the respective meanings specified:

(a) *Inspection certificate.* "Inspection certificate" means any form of certification, either written or printed, used under this part to certify with respect to the inspection, identification, class, grade, quality, size, quantity, or condition of products (including the compliance of products with applicable specifications).

(b) *Official memorandum.* "Official memorandum" means any initial record of findings made by an authorized person in the process of grading, inspecting, or sampling pursuant to this part, any processing or plant-operation report made by an authorized person in connection with grading, inspection, or sampling under this part, and any report made by an authorized person of services performed pursuant to this part.

(c) *Official mark.* "Official mark" means the grade mark, inspection mark, combined form of inspection and grade mark, and any other mark, or any variations in such marks, including those prescribed in § 51.49, approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product, stating that the product was graded or inspected, or both, or indicating the appropriate U.S. grade or condition of the product, or for the purpose of maintaining the identity of products graded or inspected, or both, under this part.

(d) *Official identification.* "Official identification" means any United States (U.S.) standard designation of class, grade, quality, size, quantity, or condition specified in this Part or any symbol, stamp, label or seal indicating that the product has been graded or inspected and/or indicating the class, grade, quality, size, quantity, or condition of the product approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product.

(e) *Official device.* "Official device" means a stamping appliance, branding device, stencil, printed label, or any other mechanically or manually operated tool that is approved by the Administrator for the purpose of applying any official mark or other identification to any product or the packaging material thereof; or any device approved and designated by the Administrator as a USDA official device for use as a color standard, defect guide, or other similar aid to interpret the United States Department of Agriculture grade standards and to facilitate conduct of the Inspection Service.

INSPECTION SERVICE

§ 51.4 Where inspection service is offered.

Products will be inspected at appropriate points indicated in paragraphs (a), (b), and (c) of this section whenever inspectors are available.

(a) *Shipping points.* Inspection service is available in all areas covered by cooperative agreements with States or other cooperating bodies which provide for this inspection work pursuant to authority contained in any Act of Congress, or may be provided in any other area which is not covered by a cooperative agreement if the Administrator determines that it is practicable to provide inspection service.

(b) *Destination markets.* Inspection is available in all central markets in which an inspection office is located.

(c) *Other destination points.* Inspection may be made at any point which may be conveniently reached from any terminal market in which an inspection office is located to the extent inspection personnel is available.

(d) *Addresses of offices.* Any prospective applicant may obtain an up-to-date list of inspection offices by addressing an inquiry to Fresh Products Standardization and Inspection Branch, Fruit and

[1] Among such other products are the following: Raw nuts, Christmas trees and greens; flowers and flower bulbs; and onion sets.

[2] None of the requirements in the regulations of this part shall excuse failure to comply with any Federal, State, county, or municipal laws applicable to products covered in the regulations in this part.

Vegetable Division, Consumer and Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250.

§ 51.5 Who may obtain inspection service.

An application for inspection service may be made by any interested party, including, but not limited to, the United States and any instrumentality or agency thereof, any State, county, municipality, or common carrier, and any authorized agent in behalf of the foregoing.

§ 51.6 How to make application.

An application for inspection service may be filed in an office of inspection at any market referred to in § 51.4 (b), (c), or (d) or with any inspector. It may be made in writing, orally, by telegraph, or by telephone. If made orally or by telephone, the inspector may require that it be confirmed by applicant in writing or by telegraph. An application may be made for one or more lots, or it may be in the nature of a blanket application for inspection of all designated lots of a given commodity within a particular period, or for all designated lots loaded or received at a specified point.

§ 51.7 Form of application.

Each application for inspection service shall state (a) the name and address of the applicant and the name and capacity of the person, if any, making the application in his behalf; (b) the name and address of the shipper; (c) the kind and quantity of the products involved; (d) the interest of the applicant therein; (e) the identification of the products by (1) grade, brand, or other marks, if practicable, (2) car number of carrier or number of truck or name of boat, if practicable, and (3) the name and location of the store, warehouse, or other place where the products are located; (f) the particular quality or condition concerning which inspection is requested, to which may be added the time and place at which it is desired that the inspection be made; (g) when the lot is to be inspected in a receiving market, the name and address of the receiver; (h) the name of the shipping point and of the destination, when known; and (i) such other information as may be necessary for identification of the product, or as may be required by the inspector or the Administrator.

§ 51.8 Filing of application.

An application shall be regarded as filed only when made at the office of inspection nearest the place where the commodity is located. A record showing the date and time of filing shall be made and kept in such office.

§ 51.9 When application may be rejected.

An application may be rejected by the inspector in charge of the appropriate office of inspection if the applicant objects to the inspector cutting an adequate number of specimens to determine the interior quality or condition of the product to be inspected, or for failure of the applicant (a) to observe the regulations of this part, (b) to furnish necessary information or to make the commodity reasonably available or accessible for inspection, (c) to pay for previous inspection services rendered, or (d) when it appears that to perform the inspection and certification service would not be to the best interest of the Government. Such applicant shall be notified promptly of the reason for such rejection.

§ 51.10 When application may be withdrawn.

An application may be withdrawn by the applicant at any time before the inspection is performed: *Provided*, That the applicant shall pay any travel expenses, telephone, telegraph, or other expenses which have been incurred by the Inspection Service in connection with such application.

§ 51.11 Authority to request inspection.

Proof of the interest of an applicant in the product involved, or of the authority of any person applying for inspection in behalf of another may be required, at the discretion of the inspector.

§ 51.12 Accessibility of products.

The applicant shall cause the products for which inspection is requested to be made reasonably accessible for sampling or inspection and to be so placed as to disclose their quality or condition. Samples of the products drawn for examination shall be inspected only under such conditions as, in the opinion of the inspector, will permit a true and correct determination to be made of their quality or condition.

§ 51.13 Basis of service.

Inspection and certification service for quality and/or condition shall be based upon the appropriate standards promulgated by the U.S. Department of Agriculture, applicable standards prescribed by the laws of the State where the particular product was produced, specifications of any governmental agency, written buyer and seller contract specifications, or any written specification by an applicant which is approved by the Administrator: *Provided*, That if such product is regulated pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), or the comparable laws of any State, such inspection and certification shall be on the basis of the standards, if any, prescribed in, or pursuant to, the marketing order and/or agreement effective thereunder.

§ 51.14 Order of inspection service.

Inspection service shall be performed, insofar as practicable, in the order of which applications are received, except that precedence shall be given (a) to the inspection of lots involved in complaints filed pursuant to the Perishable Agricultural Commodities Act, 1930 (U.S.C. 449a et seq.), and (b) to appeal inspections. Precedence may also be given to applications made on behalf of the Federal or State Government.

§ 51.15 Financial interest of inspector.

No inspector shall inspect any product in which he is directly or indirectly financially interested.

§ 51.16 Postponing inspection service.

If the inspector has reason to believe that, because of latent defects due to climatic or other conditions, he is unable to determine the true quality or condition of the product, he shall postpone examination for such period as may, in his judgment, be reasonably necessary to enable him to determine its true quality or condition. Inspection shall also be postponed by the inspector, unless otherwise directed by the applicant, if in his judgment examination of the product when exposed to low temperatures may result in damage to the product.

§ 51.17 Official sampling.

Samples may be officially drawn by any duly authorized inspector and delivered, or shipped, for analysis and certification to the nearest designated market or to such market as shall be directed by the Administrator. The container in which such samples are delivered, or shipped, shall contain a statement, signed by the inspector who drew the samples, showing the time and place of the sampling and the brands or other identifying marks of the containers from which the samples were drawn. The certificate based on such samples shall show the time and place of drawing the samples, and the name of the inspector by whom they were drawn.

§ 51.18 Certificate forms.

Certificates shall be issued on forms approved by the Administrator.

§ 51.19 Issuance of certificates.

The inspector shall sign and issue a separate certificate for each lot inspected by him, except that when an application covers a number of lots a single certificate may be issued to cover all such lots: *Provided*, That (a) another employee of the Inspection Service may sign any such certificate covering any product inspected by an inspector when given power of attorney by such inspector and authorized by the Administrator, to affix the inspector's signature to an inspection certificate which has been prepared in accordance with the facts set forth in the notes, made by the inspector, in connection with the inspection; when (b) inspection is made by any person for the purpose of determining whether food products for use by such applicant comply with contract specifications therefor, a formal certificate need not be issued, but, the fact of such compliance or noncompliance may be indicated by affixing an appropriate stamp or mark on such products or the containers thereof, at the discretion of the inspector.

§ 51.20 Issuance of corrected certificates.

A corrected inspection certificate may be issued by the inspector who issued the original certificate after distribution of a certificate if errors, such as incorrect dates, grade statements, lot or car numbers, identification marks, types of containers, sizes, weights, quantities, or errors in any other pertinent information require the issuance of a corrected certificate. Whenever a corrected certificate is issued, such certificate shall supersede the inspection certificate which was issued in error and the superseded certificate shall become null and void after the issuance of the corrected certificate.

§ 51.21 Disposition of inspection certificates.

(a) The original certificate, and not to exceed four copies (if requested by applicant prior to issuance), shall be delivered or mailed promptly to the applicant or to a person designated by him. One copy shall be filed in the office of the inspector when the inspection is made by a Federal Government employee, otherwise, it shall be filed in the appropriate office of the cooperating Federal-State Inspection Agency. Unless otherwise directed by the Administrator, two copies of each official certificate issued on products received in destination markets shall be forwarded to the Administrator to be kept on file in Washington and no copies of official certificates issued at shipping point need be so forwarded. In the case of any product covered by a marketing agreement and/or order effective pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), at least one copy of each certificate covering the inspection of such product shall, on request, be delivered to the administrative agency established thereunder, subject to such terms and conditions as the Administrator may prescribe. Copies may be furnished to other interested parties as outlined in § 51.41.

§ 51.22 Disposition of samples.

If it is necessary to take samples of the product to the inspection office for further examination, the inspector, after completion of inspection of such samples shall dispose of them or any usable portion as follows: (a) Ascertain from the applicant if the owner wants the samples returned to him at his expense, (b) if he does not want them returned at his expense, give them to a nonsectarian charitable organization or, (c) if they have a substantial monetary value, sell them and remit the proceeds to the Consumer and Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, or if applicable, to the cooperating State Agency. Such proceeds shall be deposited to the credit of the Inspection Trust Fund, Federal or cooperating agency, whichever is applicable.

§ 51.23 Report of inspection results prior to issuance of formal report.

Upon request of an applicant, all or any part of the contents of a certificate covering an inspection requested by him may be telegraphed or telephoned to him, or to any person designated by him, at his expense. If the application for such information is received after the certificate has been issued, it will be considered as an application for an extra copy of the certificate, and the fees prescribed in § 51.41 shall apply.

Appeal Inspection

§ 51.24 When appeal inspection may be requested.

An application for appeal inspection may be made by any financially interested person who is dissatisfied with the results of an inspection as stated in an inspection certificate, if the lot can be positively identified by the Inspection Service as the lot which was previously inspected.

§ 51.25 Where to file for an appeal inspection and information required.

An appeal inspection may be obtained by the applicant, or other person financially interested in the product, by filing a request (a) with the Inspection Office nearest the point where the product is located, or (b) with the inspector who made the original inspection, or (c) with any district supervisory inspection office, or (d) with the Administrator. The application for the appeal inspection shall state the reasons therefor, and shall be accompanied by a copy of any previous inspection certificate or inspection report, and any other information which the applicant received regarding the quality or condition of the product at the time of the original inspection. Such application may be made orally (in person or by telephone), in writing, or by telegraph. If made orally, written confirmation shall be made promptly.

§ 51.26 Record of filing time.

A record showing the date and time of filing an application for appeal inspection shall be made promptly by the receiving office.

§ 51.27 When appeal inspection may be refused.

An application for an appeal inspection may be refused if: (a) The reasons for the appeal inspection are frivolous or not substantial; (b) the quality or condition of the product has undergone a material change since the inspection covering the product on which the appeal inspection is requested; (c) the lot in question is not, or cannot be, made accessible for the inspection; (d) the lot relative to which appeal inspection is requested cannot be identified positively by the inspector as the lot which was previously inspected; or (e) there is noncompliance with the regulations in this part. Such an applicant shall be notified promptly of the reason for refusal.

§ 51.28 When an application for an appeal inspection may be withdrawn.

An application for appeal inspection may be withdrawn by the applicant at any time before the appeal inspection is performed: *Provided*, That the applicant shall pay any travel expenses, telephone, telegraph or other expenses which have been incurred by the Inspection Service in connection with such application.

§ 51.29 Order in which made.

Appeal inspections shall be made, as soon as practicable, following the time requested by the applicant and in the order in which applications are received. They shall take precedence over all other pending applications, except applications for inspections covering lots involved in complaints filed pursuant to the Perishable Agricultural Commodities Act, 1930 as amended (7 U.S.C. 499a et seq.).

§ 51.30 Who shall perform appeal inspections.

Appeal inspections shall be performed by an inspector or inspectors authorized for this purpose by the Administrator and whenever practical, such appeal inspections shall be made by two inspectors.

§ 51.31 Appeal inspection certificate.

After an appeal inspection has been completed, an appeal inspection certificate shall be issued showing the results of such appeal inspection; and such certificate shall supersede the inspection certificate previously issued for the product involved. Each appeal inspection certificate shall clearly identify the number and date of the inspection certificate which it supersedes. The superseded certificate shall become null and void upon the issuance of the appeal inspection certificate and shall no longer represent the quality described therein. The inspector or inspectors issuing an appeal inspection certificate shall sign the certificate and forward notice of such issuance to such persons as considered necessary to prevent misuse of the superseded certificate if the original and all copies of such superseded certificate have not previously been delivered to the inspector or inspectors issuing the appeal inspection certificate. The provisions in the regulations in this part concerning forms of certificates and issuance of certificates, shall apply to appeal inspection certificates, except that copies of such appeal inspection certificates shall be furnished all interested parties who receive copies of the superseded certificate.

Licensing of Inspectors

§ 51.32 Who may be licensed.

Persons who are employed by a cooperative Federal-State Inspection Agency and possess adequate qualifications, as determined by such examinations as the Administrator may consider to be appropriate, may be licensed as inspectors of products which may be inspected under the regulations in this part. Such license shall bear the printed signature of the Secretary and shall be countersigned by an authorized employee of the Department. A licensed inspector shall perform his duties pursuant to these regulations as directed by the Administrator.

§ 51.33 Application to become a licensed inspector.

Application to become a licensed inspector shall be made to the Administrator on forms furnished for that purpose. Each such application shall be filed in and signed by the applicant in his own handwriting, and the application shall contain or be accompanied by:

(a) A statement of present address, age, height, and weight of the applicant;

(b) A statement showing education and present and previous occupations, together with names of all employers for whom he has worked with periods of service, during the last 5 years previous to the date of his application;

(c) A statement by the applicant that he agrees to comply with all terms and conditions of the regulations in this part relating to the duties of inspectors; and

(d) Such other information as may be required by the Administrator.

§ 51.34 Suspension or revocation of license of a licensed inspector.

Pending final action by the Secretary, the Administrator may, whenever he deems such action necessary, suspend the license of any licensed inspector issued pursuant to the regulations in this part by giving notice of such suspension to the respective licensee, accompanied by a statement of the reasons therefor. Within 10 days after the receipt of the aforesaid notice and statement of the reasons by such licensee, he may file an appeal, in writing, with the Secretary, supported by any argument or evidence that he may wish to offer as to why his license should not be suspended or revoked. After the expiration of the aforesaid 10-day period and consideration of such argument and evidence, the Secretary will take such action as he deems appropriate with respect to such suspension or revocation. When no appeal is filed within the prescribed 10 days, the license shall be automatically revoked.

§ 51.35 Surrender of license.

Upon termination of his services as a licensed inspector, or suspension or revocation of his license, a licensee shall surrender his license immediately to the office of inspection serving the area in which he is located. These same provisions shall apply in case of an expired license.

§ 51.36 Renewal of license.

An expired license may be renewed by the issuance of a new license: *Provided*, That the person seeking renewal of his license is employed by the cooperating agency and his past performance as a licensed inspector has been satisfactory.

SCHEDULE OF FEES AND CHARGES AT DESTINATION MARKETS

§ 51.37 Amount of fees, rates, and charges.

For each lot of products inspected, a fee and expenses, determined in accordance with §§ 51.38 to 51.40 shall be paid by the applicant.

§ 51.38 Basis for charges.[1]

(a) The fee for each lot of products inspected by an inspector acting exclusively for the Department, except for peanuts, pecans and other nuts, shall be on the following basis:

(1) Quality and condition inspections:

(i) $15 for each over one-half carlot equivalent of an individual product up to a full carlot.

(ii) $12 for each half carlot equivalent or less of an individual product.

(iii) $30 maximum for inspection of each carlot equivalent when more than one kind of product is involved.

(2) Condition inspection only:

(i) $12 for each over one-half carlot equivalent of an individual product up to a full carlot.

(ii) $10 for each half carlot equivalent or less of an individual product.

(iii) $24 maximum for inspection of each carlot equivalent when more than one kind of product is involved.

(3) When any lot involved is in excess of a carlot equivalent, the quantity shall be calculated in terms of carlot and fractions thereof of the customary carlot quantity for such carlots and carlot inspection fee rates: *Provided*, That such fractions shall be calculated in terms of fourths or next higher fourths.

(b) The base fee for peanuts (shelled), pecans or other nuts shall be 60 cents per ton: *Provided*, That the minimum fee shall be $12 per lot, the different grades and varieties of peanuts shall be considered separate lots, and the fee for Farmers' stock peanuts (unshelled) shall be $1.65 per ton.

(c) When inspections are made and the products inspected cannot readily be calculated in terms of carlots, or when the services rendered are such that a charge on the carlot or other unit basis would be inadequate or inequitable, charges for inspection may be based on the time consumed by the inspector in connection with such inspections, computed at the rate of $6 per hour.

(d) Not withstanding the fee rates prescribed in the preceding paragraphs, fees and charges for the inspection of small lots where detailed reports of inspection are not normally required,[2] the following rates may be applied:

1 to 25 packages inclusive	$3.25
26 to 50 packages inclusive	4.25
51 to 150 packages inclusive	6.00
151 to ½ customary carlot equivalent	9.00

(e) Whenever inspections are performed at the request of the applicant on Saturdays, Sundays, holidays or at any other periods which are outside the inspector's regular scheduled workweek, the charge for inspection service shall be $3 per hour or portion thereof per inspector in addition to the regular commercial lot or hourly fees specified in this subpart.

§ 51.39 Fees for appeal inspections.

The fee to be charged for appeal inspections on all products shall be at the same rate as those set forth in this part except that when it is found that there was a material error in the determination based upon the original inspection, no fee will be charged, and except that appeal inspection for Government Agencies shall be on the hourly basis prescribed in this part, plus traveling and other expenses authorized to be charged by the provisions in this part.

§ 51.40 Traveling and other expenses.

Costs including travel incurred by the Consumer and Marketing Service in providing inspection service at a place where no inspector is located or costs in appeal inspections requiring a second inspector may be charged to the applicant. These charges shall be included with the fee for inspection on the bill furnished the applicant.

§ 51.41 Fees for additional copies of inspection certificates.

Additional copies of any inspection certificate other than those provided for in § 51.21, may be supplied to any interested party upon payment of a fee of $2.25 for each set of 5, or less, copies.

§ 51.42 Charges for inspection services on a contract basis.

Irrespective of fees and charges prescribed in the foregoing sections, the Administrator may enter into contracts with applicants to perform inspection services pursuant to the regulations in this part and other requirements as prescribed by the Administrator in such contract, and the charges for such inspection services provided for in such contracts shall be on such basis as will reimburse the Consumer and Marketing Service of the Department for the full cost of conducting such inspection service, including an appropriate overhead charge to cover as nearly as practicable administrative overhead expenses, as may be determined by the Administrator.

§ 51.43 How fees shall be paid.

Fees shall be paid by the applicant in accordance with the directions on the fee bill furnished him by the billing office, and in advance, if required by the inspector.

§ 51.44 Disposition of fees.

(a) The fees collected for services rendered shall be disposed of as follows:

(1) Fees for inspections made by inspectors acting exclusively for the Consumer and Marketing Service shall be remitted promptly to the Consumer and Marketing Service.

(2) Fees for inspections made by an inspector acting under a cooperative agreement with a State or other organization shall be disposed of in accordance with the terms of such agreement. Such portion of the fees collected under a cooperative agreement with a State or other cooperating bodies as may be due the United States shall be remitted to the Consumer and Marketing Service.

(b) Fees and charges collected pursuant to §§ 51.40 to 51.41 shall be remitted to the Consumer and Marketing Service.

(c) Fees and charges collected pursuant to § 51.42 shall be disposed of in accordance with the terms of the contract.

[1] Carlot equivalent shall be based on the customary quantity of a product loaded in common carrier railcars.

[2] For example the inspection of small lots for export to Canada or delivery to private and public institutions.

SCHEDULE OF FEES AND CHARGES AT SHIPPING POINT AREAS

§ 51.45 Fees and charges at shipping point areas.

Fees for inspection performed under cooperative agreements pursuant to authority contained in any Act of Congress shall be those provided by such agreements.

MISCELLANEOUS

§ 51.46 Denial of inspection service.

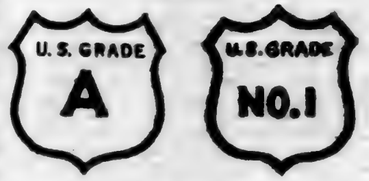
Any or all benefits of the act may be denied any person for any of the following reasons: (a) Any willful misrepresentation or deceptive or fraudulent practice made or committed by any person in connection with the making or filing of an application for inspection service; (b) any fraudulent or unauthorized use, alteration, or imitation of any certificate issued pursuant to the regulations; (c) any interference with or obstruction of any inspector or official sampler in the performance of his duties, by intimidation, threat, assault or any other improper means; or (d) any willful violation of the regulations may be deemed sufficient cause for debarring the person found guilty thereof from any or all benefits of the acts, after notice and opportunity for hearing has been accorded him. The rules of practice governing withdrawal of Inspection and Grading Services, Part 50, of this chapter, shall govern the proceedings pursuant to this section.

§ 51.47 Political activity.

All inspectors are forbidden, during the period of their respective appointments or while holding a valid inspectors' license to take an active part in political campaigns and a violation by a licensee shall constitute grounds for revocation of his license. All Federal employees are subject to the applicable provisions of the Department's administrative regulations relating to political activity.

§ 51.48 Inspectors' identification.

Each inspector shall have in his possession at all times, and present upon request, while on duty, the means of identification furnished by the Department to such person.



§ 51.49 Approved identifications.

(a) *Grade marks.* The approved shield mark with the appropriate U.S. grade designation may be used on containers, labels or otherwise indicated on the package when: (1) The product has been packed under continuous inspection as provided by the Inspection Service, (2) the plant in which the product is packed is maintained under good commercial sanitary practices, and (3) the product has been certified by an inspector as meeting the requirements of U.S. Grade A, U.S. Grade No. 1, or a higher U.S. grade as shown within the shield. The shields with approved grade designation for use shall be similar in form and design to the examples in figures 1 and 2 of this section.

Shield using red, white and blue background.

FIGURE 1.

Shields with plain background.

FIGURE 2.

(b) *Inspection legends.* The approved continuous inspection legends may be used on containers, labels or otherwise indicated on the package when: (1) The product has been packed under continuous inspection provided by the Inspection Service; (2) the plant in which the product is packed is maintained under good commercial sanitary practices; and (3) the product meets the requirements of such quality, grade, or specification as may be approved by the Administrator. The continuous inspection legends approved for use shall be similar in form and design to the examples in figures 3 and 4.

FIGURE 3.

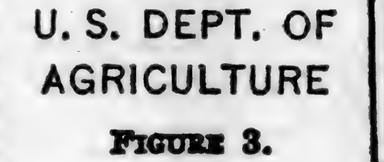


FIGURE 4.

(c) *Combined grade and inspection legends.* The grade marks set forth in paragraph (a) of this section and illustrated by figures 1 and 2 of this section and the inspection legends set forth in paragraph (b) of this section and illustrated by figures 3 and 4 of this section may be combined into a consolidated grade and inspection legend for use on products which meet the requirements of both of these paragraphs. See figure 5.

FIGURE 5.

(d) *Other identification marks.* Products may be inspected on a lot inspection basis as provided in this part and identified by an official inspection mark similar in form and design to figure 6 of this section. The use of this mark or other comparable identification marks may be required by the Administrator whenever he determines that such identification is necessary in order to maintain the identity of lots which have been inspected and certified.

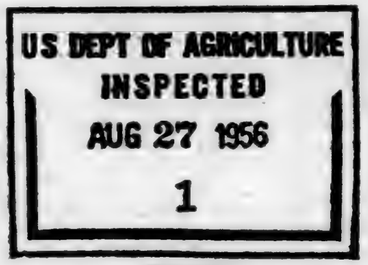

FIGURE 6.

§ 51.50 Custody of official inspection marking devices.

All official inspection marking devices as shown in figure 6 of § 51.49 shall be kept in the custody of the Consumer and Marketing Service and accurate records shall be kept of these devices. Each inspection office shall keep a record of the devices assigned to it. Such devices shall be distributed only to authorized

employees of the Department who shall keep the devices in their official possession or control at all times and keep complete records of such devices.

§ 51.51 Prohibited uses of approved identification.

No label or advertising material used on, or in conjunction with any product, shall bear a brand name, trademark, product name or any other descriptive material that incorporates, resembles, simulates, or alludes to any official U.S. Department of Agriculture grade mark, grade statement, continuous inspection legend, sampling mark or sampling statement, or combination of one or more thereof.

§ 51.52 Licensing and identification of certain official devices.

The Administrator may issue licenses permitting the manufacture, identification, distribution, and sale of any official device designated as a USDA color standard, defect guide or other similar aid under such terms and conditions as may be specified by the Administrator. Licenses shall be available to all persons meeting conditions prescribed by the Administrator, shall be nonexclusive, and shall be revocable for cause. No person shall manufacture, identify, distribute or sell any such official device except at the direction of or under license from the Administrator. Such official devices may be marked, tagged or otherwise designated with the prefix "USDA" together with other identifying words or symbols, as prescribed by the license.

REQUIREMENTS FOR PLANTS OPERATING UNDER CONTINUOUS INSPECTION ON A CONTRACT BASIS

§ 51.53 Continuous inspections.

Continuous inspection service which is associated with the use of the approved shield showing the U.S. grade, the approved continuous inspection legend, or both, on the container may be furnished whenever inspectors are available, the facilities and conditions are satisfactory for the conduct of the service, and there is a signed contract between the applicant and the Department or a cooperative Federal-State Inspection Agency in which it is agreed that such service will be conducted subject to regulations governing the inspection and certification of fresh fruits, vegetables, and other products, contained in this part and any additional and supplemental instructions issued by the Department or such instructions issued by a cooperating agency which are not inconsistent with those issued by the Department.

§ 51.54 Plant survey.

Prior to the inauguration of continuous Federal or Federal-State Inspection Service on a contract basis, the Administrator will make or cause to be made a survey and inspection where such service is to be performed to determine whether the premises, plant and facilities are suitable and adequate for the performance of such service in accordance with the regulations in this part, including, but not limited to requirements contained in §§ 51.54 through 51.62.

§ 51.55 Premises.

The premises shall be free from conditions objectionable to packing operations, including, but not limited to litter, waste and refuse within the immediate vicinity of the plant buildings, excessively dusty roads, yards or parking lots, and poorly drained areas.

§ 51.56 Buildings and structures.

The packing plant buildings shall be properly constructed and maintained in a sanitary condition, including, but not limited to the following requirements:

(a) There shall be sufficient light consistent with the use to which the particular portion of the building is devoted and to permit efficient cleaning. The grading belts and bins shall be provided with sufficient proper nonglaring light to insure adequacy of grading and inspection operations;

(b) If the product is washed there shall be ample supply of water of a safe and sanitary quality with adequate facilities for its distribution throughout the plant and washing machinery;

(c) There shall also be an efficient waste disposal and plumbing system maintained in good repair;

(d) Each room in which the product is graded or stored shall be designed and constructed as to insure operating conditions of a clean and orderly character and shall be maintained in a clean and sanitary manner.

(e) Every practical precaution shall be taken to exclude dogs, cats, rodents and other vermin from the rooms in which the products are to be graded or stored.

§ 51.57 Facilities.

Each packing plant shall be equipped with adequate sanitary facilities and accommodations, including but not being limited to the following:

(a) There shall be a sufficient number of adequately lighted toilet rooms, ample in size and conveniently located. Toilet rooms shall be adequately screened and equipped with self-closing doors, and shall have independent outside ventilation.

(b) Adequate lavatory accommodations and supplies shall be placed at such locations in or near toilet rooms as to insure the cleanliness of each person who grades or handles the product to be inspected.

(c) Suitable facilities for cleaning shall be provided at convenient locations in the plant.

§ 51.58 Equipment.

All equipment used for receiving, washing, grading, packaging or storing shall be of such design, material and construction that it may be kept clean.

§ 51.59 Operations and operating procedures.

(a) The inspector shall refuse to permit the use of the official shield with grade mark or continuous inspection legend on packages if the produce is from a field or orchard having a disease or other condition which may not be apparent on individual specimens at packing time but which may cause the product to materially decrease in quality after packing.

(b) All products which are certified shall be subjected to continuous inspection throughout the packing operations.

(c) The inspectors are available for consultation purposes but shall not become involved in plant operations.

(d) The Inspection Service will not be responsible for damages occurring through any act of commission or omission on the part of its inspectors when engaged in rendering continuous inspection service; for packing errors or misbranding of products; or for failure to supply enough inspectors during any period of service provided under the contract.

(e) The applicant for continuous inspection shall:

(1) Conform to all applicable regulations under which the continuous inspection service is conducted.

(2) Use only raw material which has been handled or stored under conditions which insures its suitability for packing; maintain the plant designated herein in such sanitary condition and to employ such methods of handling raw materials for packing as may be necessary to conform to the sanitary requirements prescribed in this part.

(3) Not permit any of his marks or labels or buyers' and distributors' marks or labels applied by him on which reference is made to continuous inspection to be used on any product not packed under this continuous inspection service; or permit any of his marks or labels or buyers' and distributors' marks or labels applied by him on which reference is made to any U.S. Grade to be used on any product which does not meet the requirements of such grade; or to supply labels bearing reference to continuous inspection service to another plant unless the products to which such labels are to be applied have been packed under continuous inspection.

(4) Furnish any reports of packaging and output of products inspected, as may be requested by the inspection agencies.

(5) Make available to inspectors adequate office space in the designated plant and furnish suitable desks and office equipment for the proper care of inspection records.

(6) Make his laboratory or other facilities and necessary equipment available for the use of inspectors in making inspection of samples.

(7) Furnish if required, such stenographic and clerical assistance as may be necessary in the typing of certificates and reports and the handling of official correspondence, as well as the labor incident to drawing of samples and facilitating adequate inspection procedure when necessary.

(8) Submit to the Consumer and Marketing Service, through the inspector assigned to the plant or other representative of the Inspection Service for approval prior to use, copies or proof of each packer's or distributor's label bearing or referring in any manner to official identification of the designated packaged products hereunder.

(9) Not make deceptive, fraudulent, or unauthorized use in his advertising, or otherwise, of the continuous inspection service, the inspection certificates or reports issued, or the containers on which the shield of the Department is identified, in connection with the sale of any of the packaged products; and to submit to the Consumer and Marketing Service through the inspector assigned to the plant or other representative of the Inspection Service, for approval to use any proposed advertising in which reference is made to the Inspection Service.

§ 51.60 Termination of contracts.

In case the applicant wishes to terminate the contract he agrees either to continue the service until all unused containers, labels and advertising material on hand or in the possession of his supplier bearing the Department shield, or reference to continuous inspection service have been used, or to destroy such containers, labels and advertising material, or to obliterate the Department shield and all other reference to the continuous inspection service on said containers, labels, and advertising material, or otherwise furnish assurance satisfactory to the Consumer and Marketing Service that such containers, labels and advertising material will not be used in violation of the terms and conditions of this agreement. In case the continuous inspection service is terminated for cause by the Consumer and Marketing Service, the applicant agrees to destroy all unused containers, labels and advertising material on hand bearing the Department shield, or reference to continuous inspection service, or to obliterate the Department shield, and all reference to the continuous inspection service on said containers, labels and advertising material or otherwise furnish assurance satisfactory to the Consumer and Marketing Service that such containers, labels and advertising material will not be used in violation of the terms and conditions of the agreement.

§ 51.61 Congressional interest in contracts.

No member of, or delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of any contract provided for in the regulations in this subpart or to any benefit that may arise therefrom, but this provision shall not be construed to extend to such contract if made with a corporation for its general benefit, and shall not extend to any benefits that may accrue from the contract to a member of, or delegate to Congress, or a Resident Commissioner in his capacity as a farmer.

Dated: August 15, 1967.

G. R. GRANGE,
Deputy Administrator,
Marketing Services.

[Docket No. AO 236-A16]

MILK IN PUGET SOUND, WASH., MARKETING AREA

Notice of Extension of Time for Filing Exceptions to Recommended Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given that the time for filing exceptions to the recommended decision with respect to the proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Puget Sound, Wash., marketing area, which was issued August 7, 1967 (32 F.R. 11567), is hereby extended to September 9, 1967.

Signed at Washington, D.C., on August 17, 1967.

CLARENCE H. GIRARD,
Deputy Administrator,
Regulatory Programs.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

[43 CFR Part 23]

MINED LAND RECLAMATION

Notice of Extension of Time for Comments

On July 20, 1967 there was published in the FEDERAL REGISTER (vol. 32, No. 139, pp. 10656–58) as a notice of proposed rule making a proposed new Part 23 to Title 43, Code of Federal Regulations, relating to the protection and reclamation of surface mined lands.

That notice afforded all interested parties 30 days from the date of publication within which to submit to the Secretary of the Interior written comments, suggestions, or objections with respect to the proposed regulations.

In view of the widespread interest shown in the proposed regulations and in view of requests received for an extension of time within which to submit comments it appears appropriate, in the circumstances, to grant the requests for such an extension.

Therefore, notice is hereby given that all interested persons are afforded an extension of time until the close of office hours on Friday, October 20, 1967 within which to submit to the Secretary of the Interior, Washington, D.C., written comments, suggestions or objections with respect to the proposed regulations.

STEWART L. UDALL,
Secretary of the Interior.

AUGUST 16, 1967.

DEPARTMENT OF COMMERCE

Office of the Secretary

[15 CFR Part 10]

PROCEDURES FOR DEVELOPMENT OF VOLUNTARY PRODUCT STANDARDS

Notice of Proposed Rule Making

The Department of Commerce proposes to amend its procedures for the development of voluntary product standards in order to provide a more effective program.

Interested parties may participate in the proposed rule-making by submitting written comments or suggestions, in duplicate, to the Office of the General Counsel, U.S. Department of Commerce, Washington, D.C. 20230. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposal.

A public docket will be available for examination by interested parties at the Central Reference and Records Inspection Facility of the Department of Commerce, Room 2122, Main Commerce Building, 14th Street between Pennsylvania Avenue and Constitution Avenue NW., Washington, D.C.

The following proposals are under consideration:

1. Amend § 10.2 by revising paragraph (a) to read as follows:

§ 10.2 Development of proposed standard.

(a) The proposed standard as submitted to the Department shall in the Department's judgment—

(1) Be based on adequate technical information,

(2) Include test methods or inspection procedures which permit any competent testing facility to determine conformance or non-conformance with the standard, whenever pertinent,

(3) Be not contrary to law or the public interest,

(4) Reasonably be expected to be generally acceptable by producers, distributors, consumers and users of the product,

(5) Be technically sound,

(6) Be in the proper form, and

(7) Include performance criteria when the proposed standard relates to quality, to the extent feasible.

* * * * *

2. Revise § 10.5 to read as follows:

§ 10.5 Procedure for acceptance of recommended standard.

(a) Upon receipt from the Committee of a recommended standard and report,

the Department shall give appropriate public notice and distribute the recommended standard for acceptance unless—

(1) Upon a showing by any member of the Committee who has voted to oppose the recommended standard on the basis of an unresolved objection, the Department determines that if such objection were not resolved, the recommended standard—

(i) Would be contrary to the public interest, if published;

(ii) Would be technically inadequate; or

(iii) Would be inconsistent with law or established public policy.

(2) The Department determines that all criteria and procedures set forth herein have not been met satisfactorily or that there is legal objection to the recommended standard.

(b) Distribution for acceptance or rejection for purposes of determining general concurrence will be made to a list compiled by the Department, which shall be representative of producers, distributors, users, consumers, appropriate testing laboratories, and interested State and Federal agencies.

(c) Distribution for comment also will be made to any party filing a written request with the Department.

(d) The Department will analyze the responses and if such analysis indicates that the recommended standard is supported by a consensus, then it will be published as a product standard by the Department.

(e) For the purpose of these procedures the following definitions shall apply:

(1) Consensus means general concurrence and, in addition, no substantive objection deemed valid by the Department.

(2) General concurrence means not less than 80 percent acceptance among those responding to the distribution for acceptance or rejection under paragraph (b) of this section in each of the following segments:

(i) Producers both by number and by estimated volume of production;

(ii) Distributors; and

(iii) Users, consumers and general interest groups.

(3) Substantive objection means an objection on grounds that one or more of the criteria set forth in § 10.2(a) has not been satisfied.

3. Amend Part 10 by adding a new § 10.5a to read as follows:

§ 10.5a Procedure when a recommended standard is not supported by a consensus.

If the Department determines that a recommended standard is not supported by a consensus, the Department may:

(a) Return the recommended standard to the Standard Review Committee for further action, with or without suggestions;

(b) Terminate the development of the recommended standard under these procedures;

(c) Publish a voluntary standard on its own initiative after a rule-making proceeding as provided by 5 U.S.C. 553 where there is not less than 66⅔ percent concurrence within each segment of the industry and upon a determination by the Secretary that the public interest would suffer if a voluntary standard or a revised voluntary standard, as the case may be, is not published. Such a standard may be based upon the recommended standard that was not supported by a consensus as well as any other relevant information. Any standard so published may be amended, revised, or withdrawn by the Department after appropriate rule-making proceeding under 5 U.S.C. 553.

(d) Report the failure to achieve consensus on the recommended standard to Congress with appropriate recommendations.

These proposals are issued under the authority of the Act of March 3, 1901, chapter 872, section 2, 31 Stat. 1449; as amended by the Act of July 22, 1956, chapter 486, section 1, 64 Stat. 371 (15 U.S.C. 272); Reorganization Plan No. 3 of 1946, Part VI.

Issued in Washington, D.C., on August 19, 1967.

ALLEN V. ASTIN,
Acting Assistant Secretary for Science and Technology.

[F.R. Doc. 67-9883; Filed, Aug. 21, 1967; 10:30 a.m.]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 1]

DRUGS, DEVICES, AND COSMETICS

Statements Required on Labels

Section 4 of the Fair Packaging and Labeling Act (Public Law 89-755) authorizes the Secretary of Health, Education, and Welfare to promulgate regulations prescribing additional requirements pertaining to the declaration of net quantity of contents, identity of the commodity, and name and place of business of manufacturer, packer, or distributor on labels of foods, drugs, devices, and cosmetics distributed in interstate commerce. Regulations governing certain aspects of these same declarations have been previously promulgated (21 CFR Parts 1, 5) under the authority of the Federal Food, Drug, and Cosmetic Act.

In a notice of proposed rule making published in the FEDERAL REGISTER of March 17, 1967 (32 F.R. 4172), changes were proposed in the existing regulations pertaining to required label statements for foods. Also in that notice, an exempting procedure was proposed pertaining to required label statements for foods, drugs, devices, and cosmetics. These proposed amendments were acted upon in the order published in the FEDERAL REGISTER of July 21, 1967 (32 F.R. 10729), which established an exempting procedure for foods, drugs, devices, and cosmetics; set forth the requirements for label statements for foods; and established certain exemptions for foods. In the same issue of the FEDERAL REGISTER, a statement of policy (21 CFR 3.87) was published pertaining to the utilization of packages and labels not in compliance with labeling requirements of the Fair Packaging and Labeling Act.

Having ordered changes in the required label statements for foods, the Commissioner of Food and Drugs now proposes the following amendments regarding label statements for drugs, devices, and cosmetics.

Accordingly, pursuant to the provisions of the Fair Packaging and Labeling Act (secs. 4, 6, 80 Stat. 1297, 1299, 1300; 15 U.S.C. 1453, 1455) and the authority provided in the Federal Food, Drug, and Cosmetic Act (secs. 502 (b), (c), 602 (b), (c), 701, 52 Stat. 1050, 1054, 1055, as amended; 21 U.S.C. 352 (b), (c), 362 (b), (c), 371), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120), it is proposed that Part 1 be amended:

1. By adding new § 1.101a, as follows:

§ 1.101a Drugs and devices in package form; principal display panel.

The term "principal display panel" as it applies to drugs and devices in package form and as used in this part, means the part of a label that is most likely to be displayed, presented, shown, or examined under customary conditions of display for retail sale. The principal display panel shall be large enough to accommodate all the mandatory label information required to be placed thereon by this part with clarity and conspicuousness and without obscuring designs, vignettes, or crowding. Where packages bear alternate principal display panels, information required to be placed on the principal display panel shall be duplicated on each principal display panel. For the purpose of obtaining uniform type size in declaring the quantity of contents for all packages of substantially the same size, the term "area of the principal display panel" means the area of the side or surface that bears the principal display panel, which area shall be:

(a) In the case of a rectangular package where one entire side properly can be considered to be the principal display panel side, the product of the height times the width of that side;

(b) In the case of a cylindrical or nearly cylindrical container, 40 percent of the product of the height of the container times the circumference;

(c) In the case of any other shape of container, 40 percent of the total surface of the container.

In determining the area of the principal display panel, exclude flanges at tops and bottoms of cans and shoulders and necks of bottles or jars. In the case of cylindrical or nearly cylindrical containers, information required by this part to appear on the principal display panel shall appear within that 40 percent of the circumference which is most likely to be displayed, presented, shown, or examined under customary conditions of display for retail sale.

2. By revising § 1.102 and adding new §§ 1.102a, 1.102b, 1.102c, and 1.102d, as follows:

§ 1.102 Prescription and insulin-containing drugs in package form; labeling re identity.

(a) The principal display panel of prescription and insulin-containing drugs in package form shall bear as one of its principal features a statement of the identity of the drug.

(b) Such statement of identity shall be in terms of the established name of the drug. An insulin-containing drug shall be further identified by placement on the outside container or wrapper of the package, and on the label of the immediate container, of the distinguishing color(s) required by § 164.7 of this chapter. In the case of a prescription drug that is a mixture and that has no established name, the requirement for statement of identity shall be deemed to be satisfied by a listing of the quantitative ingredient information as prescribed by § 1.104.

(c) The statement of identity shall be presented in bold type on the principal display panel, shall be in a size reasonably related to the most prominent printed matter on such panel, and shall be in lines generally parallel to the base on which the package rests as it is designed to be displayed. The statement of identity of a prescription drug shall also comply with the placement, size, and prominence requirements of § 1.104.

§ 1.102a Over-the-counter drugs and devices in package form; labeling re identity.

(a) The principal display panel of an over-the-counter drug or device in package form shall bear as one of its principal features a statement of the identity of the commodity.

(b) Such statement of identity shall be in terms of the established name of the drug or common name of the device. In the case of an over-the-counter drug that is a mixture and that has no established name, this requirement shall be deemed to be satisfied by a statement of the general pharmacological category of the drug (for example, antacid, analgesic, etc.) supplemented by a listing of each active ingredient contained therein. Such statement and listing shall be placed in direct conjunction with the most prominent display of the proprietary name or designation.

(c) The statement of identity shall be presented in bold type on the principal display panel, shall be in a size reasonably related to the most prominent printed matter on such panel, and shall be in lines generally parallel to the base on which the package rests as it is designed to be displayed.

§ 1.102b Drugs and devices in package form; labeling re name and place of business of manufacturer, packer, or distributor.

(a) The label of a drug or device in package form shall specify conspicuously the name and place of business of the manufacturer, packer, or distributor.

(b) The requirement for declaration of the name of the manufacturer, packer, or distributor shall be deemed to be satisfied, in the case of a corporation, only by the actual corporate name which may be preceded or followed by the name of the particular division of the corporation. In the case of an individual, partnership, or association, the name under which the business is conducted shall be used.

(c) Where a drug or device is not manufactured by the person whose name appears on the label, the name shall be qualified by a phrase that reveals the connection such person has with such drug or device; such as, "Manufactured for and packed by _____," "Distributed by _____," or any other wording that expresses the facts.

(d) The statement of the place of business shall include the street address, city, State, and ZIP Code; however, the street address may be omitted if it is shown in a current city directory or telephone directory.

(e) If a person manufactures, packs, or distributes a drug or device at a place other than his principal place of business, the label may state the principal place of business in lieu of the actual place where such drug or device was manufactured or packed or is to be distributed, unless such statement would be misleading.

§ 1.102c Prescription and insulin-containing drugs in package form; labeling re declaration of net quantity of contents.

(a) The label of a prescription or insulin-containing drug in package form shall bear a declaration of the net quantity of contents. This shall be expressed in the terms of weight, measure, numerical count, or a combination of numerical count and weight or measure. The statement of quantity of drugs in tablet, capsule, ampule, or other unit dosage form shall be expressed in terms of numerical count; the statement of quantity for drugs in other dosage forms shall be in terms of weight if the drug is solid, semisolid, or viscous, or in terms of fluid measure if the drug is liquid. When the drug quantity statement is in terms of the numerical count of the drug units, it shall be augmented when necessary to give accurate information as to the quantity of such drug in the package. Such combined statement (in terms, manner, or form that are not misleading) shall give the weight or measure of the drug units or the quantity of each active ingredient in each drug unit or, when quantity does not accurately reflect drug potency, a statement of the drug potency.

(b) Statements of weight of the contents shall in the case of prescription drugs be expressed in terms of avoirdupois pound, ounce, and grain or of kilogram, gram, and subdivisions thereof. A statement of liquid measure of the contents shall in the case of prescription drugs be expressed in terms of the U.S. gallon of 231 cubic inches and quart, pint, fluid-ounce, and fluid-dram subdivisions thereof, or of the liter and milliliter, or cubic centimeter, and shall express the volume at 68° F. (20° C.). A statement of the liquid measure of the contents in the case of insulin-containing drugs shall be expressed in terms of the liter and milliliter, or cubic centimeter, and shall express the volume at 68° F. (20° C.).

(c) The declaration shall contain only such fractions as are generally used in expressing the quantity of the drug. A common fraction shall be reduced to its lowest terms; a decimal fraction shall not be carried out to more than three places, except in the case of a statement of the quantity of an active ingredient in a unit of a drug.

(d) The declaration shall appear as a distinct item on the principal display panel of the label; with respect to packages bearing alternate principal display panels, it shall be duplicated on each principal display panel.

(e) The declaration shall accurately reveal the quantity of drug in the package exclusive of wrappers and other material packed therewith.

(f) A statement of the quantity of a prescription or insulin-containing drug in terms of weight or measure applicable to such drug, under the provisions of paragraph (a) of this section, shall express with prominence and conspicuousness the number of the largest whole unit, as specified in paragraph (b) of this section, that are contained in the package. Any remainder shall be expressed in terms of common or decimal fractions of such unit or in terms of the next smaller whole unit and common or decimal fractions thereof.

(g) The declaration of net quantity of contents shall express an accurate statement of the quantity of contents of the package. Reasonable variations caused by loss or gain of moisture during the course of good distribution practice or by unavoidable deviations in good manufacturing practice will be recognized. Variations from stated quantity of contents shall not be unreasonably large. In the case of a drug in ampules, the declaration shall be considered to express the minimum quantity and, if the drug is a liquid, the variation above the stated measure shall comply with the excess volume prescribed by the National Formulary or the United States Pharmacopeia for filling of ampules.

(h) A drug shall be exempt from compliance with the net quantity declaration required by this section if it is an ointment labeled "sample," "physician's sample," or a substantially similar statement and the contents of the package do not exceed 8 grams.

§ 1.102d Over-the-counter drugs and devices in package form; labeling re declaration of net quantity of contents.

(a) The label of an over-the-counter drug or device in package form shall bear a declaration of the net quantity of contents. This shall be expressed in the terms of weight, measure, numerical count, or a combination of numerical count and weight, measure, or size. The statement of quantity of drugs in tablet, capsule, ampule, or other unit form and

the quantity of devices shall be expressed in terms of numerical count; the statement of quantity for drugs in other dosage forms shall be in terms of weight if the drug is solid, semisolid, or viscous, or in terms of fluid measure if the drug is liquid. When the drug quantity statement is in terms of the numerical count of the drug units, it shall be augmented when necessary to give accurate information as to the quantity of such drug in the package. Such combined statement (in terms, manner, or form that are not misleading) shall give the weight or measure of the drug units or the quantity of each active ingredient in each drug unit (for example, "100 tablets, 5 grains each") or, when quantity does not accurately reflect drug potency, a statement of drug potency; provided that:

(1) In the case of a firmly established, general consumer usage and trade custom of declaring the quantity of a drug or device in terms of linear measure or measure of area, such respective term may be used. Such term shall be augmented when necessary for accuracy of information by a statement of the weight, measure, or size of the individual units or of the entire drug or device; for example, the net quantity of adhesive tape in package form shall be expressed in terms of linear measure augmented by a statement of its width.

(2) If the declaration of contents for a device by numerical count does not give accurate information as to the quantity of the device in the package, it shall be augmented by such statement of weight, measure, or size of the individual units or of the total weight, measure, or size of the device as will give such information; for example, "100 tongue depressors, adult size," "1-5 cc. hypodermic syringe," "1 finger splint, small size," etc.

Whenever the Commissioner determines for a specific packaged drug or device that an existing practice of declaring net quantity of contents by weight, measure, numerical count, or a combination of these does not facilitate value comparisons by consumers, he shall by regulation designate the appropriate term or terms to be used for such article.

(b) Statements of weight of the contents shall be expressed in terms of avoirdupois pound and ounce. A statement of liquid measure of the contents shall be expressed in terms of the U.S. gallon of 231 cubic inches and quart, pint, and fluid-ounce subdivisions thereof, and shall express the volume at 68° F. (20° C.).

(c) The declaration may contain common or decimal fractions. A common fraction shall be in terms of halves, quarters, eighths, sixteenths, or thirty-seconds; except that if there exists a firmly established, general consumer usage and trade custom of employing different common fractions in the net quantity declaration of a particular commodity, they may be employed. A common fraction shall be reduced to its lowest terms; a decimal fraction shall not be carried out to more than two places. A statement that includes small fractions of an ounce shall be deemed to permit smaller variations than one which does not include such fractions.

(d) The declaration shall be located on the principal display panel of the label, and with respect to packages bearing alternate principal panels it shall be duplicated on each principal display panel.

(e) The declaration shall appear as a distinct item on the principal display panel, shall be separated (by at least a space equal to the height of the lettering used in the declaration) from other printed label information appearing above or below the declaration and (by at least a space equal to twice the width of the letter "N" of the stype of type used in the quantity of contents statement) from other printed label information appearing to the left or right of the declaration. It shall not include any term qualifying a unit of weight, measure, or count (such as "giant pint" and "full quart") that tends to exaggerate the amount of the drug in the container. It shall be placed on the principal display panel within the bottom 30 percent of the area of the label panel in lines generally parallel to the base on which the package rests as it is designed to be displayed; provided that on packages having a principal display panel of 5 square inches or less, the requirement for placement within the bottom 30 percent of the area of the label panel shall not apply when the declaration of net quanity of contents meets the other requirements of this part.

(f) The declaration shall accurately reveal the quantity of drug or device in the package exclusive of wrappers and other material packed therewith; provided that in the case of drugs packed in containers designed to deliver the drug under pressure, the declaration shall state the net quantity of the contents that will be expelled when the instructions for use as shown on the container are followed. The propellant is included in the net quantity declaration.

(g) The declaration shall appear in conspicuous and easily legible boldface print or type in distinct contrast (by typography, layout, color, embossing, or molding) to other matter on the package; except that a declaration of net quantity blown, embossed, or molded on a glass or plastic surface is permissible when all label information is so formed on the surface. Requirements of conspicuousness and legibility shall include the specifications that:

(1) The ratio of height to width (of the letter) shall not exceed a differential of 3 units to 1 unit (no more than 3 times as high as it is wide).

(2) Letter heights pertain to upper case or capital letters. When upper and lower case or all lower case letters are used, it is the lower case letter "o" or its equivalent that shall meet the minimum standards.

(3) When fractions are used, each component numeral shall meet one-half the minimum height standards.

(h) The declaration shall be in letters and numerals in a type size established in relationship to the area of the principal display panel of the package and shall be uniform for all packages of substantially the same size by complying with the following type specifications:

(1) Not less than one-sixteenth-inch in height on packages the principal display panel of which has an area of 5 square inches or less.

(2) Not less than one-eighth-inch in height on packages the principal display panel of which has an area of more than 5 but not more than 25 square inches.

(3) Not less than three-sixteenths-inch in height on packages the principal display panel of which has an area of more than 25 but not more than 100 square inches.

(4) Not less than one-fourth inch in height on packages the principal display panel of which has an area of more than 100 square inches, except not less than one-half inch in height if the area is more than 400 square inches.

Where the declaration is blown, embossed, or molded on a glass or plastic surface rather than by printing, typing, or coloring, the lettering sizes specified in subparagraphs (1) through (4) of this paragraph shall be increased by one-sixteenth of an inch.

(i) On packages containing less than 4 pounds or 1 gallon and labeled in terms of weight or fluid measure:

(1) The declaration shall be expressed both in ounces, with identification by weight or by liquid measure and, if applicable (1 pound or 1 pint or more) followed in parentheses by a declaration in pounds for weight units, with any remainder in terms of ounces or common or decimal fractions of the pound (see examples set forth in paragraphs (k) (1) and (2) of this section), or in the case of liquid measure, in the largest whole units (quarts, quarts and pints, or pints, as appropriate) with any remainder in terms of fluid ounces or common or decimal fractions of the pint or quart (see examples set forth in paragraphs (k) (3) and (4) of this section). If the net weight of the package is less than 1 ounce avoirdupois or the net fluid measure is less than 1 fluid ounce, the declaration shall be in terms of common or decimal fractions of the respective ounce and not in terms of drams.

(2) The declaration may appear in more than one line. The term "net weight" shall be used when stating the net quantity of contents in terms of weight. Use of the terms "net" or "net contents" in terms of fluid measure or numerical count is optional. It is sufficient to distinguish avoirdupois ounce from fluid ounce through association of terms; for example, "Net wt. 6 oz." and "Net contents 6 fl. oz."

(j) On packages containing 4 pounds or 1 gallon or more and labeled in terms of weight or fluid measure, the declaration shall be expressed in pounds for weight units with any remainder in terms of ounces or common or decimal fractions of the pound; in the case of fluid measure, it shall be expressed in the largest whole unit (gallons, followed by common or decimal fractions of a gallon or by the next smaller whole unit or units (quarts or quarts and pints)) with any remainder in terms of fluid ounces or common or decimal fractions of the pint or quart (see paragraph (k)(5) of this section).

(k) Examples:

(1) A declaration of 1½ pounds weight shall be expressed as "Net Wt. 24 oz. (1 lb. 8 oz.)," "Net Wt. 24 oz. (1½ lb.)" or "Net Wt. 24 oz. (1.5 lb.)."

(2) A declaration of three-fourths pound avoirdupois weight shall be expressed as "Net Wt. 12 oz."

(3) A declaration of 1 quart liquid measure shall be expressed as "Net contents 32 fl. oz. (1 qt.)" or "32 fl. oz. (1 qt.)."

(4) A declaration of 1¾ quarts liquid measure shall be expressed as "Net contents 56 fl. oz. (1 qt. 1½ pt.)" or "Net contents 56 fl. oz. (1 qt. 1 pt. 8 oz.)" but not in terms of quart and ounce such as "Net 56 fl. oz. (1 qt. 24 oz.)."

(5) A declaration of 2½ gallons liquid measure shall be expressed as "Net contents 2 gal. 2 qt.," or "Net contents 2.5 gallons" and not as "2 gal. 4 pt."

(l) For quantities, the following abbreviations and none other may be employed (periods and plural forms are optional):

gallon gal.	microgram mcg.
quart qt.	milliliter ml.
pint pt.	cubic centimeter cc.
ounce oz.	yard yd.
pound lb.	feet or foot ft.
grain gr.	fluid fl.
kilogram Kg.	square sq.
gram Gm.	weight wt.
milligram mg. or mgm.	

(m) On packages labeled in terms of linear measure, the declaration shall be expressed both in terms of inches and, if applicable (1 foot or more), the largest whole units (yards, yards and feet, feet). The declaration in terms of the largest whole units shall be in parentheses following the declaration in terms of inches and any remainder shall be in terms of inches or common or decimal fractions of the foot or yard. Examples are "86 inches (2 yd. 1 ft. 2 inches)," "90 inches (2½ yd.)," "30 inches (2.5 ft.)," etc.

(n) On packages labeled in terms of area measure, the declaration shall be expressed both in terms of square inches and, if applicable (1 square foot or more), the largest whole square unit (square yards, square yards and square feet, square feet). The declaration in terms of the largest whole units shall be in parentheses following the declaration in terms of square inches and any remainder shall be in terms of square inches or common or decimal fractions of the square foot or square yard; for example, "158 sq. inches (1 sq. ft. 14 sq. inches)."

(o) Nothing in this section shall prohibit supplemental statements at locations other than the principal display panel(s) describing in nondeceptive terms, the net quantity of contents: *Provided*, That such supplemental statements of net quantity of contents shall not include any term qualifying a unit of weight, measure, or count that tends to exaggerate the amount of the drug or device contained in the package; for example, "giant pint" and "full quart." Dual or combination declarations of net quantity of contents as provided for in paragraphs (a) and (l) of this section are not regarded as supplemental net quantity statements and shall be located on the principal display panel.

(p) A separate statement of net quantity of contents in terms of the metric system of weight or measure is not regarded as a supplemental statement and an accurate statement of the net quantity of contents in terms of the metric system of weight or measure may also appear on the principal display panel or on other panels.

(q) The declaration of net quantity of contents shall express an accurate statement of the quantity of contents of the package. Reasonable variations caused by loss or gain of moisture during the course of good distribution practice or by unavoidable deviations in good manufacturing practice will be recognized. Variations from stated quantity of contents shall not be unreasonably large.

(r) A drug shall be exempt from compliance with the net quantity declaration required by this section if it is an ointment labeled "sample," "physician's sample," or a substantially similar statement and the contents of the package do not exceed 8 grams.

3. By adding new § 1.201a, as follows:

§ 1.201a Cosmetics in package form; principal display panel.

The term "principal display panel" as it applies to cosmetics in package form and as used in this part, means the part of a label that is most likely to be displayed, presented, shown, or examined under customary conditions of display for retail sale. The principal display panel shall be large enough to accommodate all the mandatory label information required to be placed thereon by this part with clarity and conspicuousness and without obscuring designs, vignettes, or crowding. Where packages bear alternate principal display panels, information required to be placed on the principal display panel shall be duplicated on each principal display panel. For the purpose of obtaining uniform-type size in declaring the quantity of contents of all packages of substantially the same size, the term "area of the principal display panel" means the area of the side or surface that bears the principal display panel, which area shall be:

(a) In the case of a rectangular package where one entire side properly can be considered to be the principal display panel side, the product of the height times the width of that side;

(b) In the case of a cylindrical or nearly cylindrical container, 40 percent of the product of the height of the container times the circumference;

(c) In the case of any other shape of container, 40 percent of the total surface of the container.

In determining the area of the principal display panel, exclude flanges at tops and bottoms of cans and shoulders and necks of bottles or jars. In the case of cylindrical or nearly cylindrical containers, information required by this part to appear on the principal display panel shall appear within that 40 percent of the circumference which is most likely to be displayed, presented, shown, or examined under customary conditions of display for retail sale.

4. By revising § 1.202 and adding new §§ 1.202a and 1.202b, as follows:

§ 1.202 Cosmetics in package form; labeling re identity.

(a) The principal display panel of a cosmetic in package form shall bear as one of its principal features a statement of the identity of the commodity.

(b) Such statement of identity shall be in terms of:

(1) The common or usual name of the cosmetic (for example "shampoo," "cologne," "lipstick," "perfume," "bath powder," etc.); or, in the absence thereof,

(2) A statement of functional characterization of the cosmetic that includes the intended cosmetic effect and the part of the body involved (for example "eyeliner eyebrow pencil," "after shave skin bracer," "nail enamel," "hand care lotion," etc.); or in lieu thereof,

(3) An appropriate illustration or vignette depicting the intended cosmetic effect and the part of the body involved.

(c) The statement of identity shall be presented in bold type on the principal display panel, shall be in a size reasonably related to the most prominent printed matter on such panel, and shall be in lines generally parallel to the base on which the package rests as it is designed to be displayed.

§ 1.202a Cosmetics in package form; labeling re name and place of business of manufacturer, packer, or distributor.

(a) The label of a cosmetic in package form shall specify conspicuously the name and place of business of the manufacturer, packer, or distributor.

(b) The requirement for declaration of the name of the manufacturer, packer, or distributor shall be deemed to be satisfied, in the case of a corporation, only by the actual corporate name, which may be preceded or followed by the name of the particular division of the corporation. In the case of an individual, partnership, or association, the name under which the business is conducted shall be used.

(c) Where the cosmetic is not manufactured by the person whose name appears on the label, the name shall be qualified by a phrase that reveals the connection such person has with such cosmetic; such as, "Manufactured for and packed by ----------," "Distributed by ----------," or any other wording that expresses the facts.

(d) The statement of the place of business shall include the street address, city, State, and ZIP Code; however, the street address may be omitted if it is shown in a current city directory or telephone directory.

(e) If a person manufactures, packs, or distributes a cosmetic at a place other than his principal place of business, the label may state the principal place of business in lieu of the actual place where such cosmetic was manufactured or

packed or is to be distributed, unless such statement would be misleading.

§ 1.302b Cosmetics in package form; labeling re declaration of net quantity of contents.

(a) The label of a cosmetic in package form shall bear a declaration of the net quantity of contents. This shall be expressed in terms of weight, measure, numerical count, or a combination of numerical count and weight or measure. The statement shall be in terms of fluid measure if the cosmetic is liquid, or in terms of weight if the cosmetic is solid, semisolid, or viscous, or a mixture of solid and liquid. If there is a firmly established, general consumer usage and trade custom of declaring the net quantity of a cosmetic by numerical count, linear measure, or measure of area, such respective term may be used. If there is a firmly established, general consumer usage and trade custom of declaring the contents of a liquid cosmetic by weight, or a solid, semisolid, or viscous cosmetic by fluid measure, it may be used. Whenever the Commissioner determines for a specific packaged cosmetic that an existing practice of declaring net quantity of contents by weight, measure, numerical count, or a combination of these does not facilitate value comparisons by consumers, he shall by regulation designate the appropriate term or terms to be used for such cosmetic.

(b) Statements of weight shall be in terms of avoirdupois pound and ounce. Statements of fluid measure shall be in terms of the U.S. gallon of 231 cubic inches and quart, pint, and fluid-ounce subdivisions thereof and shall express the volume at 68° F. (20° C.).

(c) When the declaration of quantity of contents by numerical count, linear measure, or measure of area does not give accurate information as to the quantity of cosmetic in the package, it shall be augmented by such statement of weight, measure, or size of the individual units or the total weight or measure of the cosmetic as will give such information.

(d) The declaration may contain common or decimal fractions. A common fraction shall be in terms of halves, quarters, eighths, sixteenths, or thirty-seconds; except that if there exists a firmly established, general consumer usage and trade custom of employing different common fractions in the net quantity declaration of a particular commodity, they may be employed. A common fraction shall be reduced to its lowest terms; a decimal fraction shall not be carried out to more than two places. A statement that includes small fractions of an ounce shall be deemed to permit smaller variations than one which does not include such fractions.

(e) The declaration shall be located on the principal display panel of the label; with respect to packages bearing alternate principal display panels, it shall be duplicated on each principal display panel; *Provided*, That:

(1) The principal display panel of a cosmetic marketed in a "boudoir-type" container including decorative cosmetic containers of the "cartridge," "pill box," "compact," or "pencil" variety, and those with a capacity of one-fourth ounce or less, may be considered to be a tear-away tag or tape affixed to the decorative container and bearing the mandatory label information as required by this part, but the type size of the net quantity of contents statement shall be governed by the dimensions of the decorative container; and

(2) The principal display panel of a cosmetic marketed on a display card to which the immediate container is affixed may be considered to be the display panel of the card, and the type size of the net quantity of contents statement is governed by the dimensions of the display card.

(f) The declaration shall appear as a distinct item on the principal display panel, shall be separated (by at least a space equal to the height of the lettering used in the declaration) from other printed label information appearing above or below the declaration and (by at least a space equal to twice the width of the letter "N" of the style of type used in the quantity of contents statement) from other printed label information appearing to the left or right of the declaration. It shall not include any term qualifying a unit of weight, measure, or count (such as "giant pint" and "full quart") that tends to exaggerate the amount of the cosmetic in the container. It shall be placed on the principal display panel within the bottom 30 percent of the area of the label panel in lines generally parallel to the base on which the package rests as it is designed to be displayed; provided that:

(1) On packages having a principal display panel of 5 square inches or less, the requirement for placement within the bottom 30 percent of the area of the label panel shall not apply when the declaration of net quantity of contents meets the other requirements of this part; and

(2) In the case of a cosmetic that is marketed with both outer and inner retail containers bearing the mandatory label information required by this part, and the inner container is not intended to be sold separately, the net quantity of contents placement requirement of this section applicable to such inner container is waived.

(g) The declaration shall accurately reveal the quantity of cosmetic in the package exclusive of wrappers and other material packed therewith; provided that in the case of cosmetics packed in containers designed to deliver the cosmetic under pressure, the declaration shall state the net quantity of the contents that will be expelled when the instructions for use as shown on the container are followed. The propellant is included in the net quantity declaration.

(h) The declaration shall appear in conspicuous and easily legible boldface print or type in distinct contrast (by typography, layout, color, embossing, or molding) to other matter on the package; except that a declaration of net quantity blown, embossed, or molded on a glass or plastic surface is permissible when all label information is so formed on the surface. Requirements of conspicuousness and legibility shall include the specifications that:

(1) The ratio of height to width (of the letter) shall not exceed a differential of 3 units to 1 unit (no more than 3 times as high as it is wide).

(2) Letter heights pertain to upper case or capital letters. When upper and lower case or all lower case letters are used, it is the lower case letter "o" or its equivalent that shall meet the minimum standards.

(3) When fractions are used, each component numeral shall meet one-half the minimum height standards.

(i) The declaration shall be in letters and numerals in a type size established in relationship to the area of the principal display panel of the package and shall be uniform for all packages of substantially the same size by complying with the following type specification:

(1) Not less than one-sixteenth inch in height on packages the principal display panel of which has an area of 5 square inches or less.

(2) Not less than one-eighth inch in height on packages the principal display panel of which has an area of more than 5 but not more than 25 square inches.

(3) Not less than three-sixteenth inch in height on packages the principal display panel of which has an area of more than 25 but not more than 100 square inches.

(4) Not less than one-fourth inch in height on packages the principal display panel of which has an area of more than 100 square inches, except not less than one-half inch in height if the area is more than 400 square inches.

Where the declaration is blown, embossed, or molded on a glass or plastic surface rather than by printing, typing, or coloring, the lettering sizes specified in subparagraphs (1) through (4) of this paragraph shall be increased by one-sixteenth of an inch.

(j) On packages containing less than 4 pounds or 1 gallon and labeled in terms of weight or fluid measure:

(1) The declaration shall be expressed both in ounces, with identification by weight or by liquid measure and, if applicable (1 pound or 1 pint or more) followed in parentheses by a declaration in pounds for weight units, with any remainder in terms of ounces or common or decimal fractions of the pound (see examples set forth in paragraphs (m) (1) and (2) of this section), or in the case of liquid measure, in the largest whole units (quarts, quarts and pints, or pints, as appropriate) with any remainder in terms of fluid ounces or common or decimal fractions of the pint or quart (see examples in paragraphs (m) (3) and (4) of this section). Net weight or fluid measure of less than one ounce shall be expressed in common or decimal fractions of the respective ounce and not in drams.

(2) The declaration may appear in more than one line. The term "net weight" shall be used when stating the net quantity of contents in terms of weight. Use of the terms "net" or "net contents" in terms of fluid measure or numerical count is optional. It is sufficient to distinguish avoirdupois ounce from fluid ounce through association of terms; for example, "Net wt. 6 oz." and "Net contents 6 fl. oz."

(k) On packages containing 4 pounds or 1 gallon or more and labeled in terms of weight or fluid measure, the declaration shall be expressed in pounds for weight units with any remainder in terms of ounces or common or decimal fractions of the pound; in the case of fluid measure, it shall be expressed in the largest whole unit (gallons, followed by common or decimal fractions of a gallon or by the next smaller whole unit or units (quarts or quarts and pints)) with any remainder in terms of fluid ounces or common or decimal fractions of the pint or quart (see example in paragraph (m) (5) of this section).

(l) [Reserved]

(m) Examples:

(1) A declaration of 1½ pounds weight shall be expressed as "Net Wt. 24 oz. (1 lb. 8 oz.)," "Net Wt. 24 oz. (1½ lb.)," or "Net Wt. 24 oz. (1.5 lb.)."

(2) A declaration of three-fourths pound avoirdupois weight shall be expressed as "Net Wt. 12 oz."

(3) A declaration of 1 quart liquid measure shall be expressed as "Net contents 32 fl. oz. (1 qt.)."

(4) A declaration of 1¾ quarts liquid measure shall be expressed as "Net contents 56 fl. oz. (1 qt. 1½ pt.)" or "Net contents 56 fl. oz. (1 qt, 1 pt. 8 oz.)" but not in terms of quart and ounce such as "Net contents 56 fl. oz. (1 qt. 24 oz.)."

(5) A declaration of 2½ gallons liquid measure shall be expressed in the alternative as "Net contents 2 gal. 2 qt." and not as "2 gal. 4 pt."

(n) For quantities, the following abbreviations and none other may be employed (periods and plural forms are optional):

weight wt.	gallon gal.
square sq.	quart qt.
fluid fl.	pint pt.
feet or foot ft.	ounce oz.
yard yd.	pound lb.

(o) On packages labeled in terms of linear measure, the declaration shall be expressed both in terms of inches and, if applicable (1 foot or more), the largest whole units (yards, yards and feet, feet). The declaration in terms of the largest whole units shall be in parentheses following the declaration in terms of inches and any remainder shall be in terms of inches or common or decimal fractions of the foot or yard. Examples are "86 inches (2 yd. 1 ft. 2 inches)," "90 inches (2½ yd.)," "30 inches (2.5 ft.)," etc.

(p) On packages labeled in terms of area measure, the declaration shall be expressed in terms of square inches and, if applicable (one square foot or more), the largest whole square unit (square yards, square yards and square feet, square feet). The declaration in terms of the largest whole units shall be in parentheses following the declaration in terms of square inches and any remainder shall be in terms of square inches or common or decimal fractions of the square foot or square yard; for example, "158 sq. inches (1 sq. ft. 14 sq. inches)," etc.

(q) Nothing in this section shall prohibit supplemental statements at locations other than the principal display panel(s) describing in nondeceptive terms the net quantity of contents: *Provided*, That such supplemental statements of net quantity of contents shall not include any term qualifying a unit of weight, measure, or count that tends to exaggerate the amount of the cosmetic contained in the package; for example, "giant pint" and "full quart." Dual or combination declarations of net quantity of contents as provided for in paragraphs (a), (c), and (j) of this section (for example, a combination of net weight plus numerical count) are not regarded as supplemental net quantity statements and shall be located on the principal display panel.

(r) A separate statement of the net quantity of contents in terms of the metric system is not regarded as a supplemental statement and an accurate statement of the net quantity of contents in terms of the metric system of weight or measure may also appear on the principal display panel or on other panels.

(s) The declaration of net quantity of contents shall express an accurate statement of the quantity of contents of the package. Reasonable variations caused by loss or gain of moisture during the course of good distribution practice or by unavoidable deviations in good manufacturing practice will be recognized. Variations from stated quantity of contents shall not be unreasonably large.

Any interested person may, within 30 days from the date of publication of this notice in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written comments, preferably in quintuplicate, on this proposal. Comments may be accompanied by a memorandum or brief in support thereof.

Dated: August 10, 1967.

JAMES L. GODDARD,
Commissioner of Food and Drugs.

[F.R. Doc. 67-9833; Filed, Aug. 21, 1967; 8:47 a.m.]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 8344]

AIRWORTHINESS DIRECTIVES

British Aircraft Corporation Model BAC 1-11 203/AE, 204/AF, and 212/AR Airplanes

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to BAC 1-11 203/AE, 204/AF, and 212/AR airplanes. There have been reports of fuel leakage from the fuselage fuel feed pipe shroud following the assembly of the coupling at Station 630 which is within the pressurized area. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require the relocation of the coupling by moving the joint forward into the undercarriage bay.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20590. All communications received on or before September 21, 1967, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

BRITISH AIRCRAFT. Applies to Model BAC 1-11 203/AE, 204/AF and 212/AR airplanes.

Compliance required within the next 3,000 hours' time in service after the effective date of this AD, unless already accomplished. To avoid the possibility of a fuel leak within the pressurized area, relocate the left and right fuel line couplings from Station 630 to a point 3 inches forward, in accordance with British Aircraft Corporation BAC 1-11 Service Bulletin No. 28-PM 2914, dated May 12, 1967, or later ARB-approved issue, or an equivalent approved by the Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Region.

Issued in Washington, D.C., on August 14, 1967.

JAMES F. RUDOLPH,
Director, Flight Standards Service.

[F.R. Doc. 67-9826; Filed, Aug. 21, 1967; 8:46 a.m.]

[14 CFR Part 39]

[Docket No. 8345]

AIRWORTHINESS DIRECTIVES

Avions Marcel Dassault Fan Jet Falcon Airplanes, Serial Nos. 1 Through 24

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Avions Marcel Dassault Fan Jet Falcon

airplanes, Serial Nos. 1 through 24. There have been instances of the ignition of the gases emitted by the batteries installed in these airplanes due to the accumulation of the gases in the battery cases, which have resulted in the distortion of the battery cases and covers. Since this condition is likely to exist or develop in other airplanes of the same type, the proposed airworthiness directive would require the incorporation of Avions Marcel Dassault Modification No. M.602 in order to provide inflight battery case ventilation.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20590. All communications received on or before September 21, 1967, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

AVIONS MARCEL DASSAULT. Applies to Fan Jet Falcon airplanes, Serial Nos. 1 through 24.

Compliance required within the next 200 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent the accumulation of an explosive mixture of gases in the battery case, provide inflight battery case ventilation by incorporating Avions Marcel Dassault Modification No. M.602, as described by Avions Marcel Dassault Service Bulletin No. 108 (24-4), dated March 17, 1967, or later SGAC-approved revision, or an equivalent approval by the Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Region.

Issued in Washington, D.C., on August 14, 1967.

EDWARD C. HODGSON,
Acting Director,
Flight Standards Service.

[F.R. Doc. 67-9237; Filed, Aug. 21, 1967; 8:46 a.m.]

[14 CFR Part 39]

[Docket No. 8946]

AIRWORTHINESS DIRECTIVES

British Aircraft Corporation Model BAC 1-11 200 and 400 Series Airplanes

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to BAC 1-11 200 and 400 Series airplanes. An investigation of the effect of the geometry change brought about by the incorporation of BAC Modification PM 1558 part (c) disclosed that the lower sidestay pin retaining bolt, P/N AC43-267, which was introduced by this modification is of too small a diameter and is subject to fatigue damage. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require the periodic inspection of retaining bolt P/N AC43-267 and its replacement at intervals not to exceed 15,000 landings, until it is replaced with a new type bolt, P/N AC43-399, which does not have a service life limitation.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20590. All communications received on or before September 21, 1967, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

BRITISH AIRCRAFT. Applies to model BAC 1-11 200 and 400 Series Airplanes which incorporate Modification PM 1558 part (c). Compliance required as indicated unless already accomplished.

To prevent fatigue damage of the lower sidestay pin retaining bolt, P/N AC43-267, accomplish the following:

(a) Within the next 200 landings after the effective date of this AD or before the accumulation of 5,000 landings, whichever occurs later, and thereafter at intervals not to exceed 5,000 landings from the last inspection, inspect the main landing gear lower sidestay retaining bolts, P/N AC43-267, for cracks, using the magnetic particle procedure or an FAA-approved equivalent, in accordance with British Aircraft Corp. BAC 1-11 Alert Service Bulletin 32-A-PM 2000, Issue 1, dated April 14, 1967, or later ARB-approved issue, or an FAA-approved equivalent.

(b) If defective retaining bolts, P/N AC43-267, are found during the inspection required by paragraph (a), before further flight replace the bolts with serviceable bolts of the same part number or new bolts, P/N AC43-399, in accordance with BAC 1-11 Service Bulletin No. 32-PM 2000, Revision 1, dated April 10, 1967, or later ARB-approved issue, or an FAA-approved equivalent.

(c) Before the accumulation of 15,000 landings, replace retaining bolts, P/N AC43-267, with serviceable bolts of the same part number or new bolts, P/N AC43-399. If bolts P/N AC43-267 are used as replacement bolts, inspect the bolts at intervals not to exceed 5,000 landings in accordance with paragraph (a) and replace the bolts at intervals not to exceed 15,000 landings.

(d) The repetitive inspections and replacements required by paragraphs (a) and (c) may be discontinued after the new bolts, P/N AC43-399, are installed. Retaining bolt P/N AC43-399 does not have a service life limitation.

(e) For the purpose of complying with this AD, subject to acceptance by the assigned FAA maintenance inspector, the number of landings may be determined by dividing each airplane's hours' time in service by the operator's fleet average time from takeoff to landing for the airplane type.

Issued in Washington, D.C., on August 14, 1967.

EDWARD C. HODGSON,
Acting Director,
Flight Standards Service.

Notices

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Fairbanks 532]

ALASKA

Notice of Proposed Withdrawal and Reservation of Lands

AUGUST 15, 1967.

The U.S. Department of Commerce, Environmental Science Services Administration, Washington Science Center, has filed an application, Serial Number Fairbanks 532, for withdrawal of the lands described below presently reserved under PLO's No. 882 and No. 1760, known as the "Fairbanks Weather Station Annex." These lands have been and will be withdrawn from all forms of appropriation under the public land laws, including the mining laws, mineral leasing laws, grazing laws and disposal of materials under the Materials Act of 1947 as amended. The applicant desires the land for use by the Coast and Geodetic Survey to improve and accelerate the geophysical observation program in Alaska.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the manager, Fairbanks District and Land Office, Bureau of Land Management, Department of the Interior, Post Office Box 1150, Fairbanks, Alaska 99701.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources.

He will also consider adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

He will also prepare a report for consideration of the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested. The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

FAIRBANKS MERIDIAN

T. 1 N., R. 1 W.,
Sec. 15, SW¼NW¼SW¼;
Sec. 16, all;
Sec. 17, SE¼.
T. 1 S., R. 1 E.,
Sec. 16, lots 1, 2, 3, 7, 8 and SE¼NE¼.
T. 1 N., R. 1 E.,
Sec. 33, all.

The above area totals 1862.54 acres.

CURTIS V. MCVEE,
Acting State Director.

National Park Service

[Order No. 29, Amdt. 1]

CHIEF, DIVISION OF LANDS AND WATER RIGHTS

Delegation of Authority

Delegation. Order No. 29 approved September 13, 1963, and published in 28 F.R. 10306, September 20, 1963, set forth in sections (1), (2), and (3) certain authority delegated to the Chief, Division of Lands. This amendment is for the purpose of correcting the title of the official to whom authority is delegated from Chief, Division of Lands to Chief, Division of Land and Water Rights and for the purpose of adding section (4) as shown below:

(4) Execution, approval, and administration of contracts not in excess of $200,000 for appraisals, surveys and other services related to and required in the performance of his official functions, in conformity with statutory authority and applicable regulations and subject to the availability of funds.

(245 DM 1, 27 F.R. 6395; 5 U.S.C., sec. 22; sec. 2 of Reorganization Plan No. 3 of 1950)

Dated: August 4, 1967.

GEORGE B. HARTZOG, Jr.,
Director.

[F.R. Doc. 67-9815; Filed, Aug. 21, 1967; 8:45 a.m.]

[Order 41]

SUPERVISORY ARCHEOLOGIST

Delegation of Authority Regarding Execution of Contracts for Supplies, Equipment or Services

Delegation. The Supervisory Archeologist of the Southeast Archeological Center located at Macon, Ga., may execute and approve contracts and purchase orders not in excess of $200,000 for supplies, equipment or services in conformity with applicable regulations and statutory authority and subject to the availability of appropriations.

(245 DM 1, 27 F.R. 6395; 5 U.S.C. sec. 22; sec. 2 of the Reorganization Plan No. 3 of 1950)

Dated: August 1, 1967.

CHARLES B. HARTSOG, Jr.,
Director.

[F.R. Doc. 67-9816; Filed, Aug. 21, 1967; 8:45 a.m.]

[Order No. 42]

CHIEFS, OFFICES OF DESIGN AND CONSTRUCTION

Delegation of Authority Regarding Execution, Approval, and Administration of Contracts

1. The Chiefs, Offices of Design and Construction, are authorized to execute, approve and administer contracts not in excess of $200,000 for architectural, landscape architectural, and engineering services and for construction in conformity with applicable policies, regulations, and statutory authorities and subject to availability of appropriated funds.

2. Redelegation: The Chiefs, Office of Design and Construction, may redelegate all or part of their contracting authority to the staff officials of the Office of Design and Construction who have direct responsibility for the construction contract program within the area served by the Office.

3. Revocation: This order revokes Orders 23 (27 F.R. 1581, Feb. 20, 1962), 25 (27 F.R. 1581, Feb. 20, 1962), and 33 (31 F.R. 769, Jan. 20, 1966).

(205 DM 11.1; 26 F.R. 11746)

Dated: August 4, 1967.

GEORGE B. HARTZOG, Jr.,
Director.

Food and Drug Administration

CHEVRON CHEMICAL CO.

Notice of Withdrawal of Petition Regarding Pesticides

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a (d)(1)), the following notice is issued:

In accordance with § 120.8 *Withdrawal of petitions without prejudice* of the pesticide regulations (21 CFR 120.8), Chevron Chemical Co., Ortho Division, 940 Hensley Street, Richmond, Calif. 94804, has withdrawn its petition (PP 6F0492), notice of which was published

in the FEDERAL REGISTER of June 15, 1966 (31 F.R. 8380), proposing the establishment of tolerances for residues of the fungicide *cis-N*[(1,1,2,2-tetrachloroethyl) thio]-4-cyclohexene-1,2-dicarboximide in or on the raw agricultural commodities named:

50 parts per million in or on cherries (sour).
30 parts per million in or on apricots, nectarines, and peaches.
10 parts per million in or on tomatoes.
5 parts per million in or on cucumbers, melons, cherries (sweet), plums, and prunes.
0.1 part per million in or on cottonseed.

Dated: August 15, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

SOCIAL AND REHABILITATION SERVICE

Statement of Organization and Delegations of Authority

Effective August 15, 1967, Part 5 (22 F.R. 1045), Part 9 (32 F.R. 10013), and Part 12 (32 F.R. 10473) of the Statement of Organization and Delegations of Authority of the Department, as amended, are hereby superseded, and Part 7 is hereby added to read as follows:

SEC. 7.00 *Mission.* The Social and Rehabilitation Service administers the Federal Government programs of providing technical and financial support to States, local communities, other organizations and individuals in the provision of social, rehabilitation, income maintenance and other necessary services to the aged and aging, children and youth, the disabled, and families in need.

SEC. 7.10 *Organization.* (a) The Social and Rehabilitation Service, under the supervision and direction of the Administrator, Social and Rehabilitation Service, consists of:

OFFICE OF THE ADMINISTRATOR

Immediate Office of the Administrator.
Deputy Administrator (Operations).
Deputy Administrator (Plans and Research).
Assistant Administrator (States Relations).
Office of Program Planning.
Office of Research and Demonstrations.
Office of Administration.
Rehabilitation Services Administration.
Children's Bureau.
Administration on Aging.
Medical Services Administration.
Assistance Payments Administration.

(b) Order of succession: During the absence or disability of the Administrator, Social and Rehabilitation Service, or in the event of a vacancy in that office, the first official listed below who is available shall act as Administrator, except during a period of planned absence for which a different order has been designated under (2) below:

(1) (a) Deputy Administrator (Operations).

(b) Deputy Administrator (Plans and Research).

(c) Assistant Administrator (States Relations).

(2) For a planned period of absence, the Administrator may specify a different order of succession.

SEC. 7.20 *Functions.* (a) Except as provided in section 2-30 and section 7-30 of this Statement, the Administrator shall exercise:

(1) The functions vested in the Secretary by Titles I, IV, V, X, XIV, and XVI of the Social Security Act, as amended (42 U.S.C. 301-306, 601-609, 701-731, 1201-1206, 1351-1355, 1381-1385), by Title XIX of the Act, as amended (42 U.S.C. 1396-1396d), subject to 1-965.30 of this Statement, by Title XVIII of the Act, as amended (42 U.S.C. 1395-1395ll), to the extent of the responsibilities assigned by section 1-965.20(c) of this Statement, and by Titles VII and XI of the Act, as amended (42 U.S.C. 902-907, 1301-1318), insofar as the provisions of such titles pertain to the mission of the Social and Rehabilitation Service as described in section 7.00 of this statement.

(2) The functions vested in the Secretary relating to the mission of the Social and Rehabilitation Service, as described in section 7.00 of this statement, under the Social Security Act which are not contained in the Act but which are contained in the following cited Acts:

(a) Section 618 of the Revenue Act of 1951, 65 Stat. 569, as amended by Public Law 86-778, section 603, 74 Stat. 992, and Public Law 87-543, sec. 141(e), 76 Stat. 205 (relating to public access to records of public assistance disbursements).

(b) Section 9 of the Act of April 19, 1950, Public Law 474, 81st Congress (relating to Navajo and Hopi Indians).

(c) Public Welfare Amendments of 1962, Public Law 87-543, 76 Stat. 172, sections 104(b), 105(c), and 141 (b) and (f).

(d) The Labor-Federal Security Appropriation Act, 1953, Public Law 452, 82d Congress, 2d Session, 66 Stat. 368, providing restriction on availability of allotments under Title V of the Social Security Act.

(e) Social Security Amendments of 1965, Public Law 89-97, 79 Stat. 286, sections 121(b), 406 and 407.

(f) Public Law 90-36, section 2 (extending certain authority in the public assistance programs until July 1, 1968).

(3) The functions vested in the Secretary by the Juvenile Delinquency and Youth Offenses Control Act of 1961 (Public Law 87-274, as amended, 42 U.S.C. 2541-2548).

(4) The functions vested in the Secretary by Public Law 86-571 (24 U.S.C. 321-329) (pertaining to hospitalization of mentally ill nationals returned from foreign countries) with the exception of the issuance of regulations under section 1(d)(2) (24 U.S.C. 321(d)(2)). (In exercising this authority, the Administrator shall work with the Surgeon General, Public Health Service, in arranging for appropriate use of its resources to provide the most effective and economical administration of this law.)

(5) The functions vested in the Secretary by letter dated September 1, 1960, to the Secretary of the Treasury from the Director, Bureau of the Budget, authorizing the carrying out of programs under section 104(k) (now sec. 104(b)

)) of the Agricultural Trade Development and Assistance Act of 1954, as amended (7 U.S.C. 1704(b)(3)), insofar as this authority pertains to the mission of the Social and Rehabilitation Service as described in section 7.00 of this statement: *Provided,* That this authority shall be exercised in accordance with applicable policies and procedures established by appropriate authorities to ensure consistency with basic foreign policy and with related Federal programs.

(6) The functions vested in the Secretary by section 4 of the International Health Research Act of 1960, Public Law 86-610, 74 Stat. 364, 22 U.S.C. 2102, with respect to responsibilities relating to the mission of the Social and Rehabilitation Service as described in section 7.00 of this statement: *Provided, however,* That such authority, with respect to the exercise of responsibilities under the entitled "An Act to Establish in the Department of Commerce and Labor a Bureau to be known as the Children's Bureau" (42 U.S.C. Chapter 6), shall be administered under the Administrator's supervision and direction through the Children's Bureau; provided further that this authority shall be exercised in accordance with applicable policies and procedures established by appropriate authorities to ensure consistency with basic foreign policy and with related Federal programs.

(7) The functions under Executive Order 11001, sections 3(g), (4), and those portions of sections 6, 7, 9, 10, 11, and 12 pertaining to emergency welfare and the development of preparedness programs covering rehabilitation of disabled survivors. In the performance of these emergency functions the Administrator shall coordinate the health activities of the Children's Bureau and the Rehabilitation Services Administration with the Surgeon General, Public Health Service, in order that preemergency plans shall be developed in consonance with postattack organizational plans and structure of the Department for the Emergency Health Services.

(8) The functions under the Migration and Refugee Assistance Act of 1962, Public Law 87-510, 76 Stat. 121, 22 U.S.C. 2601 delegated to the Secretary by Executive Order 11077 of January 22, 1963, effective as of July 1, 1962.

(9) The functions under the Economic Opportunity Act of 1964, Public Law 88-452, 78 Stat. 508 as amended, 42 U.S.C. 2701-2967, delegated to the Secretary pursuant to the Delegation of Authorities from the Director, Office of Economic Opportunity, dated October 24, 1964 (29 F.R. 14764, Oct. 29, 1964), pertaining to (a) the authority delegated to the Secretary under Title V, Work Experience Programs; and (b) the authority delegated to the Secretary contained in section 602 of such Act, to the extent the Administrator may deem such authority to be necessary or appropriate for carrying out such functions in exercise of the authority indicated in (a) above; provided (1) that such authority shall be exercised pursuant to policies, standards, criteria, and procedures jointly prescribed by the Director, Office of Economic Opportunity, and the Administrator; (2) that in exercising such authorities, preference shall, to the extent feasible, be given to programs and projects which are components of a community action program pursuant to Title II, Part A, of such Act; and (3) that such authorities shall be exercised subject to the reporting and coordination provisions of section 611 of such Act.

(10) Functions vested in the Secretary by the Vocational Rehabilitation Act, as amended (29 U.S.C. ch. 4).

(11) Functions of the Secretary as Chairman of the National Advisory Council on Vocational Rehabilitation and the National Advisory Council on Correctional Manpower and Training.

(12) Functions of the Secretary under the proviso of Public Law 88-605 under the heading, Vocational Rehabilitation Administration-Research and Training, relating to the recognition of contributed funds from private sources which are earmarked for the establishment of a particular rehabilitation facility or workshop under a State plan for vocational rehabilitation services.

(13) Functions under section 9 of the Federal Employees' Compensation Act, as amended (5 U.S.C. 759), retained in the Federal Security Administrator by Reorganization Plan No. 10 of 1950, and transferred to the Secretary by Reorganization Plan No. 1 of 1953.

(14) Functions transferred by Reorganization Plan No. 2 of 1946 and Reorganization Plan No. 1 of 1963, to the Secretary from the Office of Education and Commissioner of Education under the Act of June 20, 1936, 49 Stat. 1559 (Randolph-Sheppard Act, 20 U.S.C. ch. 6A).

(15) Functions vested in the Secretary by amendments to the statutes cited in Items 10-14, above, enacted subsequent to Reorganization Plan No. 1 of 1963.

(16) Authority vested in the Secretary under sections 637 and 654(a) of the Public Health Service Act, as amended, to approve applications and requests relating to rehabilitation facilities.

(17) The functions vested in the Secretary and the Administration on Aging by the Older Americans Act of 1965, as amended (42 U.S.C. 3001-3053).

(18) The functions under Title XVII of the Social Security Act, as amended (42 U.S.C. 1391 et seq.), relating to grants to States for planning comprehensive action to combat mental retardation.

(19) The functions under Parts B and C of Title I and the functions relating to grants for the construction of facilities for the mentally retarded of Title IV of the Mental Retardation Facilities and Community Mental Health Centers Construction Act of 1963, as amended (42 U.S.C. 2661 et seq.).

(20) Such of the authority under the Public Health Service Act, as amended, as is necessary to carry out the functions exercised, as of August 1, 1967, by the Division of Mental Retardation, Bureau of Health Services, Public Health Service, more particularly for the following purposes under the following sections of that Act:

(a) Section 301 (d) and (h), 42 U.S.C. 241 (d) and (h), to make grants for research or research training projects in the field of mental retardation recommended by the appropriate National Advisory Health Council; and

(b) Section 303(a), 42 U.S.C. 242(a), to make hospital improvement project grants, including institutional improvement project grants and inservice training project grants to hospitals or other institutions for the mentally retarded (such grants to be made only upon the recommendation of the National Advisory Mental Health Council and to be paid in advance or by way of reimbursement as may be determined by, and on such conditions as found necessary by, the Administrator of Social and Rehabilitation Service).

(b) The functions performed by the Children's Bureau under the Act of April 9, 1912, as amended, shall continue to be performed by the Chief of the Children's Bureau under the supervision and direction of the Administrator, Social and Rehabilitation Service.

(c) Continuation of other delegations: All other delegations heretofore made to the Commissioner of Welfare and the Commissioner of Vocational Rehabilitation shall be deemed to have been made to the Administrator, Social and Rehabilitation Service and all delegations to the Commissioner on Aging and the Chief of the Children's Bureau to have been made to the Administrator, Social and Rehabilitation Service and redelegated to the Commissioner on Aging and the Chief of the Children's Bureau, and all redelegations to any officer or employee of any of these former organizations shall be deemed to be continued in effect in them or their successors or in the officer or employee most closely identified with the former function.

(d) Advisory functions. All functions of committees (including councils, boards, and other advisory bodies) established as of August 15, 1967, serving in an advisory capacity to the Welfare Administration, the Vocational Rehabilitation Administration, and the Administration on Aging, are continued and revested in such committees.

SEC. 7.30 *Limitations on authority.* (a) The authority to appoint members to the Advisory Council on Public Welfare, the National Advisory Council on Vocational Rehabilitation, the National Policy and Performance Council, the National Commission on Architectural Barriers to Rehabilitation of the Handicapped, the National Advisory Council on Correctional Manpower and Training, and the Advisory Committee on Older Americans shall be exercised only by the Secretary.

(b) No State plan or amendment thereto submitted pursuant to any statute administered by the Social and Rehabilitation Service shall be finally disapproved without prior consultation and discussion by the Administrator with the Secretary.

(c) An application for designation as a State licensing agency under the Act of June 30, 1936, as amended (Randolph-Sheppard Act, 20 U.S.C. ch. 6A), shall

not be disapproved, nor shall a designation made pursuant to that Act be revoked without prior consultation and discussion by the Administrator with the Secretary.

SEC. 7.40 *Delegations of authority.* Authority contained in section 7.20 of this Statement may be redelegated by the Administrator to such officers and employees of the Social and Rehabilitation Service as he may deem appropriate.

SEC. 7.50 *Continuation of regulations.* All regulations, rules, orders or statements of policy or interpretation heretofore issued with respect to the Welfare Administration, the Vocational Rehabilitation Administration, and the Administration on Aging, are continued in full force and effect.

Approved: August 15, 1967.

[SEAL] JOHN W. GARDNER,
Secretary.

ATOMIC ENERGY COMMISSION

[Docket No. 50-292]

GENERAL ELECTRIC TECHNICAL SERVICES CO., INC.

Notice of Issuance of Facility Export License

Please take notice that no request for a formal hearing having been filed following publication of notice of proposed action in the FEDERAL REGISTER on June 28, 1967 (32 F.R. 9178), the Atomic Energy Commission has issued License No. XR-66 to General Electric Technical Services Co., Inc., a wholly owned subsidiary of the General Electric Co., authorizing the export of a 439,300-kilowatt electrical, boiling water reactor to the Tokyo Electric Power Co., Inc., Tokyo, Japan. The export of this reactor to Japan is within the scope of and consistent with the terms of the present Agreement for Cooperation between the Governments of the United States and Japan.

Dated at Bethesda, Md., this 11th day of August 1967.

For the Atomic Energy Commission.

EBER R. PRICE,
Director, Division of State and Licensee Relations.

CIVIL AERONAUTICS BOARD

[Docket No. 18919; Order E-25536]

AMERICAN AIRLINES, INC., ET AL.

Order of Investigation and Suspension Regarding Proposed Increased Rates on Baby Poultry

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 16th day of August 1967.

By tariff revisions bearing various posting dates in July 1967, and marked to become effective September 1, 1967, American Airlines, Inc. (American), Trans World Airlines, Inc. (TWA), and United Air Lines, Inc. (United), propose to increase their rates on baby poultry. The Flying Tiger Line, Inc. (Tiger), by tariff filed August 8, 1967, to become effective September 7, 1967, proposes the same increase. The proposals, applicable to the entire systems of the various carriers, will raise the rates from the current levels of 175 percent of the applicable general commodity rates to 250 percent.

The justification presented by the carriers is essentially that (1) because of stacking losses, the current rates for baby poultry yield lower revenues per pallet or other type of container placed in the belly compartment of the aircraft than any other commodity; (2) even at the proposed increase in rates the revenue per pallet will rise only to the level of the lowest yield commodities; and (3) because of the perishability and certain other characteristics of the commodity, handling costs are high.

The carriers also refer to meetings they held with shippers of baby poultry subsequent to the Board's suspension of rate increases on baby poultry (identical to the current proposals), Order E-24210, September 22, 1966. These meetings were held, at the carriers' suggestion, to solve the physical problems relating to the transportation of baby poultry. According to the carriers' statement, the shippers asserted at the first meeting that they were committed to orders and prices for baby poultry through August 1967. Thereupon, the carriers withdrew their filings and the Board, at their request, dismissed the investigation. A further carrier-shipper meeting was reportedly held at which an agreement was reached as to the proper method of handling baby poultry on the ground. It is asserted that certain revisions in procedures were established, especially a reduction in the transit time and an increase in the number of boxes to be loaded on pallets.

American asserts that, based upon a traffic survey for February and May 1967, it is carrying 312,000 pounds of baby poultry annually yielding revenues of $52,000. The proposed increase, it adds, will result in annual revenues of $75,000, on the basis of the same traffic volume.

Complaints requesting investigation and suspension of the proposed rates of American, TWA, and United were received from the American Poultry and Hatchery Federation, The National Turkey Federation, and the Secretary of Agriculture.[1] Certain of these complaints requesting suspension of the filing of TWA and United were untimely,[2] and can be considered as requests for investigation only.

The complaints assert that the proposals involve sharp increases in rates but have not been fully justified. The complainants contend that data on costs, earnings, rate of return, need of the carriers for increased revenue, and other related data are essential to support the increases proposed but that such data have not been advanced. The complaints also assert that the proposed increases would substantially burden producers and shippers.

Upon consideration of the complaints and other relevant matters, the Board finds that the carriers' proposals may be unjust, unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial, or otherwise unlawful, and should be investigated. The Board, by Order E-24210, supra, suspended and set for investigation the identical proposal filed by American, TWA, United, and Continental. The carriers' justification was essentially the same as that submitted in support of their current proposals. However, certain of the carriers also claimed high claim losses as a reason for the previous filing. The Board based the foregoing action chiefly on the ground that the carriers' justification was not adequate to support the increase proposed, which amounted to 43 percent above previous levels. The Board stated that the carriers' cost justification was deficient or altogether lacking.

In support of their current proposals, the carriers again present no cost figures, merely stating that large stacking losses and the perishable nature of baby poultry justify higher rates. They present a number of comparisons indicating that revenue per pallet from baby poultry at current rates are below revenues per pallet from rates for general commodities, for certain broad specific commodity groups, and for certain low-rated commodities. It is also shown that, even at the proposed rates, the revenues per pallet would generally be below those produced by other commodities. However, the amount of revenues produced by the carriage of other commodities is not a valid standard of reasonableness. The current cargo rate structure contains a wide range of rates for various commodities which are both above and below the general commodity rate. Mere reference to another rate or the revenues produced by it does not demonstrate the reasonableness of the proposed rate. Neither does such a comparison provide a justification for a 43 percent increase in rates, which are already 75 percent above the general commodity rates, which have existed for 6 years, and on which numerous shippers have relied in the conduct of their businesses.

The carriers also refer to certain discussions held with shippers to agree upon improved methods of handling baby poultry. The Board is aware that such meetings were held at the carriers' suggestion and that the carriers withdrew the rates proposed about a year ago, leading to the dismissal of the investigation instituted in Order E-24210, supra. However, neither the shippers nor the carriers have submitted any statements to the Board as to any agreements reached. While the carriers assert that they have agreed to improve their procedures of transporting baby poultry, it appears from the shippers' complaints that the objections of the latter to rate increases still exist.

In view of the insufficient justification for, and the extent of, the proposed increase in rates, the Board has decided to suspend the proposals pending investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof:

It is ordered, That:

1. An investigation be instituted to determine whether the ratings described in Appendix A below, and rules, regulations, and practices affecting such ratings, are or will be unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful ratings, and rules, regulations, or practices affecting such ratings;

2. Pending hearing and decision by the Board, the ratings described in Appendix A below are suspended and their use deferred to and including November 29, 1967, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The complaints by the American Poultry and Hatchery Federation in Docket 18888, the National Turkey Federation in Docket 18889, and the Secretary of Agriculture in Docket 18890 are dismissed, except to the extent granted herein;

4. The proceeding herein be assigned for hearing before an examiner of the Board at a time and place hereafter to be designated; and

5. Copies of this order shall be filed with the tariffs, and served upon American Airlines, Inc., the Flying Tiger Line, Inc., Trans World Airlines, Inc., United Air Lines, Inc., American Poultry and Hatchery Federation, National Turkey Federation, and the Secretary of Agriculture, which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

REOPENED PACIFIC NORTHWEST-SOUTHWEST SERVICE INVESTIGATION

Notice of Hearing

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that public hearings in the Reopened Pacific Northwest-Southwest Service Investigation will be held on September 20, 1967, at 10 a.m., local time, in Room 105, State Office Building Auditorium, State Capitol, Salt Lake City, Utah, before Examiner Ross I. Newmann, for the purpose of enabling the civic parties to present their factual evidence. Unless special permission is obtained from the Examiner, each civic party shall present its case in Salt Lake City.

Notice is further given that any person, other than a party of record, may appear at this session and present factual evidence which is relevant to the issues in accordance with Rule 14 of the Board's rules of practice. All such participants should promptly notify the Examiner of their desire to be heard.

At the conclusion of the Salt Lake City session, the hearing will be moved to Room 726, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., where the airline and government parties will present their cases, beginning at 10 a.m., e.d.t., on October 3, 1967.

For details of the issues involved in this proceeding, interested persons are referred to the Board's opinion and order, dated April 11, 1967, Order E-24970; Order E-25266, dated June 7, 1967; Order E-25342, dated June 23, 1967; and Order E-25461, dated July 27, 1967; the prehearing conference report, served on June 9, 1967; the supplemental prehearing conference report, served on June 23, 1967; and other documents which are in the docket of this proceeding on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., August 16, 1967.

[SEAL] ROSS I. NEWMANN,
Hearing Examiner.

SECURITIES AND EXCHANGE COMMISSION

INTERAMERICAN INDUSTRIES, LTD.

Order Suspending Trading

AUGUST 16, 1967.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the capital stock of Interamerican Industries, Ltd., Calgary, Alberta, Canada, being traded in the United States otherwise than on a national securities exchange is required

[1] The complaints against Tiger's filing are due not later than Aug. 18, 1967.

[2] Under the Board's Procedural Regulations 14 CFR 302.505, a complaint requesting suspension of any tariff ordinarily will not be considered unless filed within 12 days after posting date if such a date is indicated. Our rule also states that, in an emergency satisfactorily shown by complainant, and within the time limits provided, a telegraphic complaint may be submitted stating the grounds relied on but this complaint must immediately be confirmed by a complaint properly filed.

All of the complaints were late for TWA's filing, which was posted on July 18, 1967. The complaints were due July 31, 1967, but were filed on Aug. 8, 1967. Two of the complaints, first submitted in telegraphic form, were untimely (those of the American Poultry and Hatchery Federation and the National Turkey Federation) for United's filing inasmuch as they did not satisfactorily show the existence of an emergency.

in the public interest and for the protection of investors:

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in the United States in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period August 17, 1967, through August 26, 1967, both dates inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F.R. Doc. 67-9019; Filed, Aug. 21, 1967; 8:45 a.m.]

[81-79]

NATIONAL DOLLAR STORES, LTD.

Notice of and Order for Hearing on Application for Exemption

AUGUST 16, 1967.

Notice is hereby given that the National Dollar Stores, Ltd. (applicant), San Francisco, Calif., has filed an application with the Securities and Exchange Commission (Commission) pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended (Exchange Act), for a finding that by reason of the small number of public investors in applicant and the limited amount of trading interest in the securities of applicant, as well as other facts pertaining to the close association between the investors and applicant and the availability of information from the applicant's annual reports, an exemption from the registration provisions of section 12(g) of the Exchange Act would not be inconsistent with the public interest or the protection of investors. Exemption from section 12(g) will have the additional effect of exempting applicant from sections 13 and 14 of the Exchange Act and any officer, director or beneficial owner of more than 10 percent of applicant's equity securities from section 16 of the Exchange Act.

Section 12(g) of the Exchange Act requires the registration of the equity securities of every issuer engaged in interstate commerce, or in a business affecting interstate commerce, or whose securities are traded by use of the mails or any means or instrumentality of interstate commerce, with certain exceptions, set forth therein, within 120 days of the last day of its first fiscal year on which each issuer has total assets exceeding $1 million, and a class of equity security held of record by 500 or more persons.

Section 12(h) of the Exchange Act empowers the Commission upon application of an interested person, by order after notice and opportunity for hearing, to exempt in whole or in part any issuer from the registration provisions of section 12(g) of the Exchange Act or from the periodic reporting and proxy soliciting provisions of sections 13 and 14 of the Exchange Act and from the reporting and trading provisions of section 16 of the Exchange Act, if the Commission finds, by reason of the number of investors, amount of trading interest in the securities, the nature and extent of the activities of the issuer, income or assets of the issuer, or otherwise that such exemption is not inconsistent with the public interest or the protection of investors.

The applicant's application states in part:

1. That applicant (formerly the National Dollar Stores, formerly China Toggery, Joe Shoong Co., Inc.), a California company with its principal place of business at 929 Market Street in San Francisco, was incorporated in 1921, and its principal business is the operation of department stores, which sell clothes and other dry goods.

2. That in 1966 applicant operated 39 stores in California; two stores in Arizona; two stores in Texas; three stores in Hawaii; and one store in Nevada. Applicant also holds various securities and real property for investment.

3. That applicant is a 100-percent owner of N.D.S. Development Corp., which is applicant's sole subsidiary.

4. That the authorized capital of applicant consists of 30,000 common shares, par value $100, of which there are 10,000 shares outstanding.

5. That applicant's only public offering occurred in 1928, at which time a limited number of shares of its common stock were sold to members of the Chinese community located principally in the San Francisco area.

6. That after 1929, the custom developed that when a shareholder of applicant's stock wished to sell all or part of his holding, he would make his wish known to the applicant or to Joe Shoong, founder and principal executive officer of the applicant. Joe Shoong would find purchasers for the shares, usually from among the employees of the applicant who usually were members of the Chinese community in San Francisco. Since the employees generally purchased only one share of stock, a substantial number of the employees of applicant held a single share of the applicant.

7. That as of January 31, 1967, the applicant had a total of 599 shareholders of record of which 456 shareholders were residents of the United States. It is the applicant's contention that the existence of fewer than 500 shareholders of record who are U.S. residents excludes the applicant from the requirements of section 12(g) of the Exchange Act in accordance with the intent of Congress.

8. That there is a lack of public interest in the securities of the applicant. In 1961, there were twenty (20) transfers involving the applicant's stock, and of the 20, five involved one share of stock, six involved two shares of stock, two involved four shares of stock, and two involved five shares of stock. There were only five transactions in the applicant's stock in 1961 involving more than five shares of stock. In 1966 there were only twenty-one (21) transfers, involving a total of 63 shares.

9. That relatively few of the investors in the applicant's stock have not been directly associated with the applicant or personally familiar with its operations.

10. That relatively few of the transactions of the applicant's stock have involved brokers. Consequently, one of the reasons for requiring registration, that is, dissemination of corporate information to the brokers and dealers, is lacking.

11. That Shoong Investment Co., an owner of 47.7 percent of the applicant's outstanding stock, is the only shareholder of record who owns more than 10 percent of the outstanding stock as of January 31, 1967.

12. That the applicant holds an annual shareholders' meeting in March of each year. Preceeding each meeting, notice is given to all shareholders of record. Also, an annual report, including financial statements, is submitted to all of the shareholders of record. The financial statements are certified by the applicant's independent public accountant who, in recent years, has been the firm of Arthur Andersen & Co.

For a more detailed statement of the information presented in the application all persons are hereby referred to the above captioned application which is on file in the offices of the Commission at 500 North Capitol Street, Washington, D.C.

It is ordered, Pursuant to section 12(h) of the Exchange Act, that a hearing on the aforesaid application be held at 10 a.m., P.d.s.t., September 19, 1967, at the regional office of the Commission, 450 Golden Gate Avenue, San Francisco, Calif. 94102. Any person desiring to be heard or otherwise wishing to participate in this proceeding is directed to file with the Secretary of the Commission, 500 North Capitol Street, Washington, D.C., his application as provided by Rule 9(c) of the Commission's rules of practice, on or before the date provided in said rule, setting forth any issues of fact or law which he desires to controvert or any additional issues which he deems raised by this notice and order or by such application.

It is further ordered, That these proceedings shall be presided over by a hearing officer to be designated by further order, who is authorized to perform all the duties of a hearing officer as set forth in the Commission's rules of practice or as otherwise authorized by law.

The Division of Corporation Finance has advised the Commission that it has made a preliminary examination of the application, and that upon the basis thereof the following matters and questions are presented for consideration without prejudice to its specifying additional matters and questions upon further examination:

1. Whether the fact that the applicant has less than 500 shareholders of record who are U.S. residents is a reason to justify the requested exemption;

2. Whether the amount of trading interest, actual or potential, in applicant's securities is sufficiently limited to justify the requested exemption;

3. Whether adequate information is and will be available to investors concerning the financial and business affairs of applicant, the management of applicant, the principal holders of securities of applicant, and the nature and description of applicant's securities; and

4. Generally, whether the requested exemption is consistent with the public interest and with the protection of investors.

It is further ordered, That at the aforesaid hearing attention be given to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing a copy of this notice and order by registered mail to the National Dollar Stores, Ltd., and its attorneys and that notice to all other persons be given by publication of this notice and order in the FEDERAL REGISTER, and that a general release of this Commission in respect of this notice and order be distributed to the press and mailed to those persons whose names appear on the mailing list for releases.

By the Commission.

PENROSE INDUSTRIES CORP.

Orders Suspending Trading

AUGUST 16, 1967.

The common stock $2 par value, of Penrose Industries Corp., being listed and registered on the American Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934 and the 5 percent cumulative convertible preferred stock, $20 par value of Penrose Industries Corp., being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such Exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to sections 15(c)(5) and 19(a)(4) of the Securities Exchange Act of 1934, that trading in such securities on the American Stock Exchange and otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period August 17, 1967, through August 26, 1967, both dates inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

POTOMAC EDISON CO.

Notice of Proposed Issue and Sale of Notes to Bank

AUGUST 16, 1967.

Notice is hereby given that the Potomac Edison Co. ("Potomac"), 55 East Washington Street, Hagerstown, Md. 21740, a Maryland corporation and an electric utility subsidiary company of Allegheny Power System, Inc. ("APS"), a registered holding company, has filed with this Commission a declaration pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 thereof and Rule 50(a)(2) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Potomac proposes to issue and sell from time to time prior to October 1, 1968, to Chemical Bank New York Trust Co., New York, N.Y., not for resale to the public, up to an aggregate of $7,500,000 principal amount of its promissory notes, each of which will be sold at its principal amount, will mature not later than 12 months from the date of its issue, will be prepayable at any time without penalty, and will bear interest at the New York commercial bank prime rate in effect on the date of its issue.

The net proceeds from the proposed notes will be used to provide funds for the construction program of Potomac and its subsidiaries, and to repay other short-term bank borrowings incurred therefor under the exemption afforded by the first sentence of section 6(b) of the Act. Construction costs for 1967 and 1968 are estimated at $63 million. The declaration represents that the net proceeds from any permanent debt financing effected prior to the maturity of any of the proposed notes will be applied, to the extent necessary, to the payment of all such notes then outstanding and thereafter no further notes will be issued pursuant to this declaration.

It is stated that no fees or expenses, other than ordinary expenses not to exceed $500.00, will be incurred in connection with the proposed transactions. It is further stated that no State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than September 12, 1967, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[Notice 435]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 17, 1967.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC 67 (49 CFR Part 340), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protest must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protest must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 10761 (Sub-No. 219 TA), filed August 14, 1967. Applicant: TRANS-AMERICAN FREIGHT LINES, INC., 1700 North Waterman Avenue, Detroit, Mich. 48209. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel and iron and steel articles and equipment, materials and supplies* used in the manufacture or processing of iron or steel articles, (1) serving Louisiana, Mo., Carlinville, Centralia, Irvington, and Sparta, Ill., as off-route points in connection with carrier's present authority to serve St. Louis, Mo., and (2) serving Clarksville, Ohio, as an off-route point in connection with carrier's present authority to serve Cincinnati, Ohio, for 180 days. NOTE: Carrier plans to tack this authority at St. Louis, Mo. and Cincinnati, Ohio, with its presently held authority. Supporting shipper: Valley

Steel Products Co., 166 South Ninth, St. Louis, Mo. 63102. Send protests to: District Supervisor Gerald J. Davis, Bureau of Operations, Interstate Commerce Commission, 1110 Broderick Tower, 10 Witherell, Detroit, Mich. 48226.

No. MC 107496 (Sub-No. 862 TA), filed August 14, 1967. Applicant: RUAN TRANSPORT CORPORATION, Third and Keosauqua Way at Third, Post Office Box 855, Des Moines, Iowa 50304. Applicant's representative: H. L. Fabritz (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Silica sand*, in bulk, in pneumatic tank vehicles, from Hanover, Wis., and points within 5 miles thereof, to Rockford, Belvidere, North Chicago, Galena, and East Dubuque, Ill., for 180 days. Supporting shipper: Lyle T. Manley Co., Inc., Hanover, Wis. Send protests to: Ellis L. Annett, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 227 Old Federal Office Building, Des Moines, Iowa 50309.

No. MC 110988 (Sub-No. 241 TA), filed August 14, 1967. Applicant: KAMPO TRANSIT, INC., 200 West Cecil Street, Neenah, Wis. 54956. Applicant's representative: David A. Petersen (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lignin liquor (spent sulphite liquor)*, from Oconto Falls, Wis., to points in Colorado, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, New York, North Dakota, Ohio, Pennsylvania, South Dakota; and to Wisconsin for subsequent rail movement beyond, for 180 days. Supporting shipper: Scott Paper Co., Philadelphia, Pa. 19113. Send protests to: District Supervisor, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, Wis. 53203.

No. MC 111401 (Sub-No. 233 TA), filed August 14, 1967. Applicant: GREEN-DYKE TRANSPORT, INC., 2510 Rock Island Boulevard, Post Office Box 632, Enid, Okla. 73701. Applicant's representative: Alvin Hamilton, Enid, Okla. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer, fertilizer ingredients, and fertilizer compounds*, dry and in bulk, from Etter, Tex., to points in Oklahoma, for 180 days. Supporting shipper: Phillips Petroleum Co., Bartlesville, Okla. Send protests to: C. L. Phillips, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 350 American General Building, 210 North West Sixth, Oklahoma City, Okla. 73102.

No. MC 112184 (Sub-26 TA), filed August 14, 1967. Applicant: THE MANFREDI MOTOR TRANSIT COMPANY, a corporation, Route 87, Newbury, Ohio 44065. Applicant's representative: J. J. Kuhner, 21111 Chagrin Boulevard, Cleveland, Ohio, and John P. McMahon, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Paints, stains, and varnishes*, in bulk, in tank vehicles, from Cleveland, Ohio, to Belvidere, Ill; for 180 days. Supporting shipper: Pittsburgh Plate Glass Co., 1 Gateway Center, Pittsburgh, Pa. 15222. Send protests to: District Supervisor G. J. Baccei, Interstate Commerce Commission, Bureau of Operations, 435 Federal Building, 215 Superior Avenue, Cleveland, Ohio 44114.

No. MC 119530 (Sub-No. 2 TA), filed August 11, 1967. Applicant: L. A. LAMBRECHT TRUCKING CO., Post Office Box 273, Sterling, Ill. 61081. Applicant's representative: Kenneth F. Dudley, 901 South Madison Avenue, Post Office Box 279, Ottumwa, Iowa 52501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products* from Sterling and Rock Falls, Ill., to points in Indiana and Wisconsin, those in that part of Minnesota on and south of U.S. Highway 14; and those in Missouri on and north of a line beginning at St. Louis, Mo., and extending along U.S. Highway 66 to Lebanon, Mo., thence along Missouri Highway 5 to Camdenton, Mo., and thence along U.S. Highway 54 to the Missouri-Kansas State line; for 180 days. Supporting shipper: Northwestern Steel & Wire Co., Sterling, Ill. 61081. Send protests to: Andrew J. Montgomery, District Supervisor, Interstate Commerce Commission, Bureau of Operations, U.S. Courthouse and Federal Office Building, Room 1086, 219 South Dearborn Street, Chicago, Ill. 60604.

No. MC 120449 (Sub-4 TA), filed August 14, 1967. Applicant: PETER P. DeCASPER, JR., AND HERMAN DeCASPER, a partnership, doing business as DeCasper Delivery, 3 River Street, Post Office Box 230, Bradford, Pa. 16701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Empty composite fiberboard cans*, set up, with or without metal tops or bottoms, from Bradford, Pa., to Erie, Pa., to site of Norfolk & Western Railroad ramp for subsequent rail service; for 150 days. Supporting shipper: R. C. Can Co., 125 Bolivar Drive, Bradford, Pa. 16701. Send protests to: Frank L. Calvary, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 2109 Federal Building, Pittsburgh, Pa. 15222.

No. MC 125161 (Sub-7 TA), filed August 14, 1967. Applicant: UNITED FREIGHTWAYS, INC., 671 Chestnut Street, North Andover, Mass. 01845. Applicant's representative: George C. O'Brien, 33 Broad Street, Boston, Mass. 02109. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Fishmeal*, in bulk, from Point Judith and Peacedale, R.I., to Portland, Maine; Concord, Greenfield, and Manchester, N.H.; Brattleboro, Richford, and St. Albans, Vt.; Greenfield, Marlboro, Fitchburg, Taunton, West Springfield, and Wrentham, Mass.; Manchester, Montville, and Yantic, Conn.; Albany, Cayuga, and Waverly, N.Y.; Greenville, Gettysburg, and Winfield, Pa.; for 180 days. Supporting shipper: Boston Feed Supply, 177 Milk Street, Boston, Mass. 02109. Send protests to: District Supervisor Maurice C. Pollard, Interstate Commerce Commission, Bureau of Operations, John F. Kennedy Building, Government Center, Boston, Mass. 02203.

No. MC 126281 (Sub-1 TA), filed August 14, 1967. Applicant: BERGEN-PASSAIC AIR EXPRESS, INC., 124 East Columbia Avenue, Palisades Park, N.J. 07650. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Commodities* warehoused by and shipped from the facilities of Minnesota Mining & Manufacturing Co. located at Ridgefield, N.J., to points in Rockland and Westchester Counties, N.Y., and points in Connecticut; for 150 days. Supporting shipper: Minnesota Mining & Manufacturing Co. (3M Company), 700 Grand Avenue, Ridgefield, N.J. 07657. Send protests to: District Supervisor Joel Morrows, Bureau of Operations, Interstate Commerce Commission, 1060 Broad Street, Newark, N.J. 07102.

No. MC 129214 (Sub-No. 2 TA), filed August 11, 1967. Applicant: CAVIN TRUCKING COMPANY, INC., Post Office Box 206, Wild Rose, Wis. 54984. Applicant's representative: Edward Solie, 4513 Vernon Boulevard, Madison, Wis. 53705. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Shavings and sawdust*, in bulk, from Wild Rose, Wis., to Rockford, Ill., and points within 5 miles thereof; for 180 days. Supporting shipper: Kieckhefer Boxes, Inc., Wild Rose, Wis. 54984. Send protests to: Barney L. Hardin, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 314 North Hamilton Street, Madison, Wis. 53703.

No. MC 129223 (Sub-No. 1 TA), filed August 11, 1967. Applicant: LESLIE A. PHILLIPS, 2836 Cogswell Road, El Monte, Calif. 91732. Applicant's representative: Ernest D. Salm, 3846 Evans Street, Los Angeles, Calif. 90027. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Wheelless campers* designed to be mounted on a motor vehicle, from South El Monte and Industry, Calif., to points in Arizona, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, and Washington over irregular routes; for 180 days. Supporting shippers: Tear Drop, Inc., 2200 North Merced Avenue, South El Monte, Calif. 91733; Royal Coachman, Will-Bar Industries, Inc., 10915 East Rush Street, South El Monte, Calif. 91733. Send protests to: Wm. J. Huetig, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 7708, 300 North Los Angeles Street, Los Angeles, Calif. 90012.

No. MC 129323 TA, filed August 11, 1967. Applicant: MERCHANTS MOVING COMPANY OF FAYETTEVILLE, INC., 501 Emmett Street, Fayetteville, N.C. 28301. Applicant's representative: Robt. J. Gallagher, Professional Building, 66 Central Street, Wellesley, Mass. 02181. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, between points in

North Carolina, restricted to shipments moving on the through bill of lading of a forwarder operating under section 402 (b)(2) exemption, and having an immediate, prior or subsequent line haul movement by rail, motor, water, or air. The proposed service is limited to providing a local service for a forwarder of used household goods; for 180 days. Supporting shipper: Rocky Ford Moving Vans, Inc., 510 South Big Spring, Post Office Box 11, Midland, Tex. 79701. Send protests to: Archie W. Andrews, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Post Office Box 10885, Cameron Village Station, Raleigh, N.C., 27605.

No. MC 129324 TA, filed August 14, 1967. Applicant: TAYLOR MOORE'S EXPRESS COMPANY, 9 Hillcrest Lane, Willingboro, N.J. 08046. Applicant's representative: Raymond A. Thistle, Jr., Suite 1710, 1500 Walnut Street, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Refrigerated food and food products*, from Philadelphia, Pa., to points in Camden, Burlington, Atlantic, and Cape May, Counties, N.J.; for 180 days. Supporting shippers: Pierce & Reese, 130–132 North Delaware Avenue, Philadelphia, Pa.; Stein Henry Co., 146 West Laurel Street, Philadelphia, Pa., 19123; Kaplan's Prime Meats, Inc., 982–88 North Delaware Avenue, Philadelphia, Pa. 19139; Milden & White, Inc., 1224 North Ninth Street, Philadelphia, Pa. 19122; Geo L. Wells, Inc., 402–404 North Second Street, Philadelphia, Pa. 19123; Diamond Meat Co., Inc., 2060–66 East Tioga Street, Philadelphia, Pa. 19134. Send protests to: District Supervisor Raymond T. Jones, 410 Post Office Building, Interstate Commerce Commission, Bureau of Operations, 402 East State Street, Trenton, N.J. 08608.

No. MC 129327 TA, filed August 14, 1967. Applicant: BILL WALLER, doing business as BILL WALLER TRUCKING COMPANY, Route 2, Jonesboro, Tenn. 37659. Applicant's representative: Jackson C. Raulston, 129 East New Street, Kingsport, Tenn. 37660. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Bread, pies, cakes and other bakery products and raw materials* used by bakeries, from Kingsport, Tenn., to points in North Carolina, Virginia, West Virginia, Georgia, South Carolina, and Kentucky; for 150 days. Supporting shipper: Modern Bakery, Inc., Kingsport, Tenn. Send protests to: J. E. Gamble, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 706 U.S. Courthouse, Nashville, Tenn. 37203.

MOTOR CARRIERS OF PASSENGERS

No. MC 228 (Sub-62 TA), filed August 14, 1967. Applicant: HUDSON TRANSIT LINES, INC., 17 Franklin Turnpike, Mahwah, N.J. 07430. Applicant's representative: John R. Sims, Jr., 1700 Pennsylvania Avenue NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers, and their baggage, express* and *newspapers* in the same vehicle, between junction U.S. Highway 209 and U.S. Highway 44 at or near Kerhonkson, N.Y., and junction Interstate Highway 87 and New York Highway 17K (Interchange 17) at or near Newburgh, N.Y., serving all intermediate points. From junction U.S. Highway 209 and U.S. Highway 44 at or near Kerhonkson, N.Y., over U.S. Highway 44 to its junction with New York Highway 299, thence over New York Highway 299 to its junction with Interstate Highway 87, at Interchange 18, near New Paltz, N.Y., thence over Interstate Highway 87 to Junction Interstate Highway 87 and New York State Highway 17K (Interchange 17) at or near Newburgh, N.Y., and return over the same route. Between Accord, N.Y., and Ulster County Community College, at or near Stone Ridge, N.Y., serving all intermediate points: From Accord, over U.S. Highway 209 to junction U.S. Highway 209 and County Road 72, at or near Stone Ridge, thence over County Road 72 (a distance of approximately 1 mile) to the entrance of Ulster County Community College, and return over the same route; for 180 days. Supporting shipper: There are 12 individual bus passengers whose names and addresses are on file in the Newark, N.J., ICC office or the Washington, D.C., office, supporting this application. NOTE: Applicant intends to tack this authority. Send protests to: District Supervisor Joel Morrows, Interstate Commerce Commission, Bureau of Operations, 1060 Broad Street, Room 363, Newark, N.J. 07102.

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary.*

MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 17, 1967.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 279), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–69675. By order of August 14, 1967, the Transfer Board approved the transfer to David W. Dodson and Karl D. Crawford, a partnership, doing business as A-Emergency Tow Service, 3280 Oak Street, Kansas City, Mo., of the certificate in No. MC–116178 (Sub-No. 1), issued September 9, 1958, to Ervin Davis, doing business as A-Emergency Tow Service, 3280 Oak Street, Kansas City, Mo., authorizing the transportation of: Wrecked, damaged or disabled motor vehicles and trailers, and replacement motor vehicles and trailers to points of wreck, damage or disablement, by the use of wrecking equipment only, between points in Iowa, Kansas, Missouri, Nebraska, and Oklahoma.

No. MC–FC–69837. By order of August 14, 1967, the Transfer Board approved the transfer to Wilson Fore Trucking Co., a corporation, Post Office Box 606, Healdton, Okla., of the operating rights in certificate No. MC–58751 (Sub-No. 3), issued August 4, 1964, to Wilson Fore, Post Office Box 606, Healdton, Okla., authorizing transportation, over irregular routes, of oilfield equipment and supplies, and commodities, the transportation of which because of their size or weight requires the use of special equipment or handling, and parts thereof, between points in 18 specified counties in Oklahoma with exceptions.

How To Find U.S. Statutes and United States Code Citations

[Revised Edition—1965]

This pamphlet contains typical legal references which require further citing. The official published volumes in which the citations may be found are shown alongside each reference—with suggestions as to the logical sequence to follow in using them. Additional finding aids, some especially useful in citing current legislation, also have been included. Examples are furnished at pertinent points and a list of references, with descriptions, is carried at the end.

This revised edition contains illustrations of principal finding aids and reflects the changes made in the new master table of statutes set out in the 1964 edition of the United States Code.

Price: 10 cents

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

[Published by the Committee on the Judiciary, House of Representatives]

Order from Superintendent of Documents, U.S. Government Printing Office
Washington, D.C. 20402

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15 per year, payable in advance. The charge for individual copies varies in proportion to the size of the issue (15 cents for the first 80 pages and 5 cents for each additional group of 40 pages, as actually bound). Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

List of CFR Parts Affected

(Codification Guide)

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1967, and specifies how they are affected.

PART 210—NATIONAL SCHOOL LUNCH PROGRAM

Reimbursement Payments

Section 210.10 of the regulations for the operation of the National School Lunch Program (28 F.R. 1247), as amended (28 F.R. 11531, 29 F.R. 311, 29 F.R. 14619, 30 F.R. 15402, 31 F.R. 14924, 32 F.R. 33), is hereby revised as follows:

§ 210.10 Reimbursement payments.

(a) Reimbursement shall be paid only in connection with lunches meeting the requirements of § 210.9. The maximum rate of reimbursement shall be 9 cents for a Type A lunch, except that not to exceed 7 cents may be paid if the Type A lunch does not include milk; and the maximum rate of reimbursement shall be 2 cents for a Type C lunch: *Provided, however,* That State Agencies, or CFPDO where applicable, are authorized to reimburse from general cash-for-food assistance funds, at rates not to exceed 15 cents for a Type A lunch and 13 cents for a Type A lunch which does not include milk, schools which have a high proportion of children unable to pay for their lunches and for which it is determined that additional financial assistance is needed in order that they can meet program requirements.

(b) State Agencies, or CFPDO where applicable, are authorized to reimburse from special cash-for-food assistance funds, at rates not to exceed 15 cents for a Type A lunch and 13 cents for a Type A lunch which does not include milk, schools which have been selected for participation on the basis of the following factors: (1) The economic condition of the area from which such schools draw attendance; (2) the need of pupils in such schools for free and reduced-price lunches; (3) the percentage of free and reduced-price lunches being served in such schools to their pupils; (4) the prevailing price of lunches in such schools as compared with the average prevailing price of lunches served in the State under the National School Lunch Act; and (5) the need of such schools for additional assistance as reflected by the financial position of the school lunch programs in such schools.

(c) State Agencies, or CFPDO where applicable, may at their option approve schools meeting the criteria in paragraph (b) of this section for reimbursement at rates not to exceed 9 cents per lunch from general cash-for-food assistance funds on all lunches served and additional assistance from special cash-for-food assistance funds not to exceed 15 cents per lunch on all free or reduced-price lunches served in such schools to needy children.

(d) In agreements with schools, the State Agency, or CFPDO where applicable, shall assign rates of reimbursement within the maximum rates, and any variation between schools in the assigned rates for particular lunch types shall reflect the relative needs of the schools as determined by the State Agency, or CFPDO where applicable. Assigned rates may be changed by the State Agency, or CFPDO where applicable. Notice of any change shall be given to the schools.

(e) Schools shall be reimbursed on the basis of the number of lunches served to children times the assigned rate, except that the last claim from a school each fiscal year may be paid at a rate in excess of the assigned rate or the maximum rate: *Provided, however,* That the total reimbursement to a school during any fiscal year shall not exceed the lesser of (1) an amount equal to the number of lunches served to children during the fiscal year times the maximum rate, or (2) the cost of obtaining food.

This amendment shall be effective upon publication.

Approved August 17, 1967.

[SEAL] RODNEY E. LEONARD,
Deputy Assistant Secretary.

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 10]

PART 728—WHEAT

Apportionment of 1968 State Acreage Allotment to Counties

Correction

In F.R. Doc. 67-9280, appearing at page 11609 of the issue for Friday, August 11, 1967, the entry for Fulton County, Ark., in § 728.347, should read "72" instead of "71".

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

PART 921—FRESH PEACHES GROWN IN DESIGNATED COUNTIES IN WASHINGTON

Expenses and Rate of Assessment

On July 19, 1967, notice of proposed rule making was published in the FEDERAL REGISTER (32 F.R. 10579) regarding proposed expenses and the related rate of assessment for the period April 1, 1967, through March 31, 1968, and on August 4, 1967, notice of proposed rule making was published in the FEDERAL REGISTER (32 F.R. 11333) regarding the approval of carryover of unexpended funds from the fiscal period ended March 31, 1967, pursuant to the marketing agreement and Order No. 921 (7 CFR Part 921) regulating the handling of fresh peaches grown in designated counties in Washington. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notices which were submitted by the Washington Fresh Peach Marketing Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 921.207 Expenses and rate of assessment.

(a) Expenses: Expenses that are reasonable and likely to be incurred by the Washington Fresh Peach Marketing Committee during the period April 1, 1967, through March 31, 1968, will amount to $6,854.

(b) Rate of assessment: The rate of assessment for said period, payable by each handler in accordance with § 921.41, is fixed at $0.60 per ton of fresh peaches.

(c) Unexpended assessment funds, in excess of expenses incurred during the fiscal period ended March 31, 1967, shall be carried over as a reserve in accordance with the applicable provisions of § 921.42 of said marketing agreement and order.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of peaches grown in the designated counties in Washington are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable peaches handled during the aforesaid period; and (3) such period began on April 1, 1967, and said rate of assessment will automatically apply to all such peaches beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 18, 1967.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

Title 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

SUBCHAPTER A—ARMED SERVICES PROCUREMENT REGULATIONS

MISCELLANEOUS AMENDMENTS TO SUBCHAPTER

The following amendments to this subchapter are issued by direction of the Assistant Secretary of Defense (Installations and Logistics) pursuant to authority contained in Department of Defense Directive No. 4105.30, dated March 11, 1959 (24 F.R. 2260), as amended, and 10 U.S.C. 2202.

PART 1—GENERAL PROVISIONS

1. In § 1.701–1, paragraph (a) (2) and (c) are revised; in § 1.701–4, the table therein is amended by changing the listings under Major Groups 29, 30, and 37; paragraph (b) (3) in § 1.704–3 is revised; and paragraph (c) in § 1.706–6 is revised, as follows:

§ 1.701–1 Small business concern.

(a) * * *

(2) *Industry small business size standards.* In addition to being independently owned and operated, and not dominant in the field of operation in which it is bidding on Government contracts, a small business concern in order to qualify as such must meet the criteria established for the industries set forth below. Annual sales or annual receipts, as used throughout this subpart, means the annual sales or annual receipts, less returns and allowances, of a concern and its affiliates during its most recently completed fiscal year.

(i) *Construction industries.* For construction, alteration, or repair (including painting and decorating), of buildings, bridges, roads, or other real property, the average annual receipts of the concern and its affiliates for its preceding 3 fiscal years must not exceed $7,500,000, except that if the concern is located in Alaska, such receipts must not exceed $9,375,000. For dredging, the average annual receipts of the concern and its affiliates for its preceding 3 fiscal years must not exceed $5 million, except that if the concern is located in Alaska, such receipts must not exceed $6,250,000.

(ii) *Manufacturing industries*—(a) *Food canning and preserving industry.* For food canning and preserving, the number of employees of the concern and its affiliates must not exceed 500 persons, exclusive of "agricultural labor" as defined in 26 U.S.C. 3306(k).

(b) *Refined petroleum products.* Any concern bidding on a contract for a refined petroleum product other than Paving mixture and blocks, Asphalt felts and coatings, Lubricating oils and greases, or Products of petroleum and coal, not elsewhere classified, is classified as small if (1) (i) its number of employees does not exceed 1,000 persons; (ii) it does not have more than 30,000 barrels-per-day crude oil or bona fide feed stock capacity from owned or leased facilities; and (iii) the product to be delivered in the performance of the contract will contain at least 90 percent components refined by the bidder from either crude oil or bona fide feed stocks: *Provided*, however, That a petroleum refining concern which meets the requirements in (i) and (ii) of this subdivision may furnish the product of a refinery not qualified as small business if such product is obtained pursuant to a bona fide exchange agreement, in effect on the date of the bid or offer, between the bidder or offeror and the refiner of the product to be delivered to the Government which requires exchanges in a stated ratio on a refined petroleum product basis, and precludes a monetary settlement, and that the products exchanged for the products offered meet the requirement in (iii) of this subdivision: *And provided further*, That the exchange of products for products to be delivered to the Government will be completed within 90 days after expiration of the delivery period under the Government contract; or (2) its number of employees does not exceed 500 persons and the product to be delivered to the Government has been refined by a concern which qualifies under (1) of this subdivision.

(c) *Pneumatic tires.* For passenger cars, motorcycles, truck, bus, and off-the-road pneumatic tires, a concern is classified as small when bidding on a contract for the above listed items: *Provided*, That (1) the value of the above types of pneumatic tires which it manufactured in the United States during the preceding calendar year is more than 50 percent of the value of its total worldwide manufacture, (2) the value of these pneumatic tires which it manufactured worldwide during the preceding calendar year was less than 5 percent of the value of all such tires manufactured in the United States during said period, and (3) the value of the principal products which it manufactured or otherwise produced or sold worldwide during the preceding calendar year is less than 10 percent of the total value of such products manufactured or otherwise produced or sold in the United States during said period.

(d) *Passenger cars.* A company is classified as small if it is bidding on a contract for passenger cars: *Provided*, That (1) the value of the passenger cars which it manufactured or otherwise produced in the United States during the preceding calendar year is more than 50 percent of the value of its total worldwide manufacture or production of such passenger cars, (2) the value of the passenger cars which it manufactured or otherwise produced during the preceding calendar year was less than 5 percent of the total value of all such cars manufactured or produced in the United States during the said period, and (3) the value of the principal products which it manufactured or otherwise produced or sold during the preceding calendar year is less than 10 percent of the total value of such products manufactured or otherwise produced or sold in the United States during said period.

(e) *Manufacturing industries listed in § 1.701–4.* For a product classified within an industry listed in § 1.701–4 the number of employees of the concern and its affiliates must not exceed the small business size standard established therein for that industry.

(f) *Manufacturing industries not listed in § 1.701–4.* For a product classified within an industry not set forth in this section or in § 1.701–4, the number of employees of the concern and its affiliates must not exceed 500 persons.

(iii) *Nonmanufacturing industries.* For a product not manufactured by the concern submitting a bid or proposal, other than for a construction or service contract, the number of employees of that concern must not exceed 500 persons, and in the case of a procurement set aside for small business (see § 1.706) or involving equal low bids (see § 2.407–6 of this chapter), or otherwise involving the preferential treatment of small business, it must agree to furnish in the performance of the contract end items manufactured or produced in the United States, its possessions, or Puerto Rico, by small business concerns. However, if the goods to be furnished are wool, worsted, knitwear, duck, or webbing, nonmanufacturers (dealers and converters), shall furnish such products which have been manufactured or produced by a small weaver (small knitter for knitwear) and, if finishing is required, by a small finisher. If the product to be furnished is thread, nonmanufacturers (dealers and converters) shall furnish thread which has been finished by a small finisher. ("Finishing of thread is defined as all "dyeing, bleaching, glazing, mildew proofing, coating, waxing, and other applications required by the pertinent specification, but excluding mercerizing, spinning, throwing, or twisting operations.")

(iv) *Service industries.* (a) For services not elsewhere defined in this part, the average annual sales or receipts of the concern and its affiliates for the preceding 3 fiscal years must not exceed $1 million ($1,250,000 is located in Alaska).

(b) Any concern bidding on a contract for engineering services (other than marine engineering services), motion picture production, or motion picture services is classified as small if its average annual sales or receipts for its preceding 3 fiscal years do not exceed $5 million ($6,250,000 if located in Alaska).

(c) Any concern bidding on a contract for naval architectural and marine engineering services is classified as small if its average annual sales or receipts for its preceding 3 fiscal years do not exceed $6 million.

(d) Any concern bidding on a contract for janitorial and custodial services is classified as small if its average annual sales or receipts for its preceding 3 fiscal years do not exceed $3 million ($3,750,000 if located in Alaska).

(e) Any concern bidding on a contract for base maintenance is classified as small if its average annual sales or receipts for its preceding 3 fiscal years do not exceed $5 million ($6,250,000 if located in Alaska). Base maintenance is defined in footnote at the end of this section.

(f) Any concern bidding on contracts for marine cargo handling services is classified as small if its annual sales or receipts do not exceed $5 million for the preceding 3 fiscal years.

(v) *Transportation industries*—(a) *General.* Except as provided in (b) and (c) of this subdivision, for passenger or freight transportation the number of employees of the concern and its affiliates must not exceed 500 persons.

(b) *Air transportation.* For air transportation, the number of employees of the concern and its affiliates must not exceed 1,000 persons.

(c) *Trucking (local and long distance) warehousing, packing and crating, and/or freight forwarding.* For trucking (local and long distance), warehousing, packing and crating, and/or freight forwarding, the annual receipts of the concern and its affiliates must not exceed $3 million except that if the concern is located in Alaska, such receipts must not exceed $3,750,000. No such concern, however, will be denied small business status for the purpose of Government procurement solely because of its contractual relationship with a large interstate van line if the concern's annual receipts have not exceeded $3 million during its most recently completed fiscal year ($3,750,000 if located in Alaska).

(vi) *Research, development or testing industries.* For research, development, or testing, which requires delivery of a manufactured product, a concern must (a) qualify as a small business manufacturer within the meaning of subdivision (ii) of this subparagraph for the industry in which the product is classified, or (b) qualify as a small business nonmanufacturer within the meaning of subdivision (iii) of this subparagraph. For research, development, or testing, which does not require delivery of a manufactured product, the number of employees of the concern and its affiliates must not exceed 500 persons.

* * * * *

(c) *Affiliates.* Business concerns are affiliates of each other when either directly or indirectly (1) one concern controls or has the power to control the other or (2) a third party controls or has the power to control both. In determining whether concerns are independently owned and operated and whether or not affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships: *Provided, however*, That restraints imposed on a franchisee by its franchise agreement shall not be considered in determining whether the franchisor controls or has the power to control and, therefore, is affiliated with the franchisee, if the franchisee has the right to profit from his effort, commensurate with ownership, and bears the risk of loss or failure.

* * * * *

§ 1.701–4 Manufacturing industry employment size standards.

* * * * *

Classification code and industry	Employment size standard (number of employees
* * * * *	
MAJOR GROUP 29—PETROLEUM REFINING AND RELATED INDUSTRIES	
2952 Asphalt felts and coatings	750
MAJOR GROUP 30—RUBBER AND MISCELLANEOUS PLASTICS PRODUCTS	
3011 Aircraft tire and all inner tubes	1,000
3021 Rubber footwear	1,000
3031 Reclaimed rubber	750

MAJOR GROUP 37—TRANSPORTATION EQUIPMENT	
3717 Motor vehicles and parts except passenger cars[1]	1,000
3721 Aircraft[2]	1,500
3722 Aircraft engines and engine parts[3]	1,000
3728 Aircraft propellers and propeller parts	1,000
3729 Aircraft parts and auxiliary equipment, not elsewhere classified[4]	1,000
3731 Shipbuilding and repairing[5]	1,000
3741 Locomotives and parts	1,000
3743 Railroad and street cars	750
* * * * *	

[1] The three Standard Industrial Classification industries (3711, 3712, and 3714) have been combined because of a major problem of defining the reporting unit in terms of these industries. This difficulty arises from the fact that many large establishments have integrated operations which include the production of parts and bodies and the assembly of complete vehicles at the same location.

[2] Includes maintenance as defined in the Federal Aviation Regulations (14 CFR 1.1) but excludes contracts solely for preventive maintenance as defined in 14 CFR 1.1. As defined in the Federal Aviation Regulations:

"'Maintenance' means inspection, overhaul, repair, preservation, and the replacement of parts but excludes preventive maintenance."

"'Preventive maintenance' means simple or minor preservation operations and the replacement of small standard parts not involving complex assembly operations."

[3] Guided missile engines and engine parts are classified in SIC 3722. Missile control systems are classified in SIC 3662.

[4] Shipbuilding and repairing industry includes establishments primarily engaged in building and repairing all types of ships, barges, canal boats, and lighters, of 5 gross tons and over, whether propelled by sail or motor power or towed by other craft. Establishments primarily engaged in fabrication or repairing structural assemblies or components for ships, or subcontractors engaged in ship painting, joinery, carpentry work, electrical wiring installation, etc., are not included. The size standard for Boatbuilding and Repairing (establishments primarily engaged in building and repairing all types of boats, except rubber boats, under 5 gross tons) is 500.

§ 1.704–3 Small business specialists.

* * * * *

(b) * * *

(2) Prior to issuance of solicitations or contract modifications for additional supplies or services in excess of $2,500, he shall determine that small business concerns will receive adequate consideration including initiation of set-asides (§ 1.706). This determination may be made jointly with the contracting officer or may be in the form of a recommendation to him. Disagreements between the small business specialist and the contracting officer shall be resolved by the appointing authority or his designee, whose decision shall be final. (See § 1.308 as to the required record of contract actions.)

* * * * *

§ 1.706–6 Partial set-asides.

* * * * *

(c) (1) In advertised procurements involving partial set-asides for small business, each invitation for bids shall contain substantially the following notice. The applicable size standards shall be set forth in the schedule. In negotiated procurements, the notice shall be appropriately modified for use with requests for proposals.

NOTICE OF PARTIAL SMALL BUSINESS SET-ASIDE (JUNE 1967)

(a) *General.* A portion of this procurement, as identified elsewhere in the schedule, has been set aside for award only to one or more small business concerns. Negotiations for award of this set-aside portion will be conducted only with responsible small business concerns who have submitted responsive bids on the non-set-aside portion at a unit price within 120 percent of the highest unit price at which an award is made on the non-set-aside portion. Negotiations shall be conducted with such small business concerns in the following order of priority:

Group 1. Small business concerns which are also persistent labor surplus area concerns.

Group 2. Small business concerns which are also substantial labor surplus area concerns.

Group 3. Small business concerns which are not labor surplus area concerns. Within each of the above groups, negotiations with such concerns will be in the order of their bids on the non-set-aside portion, beginning with the lowest responsive bid. The set-aside shall be awarded at the highest unit price awarded on the non-set-aside portion, adjusted to reflect transportation and other cost factors which are considered in evaluating bids on the non-set-aside portion, except where a responsive bid has been submitted on the non-set-aside portion at a unit price which when so adjusted is lower than the adjusted highest unit price awarded on the non-set-aside portion but could not be accepted because of quantity limitations or other consideration (such as the bidder's responsibility). In the latter case if the quantity limitation or other considerations do not preclude consideration of the unit price of such unaccepted bid at the time of negotiation for the set-aside portion, a quantity of the set-aside portion equal to the quantity of such unaccepted bid shall be offered to eligible concerns in their order of priority at the adjusted unit price of such unaccepted bid. If no eligible bidder will take the entire quantity so offered at the adjusted unit price of the unaccepted bid, then all eligible concerns in their order of priority shall be offered any lesser portion at the same price. (In the event more than one such unaccepted bid is involved, the same procedure shall be applied successively to each

such bid on negotiation for the set-aside portion.) Subject to the conditions set forth below any remaining quantity of the set-aside portion shall be offered to eligible concerns in their order of priority at the adjusted highest unit price awarded on the non-set-aside portion. If such an unaccepted bid is submitted by a concern eligible to participate in the set-aside, such concern must accept a quantity of the set-aside portion equal to the quantity of the unaccepted bid at the adjusted unit price of the unaccepted bid before any portion of the set-aside may be awarded to that concern at a higher price. If such an unaccepted bid is submitted by a concern not eligible to participate in the set-aside, a quantity of the set-aside portion equal to the unaccepted bid must be awarded at the adjusted unit price of such unaccepted bid before any portion of the set-aside is awarded to any eligible concern at a higher price. The Government reserves the right not to consider token bids or other devices designed to secure an unfair advantage over other bidders eligible for the set-aside portion. The partial set-aside of this procurement for small business concerns is based on a determination by the Contracting Officer that it is in the interest of maintaining or mobilizing the Nation's full productive capacity, or in the interest of war or national defense programs, or in the interest of assuring that a fair portion of Government procurement is placed with small business concerns.

(b) *Definitions.* (1) A "small business concern" is a concern, including its affiliates, which is independently owned and operated, is not dominant in the field of operation in which it is bidding on Government contracts, and can further qualify under the criteria set forth in regulations of the Small Business Administration (Code of Federal Regulations, Title 13, sec. 121.3–8). In addition to meeting these criteria, a manufacturer or a regular dealer submitting bids or proposals in his own name must agree to furnish in the performance of the contract end items manufactured or produced in the United States, its possessions, or Puerto Rico, by small business concerns: *Provided*, That this additional requirement does not apply in connection with construction or service contracts.

(2) A "labor surplus area" is a geographical area which is:

(i) classified by the Department of Labor as an "Area of Substantial Unemployment" (herein referred to as an area of substantial labor surplus) and listed as such by that Department in its publication "Area Trends in Employment and Unemployment"; or

(ii) Classified by the Department of Labor as "Area of Persistent Unemployment" (herein referred to as an area of persistent labor surplus) and listed as such by that Department in its publication "Area Trends in Employment and Unemployment"; or

(iii) Not classified as in (i) or (ii) above, but which is individually certified as an area of persistent or substantial unemployment by the Department of Labor at the request of a prospective contractor.

(3) Labor surplus area concern includes—

(i) Persistent labor surplus area concerns which agree to perform or cause to be performed any contracts awarded to them as labor surplus area concerns substantially in "Areas of Persistent Labor Surplus" (also called "Areas of Persistent Unemployment"); and

(ii) Substantial labor surplus area concerns which agree to perform or cause to be performed any contracts awarded to them as labor surplus area concerns substantially in "Areas of Substantial Labor Surplus."

A concern shall be deemed to perform a contract substantially in "Areas of Persistent Labor Surplus" (also called "Areas of Persistent Unemployment") if the cost that it incurs on account of manufacturing or production (by itself or its first-tier subcontractors) in such areas amount to more than 50 percent of the contract price. A concern shall be deemed to perform a contract substantially in "Areas of Substantial Labor Surplus" if the costs that it incurs on account of manufacturing or production (by itself or its first-tier subcontractors) in such areas or in "Areas of Persistent Labor Surplus" (also called "Areas of Persistent Unemployment") amount to more than 50 percent of the contract price.

(4) "Unit price" shall include evaluation factors added for the rent-free use of Government property.

(c) *Identification of areas of performance.* Each bidder desiring to be considered for award as a small business labor surplus area concern on the set-aside portion of this procurement shall identify in his bid the geographical areas in which he proposes to perform, or cause to be performed, a substantial proportion of the production of the contract. If the Department of Labor classification of any such area changes after the bidder has submitted his bid, the bidder may change the areas in which he proposes to perform: *Provided*, That he so notifies the Contracting Officer before award of the set-aside portion. Priority for negotiation will be based upon the labor surplus classification of the designated production areas as of the time of the proposed award.

(d) *Agreement.* The bidder agrees that, if awarded a contract as a small business persistent labor surplus area concern under the set-aside portion of this procurement, he will perform, or cause to be performed, a substantial proportion of the production in areas classified at the time of award, or at the time of performance of the contract, as persistent labor surplus areas; and that if awarded a contract as a small business substantial labor surplus area concern under the set-aside portion of this procurement, he will perform, or cause to be performed, a substantial proportion of the production in areas classified at the time of award, or at the time of performance of the contract, as persistent labor surplus areas.

(2) In requirements contracts involving a partial small business set-aside, add the following to the above clause.

(e) *Requirements contract.* Only one award will be made for each item or subitem of the non-set-aside portion and only one award will be made for each item or sub-item of set-aside portion. For the purpose of equitably distributing orders in accordance with this "Notice of Partial Small Business Set-Aside," the Government will apportion the quantities to be ordered as equally as possible between the non-set-aside Contractor and the set-aside Contractor to whom the awards are made.

* * * * *

2. Sections 1.707–3(c), 1.707–4(a), 1.801–1, 1.801–2, and 1.803(a)(4) are revised; paragraph (b) in § 1.804–2 is revised; in § 1.805–3(b), the clause heading and clause paragraph (b) are revised; and § 1.1604(g) is revised, as follows:

§ 1.707–3 Required clauses.

* * * * *

(c) The "Small Business Subcontracting Program (Maintenance, Repair and Construction)" clause below shall be included in all contracts for maintenance, repair and construction work which may exceed $500,000, which contain the clause required in paragraph (a) of this section and which in the opinion of the purchasing activity, offer substantial subcontracting possibilities.

SMALL BUSINESS SUBCONTRACTING PROGRAM (MAINTENANCE, REPAIR AND CONSTRUCTION) (JUNE 1967)

(a) The Contractor agrees to establish and conduct a small business subcontracting program which will enable small business concerns to be considered fairly as subcontractors, including suppliers, under this contract. In this connection, the Contractor shall designate an individual to (i) maintain liaison with the Government on small business matters, and (ii) administer the Contractor's Small Business Subcontracting Program.

(b) Notwithstanding the instructions on DD Form 1140–1, prior to completion of the contract and as soon as the final information is available, the Contractor shall submit a one-time completed DD Form 1140–1 to the Government addressees prescribed thereon. The DD Form 1140–1 shall show the prime contract number in lieu of identifying a quarterly report period. This subparagraph (b) is not applicable if the Contractor is a small business concern.

(c) The Contractor further agrees (i) to insert the "Utilization of Small Business Concerns" clause in subcontracts which offer substantial subcontracting opportunities, and (ii) to insert in each such subcontract exceeding $500,000 a clause conforming substantially to the language of this clause except that subcontractors shall submit DD Form 1140–1 direct to the Government addressees prescribed on the Form. The Contractor will notify the Contracting Officer of the name and address of each subcontractor that will be required to submit a report on DD Form 1140–1.

§ 1.707–4 Responsibility for reviewing the subcontracting program.

(a)(1) Except in contracts for maintenance, repair and construction work, only one Department shall be responsible for reviewing a contractor's Small Business Subcontracting Program. Subject to paragraph (b) of this section, such review shall be the responsibility of:

(i) The Department previously assigned specific contractors by the Director for Small Business Policy of the Department of Defense; or

(ii) If subdivision (i) of this subparagraph is inapplicable, the responsibility shall be assigned through coordinated action of the Director of Small Business Policy of the Department of Defense and the Small Business Advisors of the Departments.

(2) In contracts for maintenance, repair and construction (see § 1.707–3(c)), the contracting officer awarding the contract shall be responsible for reviewing the contractor's Small Business Subcontracting Program.

* * * * *

§ 1.801–1 Labor surplus area concern.

Labor surplus area concern includes:

(a) Persistent labor surplus area concerns which will perform or cause to be performed any contracts awarded to them as labor surplus area concerns substantially in "Areas of Persistent Labor Surplus"; and

(b) Substantial labor surplus area concerns which will perform or cause to be performed any contracts awarded to them as labor surplus area concerns substantially in "Areas of Substantial Labor Surplus."

A concern shall be deemed to perform a contract substantially in "Areas of Persistent Labor Surplus" (also called "Areas of Persistent Unemployment") if the cost that it incurs on account of manufacturing or production (by itself or its first-tier subcontractors) in such areas amount to more than 50 percent of the contract price. A concern shall be deemed to perform a contract substantially in "Areas of Substantial Labor Surplus" if the costs that it incurs on account of manufacturing or production (by itself or its first-tier subcontractors) in such areas or in "Areas of Persistent Labor Surplus" (also called "Areas of Persistent Unemployment") amount to more than 50 percent of the contract price.

Example A. ABC Company, manufacturing in a full employment area, bids on a contract at $1,000. ABC Company will incur the following costs:

Direct labor	$200
Overhead	200
Purchase of materials from XYZ, which manufactures the materials in a labor surplus area	510

ABC Company qualifies as a labor surplus area concern.

Example B. DEF Company, manufacturing in a labor surplus area, bids on a contract at $1,000. DEF Company will incur the following costs:

Direct labor	200
Overhead	200
Purchase of materials from UVW, which is located in a labor surplus area but which merely distributes the materials from stocks on hand [the materials having been manufactured by UVW's supplier]	550

DEF Company does not qualify as a labor surplus area concern regardless of whether UVW's supplier manufactures in a labor surplus area.

Example C. GHI Company, manufacturing in a labor surplus area, bids on a contract at $1,000. GHI Company will incur the following costs:

Direct labor	200
Overhead	276
Purchase of materials from RST, which manufactures the materials in a full employment area	425

GHI Company qualifies as a labor surplus area concern.

§ 1.801–2 Labor surplus area.

Labor surplus area means a geographic area which at the time of award is:

(a) Classified by the Department of Labor as an "Area of Substantial Unemployment" (herein referred to as an area of substantial labor surplus) and listed as such by that Department in its publication "Area Trends in Employment and Unemployment"; or

(b) Classified by the Department of Labor as an "Area of Persistent Unemployment" (herein referred to as an area of persistent labor surplus) and listed as such by that Department in its publication "Area Trends in Employment and Unemployment"; or

(c) Not classified as in paragraph (a) or (b) of this section, but which is individually certified as an area of persistent or substantial unemployment by the Department of Labor at the request of a prospective contractor.

§ 1.803 Application of policy.

(a) * * *

(4) Department of Labor certification (see § 1.801–2(c)) shall be considered conclusive with respect to the particular procurement concerned;

* * * * *

§ 1.804–2 Set-aside procedure.

* * * * *

(b)(1) In advertised procurements involving set-asides pursuant to this subpart, each invitation for bids shall contain substantially the following notice. In negotiated procurements, the notice shall be appropriately modified for use with requests for proposals. The notice shall be made a part of each contract under the set-aside portion of the procurement.

NOTICE OF LABOR SURPLUS AREA SET-ASIDE (JUNE 1967)

(a) *General.* A portion of this procurement, as identified elsewhere in the schedule, has been set aside for award only to one or more labor surplus area concerns, and, to a limited extent, to small business concerns which do not qualify as labor surplus area concerns. Negotiations for award of the set-aside portion will be conducted only with responsible labor surplus area concerns (and small business concerns to the extent indicated below) who have submitted responsive bids or proposals on the non-set-aside portion at a unit price no greater than 120 percent of the highest unit price at which an award is made on the non-set-aside portion. Negotiations for the set-aside portion will be conducted with such bidders in the following order of priority:

Group 1. Persistent labor surplus area concerns which are also small business concerns.

Group 2. Other persistent labor surplus area concerns.

Group 3. Substantial labor surplus area concerns which are also small business concerns.

Group 4. Other substantial labor surplus area concerns.

Group 5. Small business concerns which are not labor surplus area concerns.

Within each of the above groups, negotiations with such concerns will be in the order of their bids on the non-set-aside portion, beginning with the lowest responsive bid. The set-aside portion shall be awarded at the highest unit price awarded on the non-set-aside portion, adjusted to reflect transportation and other cost factors which are considered in evaluating bids on the non-set-aside portion except where a responsive bid has been submitted on the non-set-aside portion at a unit price which when so adjusted is lower than the adjusted highest unit price awarded on the non-set-aside portion but could not be accepted because of quantity limitations or other consideration (such as the bidder's responsibility). In the latter case if the quantity limitation or other considerations do not preclude consideration of the unit price of such unaccepted bid at the time of negotiation for the set-aside portion, a quantity of the set-aside portion equal to the quantity of such unaccepted bid shall be offered to eligible concerns in their order of priority at the adjusted unit price of such unaccepted bid. If no eligible bidder will take the entire quantity so offered at the adjusted unit price of the unaccepted bid, then all eligible concerns in their order of priority shall be offered any lesser portion at the same price. (In the event more than one such unaccepted bid is involved, the same procedure shall be applied successively to each such bid on negotiation for the set-aside portion.) Subject to the conditions set forth below any remaining quantity of the set-aside portion shall be offered to eligible concerns in their order of priority at the adjusted highest unit price awarded on the non-set-aside portion. If such an unaccepted bid is submitted by a concern eligible to participate in the set-aside, such concern must accept a quantity of the set-aside portion equal to the quantity of the unaccepted bid at the adjusted unit price of the unaccepted bid before any portion of the set-aside may be awarded to that concern at a higher price. If such an unaccepted bid is submitted by a concern not eligible to participate in the set-aside, a quantity of the set-aside portion equal to the quantity of the unaccepted bid must be awarded at the adjusted unit price of such unaccepted bid before any portion of the set-aside is awarded to any eligible concern at a higher price. The Government reserves the right not to consider token bids or other devices designed to secure an unfair advantage over overbidders eligible for the set-aside portion.

(b) *Definitions.* (1) The term "labor surplus area" means a geographical area which is a persistent labor surplus area or a substantial labor surplus area, or both, as defined below:

(i) "Persistent labor surplus area" means an area which (A) is classified by the Department of Labor as an "Area of Persistent Labor Surplus" (also called "Area of Persistent Unemployment") and is listed as such by that Department in conjunction with its publication "Area Trends in Employment and Unemployment," or (B) is certified as an area of persistent labor surplus by the Department of Labor pursuant to a request by a prospective Contractor.

(ii) "Substantial labor surplus area" means an area which (A) is classified by the Department of Labor as an "Area of Substantial Labor Surplus" (also called "Area of Substantial Unemployment") and which is listed as such by that Department in conjunction with its publication "Area Trends in Employment and Unemployment," or (B) is certified as an area of substantial labor surplus by the Department of Labor pursuant to a request by a prospective Contractor.

(2) The term "labor surplus area concern" includes persistent labor surplus area concerns and substantial labor surplus area concerns as defined below:

(i) "Persistent labor surplus area concern" means a concern that agrees to perform, or cause to be performed, a substantial proportion of a contract in persistent labor surplus areas. A concern shall be deemed to perform a substantial proportion of a contract in persistent labor surplus areas if the costs that the concern will incur on account of manufacturing or production performed in such areas (by itself or its first-tier subcontractors) amount to more than 50 percent of the contract price.

(ii) "Substantial labor surplus area concern" means a concern that agrees to perform, or cause to be performed, a substantial proportion of a contract in substantial labor surplus areas. A concern shall be deemed to perform a substantial proportion of a contract in substantial labor surplus areas if the costs that the concern will incur on account of manufacturing or production performed in substantial and persistent labor surplus areas (by itself or its first-tier subcontractors) amount to more than 50 percent of the contract price.

(3) A "small business concern" is a concern, including its affiliates, which is

independently owned and operated, is not dominant in the field of operation in which it is bidding on Government contracts, and can further qualify under the criteria set forth in regulations of the Small Business Administration (Code of Federal Regulations, Title 13, § 121.3–8). In addition to meeting these criteria, a manufacturer or a regular dealer submitting bids or proposals in his own name must agree to furnish in the performance of the contract end items manufactured or produced in the United States, its possessions, or Puerto Rico, by small business concerns: *Provided*, That this additional requirement does not apply in connection with construction or service contracts.

(4) "Unit price" shall include evaluation factors added for the rent-free use of Government property.

(c) *Identification of areas of performance.* Each bidder desiring to be considered for award as a labor surplus area concern on the set-aside portion of this procurement shall identify in his bid the geographical areas in which he proposes to perform, or cause to be performed, a substantial proportion of the production of contract. If the Department of Labor classification of any such area changes after the bidder has submitted his bid, the bidder may change the areas in which he proposes to perform: *Provided*, That he so notifies the Contracting Officer before award of the set-aside portion. Priority for negotiation will be based upon the labor surplus classification of the designated production areas as of the time of the proposed award.

(d) *Agreement.* The bidder agrees that, if awarded a contract as a persistent labor surplus area concern under the set-aside portion of this procurement, he will perform, or cause to be performed, a substantial proportion of the production in areas classified at the time of award, or at the time of performance of the contract, as persistent labor surplus areas; and that if awarded a contract as a substantial labor surplus area concern under the set-aside portion of this procurement, he will perform, or cause to be performed, a substantial proportion of the production in areas classified at the time of award, or at the time of performance of the contract, as persistent labor surplus areas.

(2) In requirements contracts involving a labor surplus area set-aside, add the following to the above clause:

(e) *Requirements contract.* Only one award will be made for each item or subitem of the non-set-aside portion and only one award will be made for each item or subitem of the set-aside portion. For the purpose of equitably distributing orders in accordance with this "Notice of Labor Surplus Area Set-Aside," the Government will apportion the quantities to be ordered as equally as possible between the non-set-aside Contractor and the set-aside Contractor to whom the awards are made.

§ 1.805–3 Required clauses.

* * * * *

(b) * * *

LABOR SURPLUS AREA SUBCONTRACTING PROGRAM (JUNE 1967)

* * * * *

(b) A "labor surplus area concern" is a concern which will perform, or cause to be performed, a substantial proportion of any contract awarded to it in "Areas of Persistent Labor Surplus" or in "Areas of Substantial Labor Surplus," as designated by the Department of Labor. A concern shall be deemed to perform a substantial proportion of a contract in a labor surplus area if the costs that the concern will incur on account of manufacturing or production (by itself or its first-tier subcontractors) in such areas amount to more than 50 percent of the price of such contract.

* * * * *

§ 1.1604 Processing novation agreements and change of name agreements.

* * * * *

(g) After execution and distribution of an agreement, an administrative change (Standard Form 30) shall be prepared by the processing activity incorporating a summary of the agreement and attaching thereto a complete list of the contracts affected. For single service agreements, three copies of the Standard Form 30 shall be furnished for each contract to the procuring activities concerned, and for multiservice agreements, to the appropriate addressee listed in § 1.1604(c).

3. Subpart Q is revised to read as follows:

Subpart Q—Value Engineering

Sec.

1.1701 Policy.
1.1702 Types of value engineering provisions.
1.1702–1 Incentives.
1.1702–2 Program requirement.
1.1702–3 Use of incentive and program clauses.
1.1703 Types of savings to be shared with the contractor.
1.1703–1 General.
1.1703–2 Instant contract savings.
1.1703–3 Future acquisition savings.
1.1703–4 Collateral savings.
1.1704 Percentages of contractor sharing.
1.1704–1 General.
1.1704–2 Value engineering incentive percentages.
1.1704–3 Value engineering program requirement percentage.
1.1705 Other considerations.
1.1705–1 Submission of identical value engineering change proposals under more than one contract.
1.1705–2 Revision of performance incentive provisions.
1.1705–3 Cost allowability.
1.1705–4 Effect of value engineering payments.
1.1706 Evaluation and acceptance.
1.1707 Value engineering clauses.
1.1707–1 The basic clause.
1.1707–2 Instant contract sharing provisions (clause paragraph (d)).
1.1707–3 Future acquisition sharing provisions (clause paragraph (j)).
1.1708 Instant contract only sharing provision.
1.1709 Exclusion of collateral savings provision.
1.1710 Royalty payment notice for future acquisition contract documents.

AUTHORITY: The provisions of this Subpart Q issued under sec. 2202, 70A Stat. 120; 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 1.1701 Policy.

(a) Value engineering is concerned with the elimination or modification of anything that contributes to the cost of a contract item or task but is not necessary for needed performance, quality, maintainability, reliability, or interchangeability. Specifically, value engineering as contemplated by this part constitutes a systematic and creative effort, not required by any other provision of the contract, directed toward analyzing each contract item or task to ensure that its essential function is provided at the lowest over-all cost. Over-all cost may include, but need not be limited to, the costs of acquiring, operating, and logistically supporting an item or system.

(b) In order to realize fully the cost reduction potential of value engineering, provisions which encourage or require value engineering shall be incorporated in all contracts, including letter contracts, of sufficient size and duration to offer reasonable likelihood for cost reduction. All such provisions shall offer the contractor a share in cost reductions ensuing from change proposals he submits under such contracts. While most proposals will result from the contractor's value engineering efforts, any proposal submitted by the contractor which meets the documentation and other requirements of the value engineering clauses may be rewardable. In addition, the value engineering provisions are intended to induce major prime contractors to encourage subcontractors to utilize value engineering techniques. Finally, to realize the cost reduction potential of value engineering, it is imperative that value engineering change proposals be processed by all parties as expeditiously as possible.

(c) In addition to the value engineering potential noted above (cost reductions resulting from contract change proposals), it is recognized that a contractor may develop a value engineering-type proposal with regard to a weapon system or end item for which he does not have a current contract, e.g., where the contractor originally developed and produced a weapon system, it is now operational, and the contractor no longer has a production or other contract therefor. In such a case, the value engineering proposal would not come within the provisions of this subpart. Nevertheless, it is desirable that the potential cost reductions resulting from unsolicited proposals not within the scope of value engineering clauses under current contracts be realized by the Government. Accordingly, nothing in this subpart shall be construed to preclude the purchase of unsolicited proposals on a case-by-case basis or other special contractual arrangements, pursuant to Subpart B, Part 9 of this chapter, or 10 U.S.C. 2386, which are necessary to induce contractors to develop such proposals and make them available to the Government.

§ 1.1702 Types of value engineering provisions.

§ 1.1702–1 Incentives.

(a) A Value Engineering Incentive clause permits the contractor to share in cost reductions that ensue from change proposals he submits. Many types of contracts, when properly used, provide the contractor with an incentive to control and reduce costs while performing within the specifications and other contract requirements. However, the practice of reducing the contract price (or fee in the case of cost-reimbursement type contracts) under the Changes clause tends to discourage contractors from submitting cost reduction proposals requiring a change to the specifications or other contract requirements even though such proposals could be beneficial to the Government. The objective of a value engineering incentive provision is to encourage the contractor to submit such cost reduction proposals. To be acceptable, a value engineering change proposal must involve some change in the contract specifications, purchase description, or statement of work; this may include the elimination or modification of any requirements found to be in excess of actual needs in the areas of, for example, design, components, materials, material processes, tolerances, packaging requirements, technical data requirements, or testing procedures and requirements, and consequent reduction in the contract cost. Furthermore, even when the contract cost may be increased, the incentive provisions encourage contractors to submit value engineering change proposals that are likely to lead to overall savings resulting from significant net reductions in collateral costs of Government-furnished property, operational requirements or logistic support requirements.

(b) Value engineering proposals which satisfy the above requirements shall not be rejected on the ground that they also involve a termination, in whole or in part, of contract line items; moreover, the cost savings resulting from such quantitative reductions shall be shared with the contractor. On the other hand, contractor proposals which concern the quantitative requirements of the Government but do not satisfy the above criteria are not within the intent of the value engineering provisions, and the contractor will not share under this subpart in savings resulting solely from such quantitative proposals.

(c) In all cases, the contractor's share in overall cost savings resulting from the Government's acceptance of a cost reduction proposal shall be determined as provided in the Value Engineering Incentive clause.

§ 1.1702–2 Program requirement.

A Value Engineering Program Requirement clause obligates the contractor to engage in value engineering of the scope and at the level of effort required by the Government as an item of work in the contract schedule. In addition, the clause contains value engineering incentive features which provide for the contractor to share in savings resulting from the acceptance of any value engineering change proposals (as described in § 1.1702–1), whether or not such proposals result from the value engineering program requirement (except when the contract also includes the Incentive clause in accordance with § 1.1702–3(d)). The principal reason for requiring a value engineering program is to get early results (i.e., in the initial stages of design, development, or production), so that specifications, drawings, and production methods will reflect the full benefit of value engineering. The value engineering program requirement, which shall be set forth in the contract schedule as a line item and separately priced, may apply to all or selected phases of contract performance and should be tailored to the particular contract situation.

§ 1.1702–3 Use of incentive and program clauses.

(a) Except as provided in subparagraphs (1) through (6) of this paragraph, a Value Engineering Incentive clause in accordance with § 1.1707 shall be included in all contracts in excess of $100,000, and may in the discretion of the contracting officer be included in contracts not in excess of $100,000:

(1) In cost-reimbursement type contracts other than cost-plus-incentive-fee contracts;

(2) Where this would be inconsistent with a value engineering program requirement included in accordance with paragraph (b) of this section;

(3) Where the design and cost of the item or class of items being procured are primarily controlled by the commercial market;

(4) When the Head of the Procuring Activity has determined that value engineering offers no potential for cost reduction;

(5) In (i) time and material or labor hour contracts, (ii) contracts for architect-engineering, engineering services, research, or exploratory development, (iii) contracts containing provisions for product or component improvement, or (iv) contracts for the production of items with respect to which there is a concurrent contract for product or component improvement—unless, in any of these cases, the contracting officer affirmatively determines that the contract has a clear potential for value engineering cost reductions and that a Value Engineering Incentive clause will provide an effective stimulus to the contractor; or

(6) In contracts for the concept formulation, preliminary design, and contract or system definition phases of a weapon system development program.

(b) (1) Except as provided in subparagraph (2) of this paragraph, a Value Engineering Program Requirement clause in accordance with § 1.1707 shall be included in the following types of contracts if they are in excess of $1 million—and may be included in these types of contracts if they are not in excess of $1 million—unless the Head of a Procuring Activity has determined with respect to a particular contract or class of contracts that the potential for cost reduction does not justify the effort involved in the establishment of a special value engineering program:

(i) Cost-plus-a-fixed-fee contracts;

(ii) Cost-plus-incentive-fee and negotiated fixed-price type contracts for the concept formulation, preliminary design, and contract definition or system definition phases of a weapon system development program—if the contracting officer determines that the contract has a clear potential for value engineering that will be realized only by inclusion of a program requirement;

(iii) In place of the value engineering incentive clause in cost-plus-incentive-fee and negotiated fixed-price type contracts with respect to which the contracting officer determines that the lack of firm specifications, of a precise purchase description, or of a detailed statement of work would be likely to render a value engineering incentive provision incapable of realizing the contract's potential for value engineering cost reduction.

(2) A Value Engineering Program Requirement clause shall not be included in the following types of contracts:

(i) Contracts for architect-engineering, construction, basic research, or exploratory development—unless the contracting officer affirmatively determines that the contract has a clear potential for value engineering cost reductions;

(ii) Contracts containing provisions for product or component improvement or contracts for the production of items with respect to which there is a concurrent contract for product or component improvement—unless the program is restricted to areas not covered by the product or component improvement provisions or contract;

(iii) Contracts for the concept formulation, preliminary design, and contract definition or system definition phases of a weapon system development program—unless the contracting officer determines that the contract has a clear potential for value engineering that will be realized only by inclusion of a program requirement; or

(iv) Formally advertised contracts, or negotiated contracts where award will be made solely on the basis of price competition.

(c) With respect to product or component improvement, if the Head of a Procuring Activity affirmatively determines with respect to a particular contract or class of contracts (e.g., engine production contracts) that a value engineering effort offers greater potential benefits to the Government than product or component improvement effort, a value engineering incentive or program requirement clause shall be included (if authorized by paragraph (a) or (b) of this section) in place of any product or component improvement provisions and instead of any separate contracts for product or component improvement.

(d) When a Value Engineering Program Requirement clause is to be included in the contract and the program requirement is restricted to clearly defined phases of the contract work, a Value Engineering Incentive clause shall also be included in the contract if otherwise authorized by paragraph (a) of this section. The Value Engineering Incentive clause is restricted to those phases of the contract work not covered by the program requirement.

§ 1.1703 Types of savings to be shared with the contractor.

§ 1.1703–1 General.

(a) One of the key problems in exploiting the very large cost reduction potential of value engineering is that of making contractual arrangements that

give the contractor an effective incentive to perform value engineering successfully. An effective incentive arrangement must include three principal elements: first, the contractor must be assured of a fair proportion of any savings realized by the Government as a result of his change proposal; second, he must be assured that this proportion will be applied to a substantial base; and third, he must be assured of an objective evaluation and expeditious processing of his change proposal. Sections 1.1703–2 through 1.1703–4 explain the various types of savings to be shared with the contractor and the different incentive arrangements to accomplish such sharing. Normally, the value engineering clause in a particular contract will provide for the contractor to share in savings realized on the instant contract on future acquisitions within a specified period of time, and in the area of reduced collateral costs.

(b) In choosing an appropriate incentive arrangement, it is Department of Defense policy to provide the contractor with substantial financial incentives to undertake value engineering. This policy reflects the premises that the Government will benefit from any value engineering savings, that definitely assured savings from successful value engineering are likely to be only a part of the overall savings, and that a strong incentive tied to definitely assured savings will induce maximum contractor efforts to realize the full savings potential of value engineering.

§ 1.1703–2 Instant contract savings.

(a) Every value engineering clause shall provide for contractor participation in cost savings realized under the instant contract—i.e., the contract under which the value engineering change proposal was submitted—as a result of the contractor's value engineering change proposal.

(b) For purposes of computing the contractor's share under the instant contract sharing provisions in clause paragraph (d), the "instant contract" shall not include any supplemental agreements to or other modifications of the instant contract, executed subsequent to the acceptance of the particular value engineering change proposal, by which the Government increases the quantity of any item or adds any item, nor shall it include any extension of the instant contract by exercise of an option subsequent to acceptance of the proposal. Such supplemental agreements, modifications, and extensions shall be considered as "future contracts" with respect to which the contractor will share under the future acquisition savings provisions in clause paragraph (j).

(c) Where the contract involved is an estimated requirements or other indefinite quantity type contract, the "instant contract," for purposes of computing the contractor's share under the instant contract sharing provisions in clause paragraph (d), shall include only those orders actually placed by the Government up to the time the particular value engineering change proposal is accepted. All orders placed subsequent to the acceptance of the particular change proposal shall be considered "future contracts" with respect to which the contractor will share under the future acquisition savings provisions in clause paragraph (j).

(d) With respect to orders placed by the Government pursuant to a basic ordering agreement, each order is a separate contract. Accordingly, for purposes of determining the contractor's share under the instant contract sharing provisions in clause paragraph (d), the "instant contract" shall be the order under which the particular value engineering change proposal is submitted. Other orders under the same agreement shall be considered either existing contracts (if awarded prior to acceptance of the proposal) or future contracts (if awarded after acceptance of the proposal), with respect to which the contractor will share under the future acquisition savings provisions in clause paragraph (j).

(e) Where the contract involved is a multiyear contract, the Government is contractually bound for the total multiyear quantity (subject to cancellation). Accordingly, for purposes of determining the contractor's share under the instant contract sharing provisions in clause paragraph (d) the "instant contract" shall be the entire contract for the total multiyear quantity.

(f) The value engineering clauses provide that the contractor and the Government will share in the cost savings realized on the "instant contract" as a result of the contractor's value engineering change proposal. In general, the cost savings to be shared will be determined by subtracting from the total decrease in contract price (or target cost) the sum of (1) the contractor's costs of developing the value engineering proposal, insofar as such are properly direct charges under the contract involved and (2) the contractor's cost of implementing the change. For purposes of the above determination, deductible development costs will normally include those incurred after the contractor has identified a specific value engineering project. Developmental costs shall not be deductible where they are otherwise reimbursable under the contract (i.e., directly pursuant to a Program Requirement clause or indirectly through overhead accounts). Implementation costs are considered to be those costs of incorporating a change which are incurred after the value engineering proposal has been accepted by the Government.

(g) Where the contract involved is a service contract, contractor proposals which eliminate, modify, or substitute new procedures for, contractually required work procedures shall qualify for instant contract savings sharing. Where the service contract is a time and material or labor-hour contract, the "effect of the proposal on the contractor's cost of performance," for purposes of the instant contract sharing paragraph (d) of the clause, shall be determined by (1) multiplying the time per item saved by the elimination, modification, or substitution by the labor hour rate agreed upon for the workers involved, and then (2) multiplying the result by the number of items over which the task has been deleted, and (3) taking into account in the usual manner the contractor's cost of developing the proposal and of implementing the change. (The result under (1) above would be the unit cost reduction for purposes of determining future acquisition savings.)

§ 1.1703–3 Future acquisition savings.

(a) *General.* (1) In addition to providing for contractor sharing in savings realized under the instant contract, value engineering clauses normally shall provide for sharing with the contractor savings on future acquisitions of the item, components, system, or task incorporating the value engineering change, by means of (i) "royalty" payments on actual future procurements within a stated period, or (ii) a "lump sum" payment based on estimated savings on additional quantities expected to be procured subsequently. (See paragraphs (c) and (d) of this section for proper uses of the estimated requirements ("lump sum") and "royalty" sharing methods.) The extension of contractor sharing to future acquisition savings is based on the fact that the value engineering cost savings on a single contract usually represent only a small fraction of the full savings and thus may not provide a sufficient incentive. Nevertheless, in some contracts—for example, those involving more than one year of production of substantial quantities—it may be appropriate to restrict contractor participation to cost savings under that contract. In such cases, if the contracting officer makes an affirmative determination that sharing of savings under only the instant contract will provide an effective value engineering incentive to the contractor, then contractor participation may be limited to cost savings under that contract (see § 1.1708).

(2) The length of the sharing period and the types of sharing arrangements may vary with the circumstances and the incentive for value engineering required in the particular procurement. In negotiated procurements, discussions with the prospective contractors may be beneficial in selecting the most suitable sharing period and method.

(b) *Selecting period for sharing future acquisition savings.* The length of the specified period of sharing future acquisition savings, upon which the estimated requirements or the "royalty" period will be based, shall be at least one year, and may be as much as three years, from the scheduled completion of deliveries under the instant contract or the acceptance of the cost reduction proposal, whichever is later, as determined appropriate by the contracting officer to induce a significant value engineering effort. Circumstances such as the following will normally warrant selection of a period longer than one year:

(1) Acquisition of the item in the future will involve an extended period of manufacture, so that few, if any, deliveries of the item may be expected in the first year or so of performance under a future contract;

(2) Current contract volume is for limited quantities, but increased production quantities are expected in following years, so that potential savings will increase progressively in succeeding years;

(3) Use of the item being procured or its relationship to other items or systems may require such an extensive period of test and evaluation before any proposed change could be accepted that substantial cost savings under the instant contract are unlikely; or

(4) Complexity of the item being procured would require high initial implementation costs to incorporate a proposed change, so that a substantial incentive would be required in order to encourage change proposals.

(c) *Estimated requirements ("lump sum") sharing method.* Consideration of the following factors, among others, may influence the determination to use the "lump-sum" sharing method, based on estimating future requirements:

(1) The quantity of items to be procured by the contracting Department for the sharing period to be used can be estimated with a reasonable degree of certainty at the time the solicitation for the current contract is prepared, for example—

(i) Where the contract is for items set forth in the Department of Defense Five Year Force Structure and Financial Program; or

(ii) Where extensive historical data exist which indicate stability of requirements over an extended period and from which future requirements can be predicted with reasonable accuracy;

(2) The disclosure of the estimated future requirements would not compromise national security;

(3) Requirements will be procured through a large number of contracts, e.g., a common item with multiple sources where each contract will be for the supply of only a small portion of total requirements;

(4) An identical item is procured by more than one procuring activity or purchasing office so that administrative costs, such as costs of maintaining records of actual purchases, would substantially diminish the overall savings to the Government.

When this estimated future requirements method of sharing future acquisition savings is to be used, the contracting officer shall set forth the estimated requirements for the sharing period in the value engineering clause. In computing these requirements, the quantities to be procured shall be limited to procurements by the contracting Department or procuring activity (where all or practically all of the requirements will be purchased by a particular procuring activity) for substantially the same end item as that called for under the instant contract, and shall be estimated over a one- to three-year period, as considered appropriate in accordance with paragraph (b) of this section. When the estimated requirements represent quantities to be procured by more than one procuring activity, particular care shall be exercised at the time a value engineering change proposal is accepted to assure that copies of the acceptance are expeditiously furnished to all procuring activities involved, so that they may reflect the change in their contracts and thereby avoid duplicate payment to contractors of savings already shared on quantities included in the estimated requirements. The procedures to be followed in determining and paying the contractor's savings share based on estimating future requirements are set forth in the value engineering clause (see § 1.1707–3(a)).

(d) *Royalty sharing method.* The "royalty" sharing method may be more appropriate than estimating future requirements ("lump sum" method) when:

(1) The contracting Department's future requirements for the sharing period cannot be estimated with the degree of certainty required by paragraph (c) of this section, e.g., where historical data indicate that annual requirements may fluctuate widely;

(2) The disclosure of the estimated future requirements would compromise national security;

(3) The use of the item makes it probable that the requirements for the item being procured may substantially change or be canceled by changes in defense concepts and programs;

(4) The item being procured is characterized by a limited number of sources and is centrally procured by a single purchasing office so that records of future procurements can be collected and maintained economically; or

(5) The item being procured is a product of a rapidly developing technology, so that the usefulness of any value engineering change to current specifications may be of relatively short duration.

When the "royalty" sharing method is determined to be appropriate the "royalty" period shall be specified in the value engineering clause. Instructions with the clause provide that when production of the item involves an unusually extended period of time (e.g., ship construction), the clause may be changed to provide that only the date of award of future contracts for the item, rather than the scheduled delivery dates thereunder, must fall within the sharing period in order for the contractor to receive royalties for items accepted by the Government under such future contracts. The procedures to be followed in determining and paying the contractor's "royalty" share are set forth in the value engineering clause (see § 1.1707–3(b)).

§ 1.1703–4 Collateral savings.

In addition to contractor sharing in instant contract and future acquisition savings, the value engineering clause normally shall provide for contractor participation in any ascertainable net reduction in the Government's over-all projected costs including but not limited to cost of operation, maintenance, logistic support, and Government-furnished property, where such collateral savings result from the change proposal submitted by the contractor. This additional incentive enables the contractor to share in collateral savings (less any increase in acquisition costs) whether or not there is any change in the acquisition cost of the item. However, when the Head of the Procuring Activity or his designee determines that the item or class of items being procured offers no reasonable potential for significant collateral savings, the collateral savings provision may be omitted from a contract or class of contracts.

§ 1.1704 Percentage of contractor sharing.

§ 1.1704–1 General.

The precise extent to which the contractor should share savings resulting from decreases in his cost of performance and in future acquisition costs must be tailored to the particular procurement. For advertised contracts, the percentages of contractor sharing shall be stated in the Value Engineering Incentive clause in the invitation for bids. For negotiated contracts, the percentages of contractor sharing shall be stated in the value engineering clause in the request for proposals, although the percentages may be a subject of negotiation prior to award. In two-step formal advertising, although discussion of the appropriate percentages of contractor sharing is permissible in connection with step one, the percentages shall be specified in the Value Engineering Incentive clause in the invitation for bids that is issued at the beginning of step two.

§ 1.1704–2 Value engineering incentive percentages.

(a) *Instant contract savings.* In firm fixed-price contracts, fixed-price contracts providing for escalation, and fixed-price contracts providing for prospective redetermination, the contractor's share in the cost reduction on the instant contract normally should be 50 percent and in no event shall be greater than 75 percent; however, if such contracts are not awarded on the basis of adequate price competition, a contractor's share of less than 50 percent may be appropriate. In an incentive-type contract, if it is determined that costs and savings can be estimated with reasonable accuracy, the contractor's share may be as much as 50 percent; if costs and savings cannot be estimated with reasonable accuracy, his share should be in accordance with the maximum overall cost incentive sharing rate of the contract.

(b) *Future acquisition savings.* Where the value engineering clause provides for contractor sharing in future acquisition savings, the contractor's percentage share should normally be significantly less than his percentage share on the instant contract and shall never exceed it. Normally, the percentage share in future acquisition savings should be from 20 to 40 percent. Other things being equal, a longer period of sharing future acquisition savings (see § 1.1703–3(b)) should make for a lower percentage

share, and vice versa, within the 20–40 percent range.

(c) *Collateral savings.* When a collateral savings provision is included in any contract, the contractor's percentage share of collateral savings in such areas as Government-furnished property (other than Government-furnished material under the instant contract), operations, and logistic support shall be 10 percent of projected savings which it is estimated will accrue to the Government during an average or typical year's use of the item incorporating the change. The contracting officer's determination of the amount of projected collateral savings shall be final and shall not be subject to the Disputes clause. With respect to savings due to a reduction in the amount of Government-furnished material under the instant contract, the contractor's share shall be the same as his share in instant contract savings.

§ 1.1704–3 Value engineering program requirement percentages.

(a) *Instant contract savings.* In a fixed-price type contract other than an incentive contract, the contractor's share in the cost reduction on the instant contract may be as much as 25 percent. In an incentive-type contract, if it is determined that costs and savings can be estimated with reasonable accuracy, the contractor's share in the cost reduction on the instant contract may be as much as 25 percent; if costs and savings cannot be estimated with reasonable accuracy, his share should be in accordance with the maximum overall cost incentive sharing rate of the contract. In cost-plus-a-fixed-fee contracts, the contractor's share of the savings should normally be 10 percent and shall not exceed this figure.

(b) *Future acquisition savings.* Where the clause provides for contractor sharing in future acquisition savings, the contractor's percentage share should normally be significantly less than his percentage on the instant contract and shall never exceed it. In a fixed-price type or cost-plus-incentive-fee contract, a percentage of from 10 to 20 percent would be appropriate. In a cost-plus-a-fixed-fee contract, 5 percent is normal.

(c) *Collateral savings.* See § 1.1704–3(c).

§ 1.1705 Other considerations.

§ 1.1705–1 Submission of identical value engineering change proposals under more than one contract.

Contractors should be encouraged to submit cost reduction proposals under any of their contracts where the likelihood of savings is present even though an identical proposal may have been accepted under another contract with the contractor or another contractor. When identical value engineering change proposals are submitted under more than one contract for substantially the same items, either with the same contractor or with different contractors, and both are accepted, the value engineering clauses provide that (a) instant contract savings shall be paid under each contract, (b) future acquisition savings shall be paid under each contract, (c) future acquisition savings and collateral savings will be paid only to the extent provided for by the contract under which the proposal is first received by the contracting officer and not pursuant to the other contract, and (d) the royalty sharing provision (if any) in the contract under which the proposal is first received will nevertheless not operate with respect to the other contract under which the Government accepts the proposal and pays instant contract savings.

§ 1.1705–2 Revision of performance incentive provisions.

When a value engineering clause is to be included in a contract that will also include performance incentives, the contract shall include an appropriate provision to permit equitable revisions to the performance incentive provisions in the event that a cost reduction proposal is accepted and utilized which substantially affects the basis for computing the performance incentive.

§ 1.1705–3 Cost allowability.

(a) *General.* Since the Value Engineering Incentive clause does not require the contractor to perform value engineering, the inclusion of such a clause should not in itself increase costs to the Government. In contracts containing the Value Engineering Program Requirement clause, the same principle applies except to the extent that the contractor is required to perform value engineering.

(b) *Cost-type contracts.* In accordance with paragraph (a) of this section, value engineering shall not be allowed as a direct charge against cost-type contracts containing the Incentive clause, and shall be allowed as a direct charge against cost-type contracts containing the Program Requirement clause only to the extent proper to cover the required value engineering program. In either case, the cost of value engineering is an allowable indirect charge to the extent that, under Part 15 of this chapter, it is reasonable in the conduct of the contractor's business as a whole and allocable to the particular contract.

(c) *Negotiated fixed-price type contracts.* With respect to negotiated fixed-price type contracts, the normal price negotiation policies and techniques in Subpart H, Part 3 of this chapter, shall be followed in determining whether and to what extent the cost of value engineering may be included in the contract price.

(d) *Developmental costs.* Notwithstanding the provisions of paragraphs (b) and (c) of this section, developmental costs of successful value engineering proposals shall be deductible from overall cost savings in accordance with § 1.1703–2(f) and the provisions of the applicable instant contract sharing provision in § 1.1707–2.

§ 1.1705–4 Effect of value engineering payments.

The sharing of cost savings with a contractor under a value engineering incentive or program arrangement constitutes payment for services rendered and does not constitute profit or fee for purposes of the statutory limitations imposed by 10 U.S.C. 2306(d).

§ 1.1706 Evaluation and acceptance.

(a) The expeditious processing of, evaluation of, and determination as to the acceptability of any value engineering change proposal under a contract (including the determination as to which clause is applicable if the contract contains both a Value Engineering Incentive and a Value Engineering Program Requirement clause) shall be the responsibility of the contracting officer, whose decision shall be final and shall not be subject to the Disputes clause of the contract.

(b) If the contract contains both a Value Engineering Incentive and a Value Engineering Program Requirement clause and the contracting officer determines that a proposal submitted pursuant to the Incentive clause is within the scope of the value engineering program, that proposal shall be treated for all purposes as if it had been submitted pursuant to the Program Requirement clause.

(c) When it is determined that acceptance of a value engineering change proposal will result in overall cost reduction to the Government, the contracting officer shall accept the proposal by giving the contractor written notice thereof reciting acceptance pursuant to the value engineering clause. Where performance under the contract has not yet been completed and application of the proposed changes to the remaining performance is advisable and appropriate, the written notice of acceptance may be given by issuance of a change order. Insufficient time to evaluate and implement a proposal prior to completion of performance of the contract under which it was submitted shall not be a cause for rejection. In such cases, where future acquisition savings or collateral savings would result from incorporating the changes into the requirements, the contracting officer should accept the proposal for incorporation into future procurements by giving written notice of acceptance to the contractor, and the contract shall be modified accordingly.

(d) Before accepting a cost reduction proposal under a value engineering clause providing for contractor sharing in collateral savings or in future acquisition savings based on estimated requirements, the contracting officer must make sure that sufficient funds are available for expenditure under the instant contract to cover any increase in the contract price which will result from such acceptance. When necessary, the contract under which the proposal was accepted shall be modified to provide funds sufficient to cover the savings sharing payments to the contractor.

(e) When a cost reduction proposal has been accepted under a value engineering clause providing for contractor sharing in future acquisition savings on a "royalty" basis, any appropriation under which a contract is awarded incorporating the proposal must provide funds sufficient to cover the royalty payments which will accrue as a result of the deliveries under the later contract. Although the royalty payments will be made pursuant to the contract under which the cost reduction proposal was accepted, they shall be made from the appropriation supporting the succeeding contract which incorporates the value engineering change.

§ 1.1707 Value engineering clauses.

The appropriate form of the basic clause in § 1.1707–1 shall be used, with the appropriate instant contract sharing provision from § 1.1707–2 and the appropriate future acquisition sharing provision from § 1.1707–3 inserted.

§ 1.1707–1 The basic clause.

(a) *Value engineering incentive.*

VALUE ENGINEERING INCENTIVE (JUNE 1967)

(a) (1) This clause applies to those cost reduction proposals initiated and developed by the Contractor for changing the drawings, designs, specifications, or other requirements of this contract. This clause does not, however, apply to any such proposal unless it is identified by the Contractor, at the time of its submission to the Contracting Officer, as a proposal submitted pursuant to this clause. Furthermore, if this contract also contains a "Value Engineering Program Requirement" clause, this clause applies to any given value engineering change proposal only to the extent the Contracting Officer affirmatively determines that it resulted from value engineering efforts clearly outside the scope of the program requirement; to the extent the Contracting Officer does not affirmatively so determine, the proposal shall be considered for all purposes as having been submitted pursuant to the Value Engineering Program Requirement clause, even if it was purportedly submitted pursuant to this clause.

(2) The cost reduction proposals contemplated are those that:

(i) Would require, in order to be applied to this contract, a change to this contract; and

(ii) Would result in savings to the Government by providing—

(A) A decrease in the cost of performance of this contract, without impairing any of the items' essential functions and characteristics such as service life, reliability, economy of operation, ease of maintenance, and necessary standardized features, or

(B) Items, regardless of the acquisition cost, producing a net reduction in the cost of Government-furnished property, operations, maintenance, or other areas which exceeds any increased acquisition cost, without impairing any of the items' essential functions and characteristics.

(b) As a minimum, the following information shall be submitted by the Contractor with each proposal:

(i) A description of the difference between the existing contract requirement and the proposed change, and the comparative advantages and disadvantages of each;

(ii) An itemization of the requirements of the contract which must be changed if the proposal is adopted, and a recommendation as to how to make each such change (e.g., a suggested revision);

(iii) An estimate of the reduction in performance costs, if any, that will result from adoption of the proposal, taking into account the costs of development and implementation by the Contractor (including any amount attributable to subcontracts in accordance with paragraph (e) below) and the basis for the estimate;

(iv) A prediction of any effects the proposed change would have on collateral costs to the Government such as Government-furnished property costs, costs of related items, and costs of maintenance and operation;

(v) A statement of the time by which a change order adopting the proposal must be issued so as to obtain the maximum cost reduction during the remainder of this contract, noting any effect on the contract completion time or delivery schedule; and

(vi) The dates of any previous submissions of the proposal, the numbers of the Government contracts under which submitted, and the previous actions by the Government, if known.

(c) (1) Cost reduction proposals shall be submitted to the Procuring Contracting Officer (PCO). When the contract is administered by other than the procuring activity, a copy of the proposal shall also be submitted to the Administrative Contracting Officer (ACO). Cost reduction proposals shall be processed expeditiously; however, the Government shall not be liable for any delay in acting upon any proposal submitted pursuant to this clause. The Contractor does have the right to withdraw, in whole or in part, any value engineering change proposal not accepted by the Government within the period specified in the proposal. The decision of the Contracting Officer as to the acceptance of any such proposal under this contract (including the decision as to which clause is applicable to the proposal if this contract contains both a "Value Engineering Incentive" and a "Value Engineering Program Requirement" clause) shall be final and shall not be subject to the "Disputes" clause of this contract.

(2) The Contracting Officer may accept, in whole or in part, either before or within a reasonable time after performance has been completed under this contract, any cost reduction proposal submitted pursuant to this clause by giving the Contractor written notice thereof reciting acceptance under this clause. Where performance under this contract has not yet been completed, this written notice may be given by issuance of a change order to this contract. Unless and until a change order applies a value engineering change proposal to this contract, the Contractor shall remain obligated to perform in accordance with the terms of the existing contract. If a proposal is accepted after performance under this contract has been completed, the adjustment required shall be effected by contract modification in accordance with this clause.

(3) If a cost reduction proposal submitted pursuant to this clause is accepted by the Government, the Contractor is entitled to share in instant contract savings, collateral savings, and future acquisition savings not as alternatives, but rather to the full extent provided for in this clause.

(4) Contract modifications made as a result of this clause will state that they are made pursuant to it.

(d) [Insert the appropriate instant contract sharing provision from § 1–1707.3.]

(e) The Contractor will use his best efforts to include appropriate value engineering arrangements in any subcontract which, in the judgment of the Contractor, is of such a size and nature as to offer reasonable likelihood of value engineering cost reductions. For the purpose of computing any equitable adjustment in the contract price under paragraph (d) above, the Contractor's cost of development and implementation of a cost reduction proposal which is accepted under this contract shall be deemed to include any development and implementation costs of a subcontractor and any value engineering incentive payments to a subcontractor, or cost reduction shares accruing to a subcontractor, which clearly pertain to such proposal and which are incurred, paid, or accrued in the performance of a subcontract under this contract. However, no such payment or accrual to a subcontractor will be permitted, either as a part of the Contractor's development or implementation costs or otherwise, to reduce the Government's share on additional purchases as contemplated by paragraph (j) (if included) of this clause.

(f) (1) In the event that an accepted cost reduction proposal results in a projected net reduction in ascertainable costs in such areas as Government-furnished property (other than Government-furnished material under this contract), operations, or logistic support which exceeds any increase in acquisition cost, the contract price or fee, as applicable, shall be increased by ten percent (10%) of the projected net reduction in ascertainable collateral costs, i.e., collateral savings, estimated to accrue to the Government during an average or typical year of use of the item in which the change is incorporated. The determination of the amount of collateral savings, if any, will be made solely by the Government and shall not be subject to the "Disputes" clause of this contract.

(2) In the event that an accepted cost reduction proposal results in a net reduction in the amount of Government-furnished material under this contract, involving savings to the Government in excess of any increase in cost of performance of this contract, then in addition to any adjustment made pursuant to the "Changes" clause by reason of such increase, the contract price or fee, as applicable, shall be increased by ____ percent (____%)* of the net savings estimated to accrue to the Government in the acquisition of the items under this contract. If the proposal results in a decrease in the cost of performance as well as a net reduction in the amount of Government-furnished material under this contract, an appropriate adjustment in the contract price shall be made pursuant to paragraph (d) in addition to the adjustment provided for by this paragraph (f).

(g) (1) A cost reduction proposal identical to one submitted under any other contract with the Contractor or another contractor may also be submitted under this contract.

(2) If the Contractor submits under this clause a proposal which is identical to one previously received by the Contracting Officer under a different contract with the Contractor or another contractor for substantially the same items and both proposals are accepted by the Government, the Contractor shall share instant contract savings realized under this contract, pursuant to paragraph (d) of this clause, but he shall not share collateral savings or future acquisition savings pursuant to paragraphs (f) and (j) (if included) of this clause.

(h) The Contractor may restrict the Government's right to use any sheet of a value engineering proposal or of the supporting data, submitted pursuant to this clause, in accordance with the terms of the following legend if it is marked on such sheet:

This data furnished pursuant to the Value Engineering clause of contract ——— shall not be disclosed outside the Government, or duplicated, used, or disclosed, in whole or in part, for any purpose other than to evaluate a value engineering proposal submitted under said clause. This restriction does not limit the Government's right to use information contained in this data if it is or has been obtained, or is otherwise available, from the Contractor or from another source, without limitations. If such a proposal is accepted by

*Insert the appropriate percentage, i.e., the Contractor's share, as determined for instant contract sharing under paragraph (d),

the Government under said contract after the use of this data in such an evaluation, the Government shall have the right to duplicate, use, and disclose any data reasonably necessary to the full utilization of such proposal as accepted, in any manner and for any purpose whatsoever, and have others so do.

In the event of acceptance of a value engineering proposal, the Contractor hereby grants to the Government all rights to use, duplicate or disclose, in whole or in part, in any manner and for any purpose whatsoever, and to have or permit others to do so, any data reasonably necessary to fully utilize such proposal.

(i) (1) For purposes of sharing under paragraph (d) above, the term "instant contract" shall not include any supplemental agreements to or other modifications of the instant contract, executed subsequent to acceptance of the particular value engineering change proposal, by which the Government increases the quantity of any item or adds any item, nor shall it include any extension of the instant contract through exercise of an option (if any) provided under this contract after acceptance of the proposal. Such supplemental agreements, modifications, and extensions shall be considered "future contracts" within paragraph (j) (if included) of this clause.

(2) If this contract is an estimated requirements or other indefinite quantity type contract, the term "instant contract" for purposes of sharing under paragraph (d) above shall include only those orders actually placed by the Government up to the time the particular value engineering change proposal is accepted. All orders placed subsequent to the acceptance of the particular change proposal shall be considered "future contracts" within paragraph (j) (if included) of this clause.

(3) If this clause is included in a basic ordering agreement, the "instant contract" for purposes of sharing under paragraph (d) above shall be the order under which the particular value engineering change proposal is submitted. Other orders under the same agreement shall be considered either "existing contracts" (if awarded prior to acceptance of the proposal) or "future contracts" (if awarded after acceptance of the proposal), within paragraph (j) (if included) of this clause.

(4) If this contract is a multiyear contract, the "instant contract" shall be the entire contract for the total multiyear quantity.

(j) [Where future acquisition savings are to be shared with the contractor, insert the appropriate future acquisition sharing provision from § 1.1707–9.]

(b) *Value engineering program requirement.*

VALUE ENGINEERING PROGRAM REQUIREMENT
(JUNE 1967)

(a) (1) The Contractor shall engage in a value engineering program in accordance with MIL–V–38000, shall submit progress reports thereon as specified in the Schedule, and shall submit to the Contracting Officer any cost reduction change proposals resulting from the required program. This clause applies to all cost reduction proposals initiated and developed by the Contractor for changing the drawings, designs, specifications, or other requirements of this contract, whether or not such proposals result from the value engineering program requirement. This clause does not, however, apply to any such proposal unless it is identified by the Contractor, at the time of its submission to the Contracting Officer, as a Value Engineering change proposal, nor to any given value engineering change proposal to the extent the Contracting Officer determines the proposal to be rewardable under the "Value Engineering Incentive" clause (if any) of this contract.

(2) through (j) [Same as (a)(2) through (j) of Value Engineering Incentive clause in § 1–1707.1 (a) above.]

§ 1.1707–2 Instant contract sharing provisions (clause paragraph (d)).

The appropriate one of the instant contract sharing provisions in paragraphs (a) through (f) of this section shall be inserted as paragraph (d) of the Value Engineering Incentive clause or Value Engineering Program Requirement clause in § 1.1707–1.

(a) *Firm fixed-price contracts and fixed-price contracts providing for escalation.* Insert the following as paragraph (d) of the Value Engineering Incentive clause or Value Engineering Program Requirement clause in § 1.1707–1.

(d) If a cost reduction proposal submitted pursuant to this clause is accepted and applied to this contract, an equitable adjustment in the contract price and in any other affected provisions of this contract shall be made in accordance with this clause and the "Termination for Convenience," "Changes," or other applicable clause of this contract. The equitable adjustment shall be established by determining the effect of the proposal on the Contractor's cost of performance, taking into account the Contractor's cost of developing the proposal, insofar as such is properly a direct charge not otherwise reimbursed under this contract, and the Contractor's cost of implementing the change (including any amount attributable to subcontracts in accordance with paragraph (e) below). When the cost of performance of this contract is decreased as a result of the change, the contract price shall be reduced by ____ percent (——%)* of the total estimated decrease in the Contractor's cost of performance. When the cost of performance of this contract is increased as a result of the change, the equitable adjustment increasing the contract price shall be in accordance with the "Changes" clause rather than under this clause, but the resulting contract modification shall state that it is made pursuant to this clause. (JUNE 1967)

(b) *Fixed-price contracts providing for prospective price redetermination.* Insert the following as paragraph (d) of the Value Engineering Incentive clause or Value Engineering Program Requirement clause in § 1.1707–1.

(d) If a cost reduction proposal submitted pursuant to this clause is accepted and applied to this contract, an equitable adjustment in the contract price and in any other affected provisions of this contract shall be made in accordance with this clause and the "Termination for Convenience," "Changes," or other applicable clause of this contract. The equitable adjustment shall be established by determining the effect of the proposal on the Contractor's cost of performance, taking into account the Contractor's cost of developing the proposal, insofar as such is properly a direct charge not otherwise reimbursed under this contract and the Contractor's cost of implementing the change (including any amount attributable to subcontracts in accordance with paragraph (e) below). When the cost of performance of this contract is decreased as a result of the change, the contract price shall be reduced by ____ percent (——%)* of the total estimated decrease in the Contractor's cost of performance attributable to the period for which the price has been established; then in any redetermination of price, under the "Price Redetermination" clause of this contract, having an effective date subsequent to the effective date of any change order or notice of partial termination issued pursuant to this clause, the redetermined price shall not be reduced as a consequence of such change order or notice of partial termination by more than ____ percent (——%)* of the estimated decrease in that part of the Contractor's cost of performance which is attributable to the partinent price redetermination period. When the cost of performance of this contract is increased as a result of the change, the equitable adjustment increasing the contract price shall be in accordance with the "Changes" clause rather than under this clause, but the resulting contract modification shall state that it is made pursuant to this clause. (JUNE 1967)

(c) *Fixed-price incentive (firm target) contracts.* Insert the following as paragraph (d) of the Value Engineering Incentive clause or Value Engineering Program Requirement clause in § 1.1707–1.

(d) If a cost reduction proposal submitted pursuant to this clause and affecting any of the items described in paragraph (a) of the "Incentive Price Revision (Firm Target)" clause of this contract is accepted and applied to this contract, an equitable adjustment in the total target price of such items and in any other affected provisions of this contract shall be made in accordance with this clause and the "Termination for Convenience," "Changes," or other applicable clause of this contract. The equitable adjustment in such total target price shall be established by determining the effect of the proposal on the Contractor's cost of performance, taking into account the Contractor's cost of developing the proposal, insofar as such is properly a direct charge not otherwise reimbursed under this contract, and the Contractor's cost of implementing the change (including any amount attributable to subcontracts in accordance with paragraph (e) below). When the cost of performance of this contract is decreased as a result of the change, (i) the total target cost of the affected items shall be reduced by the full amount of the total estimated decrease in the Contractor's cost of performance, (ii) the total target profit relating to such items shall be increased by ____ percent (——%)** of the total estimated decrease, and (iii) the maximum dollar limit on the total final price of such items shall be decreased by ____ percent (——%)* of the total estimated decrease. When the cost of performance of this contract is increased as a result of the change, the equitable adjustment increasing the contract price shall be in accordance with the "Changes" clause rather than under this clause, but the resulting contract modification will state that it is made pursuant to this clause. (JUNE 1967)

(d) *Fixed-price incentive (successive targets) contracts.* Insert the following as paragraph (d) of the Value Engineering Incentive clause or Value Engineering Program Requirement clause in § 1.1707–1.

(d) If a cost reduction proposal submitted pursuant to this clause and affecting any of

*Insert the appropriate percentage, i.e., the Government's share (see § 1.1704).

**Insert the appropriate percentage, i.e., the Contractor's share (see § 1.1704).

the items described in paragraph (a) of the "Incentive Price Revision (Successive Targets)" clause of this contract is accepted and applied to this contract, an equitable adjustment in the total initial or firm target price of such items and in any other affected provisions of this contract shall be made in accordance with this clause and the "Termination for Convenience," "Changes," or other applicable clause of this contract. The equitable adjustment shall be established by determining the effect of the proposal on the Contractor's cost of performance, taking into account the Contractor's cost of developing the proposal, insofar as such is properly a direct charge not otherwise reimbursed under this contract, and the Contractor's cost of implementing the change (including any amount attributable to subcontracts in accordance with paragraph (e) below). When the cost of performance of this contract is decreased as a result of the change, the total target cost shall be reduced by the full amount of the total estimated decrease in the Contractor's cost of performance, and the minimum, target, maximum fees shall be increased by ____ percent (——%)* of the total estimated decrease. When the cost of performance of the contract is increased as a result of the change, the equitable adjustment shall be in accordance with the "Changes" clause rather than under this clause, but the resulting contract modification shall state that it is made pursuant to this clause. (JUNE 1967)

(f) *Cost-plus-a-fixed-fee Contracts.* Insert the following as paragraph (d) of the Value Engineering Program Requirement clause in § 1.1707–1.

(d) If a cost reduction proposal submitted pursuant to this clause is accepted and applied to this contract, an equitable adjustment in the fixed fee and in any other affected provisions of this contract shall be made in accordance with this clause and the "Termination," "Changes," or other applicable clause of this contract. The equitable adjustment shall be established by determining the effect of the proposal on the Contractor's cost of performance, taking into account the Contractor's cost of developing the proposal, insofar as such is properly a direct charge not otherwise reimbursed under this contract, and the Contractor's cost of implementing the change (including any amount attributable to subcontracts in accordance with paragraph (e) below). When the cost of performance of this contract is decreased as a result of the change, the fixed fee shall be increased by ____ percent (——%)* of the total estimated decrease in the Contractor's cost of performance. When the cost of performance of this contract is increased as a result of the change, the equitable adjustment shall be in accordance with the "Changes" clause rather than under this clause, but the resulting contract modification shall state that it is made pursuant to this clause. (JUNE 1967)

§ 1.1707–3 Future acquisition sharing provisions (clause paragraph (j)).

The appropriate one of the future acquisition sharing provisions in paragraph (a) or (b) of this section shall be inserted as paragraph (j) of the Value Engineering Incentive clause or Value Engineering Program Requirement clause in § 1.1707–1.

(a) *Estimated requirements ("lump sum") sharing provisions.* Where the estimated requirements ("lump sum") sharing method is to be used, insert the following provision as paragraph (j) of the Value Engineering Incentive clause or Value Engineering Program Requirement clause in § 1.1707–1.

(j) (1) If a cost reduction proposal is accepted under this clause, the Contractor will be paid (in addition to any adjustment under (d) and (f) (if included) above) a reward share of estimated savings to the Government to be realized on additional Government purchases of items utilizing the cost reduction proposal. The number of such items which the Government foresees it will purchase under other contracts is ____ (____).** The Contractor's reward share will be ____ percent (____%)*** of the estimated savings to the Government. The estimated savings will be arrived at by:

(i) Multiplying (A) the unit cost reduction under this contract* (without deducting any cost of implementation) by (B) the aforesaid number of items which the Government foresees it will purchase under other contracts, and then

(ii) Subtracting the sum of—

(A) The net increases in ascertainable collateral costs to the Government which the Contracting Officer estimates must reasonably be incurred as a result of application of the cost reduction proposal to this and other contracts, plus

(B) Any predictable costs of implementing the cost reduction proposal which the Contracting Officer estimates must reasonably be incurred in its application to other contracts with the Contractor or other contractors, plus

(C) The amount of any increase in the contract price under (d) above which results from application of the cost reduction proposal to this contract.

(2) For the purpose of this paragraph (j), the unit cost reduction* under this contract shall be the Contracting Officer's estimate of the effect which the value engineering change would have had on the Contractor's cost of performance (as well as on the cost of the items to the Government, where the change involves reduction in the amount of Government-furnished material under this contract) if the change had been included in the original specifications under this contract (this estimate should not take into account any costs of developing the proposal or implementing the change), divided by the number of units called for under this contract.

(3) The Contractor's reward share, if any, will be determined promptly after acceptance of each cost reduction proposal and the contract price will be increased accordingly.

(b) *Royalty sharing provision.* Where the royalty sharing method is to be used, insert the following as paragraph (j) of the Value Engineering Incentive clause or Value Engineering Program Requirement clause in § 1.1707–1.

(j) (1) If a cost reduction proposal is accepted under this clause, the Contractor will

*Insert the appropriate percentage, i.e., the Contractor's share (see § 1.1704).

**Insert the number of units that it is estimated will be purchased during the sharing period (see § 1.1703–8(c)).

***Insert the appropriate percentage, i.e., the Contractor's proportion of estimated savings on additional purchases, in accordance with § 1.1704.

*Whenever, in the judgment of the Contracting Officer, the unit costs under the instant contract will not be fairly representative of the unit costs to be expected under future contracts (as will generally be the case with developmental contracts and may be the case with initial production contracts), this paragraph should be modified by deleting "under this contract" in (j)(1)(A) and by changing the text of (j)(2) to read as follows:

(2) For the purpose of this paragraph (j), the unit cost reduction will be the average amount of the decrease in unit cost of performance (as well as in unit cost to the Government, where the change involves a reduction in Government-furnished material) which the Contracting Officer estimates will result from the utilization of the cost reduction proposal on future purchases of the item.

*Insert the appropriate percentage, i.e., the Contractor's share (see § 1.1704).

**Insert the appropriate percentage, i.e., the Government's share (see § 1.1704).

be paid (in addition to any adjustment under paragraphs (d) and (f) (if included) above) a royalty share of savings realized by the Government on future purchases, if any, of items utilizing the cost reduction proposal. The Contractor's royalty share will be _____ percent (——%)* of the unit cost reduction under this contract** (without deducting any cost of development or implementation) multiplied by the quantity of _____*** which

(i) utilize the cost reduction proposal pursuant to the specifications or other provisions of any other contract of the _____**** which is awarded after acceptance of the cost reduction proposal and

(ii) are originally scheduled for delivery not later than _____ (_____) years***** after either the last originally scheduled delivery date for any such item under this contract or the date of acceptance of the cost reduction proposal whichever is later,****** and

However, if (iii) are accepted by the Government under such other contracts, application of the cost reduction proposal reasonably requires the incurrence of any net increase in ascertainable collateral costs to the Government in connection with this or future contracts with the Contractor or other contractors or any predictable implementation costs for future contracts with the Contractor or other contractors, or if application of the cost reduction proposal to this contract results in an increase in the contract price under paragraph (d) above, then the sum of such collateral costs, implementation costs, and price increase will be determined promptly after acceptance of the cost reduction proposal. Then the estimated savings on future contracts (unit cost reduction under the instant contract multiplied by quantity affected under the future contract to which the royalty sharing under this paragraph (j)(1) applies) shall be successively credited against the sum of such collateral costs, implementation costs, and price increase so that no amount shall be payable under this paragraph (j)(1) unless and until the amounts so credited equal such sum.

(2) For purposes of determining the Contractor's royalty share under (1) above, the "unit cost reduction"* under this contract is the Contracting Officer's estimate of the effect which the value engineering change would have had on the Contractor's cost of performance (as well as on the cost of the items to the Government, where the change involves reduction in the amount of Government-furnished material under this contract) if the change had been included in the original specifications under this contract (this estimate shall not take into account any costs of developing or implementing the change), divided by the number of units called for under this contract.

(3) If a cost reduction proposal is accepted under this clause, the Contractor will also be paid a royalty share of savings realized by the Government on existing contracts, if any, utilizing the cost reduction proposal. This royalty share will be ____ percent (__%)** of the unit cost reduction under each contract of the _____*** which is in existence at the time of acceptance of the cost reduction proposal, multiplied by the quantity of _____**** which

(i) Utilize the cost reduction proposal pursuant to the specifications or other provisions of such existing contracts, and

(ii) Are accepted by the Government under such existing contracts.

(4) For purposes of determining the Contractor's royalty share under (3) above, the "unit cost reduction" under each existing contract is the total amount of the decrease in cost of performance of that contract (as well as in the cost of the items to the Government, where the change involves a reduction in Government-furnished material under that contract) which the Contracting Officer estimates will actually result from utilization of the cost reduction proposal on that contract, divided by the total number of items on which the cost reduction proposal is actually utilized under that contract.

(5) The amount of the unit cost reduction will be determined promptly after acceptance of each cost reduction proposal.

(6) The royalty shares to which the Contractor is entitled under (1) above shall be paid by the Government to the Contractor at the time the future contract is awarded, on the express condition that to the extent that the Government does not, in fact, receive delivery of and accept all items on which the royalty share is paid, the Contractor warrants that he will reimburse the Government the proportionate share of his royalty payment.* The royalty shares to which the Contractor is entitled under (3) above shall be paid by the Government to the Contractor from time to time and in reasonable increments as they accumulate and no payable amount will remain unpaid for more than six (6) months.

(7) Notwithstanding any other provision of this paragraph (j), the Contractor shall not be paid a royalty share of savings realized on those future or existing contracts for substantially the same items under which an identical cost reduction proposal is submitted by this Contractor or another contractor and accepted by the Government.

§ 1.1706 Instant contract only sharing provision.

(a) When contractor participation in cost savings is to be limited to savings under the instant contract only (see § 1.1703-3(a)(i)), the appropriate value engineering clause in § 1.1707 shall be modified by deleting the last sentence of paragraph (a) thereof and by modifying the appropriate paragraph (d) thereof to provide that the contractor's share in savings resulting from decreases in the contractor's cost of performance shall be computed on the total estimated decrease in the cost of performance after deducting any net increase in ascertainable collateral costs to the Government which must reasonably be incurred as a result of application of the cost reduction proposal to this contract.

(b) *Example 1:* If clause paragraph (d) in § 1.1707-2(a) is used (firm fixed-price contract or fixed-price contract providing for escalation), language such as the following shall be substituted for the third sentence thereof:

When the cost of performance of this contract is decreased as a result of the change, the contract price shall be reduced by the following amount: the total estimated decrease in the Contractor's cost of performance less ____ percent (——%)* of the difference between the amount of such total estimated decrease and any net increase in ascertainable collateral costs to the Government which must reasonably be incurred as a result of application of the cost reduction proposal to this contract.

(c) *Example 2:* If clause paragraph (d) in § 1.1707-2(c) is used (fixed-price incentive (firm target), contract), language such as the following shall be substituted for the third sentence thereof:

When the cost of performance of this contract is decreased as a result of the change, (i) the total target cost of the affected items shall be reduced by the full amount of the total estimated decrease in the Contractor's cost of performance, (ii) the total target profit relating to such items shall be increased by ____ percent (——%)* of the difference between the total estimated decrease and any net increase in ascertainable collateral costs to the Government which must reasonably be incurred as a result of application of the cost reduction proposal to this contract, and (iii) the maximum dollar limit on the total final price of such items shall be decreased by ____ percent (——%)** of the total estimated decrease.

§ 1.1709 Exclusion of collateral savings provision.

Where the Head of the Procuring Activity or his designee has determined that the item or class of items being procured offers no reasonable potential for significant collateral savings, the Value Engineering clause in § 1.1707 shall be modified by deleting subparagraph (a)(2)(ii)(B) and paragraph (f) thereof.

§ 1.1710 Royalty payment notice for future acquisition contract documents.

In order to provide guidance on the proper citation of appropriations, insert the following notice on the contract documents covering each additional purchase of items on which royalty payments will be payable, in accordance with a Value Engineering Incentive or Value Engineering Program Requirement clause prescribing the "royalty" method for sharing future acquisition savings. The notice should be inserted directly following the citation of appropriation and accounting data or, if space does not permit such insertion, the notice should be referred to there.

Notice of value engineering royalty payments. Award of this contract* obliges the Government to pay "royalties," in accordance with the Value Engineering provisions of Contract No. _____,** to the Contractor under that contract. These royalty payments, which are a share of the value engineering savings realized by the Government on this contract as a result of utilizing cost reduction proposals submitted under such Value Engineering provisions, are to be made from appropriations currently available for the procurement of items under this contract in the manner provided by such Value Engineering provisions. To the extent that the Government does not, in fact, receive delivery of and accept all items on which the royalty share is paid, the Government is entitled to reimbursement of a proportionate share of the royalty payment from the Contractor to whom it was paid.

---

*Insert the appropriate percentage, i.e., the Contractor's proportion of savings on additional purchases, in accordance with 1-1704.

**Whenever, in the judgment of the Contracting Officer, the unit costs under the instant contract will not be fairly representative of the unit costs to be expected under future contracts (as will generally be the case with developmental contracts and may be the case with initial production contracts), this paragraph should be modified by deleting "under this contract" from the second sentence of paragraph (j)(1) and by changing the first sentence of (j)(2) to read as follows:

For purposes of determining the Contractor's royalty share under (1) above, the unit cost reduction will be the average amount of the decrease in unit cost of performance (as well as in unit cost to the Government, where the change involves a reduction in Government-furnished material) which the Contracting Officer estimates will result from the utilization of the cost reduction proposal on future purchases of the item.

***Insert the types of items considered by the Government to be substantially the same end items as those purchased under this contract.

****Insert the appropriate contracting Department or procuring activity (or activities).

*****Insert the length of time of the royalty period, e.g., the appropriate number of years in accordance with 1-1708.3(b).

******Where the contract is for items which characteristically require an unusually extended period of time for production (e.g., ship construction), it may be necessary, in order to provide sufficient incentive under the royalty sharing provision, to provide for a royalty on items accepted under all contract awarded within the sharing period, even if the scheduled delivery date is outside the sharing period. Accordingly, if the contracting officer determines this to be the case, he may delete the following words from (i) and (ii)—"after acceptance of the cost reduction proposal, and (ii) are originally scheduled for delivery"—and renumber (iii) as (ii).

*(See Footnote **, under (i) above.)

**Insert the appropriate percentage, i.e., the contractor's proportion of savings on additional purchases, in accordance with 1-1704.

***Insert the appropriate contracting Department or procuring activity (or activities).

****Insert the types of items considered by the Government to be substantially the same end items as those purchased under this contract.

*When the contracting officer, in his discretion, believes it preferable in order best to protect the interests of the Government, he may delete this sentence and add "(i) and" before "(3)" in the next sentence.

*Insert the appropriate percentage, i.e., the contractor's share (see § 1.1704).

**Insert the appropriate percentage, i.e., the Government's share (see § 1.1704).

When applicable (see clause paragraph (j)(6), footnote, in § 1.1707-3(b)), change "Award of this contract" to "Acceptance of items under this contract" and delete the last sentence of this notice.

**Insert the number of the contract under which the pertinent Value Engineering change proposal was accepted.

PART 3—PROCUREMENT BY NEGOTIATION

5. A new subparagraph (66) is added to § 3.501(b); § 3.808-2(b)(1) is revised; and new paragraph (f) is added to § 3.808-4, as follows:

§ 3.501 Preparation of request for proposals or request for quotations.

• • • • • •

(b) • • •

(66) To insure timely distribution of Material Inspection and Receiving Reports (DD Forms 250), the name and address of the Status Control Activity/Inventory Control Manager and the purchasing office (when other than the purchasing office issuing the contract) shall be included in the contract schedule or as an attachment to the contract.

• • • • • •

§ 3.808-2 Weighted guidelines method.

• • • • • •

(b) *Exceptions.* (1) Under the following circumstances, other methods for establishing profit objectives may be used. Generally, it is expected that such methods will accomplish the two features of the weighted guidelines methods set forth in paragraph (a)(1) of this section. These circumstances are:

(i) Architect-engineering contracts;

(ii) Personal or professional service contracts;

(iii) Management contracts, e.g., for maintenance or operation of Government facilities;

(iv) Termination settlements;

(v) Engineering services, labor-hour, time-and-material, and overhaul contracts providing for payment on a man-hour, man-day or man-month basis, and where the contribution by the contractor constitutes the furnishing of personnel rather than the output of an integrated research, engineering, or manufacturing organization; and

(vi) Cost-reimbursement construction contracts.

• • • • • •

§ 3.808-4 Profit factors.

• • • • • •

(f) The weighted guidelines method was designed for arriving at profit or fee objectives for other than nonprofit organizations. However, if appropriate adjustments are made to reflect differences between profit and nonprofit organizations, the weighted guidelines method can be used as a basis for arriving at fee objectives for nonprofit organizations. Therefore, the policy of the Department of Defense is to use the weighted guidelines method, as modified in subparagraph (2) of this paragraph, to establish fee objectives which will stimulate efficient contract performance and attract the best capabilities of nonprofit organizations to defense oriented activities. The modifications should not be applied as deductions against historical fee levels, but rather, to the fee objective for such a contract as calculated under the weighted guidelines method.

(1) For purposes of this paragraph, nonprofit organizations are defined as those business entities organized and operated exclusively for charitable, scientific or educational purposes, no part of the net earnings of which inure to the benefit of any private shareholder or individual, no substantial part of the activities of which is carrying on propaganda or otherwise attempting to influence legislation or participating in any political campaign on behalf of any candidate for public office, and which are exempt from Federal income taxation under Section 501 of the Internal Revenue Code.

(2) For contracts with nonprofit organizations where fees are involved, the following adjustments are required in the weighted guidelines method.

(i) A special factor of —3% shall be assigned in all cases.

(ii) The weight range under "Contractor's Assumption of Contract Cost Risk" shall be —2% to —1% in lieu of 0% to 7% for contracts with those nonprofit organizations or elements thereof identified by the Secretary of Defense or the Secretary of a Department (or their respective designees) as receiving sustaining support on a cost-plus-a-fixed-fee basis from a particular Department or Agency of the Department of Defense.

(iii) The weight ranges for "Record of Contractor's Performance" and "Selected Factors" shall be halved, i.e., —1% to +1% rather than —2% to +2%. The purpose of this accommodation is to maintain the internal scale of the weighted guidelines when one or both of the adjustments indicated above are applied.

PART 4—SPECIAL TYPES AND METHODS OF PROCUREMENT

6. Section 4.117 is revised to read as follows:

§ 4.117 Contractor performance evaluation program.

The Contractor Performance Evaluation Program is a procedure for determining and recording the effectiveness of advanced-development (with measurable contractual commitments), engineering-development, and operational-systems-development and production contractors in meeting the performance, schedule, and cost provisions of their contracts. The program requires project managers within the Military Departments to submit periodic Contractor Performance Evaluation Reports (see DD Form 1446 series) for all such development contracts whose projected cost for a single year will exceed $2 million or whose projected overall cost will exceed $10 million and for all production contracts that follow or are concurrent with the development contracts evaluated (until firm specifications susceptible to price competition are in use), if the projected costs exceeds $5 million for a single year or if the projected overall cost

exceeds $20 million. After review or certification by the appropriate Departmental Contractor Performance Evaluation Group (see DD Form 1447 series), the report is submitted to the contractor and then transmitted, with the contractor's comments, to the Director of Contractor Performance Evaluation, Office of the Assistant Secretary of Defense (Installations and Logistics), for storage in a central data bank and use by Source Selection Advisory Councils or other persons or groups acting in similar capacity, contracting officers in determining fees or profits and the Renegotiation Board (see § 1.319(f)). The central data bank is maintained at the Defense Documentation Center of the Defense Supply Agency, Cameron Station, Alexandria, Va. 22314. Detailed procedures for this program are set forth in the Department of Defense Guide to Contractor Performance Evaluation (Development and Production).

§ 4.502 [Amended]

7. In § 4.502, the reference "§ 6.101(c)" is changed to read "§ 6.001(c)".

8. Section 4.503–1 is revised; the first sentence of § 4.503–5 is revised; §§ 4.507–2 and 4.507–3 are revised; and § 4.507–4 is revoked, as follows:

§ 4.503–1 General.

Procedures for procurement by barter are set forth below. These procedures are also authorized for use when a purchasing office elects to utilize barter in connection with procurement of a foreign end product (see §§ 6.001(a) and 6.101 (a) and (c) of this chapter) from sources (contractors) within the United States for use outside the United States in anticipation of or in connection with authorization for foreign end product purchase under applicable balance of payment directives. In such instances, these procedures shall be used as a guide, adapted to the extent appropriate for the particular procurement.

§ 4.503–5 Step four—invitations for bids and request for proposals.

Upon receipt of approval from the CCC, the purchasing office shall issue an invitation for bids or a request for proposals, furnishing telegraphic notice thereof to the CCC. * * *

§ 4.507–2 Description.

The principal distinguished features of these special barter payment arrangements are:

(a) Contracting for supplies and services is effected by procuring activities in the same manner as if there were no special barter arrangements;

(b) Defense suppliers have no payment arrangements with barter contractors;

(c) Defense suppliers will not assign to the CCC monies due or to become due under contracts;

(d) Barter contractors are selected by the CCC;

(e) Barter transactions proceeds are provided by the interested barter contractor to the disbursing officer to effect payments to defense suppliers;

(f) Payment arrangements between the procurement agency and the barter contractor is made a part of the contract between the barter contractor and CCC; and

(g) As barter transaction proceeds are deposited to the account of the military disbursing officer, equivalent amounts are immediately remitted by the military disbursing officer to the CCC.

§ 4.507–3 Other requirements.

Each service will submit to CCC an annual schedule of barter payment arrangement requirements by country and by recommended time phasing and will further state:

(a) That the contemplated procurement of supplies and services appear susceptible to barter;

(b) That it has been or will be properly determined that all supplies or services to be procured under separate agreement are not returnable to the United States for procurement under applicable balance of payments directives;

(c) That the CCC, by open competition, select a barter contractor who will provide a stated amount of dollars (and no other currency) to the military disbursing officer and who will receive for export surplus agricultural commodities from the CCC; that it will further be the responsibility of the contracting officer or disbursing officer to instruct the barter contractor where and how to make the necessary monthly payments;

(d) That the dollars to be provided by the barter contractor will be made available in stated monthly installments and will be deposited into a depository selected by the military disbursing officer (Withdrawals from this depository will be made only by or on the direction of a designated military disbursing officer without restriction for payment of materiel and services earned by and payable to defense suppliers.); and

(e) That the designated military disbursing office will pay to the Treasurer of the Commodity Credit Corporation by check, at the time funds are received by the military disbursing office from the barter contractor, an amount equal to the sum of the funds so received.

§ 4.507–4 Agreement with CCC. [Revoked]

PART 5—INTERDEPARTMENTAL AND COORDINATED PROCUREMENT

9. New § 5.1107–4 is added, as follows:

§ 5.1107–4 Authorization for exceeding MIPR estimates.

Each MIPR shall indicate on its face whether or not the total MIPR estimate may be exceeded by the purchasing office, and if affirmative, by what amount. The aditional amount shall not be more than $20,000, or 10 percent of the total estimated MIPR amount, whichever is less.

PART 7—CONTRACT CLAUSES

10. Sections 7.104–45, 7.203–27, 7.204–32, 7.303–32, 7.402–28, 7.606–11, 7.702–42, 7.703–34, 7.704–27, and 7.1102–2(b)(2) are revised to read as follows:

§ 7.104–45 Value engineering program requirement.

In accordance with the requirements of § 1.1702 of this chapter, insert the clause set forth in § 1.1707–1(b) of this chapter.

§ 7.203–27 Payment for overtime premiums.

In accordance with the requirements of § 12.102 of this chapter, insert the contract clause set forth in § 12.102–6 of this chapter.

§ 7.204–32 Value engineering.

In accordance with the requirements of § 1.1702 of this chapter, insert the applicable clause set forth in § 1.1707 of this chapter.

§ 7.303–32 Value engineering program requirement.

In accordance with the requirements of § 1.1702 of this chapter, insert the clause set forth in § 1.1707–1(b) of this chapter.

§ 7.402–28 Payment for overtime premiums.

In accordance with the requirements of § 12.102 of this chapter, insert the contract clause set forth in § 12.102–6 of this chapter.

§ 7.606–11 Payment for overtime premiums.

In accordance with the requirements of § 12.102 of this chapter, insert the clause set forth in § 12.102–6 of this chapter.

§ 7.702–42 Payment for overtime premiums.

In accordance with the requirements of § 12.102 of this chapter, insert the contract clause set forth in § 12.102–6 of this chapter.

§ 7.703–34 Payment for overtime premiums.

In accordance with the requirements of § 12.102 of this chapter, insert the contract clause set forth in § 12.102–6 of this chapter.

§ 7.704–27 Payment for overtime premiums.

In accordance with the requirements of § 12.102 of this chapter, insert the contract clause set forth in § 12.102–6 of this chapter.

§ 7.1102–2 Requirements contracts.

* * * * *

(b) Requirements.

* * * * *

(2) When subsistence requirements for both troop issuance and resale have been included in the same Schedule and it is contemplated that similar products will be procurred on a "brand name" basis, include the following paragraph (h) in the clause set forth above:

(h) The requirements referred to in this contract are for items to be manufactured according to Government specifications, and notwithstanding anything to the contrary

stated herein, the Government may procure similar products by "brand name" for resale purposes from other sources.

* * * * *

PART 9—PATENTS, DATA, AND COPYRIGHTS

11. Section 9.202–3(b) is revised to read as follows:

§ 9.202–3 Procedure.

* * * * *

(b) *Establishing the Government's rights to use technical data acquired.* All technical data specified in a contract or subcontract for delivery thereunder shall be acquired subject to the rights established in the appropriate Rights in Technical Data clauses set forth in this subpart. Except as provided in § 1.1707 and subpart I, Part 18 of this chapter, no other clauses, directives, standards, specifications or other implementation shall be included, directly or by reference, to enlarge or diminish such rights. The Government's acceptance of technical data subject to limited rights does not impair any rights in such data to which the Government is otherwise entitled or impair the Government's right to use similar or identical data acquired from other sources.

* * * * *

PART 10—BONDS, INSURANCE, AND INDEMNIFICATION

12. Section 10.201–2(d) is revised to read as follows:

§ 10.201–2 Individual sureties.

* * * * *

(d) *Justification.* The contracting officer, in evaluating bonds and consents of surety underwritten by individual sureties, must first ascertain that all documents, including the Affidavits of Individual Surety required by Instruction No. 4b on the reverse of Standard Form 24, "Bid Bond," and Instruction No. 3b on the reverse of Standard Form 25, "Performance Bond," and Standard Form 25–A, "Payment Bond," have been completely filled out and are properly executed. The contracting officer must next ascertain that each individual surety, underwriting a bond or consent of surety which increases the penal amount of a bond previously furnished, justifies his net worth "in a sum not less than the penalty of the bond" as required by Instruction No. 3 on the reverse of Standard Form 28, "Affidavit of Individual Surety." Since individual sureties are jointly and severally liable in the event of default by the principal, each individual surety must list on Standard Form 28 a net worth at least equal to the total penal amount of the bond or consent of surety. Example: If performance and payment bonds on a construction contract have penal amounts of $4,000 and $2,000, respectively, each individual surety must show a net worth of at least $6,000 to have the contracting officer accept his underwriting of such bonds. Normally net worth will be the amount indicated by the individual surety on line g, block 7, of Standard Form 28. However, the contracting officer is expected to consider all relevant information furnished by the individual surety on Standard Form 28 and make an independent determination of the individual surety's net worth based on the contracting officer's own best judgment. Example: Normally the "fair value" of real estate is a more realistic figure than the "assessed value" for taxation purposes. However, there may be situations where the reverse is true, for the purpose of determining net worth, in which case the contracting officer may determine net worth is a figure than that entered on line g, block 7 of Standard Form 28. The contracting officer also should scrutinize closely the information entered in block 10 on Standard Form 28 as the amount of outstanding bond obligation of an individual surety may have a substantial bearing on the financial position of such individual surety. The contracting officer may determine that the total amount entered in block 10 should be deducted from the net worth figure entered on line g, block 7, to arrive at a more realistic net worth or he may determine to deduct nothing, or only a portion of the amount entered in block 10 if upon inquiry he discovers that the contracts on which the bonds were written are completed in part and suppliers and materialmen paid in part. Affidavits should be scrutinized closely by a contracting officer in any case where an individual surety is underwriting a bond for a principal for whom that surety has underwritten other outstanding bonds. If the contracting officer cannot make a determination of net worth on the basis of information furnished on Standard Form 28, he should require the individual surety to furnish additional information. As a general rule, the contracting officer should not require extrinsic evidence of an individual surety's net worth (other than Standard Form 28) unless Standard Form 28 is not filled out completely or properly, or unless the contracting officer has reason to believe that the individual surety's statements on Standard Form 28 do not reflect his true net worth.

* * * * *

PART 11—TAXES

13. In § 11.403–1, the first sentence of paragraph (a) is revised to read as follows:

§ 11.403–1 General.

(a) *Use of clauses.* Tax agreements have been made with Belgium, Republic of China, Denmark, France, Federal Republic of Germany (including West Berlin), Greece, Iceland, Italy, Japan, Republic of Korea, Luxembourg, the Netherlands, Norway, the Philippines, Portugal, Spain, Turkey, the United Kingdom, and Yugoslavia, under which the United States expenditures for the common defense are exempt from certain specified taxes of the countries in which these expenditures are made. * * *

PART 12—LABOR

14. Sections 12.102, 12.102–1, 12.102–2, 12.102–3, 12.102–4, 12.102–5, and 12.102–6 are revised, and new § 12.102–7 is added, as follows:

§ 12.102 Overtime.

§ 12.102–1 Definitions.

As used throughout §§ 12.102–12.102–7:

(a) "Normal workweek" and "normal workday" mean, generally, a workweek of 40 hours and a workday of 8 hours, respectively: *Provided*, That in any area outside the United States, its possessions, and Puerto Rico, a workweek longer than 40 hours, or a workday longer than 8 hours, will be considered normal (1) if such workweek or workday does not exceed that which is normal for such area, as determined by local custom, tradition, or law and (2) if hours worked in excess of 40 in such workweek, or 8 in such workday, are not compensated at a premium rate of pay.

(b) "Overtime" means time worked by a contractor's employee in excess of the employee's normal workweek or normal workday.

(c) "Overtime premium" means the difference between the contractor's regular rate of pay to an employee for the shift involved and the higher rate paid for overtime. It does not include shift premium which is the difference between the compensation paid to an employee at the contractor's regular rate of pay for the base shift and that paid at the regular rate of pay for extra-pay shift work.

§ 12.102–2 Policy.

It is the policy of the Department of Defense that all contracts will be performed, so far as practicable, without the use of overtime, particularly as a regular employment practice, except where lower overall costs to the Government will result. Contractors should utilize whatever work schedule results in the lowest overall cost to the Government consistent with contract delivery and performance requirements. Extra-pay shifts and multi-shift work should be scheduled, as required, to achieve these objectives. In the negotiation of contracts, overtime premiums will be recognized in establishing a fixed price or estimated cost only to the extent consistent with the needs of the Government for the supplies or services being procured.

§ 12.102–3 Approval of overtime premiums.

(a) Approval of overtime premiums is required:

(1) By the contracting officer under time and material and labor-hour contracts (see paragraph (a)(3) of the clause set forth in § 7.901–6 of this chapter); and

(2) By the approving official (see § 12.102–4(e)), (i) prior to execution of cost reimbursement type contracts containing the clause set forth in § 12.102–6, for any overtime to be included in paragraph (d) of the clause, and (ii) prior to modification of such a contract

for any increase in the overtime included in paragraph (d) of the clause.

(b) Approval of overtime premiums under contracts other than those referenced in paragraph (a) of this section shall not be required.

§ 12.102–4 Approval of overtime premiums in certain cost-reimbursement type contracts.

(a) To prevent uneconomic use of overtime, at Government expense, the clause set forth in § 12.102–6 shall be included in all cost-reimbursement type contracts in excess of $100,000, except cost-reimbursement type contracts for the operation of vessels and cost-plus-incentive-fee contracts having a cost incentive which provides for a swing from target fee of at least ±3 percent and a contractor's share of cost of at least 10 percent. Whenever this clause is used, the procedural requirements of this section shall be followed.

(b) An amount for overtime premiums at Government expense may be included in paragraph (d) of the clause set forth in § 12.102–6 when the use of overtime has been approved by an official designated as provided in paragraph (e) of this section. Only overtime premiums for work in those departments, sections, etc., of the contractor's plant which have been individually evaluated and the necessity for overtime confirmed, will be considered for approval, and then only for overtime premiums not reimbursable under the exceptions contained in paragraph (a) (ii) of the clause. Approval may be granted when such official determines in writing that overtime is necessary:

(1) To meet delivery or performance schedules, and such schedules are determined to be consistent with essential military objectives;

(2) To make up for delays beyond the control and without the fault or negligence of the contractor; or

(3) To eliminate foreseeable production bottlenecks of an extended nature which cannot be eliminated in any other way.

(c) When, during negotiation, it becomes apparent that overtime will be required during the performance of the contract and the contract will contain the clause in § 12.102–6, the PCO shall secure from the contractor a request substantially in accordance with the request procedures in paragraph (c) of such provision for all overtime to be used during the life of the contract, to the extent that it can be estimated with reasonable certainty. If the contemplated overtime premium could affect the costing of other work performed by the contractor or is significant in amount, the PCO may avail himself of the advisory services of the cognizant Defense Contract Audit Agency office to determine the proper accounting treatment of such premium. The PCO shall request from the appropriate official designated, as provided in paragraph (e) of this section, approval for overtime premiums at Government expense. Upon receipt of such approval, the PCO shall complete paragraph (d) of the clause.

(d) During contract performance, requests for overtime, submitted pursuant to the clause in § 12.102–6, will be submitted to the ACO who shall evaluate the need for such overtime and forward the request, with his comments, as expeditiously as possible to the PCO. Thereupon, the PCO, if he desires that the requested overtime be approved in whole or in part, shall, unless a prior authorization is sufficient to cover the overtime requested, request the approval of the appropriate official designated as provided in paragraph (e) of this section and, as expeditiously as possible, modify paragraph (d) of the clause to reflect the approval.

(e) The Director of Procurement, Office of the Assistant Secretary of the Army (Installations and Logistics), for the Army; the Deputy Chief of Naval Material (Procurement), for the Navy; the Director of Procurement Policy, Headquarters, USAF, for the Air Force; and the Executive Director for Procurement and Production, for the Defense Supply Agency, are authorized, without power of delegation, to designate without power of redesignation, officers and civilian officials for the purpose of approving overtime premiums at Government expense. Such approval may be for an individual contract, project, or program, or for a plant, division, or company, as most practicable, and shall ordinarily be prospective, but may be retroactive when justified by the circumstances. Where two or more purchasing offices have current contracts at a single facility, and the approval of overtime by one purchasing office will affect the performance or cost of contracts of another, the approving official will obtain the concurrence of other appropriate approving officials and seek agreement as to the contracts under which overtime premiums will be approved. If the approving officials do not agree within a reasonable time as to the action to be taken, a decision shall be obtained through normal channels. Ordinarily, in the absence of evidence to the contrary, a purchasing office may rely on the contractor's statement that such approval will not affect the performance, or payments in connection with any contract of another purchasing office.

§ 12.102–5 Contract administration.

(a) The cost of overtime premiums under the clause set forth in § 12.102–6, and all overtime premiums under cost-reimbursement type contracts which do not contain the clause set forth in § 12.102–6, shall be allowed only to the extent the amount thereof is reasonable and properly allocable to the work under the contract, in accordance with § 15.201 of this chapter.

(b) In administration of contracts under which overtime has been approved pursuant to § 12.102–4, the ACO and the cognizant audit activity shall review periodically the use of such overtime to assure that it is reasonable and properly allocable to work under the contract.

§ 12.102–6 Payment of overtime premiums clause.

The following clause shall be used when required by § 12.102–4(a).

PAYMENT FOR OVERTIME PREMIUMS (JUNE 1967)

(a) Allowable cost shall not include any amount on account of overtime premiums except when (i) specified in (d) below or (ii) paid for work—

(A) Necessary to cope with emergencies such as those resulting from accidents, natural disasters, breakdowns of production equipment, or occasional production bottlenecks of a sporadic nature;

(B) By indirect labor employees such as those performing duties in connection with administration, protection, transportation, maintenance, standby plant protection, operation of utilities, or accounting;

(C) In the performance of tests, industrial processes, laboratory procedures, loading or unloading of transportation media, and operations in flight or afloat, which are continuous in nature and cannot reasonably be interrupted or otherwise completed; or

(D) Which will result in lower overall cost to the Government.

(b) The cost of overtime premiums otherwise allowable under (a) above shall be allowed only to the extent the amount thereof is reasonable and properly allocable to the work under this contract.

(c) Any request for overtime, in addition to any amount specified in (d) below, will be for all overtime which can be estimated with reasonable certainty shall be used for the remainder of the contract, and shall contain the following:

(i) Identification of the work unit, such as the department or section in which the requested overtime will be used, together with present workload, manning and other data of the affected unit, sufficient to permit an evaluation by the Contracting Officer of the necessity for the overtime;

(ii) The effect that denial of the request will have on the delivery or performance schedule of the contract;

(iii) Reasons why the required work cannot be performed on the basis of utilising multi-shift operations or by the employment of additional personnel; and

(iv) The extent to which approval of overtime would affect the performance or payments in connection with any other Government contracts, together with any identification of such affected contracts.

(d) The Contractor is authorized to perform overtime, in addition to that performed under (a)(ii), to the extent that the overtime premium does not exceed *_____

*Insert the amount, in dollars, agreed to during negotiations as representing the overtime premiums applicable to overtime not reimbursable under the exceptions contained in (a) (ii) of the clause. If it was agreed that the contract could be performed without the use of additional overtime, insert "Zero."

§ 12.102–7 Construction contracts.

See § 18.111 of this chapter regarding expediting actions involving additional costs.

15. The introductory text of § 12.302 is revised, and §§ 12.302(a) and 12.306 are revised, as follows:

§ 12.202 Applicability.

The requirement set forth in § 12.201 applies, except as stated below, to all contracts involving the employment of labor within the United States. The requirement does not prohibit the employment of persons on parole or probation, Federal prisoners authorized by the Attorney General under 18 U.S.C. 4082(c)(2) to work at paid employment during the term of their imprisonment, or persons who have been pardoned or who have served their terms. Furthermore, the requirement does not apply to the following kinds of contracts:

* * * * *

§ 12.302 Applicability.

* * * * *

(a) Contracts (or portions thereof) to be performed in a foreign country or within territory under the jurisdiction of the United States other than the following: a State of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Outer Continental Shelf Lands defined in the Outer Continental Shelf Lands Act, American Samoa, Guam, Wake Island, Eniwetok Atoll, Kwajalein Atoll, Johnston Island and the Canal Zone, to the extent that such contracts (or portions thereof) may require or involve the employment of laborers or mechanics there;

* * * * *

§ 12.306 Variations and tolerances.

(a) *Firefighters and fireguards.* The following variation in the application of the Contract Work Hours Standards Act to firefighters and fireguards has been authorized by the Solicitor of Labor (see 29 CFR 5.14(d)):

A workday consisting of a fixed and recurring 24-hour period commencing at the same time on each calendar day may be used in lieu of the calendar day in applying the daily overtime provisions of the Act to the employment of firefighters or fireguards under the following conditions:

(i) Where such employment is under a platoon system requiring such employees to remain at or within the confines of their post of duty in excess of eight hours per day in a standby or on-call status; and

(ii) If the use of such alternate 24-hour day has been agreed upon between the employer and such employees or their authorized representatives before performance of the work; and

(iii) Provided, That in determining the daily and weekly overtime requirements of the Act in any particular worksheet of any such employee whose established worksheet begins at an hour of the calendar day different from the hour when such agreed 24-hour day commences, the hours worked in excess of 8 hours in any such 24-hour day shall be counted in the established workweek (of 168 hours commencing at the same time each week) in which such hours are actually worked.

Contractors employing firefighters and fireguards may therefore satisfy their obligations under the Contract Work Hours Standards Act by employing such employees in compliance with either the express requirements of § 12.303 or the foregoing variation.

(b) *Eniwetok, Kwajalein and Johnston Island.* Work performed on Eniwetok Atoll, Kwajalein Atoll and Johnston Island is covered by the following tolerance granted by the Solicitor of Labor by letter dated January 20, 1967, to the Department of Defense.

Beginning February 1, 1967, and ending January 31, 1969, the employment in excess of forty hours per week of laborers and mechanics engaged in work on contracts subject to the Contract Work Hours Standards Act on Eniwetok Atoll, Kwajalein Atoll, and Johnston Island shall not be deemed to result in any liability for unpaid damages under the Contract Work Hours Standards Act on the part of any contractor or subcontractor employing such employees, so long as such employees at work in such locations are paid overtime wages at the required rates for all hours worked on such contracts in any workweek in excess of 8 in any workday or in excess of 44 in the workweek during the period from February 1, 1967, through January 31, 1968, inclusive, and in excess of 8 in any workday or in excess of 42 in the workweek during the period beginning February 1, 1968, and ending January 31, 1969, and provided such employees are paid such overtime compensation as may be required by any other applicable law or collective bargaining agreement.

A notice of this tolerance, which constitutes an exception as provided in the § 12.303 clause shall be included in all solicitations involving affected work.

PART 16—PROCUREMENT FORMS

16. In § 16.102–2, paragraphs (c)(2)(x) and (d) are revised; § 16.103 (a) and (d) is revised; new §§ 16.200, 16.201, and 16.202 are added; and § 16.401–1(i) is revised, as follows:

§ 16.102–2 Award/Contract (Standard Form 26).

* * * * *

(c) *Short form negotiated supply and services contracts.* * * *

(2) * * *

(x) Where inspection and acceptance are at origin, where contract administration is performed at origin, where delivery at multiple destinations is required, or where otherwise appropriate, the material inspection and receiving clause (see § 7.104–62 of this chapter) may be inserted in the schedule.

* * * * *

(d) Long form negotiated supply and services contracts. (1) Except as provided in paragraphs (b) and (c) of this section, Award/Contract (Standard Form 26) shall be used with Standard Form 32 (General Provisions (Supply Contract)) (see § 16.205) or with required nonpersonal services clauses, and any other forms containing contract provisions which are prescribed by this subchapter or Departmental procedures, for entering into negotiated fixed-price contracts to which Subpart A, Part 7 of this chapter is applicable.

(2) Except as provided in paragraph (b) of this section, Award/Contract (Standard Form 26) shall be used with DD ASPR Form 748 (General Provisions—Cost Reimbursement Supply Contracts) (see § 16.204) and any other forms containing contract provisions which are prescribed by this subchapter or Departmental procedures for entering into negotiated cost-reimbursement type contracts to which Subpart B, Part 7 of this chapter is applicable.

* * * * *

§ 16.103 Amendment of solicitation/modification of contract (Standard Form 30).

* * * * *

(a) *General.* This section prescribes a single form for (1) amendment of solicitations (whether advertised or negotiated), and (2) modification of contracts (including purchase and delivery orders entered into on DD Form 1155 (see § 3.608–4 of this chapter.) Use of this form is optional for amendment of solicitation for the procurement of construction.

* * * * *

(d) *Modification of construction contracts.* When used to modify a contract for construction, this form may be altered to provide for the contractor's written acknowledgment of the change orders. (See § 16.405–3 for instructions relative to modifying a contract for construction.)

§ 16.200 Scope of subpart.

This subpart prescribes additional forms for use where appropriate in conjunction with negotiated procurements for supplies or services.

§ 16.201 Contractor Performance Evaluation Report (DD Form 1446 Series).

DD Form 1446 Series and DD Form 1447 are prescribed for use in accordance with § 4.117 of this chapter.

§ 16.202 Contractor Cost Reduction Program Report (DD Form 1514).

DD Form 1514 is prescribed for use in accordance with § 3.101 of this chapter.

§ 16.401–1 General.

* * * * *

(i) Standard Form 30—Amendment of Solicitation/Modification of Contract. (The use of this form is optional for amendment of a solicitation.)

* * * * *

17. New § 16.405–1 is added; § 16.405–3 is revised; and new §§ 16.604, 16.803–3, and 16.803–4 are added, as follows:

§ 16.405–1 Performance Evaluation—Architect-Engineer Professional Services Contractor (DD Form 1413).

DD Form 1413 is prescribed for use in accordance with § 18.403–4 of this chapter.

§ 16.405–3 Contract modification forms.

(a) *Modifications pursuant to provisions of contract.* Modifications affecting the price or time for performance of a construction contract may be made pursuant to the "Changes," "Changed Conditions" and "Termination for Default—Damages for Delay-Time Extensions" clauses of the contract and shall be accomplished on Standard Form 30. Although such modifications may be issued unilaterally by the contracting officer, usually an agreement with the contractor

is obtained prior to the issuance of the formal contract modification. The reason for the proposed modification should be stated e.g., reasons for changes, existence of changed conditions, causes of delay and excusability. If the modification is pursuant to the "Changes" clause, the details of the change should be set forth. If the time of performance is increased or decreased, the extension or decrease should be stated definitely or a statement made that the time for performance remains unchanged. If the contract price is increased or decreased the increase or decrease should be stated definitely or a statement made that the contract price remains unchanged. The contractor should be requested to indicate his acceptance on Standard Form 30. Three copies of Standard Form 30 should be sent to the contractor with instructions to return the original and one copy.

(b) *Supplemental agreements.* Amendment of Solicitation/Modification of Contract (Standard Form 30) shall be used to formalize contract modifications providing for work not within the scope of the contract except that provision shall be made for consent of surety in accordance with the format set forth in § 10.111–2 of this chapter.

§ 16.604 Requisition and Invoice/Shipping Document (DD Form 1149).

DD Form 1149 is prescribed for use in accordance with § 5.1108–1 of this chapter.

§ 16.803–3 Service contracts.

(a) *Notice of intention to make a service contract and response to notice (Standard Form 98).* Standard Form 98 is prescribed for use in accordance with § 12.1005(a) of this chapter.

(b) *Notice of award of contract (Standard Form 99).* Standard Form 99 is prescribed for use in accordance with § 12.1005(b)(2) of this chapter.

§ 16.803–4 Employer Information Report EEO–1 (Standard Form 100).

Standard Form 100 is prescribed for use in accordance with § 12.806–4 of this chapter.

PART 18—PROCUREMENT OF CONSTRUCTION AND CONTRACTING FOR ARCHITECT-ENGINEER SERVICES

18. Section 18.206 and the introductory text of § 18.211 are revised, as follows:

§ 18.206 Amendment of invitation for bids.

See §§ 2.208, 16.401–1(i), and 18.704–2 of this chapter. When an amendment will require additional time for bidders to prepare bids, the time for bidding shall be appropriately extended, except in emergencies, and consideration shall be given to notifying bidders by telephone or telegraph of the forthcoming amendment to minimize disruption of their bid preparations. Where such an amendment is issued within a period of ten days prior to the date set for bid opening, a minimum of ten days lead time except in emergencies, shall be allowed prospective bidders to prepare new or revised bids. The nature of any emergency preventing a ten day lead time will be documented.

§ 18.211 Notice of award.

Award shall be made to the successful bidder as provided in § 2.407–1 of this chapter. If a notice of award is issued, it shall:

* * * * *

[Rev. 23, ASPR, June 1, 1967] (Sec. 2202, 70A Stat. 120; 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314)

KENNETH G. WICKHAM,
Major General, U.S. Army,
The Adjutant General.

SUBCHAPTER F—RECORDS

[OASD (Admin) Instruction 73]

PART 286a—AVAILABILITY OF INFORMATION TO THE PUBLIC

The Deputy Assistant Secretary of Defense (Administration) approved the following on August 14, 1967:

Sec.
286a.1 Purpose.
286a.2 Scope.
286a.3 Policy.
286a.4 Responsibilities.
286a.5 Methods by which information shall be made available to the public.
286a.6 Procedures.
286a.7 Documentary material which may be withheld from public disclosure.
286a.8 Information to be published in the FEDERAL REGISTER.
286a.9 Informational material which will be available for inspection and copying.
286a.10 Definition of a record.
286a.11 Identification and marking "For Official Use Only".

AUTHORITY: The provisions of this Part 286a issued under sec. 301, 552, Title 5, United States Code.

§ 286a.1 Purpose.

The purpose of this part is to implement the provisions of DoD Directive 5400.7 (32 F.R. 9605) and to establish policies and procedures governing the availability of information to the public.

§ 286a.2 Scope.

(a) This part is applicable to all organizational entities of the Office of the Secretary of Defense, the Organization of the Joint Chiefs of Staff and to other activities assigned to OSD for administrative support and governs the release of all records in the custody of these organizations, wherever located. It applies only to releasing information to the general public and is not applicable to request from:

(1) Members of Congress
(2) General Accounting Office
(3) Other Federal agencies and the courts for release and authentication of records

(b) This part will not be interpreted to conflict with or abrogate any responsibilities assigned to the Assistant Secretary of Defense (Public Affairs), ASD (PA).

§ 286a.3 Policy.

(a) The maximum amount of information concerning operations and activities shall be made available to the public, consistent with the provisions of this part.

(b) Records and other documents or related material shall be withheld from the public only if authorized by § 286a.7.

(c) Unclassified information within a category normally exempt from public disclosure shall be made available to the public when its release is consistent with statutory requirements and when it is determined that no significant purpose would be served by withholding the information.

§ 286a.4 Responsibilities.

(a) The requester is responsible for:

(1) Describing the record sought with sufficient particularity to enable the information or record to be located with a reasonable amount of effort.

(2) Paying all costs associated with locating and producing copies of requested informational materials, if appropriate.

(3) Complying with the procedures, as provided for in this instruction, for inspecting and copying material and/or obtaining copies of requested records.

(b) The Office of the Assistant Secretary of Defense (Administration) is responsible for:

(1) Establishing a suitable facility where the public may inspect and copy informational material.

(2) Indexing and making available for inspection and copying all material published or referenced in the FEDERAL REGISTER and the informational materials as required by § 286a.5(b).

(3) Serving as the central contact office for the receipt of all written or in-person requests for records and/or inspection and copying of material.

(4) Forwarding requests, received from organizational entities, to have material referenced in the FEDERAL REGISTER, to the Director of the Federal Register.

(5) Forwarding requests for information from the public to the appropriate organizational entity having primary responsibility for the material.

(6) Collecting any fees entailed in searching for and reproducing requested materials.

(c) Heads of organizational entities are responsible for:

(1) Making the initial determination, in conjunction with the Office of the General Counsel, as to the availability of any record requested by the public.

(2) Ensuring that informational material or records that are exempt from public disclosure are properly identified and protected.

(3) Consulting with other agencies, components, or organizational entities which have a significant interest in the content of the requested document before determining whether to make available.

(4) Advising OASD(PA) in advance whenever a record containing potentially newsworthy material is to be released or to withhold any record when it is likely that the withholding action will be contested. Additionally, OASD(PA) will be advised of all requests received from news media for release of records.

(5) Referring requests for a record originated by another agency, component or organizational entity directly to that agency, component or organizational entity.

(6) Referring requests for material primarily concerning a Member of Congress or a Congressional Committee to the Assistant to the Secretary of Defense (Legislative Affairs) for appropriate handling.

(7) Forwarding requests for informational materials received from the public and which have not been processed through the OASD(A), to the Director, Correspondence and Directives Division for appropriate control and distribution.

(d) The Office of the Assistant Secretary of Defense (Public Affairs) is responsible for providing guidance to organizational entities on public information policies as assigned by DoD Directive 5122.5 (26 F.R. 7111).

(e) The Office of the General Counsel is responsible for serving as the appellate level within OSD in those instances in which the requester seeks reconsideration of a previously denied request or initiates legal action to compel the release of a record.

§ 286a.5 Methods by which information shall be made available to the public.

Essentially, DoD Directive 5400.7 established three methods by which information, which must be published or disclosed, will be made available to the public. For ease of reference, these three methods are:

(a) *Publication in the Federal Register.* (1) Subject to the exemptions as provided for in § 286a.7 and in accordance with the provisions of this part and OSD Administrative Instruction 41, "DoD Directives System—Preparation and Processing of Directives System Issuances",[1] each organizational entity, covered by this part, shall publish in the FEDERAL REGISTER, unless already available to affected persons elsewhere in published form and incorporated by reference in the FEDERAL REGISTER, an informative, current description for the guidance of the public, of where, how and by what authority it performs any of its functions. In deciding which information to publish in the FEDERAL REGISTER consideration shall be given to the fundamental objective of informing all interested persons of how to deal effectively with the organizational entity. Section 286a.8 lists the kinds of information that must be published or referenced in the FEDERAL REGISTER.

(2) No member of the general public can be required to resort to, or be adversely affected by, any material not published as required by § 286a.8 unless he has an actual and timely notice of the content of that material.

(b) *Making information available for inspection and copying at an appropriate location.* Subject to the exemptions set forth in § 286a.7, the information as described in § 286a.9 will be available for public inspection and copying in Room 3D949, the Pentagon.

(c) *Request for a record from the public.* (1) Subject to the exemptions set forth in § 286a.7 and the procedural requirements of § 286a.6, any record in the possession of an organizational entity shall be made available upon the request of any person. Copies of records which are published in accordance with § 286a.6 (a) or made available for inspection and copying in accordance with paragraph (b) of this section shall also be given to those who request them, where practicable. For the definition of the term "record", see § 286a.10.

(2) In order for a record to be considered "identifiable" it must exist at the time of the request. There is no obligation to "create" a record for the purpose of satisfying a request for information. When the information requested exists in the form of records at more than one location, normally the applicant will be informed of the cost of compiling the records, and given the option of either paying the compilation costs or of going directly to the designated sources for obtaining the information. Only if compiling records is not burdensome or disruptive to the operations of the Office of the Secretary of Defense will the agency be required to project the cost of and actually undertake compilation.

(3) Each organizational entity should avoid creating procedural obstacles when internal Department of Defense organizational questions arise, particularly where reorganization or transfer of functions contributes to an improperly directed request. Personnel shall make all reasonable efforts to assist private persons in directing requests for information to the appropriate authorities.

§ 286a.6 Procedures.

(a) FEDERAL REGISTER:

(1) The head of the organizational entity will:

(i) Forward material which is to be published in the FEDERAL REGISTER § 286a.8 in accordance with OSD Administrative Instruction No. 41.

(ii) Submit requests to have material referenced in the FEDERAL REGISTER to the Director, Correspondence and Directives Division.

(2) The Director, Correspondence and Directives Division, will:

(i) Provide assistance to organizational entities in accordance with OSD Administrative Instruction No. 41.

(ii) Forward requests to have material referenced in the FEDERAL REGISTER to the Director of the Federal Register.

(b) Information available for inspection and copying:

(1) The head of the organizational entity will:

(i) Review all informational materials as described in § 286a.9 and determine which should be available for public inspection and copying.

(ii) Transmit selected material to the Director, Correspondence and Directives Division.

(2) The Director, Correspondence and Directives Division, will index and maintain the material.

(3) The requester will:

(i) Submit in person or by mail a request to inspect and copy material, as provided for in § 286a.9, and/or material published in the FEDERAL REGISTER, to the Director, Correspondence and Directives Division, OASD(A), Room 3D949, the Pentagon, Washington, D.C. 20301.

(ii) Pay the Director, Correspondence and Directives Division, the cost of reproducing or locating any referenced material, if copies are requested, in accordance with the established fee schedule, DoD Instruction 7230.7 (32 F.R. 8025).

(4) The Director, Correspondence and Directives Division, will:

(i) Provide the requested material to the requester when personal inspection and copying is to be made at the Inspection and Copying Facility.

(ii) Notify the requester of the cost of providing the material, if the request was submitted by mail.

(5) The requester will:

(i) When in person request is made, inspect and/or copy requested material in Room 3D949, the Pentagon.

(ii) Forward the fee to the Director, Correspondence and Directives Division, OASD(A), the Pentagon, Washington, D.C. 20301, when the request was submitted by mail.

(6) The Director, Correspondence and Directives Division, will:

(i) Reproduce copies of any requested material made by in-person requesters and collect authorized fee if appropriate.

(ii) Reproduce copies of requested material and forward them to the requester.

(iii) Deposit the collected fees with the Director, Budget and Finance Division, OASD(A) in accordance with instructions issued by that office.

(c) Upon the request of any person for a record:

(1) The requester will submit a request in person or by mail, in order to obtain a copy of a record, to the Director, Correspondence and Directives Division, Office of the Assistant Secretary of Defense (Administration), Room 3D949, the Pentagon, Washington, D.C. 20301.

(2) The Director, Correspondence and Directives Division, will:

(i) Return the request to the requester if the record sought has not been sufficiently described to permit identification, and provide the requester with a brief explanation of the nature of the inadequacy.

(ii) Refer any request for a record originated by another DoD component or Federal agency to that component or agency and inform the requester.

(iii) Forward identifiable requests to the organizational entity having primary interest.

(iv) Maintain a control system on requests to insure that requests are an-

[1] Filed as part of original document.

swered within a reasonable period of time.

(3) The head of the organizational entity, will:

(i) Determine, in conjunction with the Office of the General Counsel, whether or not requested records can be released.

(ii) Coordinate with OASD (Public Affairs), as required by § 286a.4(c)(4).

(iii) Forward any request for a record originated by another agency, component, or organizational entity directly to that agency, component, or organizational entity and provide the Director, Correspondence and Directives Division, a copy of the transmittal memorandum.

(iv) Consult with other agencies, components or organizational entities, having a significant interest in the content of the requested record prior to determining its availability.

(v) Forward records to the Director, Correspondence and Directives Division, for transmittal to the requester, or in cases where a burdensome search is involved, forward an estimate of the time required to locate and obtain the records.

(vi) Notify the Director, Correspondence and Directives Division, in writing, citing the specific exemption (§ 286a.7), for withholding a record from public disclosure.

(vii) Identify those records which are exempt from public disclosure and when deemed necessary annotate records with proper marking (§ 286a.11).

(4) The Director, Correspondence and Directives Division, will:

(i) Notify the requester that the record is available upon payment of any charge, as authorized by DoD Instruction 7230.7 (32 F.R. 6025), entailed in locating or reproducing the record. This fee shall be paid prior to the release of the record and can be paid either by check payable to "The Treasurer of the United States" or in cash.

(ii) Inform the requester of the specific exemption under which the requested record is considered unavailable.

(5) The requester will:

(i) Forward the fee, if appropriate, to the Director, Correspondence and Directives Division, OASD(A), the Pentagon, Washington, D.C. 20301.

(ii) If desirable, personally examine the record in Room 3D949, the Pentagon. A fee will only be assessed for those costs entailed in locating the record or in reproducing the record if copies are requested.

(iii) Submit a written appeal for reconsideration on a denial of a record to the Director, Correspondence and Directives Division, OASD(A), the Pentagon, Washington, D.C. 20301.

(6) The Director, Correspondence and Directives Division, will:

(i) Forward the record to the requester upon receipt of the fee or in cases where the requester has indicated the willingness to pay the cost associated with the locating and compiling of the record, notify the organizational entity to locate and compile the record.

(ii) Forward appeals to the Office of the General Counsel, OSD.

(iii) Deposit the collected fee with the Director, Budget and Finance Division, OASD(A) in accordance with instructions issued by that office.

(7) The Office of the General Counsel will:

(i) Consult with the Head of the Organizational Entity involved and jointly determine the disposition of the appeal.

(ii) Notify the originator of the appeal as to the final decision.

(iii) Provide an information copy of the final decision to the Director, Correspondence and Directives Division and the OASD(PA).

§ 286a.7 Documentary material which may be withheld from public disclosure.

(a) Documentary material which would otherwise have to be made available under § 286a.5 may be withheld from public disclosure if it comes within a specific exemption as listed below. Even exempted material, however, should be made available upon request of any member of the public, if in the judgment of the releasing authority, no significant purpose would be served by withholding it under an applicable exemption and its release is not inconsistent with statutory requirements.

(b) The following types of records may be withheld from public disclosure:

(1) Those requiring protection in the interest of national defense or foreign policy under the provisions of DoD Directive 5210.47, "Security Classification of Official Information", December 31, 1964 *, or by Executive order.

(2) Those containing rules, regulations, orders, manuals, directives, and instructions relating to the internal personnel rules or to the internal practices. Examples include:

(i) Operating rules, guidelines and manuals for DoD investigators, inspectors, auditors, or examiners, and schedules or methods which cannot be disclosed to the public without substantial prejudice to the effective performance of a significant function of the Department of Defense. Some of these materials would reveal:

(*a*) Negotiating and bargaining techniques.

(*b*) Bargaining limitations and positions.

(*c*) Inspection schedules and methods.

(*d*) Audit schedules and methods.

(ii) Personnel and other administrative matters such as examination questions and answers used in training courses or in the determination of the qualifications of candidates for employment, entrance to duty, advancement or promotion.

(3) Those containing information which statutes authorize or require be withheld from the public. The authorization or requirement may be found in the terms of the statute itself or in Executive orders or regulations authorized by, or in implementation of, the statute. Examples include:

(i) Trade, technical and financial information provided in confidence by businesses.

(ii) National Security Agency information.

(iii) Any records containing information relating to inventions which are the subject of patent applications on which Patent Secrecy Orders have been issued.

(4) Those containing information which are received from anyone including an individual, a foreign nation, an international organization, a State or local government, a corporation, or any other organization with the understanding that it will be retained on a privileged or confidential basis or similar commercial or financial records which the organizational entity develops internally if they are in fact the kinds of records which are normally considered privileged or confidential. Such records include documents containing:

(i) Information customarily considered privileged or confidential under the rules of evidence in the Federal courts, such as information coming within the doctor-patient, lawyer-client and priest-penitent privileges.

(ii) Commercial or financial information received in confidence in connection with loans, bids, or proposals, as well as other information received in confidence or privileged, such as trade secrets, inventions, and discoveries, or other proprietary data.

(iii) Statistical data and commercial or financial information concerning contract performance, income, profits, losses and expenditures, if received in confidence from a contractor or potential contractor.

(iv) Information such as research data, formulae, designs, drawings, and other technical data and reports which

(*a*) Are significant as items of valuable property acquired in connection with research, grants, or contracts.

(*b*) Would likely be held in confidence if owned by private parties.

(v) Personal statements given in the course of inspections or investigations, where such statements are received in confidence from the individual and retained in confidence.

(vi) Information obtained by the government through questionaires or other inquiries and which would not be customarily released to the public by the person from whom it was obtained, such as release of information sought for the purpose of solicitation.

(5) Except as provided in subdivision (ii) of this subparagraph, internal communications within and among agencies and components.

(i) Examples include:

(*a*) Staff papers containing staff advice, opinions or suggestions.

(*b*) Information received or generated by a component preliminary to a decision or action including draft versions of documents where premature disclosure would harm the authorized appropriate purpose for which the records are being used.

(*c*) Advice, suggestions, or reports prepared on behalf of the Department of Defense by boards, committees, counsels, groups, panels, conferences, commissions, task forces, or other similar groups that are formed by a component to obtain advice and recommendations.

(*d*) Records of DoD component evaluation of contractors and their products which in effect constitute recommendations or advice and could be used improperly to the advantage or to the detriment of private interests.

(*e*) Advance information on such matters as proposed plans to procure, lease, or otherwise acquire and dispose of materials, real estate, facilities, or functions when such information would provide undue or unfair competitive advantage to private personal interests.

(*f*) Records which are exchanged among agency personnel or within and among components or agencies preparing for anticipated legal proceedings before any federal, state or military court or before any regulatory body.

(*g*) Reports of inspection, audits, investigations, or surveys which pertain to safety, security, or the internal management, administration, or operation of the Department of Defense.

(ii) If any such intra- or inter-agency information requested would routinely be made available through the discovery process in the course of litigation with the agency, then it should not be withheld from the general public. If, however, the information would only be made available through the discovery process by special order of the court based on the particular needs of a litigant balanced against the interests of the agency in maintaining its confidentiality, then the record or document should not be made available to a member of the general public.

(6) Information in personnel and medical files, as well as information in similar files that, if disclosed to a member of the public would result in a clearly unwarranted invasion of personal privacy.

(i) Examples of files similar to personnel and medical files include:

(*a*) Those compiled to evaluate or adjudicate the suitability of candidates for civilian employment and the eligibility of individuals, civilian, military, or industrial, for security clearances.

(*b*) Files containing reports, records, and other material pertaining to personnel matters in which administrative action including disciplinary action may be taken.

(ii) In determining whether the release of information would result in a clearly unwarranted invasion of privacy, consideration should be given, in cases such as those involving alleged misconduct, to the relationship of the alleged misconduct to an individual's official duties, the amount of time which has passed since the alleged misconduct and the degree to which the individual's privacy has already been invaded. Thus, the release of information concerning alleged misconduct which is closely related to official duties, which has occurred recently, and which has already been exposed to the public is less likely to constitute a clearly unwarranted invasion of personal privacy.

(iii) When the sole and exclusive basis for withholding information is protection of the personal privacy of an individual, the information should not be withheld from him or from his designated legal representative. An individual's personnel, medical, or similar files may be withheld from him or from his designated legal representative for reasons other than the protection of his personal privacy when valid Civil Service Commission regulations or other valid regulations so authorize.

(iv) In applying the standard of a clearly unwarranted invasion of personal privacy, the individual's right of privacy should be balanced against the public right to know. An invasion of privacy need not be seriously harmful in order to qualify as clearly unwarranted. If the release of information does not increase public understanding of governmental activity, the invasion is more likely to qualify as unwarranted.

(7) Investigatory files, compiled for the purpose of enforcing civil, criminal, or military law, including Executive orders, or regulations validly adopted pursuant to law (5 U.S.C. 301).

(i) Examples include:

(*a*) Statements of witnesses and other material based on the information developed during the course of the investigation and all materials prepared in connection with related Government litigation or adjudicative proceedings.

(*b*) Lists of firms or individuals suspended under procurement regulations when the lists are compiled in connection with investigations or irregularities.

(ii) The right of individual litigants to investigatory files currently available by law is not diminished.

(8) Those contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of any agency responsible for the regulation or supervision of financial institutions.

(9) Those containing geological and geophysical information and data (including maps) concerning wells.

§ 286a.8 Information to be published in the Federal Register.

(a) The central and field organization of the organization and the established places at which, the officers from whom, and the methods whereby the public may secure information, make submittals or requests, or obtain decisions.

(b) The procedures by which the organizational entity conducts its business with the public, both formally and informally.

(c) The rules of procedure which must be followed, the description of forms which must be completed, the source from which forms may be obtained, and instructions on the scope and content of papers, reports or examinations required to be submitted pursuant to such rules of procedure.

(d) Directives, instructions, regulations, manuals, policy memoranda, statements or interpretations of policies and other substantive rules of general applicability affecting the public.

(e) The requirement for publication in the FEDERAL REGISTER may be satisfied by reference in the FEDERAL REGISTER to other publications readily available to the class of persons affected and containing the information which must otherwise be published in the FEDERAL REGISTER.

(1) In order to be eligible for incorporation by reference the matter must be in the nature of published data, criteria, standards, specifications, techniques, illustrations, or other published information reasonably available to members of the class affected thereby.

(2) Incorporation by reference is not acceptable as a complete substitute for promulgating in full, text material required to be published by this Instruction.

(3) Incorporation by reference is acceptable as a means of avoiding unnecessary repetition within the promulgated document of published information already reasonably available to the class affected. Examples include:

(i) Construction standards promulgated by a professional association of architects, engineers, or builders.

(ii) Code of ethics promulgated by professional organizations.

(iii) Forms and formats publicly or privately published and readily available to the persons required to use them.

§ 286a.9 Informational material which will be available for inspection and copying.

The following information, subject to the exemptions set forth in § 286a.7 will be made available for public inspection and copying.

(a) Final opinions (including concurring and dissenting opinions) and orders in adjudications that may be cited, used, or relied upon as precedents in future adjudications.

(b) Statements of policy and interpretations of less than general applicability affecting the public but not published in the FEDERAL REGISTER.

(c) Administrative staff manuals and instructions, or portions thereof, which establish Department of Defense policy or interpretations of policy that are determinative of the rights of members of the public. This provision does not apply to instructions for employees on the tactics and techniques to be used in performing their duties, or to instructions relating only to the internal management of the agency. Examples of manuals and instructions not normally made available are:

(1) Those issued for audit and inspection purposes or those which prescribe operational tactics, standards of performance, or criteria for defense, prosecution, or settlement of cases.

(2) Operations and maintenance manuals and technical information concerning munitions, equipment and systems.

(d) Identifying details which if revealed would create a clearly unwarranted invasion of personal privacy may be deleted from any final opinion, order, statement of policy, interpretation, staff manuals, or instruction, made available

* Filed as part of original document. Copies available in 3B200, Pentagon, 20301.

for inspection and copying. In every such case, the justification for the deletion must be fully explained in writing. However, on organizational entity may publish in the FEDERAL REGISTER a description of the basis upon which it will delete identifying details of particular types of documents in order to avoid clearly unwarranted invasions of privacy. In appropriate cases the component may refer to this description rather than write a separate justification for the deletion.

(e) No order, opinion, statement of policy, interpretation, staff manual, or instruction issued, promulgated, or adopted after July 4, 1967, which is not indexed and either made available or published, may be relied upon, used, or cited as precedent against any member of the public unless he has actual and timely notice of its terms. If the order, opinion, statement of policy, interpretation, staff manual, or instruction was issued, promulgated, or adopted before July 4, 1967, it need not be indexed but must be made available in accordance with § 286a.5.

(1) In determining whether an order, opinion, statement of policy, interpretation, staff manual or instruction is likely to be used or relied upon as precedent, the primary test shall be whether it is intended to provide binding guidance for decisions or evaluations by subordinates or for future decisions by the same authority in adjudications of cases affecting the public, where similar facts or issues are presented.

(2) With regard to the precedential effect of an adjudication, opinions and orders of the Boards of Review exemplify the type that shall be made available for inspection and copying, since they may be relied upon, used or cited in future adjudications. By contrast, orders and opinions resulting from adjudications in subject areas such as those involving internal personnel (including military personnel) proceedings and security proceedings are not required to be made available to the general public for inspection and copying since they are not relied upon, used or cited in future adjudications.

§ 286a.10 Definition of a record.

(a) In determining whether documentary material qualifies as a "record", consideration should be given to the following definition of a record as used for records disposal purposes:

(b) "[It] includes all books, papers, maps, photographs, or other documentary materials, regardless of physical form or characteristics, made or received by any agency of the United States Government in pursuance of federal law or in connection with the transaction of public business and preserved or appropriate for preservation by that agency or its legitimate successor as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities of the Government or because of the informational value of data contained therein."

(1) The term "records" does not include objects or articles such as structures, furniture, paintings, sculpture, three-dimensional models, vehicles equipment, etc., whatever their historical value or value as "evidence".

(2) Records are not limited to permanent or historical documents but include contemporaneous documents as well.

(3) The term "records" is to be construed with the purposes of freedom of information in mind, so as to include all data relevant to governmental activity which may reasonably be so designated.

§ 286a.11 Identification and marking "For Official Use Only".

(a) Records which are not classified under DoD Directive 5210.47, authorized by § 286a.7 and this part to be withheld from general public disclosure and which for a significant reason should not be given general circulation shall be considered as being "For Official Use Only" (FOUO).

(b) The marking or absence of the marking "For Official Use Only" does not relieve the head of the organizational entity of his responsibility to review the requested record for the purpose of determining whether an exemption under § 286a.7 is applicable.

(c) A record that is considered "For Official Use Only" may be marked "For Official Use Only" when such marking is deemed necessary to ensure that all persons having access to the record are aware that it should not be publicly released and should not be handled indiscriminately. Individual folders, records, and files covering specific kinds of subject matter, normally falling within the exemptions of § 286a.7, such as personnel and medical files, bids, proposals, and the like, which are covered by rules and regulations specifying what may be released publicly, do not require the "FOUO" marking unless transmitted under circumstances where marking is essential to ensure protection of the information involved.

(d) The marking shall not be used on records which are classified under DoD Directive 5210.47, but, if otherwise proper under this part, may be applied to information or material which has been declassified.

(e) Information contained in a technical document for which a determination has been made that a distribution statement is appropriate shall not be marked "FOUO". DoD Directive 5200.20, "Distribution Statements (other than Security) on Technical Documents", March 29, 1965.[1]

(f) Material which is considered "For Official Use Only" must be safeguarded from general disclosure irrespective of whether the material is physically marked with the term "For Official Use Only".

(g) Whenever necessary to assure proper understanding, individual paragraphs which contain FOUO information shall be marked with the symbol "FOUO". In classified documents, this marking should be applied only to paragraphs which contain FOUO information and do not contain classified information.

(h) Supplementary instructions regarding markings, safeguarding, and transmitting FOUO material may be issued by the Assistant Secretary of Defense (Administration).

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 7723; Amdt. No. 37-13]

PART 37—TECHNICAL STANDARD ORDER AUTHORIZATION

Turn-and-Slip Indicator—TSO—C3b

The purpose of this amendment is to revise the Technical Standard Order (TSO) for "Turn-and-Bank Indicator" contained in § 37.113 of the Federal Aviation Regulations. This action was published as a Notice of Proposed Rule Making (31 F.R. 14599, November 16, 1966) and circulated as Notice No. 66-39 dated November 7, 1966.

Notice 66-39 proposed to amend TSO-C3a by adopting the industry-accepted title "Turn-and-Slip Indicator" and by making other changes with regard to the indicator face, power variations, radio interference and magnetic disturbance limitations, and performance standards relating to instrument sensitivity and environmental conditions. The Notice also proposed to add a safeguard against fire hazards due to improper operation of the instrument and further to delete from the present TSO as being unnecessary, standards relating to qualification testing, dual markings, dielectric standards, and case leakage.

A number of comments were received in response to the Notice. These generally favored the proposed action, although in some instances they contained recommendations for further changes. The comments, together with the changes to the proposal resulting therefrom are discussed in detail hereinafter.

One commentator noted that instruments meeting this technical standard order would probably be too expensive for most general aviation airplanes and would be of much higher quality than necessary. It was this commentator's concern that if the FAA were to use this TSO as a guide in certifying turn-and-slip indicators approved as part of the airplane type design, the cost effect would be the same as if all indicators were required to be TSO-approved in the first place.

In this connection, the applicability paragraph, § 37.113(a) of the proposal, makes it clear that the standards set forth in the TSO are those that an instrument must meet in order to be identified with the applicable TSO marking. Furthermore, FAR § 21.306 provides that articles (i.e., materials, parts or appliances) may be approved, among other ways, either under a TSO or in conjunction with the type certification procedures for a product. These are separate and distinct methods of approval. Approval of an instrument in conjunction with the type certification of an aircraft does not require a showing of compliance with the TSO applicable to that instrument.

It was recommended that the data requirements proposed in § 37.113(c) be amended to require the manufacturer to submit his overhaul manual and parts lists in addition to the items there stated. Such a requirement, while it may have merit, would present a substantive change which is beyond the scope of the Notice. However, it might well be considered as a general requirement having potential applicability to all TSO's. Accordingly, while the recommendation must be rejected insofar as the present rule-making action is concerned, it is being given further consideration by the FAA.

In response to various recommendations, section 1, Purpose, of the TSO has been rewritten, following the format of other recently issued TSO's to state more clearly that the TSO provides standards applicable to the indicators which are to be approved under the TSO. Insofar as the proposed section 1 contained information relative to turn-and-slip indicator usage as an aid to the pilot, such information has been incorporated into the section of the TSO covering its scope.

With reference to the clause in proposed section 3.2(a) that would permit an indicator means other than a pointer, one commentator suggested it be rewritten since section 3.3(f)(1) was limited to a pointer. Another commentator wanted to know what means other than a pointer may be used, and requested definition of "conforming to the standards of this TSO".

The FAA agrees with the first of the foregoing comments to the extent that proposed section 3.3(f)(1) seemingly excluded any means other than a pointer. Such, however, was not the intent, and section 3.2(a) was purposely drafted to allow industry to develop improved presentations through the use of indices other than conventional pointer-ball arrangements. Suitable changes, as discussed below, have been made to proposed section 3.3(f)(1) [now section 3.3(e)(1)] to bring it into conformity with the broader intent of section 3.2(a). With regard to the other comments, the FAA does not wish to prescribe or limit the means that would be acceptable in meeting the intent of the TSO. The FAA encourages the development of new, presently undefined and, hopefully, superior presentations. However, any such new indicating means must also be shown to meet all of the applicable requirements of the TSO, in other words, must conform to the standards of this TSO.

A number of comments were directed to the power variation requirements proposed in section 3.2(b). With respect to the request that we clarify "rated D.C. voltage", it should be pointed out that it was intended that the applicant would select the voltage for which his instrument is rated and which would be marked on the instrument name plate and set forth in the required operating instructions and equipment limitations. This would constitute the rated voltage and would inform the user concerning the need for compatibility in the electrical system to assure a supply of properly rated power to the terminals of the instrument. In this connection, section 37.113(b) has been revised to make it clear that voltage is included in the electrical rating required to be marked on instruments.

Another commentator stated that the term "function properly" as used in section 3.2(b) and the term "must function" as used in section 4 should be defined more clearly and asked what degree of accuracy this means. Although these terms are used in the current TSO, the FAA agrees that the requirement could be expressed more clearly. In this regard, the requirements of sections 3.2(b) and 4 have been changed to make it clear that the terms "function properly" and "must function" mean that the instrument must provide reasonably reliable and useful indications of aircraft turning and slip motions under the extremes of the power variation and environmental conditions specified in these sections.

Changes to the numerical values of the permissible electrical power variations proposed in section 3.2(b) were also recommended on the ground that such changes would bring the requirements into agreement with military standards alleged to reflect the capability of present day electrical systems. The comment, however, presented no justification for the recommendation nor is the FAA aware of any compelling reasons to change the standard to agree with the military specification. The power variation limits as proposed are consistent with limits used throughout the TSO system and are being retained.

Comments were also received recommending that the term "proper operation" as used in connection with the requirement covering power malfunction indication in proposed section 3.2(c), be defined. It was suggested that reference to the power variations set forth in proposed section 3.2(b) should be used to establish the power level for proper operation. It was intended that power malfunction indication be given when power levels drop below the value required for dependable indications of aircraft motions (i.e., the power limits set forth in section 3.2(b)). Accordingly, section 3.2(c) has been amended to make it clear that the warning indication of power insufficiency must appear when power being supplied is below the lower limits stated in section 3.2(b). The FAA likewise agrees with a further suggestion that the first sentence of section 3.2(c) be deleted inasmuch as means for indicating adequacy of power in Type I instruments are usually part of a system installation provided by the aircraft manufacturer rather than an integral part of the instrument itself. The FAA does not agree, however, with another contention that power malfunction indicators, in all but AC-powered instruments, are of insufficient value to warrant their cost. It was the position of this commentator that power loss is only one possible mode of failure, others being spin bearing or motor brush failure, and that the best indication of failure, regardless of mode, is a "dead needle". We might agree that if all failures were of the type that produced instantaneous stoppage of gyros, a dead needle might provide adequate warning. However, the intent of section 3.2(c), as the catchline suggests, is to provide indication of power malfunction in which case there would be a slow, probably imperceptible, loss of gyro performance during a relatively long "run down" time which could produce improper indications before the needle actually goes dead.

With respect to the proposed section 3.3 design requirements, one commentator recommended addition of a standard that would specify the direction of rotor rotation. The commentator, however, presented no substantiation or theory that would relate the direction of rotation to improved performance or more reliable indications. Standards for turn-and-bank indicators to date have not specified the direction of rotation and the FAA is not aware that the direction of rotation is significant insofar as safe operation of the instrument is concerned. The recommendation has, therefore, not been accepted.

The FAA must reject a suggestion that the maximum operating temperature of external surfaces be limited to 200° F. instead of 200° C. as proposed. No reasons or substantiating data were presented to support the more severe standard, and the FAA believes that 200° C. is adequate to protect against ignition of fluids and vapors likely to be liberated in the cockpit.

With reference to the radio interference design requirements, one commentator noted that proposed section 3.3(b) and Figure 1 did not specify the conditions under which the conducted

and radiated noise levels were to be measured and, in fact, that there are many ways in which to make the measurements and yet remain within limiting values. Further investigation also indicates that the criteria as it was proposed is frequency-limited to 25 MCS and affords no protection to aeronautical equipment operating above that value. The FAA, therefore, believes that the matter requires further study in order to develop a more effective standard that will be applicable to all aircraft instruments and equipment. Proposed 3.3(b) and Figure 1 have, accordingly, been deleted and succeeding paragraphs redesignated.

The FAA agrees with a recommendation that the field intensity and size of magnet, required to measure magnetic effect, be specified, and section 3.3(c) has been amended accordingly. However, an accompanying suggested detailed test procedure in this regard is not required and has not been adopted.

While there may be some merit in a recommendation that would permit a 20-degree visibility limit for instruments using wedge lighting, the 30-degree criteria has been the standard for many years and is applicable to all instruments. While in certain instances, 30 degrees may be determined to be overly restrictive, any change in this regard must be considered with a view towards its applicability to all instruments and is, therefore, beyond the scope of this particular rule-making action. Section 3.3 (d), [now section 3.3(c)], has been retained as proposed.

A number of comments were directed toward the slip indicator damping characteristics proposed in section 3.3(e)(1) [now section 3.3(d)(1)]. One commentator stated his belief that since the 0.2 second response time was indicative of aircraft capable of high roll rates, there was need for a damping fluid having a smaller range of viscosity. In this connection, however, the 0.2 second response time, which corresponds to an airplane roll rate of 60 degrees per second, continues the existing standard of many years which has been found reasonable based on all available test data. Moreover, manufacturers have never indicated a problem with respect to obtaining suitable fluids. With respect to the low temperature damping characteristics, the FAA agrees with other comments pointing up the incompleteness of the standard as proposed. As proposed, section 3 requires that with the slip indicator exposed to a temperature of −30° C., the time for the slip indicator to move from the zero position to the rest position must not exceed 4 seconds. It was suggested that a more valid test would result if the regulation required that the instrument be exposed without operating to a temperature of −30° C. for 3 hours. The FAA is aware that the temperature of the instrument must be −30° C. in order to obtain the test data desired and this is what was intended by the proposal. Therefore, rather than establish a time limit for cold soaking, the FAA considers it appropriate to clarify the requirement by specifying that the test must be conducted with the temperature stabilized at −30° C. The FAA does not agree with a final comment that soak temperatures depend on instrument location since the purpose of the requirement is to ensure proper operation in an aircraft immediately following lengthy parking during low temperature conditions.

One of the comments concerning the turn indicator characteristics set forth in proposed section 3.3(f) [now section 3.3(e)], pointed out that the proposal would tend to restrict development of new and different presentations that may prove better than existing displays. It was this commentator's suggestion that actual deflection dimensions be left open but that the tolerances for the deflection at specific turn rates should apply. In this connection it was earlier noted in the discussion of section 3.2(a) that the intent was to encourage development of devices other than conventional pointer-ball arrangements. Accordingly, section 3.3(f)(1) [now section 3.3(e)(1)] has been amended to delete the restrictive words "pointer" and "needle", and to add a provision for instruments that may have new display features.

The FAA has rejected a recommendation that proposed section 3.3(f)(1) include a requirement that the instrument have the inscription "2 min turn" or "4 min turn", as appropriate, placed on the dial face. Such a requirement is not necessary in the interest of safety and would result in dial clutter which could be distracting during emergency situations. Likewise, no action has been taken on a suggestion that bank angle be included as part of the turn indicator sensitivity requirement since it is not justified by any safety considerations. If there is a bank angle limitation on a particular instrument calibration, that limitation would appear in the information furnished by the manufacturer under § 37.113(c)(2).

Two commentators took exception to the proposed damping requirements of section 3.3(f)(2) [now section 3.3(e)(2)]. One expressed the thought that the standard should not give specific numbers in order that future instruments could have the damping or time constants tailored to fit specific aircraft types. The other simply said that "most pilots" prefer a 4- to 10-second time period, instead of the 2 to 4 seconds as proposed. The FAA agrees with neither of these views. The values proposed permit a sufficiently wide range of instrument damping to accommodate all current and foreseeable aircraft using this type instrument. Limits of some finite value are needed to ensure that safe and usable indications are displayed to the pilot under a variety of operational conditions. Heavy damping up to 10 seconds could make the instrument so sluggish that it would be virtually useless to the pilot of a modern airplane. The 2- to 4-second range has proven satisfactory in FAA type certification testing and operational experience of all kinds, and we have been furnished no data to substantiate the longer times.

We agree with one comment to the effect that proposed section 3.3(f)(3)(i) and (ii) [now section 3.3(e)(3)(i) and (ii)] are ambiguous as to their requirement for an adequate indication when the instrument is started under reduced power. Therefore, to clarify this matter, the note following these two subparagraphs has been amended to correlate the reduced power conditions stated in section 3.3(e)(3) specifically with the sensitivity and damping requirements of section 3.3(e)(1) and (2).

It was noted earlier in connection with slip indicator low temperature damping characteristics that instrument location has no bearing on the required soak temperature which is set at −30° C. For consistency, and since there is no sound reason for distinguishing pressurized and unpressurized areas insofar as environmental temperature conditions are concerned, section 4.1(a) has been further amended to provide a uniform −30° C. functioning limit applicable to all instruments qualified under this TSO.

Several commentators noted the typographical error in the value of maximum acceleration for turbine engine powered aircraft in section 4.1(c) which has been corrected to read 0.25g.

The FAA does not agree with the recommendation that section 5 be rewritten to delete the requirement for demonstration of conformity with all the performance standards of section 3. No reason was given for this recommendation. However, in response to a further comment, proposed section 5 has been amended to clarify the relation between compliance testing and the environmental conditions specified in section 4.

After further consideration of section 6, Individual Performance Tests, the FAA believes it unnecessary to require that each instrument off a production line be tested for compliance with visibility requirements and with slip indicator and turn indicator characteristics requirements where a system of quality control would assure such compliance. Accordingly, section 6 has been relaxed to require tests or checks as necessary to assure that individual instruments function properly and meet the minimum performance requirements.

Other minor changes of an editorial or clarifying nature have been made to the TSO as it was proposed. They are not substantive, however, and do not impose any additional burden on regulated persons.

Interested persons have been afforded the opportunity to participate in the making of this amendment and all relevant material submitted has been fully considered.

This amendment is made under the authority of sections 313(a) and 601 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), and 1421).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (23 F.R. 6469), § 37.113 of Part 37 of the Federal Aviation Regulations is amended to read as hereinafter set forth, effective September 22, 1967.

Issued in Washington, D.C., on August 16, 1967.

JAMES F. RUDOLPH,
Director,
Flight Standards Service.

§ 37.113 Turn-and-slip indicator (TSO–C3b).

(a) *Applicability.* This TSO prescribes the minimum performance standards that instruments measuring rate-of-turn and slip (formerly turn-and-bank indicators) must meet in order to be identified with the applicable TSO marking. New models of equipment that are to be so identified and that are manufactured on or after the effective date of this section, must meet the minimum performance standards set forth at the end of this section.

(b) *Marking.* In addition to the markings required by § 37.7, the equipment must also be marked with the instrument's operational power rating (electrical voltage and frequency, air pressure).

(c) *Data requirements.* In accordance with § 37.5, the manufacturer must furnish the Chief, Engineering and Manufacturing Branch, Flight Standards Division, Federal Aviation Administration, in the region in which the manufacturer is located the following technical data:

(1) Seven copies of the manufacturer's operating instructions, equipment limitations, installation procedures (including applicable instrument mounting angle restrictions).

(2) Information regarding specialised procedures employed in the calibration of the instrument, such as the instrument slip angle.

(3) One copy of the manufacturer's test report.

(d) *Previously approved equipment.* Turn-and-slip indicators (formerly identified as turn-and-bank indicators), approved prior to the effective date of this section may continue to be manufactured under the provisions of the original approval.

FEDERAL AVIATION ADMINISTRATION STANDARD

TURN-AND-SLIP INDICATOR

1. *Purpose.* This document provides minimum performance standards and test procedures for turn-and-slip indicators which are to be approved under this TSO.

2. *Scope.* This standard covers instruments incorporating or utilizing components that can sense aircraft angular motions and lateral accelerations to indicate aircraft flight path information in regard to rate-of-turn and slip motions. It provides for three basic type of turn-and-slip indicators as follows:

Type I—Driven by air pressure;

Type II—Driven electrically by Direct Current; and

Type III—Driven electrically by Alternating Current.

3. *Performance requirements.*

3.1 *General.*

(a) *Materials.* Materials must be of a quality demonstrated to be suitable and dependable for use in aircraft instruments.

(b) *Environmental conditions.* The instrument must be capable of performing its intended function and not be adversely affected during or following prolonged exposure to the environmental conditions as stated under § 4. Where optional environmental conditions are set forth in the condition selected must be declared as an equipment limitation.

3.2 *Detail requirements.*

(a) *Indicating means.* Rate-of-turn may be indicated by means of a pointer, deflecting in the direction of turn, or by any other means conforming to the standards of this TSO. Slip may be indicated by means of a ball, free to move in a curved transparent tube, or any other means conforming to the standards of this TSO.

(b) *Power variation.* The instrument must provide reasonably reliable and useful indications of aircraft turning and slip motions when operating under rated power conditions with variation of—

(1) Plus or minus 30 percent of rated differential air pressure;

(2) Plus or minus 15 percent of rated DC voltage; or

(3) Plus or minus 10 percent of rated AC voltage and ±5 percent of rated frequency.

(c) *Power malfunction indication.* For Types II and III indicators, means must be incorporated in the instrument to indicate when the electrical power being supplied is outside the lower limit of power variations specified in paragraph (b) of this section. Power malfunction must be indicated in a positive manner.

3.3 *Design requirements.*

(a) *Fire hazard.* The instrument must be designed to safeguard against fire hazards to the aircraft in the event of malfunction or failure. Under normal conditions, the maximum operating temperature of external surfaces of the instrument must not exceed 200° C. due to self-heating.

(b) *Magnetic effect.* The instrument must not generate an electromagnetic field which will introduce a magnetic course error corresponding to a maximum of 5 degrees deflection of a free magnet approximately 1½ inches long, in a magnetic field with a horizontal intensity of 0.18±0.01 gauss when the instrument is held in various positions on an east-west line with its nearest part 12 inches from the center of the magnet.

(c) *Visibility.* Turn-and-slip indications must be visible from any point within the frustum of a cone, the side of which makes an angle of at least 30 degrees with the perpendicular to the dial and the small diameter of which is the aperture of the instrument case. The distance between the dial and the cover glass must be a practical minimum. At the extreme positions of the slip indicator, at least ⅞ of the indicator must be visible from a point 12 inches directly in front of the zero position.

(d) *Slip indicator characteristics.* The slip indicator must operate freely when the instrument is rotated about its longitudinal axis with the dial vertical. The range of slip angle indications must be at least 8 degrees either side of vertical. With the instrument in its normal position for mounting, the position of the indicator must be zero ±⅛ inch.

(1) *Damping.* While operating at room temperature, the time for the slip indicator to move from the zero position of the slip indication to the rest position must not be less than 2.2 seconds following a sudden rotation of the instrument from a position of 12 degrees bank through the vertical to 12 degrees opposite bank. With the temperature of the instrument stabilized at −30° C. this time must not exceed 4 seconds.

(2) *Slip indicator filling.* Instruments using a liquid as a damping medium for the slip indicator must be so designed and filled that no part of an air bubble will be visible from a point 12 inches directly in front of the instrument when the instrument is rotated to an angle of roll of 45°.

(e) *Turn indicator characteristics.*

(1) *Sensitivity.*

(i) When the instrument is operating at room temperature under rated power and subjected to the turning rates specified in Column A, the turn indicator deflection, in inches, must be within the limits of either Column B or C. The indicator movement must be smooth.

Column A	Column B	Column C
Rate of turn (degrees per minute)	Deflection of indicator (inches)	
0	0±0.015	0±0.015
30	1/16±1/64	1/16±1/64
60	1/8±1/32	1/8±1/32
180	3/8±1/16	3/8±1/16
360	7/8±1/16	7/8±1/16

NOTE.—Column B values pertain to instruments set to indicate a standard rate of turn (180° per minute) with one indicator unit deflection. Column C provides double this displacement for instruments providing increased sensitivity.

(ii) For instruments possessing display features such that the dimensional characteristics prescribed by Columns B and C of subparagraph (1) do not apply, the applicant may demonstrate that the instrument can reliably indicate the prescribed rates of turn (Column A) with clarity and accuracy equivalent to that specified in Column B or C.

(2) *Damping.* The time for the turn indicator or index to return to the zero mark without crossing the zero mark must be at least 2, but not more than 4 seconds, when the instrument is—

(i) Suddenly stopped after being rotated about its vertical axis at a rate that causes full-scale pointer or index deflection; and

(ii) Operated at room temperature under rated power in a normal attitude position.

(3) *Turn indicator starting.* When started by the application of the instrument's rated power, rated performance must be reached in 3 minutes or less. When started under reduced power—

(i) For Type I indicators, the gyro must start to rotate and continue to run on a pressure differential not to exceed 50 percent of rated value. After no more than 5 minutes operation at this reduced power, the instrument must be able to provide an adequate indication of aircraft turning motions.

(ii) For Types II and III indicators, the gyro must start to rotate and continue to run on an applied power not to exceed 80 percent of the rated voltage and at rated frequency. After no more than 5 minutes' operation at this reduced power, the instrument must be able to provide an adequate indication of aircraft turning motions.

NOTE.—When the instrument is operated under the reduced power conditions of § 3.3(e)(3), the sensitivity and damping requirements of § 3.3(e)(1) and (2) do not apply.

4. *Environmental conditions.* The following ranges of environmental conditions are appropriate:

(a) *Temperature.* The instrument must provide reasonably reliable and useful indications of aircraft turn-and-slip motions over the range of ambient temperature of −30° C. to 50° C. and must not be adversely affected by exposure to temperatures of −65° C. to 70° C.

(b) *Altitude.* The instrument must provide reasonably reliable and useful indications of aircraft turn-and-slip motions from −1,000 feet standard altitude up to the maximum declared operating altitude. It must not be

adversely affected following exposure to extremes in ambient pressure of 50 and 3 inches of mercury absolute.

(c) *Vibration.* The instrument must provide reasonably reliable and useful indications of aircraft turn-and-slip motions and must not be adversely affected when subjected to vibrations as follows:

Instrument panel mounted (vibration isolated)	Frequency cycles per second	Maximum double amplitude (inches)	Maximum acceleration
Reciprocating engine-powered aircraft	5–80	0.030	1.5g
Turbine engine-powered aircraft	5–55 55–1,000	0.030	0.25g

(d) *Humidity.* The instrument must provide reasonably reliable and useful indications of aircraft turn-and-slip motions and must not be adversely affected following exposure to any relative humidity in the range of 0 to 95 percent at a temperature of approximately 70° C.

5. *Compliance testing.* As evidence of compliance with this standard, the manufacturer must perform evaluation tests on prototype instruments to demonstrate proper design, reliability in performance of its intended functions, and conformity with all of the performance standards of section 3. Tests must be performed to demonstrate compliance with the environmental conditions specified in § 4.

6. *Individual performance tests.* The manufacturer must conduct tests or checks of each instrument as may be necessary to assure that it will function properly and will individually meet the minimum performance requirements of section 3.3(c), 3.3(d), and 3.3(e) (1) and (2) of this TSO.

[F.R. Doc. 67–9871; Filed, Aug. 22, 1967; 8:47 a.m.]

[Docket No. 8015; Amdt. 39–466]

PART 39—AIRWORTHINESS DIRECTIVES

Allison-Aero Products Models A6441FN–606, A6441FN–606A Propellers

Paragraph (b) of Amendment 39–439 (32 F.R. 9219), AD 67–20–1 requires, on or before November 1, 1967, modification of Allison-Aero Products Models A6441FN–606 and A6441FN–606A propellers by the replacement of the master gear retention bolts with higher strength bolts bearing Part No. 6859722.

Subsequent to the issuance thereof, it has come to the attention of the Federal Aviation Administration that the replacement bolts, Part No. 6859722, have a larger diameter washer face than the original bolts, which, when installed as required by AD 67–20–1, can cause interference between the washer face on the bolt head, and the adjacent corner radius on the bolt mounting flange of the pitch lock housing. Since this condition can increase stress in the replacement bolts resulting from asymmetrical loading, the manufacturer has issued Commercial Propeller Bulletin No. 63–317 requesting operators to substitute Part No. 6859722 bolts with Part No. 6859881 bolts. These latter bolts have a smaller diameter washer face to avoid interference. The manufacturer advises that Part No. 6859881 bolts will be available in sufficient quantities to meet the schedules of the operators of the propellers in question by November 1, 1967, and that the operators have agreed to install these bolts on or before November 1, 1967. Amendment of paragraph (b) of AD 67–20–1 is now required in order to make installation of Part No. 6859881 bolts mandatory.

Since immediate action is required in the interest of safety, compliance with the notice and public procedure provisions of the Administrative Procedures Act is not practicable, and good cause exists for making this amendment effective in less than thirty (30) days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 F.R. 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39–439 (32 F.R. 9219) AD 67–20–1, is amended as follows:

Revise Paragraph (b) so that it now reads as follows:

(b) On or before November 1, 1967, remove the eight master gear retention bolts and install eight P/N 6859881 bolts as replacements, as outlined in Allison's Commercial Propeller Bulletin, CPB No. 63–317.

This amendment becomes effective August 23, 1967.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, and 1423)

Issued in Kansas City, Mo., on August 15, 1967.

EDWARD C. MARSH,
Director, Central Region.

[F.R. Doc. 67–9869; Filed, Aug. 22, 1967; 8:46 a.m.]

[Airspace Docket No. 67–CE–68]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

On Pages 8301 and 8302 of the FEDERAL REGISTER dated June 9, 1967, the Federal Aviation Administration published a Notice of Proposed Rule Making which would amend Section 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the control zone at Flint, Mich.

Interested persons were given 45 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0001 e.s.t., October 12, 1967.

This amendment is made under the authority of section 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued in Kansas City, Mo., on August 3, 1967.

EDWARD C. MARSH,
Director, Central Region.

Redesignate the Flint, Mich., control zone as that airspace within a 5-mile radius of Flint, Mich., Bishop Airport (latitude 42°57′55″ N., longitude 83°-44′30″ W.), and within 2 miles each side of the Flint VORTAC 052°, 075°, 187°, 219°, 280° and 351° radials extending from the 5-mile radius zone to 8 miles NE, E, S, SW, W, and N of the VORTAC.

[F.R. Doc. 67–9860; Filed, Aug. 22, 1967; 8:46 a.m.]

[Airspace Docket No. 67–SO–66]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

On July 7, 1967, a Notice of Proposed Rule Making was published in the FEDERAL REGISTER (32 F.R. 9986) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Fort Stewart, Ga., control zone.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001 e.d.s.t., October 12, 1967, as hereinafter set forth.

In § 71.171 (32 F.R. 2071), the Fort Stewart, Ga., control zone is amended to read:

FORT STEWART, GA.

Within a 5-mile radius of Liberty AAF (lat. 31°53′20″ N., long. 81°33′45″ W.); within a 1.5-mile radius of Liberty County Airport (lat. 31°47′22″ N., long. 81°38′15″ W.); within 2 miles each side of the 231° bearing from the Liberty RBN, extending from the 5-mile radius zone to 8 miles southwest of the RBN; within 2 miles each side of the 049° bearing from the Stewart RBN, extending from the 5-mile radius zone to 8 miles northeast of the RBN.

(Sec. 307(a) of the Federal Aviation Act of 1958; 49 U.S.C. 1348(a))

Issued in East Point, Georgia, on August 10, 1967.

GORDON A. WILLIAMS, Jr.,
Acting Director, Southern Region.

[F.R. Doc. 67–9861; Filed, Aug. 22, 1967; 8:46 a.m.]

[Airspace Docket No. 67–SW–31]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zones

On June 17, 1967, a Notice of Proposed Rule Making was published in the FEDERAL REGISTER (32 F.R. 8722) stating that the Federal Aviation Administration proposed to alter the Dallas, Tex. (Love Field), and (Redbird Airport) control zones.

Interested parties were afforded an opportunity to participate in the rule making through submission of comments. All comments we received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001 e.s.t., October 12, 1967, as hereinafter set forth.

In § 71.171 (32 F.R. 2067) the Dallas, Tex. (Love Field), control zone is amended, in part, by deleting "• • • within 2 miles each side of the Addison VOR 334° radial, extending from the arc of a 5-mile radius circle centered at Addison Airport to 6 miles northwest of the VOR; and within 2 miles each side of the 159° bearing from the Duncanville RBN, extending from the arc of a 5-mile radius circle centered at Redbird Airport to 6 miles south of the RBN;" and substituting therefor, "• • • within 2 miles each side of the Addison VOR 334° radial, extending from the arc of a 5-mile radius circle centered at Addison Airport to 6 miles northwest of the VOR; within 2 miles each side of the Love Field No. 2 ILS localizer southeast course, extending from the arc of a 5-mile radius circle centered at Love Field to the Runway 31L OM; and within 2 miles each side of the 159° bearing from the Duncanville RBN, extending from the arc of a 5-mile radius circle centered at Redbird Airport to 8 miles south of the RBN; • • •."

In § 71.171 (32 F.R. 2067) the Dallas, Tex. (Redbird Airport), control zone is amended, in part, by deleting "• • • and within 2 miles each side of the 159° bearing from the Duncanville RBN, extending from the 5-mile radius zone to 6 miles south of the RBN; • • •" and substituting therefor, "• • • and within 2 miles each side of the 159° bearing from the Duncanville RBN, extending from the 5-mile radius zone to 8 miles south of the RBN; • • •."

(Sec. 307(a), Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Fort Worth, Tex., on August 10, 1967.

HENRY L. NEWMAN,
Director, Southwest Region.

[F.R. Doc. 67–9863; Filed, Aug. 22, 1967; 8:46 a.m.]

[Airspace Docket No. 67–EA–6]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On page 6946 of the FEDERAL REGISTER for May 4, 1967, the Federal Aviation Administration published a rule which altered the Presque Isle, Maine, control zone and 700-foot-floor transition area and was made effective on April 27, 1967.

In the publication of the rule however and probably because of misleading verbiage in the preamble, the rule was published in the Proposed Rule Making section of the FEDERAL REGISTER instead of the Rules and Regulations section.

Since this republication is clarifying in nature, there is no substantial effect upon the public and therefore notice and procedure may be dispensed with and the amendment may be made effective in less than 30 days.

In view of the foregoing the amendment is hereby re-adopted effective upon publication in the FEDERAL REGISTER.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348)

Issued in Jamaica, N.Y., on August 8, 1967.

WAYNE HENDERSHOT,
Acting Director, Eastern Region.

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to delete in the Presque Isle, Maine, control zone all after the word "Sprague ville" and insert in lieu thereof "RBN 169° bearing extending from the 5-mile radius zone to 7 miles south of the RBN. This control zone is effective from 0600 to 2000 hours local time, Sunday through Friday; 0600 to 1730 hours, local time Saturday; and during specific times established in the Notices to Airmen."

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete in the Presque Isle, Maine, Transition Area the phrase "Spragueville R.R. south course extending from the 8-mile radius area to 8 miles south of the R.R.", and insert in lieu thereof "Spragueville RBN 169° bearing extending from the 8-mile radius area to 8 miles south of the RBN."

[F.R. Doc. 67–9865; Filed, Aug. 22, 1967; 8:46 a.m.]

[Airspace Docket No. 67–WE–38]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On July 8, 1967, a Notice of Proposed Rule Making was published in the FEDERAL REGISTER (32 F.R. 10163) which would amend Part 71 of the Federal Aviation Regulations by altering the controlled airspace in the Yuma, Ariz., area. Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed airspace actions.

One objection to the proposed airspace actions was received from the Department of Airports, County of Riverside; however, this objection was subsequently withdrawn.

Subsequent to the publication of the Notice of Proposed Rule Making, it was determined that the geographic coordinates of the Yuma MCAS/Yuma International Airport, Yuma, Ariz., had changed. Since this change is minor in nature, notice and public procedure hereon are unnecessary, and the new coordinates are incorporated in the Final Rule.

In consideration of the foregoing, the proposed regulations are hereby adopted subject to the following changes:

In the text of the descriptions of the Yuma, Ariz., control zone and transition area delete "(latitude 32°39′23″ N., longitude 114°36′20″ W.)", and substitute "(latitude 32°39′10″ N., longitude 114°-36′20″ W.)" therefor.

Effective date. These amendments shall be effective 0001 e.s.t., November 9, 1967.

Issued in Los Angeles, Calif., on August 14, 1967.

ARVIN O. BASNIGHT,
Director, Western Region.

In § 71.171 (32 F.R. 2147) the Yuma, Ariz., control zone is amended as follows:

YUMA, ARIZ.

Within a 5-mile radius of Yuma MCAS/Yuma International Airport within 2 miles each side of the Yuma VORTAC 181° radial extending from the 5-mile radius zone to 2 miles south of the VORTAC, and within 2 miles each side of the 046° bearing from the MCAS Yuma RBN, extending from the 5-mile radius zone to 8 miles northeast of the RBN.

In § 71.181 (32 F.R. 2273) the Yuma, Ariz., transition area is amended as follows:

YUMA, ARIZ.

That airspace extending upward from 700 feet above the surface, within an 11-mile radius of Yuma MCAS/Yuma International Airport within 2 miles each side of the Yuma VORTAC 181° radial, extending from the 11-mile radius area to 21 miles south of the VORTAC; that airspace extending upward from 1,200 feet above the surface, within 18 miles west and 11 miles east of the Yuma VORTAC 351° radial, extending from the north edge of V–66 to 20 miles north of the VORTAC, within 5 miles north and 8 miles south of the Yuma VORTAC 067° radial, extending from the VORTAC to 14 miles east of the VORTAC, within 11 miles east and 8 miles west of the Yuma VORTAC 196° radial, extending from the VORTAC to the United States/Mexico border; and that airspace northwest of Yuma, extending upward from 4,000 feet MSL, bounded on the north by the arc of an 18-mile radius circle centered on the Blythe, Calif., Airport (latitude 33°37′15″ N., longitude 114°43′00″ W.), on the east by the west edge of V–135, on the south by the north edge of V–66, and on the northwest and west by lines 5 miles northwest and west of and parallel to the Imperial and Blythe, Calif., VORTAC's, 064° and 187° radials respectively; excluding that portion outside the United States.

[F.R. Doc. 67–9864; Filed, Aug. 22, 1967; 8:46 a.m.]

[Airspace Docket No. 66–EA–10]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On page 4345 of the FEDERAL REGISTER for March 23, 1966, the Federal Aviation Administration promulgated a rule which altered the Rutland, Vt., 700-foot-floor transition area and was made effective on March 23, 1966, the date of publication in the FEDERAL REGISTER.

In the publication of the rule however and probably because of misleading verbiage in the preamble, the rule was published in the Proposed Rule Making section of the FEDERAL REGISTER instead of the Rules and Regulations section.

Since this republication is clarifying in nature, there is no substantial effect

upon the public and therefore notice and procedure may be dispensed with and the amendment may be made effective in less than 30 days.

In view of the foregoing the amendment is hereby re-adopted effective upon publication in the FEDERAL REGISTER.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348)

Issued in Jamaica, N.Y. on August 8, 1967.

WAYNE HENDERSHOT,
Acting Director, Eastern Region.

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete in the text of the 700-foot floor Rutland, Vt., transition area, the phrase, "43°31'46" N., 72°56'54" W. of Rutland Airport, Rutland, Vt., and within 2 miles each side of the Rutland 158° bearing extending from the 5-mile radius area to the RBN.", and insert in lieu thereof, the phrase, "43°31'55" N., 72°57'00" W. of Rutland Airport, Rutland, Vt., and within 5 miles east and 8 miles west of a 344° bearing from Rutland, Vt., RBN extending from the RBN to 12 miles north of the RBN."

[F.R. Doc. 67-9865; Filed, Aug. 22, 1967; 8:46 a.m.]

[Airspace Docket No. 67-CE-80]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On Pages 4428 and 4429 of the FEDERAL REGISTER dated March 23, 1967, the Federal Aviation Administration published a Notice of Proposed Rule Making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition area at Peru, Ind.

Interested persons were given 45 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the amendment as so proposed is hereby adopted, subject to the following changes:

(1) The Bunker Hill AFB coordinates recited in the Peru, Ind., transition area redesignation as "latitude 40°39'38" N., longitude 86°08'31" W." are changed to read "latitude 40°39'40" N., longitude 86°08'30" W."

(2) The Logansport, Ind., Municipal Airport coordinates recited in the Peru, Ind., transition area redesignation as "latitude 40°42'40" N., longitude 86°22'-35" W." are changed to read "latitude 40°42'35" N., longitude 86°22'45" W."

These amendments shall be effective 0001 e.s.t., October 12, 1967.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348)

Issued in Kansas City, Mo., on August 3, 1967.

JOHN A. HARGRAVE,
Acting Director, Central Region.

Redesignate the Peru, Ind., transition area as that airspace extending upward from 700 feet above the surface within a 15-mile radius of Bunker Hill AFB, Peru, Ind. (latitude 40°39'40" N., longitude 86°08'30" W.); within 8 miles southeast of the Kokomo, Ind., VORTAC 040° radial extending from the VORTAC to 12 miles northeast of the VORTAC; within 5 miles southwest and 8 miles northeast of the Kokomo VORTAC 131° radial extending from the VORTAC to 12 miles southeast of the VORTAC; within a 5-mile radius of Logansport, Ind., Municipal Airport (latitude 40°42'-35" N., longitude 86°22'45" W.); and that airspace extending upward from 1,200 feet above the surface within the area bounded by a line beginning at latitude 40°07'00" N., longitude 86°00'-00" W.; to latitude 40°07'00" N., longitude 86°33'00" W.; to latitude 41°00'00" N., longitude 86°33'00" W.; to latitude 41°00'00" N., longitude 85°50'00" W.; to latitude 40°30'00" N., longitude 85°50'-00" W.; thence to point of beginning, excluding the portion that coincides with the Marion, Ind., transition area.

[F.R. Doc. 67-9866; Filed, Aug. 22, 1967; 8:46 a.m.]

[Airspace Docket No. 67-SO-68]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On July 11, 1967, a Notice of Proposed Rule Making was published in the FEDERAL REGISTER (32 F.R. 10212), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Birmingham, Ala., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001 e.d.s.t., October 12, 1967, as hereinafter set forth.

In § 71.181 (32 F.R. 2148) the Birmingham, Ala. 1200-foot transition area (32 F.R. 3675) is amended as follows: "* * * thence southwest along the southeast boundary of V-209 to a 19-mile radius arc centered on the Tuscaloosa, Ala., VOR; thence clockwise along this arc to long. 87°30'00" W.; thence north along long. 87°30'00" W. to point of beginning, excluding that portion that coincides with R-2101 and the Gadsden, Ala., transition area * * *." is deleted and "* * * thence southwest along the southeast boundary of V-209 to long. 88°00'00" W.; thence north along long. 88°00'00" W., to the north boundary of V-18; thence northeast along the north boundary of V-18 to a 19-mile radius arc centered on the Tuscaloosa, Ala., VORTAC; thence clockwise along this arc to long. 87°30'00" W.; thence north along long. 87°30'00" W. to point of beginning, excluding that portion that coincides with R-2101 and the Gadsden, Ala., transition area * * *" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958; 49 U.S.C. 1348(a))

Issued in East Point, Ga., on August 10, 1967.

GORDON A. WILLIAMS, JR.,
Acting Director, Southern Region.

[F.R. Doc. 67-9867; Filed, Aug. 22, 1967; 8:46 a.m.]

[Airspace Docket No. 67-CE-60]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On Page 8303 of the FEDERAL REGISTER dated June 9, 1967, the Federal Aviation Administration published a Notice of Proposed Rule Making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate the transition area at Perryville, Mo.

Interested persons were given 45 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0001 e.s.t., October 12, 1967.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348)

Issued in Kansas City, Mo. on August 3, 1967.

EDWARD C. MARSH,
Director, Central Region.

Designate the Perryville, Mo., transition area as that airspace extending upward from 700 feet above the surface within an 8-mile radius of Perryville, Mo., Municipal Airport (latitude 37°51'-55" N., longitude 89°51'45" W.) and within 2 miles each side of the Farmington, Mo., VORTAC 057° radial extending from the 8-mile radius area to 15 miles northeast of the VORTAC; and that airspace extending upward from 1,200 feet above the surface within an area beginning at the intersection of lines 5 miles southwest of and parallel to the Farmington VORTAC 336° and 120° radials, thence northwest along a line 5 miles southwest of and parallel to the Farmington VORTAC 336° radial to and clockwise along the arc of a 13-mile radius circle centered on the Farmington VORTAC, to and northwest along a line 5 miles southwest of and parallel to the Farmington VORTAC 120° radial, to the point of beginning, and within 5 miles each side of the Farmington VORTAC 057° radial extending from the 13-mile radius area to 15 miles northeast of the VORTAC.

[F.R. Doc. 67-9868; Filed, Aug. 22, 1967; 8:46 a.m.]

[Airspace Docket No. 67-CE-81]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On Pages 8302 and 8303 of the FEDERAL REGISTER dated June 9, 1967, the Federal Aviation Administration published a Notice of Proposed Rule Making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Lawrence, Kans.

Interested persons were given 45 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the amendment as so proposed is hereby adopted, subject to the following change: The Lawrence Municipal Airport coordinates recited in the Lawrence, Kans., transition area designation as "latitude 39°00'00" W., longitude 95°13'00" N." are changed to read "latitude 39°00'35" N., longitude 95°13'00" W."

This amendment shall be effective 0001 e.s.t., October 12, 1967.

(Sec. 307(a) of the Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Kansas City, Mo., on August 4, 1967.

DANIEL E. BARROW,
Acting Director, Central Region.

Designate the Lawrence, Kans., transition area as that airspace extending upward from 700 feet above the surface within a 5-mile radius of Lawrence Municipal Airport (latitude 39°00'35" N., longitude 95°13'00" W.); and within 2 miles each side of the Topeka, Kans., VORTAC 117° radial extending from the 5-mile radius area to 13 miles southeast of the VORTAC.

[F.R. Doc. 67-9869; Filed, Aug. 22, 1967; 8:46 a.m.]

[Airspace Docket No. 67-WE-88]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Amendment to Federal Register Document

On June 9, 1967, F.R. Doc. 67-6443 was published in the FEDERAL REGISTER (32 F.R. 8302) amending Part 71 of the Federal Aviation Regulations by redesignating the Boise, Idaho, transition area. This action will be effective October 12, 1967.

As a result of renumbering of certain airways in the Boise area, V-138 was redesignated V-508; however, V-138 was used to designate a portion of the Boise, Idaho, transition area. Accordingly, action is taken herein to amend the FEDERAL REGISTER document to reflect the correct airway number.

Since this amendment is editorial in nature, notice and public procedure hereon are unnecessary, and it may be made effective immediately.

In consideration of the foregoing, F.R. Doc. 67-6443 is amended, effective upon publication in the FEDERAL REGISTER, as hereinafter set forth:

Delete "* * * V-138 * * *" in the text describing that portion of the Boise, Idaho, transition area floored at 9,000 feet MSL, and substitute "* * * V-508 * * *" therefor.

Issued in Los Angeles, Calif., on August 14, 1967.

LEE E. WARREN,
Acting Director, Western Region.

In § 71.171 (32 F.R. 2180) the Boise, Idaho, transition area is amended by deleting all after "* * * 55 miles northwest of the VORTAC;" and substituting therefor, "and that airspace northwest of Boise bounded on the northwest by the McCall, Idaho VORTAC 221° radial, on the east by the west edge of V-253 and on the southwest by a line 8 miles northwest of and parallel to the Boise VORTAC 319° radial; that airspace southeast of Boise extending upward from 9,000 feet MSL bounded on the north by the south edge of V-500 on the east by the west edge of V-293 and on the southwest by the northeast edge of V-4; and that airspace extending upward from 10,500 feet MSL southeast of V-507, within 5 miles each side of the Rome, Oreg., VORTAC 056° radial extending from 46 miles northeast of the VORTAC to the Boise 40-mile radius area".

[F.R. Doc. 67-9870; Filed, Aug. 22, 1967; 8:47 a.m.]

[Airspace Docket No. 67-SO-18]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

PART 75—ESTABLISHMENT OF JET ROUTES

Alteration of Federal Airways and Jet Routes Designation of Control Area

On July 18, 1967, a Notice of Proposed Rule Making was published in the FEDERAL REGISTER (32 F.R. 10516) stating that the Federal Aviation Administration was considering amendments to Parts 71 and 75 of the Federal Aviation Regulations that would alter VOR Federal airway Nos. 7, 22, 35, 97, and 241, and Jet Route No. 2. In addition, it was proposed to designate control areas for those portions of Jet Route Nos. 41 and 43 that extend outside the United States. These actions are necessary due to the relocation of the Tallahassee, Fla., VORTAC and the Albany, Ga., VOR, to be effective October 12, 1967.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

As stated in the notice, the agency was considering excluding the airspace of V-7 between the main and alternate airway from Cross City, Fla., to Dothan, Ala. This would eliminate a dual designation of 1,200 feet AGL airspace with the Tallahassee, Fla., transition area. Subsequent to publication of the Notice, it was determined that it would be more advantageous from a records keeping and aeronautical charting standpoint to retain the 1,200 feet AGL control area in the airway description and revoke the 1,200 feet AGL portion of the transition area. Accordingly, action is taken herein to retain this control area in the description of V-7. Action to revoke the 1,200 feet AGL portion of the Tallahassee transition area is being processed as Airspace Docket No. 67-SO-58.

Since the altered description of V-7 is editorial in nature and will result in no change in assigned airspace, the Administrator has determined that Notice and public procedure thereon is unnecessary.

In consideration of the foregoing, Parts 71 and 75 of the Federal Aviation Regulations are amended, effective 0001 EST, October 12, 1967, as hereinafter set forth.

1. Section 71.123 (32 F.R. 2009, 5412, 7125) is amended as follows:

a. In V-7 all between "12 AGL Cross City, Fla.;" and "12 AGL Dothan, Ala.," is deleted and "12 AGL Greenville, Fla.;" is substituted therefor.

b. In V-22 all after "12 AGL Marianna, Fla.;" is deleted and "12 AGL Tallahassee, Fla.; 12 AGL Greenville, Fla.; 18 miles, 6 miles wide, 12 AGL Taylor, Fla.; 12 AGL Jacksonville, Fla." is substituted therefor.

c. In V-35 all between "INT St. Petersburg 316° and Cross City 185° radials;" and "12 AGL Athens, Ga.;" is deleted and "12 AGL Greenville, Fla.; 12 AGL Albany, Ga., including a 12 AGL west alternate via Tallahassee, Fla.; 12 AGL Macon, Ga., including a 12 AGL west alternate via INT Albany 013° and Macon 227° radials;" is substituted therefor.

d. In V-97 all between "12 AGL Tallahassee, Fla.," and "12 AGL INT Atlanta 007°" is deleted and "including a 12 AGL east alternate from INT LaBelle 313° and Lakeland, Fla., 175° radials to INT St. Petersburg 331° and Lakeland 307° radials via Lakeland and from INT of St. Petersburg 331° and Cross City, Fla., 201° radials to Tallahassee, via Cross City and also a 12 AGL west alternate from St. Petersburg to INT St. Petersburg 331° and Cross City 201° radials via INT St. Petersburg 316° and Cross City 201° radials; 12 AGL Albany, Ga.; 12 AGL Atlanta, Ga., including a 12 AGL east alternate via INT Albany 013° and Rex, Ga., 174° radials and the INT of Rex 174° and Atlanta 147° radials;" is substituted therefor, and "The portion outside the United States has no upper limit." is deleted from the end of the description.

e. In V-241 "and Atlanta 174° radials." is deleted and "and Atlanta 175° radials." is substituted therefor.

2. Section 71.161 (32 F.R. 2062) is amended as follows:

J-41 "From Key West, Fla., to Tallahassee, Fla.," is added.

J-43 is amended to read as follows:

J-43 From St. Petersburg, Fla., to Tallahassee, Fla.

3. Section 75.100 (32 F.R. 2341, 7820) is amended as follows:

In J–2 "Tallahassee, Fla., 288° radials;" is deleted and "Tallahassee, Fla., 290° radials;" is substituted therefor.

(Sec. 307(a) and 1110 of the Federal Aviation Act of 1958; 49 U.S.C. 1348 and 1510 and Executive Order 10854; 24 F.R. 9565)

Issued in Washington, D.C., on August 18, 1967.

T. McCORMACK,
Acting Chief, Airspace and Air Traffic Rules Division.

Title 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of International Commerce, Department of Commerce

SUBCHAPTER B—EXPORT REGULATIONS

[10 Gen. Rev. of Export Regs., Amdt. 37]

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

General Policy of Denial; Copper Commodities

Part 373 of the Code of Federal Regulations is amended as set forth below.

(Sec. 3, 63 Stat. 7; 50 U.S.C. App. 2023; E.O. 10945, 26 F.R. 4027, 3 CFR 1959–1963 Comp.; E.O. 11038, 27 F.R. 7003, 3 CFR 1959–1963 Comp.)

Effective date: August 18, 1967.

RAUER H. MEYER,
Director, Office of Export Control.

Purpose and effect of amendment. In order to assist copper producers whose operations are being hampered by copper industry strikes in which they are not involved, the Export Regulations are revised to modify the general policy of denial in effect with respect to exports of unrefined copper commodities. The Export Regulations now provide that an application for a license to export to Country Groups T and V unrefined copper commodities submitted by, or on behalf of, a producer may be approved where the unrefined copper is to be exported for the purpose of being refined abroad, and the refined copper produced from these commodities by the foreign refinery, less the charges made by the foreign refinery, or an equivalent amount of refined copper will be imported into the United States for consumption. Quantities of unrefined copper that cannot be exported for the above purpose, not to exceed eighty percent of the remainder of a producer's monthly production, may be licensed for export and consumed abroad.

If strike conditions prevail in the domestic copper industry after November 15, 1967 which make copper processing facilities unavailable to producers, consideration will be given to approval of applications for licenses to export one hundred percent of current production of unrefined copper commodities.

A person or firm participating in exports under the provisions of the revised Export Regulations is required to forward each week a report of his current production and stock level(s) for unrefined copper commodities to the Office of Export Control.[1]

Accordingly, the Export Regulations are amended in the following respects:

Section 373.20(a)(2), "Exceptions to General Policy of Denial," is redesignated § 373.20(a)(2)(i), "Shipments Not Commercially Processable in the United States." Paragraphs (a)(2)(i), (ii), and (iii) are redesignated paragraphs (a)(2)(i)(a), (b), and (c).

2. The following § 373.20(a)(2)(ii) is added:

(ii) *Shipments for which processing facilities are not available due to strike conditions.—(a) Unrefined copper commodities to be refined abroad and returned.* Consideration will be given to approval of applications received from, or on behalf of, copper producers covering the proposed export to Country Groups T and V of commodities described in subparagraph (1) of this paragraph where the refined copper produced abroad from these commodities, less the customary charges made by the foreign refinery, or an equivalent amount of refined copper will be imported into the United States for consumption. Such applications shall cover commodities which cannot be processed commercially in the United States due to the unavailability of processing facilities caused by strike conditions in the domestic copper industry. An application for a license to export unrefined copper commodities under the provisions of this § 373.20(a)(2) shall include the following certification:

I (We) certify that there are no domestic facilities available for processing the commodities described on this application. The refined copper produced from these commodities, less the customary charges made by the foreign refinery, or an equivalent amount of refined copper will be imported into the United States for consumption.

(b) Other exports of unrefined copper commodities. Where an applicant is unable to export all of his production of the commodities described in subparagraph (1) of this section for the months of July, August, September, and/or October 1967 under the provisions of subdivision (i) of this subparagraph (2), consideration will be given to approval of applications for licenses to export no more than 80 percent of the remainder of each month's production to Country Groups T and V. Such applications shall include the following certification:

I (We) certify that I (we) have exported (or am (are) exporting) unrefined copper commodities in accordance with the provisions of § 373.20(a)(2) of the *Comprehensive Export Schedule* and that I (we) am (are) unable to negotiate a contract under which the commodities described on this application could be exported under the provisions of § 373.20(a)(2). There are no domestic facilities available for processing the commodities described on this application.

Where an applicant is unable to export any of his production of the commodities described in subparagraph (1) of this paragraph for the months of July, August, September, and/or October 1967 under the provisions of subdivision (i) of this subparagraph (2), consideration will be given to approval of applications for licenses to export no more than 80 percent of each month's production to Country Groups T and V. Such applications shall include the following certification:

I (We) certify that I (we) have not exported unrefined copper commodities in accordance with the provisions of § 373.20(a)(2) of the *Comprehensive Export Schedule* and that I (we) am (are) unable to negotiate a contract under which the commodities described on this application could be exported under the provisions of § 373.20(a)(2). There are no domestic facilities available for processing the commodities described on this application.

If strike conditions prevail in the domestic copper industry after November 15, 1967 which make copper processing facilities unavailable to producers, consideration will be given to approval of applications for licenses to export to Country Groups T and V 100 percent of current production of commodities described in subparagraph (1) of this paragraph.

(c) Reporting requirement. A person or firm participating in exports under the provisions of this § 373.20(a)(2) shall forward each week a report of his current production and stock levels for the commodities described in subparagraph (1) of this paragraph to the Office of Export Control (Attn: 862), U.S. Department of Commerce, Washington, D.C. 20230.

[F.R. Doc. 67–9885; Filed, Aug. 22, 1967; 8:47 a.m.]

[1] The reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

PART 6–1—GENERAL

PART 6–75—DELEGATIONS OF PROCUREMENT AUTHORITY

Miscellaneous Amendments

Parts 6–1 and 6–75, Chapter 6, Title 41 of the Code of Federal Regulations are amended as follows:

1. Part 6–1, § 6–1.258 is amended to read:

§ 6–1.258 Service contracts.

§ 6–1.258–1 Nonpersonal service contracts.

(a) Nonpersonal service contracts are those providing for services to be rendered to the Government, by individuals or organizations, under which:

(1) The Government does not directly supervise the maner of performance of the work and, in the case of organizations, does not reserve the right of selection or dismissal of individual employees; and

(2) The services are of such a nature that:

(i) They are not usually performed by employees; or

(ii) they may be more practicably and economically procured by contract.

(b) The types of services that are usually rendered by employees may vary from country to country. Therefore Contracting Officers, both within and outside the United States, should consult their respective Personnel units for guidance in making this determination.

§ 6–1.258–2 Personal service contracts.

(See section 912.7–2a, Volume 3, Foreign Affairs Manual.)

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Parts 8, 25]

CUSTOMS INVOICES

Requirements for Entry of Imported Merchandise; Production of Missing Documents

On February 27, 1965, notice was published in the FEDERAL REGISTER (30 F.R. 2616) that interested parties would be afforded an opportunity to be heard with regard to revisions of the special customs invoice (customs Form 5515) which were to become effective July 1, 1965.

A public hearing was held on March 30, 1965, and on April 27, 1965, a notice was published in the FEDERAL REGISTER (30 F.R. 5863) that the Bureau had determined that further revision of the form was desirable and that pending such further revision, the unrevised edition of customs Form 5515 would be acceptable. The July 1, 1965, effective date for the use of the revised customs Form 5515 was thus suspended pending further consideration.

After careful consideration of all submissions received and all views and comments expressed at the hearing, it has been decided to dispense with the special customs invoice (customs Form 5515) and require in its place a "Customs Invoice" which shall consist of a commercial invoice setting forth all information required by section 481(a) of the Tariff Act of 1930 (19 U.S.C. 1481(a)) and on which there shall be endorsed certain certifications required to be made by the seller or shipper and by the purchaser or consignee or their agents.

It is also proposed to provide that the time allowed for the production of a required customs invoice or a commercial invoice not produced on the date of entry be 60 days instead of 6 months as now allowed for the production of special customs or commercial invoices, and to increase the minimum amount of liquidated damages which may be assessed for nonproduction of the required invoice from $25 to $100.

Accordingly, notice is hereby given that under the authority of sections 623, 624, 481, 484 of the Tariff Act of 1930, as amended (19 U.S.C. 1623, 1624, 1481, 1484), it is proposed to amend the regulations as set forth in tentative form below:

§ 8.9 Entry without required invoice.

If an invoice required under § 8.15 is not available in proper form at the time of entry, the entry shall be accepted only if—

* * * * *

(c) Such person or his agent gives a bond on customs Form 7551 or 7553, or other appropriate form, for the production of the required invoice within 60 days from the date of entry of the merchandise."

§ 8.13 Customs invoice; incomplete invoice; general requirements supplemented.

(a) A customs invoice shall be a commercial invoice executed by the seller or shipper (or the agent of either) setting forth the information pertaining to the transaction in the detail specified in paragraph (b) of this section. The purchaser (or his agent), or the consignee (or his agent) of merchandise obtained otherwise than by purchase or agreement to purchase, shall certify that such invoice is complete and correct and that there is no other invoice differing from the invoice so certified. When any such invoice is signed by an agent, he shall state thereon the name of his principal.

(b) Every customs invoice shall set forth:

(1) The name and address of the seller or person from whom the goods were obtained, and of the purchaser or consignee.

(2) The name and address of the manufacturer or producer whenever such goods are sold or offered for sale for exportation to the United States by the said manufacturer or producer, and the said manufacturer or producer is not the seller or shipper named on the invoice.

(3) The date when and the city and country where the goods were sold or shipped, and the port of entry to which the merchandise is destined.

(4) A complete description of the merchandise including:

(i) Quantity, quality, and type.

(ii) Manufacturer's or seller's numbers or symbols, if any.

(iii) Importer's or purchaser's numbers or symbols, if any.

(iv) Marks and numbers on shipping packages.

(v) Contents of each individual package.

(5) Invoice unit price, or in the case of nonpurchased goods, the value for each item or in the absence of such value, the unit price that the manufacturer, seller, shipper, or owner would have received, or was willing to receive, for the goods in the currency of the purchase or transaction.

(i) All discounts granted.

(ii) All commissions paid or agreed to be paid.

(iii) The currency of the transaction, and the rate of exchange if fixed or agreed.

(6) Invoice totals and an itemized statement of packing costs and all other costs, charges, and expenses, stating whether they are included in such invoice total.

(7) All rebates, drawbacks, bounties, or other grants allowed upon exportation of the goods, separately itemized, and stating by whom granted.

(8) The current unit price at which the goods are being sold in the home market, if different from invoice prices. (See certificate under § 8.14(a).)

(9) The current price at which the goods are being sold for export to the United States, if different from invoice prices. (See certificate under § 8.14(a).)

* * * * *

Part 8 is amended to add a new § 8.14 as follows:

§ 8.14 Customs invoice certification.

(a) A customs invoice shall have endorsed thereon the following certificate signed and dated by the seller or shipper or the agent of either:

I certify that all statements contained herein are complete and correct and represent the complete transaction and that there is no separate or different invoice. Unless otherwise noted herein, the goods have been sold or agreed to be sold; no rebates, bounties, drawbacks or other grants are to be received; and the current home market and current export price(s) are no different than the invoice price(s).

Signature of seller or shipper or agent of either

Date

(b) A customs invoice shall have the following certificate endorsed thereon or attached thereto, signed and dated by the purchaser or his agent, for merchandise obtained by purchase or agreement to purchase, or by the consignee or his agent, for merchandise obtained otherwise than by purchase or agreement to purchase:

I certify that I have read the certificate of the seller or shipper endorsed on this invoice and have no reason to believe that the statements contained therein are not correct and complete. I further certify that I am familiar with the provisions of section 8.14(c) of the Customs Regulations (19 CFR 8.14(c)); that from my personal knowledge of this transaction, except as disclosed on the invoice or set forth immediately below, there were no (1) discounts or additions, (2) commissions, (3) assists, (4) special relationships, or (5) special considerations of any kind, whether written, oral, explicit or implicit, as defined in that section. This merchandise was obtained by ☐ purchase or agreement to purchase ☐ otherwise than by purchase or agreement to purchase.

Signature of purchaser or consignee or agent of either

Date

(c) A full disclosure of the following items, insofar as they may relate to the price(s) shown in the invoice, must be made:

(1) *Discounts or additions.* Any reductions from or additions to the normal, base gross, list or other price that were used in arriving at the invoice price(s) which are not clearly evident from the invoice.

(2) *Commissions.* Any commission of whatever nature paid or agreed to be paid to any party in connection with the transaction(s).

(3) *Assists.* Any material, labor, tools of production, or other consideration of determinable value furnished to the manufacturer or seller by the purchaser or any other party to the transaction.

(4) *Special relationship.* Any special relationship such as common ownership or control, exclusive agency, or distributorship.

(5) *Special considerations.* Any warranty, guarantee, advertising or other special allowance, royalties, patents, or other factors.

Section 25.17(b) is amended to read as follows:

§ 25.17 Nonproduction of documents; failure to redeliver packages; sums to be collected.

* * * * *

(b) When a required customs invoice or commercial invoice is not produced on the date of entry or within 60 days thereafter, unless such production is waived under the provisions of § 8.15(d) of this chapter, the bond charge for the production thereof may be canceled upon the payment of $100 liquidated damages, provided the person who made the entry submits an application for relief from the full amount of the charge, explaining in detail why the customs invoice or commercial invoice could not be produced within the prescribed period, and the district director of customs is satisfied by such application or otherwise that the failure to produce the invoice within the prescribed period was due to causes wholly beyond the control of the person making the entry and not to any purpose of the foreign seller or shipper to withhold information required by law, regulation, or special instruction to be shown on the invoice.

* * * * *

Title 19, Chapter I of the Code of Federal Regulations, will be further amended to substitute the words "customs invoice" for the words "special customs invoice" wherever the latter term is used therein and to delete references therein to customs Form 5515, Special Customs Invoice. Additionally, it is proposed to delete § 8.13 (f) and (i).

Prior to final action on the proposal, consideration will be given to relevant data, views, or arguments which are submitted in writing to the Commissioner of Customs, Washington, D.C. 20226, and received not later than 60 days from the date of publication of this notice in the FEDERAL REGISTER. No hearings will be held.

[SEAL] LESTER D. JOHNSON,
Commissioner of Customs.

Approved: August 7, 1967.

MATTHEW J. MARKS,
Acting Assistant Secretary of the Treasury.

Wage and Hour Division

[29 CFR Part 512]

REVIEW COMMITTEES FOR PUERTO RICO AND THE VIRGIN ISLANDS

Notice of Proposed Rule Making

Under authority provided in the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U.S.C. 201), Reorganization Plan No. 6 of 1950 (3 CFR, 1949–1953 Comp., p. 1004), and Secretary's Order No. 16–67, 29 CFR Part 512 is proposed to be revised in the manner set forth below. The purpose of the proposed revision is to adapt the procedures set forth in the current Part 512 to the provisions of the Fair Labor Standards Amendments of 1966 (P.L. 89–601) for minimum wage increases to become effective during 1968 in industries operating in Puerto Rico and the Virgin Islands.

Interested persons may submit written data, views, and arguments concerning the proposed revision within 30 days of its publication in the FEDERAL REGISTER. Such submissions may be filed with the Administrator, Wage and Hour and Public Contracts Divisions, United States Department of Labor, 14th Street and Constitution Avenue NW., Washington, D.C. 20210.

The revised 29 CFR Part 512 would read as follows:

PART 512—REVIEW COMMITTEES FOR PUERTO RICO AND THE VIRGIN ISLANDS

Sec.
512.1 Scope and application.
512.2 Statutory requirements prerequisite for appointment of review committees.
512.3 Industry.
512.4 Publication.
512.5 Identification and filing date.
512.6 Majority of employees in the industry.
512.7 Information to be submitted.
512.8 Financial information.
512.9 Payroll and employment data.
512.10 Other information.
512.11 Action on application.
512.12 Review committee procedure.
512.13 Effective date of the 28 per centum increase or the review committee wage order.
512.14 Surety undertaking.
512.15 Information previously submitted.

AUTHORITY: The provisions of this Part 512 issued under sec. 6, 52 Stat. 1062, as amended; 29 U.S.C. 206; 5 U.S.C. 301.

§ 512.1 Scope and application.

Section 6(c)(2)(B) of the Fair Labor Standards Act of 1938, as amended, requires, with respect to employees in Puerto Rico and the Virgin Islands, that, effective April 2, 1968, the rate or rates applicable to them under the latest industry wage order issued prior to February 1, 1967, be increased by 28 per centum, unless such rate or rates are superseded by a rate or rates prescribed in a wage order issued pursuant to the recommendations of a review committee appointed under section 6(c)(2)(C). The regulations in this part provide the procedure for applications for the appointment of such review committees, as well as the procedure to be observed by such committees in the conduct of investigations and hearings and in formulating their recommendations, and the procedure for the promulgation of wage orders giving effect to their recommendations.

§ 512.2 Statutory requirements prerequisite for appointment of review committees.

Under the terms of the governing statute, authority to appoint a review committee for the purpose provided in § 512.1, arises only where application is made to the Secretary of Labor in writing, by any employer or group of employers employing a majority of the employees in an industry in Puerto Rico or the Virgin Islands, for the appointment of a review committee to recommend the minimum rate or rates to be paid such employees in lieu of the rate or rates resulting from the percentage increase described in § 512.1. Such application shall be filed neither earlier than December 3, 1967 nor later than February 1, 1968. Appointment of a review committee pursuant to such application is authorized only if the Secretary of Labor has reasonable cause to believe, on the basis of financial and other information contained in the application, that compliance with the increase of 28 per centum referred to in § 512.1 will substantially curtail employment in such industry. The governing statute provides that the Secretary's decision on such application shall be final.

§ 512.3 Industry.

Only one application for each industry shall be received. The definition of each industry shall conform to one of the definitions under the first section entitled "Definition," in Parts 601 to 699, both inclusive, and Part 720 of this chapter, excluding, however, Parts 694, 695, and 697 of this chapter. In the case of industries in the Virgin Islands, the definition of an industry shall conform to one of the lettered paragraphs of § 694.1 of this chapter. Every employer who joins a group of employers in filing an

application must sign it. Signers on behalf of business organizations should be the employer's chief executive officer in charge of all its operations in the industry in Puerto Rico or the Virgin Islands, as the case may be, or an officer with supervisory authority over such chief executive. Each such application should be complete in one document. Where, however, substantial reason compels a particular employer to join a group of employers in filing an application by a separate document and if it meets the requirements provided in §§ 512.3 to 512.9, it will be received, considered, together with the presentation of the other employers in the group, and the employer will be accorded status as an applicant under § 512.13.

§ 512.4 Publication.

Each application and the financial and other information contained therein shall become a matter of public record. Such documents will, upon appointment of the review committee, be referred to it in accordance with section 5(d) of the Fair Labor Standards Act of 1938.

§ 512.5 Identification and filing data.

Each application shall separately state for each employer participating in it, his name and address (in Puerto Rico or the Virgin Islands as the case may be), the products produced and services rendered by the employees to whom the application relates, and the applicable wage order and any classification or classifications applicable to such employees, all as defined in Parts 681 through 699, both inclusive, and Part 720 of this chapter. The application shall be filed during the period prescribed by § 512.2. No clarification, supplemental, or additional data filed outside the period prescribed by § 512.2 may be considered. If the application is sent by airmail between Puerto Rico or the Virgin Islands and the mainland, such filing shall be deemed timely if postmarked within the period prescribed by § 512.2. The original and two copies of the application shall be filed at the Office of the Administrator of the Wage and Hour Division, U.S. Department of Labor, Washington, D.C. 20210, and one copy shall be filed at the Office of the Regional Director of the Wage and Hour Division, U.S. Department of Labor, Seventh Floor, Condominio San Alberto Building, 1200 Ponce de Leon Avenue, Santurce, P.R. 00908.

§ 512.6 Majority of employees in the industry.

In order to provide the information necessary to determine whether the employer or employers applying for appointment of a review committee employ a majority of the employees in the industry, the application shall show the number of employees subject to the wage order for such industry who are employed by each such employer for the payroll week which includes November 12, 1967. In addition to this information, such information on employment during another specific payroll week may be submitted if the application shows that employers employing a majority of the employees in the industry and participating in the application agree upon such week as the most recent payroll week considered to be normal, and if the application presents facts which establish that employment during such other week is, because of factors such as seasonality or temporary abnormal conditions, more representative than the employment during the week which includes November 12, 1967. The name and address of each employing establishment in the industry which has not joined in the application shall also be stated, together with the estimated number of employees employed by it in the workweek which includes November 12, 1967, and such other week as may be selected for counting employees of employers joining in the application. Employers filing information on employment in establishments operated by other employers in their industry who have not joined in the application shall supply the best information they are able to discover on this question and identify its source.

§ 512.7 Information to be submitted.

The application shall set forth separately for each employer participating in such application the financial and other information with respect to his operations which he relies upon to establish reasonable cause for believing that compliance with the minimum wage rate or rates resulting from the percentage increase referred to in § 512.1 will substantially curtail employment in the industry. If such information is not set forth in such pertinent detail as will permit the Secretary to conclude that there is reasonable cause to believe that such curtailment of employment will result, he is not authorized to appoint a review committee. It is therefore recommended that each application contain information in at least the detail required by Part 511 of this chapter as a prerequisite to becoming a party to a proceeding before a special industry committee.

§ 512.8 Financial information.

With respect to financial information, each application shall provide pertinent, unabridged profit and loss statements and balance sheets for a representative period of years (not less than three) covering the operations of each employer in the industry joining in such application, and include the most recent year or fraction thereof for which such data are available. Such financial statements (except those relating to the most recent fiscal period that are for less than a full fiscal year and those that are for a year ending less than 90 days prior to the filing of the application) shall be certified by an independent certified public accountant, or verified by the employer to whom they relate, as conforming to, and being consistent with, the corresponding income tax returns covering the same years, so that the application presents all the detail in such returns that is pertinent to the question of whether the 28 per centum increase referred to in § 512.1 will substantially curtail employment in the industry. The names of individuals or business organizations with whom transactions were accomplished, and minor details which are not pertinent to the appointment of a review committee, need not be revealed.

§ 512.9 Payroll and employment data.

Each applicant shall present separately for each participating employer payroll data for the week or weeks identified in § 512.6 showing the following information for all employees employed by him in the industry in classifications subject to the 28 per centum increase referred to in § 512.1: (a) For employees other than learners and apprentices working under special minimum wage certificates and homeworkers—(1) the number of employees paid minimum wages and (2) the number of employees in each interval of straight-time earnings (the intervals should be 2½ cents and the lowest interval should begin with and include the lowest appropriate multiple of 5 cents); (b) for learners and apprentices—the number of employees in each straight-time interval of earnings; and (c) for homeworkers—(1) the number of homeworkers and (2) the total amount of wages paid to homeworkers. In addition to the foregoing, there shall be submitted for each participating employer for every worker employed by him, on one of the copies to be filed with the Administrator pursuant to § 512.5, the following: The wage rate at which the worker is employed, his hours worked in the workweek, his total earnings, and his straight-time hourly earnings as computed from the weekly straight-time earnings and hours of work. In reporting payroll data on homeworkers, only the number of homeworkers and the total amount paid to each need be shown. Those employees who are learners or apprentices working under special certificates shall be identified as such in the data. In addition to the foregoing payroll data, there should be stated for each participating employer the number of employees other than learners and apprentices and homeworkers, the number of learners and apprentices, and the number of homeworkers employed by him in the workweeks which included the following dates: August 12, 1965, November 12, 1965, February 12, 1966, May 12, 1966, August 12, 1966, November 12, 1966, February 12, 1967, May 12, 1967, August 12, 1967 and November 12, 1967.

§ 512.10 Other information.

Other information which the participants in the application deem necessary or appropriate for consideration on the question of whether the 28 per centum wage increase referred to in § 512.1 will substantially curtail employment in the industry shall be supplied in the application. Among the types of data which may be considered pertinent, are those revealing (a) employment and labor conditions and trends in Puerto Rico or the Virgin Islands, as the case may be, and on the mainland, particularly after the effective date of the most recent applicable wage order, including such items as present and past employment, present wage rates, perquisites, and fringe benefits, changes in average hourly earnings or wage structure, provisions of collective bargaining agreements, hours of work, labor turnover, absenteeism, productivity, learning periods, rejection rates and similar factors; (b) market conditions and trends in Puerto Rico or the Virgin Islands, as the case may be and on the mainland, including changes in the volume and value of production, market outlets, price changes, style factors, consumer demand, and similar marketing factors; (c) comparative production costs in Puerto Rico or the Virgin Islands, as the case may be, with such costs on mainland and in foreign countries, together with the conditions responsible for the differences.

§ 512.11 Action on application.

Each application under this part will be considered promptly after receipt, and decisions thereon will be promptly communicated to employers participating in the application. On approval of any such application, an order of appointment of a review committee for the industry to which it relates will be published in the FEDERAL REGISTER. Approval of an application shall not, in proceedings before a review committee, be considered as evidence that any specific rate or rates which may be applicable or may be made applicable under any provision of the Act to employees in the industry concerned will or will not cause substantial curtailment of employment therein.

§ 512.12 Review committee procedure.

The provisions of sections 5 and 8 of the Fair Labor Standards Act of 1938 relating to special industry committees are applicable to review committees appointed pursuant to this part. Part 511 of this chapter, entitled "Wage Order Procedure for Puerto Rico, the Virgin Islands, and American Samoa" shall govern the procedure of review committees and the general method for issuance of wage orders pursuant to their recommendations, except insofar as Part 511 of this chapter may be inconsistent with this part or the Fair Labor Standards Amendments of 1966 (Public Law 89-601).

§ 512.13 Effective date of the 28 per centum increase or the review committee wage order.

Except as provided in § 512.14, the 28 per centum increase in minimum wage rates or the superseding minimum rate or rates prescribed in a wage order issued pursuant to the recommendations of a review committee, as referred to in § 512.1, shall become effective April 2, 1968, and shall remain in effect only for so long as and insofar as such minimum wage rate or rates have not been superseded by a wage order fixing a higher minimum wage rate or rates (but not in excess of $1.60 an hour) hereafter issued by the Secretary of Labor pursuant to the recommendations of a special industry committee. However, no special industry committee shall hold any hearing within 1 year after a minimum wage rate or rates for an industry have been recommended to the Secretary by a review committee to be paid in lieu of the rates increased by 28 percent, as referred to in § 512.1.

§ 512.14 Surety undertaking.

(a) *Eligibility for relief.* In the event a review committee has been appointed as provided in § 512.11 and its deliberations have not resulted in a wage order effective on or before the effective date referred to in § 512.13, the 28 per centum increase shall go into effect on the effective date prescribed in that section, except with respect to the employees of an employer who filed a timely application under § 512.5 to the extent that he qualifies for relief under paragraph (b) of this section.

(b) *Conditions of relief.* Each employer eligible for relief as provided in paragraph (a) of this section is hereby relieved, subject to the following conditions, from the obligation to pay the 28 per centum wage increase referred to in § 512.1 until the effective date of the wage order for his industry recommended by the review committee appointed under § 512.11. Such relief shall begin when, and continue as long as, the following conditions are complied with:

(1) He shall file with the Secretary of Labor a bond enforceable by the Secretary of Labor in the district court of the United States for the District of Columbia or for the district of Puerto Rico by service of process on a public officer in the District of Columbia or in Puerto Rico who is, by irrevocable appointment in the undertaking, authorized to receive service of process on the employer's behalf in any judicial proceeding to enforce the bond. The condition of the bond shall be such that liability for the amount of the undertaking may be avoided only if there is payment to each of his employees of an amount equal to the difference between the wages they actually receive and the wages provided in the wage order made on recommendation of the review committee.

(2) The liability in such a bond shall be fully joined by a corporate surety identified currently by the Secretary of the Treasury under sections 6 through 13 of Title 6 of the United States Code as an acceptable surety on Federal bonds who is licensed to transact a surety business and has a process agent, both in the District of Columbia and in Puerto Rico.

(3) The employer shall file with the Secretary of Labor a weekly report showing the cumulative difference between the total amount of wages he has paid to his employees through the end of the preceding workweek and the total wages his employees will be entitled to receive if the review committee recommends an increase of 28 per centum.

(4) The relief shall not be effective for any period after the cumulative difference reported under subparagraph (3) of this paragraph exceeds 75 per centum of the amount of the undertaking, nor after the Secretary of Labor advises the employer that in his opinion the amount of the undertaking is inadequate to give satisfactory assurance that the employees whose wages are affected by the relief will ultimately receive the total compensation for their work to which they will be entitled.

(5) The condition of the bond shall also require that sums due employees who cannot be located within 3 years after the effective date of the wage order recommended by the review committee shall be payable to the Secretary of Labor to be covered into the Treasury of the United States as miscellaneous receipts.

§ 512.15 Information previously submitted.

Where financial information required to be included in a petition has previously been submitted to the Wage and Hour and Public Contracts Divisions in the form required by § 512.8, the petitioner may request that it be permitted to exclude such information, setting forth the date and circumstances of such prior submission. Such request, however, must be made and granted before a petition omitting the required information may be filed, and will not authorize a petition subsequent to February 1, 1968.

Signed at Washington, D.C., this 14th day of August 1967.

THOMAS R. DONAHUE,
Assistant Secretary for Labor-Management Relations.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 67-WE-53]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amendments to Part 71 of the Federal Aviation Regulations which would alter the controlled airspace in the Denver, Colo., terminal area.

Interested persons may participate in the proposed rule-making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Western Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 5651 West Manchester Avenue, Post Office Box 90007, Airport Station, Los Angeles, Calif. 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice

in order to become part of the record for consideration. The proposals contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 9651 West Manchester Avenue, Los Angeles, Calif. 90045.

The proposed control zone extension is required to provide protection for aircraft executing a new radar approach procedure to Buckley Field ANGB for that portion of the approach conducted below 1,000 feet above the surface.

The additional proposed 700-foot transition area is required to avoid unnecessary altitude restrictions currently required by the present lack of controlled airspace. In addition, it would allow random vectoring and facilitate radar handoffs of arriving and departing aircraft in the terminal area, thus permitting maximum utilization of radar capabilities and more efficient control of IFR traffic.

The 7,500-foot MSL floor portion of the transition area NE of Greeley, Colo., is being incorporated into the description of the Denver transition area, since this portion of airspace is part of the Denver control area extension that is being revoked.

The additional segments of airspace west of Denver floored at MSL altitudes are proposed to provide greater flexibility of Denver Center radar vectoring in this area.

In view of the foregoing, the FAA proposes the following airspace actions:

In § 71.171 (32 F.R. 2088) the Denver, Colo., control zone is amended to read as follows:

DENVER, COLO.

Within a 9-mile radius of Stapleton Municipal Airport (latitude 39°46'30" N., longitude 104°52'40" W.), within a 9-mile radius of Buckley ANGB Airport (latitude 39°42'05" N., longitude 104°45'10" W.), and within 2 miles each side of the 181° bearing from Buckley ANGB, extending from the 9-mile radius zone to 13 miles southeast of Buckley ANGB, excluding the portion within a 1-mile radius of Skyline Airport (latitude 39°46'37" N., longitude 104°36'57" W.).

In § 71.165 (32 F.R. 2069) the Denver, Colo., control area extension is revoked.

In § 71.181 (32 F.R. 2177) the Denver, Colo., transition area is amended to read as follows:

DENVER, COLO.

That airspace extending upward from 700 feet above the surface, within an arc of a 20-mile radius circle centered on Stapleton Airport (latitude 39°46'30" N., longitude 104°-52'40" W.) extending clockwise between the 258° and 078° bearings from Stapleton Airport, within an arc of a 27-mile radius circle centered on Stapleton Airport extending clockwise between the 078° and 180° bearings from Stapleton Airport, within an arc of a 30-mile radius circle centered on Stapleton Airport extending clockwise between the 160° and 182° bearings from Stapleton Airport, and within an arc of a 24-mile radius circle centered on Stapleton Airport extending clockwise between the 182° and 208° bearings from the Stapleton Airport; that airspace extending upward from 1,200 feet above the surface bounded on the north by latitude 40°30'00" N., on the east by longitude 104°00'00" W., on the south by latitude 39°05'00" N., and on the west by longitude 105°30'00" W.; that airspace NE of Greeley, Colo., extending upward from 7,500 feet MSL bounded on the northeast by V-122, on the SE by V-160, on the south by latitude 40°30'00" N., and on the northwest by V-307, and that airspace east of Denver bounded on the northwest by V-109, on the northeast by V-123, on the east by V-165, on the south by latitude 39°05'00" N., and on the west by longitude 104°00'00" W.; that airspace west of Denver extending upward from 11,500 feet MSL, bounded on the north by latitude 40°30'00" N., on the east by longitude 105°30'00" W., on the south by latitude 39°05'00" N., on the west by longitude 105°33'00" W.; that airspace extending upward from 12,700 feet MSL bounded on the north by latitude 40°30'00" N., on the east by longitude 105°23'00" W. to latitude 39°20'00" N., thence direct latitude 39°30'00" N., longitude 105°30'00" W., and on the west by longitude 105°30'00" W; and that airspace extending upward from 13,700 feet MSL bounded on the north by latitude 40°30'00" N., on the east by longitude 105°23'00" W. to latitude 39°30'00" N., thence direct to latitude 39°30'00" N., longitude 105°23'00" W., thence direct latitude 39°05'00" N., longitude 105°23'00" W., thence direct latitude 39°44'00" N., longitude 105°38'00" W., thence direct latitude 40°-30'00" N., longitude 105°33'00" W., excluding the airspace within Federal airways and the Greeley, Colo., transition area.

These amendments are proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958, as amended (72 Stat. 749; 49 U.S.C. 1348).

Issued in Los Angeles, Calif., on August 14, 1967.

LEE E. WARREN,
Acting Director, Western Region.

[F.R. Doc. 67-9873; Filed, Aug. 22, 1967; 8:47 a.m.]

[14 CFR Part 71]

[Airspace Docket No. 67-CE-94]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Fargo, N. Dak.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

Conventional and jet aircraft operations are on the increase in the Fargo, N. Dak., terminal area. In order to adequately control and expedite air traffic operating in this terminal area additional holding fixes must be established and more transition routes to and from these fixes must be provided. Therefore, it is necessary to alter the 1,200-foot floor transition area at Fargo to encompass these holding patterns and routes. The present Fargo control zone and 700-foot floor transition area will not be changed as a result of this proposal.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (32 F.R. 2148), the following transition area is amended to read:

FARGO, NORTH DAKOTA

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Hector Field (latitude 46°55'05" N., longitude 96°48'00" W.); within 2 miles each side of the Fargo ILS localizer north course, extending from the 7-mile radius area to 8 miles north of the RBN; within 2 miles each side of the Fargo VORTAC 007° radial, extending from the 7-mile radius area to 24 miles north of the VORTAC; and within 5 miles west and 8 miles east of the Fargo ILS localizer south course, extending from 5 miles north to 12 miles south of the LOM; and that airspace extending upward from 1,200 feet above the surface within a 35-mile radius of the Fargo VORTAC; within a 26-mile radius of the Fargo VORTAC, extending from a line 9 miles west of and parallel to the Fargo VORTAC 348° radial, clockwise to a line 5 miles east of and parallel to the Fargo VORTAC 094° radial; and within 10 miles east and 7 miles west of the Fargo VORTAC 187° radial, extending from the 35-mile radius area to 56 miles south of the VORTAC.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued at Kansas City, Mo., on August 7, 1967.

EDWARD C. MARSH,
Director, Central Region.

[14 CFR Part 71]

[Airspace Docket No. 67-CE-95]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Eau Claire, Wis.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

A new special ADF instrument approach procedure has been developed for Eau Claire Municipal Airport. In addition, the northeast/southwest runway (4/22) has been extended to a length of 7,300 feet. Therefore, it is necessary to alter the 700-foot floor transition area at Eau Claire to provide protection for aircraft executing the new special instrument approach procedure and departing the airport during climb to 1,200 feet above the surface. The present Eau Claire control zone and 1,200-foot floor transition area will not be changed as a result of this proposal.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (32 F.R. 2148), the following transition area is amended to read:

EAU CLAIRE, WIS.

That airspace extending upward from 700 feet above the surface within a 9-mile radius of Eau Claire Municipal Airport (latitude 44° 51'47" N., longitude 91°29'13" W.); and within 2 miles each side of the Eau Claire VORTAC 011° radial, extending from the 9-mile radius area to 8 miles north of the VORTAC; and that airspace extending upward from 1,200 feet above the surface within 8 miles south and 5 miles north of the 274° bearing from Eau Claire Municipal Airport, extending from the airport to 12 miles west of the airport and within the arc of a 14-mile radius circle centered on the Eau Claire VORTAC, extending from the Eau Claire VORTAC 288° radial clockwise to the Eau Claire VORTAC 091° radial.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued at Kansas City, Mo., on August 4, 1967.

EDWARD C. MARSH,
Director, Central Region.

[F.R. Doc. 67-9875; Filed, Aug. 22, 1967; 8:47 a.m.]

[14 CFR Part 71]

[Airspace Docket No. 67-SW-84]

TRANSITION AREAS

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to alter the Alexandria, La., and Jasper, Tex., transition areas.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, Tex. 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal Docket will also be available for examination at the Office of the Chief, Air Traffic Division.

On April 1, 1967, a final rule was published in the FEDERAL REGISTER (32 F.R. 5465) amending Part 71 by redesignating in § 71.181 (32 F.R. 2149) the Alexandria, La., transition area, effective 0001 e.s.t. May 25, 1967. The 1,200-foot portion of the transition area is described, in part, "* * * counterclockwise along the arc of a 25-mile radius circle centered at lat. 29°54'40" N., long. 94°02'40" W., to long. 94°06'00" W., to lat. 30°37'00" N., long. 94°11'00" W., to lat. 30°44'00" N., long. 93°51'00" W. * * *."

On June 17, 1967, a final rule was published in the FEDERAL REGISTER (32 F.R. 8709) amending Part 71 by designating in § 71.181 (32 F.R. 2148) the Jasper, Tex., transition area, effective 0001 e.s.t. August 17, 1967. On July 20, 1967, a corrected description was published in the FEDERAL REGISTER (32 F.R. 10644). The 1,200-foot portion of the transition area is described as that airspace extending upward from 1,200 feet above the surface within an area bounded by a line beginning at lat. 30°37'00" N., long. 94°11'00" W. to lat. 30°54'20" N., long. 94°24'45" W. to and counterclockwise along the arc of a 35-mile radius circle centered at the Lufkin VORTAC to lat. 31°07'00" N., to lat. 31°08'00" N., long. 94°02'00" W. to lat. 30°44'00" N., long. 93°51'00" W. to point of beginning.

Subsequently, this agency proposed relocation of the Beaumont, Tex., VOR/DME to a site on the Jefferson County Airport [Airspace Docket No. 67-SW-81 (32 F.R. 8722)] which will require a slight change in V-269E [Airspace Docket No. 67-SW-30 (32 F.R. 10663)]. This airway is the western boundary for the Alexandria, La., and Jasper, Tex., 1,200-foot transition areas.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

(1) In § 71.181 (32 F.R. 2149), the Alexandria, La., transition area 1,200-foot portion is altered by substituting "* * * lat. 30°16'20" N., long. 94°05'10" W. to lat. 30°35'45" N., long. 94°14'15" W. * * *" for "* * * long. 94°06'00" W. to lat. 30°37'00" N., long. 94°11'00" W. * * *."

(2) In § 71.181 (32 F.R. 2148), the Jasper, Tex., transition area 1,200-foot portion is altered by substituting "* * * lat. 30°35'45" N., long. 94°14'15" W. to lat. 30°46'20" N., long. 94°19'15" W. to lat. 30°54'10" N., long. 94°25'20" W., * * *" for "* * * lat. 30°37'00" N., long. 94°11'00" W. to lat. 30°54'20" N., long. 94°24'45" W. * * *."

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued in Fort Worth, Tex., on August 10, 1967.

HENRY L. NEWMAN,
Director, Southwest Region.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 21, 74, 91]

[Docket No. 15971]

COMMUNITY ANTENNA TELEVISION SYSTEMS

Distribution of Television Broadcast Signals and Related Matters; Order Extending Time for Filing Comments and Reply Comments

In the matter of amendments of Parts 21, 74 (proposed Subpart J), and 91 to adopt rules and regulations relating to the distribution of television broadcast signals by community antenna television systems, and related matters; Docket No. 15971.

1. In a Further Notice of Proposed Rule Making and Notice of Inquiry, adopted on June 14, 1967 (8 FCC 2d 569), August 25 and September 25, 1967, were designated as the dates for filing comments and reply comments respectively.

2. The National Community Television Association (NCTA) and Bonneville International Corp. (BIC) have moved that the time for comment be extended 90 days to November 23, 1967, and that the date for filing reply comments be extended to December 26, 1967. Both NCTA and BIC refer to the complexity of the proceeding and urge that more meaningful comments would be presented by allowing additional time.

3. We are of the view that good cause has been shown for an extension of time, in view of the importance and scope of this proceeding. However, we do not feel that an additional 90 days is necessary or would be appropriate. A 60-day extension appears to be ample. *Accordingly, it is ordered*, That the time for filing comments herein is extended to October 24, 1967, and the time for filing reply comments is extended to November 24, 1967.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.281(d)(8) of the Commission's rules and regulations.

Adopted: August 17, 1967.

Released: August 18, 1967.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

Notices

DEPARTMENT OF DEFENSE

Office of the Secretary

DEFENSE COMMUNICATIONS AGENCY

Mission, Organization and Functions

The following Defense Communications Agency policies have been approved by the Director, Defense Communications Agency.

1. *General—a. Creation and authority.* The Defense Communications Agency (DCA) was established on May 12, 1960, as an agency of the Department of Defense under the direction, authority, and control of the Secretary of Defense through the Joint Chiefs of Staff.

b. *Mission.* DCA is responsible for:

(1) The operational and management direction of the Defense Communications System (DCS) which includes all Department of Defense worldwide, long-haul, Government-owned and leased, point-to-point circuits, terminals, control facilities, and tributaries required to provide communications.

(a) from the President to and from the Secretary of Defense, the Joint Chiefs of Staff, and other governmental agencies,

(b) from the Secretary of Defense and the Joint Chiefs of Staff to and between the Military Departments and the Unified and Specified Commands,

(c) from the Military Departments to and between their major commanders and subordinate fixed headquarters, and

(d) from Unified and Specified Commands, to and between their component and subordinate commands;

(2) Systems engineering and technical supervision of the implementation of technical support for the National Military Command System and of each related system;

(3) The integration between the ground and space borne elements of defense communication satellite systems and between these systems and the existing and expanding global DCS in order to ensure compatibility of satellite equipments with their counterparts on the ground and of such ground equipment with the elements of the DCS.

c. *Organization.* The DCA consists of a Headquarters, located at the Navy Service Center, Eighth Street and South Courthouse Road, Arlington, Va., and various field activities. The Defense Communications Agency Operations Center, collocated with the Headquarters, exercises operational direction over all elements of the DCS through the Area Communications Centers. There are four Area activities located in close proximity to the Unified and Specified Commands in Alaska, Colorado, Hawaii, and Germany. Eight DCA Region activities, reporting to the Area activities, are located in Japan, Philippines, South Vietnam, Panama, Canada, United Kingdom, Spain, and Turkey. The Defense Commercial Communications Office, Scott Air Force Base, Ill., procures, accounts and pays for leased communications facilities, services, and equipment for the Department of Defense and, as directed by the Secretary of Defense, other Government agencies. The Defense Communications Engineering Office, collocated with the Headquarters, provides engineering advice, service and support and translates approved system/project plans into management/engineering plans for the improvement, expansion and modernization of the DCS. The National Military Command System Support Center, located in Washington, D.C., provides Automatic Data Processing service to the command centers of the National Military Command System and other elements of the Department of Defense. The White House Communications Agency provides telecommunication and other related support to the President of the United States and to other elements related to the President.

2. *Functions—a. Director.* The Director exercises world-wide direction and control of the DCA in the performance of all assigned responsibilities. The Director is responsible to the Secretary of Defense through the Joint Chiefs of Staff.

b. *Deputy Director.* The Deputy Director is the General/Flag Officer next in seniority to the Director assigned to Headquarters, DCA and serves in this capacity as an additional duty. He provides for the continuity of operation of the Agency and serves as principal point of contact in the Director's absence between the Agency and Offices of the Secretary of Defense, the Joint Staff, and staffs of the Unified and Specified Commands.

c. *Executive Officer.* The Executive Officer performs administrative coordination and review functions for the Director; coordinates the activities of the Headquarters; maintains a Management Information Center and coordinates program management reviews; represents the Director on special project assignments.

d. *Office of Counsel.* The Counsel serves as counsel to and represents the Director and all echelons of the DCA, Headquarters and field activities in legal matters pertaining to procurement administration, legislation, labor relations and international logistics. Acts as Deputy Contracts Compliance Officer.

e. *Office of the Inspector General.* The Inspector General inquires into and reports upon any matter which pertains to the performance of mission and the state of efficiency and economy of the Agency. Formal inspections and surveys are conducted as directed by the Director.

f. *Information Services Office.* The Information Services Officer has the following functions:

(1) Serve as the principal point of contact for DCA with the Office of the Assistant Secretary of Defense, (Public Affairs) on public information and community relations matters.

(2) Serve as the focal point for processing and approval of all material proposed for publication in commercial and/or trade journals.

(3) Establish and maintain an office of record for classified and unclassified speeches and briefings given by the Director and other DCA officials.

(4) Serve as the principal point of contact in DCA for the coordination of requests for inter/intra-agency exhibits or speaking engagements and briefings by DCA personnel for military, professional, scientific, and educational groups.

(5) Prepare and disseminate informational material, news releases, and photographs to news media, industry/professional and scientific organizations, and other government organizations.

g. *Secretariat, Military Communications-Electronics Board.* The Secretariat provides staff support to the Chairman, Military Communications-Electronics Board.

h. *Administrative Services.* The Administrative Services organization advises and assists the Director, DCA in the formulation and execution of the administrative policies and procedures for the general operation of the DCA; directs the development and implementation of a comprehensive and responsive personnel management program; formulates and implements security policies within the Agency and performs security review of the DCA public affairs program; provides procurement and contracting services for the Agency; provides supply and services support to the Headquarters and collocated field activities; plans for and supervises the effective utilization of all assigned buildings for use by the Headquarters and collocated field activities as office and operational area. The Administrative Services organization includes the Office of Administrative Services, the Administrative Division, the Military Personnel Division, the Supply and Services Division, the Security Division, the Civilian Personnel Division, and the Contract Management Division.

i. *Comptroller.* The Comptroller advises and assists the Director, DCA in the formulation, establishment, analysis, and appraisal of DCA objectives, plans, and policies; exercises primary responsibility for the preparation, defense, and administration of Five Year Defense Plan (FYDP) programs and budgets of the DCA; directs the review and monitoring of the command, control, and communications programs and budgets of

the Military Departments to assure that actions programed and budgeted are in accord with the policies and objectives of the DCA; as the Senior Policy Official monitors Automatic Data Processing systems and programs for Automatic Data Processing Equipment for the DCA; reviews and monitors the development and maintenance of the data processing support program for the DCA; advises and assists the Director in his management program to assure that his management objectives are fulfilled; develops policies and objectives in the areas of organization and manpower and provides a positive control of the manpower resources for the DCA; directs the development and application of DCA cost analysis information system; advises and assists the Director in arriving at cost effectiveness judgments on current and DCA managed programs. Directs the review and evaluation of General Accounting Office audit reports dealing with Department of Defense telecommunications matters, and audit reports on DCA prepared by the Office of the Secretary of Defense (Deputy Comptroller) Internal Auditor; prepares and/or coordinates comments in reply to such reports; and initiates corrective action as appropriate. The Comptroller organization includes the Office of the Comptroller, the Review and Analysis Division, the Management Services Division, the Budget and Financial Services Division, the Organization and Manpower Division, and the Cost Analysis Office.

j. Deputy Director for Defense Communications System (DCS). The Deputy Director for DCS is responsible to the Director, DCA for ensuring that the DCS will be so established, improved and operated as to meet the long-haul, point-to-point telecommunications requirements of the Department of Defense and, as directed, other Government agencies. The Deputy Director, DCS has one staff organization, the Management Support Office. There are three subordinate line offices, each headed by an Assistant Deputy Director.

(1) *Office of DCS Plans and Policy.* The Office of DCS Plans and Policy develops system and project plans, establishes policy, objectives and standards; and coordinates research and development for extending, expanding and modernizing the DCS and related special systems and networks to meet requirements imposed upon the system. The Office of DCS Plans and Policy includes the Plans Division, Washington Complex Division, Requirements Division, Research and Development Division, Standards Division, and the Commercial Policy Office.

(2) *Office of DCS Program Implementation.* The Office of DCS Program Implementation exercises staff supervision over the development and preparation of management/engineering plans based upon approved system/project plans. He monitors and guides all phases of implementation of approved plans and projects. The Office of DCS Program Implementation includes the Defense Special Security Communications System Division, the Project Management Offices for Automatic Voice Network (AUTOVON), Automatic Digital Network (AUTODIN), Automatic Secure Voice Network (AUTOSEVCOM), Communications Systems and Satellite Communications, the Satellite Communications Field Offices, and the Command, Control and Communications Program Review Office. The Assistant Deputy Director, DCS Program Implementation also serves as the Chief, Defense Communications Engineering Office.

(3) *Office of DCS Operations.* The Office of DCS Operations exercises operational and management direction over the DCS, provides staff supervision over the White House Communications Agency, and supervises the DCS Operations Center Complex (DOCC). The Office of DCS Operations includes the Operations Division, Communications Services Division, Analysis and Evaluation Division, Operations Research Office, and Data Processing Division.

k. Deputy Director for National Military Command System Technical Support (NMCSTS). The Deputy Director for NMCSTS is responsible to the Director, DCA to provide system engineering and technical implementation supervision to the National Military Command System (NMCS). The Deputy Director, NMCSTS has two staff organizations, the Administrative Office and the Program Control Office. There are three subordinate line offices, each headed by an Assistant Deputy Director.

(1) *Office of NMCS Systems.* The Office of NMCS Systems performs appropriately assigned tasks for the NMCS in the functional areas of system planning, system development, technical design and systems integration. The Office of NMCS Systems includes the Plans Division and the Design Division.

(2) *Office of NMCS Engineering.* The Office of NMCS Engineering performs appropriately assigned tasks relating to engineering matters and technical supervision of implementation of equipment and facilities applicable to the NMCS. The Office of NMCS Engineering includes the Technical Support Division, the Computer and Display Division, and the Implementation Division.

(3) *Office of NMCS, Test, Evaluation and Doctrine.* The Office of NMCS Test, Evaluation and Doctrine performs appropriately assigned tasks relating to technical test, evaluation and doctrine matters applicable to the NMCS. The Office of NMCS Test, Evaluation and Doctrine consists of the Test and Evaluation Division and the Doctrine Division.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division OASD (Administration).

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[A 1194]

ARIZONA

Order Providing for Opening of Public Lands

1. In an exchange of lands made under the provisions of section 8 of the Act of June 28, 1934 (48 Stat. 1272), as amended by Section 3 of the Act of June 26, 1936 (49 Stat. 1976; 43 U.S.C. 315g), the following described lands have been reconveyed to the United States under serial number Arizona 04783:

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 12 S., R. 29 E.,
Sec. 29, SE¼SW¼.

The area described includes 40 acres.

2. The lands are located in Cochise County approximately 5 miles northeast of Bowie, Ariz. Topography is moderately flat to flat desert land. Soils are fine sandy and silty loam. Vegetation consists of creosote bush, snake weed, and burrow weed with some perennial and annual grasses. The lands have value for watershed, grazing, and wildlife which can best be managed under the principles of multiple use.

3. Subject to valid existing rights, the provisions of the present multiple use classification A 467 published April 27, 1967 (32 F.R. 6536), and the requirements of applicable law, this land will be opened to application, petition, location, and selection. Any petition-application that is filed for classification will be considered on its merits in accordance with existing law and regulations.

4. This order shall become effective at 10 a.m. on September 10, 1967.

5. Inquiries concerning these lands shall be addressed to U.S. Bureau of Land Management, Arizona Land Office, Room 3022, Federal Building, Phoenix, Ariz. 85025.

FRED S. WEILER,
State Director.

AUGUST 14, 1967.

[U-0130876, U-0146308—U-0146545310, Incl.]

UTAH

Notice of Proposed Classification

AUGUST 15, 1967.

Pursuant to section 2 of the Act of September 19, 1964 (43 U.S.C. 1412), notice is hereby given of a proposal to classify the lands described below under section 7 of the Act of June 28, 1934 (48 Stat. 1273; 43 U.S.C. 315f), as amended, as proper for selection by and transfer to the State of Utah in satisfaction in part of the State's outstanding land grant accorded them under the provisions of sections 2275 and 2276 of the Revised Statutes (43 U.S.C. 851; 852), as amended. The selection is made as indemnity for an equal acreage of mineral land lost to the State by reservation or appropriation of what would have been school sections in place when surveyed. Title will pass subject to all valid existing rights. If the proposal is effected, the State of Utah will obtain title to both the surface and the mineral estates owned by the United States in these lands.

The selected lands include 4,160 acres and are located 4 miles south of Crescent Junction in Grand County.

Available information indicates that these lands meet the criteria for classification for selection by the State as provided for in 43 CFR 2410.1-1(a)(2) and 43 CFR 2410.1-3(c). The lands are not required for public programs and their selection by the State will not interfere with administration of other public lands. The area represents a reasonable management unit and the State will recognize existing uses in determining future management programs if the selection is consumated.

Information concerning this proposal is available at the Bureau's Monticello District Office, 283 South First West, Monticello, Utah, or the office of the State Director, Federal Building, 125 South State, Salt Lake City, Utah. For a period of 60 days from the date of this publication, interested parties may submit comments to the District Manager or the State Director.

The lands affected by this proposal are located in Grand County and are described as follows:

SALT LAKE MERIDIAN, UTAH

T. 22 S., R. 19 E.,
Sec. 21, E½;
Sec. 22, all;
Sec. 23, all;
Sec. 24, all;
Sec. 25, all;
Sec. 26, all;
Sec. 27, all.

The area described aggregates 4,160 acres.

R. D. NIELSON,
State Director.

[N-1333]

NEVADA

Notice of Termination of Proposed Withdrawal and Reservation of Lands

AUGUST 15, 1967.

Notice of a Federal Aviation Administration application, N-1333, for withdrawal and reservation of lands for proper operation of facilities on the land, was published as F.R. Doc. No. 67-7826, on pages 9998 and 9999 of the issue for July 7, 1967. The applicant agency has canceled its application involving the lands described in the FEDERAL REGISTER publication referred to above. Therefore, pursuant to the regulations contained in 43 CFR, Part 2311, such lands, at 10 a.m. on August 25, 1967, will be relieved of the segregative effect of the above-mentioned application.

ROLLA E. CHANDLER,
Land Office Manager.

[F.R. Doc. 67-9655; Filed, Aug. 22, 1967; 8:45 a.m.]

[Colorado 2100]

COLORADO

Notice of Classification of Public Lands for Multiple Use Management

AUGUST 14, 1967.

1. Pursuant to the Act of September 19, 1964 (43 U.S.C. 1411-18), and to the regulations in 43 CFR Parts 2410 and 2411, the public lands within the areas described below, together with any lands therein that may become public lands in the future are hereby classified for multiple use management. Publication of this notice segregates all the described lands from appropriation only under the agricultural land laws (43 U.S.C. Parts 7 and 9, 25 U.S.C. 334) and from sale under section 2455 of the Revised Statutes (43 U.S.C. 1171). The described lands shall remain open to all other applicable forms of appropriation, including the mining and mineral leasing laws. As used herein, "public lands" means any lands withdrawn or reserved by Executive Order No. 6910 of November 26, 1934, as amended, or within a grazing district established pursuant to the Act of June 28, 1934 (48 Stat. 1269), as amended, which are not otherwise withdrawn or reserved for a Federal use or purpose.

2. No protests or objections were received following publication of a notice of proposed classification (32 F.R. 8384), or at the public hearing at Walden, Colo., which was held on July 19, 1967. Therefore, no changes have been made in the list of lands included in the classification. The record showing the comments received and other information is on file and can be examined in the Glenwood Springs District Office, Glenwood Springs, Colo. The public lands affected by this classification are located within the following described area and are shown on a map designated by Serial Number C-2100 in the Glenwood Springs District Office, Glenwood Village Inn, Post Office Box 1009, Glenwood Springs, Colo. 81601, and at the Land Office of the Bureau of Land Management, Room 15019, Federal Building, 1961 Stout Street, Denver, Colo. 80202.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

NORTH DAKOTA

Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321 of the Consolidated Farmers Home Administration Act of 1961 (7 U.S.C. 1961), it has been determined that in the hereinafter-named counties in the State of North Dakota a natural disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

NORTH DAKOTA

Barnes.	Ransom.
Burke.	Renville.
Burleigh.	Sargent.
Divide.	Sheridan.
McHenry.	Ward.
McIntosh.	Wells.
Mountrail.	Williams.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named counties after June 30, 1968, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 16th day of August 1967.

ORVILLE L. FREEMAN,
Secretary.

DEPARTMENT OF COMMERCE

Office of the Secretary

[DO 188-12]

BUREAU OF INTERNATIONAL COMMERCE

Public Information

This material further amends the material appearing at 30 F.R. 2041 of February 13, 1965; 31 F.R. 4169 of March 9, 1966.

A. *Purpose.* The purpose of this document is to describe, in general, the public information services of the Bureau of International Commerce (BIC), to describe the places at which, and the methods whereby, the public may obtain information, to inform the public as to the sources or availability of rules, regulations, procedures, instructions, forms, or other requirements established by the Bureau of International Commerce which affect the public, and otherwise to comply with the requirements of section 552, Title 5, U.S.C., as amended by Public Law 90-23, June 5, 1967 (81 Stat. 54), (hereinafter referred to as the Act).

B. *Public Information Services.* .01 BIC provides business and industry with a wide range of information and analyses on international business. Included is information on:

Exports and imports (e.g., Foreign trade statistics).
Foreign countries, potential markets, names of potential buyers and sellers.
Foreign tariffs, quotas, exchange controls and other customs regulations and procedures.
Foreign taxes.
Foreign transport systems and insurance activities.
Foreign patent, trademark and copyright laws and regulations.
Foreign government procurement in the United States.
Government export financing facilities.
Operations of the Export-Import Bank.
Foreign Credit Insurance Association insurance against commercial and political risks abroad.
Procedures for prosecuting ocean freight rate complaints.
Export documentation and shipping.
International Commercial arbitration.
Procedures for obtaining reductions in the trade restrictions of foreign countries.
Procedures for obtaining import protection.

.02 Publications of the Bureau are listed in the "Annual Catalog of Commerce Publications" and the weekly "Business Service Checklist," both of which are available from the Field Offices of the Office of Field Services, or the U.S. Department of Commerce, Washington, D.C. In addition BIC publishes a "Semi-annual Checklist of International Business Publications," which can be obtained from the U.S. Department of Commerce or the Field Offices of the Office of Field Services, Department of Commerce.

C. *Guide to Published Rules and Regulations*—.01 *Export control.* Rules and regulations pertaining to export control, including license application procedures, administrative reviews and appeals, and general information on the scope of export control by the Department of Commerce may be found in Title 15, Code of Federal Regulations, Parts 368-399. The rules and regulations are also contained in the Comprehensive Export Schedule which may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 or from the Field Offices of the Office of Field Services, Department of Commerce.

.03 *Foreign-Trade Zones.* Rules and regulations concerning the activities of the Foreign-Trade Zones Board (as established by the Foreign-Trade Zones Act of 1934-48 Stat. 998-1003; 19 U.S.C. 81a-81u), the application for granting of zones, and the operation and maintenance of the zones are found in 15 CFR Part 400. Bureau of Customs regulations relating to foreign-trade zones are found in 19 CFR 30.

.03 *China Trade Act.* Rules and regulations for corporations organized under the China Trade Act (42 Stat. 854; 15 U.S.C. 141-42) are found in 15 CFR Part 302.

.04 *Mobile Trade Fairs.* Rules concerning requests for assistance by mobile trade fair operators under the Mobile Trade Fairs Act of 1962 (46 U.S.C. 1122b) are found in 15 CFR Part 365. The regulations state where one can apply for assistance, what information must be contained in the application, and the criteria used by the Department of Commerce in evaluating each application.

.05 *Other International Trade Promotion Programs.* Application procedures, selection criteria and other rules and regulations pertaining to Government-organized trade missions, industry organized-Government approved trade missions, U.S. Trade Centers, and American Weeks may be obtained from the Office of International Trade Promotion, Bureau of International Commerce, U.S. Department of Commerce, Washington, D.C. 20230.

D. *Submission of Requests and Applications.* The established places at which and the methods whereby the public may make any submittals, applications, or requests concerning the programs listed in section C of this document are found in the rules and regulations cited therein.

E. [Reserved].

F. *Inspection and Copying of Opinions and Orders.* All final opinions and orders made in the adjudication of cases, statements of policy and interpretations not published in the FEDERAL REGISTER, administrative staff manuals and instructions to staff that affect a member of the public, and any other materials required to be made available for public inspection and copying under section 552(a)(2) are made available for such purposes in the Central Reference and Records Inspection Facility of the Department of Commerce, Room 2122, Main Commerce Building, 14th Street between Pennsylvania Avenue and Constitution Avenue NW., Washington, D.C. 20230. Rules concerning the use of this facility are contained in Part 4, Title 15, Code of Federal Regulations, or may be obtained from the facility.

G. *Inspection of Bureau Records.* Pursuant to section 552(a)(3) of the Act, rules for persons desiring to inspect records not available to the public as part of the regular public information services of the Bureau of International Commerce are contained in Part 4, Title 15, Code of Federal Regulations. Applications are available from the Central Reference and Records Inspection Facility of the Department of Commerce, or from the Field Offices of the Office of Field Services, Department of Commerce.

Dated: August 16, 1967.

LAWRENCE E. IMHOFF,
Acting Assistant Secretary for Administration.

[F.R. Doc. 67-9846; Filed, Aug. 22, 1967; 8:45 a.m.]

[DO 90-B]

NATIONAL BUREAU OF STANDARDS

Public Information

This material further amends the material appearing at 31 F.R. 8063 of June 8, 1966; 31 F.R. 8961 of June 29, 1966; 32 F.R. 6529 of April 27, 1967; and 32 F.R. 11811 of August 16, 1967.

A. *Purpose.* The purpose of this document is to describe, in general, the public information services of the National Bureau of Standards ("NBS"), to describe the places at which, and the methods whereby, the public may obtain information, to inform the public as to the sources or availability of rules, regulations, procedures, instructions, forms, reports, or other requirements established by the National Bureau of Standards which affect the public, and otherwise to comply with the requirements of section 552, Title 5, U.S.C., as amended by Public Law 90-23, June 5, 1967 (81 Stat. 54).

B. *Public Information Services*—1. *Publications of the Bureau of Standards.* a. The "Journal of Research of the National Bureau of Standards" is the chief periodical of the bureau devoted to reporting the results of its scientific activities. It is published in three sections, each of which is available separately: "Physics and Chemistry," "Mathematics and Mathematical Physics," and "Engineering and Instrumentation." The Bureau also publishes a monthly "Technical News Bulletin," and an annual report, entitled "Technical Highlights of the National Bureau of Standards."

b. The Bureau also publishes a number of nonperiodical series, covering its major fields of activity. These include the "Applied Mathematics Series," "National Standard Reference Data Series," "Building Science Series," "Technical Notes," "Product Standards," "Miscellaneous Publications," "Handbooks, and Monographs."

c. The various publications of the Bureau are listed in NBS Circular 460, NBS Miscellaneous Publication 240, and the Catalog of Commerce Publications, and in the supplements to these volumes. They are also listed, as published, in the "Business Services Checklist" of the Department of Commerce.

d. Information as to prices, frequency of issue, or other matters concerning NBS publications should be addressed to the Office of Technical Information and Publications, National Bureau of Standards, Washington, D.C. 20234. The telephone number of this Office is 921-2431; Area code 301. Subscriptions to periodicals, and purchases of other NBS publications, should be directed to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Many NBS publications are available at or through the Field Offices of the Office of Field Services, Department of Commerce, which are located in some forty major cities.

2. *Clearinghouse for Federal Scientific and Technical Information.* a. The Clearinghouse, a constituent of the NBS Institute for Applied Technology, is the major center for collecting and disseminating reports of completed research and development projects in the physical sciences, engineering, and technology, which have been conducted or supported by the Federal Government. (See section 9.03 of D.O. 90-B). The Center publishes, bimonthly, the "U.S. Government Research and Development Reports" (USGRDR) which describes each document released through the Clearinghouse, by subject, and the "Government-Wide Index to Federal Research and Development Reports" (GWI), which indexes each document listed in USGRDR by subject, author, source, report number and contract number. The Fast Announcement Service (FAS), brings selected R. & D. reports to the immediate attention of the public. The Clearinghouse also publishes, semimonthly, "Technical Translations," which announces translations of foreign technical literature financed by the Federal Government, which are available for purchase from the Clearinghouse, and lists translations available from other sources such as the Special Libraries Association.

b. Copies of documents available from the Clearinghouse are priced, with few exceptions, at $3 for a paper copy and 65 cents for microfiche. Prepaid document coupons in these denominations are available from the Clearinghouse. Information about other prices, about subscriptions to the above periodicals, about the availability of reports and documents, or about other Clearinghouse services and activities should be addressed to: Clearinghouse for Federal Scientific and Technical Information, 5285 Port Royal Road, Springfield, Va. 22151. Telephone 321-8500; Area Code 703.

3. *Office of Standard Reference Data.* a. As the program management vehicle of the National Standard Reference Data System, the Office of Standard Reference Data is concerned with the production and dissemination of compilations of critically evaluated data in the physical sciences. The System contains a network of 36 information and data centers which provide referral, reference, documentation, and data to the American technical community. Within the Office of Standard Reference Data, the Information Services Operation serves as the direct point of contact between the users and the Standard Reference Data System as a whole. (See section 7.03 of D.O. 90-B.)

b. Based on a data file of compilations of critically evaluated data produced throughout the world, the Information Services Operation will ultimately provide (1) referral service, which refers requests for data on specific subjects to information or data centers specializing in those subjects; (2) reference service, which provides literature references indicating where requesters might locate relevant data; (3) document service, which provides copies of documents in response to inquiries; and (4) data service, which provides detailed data as required to respond fully to requests for information. The "NSRDS News", a monthly newsletter, provides information about activities of the data centers, periodic lists of new compilations of data, and announcements of conferences and meetings of interest to users of numerical data.

c. Most of the data compilations can be obtained directly from the Government Printing Office. Information on the System, lists of compilation titles, and details of the information services provided can be obtained by writing to: Information Services Operation, Office of Standard Reference Data, National Bureau of Standards, Washington, D.C. 20234. Telephone 921-2643; Area code 301.

4. *Other information services*—a. *General information on the mission and operation of NBS.* Address inquiries to the Office of Public Information, National Bureau of Standards, Washington, D.C. 20234. Telephone 921-2431; Area code 301.

b. *Information on NBS technical programs and publications.* Address inquiries to the Office of Technical Information and Publications, National Bureau of Standards, Washington, D.C. 20234. Telephone 921-2316; Area code 301.

c. *Information on NBS activities at Boulder, Colo.* Address inquiries to the Technical Information Office, National Bureau of Standards, Boulder, Colo. 80302. Telephone 447-5245; Area code 303.

d. *Information on filing claims against NBS (Washington and Boulder).* Address inquiries to the Safety Office, National Bureau of Standards, Washington, D.C. 20234. Telephone 921-2600; Area code 301.

C. *Guide to Published Rules and Regulations*—1. Rules with respect to National Bureau of Standards services available to the public are contained in Chapter II, Title 15 of the Code of Federal Regulations. Specifically, the following Parts of Chapter II, 15 CFR, contain rules and regulations affecting the public:

a. Part 200 describes Bureau policies as to its measurement services, including calibrations and tests, and the procedures for requesting these services.

b. Parts 201, 202, 203, 205, 206, and 210 describe the various measurement services, including calibrations and tests, that are available and the costs thereof.

c. Part 230 lists standard reference materials issued by NBS and describes the procedure for ordering these materials.

d. Part 235 lists NBS motion picture films and prescribes the procedure for ordering them.

e. Part 340 describes the standards applicable to barrels and other containers for lime.

f. Part 341 describes the standards applicable to barrels for fruits, vegetables and other dry commodities, and for cranberries.

g. Part 255 describes the types of NBS fellowships in laboratory standardization and testing, and lists the qualifications needed to obtain such fellowships.

h. Part 256 describes policies and procedures concerning the Research Associate Program at NBS.

i. Part 260 describes the standard for devices to permit the opening of household refrigerator doors from the inside.

2. Certain authority for administering the operations of the voluntary standards program of the Department of Commerce has been delegated to the National Bureau of Standards. Part 10 of Title 15, CFR, sets forth procedures for the development of voluntary proposals for the development of voluntary product standards.

D. *Submission of Requests and Applications*—1. The rules and regulations of the National Bureau of Standards, as cited in section C of this document, describes the procedures and identify the established places to which all requests for the various services provided by the bureau are to be submitted.

2. Any member of the public desiring to make any other type of submittal or request should direct such submittal or request to the Director, National Bureau of Standards, Washington, D.C. 20234.

E. *Final Delegations of Authority*. The Director, National Bureau of Standards, has made no delegation or redelegation of authority to officers or employees of the bureau to take final actions, or make final decisions, with respect to requirements, submissions, or other matters arising under its published rules and regulations.

F. *Inspection and Copying of Opinions and Orders*—All final opinions of the National Bureau of Standards made in the adjudication of cases, statements of policy and interpretations not published in the FEDERAL REGISTER, administrative staff manuals and instructions to staff that affect a member of the public, and any other materials required to be made available for public inspection and copying by 5 U.S.C. 552(a)(2), are made available for such purposes at the Central Reference and Records Inspection Facility of the Department of Commerce, Room 3122, Commerce Building, 14th Street between Constitution Avenue and E Street NW., Washington, D.C. 20230. Rules prescribing public use of this facility are contained in Part 4, Title 15, Code of Federal Regulations, and may also be obtained from the facility.

G. *Inspection of Bureau Records*. Rules for persons desiring, pursuant to 5 U.S.C. 552(a)(3), to inspect records of the National Bureau of Standards which are not available to the public as part of the regular public information services of the Bureau, are contained in Part 4, Title 15, Code of Federal Regulations. Application forms and instructions are available from the Central Reference and Records Inspection Facility of the Department of Commerce, or from any Field Office of the Office of Field Services, Department of Commerce.

Dated: July 25, 1967.

LAWRENCE E. IMHOFF,
Acting Assistant Secretary, for Administration.

[F.R. Doc. 67-9847; Filed, Aug. 22, 1967; 8:45 a.m.]

[DO 182-B]

OFFICE OF EXPORT CONTROL, BUREAU OF INTERNATIONAL COMMERCE

Public Information

This material further amends the material appearing at 30 F.R. 2041 of February 13, 1965; 31 F.R. 4169 of March 9, 1966; and August 23, 1967.

A. *Purpose*. The purpose of this document is to further describe the central and field organization of the Office of Export Control and, in general, the public information services of the Office of Export Control, to describe the places at which, and the methods whereby, the public may obtain information, to inform the public as to the sources or availability of rules, regulations, procedures, instructions, forms, reports, or other requirements established by the Office of Export Control which affect the public, and otherwise to comply with the requirements of section 552, Title 5, U.S.C., as amended by Public Law 90-23, June 5, 1967 (81 Stat. 54), (hereinafter referred to as the Act).

B. *Central and Field Organization*. .01 The Office of Export Control in the Bureau of International Commerce, U.S. Department of Commerce, Washington, D.C. 20230, is the agency authorized to administer the Export Control Act of 1949, as amended (50 U.S.C. App. 2021-2032). Under this Act, the Office of Export Control administers a program to (a) control exports to all destinations to prevent Communist-dominated foreign countries from obtaining U.S. commodities or technical data that would contribute significantly to their military or economic potential to the detriment of the security or welfare of the United States, (b) protect the domestic economy from the excessive drain of scarce materials, (c) further the foreign policy of the United States, and (d) prevent the use of restrictive trade practices or boycotts by foreign countries which would restrict American trade with friendly countries.

.02 The Office of Export Control has jurisdiction under the Export Control Act of 1949, as amended, over the export of all commodities and technical data except for controls over certain specified commodities and related technical data exercised by other agencies. (For example, the Department of State has licensing jurisdiction over arms, ammunition, and implements of war, while the Atomic Energy Commission has jurisdiction over fissionable material.)

.03 The Office of Export Control is authorized to issue all licenses, authorizations, rules, regulations, orders, opinions, and directives relating to the administration and enforcement of the Export Control Act of 1949, as amended. The Export Regulations are published in the FEDERAL REGISTER and are codified in the Code of Federal Regulations (15 CFR 368-399). The Comprehensive Export Regulations Service, comprising the Comprehensive Export Schedule and Supplementary Current Export Bulletins, is an official issuance of the Office of Export Control. It is a loose-leaf compilation of Export Control Regulations which are published in the FEDERAL REGISTER and also includes instructions, interpretations and explanatory material relating to export control.

.04 A Director heads the Office of Export Control and has a Deputy and an Assistant Director who assist in the administration of the Act. The Office consists of seven organizational divisions, each of which is headed by a Division Director. The seven divisions are the Policy Planning Division, the Production Materials and Consumer Products Division, the Capital Goods Division, the Scientific and Electronic Equipment Division, the Technical Data and Services Division, the Investigations Division, and the Operations Division. Also, the Field Offices of the Office of Field Services, Department of Commerce are staffed with personnel experienced in U.S. export controls. The location of these Field Offices is shown in Department Order 168, "Office of Field Services."

.05 The Policy Planning Division develops recommendations of export control policies to be followed toward specific countries and over specific commodities. It also recommends disposition of certain license applications which involve policy or security problems. Included in the specific functions of this division are the initiation, coordination, and evaluation of studies to establish appropriate levels of control, and to carry out the objectives of the Mutual Defense Assistance Control Act of 1951, as amended, 22 U.S.C. 1611 (Battle Act).

.06 *Licensing Divisions*. a. There are four licensing divisions assisting in the administration of export controls over technical data or certain specified commodities listed in the Commodity Control List (CCL). The CCL is a numerical listing by Export Control Commodity Number of all commodities for which export licensing authority is exercised by the Department of Commerce. This CCL is maintained on a current basis through the periodic issuance of Current Export Bulletins, supplements to the Comprehensive Export Schedule.

b. Included in the functions of the licensing divisions with respect to their individual areas of responsibility are all actions on applications for licenses to export or reexport and related matters, as well as the preparation of technical analyses of information within their area of responsibility in order to recommend changes in export control policies, criteria, and regulations. Each division also participates in interagency and Government-industry committee activities regarding export control problems and renders assistance to industry and other government agencies on mutual problems. Three divisions in the Office of Export Control are responsible for the licensing of certain specified commodities and one division is responsible for the licensing of all technical data and services.

c. The Production Materials and Consumer Products Division has licensing jurisdiction over materials and products such as fuels, chemicals, agricultural products, and metals.

d. The Capital Goods Division has licensing jurisdiction over capital equipment such as metalworking, transportation, general production, and industrial equipment.

e. The Scientific and Electronic Equipment Division has licensing jurisdiction over equipment such as computers, electronic components, communications and navigation equipment, and laboratory instruments.

f. The Technical Data and Services Division has licensing jurisdiction over all technical data and services. The Technical Data and Services Division also assists the Department of State in the conduct of the East-West Exchange program.

.07 The Investigations Division develops intelligence information regarding areas of possible violation, investigates suspected violations, and prepares compliance cases for referral through the Department of Commerce Office of General Counsel, to the Compliance Commissioner.

.08 The Operations Division has a wide variety of administrative functions which include:

(a) Processing incoming license applications and other correspondence.

(b) Preparing export license documents and other export control documents.

(c) Issuing Import Certificates.

(d) Preparing analytical and statistical surveys and reports on export controls.

(e) Performing Bureau of Budget clearance activities regarding control of reporting requirements, on behalf of the entire Bureau of International Commerce. Also performing activities on behalf of the Bureau of International Commerce in the coordination of emergency planning.

(f) Reviewing licensing activities to assure consistent compliance with established policies and standards.

(g) Processing reports of foreign restrictive trade practices or boycotts against friendly foreign countries.

(h) Conducting export control liaison activities with the Bureau of Customs, Treasury Department, and with the Post Office Department.

(i) Developing and publishing export control regulations and procedures including instructions for customs offices and foreign service posts relating to export controls.

(j) Maintaining an Exporters Service Section offering a variety of services to assist the public and serving as the information office with respect to the export control program. The Exporters Service Section is described in paragraph C.01 of this Appendix.

.09 A work flow chart detailing the manner in which an export license application is processed is available upon request to Exporters Service Section, Office of Export Control, U.S. Department of Commerce, Washington, D.C. 20230.

C. *Public Information Services*—.01 *Services to assist exporters*. a. The Exporters Service Section of the Operations Division, Office of Export Control, is located in the Department of Commerce Building, Washington, D.C., and offers assistance to the public with respect to the provisions of the Export Control Act of 1949, as amended, and related rules, regulations, and procedures. A request for assistance of the Exporters Service Section should be directed in person, by telephone, or through correspondence to the Chief of the Exporters Service Section, Office of Export Control, U.S. Department of Commerce, Washington, D.C. 20230. The Exporters Service Section usually is able to render the assistance requested immediately, but in the event that further consultation with other technical or executive personnel is found necessary, the Exporters Service Section will promptly arrange an appropriate appointment. The Exporters Service Section offers the following services:

(1) Explains and interprets export control regulations and policies.

(2) Provides information regarding status of license applications and other export control actions.

(3) Secures expeditious action on any export control licensing material whenever priority action is warranted.

(4) Assists in clearance of authorized exports through customs.

(5) Assists in obtaining U.S. Import Certificates for importers.

(6) Answers questions regarding commodity classifications.

(7) Provides forms, informational publications, and assists the Department's Central Reference and Records Inspection Facility in making available for public inspection and copying export control records, letters, memoranda, forms or other documents in accordance with the Act.

(8) Provides information as to whether a validated license is required for a particular exportation. Information will not be given as to whether the license will be issued.

(9) Provides information regarding the status of a pending application, inquiry, correspondence, or other action.

(10) Assists in obtaining expeditious action on any pending license application or other export control action provided that the request for such action is justified by the existence of an emergency that might result in an undue hardship unless the expeditious action is granted.

b. The Field Offices of the Office of Field Services, Department of Commerce, the locations of which are shown in Department Order 168, are staffed with personnel experienced in U.S. export controls. If export control assistance is needed or information is desired, the export control consultant in the nearest Field Office should be contacted. Among the services which the Field Offices will attempt to render upon request are:

(1) Explaining and interpreting export control regulations and policies.

(2) Securing expeditious action on a license application or any other export control function whenever priority action is warranted.

(3) Obtaining an extension of the validity period of an export license or making certain other amendments to an export license.

(4) Assisting in clearing shipments through U.S. customs.

(5) Issuing or assisting in the issuance of U.S. import certificates.

(6) Assisting in solving commodity classification problems.

(7) Providing export control forms and informational publications.

.02 *Publications*. The following are Export Control publications available to the public at the places noted for each:

(a) Comprehensive Export Schedule. (Available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, and the Office of Export Control, U.S. Department of Commerce, Washington, D.C. 20230, at $7 per year for domestic addresses and $9 per year for foreign addresses.)

(b) Current Export Bulletin. (Available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, and the Office of Export Control, U.S. Department of Commerce, Washington, D.C. 20230 (included with subscriptions to Comprehensive Export Schedule), single copies also available from Room 0643 (Attention: 918), U.S. Department of Commerce Building, Washington, D.C. 20230, at 25 cents per copy.)

(c) A Summary of U.S. Export Control Regulations. (Available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, and the Office of Export Control, U.S. Department of Commerce, Washington, D.C. 20230, at 20 cents per copy.)

(d) Quarterly Report on Export Control. (Available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, and the Office of Export Control, U.S. Department of Commerce, Washington, D.C. 20230, at 25 cents per copy.)

(e) Daily List of Export Licenses Approved and Reexportations Authorized. (Available from the Office of Administrative Operations, U.S. Department of Commerce, Washington, D.C. 20230, at $37.50 per year.)

(f) Why We Have Export Control. (Available from the Office of Export Control, U.S. Department of Commerce, Washington, D.C. 20230, free of charge.)

(g) The Carrier's Role in Export Control. (Available from the Office of Export Control, U.S. Department of Commerce, Washington, D.C. 20230, free of charge.)

(h) Boycotts or Other Restrictive Trade Practices Imposed by Foreign Countries. (Available from the Office of Export Control, U.S. Department of Commerce, Washington, D.C. 20230, free of charge.)

(i) Highlights of United States Export Controls. (Available from the Office of Export Control, U.S. Department of Commerce, Washington, D.C. 20230, free of charge.)

(j) Digest of Export Regulations. (Available from the Office of Export Control, U.S. Department of Commerce, Washington, D.C. 20230, free of charge.)

(k) Export Control of Technical Data. (Available from the Office of Export Control, U.S. Department of Commerce, Washington, D.C. 20230, free of charge.)

(l) Denial and Probation Orders Currently Affecting Export Privileges. (Available from the Office of Export Control, U.S. Department of Commerce, Washington, D.C. 20230, free of charge.)

D. *Guide to Published Rules and Regulations.* The rules and regulations issued under the Export Control Act of 1949, as amended, are contained in Title 15, Code of Federal Regulations, Sections 368–399. The rules and regulations are also contained in the Comprehensive Export Schedule which may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402; from the Field Offices of the Office of Field Services, Department of Commerce; or from Room 6043 (Attn: 916), U.S. Department of Commerce Building, 14th Street and Constitution Avenue NW., Washington, D.C. 20230. Amendments to the rules and regulations are published in the FEDERAL REGISTER and in Current Export Bulletins which may be purchased and subscribed to at the above-mentioned places.

E. *Submission of Requests and Applications.* .01 The established places at which and the methods whereby the public may make submittals, applications, or requests concerning the programs of the Office of Export Control are found in the rules and regulations cited in section D of this document.

.02 The forms affecting the public pursuant to the U.S. Export Control Regulations are identified in the Code of Federal Regulations and the Comprehensive Export Schedule. These forms may be obtained from the Office of Export Control, U.S. Department of Commerce, Washington, D.C. 20230, or as otherwise provided in the regulations. The regulations also state where the forms are to be submitted. The forms are:

(a) Application Processing Card, Form FC–420 (2–65).

(b) Application for Export License, Form FC–419 (Rev. Jan. 1966).

(c) Export License, Form FC–628 (Rev. January 1966).

(d) Request for and Notice of Amendment Action, Form IA–763 (Rev. 12–15–65).

(e) Shipper's Export Declaration, Form 7525–V (Rev. July 1962).

(f) Power-of-Attorney Forms.

(g) Acknowledgement Forms for Use with Power-of-Attorney.

(h) Authorization to Dispose of Commodities Exported for Exhibition, Demonstration, or Testing Purposes, Form IA–L–196 (1–4–65).

(i) Single Transaction Statement by Consignee and Purchaser, Form FC–482 (4–1–65).

(j) Multiple Transactions Statement by Consignee and Purchaser, Form FC–843 (1–12–56).

(k) Notice of Retained Samples, Form IT–915 (6–19–53).

(l) U.S. Import Certificate and Supporting Form FC–627, Import Certificate Cross Reference Card, Form FC–626 (10–24–55).

(m) U.S. Delivery Verification, Form FC–908 (11–1–63).

(n) Notification of Delivery Verification Requirement, Form IA–863 (4–1–65).

(o) Status Request on Export License Application, Form IA–743–A (2–15–67).

(p) Request for and Notice of Approval for Reexportation, Form IT–917 (1–1–65).

(q) Application for and Notice of Extension of Project License, Form FC–957 (1–1–65).

(r) Statement by Ultimate Consignee in Support of Project License Application, Form FC–988.

(s) Statement by Foreign Importer of Aircraft or Vessel Repair Parts, Form FC–43 (Rev. 3–1–65).

(t) Request for Authorization to Distribute United States Origin Commodities Stocked Abroad to Approved Customers, Form FC–143 (1–1–65).

(u) Multiple Transactions Statement by Customer of Distributor of U.S. Commodities Stocked Abroad, Form FC–243 (8–63).

(v) U.S. Exporter's Report of Request Received for Information, Certification, or Other Action Indicating a Restrictive Trade Practice or Boycott Against a Foreign Country, Form IA–1014 (9–23–65).

F. [Reserved.]

G. *Inspection and Copying of Opinions and Orders.* All final opinions and orders made in the adjudication of cases, statements of policy and interpretations not published in the FEDERAL REGISTER, administrative staff manuals and instructions to staff that affect a member of the public, and any other materials required to be made available for public inspection and copying under section 552(a)(2) are made available for such purposes in the Central Reference and Records Inspection Facility of the Department of Commerce, Room 2122, Main Commerce Building, 14th Street between Pennsylvania Avenue and Constitution Avenue NW., Washington, D.C. 20230. Rules concerning the use of this Facility are contained in Part 4, Title 15, Code of Federal Regulations, or may be obtained from the Facility.

H. *Inspection of Bureau Records.* Pursuant to section 552(a)(3) of the Act, rules for persons desiring to inspect records not available to the public as part of the regular public information services of the Office of Export Control, Bureau of International Commerce, are contained in Part 4, Title 15, Code of Federal Regulations. Applications are available from the Central Reference and Records Inspection Facility of the Department of Commerce, or from the Field Offices of the Office of Field Services, Department of Commerce.

Dated: August 15, 1967.

LAWRENCE E. IMHOFF,
Acting Assistant Secretary.

ATOMIC ENERGY COMMISSION

[Docket No. 50-298]

CONSUMERS PUBLIC POWER DISTRICT

Notice of Receipt of Application for Construction Permit and Facility License

Consumers Public Power District, 1452 25th Avenue, Columbus, Nebr., pursuant to section 104(b) of the Atomic Energy Act of 1954, as amended, has filed an application, dated July 26, 1967, for authorization to construct and operate a single cycle, forced circulation, boiling water nuclear reactor at the applicant's Cooper Nuclear Station. The 1,090-acre site is located on the west bank of the Missouri River near the village of Brownville, Nemaha County, Nebr. Lincoln, Nebr., is 60 miles west-northwest of the site and St. Joseph, Mo., is 60 miles southeast of the site.

The proposed reactor is designed for initial operation at approximately 2,381 thermal megawatts with a net electrical output of approximately 778 megawatts.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C.

Dated at Bethesda, Md., this 16th day of August 1967.

For the Atomic Energy Commission.

PETER A. MORRIS,
Director,
Division of Reactor Licensing.

CIVIL AERONAUTICS BOARD

[Docket No. 18760]

AEROLINEAS ARGENTINAS

Notice of Hearing

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that hearing in the above-entitled proceeding is assigned to be held on August 29, 1967, at 3 p.m., e.d.s.t., in Room 911, Universal Building, Connecticut and Florida Avenues NW., Washington, D.C., before the undersigned examiner.

Dated at Washington, D.C., August 16, 1967.

[SEAL] JOSEPH L. FITZMAURICE,
Hearing Examiner.

[F.R. Doc. 67-9881; Dated, Aug. 22, 1967; 8:47 a.m.]

[Docket No. 17548 etc.; Order E-25541]

INTERSTATE AIRMOTIVE, INC.

Order Instituting Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 17th day of August 1967.

Applications of Interstate Airmotive, Inc., Dockets 17548 and 17549, for supplemental air authority; application of Interstate Airmotive, Inc., Docket 18152, for temporary exemption to provide limited supplemental air services; applications of Interstate Airmotive, Inc., Dockets 18168 and 18169, for exemptions pursuant to section 416(b) of the Federal Aviation Act of 1958, as amended; St. Louis limited supplemental air service investigation, Docket 18922.

Interstate Airmotive, Inc. (Interstate), a fixed-base operator operating out of Lambert Field, St. Louis, presently owns 5 DC–3 aircraft as well as approximately 20 small aircraft and holds a commercial license from the Federal Aviation Administration issued pursuant to Part 121 of the Federal Air Regulations which allows it to operate large DC–3 aircraft in contract or noncommon carrier operations.

In July of 1966 Interstate filed applications for domestic and international supplemental air carrier authority (Dockets 17548 and 17549) together with a motion to consolidate such application into the then pending Reopened Supplemental Proceeding, Docket 13795, et al.; the Board subsequently denied this motion.[1] Thereafter, on January 30, 1967, Interstate filed an application for an exemption in Docket 18152 for temporary authority to perform supplemental services with twin-engined piston aircraft on a year-to-year basis serving persons located within its home State, Missouri, and contiguous States. In the alternative, Interstate requests that the Board establish a new classification of air carriers to be designated as "Limited Supplemental Air Carriers" to perform special supplemental air services within a limited geographical area with twin-engine aircraft with a capacity of 44–46 passengers. Four supplemental air carriers have filed answers opposing the request for an exemption citing, among other things, Public Law 87–528 as a bar to the grant of supplemental services by way of exemption.[2]

On May 23, 1967, the Air Board of the Chamber of Commerce of Metropolitan St. Louis (Air Board) filed a letter with the Board expressing its support for Interstate's application in Docket 18152 for temporary authority to perform limited supplemental air transportation. The Air Board states that the limited authority sought would provide a valuable service to many businesses, colleges, individuals, universities and similar organizations located in and around St. Louis and points to the fact that despite the certification in 1966 of 10 supplemental air carriers, service voids have developed particularly with respect to charter services with twin-engine piston aircraft. The Air Board maintains that these voids developed principally because the existing supplemental carriers have a "great tendency to provide a majority of civil charter services to those metropolitan areas nearest their primary bases of operation," and also because almost all of these carriers have phased out, or are in the process of phasing out, their twin-engine aircraft in favor of the larger four-engine piston and four-engine jet aircraft. The Air Board states in this connection that St. Louis is one of those areas which receives practically no supplemental air service of any meaningful size in relation to its commercial and industrial importance,[3] and further, that there is a great need and demand in the area for charter services to groups of 40 and under—a need that Interstate has been unable to provide because of the lack of necessary economic Board authority.

On May 31, 1967, Interstate filed an amended application in Docket 18152 which it states should take the place of its original application. Interstate requests authority to engage in air transportation as a "Limited Supplemental Air Carrier" on a temporary basis and on a limited extent subject to certain terms and conditions.[4] On August 3, 1967, Interstate moved to expedite proceedings on this application.

In essence, the carrier makes the same arguments in support of its amended application that it advanced originally. In addition, the carrier filed certain specific information bearing on its request. For example, Interstate supplied numerous letters from persons requesting its service, and other data supporting a need for the service.

Capitol, Purdue, and American Flyers filed answers in opposition to the amended application in which they reiterate the arguments they advanced in opposition to Interstate's original application.

We have carefully examined the various pleadings as well as other pertinent data of which we may take official notice and have decided to institute an investigation to determine whether there is a need for a limited type of supplemental services to be performed for small or medium-sized charter groups moving to or from the St. Louis area, and if so, whether the Board should authorize such services by temporary certificate subject to the terms, conditions and limitations described below.

We do not believe that a full hearing on the broad supplemental authority requested in Dockets 17548 and 17549 is warranted at this time, in view of the recently completed omnibus supplemental investigation.[5] However, the information currently before us indicates that there may well be a public need for a limited type of supplemental charter services in and around the St. Louis area.

It would appear that a service gap may be developing between air taxi services provided with 4- and 5-place aircraft and those provided by the existing supplemental carriers, who, like the scheduled operators, are abandoning their relatively low-capacity piston aircraft for higher-capacity turboprop and pure jet aircraft.[6] This need for charter services to groups appears to be present in the St. Louis area. The fact that no supplemental carrier is presently based at St. Louis, plus the fact that numerous smaller charter groups have sought the services of Interstate in the past,[7] tends to bear this out.

We will limit the geographic scope of any authority to be granted in this investigation to charter flights which originate or terminate at points within 250 air miles of Lambert Field, St. Louis, and serve only points in the continental United States (excluding Hawaii and Alaska) and Canada. In view of the novelty of the concept, any authority granted will be for single-entity and pro rata charters only, and will be limited to a temporary experimental period whose duration will be determined at the hearing. It is also our intention to impose such certificate restrictions—whether on the size of the charter groups which may be transported, the seating capacity of the aircraft which may be employed, or otherwise—as may prove necessary to insure that the service rendered will

---

[1] Order E–24068, Aug. 16, 1966.

[2] In February 1967, Interstate filed applications in Docket 18168 and 18169 for an exemption to carry numerous fishing groups to Canadian points. These applications were opposed by Purdue which asked for "first refusal" rights. Interstate in its reply indicated that it had no objection to affording Purdue "first refusal" rights.

[3] No supplemental carrier's present base of operations is located at St. Louis.

[4] Interstate requests authority on a temporary, year-to-year basis to operate services with twin-engine aircraft in and around St. Louis, Mo., and its environs. In the latter connection, Interstate suggests several alternatives: Authority limited to (1) the State of Missouri and nine specified States surrounding Missouri, (2) serve persons or parties within a 500-mile radius from St. Louis, or (3) a 300-mile radius from St. Louis.

[5] The Board's decisions in the Supplemental Air Carrier Investigation, Docket 13795, et al., were served in March and September 1966 (Orders E–23350 and E–24237). The record in that case was reopened for further hearings on several applications for supplemental authority and this matter is awaiting Board decision.

[6] This is shown by the marked change in the makeup of the supplemental air carrier industry's fleet which has occurred since the 1950's. For example, in 1966 only 16 of the total of 201 aircraft operated by the supplementals were DC–3's; the supplementals now operate over 20 large jet and turbojet aircraft and have approximately 40 pure jets on order.

[7] See, for example Order E–25278, June 12, 1967.

meet, and be limited to, the needs of small- or medium-sized charter groups which we tentatively identify as being those groups which have in the neighborhood of 50 members, or less. The exact form of the restrictions to be imposed will, again, be determined at the hearing. The limitations and restrictions outlined above are warranted by the experimental nature of the program and the need to insure that the services authorized are suitably designed to meet the limited service requirements which may be found to exist.[3]

We shall consolidate into this investigation Interstate's applications in Dockets 17548, 17549, and 18152 to the extent that they conform with the issues delineated above. We shall also deny Interstate's requests for exemptions in Dockets 18152, 18168, and 18169. We believe that under the circumstances the proper way to authorize the type of services requested in these applications is through the issuance of temporary certificates authorizing limited supplemental service of the type described above, rather than by issuing exemptions permitting broad-based operations.[4] Upon the basis of the foregoing we conclude that grant of an exemption would not be consistent with the public interest within the meaning of section 416 of the Act.

Accordingly, it is ordered, That:

1. An investigation be and it hereby is instituted to be referred to as the St. Louis Limited Supplemental Air Service Investigation, Docket 18922, to determine:

(a) whether the public convenience and necessity require the issuance pursuant to section 401(d)(3) of the Act of a temporary certificate of public convenience and necessity to any carrier or carriers to engage in supplemental air transportation limited to single-entity and pro rata charter flights which originate or terminate at points within 250 air miles of Lambert Field, St. Louis, and serve only points in the continental United States (excluding Hawaii and Alaska) and Canada;

(b) what terms, conditions, and limitations are required by the public interest to insure that the service rendered under any such certificate will meet, and be limited to, the needs of small and medium-sized charter groups as hereinbefore tentatively defined; and

(c) what other terms, conditions, and limitations are required by the public interest;

2. Interstate's applications in Dockets 17548, 17549, and 18152, to the extent that they seek authority consistent with the issues delineated herein, be and they hereby are consolidated into the investigation instituted herein;

3. To the extent not consolidated herein, (a) the applications of Interstate in Dockets 17548 and 17549 be and they hereby are dismissed and (b) the application in Docket 18152 be and it hereby is denied;

4. The applications of Interstate for an exemption filed in Dockets 18168 and 18169 be and they hereby are denied; and

5. Interstate Airmotive, Inc., be and it hereby is made a party to this investigation.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON, *Secretary.*

[F.R. Doc. 67-9862; Filed, Aug. 22, 1967; 8:47 a.m.]

[3] Whether more stringent limitations should be imposed on the geographic scope of any authority to be granted, the maximum size of the groups to be carried, etc., than those indicated above, will of course be at issue in the proceeding.

[4] The Board has consistently refused to grant exemptions to air taxi operators to allow them to provide extensive services with large aircraft unless such services are keyed to a particular market; as a matter of fact, the Board has refused to issue exemptions permitting the same type of limited DC-3 services that are the subject of the investigation instituted herein. See for example, the Board's denial of the applications of Starflight and East Hampton, Orders E-24497 and E-13982, respectively.

SECURITIES AND EXCHANGE COMMISSION

DYNA RAY CORP.

Order Suspending Trading

AUGUST 17, 1967.

It appearing to the Securities Exchange Commission that the summary suspension of trading in the common stock of Dyna Ray Corp. and all other securities of Dyna Ray Corp. being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period August 17, 1967 through August 26, 1967, both dates inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

CIVIL SERVICE COMMISSION

ENGINEER AND ARCHITECTURE OCCUPATIONAL CATEGORIES PFS LEVELS 5 THROUGH 13, NATIONWIDE

Notice of Adjustment of Minimum Rates and Rate Ranges

Under authority of 5 U.S.C. 5303 and Executive Order 11073, the Civil Service Commission has increased the minimum salary rates and rate ranges for PFS-5 through 13 in the following occupations:

Occupational code	Occupational field
801	General Engineer.
808	Safety Engineer.
806	Materials Engineer.
808	Architect.
830	Mechanical Engineer.
850	Electrical Engineer.
855	Electronic Engineer.
890	Industrial Engineer.

The new rate ranges are as follows:

PER ANNUM RATES

Level	1	2	3	4	5	6	7	8	9	10	11	12
PFS-5	86,461	86,803	86,845	87,484	87,226	87,416	87,607	87,798	87,989	88,180	86,371	88,562
PFS-6	7,126	7,321	7,694	7,737	7,942	8,142	8,346	8,549	8,753	8,955	9,156	9,361

PFS-13	11,988	12,262	12,641	12,930	13,219	13,508	13,797	14,086	14,375	14,664		

[1] Corresponding statutory rate: PFS-5—Fifth; PFS-6—Sixth; PFS-7—Seventh; PFS-8—Fifth; PFS-9—Seventh; PFS-10—Sixth; PFS-11—Fifth; PFS-12—Fourth; PFS-13—Second.

Geographic coverage: Nationwide.

The effective date is the first day of the first pay period beginning on or after August 12, 1967.

All new employees in the specified occupations will be hired at the new minimum rates.

As of the effective date, pay adjustments will be processed to increase the pay of employees on the rolls in the affected occupations. An employee who immediately prior to the effective date was receiving basic compensation at one of the rates of the statutory rate range shall receive compensation at the corresponding numbered rate authorized by this notice on and after such date. The pay adjustment will not be considered an equivalent increase within the meaning of 39 U.S.C. 3562.

EL CAMINO BROADCASTING CORP. AND SOUTH COAST BROADCASTING CO.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of El Camino Broadcasting Corp., San Clemente, Calif., requests: 107.9 mc, No. 300; 28.66 kw; 430 feet, Docket No. 17648, File No. BPH-5566; Leon Hysen, Charles W. Jobbins, and Leon F. Westendorf, doing business as South Coast Broadcasting Co., San Clemente, Calif., requests: 107.9 mc, No. 300; 49.8 kw; 500 feet, Docket No. 17649, File No. BPH-5756; for construction permits.

1. The Commission, by the Chief, Broadcast Bureau, under delegated authority considered the above captioned and described applications for construction permits.

2. These applications are mutually exclusive in that operation by the applicants as proposed would cause mutually destructive interference.

3. The areas and populations to be served are markedly different in size and for the purposes of comparison, the areas and populations within the respective 1 mv/m contours together with the availability of other FM services of at least 1 mv/m in such area will be considered under the standard comparative issue for the purpose of determining whether

a comparative preference should accrue to either of the applicants.

4. Each of the applicants is qualified to construct and operate as proposed. However, because of their mutual exclusivity the Commission is unable to make the statutory finding that a grant of the subject applications would serve the public interest, convenience, and necessity, and is of the opinion that they must be designated for hearing in a consolidated proceeding on the issues set forth below.

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine which of the proposals would better serve the public interest.

2. To determine, in the light of the evidence adduced pursuant to the foregoing issue, which of the applications for construction permit should be granted.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: August 15, 1967.

Released: August 18, 1967.

[Docket No. 17659; FCC 67-951]

KING'S GARDEN, INC.

Order Designating Application for Hearing on Stated Issues

In re application of: King's Garden, Inc., Seattle, Wash., Docket No. 17659, File No. BPCT-3875, for a construction permit for a new television broadcast station.

1. The Commission has before it for consideration the above-captioned application, requesting a construction permit for a new television broadcast station to operate on Channel 22, Seattle, Wash.

2. With respect to the issues set forth below, the following considerations are pertinent:

(a) Based on information contained in the application, cash of approximately $303,000[1] will be needed for the construction and first-year operation of the proposed station. To meet these cash requirements, the applicant relies upon "donations and funds generated by the business activities of the applicant and the assets of the corporation."[2] The applicant claims to have received donations of $1,443,185, during the period 1959–1965, and to have a net worth of $3,776,322.26. However, the applicant's balance sheet does not indicate current and liquid assets (as defined in Section III, Paragraph 4(d), FCC Form 301) in excess of current liabilities sufficient to meet a commitment of $303,000. It cannot be determined, therefore, that the applicant is financially qualified.

(b) The applicant proposes to locate its main studio outside of the limits of the principal community, at the transmitter site. There is, however, no request, pursuant to § 73.613(b) of the Commission's rules, to allow location outside of Seattle, Wash., nor is there any justification provided, and consequently, an issue must be specified.

3. The applicant intends to mount the proposed antenna atop the existing antenna structure of Standard Radio Broadcast Station KGDN, Edmonds, Wash. In the event of a grant, it will be made subject to the condition that construction shall not be commenced until an appropriate application for modification of the facilities of Station KGDN has been filed and granted.

4. Except as indicated by the issues set forth below, the applicant is qualified to construct, own and operate the proposed new television broadcast station, The Commission is, however, unable to make the statutory finding that a grant of the application would serve the public interest, convenience and necessity, and is of the opinion that it must be designated for hearing on the issues set forth below.

Accordingly, it is ordered, That pursuant to section 309(e) of the Communications Act of 1934, as amended, the above-captioned application of the King's Garden, Inc., is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine whether the applicant has sufficient current and liquid assets in excess of current liabilities to construct and operate the proposed station for 1 year.

2. To determine whether, in view of the evidence adduced pursuant to the foregoing, the applicant is financially qualified.

3. To determine whether there is good cause for locating the proposed main studio outside of the principal community and that to do so would be consistent with the operation of the station in the public interest.

4. To determine whether, in the light of the evidence adduced pursuant to the foregoing issues, a grant of the application would serve the public interest.

[1] Consisting of: down payment to RCA ($66,444); first-year's payments to RCA ($51,866); interest ($1,989); building ($10,000); miscellaneous expenses ($5,000); and estimated cost of operation ($147,000).

[2] The "business activities" of the applicant presumably refers to profits from the operation of Radio Station KGDN (AM) and KGFM-FM, Edmonds, Wash., which, according to the applicant, amounted to about $54,000 in 1965. Nothing is known about the "donations".

It is further ordered, That in the event of a grant of the application, it shall be subject to the following condition: "Construction shall not commence until an appropriate application to make necessary changes in the antenna system of Station KGDN has been filed and granted."

It is further ordered, That, to avail itself of the opportunity to be heard, the applicant herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall within twenty (20) days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicant herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594(a) of the Commission's rules, give notice of the hearing within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: August 9, 1967.

Released: August 15, 1967.

A/B ATLANTTRAFIK (ATLANTTRAFIK EXPRESS SERVICE) AND SEATRAIN LINES, INC.

Notice of Agreements Filed for Approval

Notice is hereby given that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement(s) at the Washington Office of the Federal Maritime Commission, 1321 H Street NW., Room 609; or may inspect agreements at the office of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

Mr. Joseph Hodgson, Jr., General Traffic Manager, Seatrain Lines, Inc., 595 River Road, Edgewater, N.J. 07020.

Agreement 9852, between A/B Atlanttrafik (Atlanttrafik Express Service) and Seatrain Lines, Inc., establishes a through billing arrangement for the movement of general cargo from Puerto Rico to ports in Australia (including Tasmania), Cook Islands, Fiji Islands, New Caledonia, Territories of Papua and New

Guinea, New Hebrides, Norfolk Island, British Samoa, Solomon Islands, Tahiti, Thursday Island, Tonga Islands, Gilbert and Ellice Islands, with transshipment at the port of New York, N.Y., in accordance with the terms set forth in the Agreement.

Dated: August 18, 1967.

By Order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

[Docket No. RI67-439, RI67-440]

GRAMPIAN COMPANY, LTD. AND RUTH PHILLIPS BISIKER

Order Accepting Decreased Rate Filings, Permitting Withdrawal of Suspended Rate Supplements and Terminating Proceeding

AUGUST 15, 1967.

On May 25, 1967, Grampian Co., Ltd. (Grampian), and Ruth Phillips Bisiker (Bisiker) tendered for filing proposed rate increases from 10.819792 cents to 15.513310 cents per Mcf, amounting to $21,590 annually, for natural gas sales made to Natural Gas Pipeline Co. of America from acreage in the LaGloria Area, Jim Wells and Books Counties, Tex. (Railroad District No. 4). The rate filings were designated as Supplement No. 9 to Grampian's Rate Schedule No. 3 and Supplement No. 8 to Bisiker's FPC Gas Rate Schedule No. 3. The proposed rate increases were suspended by the Commission's order issued June 16, 1967, in Docket Nos. RI67-439 and RI67-440, respectively, until November 25, 1967, and thereafter until made effective in the manner prescribed by the Natural Gas Act since such rates exceeded the applicable area increased ceiling level of 14.0 cents per Mcf as announced in the Commission's Statement of General Policy No. 61-1, as amended.

Grampian and Bisiker have now submitted amended rate change filings, as set forth in Appendix "A" hereof, proposing a "fractured" rate of 14.0 cents per Mcf in lieu of the suspended rate of 15.513310 cents to which they are contractually entitled. The amended increases to 14.0 cents amount to $14,629 annually, reflecting a decrease of $6,961 from the previously suspended increases. Grampian and Bisiker state that they are limiting their increase so as not to exceed the area increased ceiling rate and that they are waiving their rights to file further rate increases to which they may be entitled to under their rate schedules for the remainder of the relevant contract escalation period which expires in Grampian's case on March 26, 1969, and in Bisiker's case on May 14, 1969, but reserving their rights to file for any increase up to the area rate level which might in the future be established by the Commission and for increases due to any change in tax reimbursement. The proposed 14.0-cent rates do not exceed the applicable area increased ceiling level and since Grampian and Bisiker are waiving their rights to file for the highest contractually provided for rate as stated above, we conclude that the amended rate changes should be accepted for filing effective as of August 21, 1967, the date of expiration of the statutory notice; the prior increases designated as Supplement Nos. 9 and 8 to Grampian and Bisiker's FPC Gas Rate Schedule No. 3, respectively, should be permitted to be withdrawn, and the related suspension proceedings in Docket Nos. RI67-339 and RI67-440 should be terminated.

The Commission finds: Good cause exists for accepting for filing the decreased rate changes listed in Appendix "A" hereof to become effective as of August 21, 1967, the date of expiration of the statutory notice; for permitting the withdrawal of Supplement Nos. 9 and 8 to Grampian and Bisiker's FPC Gas Rate Schedule No. 3, respectively, and for terminating the related suspension proceedings in Docket Nos. RI67-439 and RI67-440.

The Commission orders:

(A) Grampian and Bisiker's proposed 14.0-cent decreased rates contained in Supplement Nos. 10 and 9 to their FPC Gas Rate Schedule No. 3, respectively, are accepted for filing and permitted to become effective on August 21, 1967, the date of expiration of the statutory notice.

(B) Supplement Nos. 9 and 8 to Grampian and Bisiker's FPC Gas Rate Schedule No. 3, respectively, are permitted to be withdrawn and the related suspension proceedings in Docket Nos. RI67-439 and RI67-440 are terminated.

By the Commission.

[SEAL] GORDON M. GRANT,
Secretary.

APPENDIX A

NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

AUGUST 18, 1967.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

State Docket No. MC 1646, Sub 1, filed July 31, 1967. Applicant: MID-STATE EXPRESS, INC., 531 Woodycrest Avenue, Nashville, Tenn. Applicant's representative: Walter Harwood, 515 Nashville Bank & Trust Building, Nashville, Tenn. 37201. Certificate of public convenience and necessity sought to operate a freight service as follows: *General commodities*, except used household goods, commodities in bulk, and articles requiring special equipment, between Manchester, Tenn., and Smartt, Tenn., from Manchester via Tennessee Highway 55 to Smartt and return over the same route, serving all intermediate points—to be tacked to and used in conjunction with all of applicant's present certificate. Both intrastate and interstate authority is sought.

HEARING: Monday, September 25, 1967, 9:30 a.m. at Cordell Hull Building, C-1-110, Nashville, Tenn. Requests for procedural information, including the time for filing protests, concerning this application, should be addressed to the Tennessee Public Service Commission, Cordell Hull Building, Nashville, Tenn., and should not be directed to the Interstate Commerce Commission.

State Docket No. MC 20340 (Correction), filed August 1, 1967, published FEDERAL REGISTER issue of August 16, 1967, and republished as corrected this issue. Applicant: M & V EXPRESS, INC., 327 North Madison Street, Tulsa, Okla. Applicant's representative: L. E. Chenoweth, 2010 South Braden Street, Tulsa, Okla. Certificate of public convenience and necessity sought to operate a freight service over regular route as follows: Transportation of *Class "A" motor carrier freight, general commodities* (which shall include all kinds of goods, wares and merchandise) from Tulsa, Okla. to Vinita, Okla. via U.S. Highway 66, serving no intermediate points, thence over U.S. Highways 66 and 69 to the Kansas-Oklahoma State Line, serving all intermediate points, and return over the same routes, from Tulsa, Okla. to Oklahoma-Missouri border and return via U.S. Interstate Highway I-44 as an alternate route only. Both intrastate and interstate authority sought.

HEARING: Monday September 18, 1967, at the Oklahoma Corporation Commission Hearing Room, Oklahoma City, Okla., at 9 a.m.

Requests for procedural information, including the time for filing protests, concerning this application, should be addressed to the Oklahoma Corporation Commission, Jim Thorpe Building, Oklahoma City, Okla. 73105, and should not be directed to the Interstate Commerce Commission. NOTE: The purpose of this republication is to show a regular route, and to redescribe the commodity description.

By the Commission.

[SEAL] H. NEIL GARSON,
Secretary.

[Notice 480]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

AUGUST 18, 1967.

The following letter-notices of proposals to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission, under the Commission's Deviation Rules Revised, 1957 (49 CFR 211.1 (c)(8)) and notice thereof to all inter-

ested persons is hereby given as provided in such rules (49 CFR 211.1(d)(4)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 211.1(e)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Deviation Rules Revised, 1957, will be numbered consecutively for convenience in identification and protests if any should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 2229 (Deviation No. 14), RED BALL MOTOR FREIGHT, INC., 3177 Irving Boulevard, Post Office Box 10837, Dallas, Tex. 75207, filed August 7, 1967. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Vernon, Tex., over U.S. Highway 283 to junction U.S. Highway 62 at Altus, Okla., thence over U.S. Highway 62 to junction U.S. Highway 83, thence over U.S. Highway 83 to junction Texas Highway 256, thence over Texas Highway 256 to Memphis, Tex., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) Between Childress, Tex., and Vernon, Tex., over U.S. Highway 287, and (2) between Amarillo, Tex., and Childress, Tex., over U.S. Highway 287.

No. MC 2229 (Deviation No. 15), RED BALL MOTOR FREIGHT, INC., 3177 Irving Boulevard, Post Office Box 10837, Dallas, Tex. 75207, filed August 7, 1967. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Childress, Tex., over U.S. Highway 83 to junction Texas Highway 256, thence over Texas Highway 256 to Memphis, Tex., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: Between Amarillo, Tex., and Childress, Tex., over U.S. Highway 287.

No. MC 2229 (Deviation No. 16), RED BALL MOTOR FREIGHT, INC., 3177 Irving Boulevard, Post Office Box 10837, Dallas, Tex. 75207, filed August 7, 1967. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Childress, Tex., over U.S. Highway 83 to junction Texas Highway 203 approximately 2 miles north of Wellington, Tex., thence over Texas Highway 203 to Hadley, Tex., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: between Amarillo, Tex., and Childress, Tex., over U.S. Highway 287.

No. MC 2250 (Deviation No. 1), MARIE MORRIS, DBA VANDALIA TRANSFER CO., Vandalia, Ill. 62471, filed August 7, 1967. Carrier's representative: R. W. Burgess, 8514 Midland Boulevard, St. Louis, Mo. 63114. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From junction U.S. Highway 40 and Interstate Highway 70 over Interstate Highway 70 to junction Interstate Highway 270, thence over Interstate Highway 270 to junction with Riverview Drive, in St. Louis, Mo., thence over Riverview Drive to Hall Street, thence over Hall Street to carrier's terminal in St. Louis, Mo., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: Between Mulberry Grove, Ill., and St. Louis, Mo., over U.S. Highway 40.

No. MC 79437 (Deviation No. 1), Y.R.L.P. SERVICE, INC., Post Office Box 778, River Road, East Liverpool, Ohio 43920, filed August 14, 1967. Carrier's representative: James R. Stiverson, 50 West Broad Street, Columbus, Ohio 43215. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Youngstown, over Ohio Highway 18 (as access road) to junction Interstate Highway 80S, thence over Interstate Highway 80S to junction Interstate Highway 76, thence over Interstate Highway 76 to junction U.S. Highway 30, thence over U.S. Highway 30 (as access road) to Pittsburgh, Pa., with the following access roads (1) from Youngstown, Ohio over Ohio Highway 7 to junction Interstate Highway 80S, (2) from junction Interstate Highway 80S and U.S. Highway 19 over U.S. Highway 19 to Pittsburgh, Pa., (3) from junction Interstate Highway 80S and Pennsylvania Highway 8 over Pennsylvania Highway 8 to Pittsburgh, Pa., (4) from junction Interstate Highway 80S and Pennsylvania Highway 28 over Pennsylvania Highway 28 to Pittsburgh, Pa., and (5) from junction Interstate Highways 80S and 76 over Interstate Highway 76 to Pittsburgh, Pa., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Youngstown, Ohio, over Ohio Highway 7 to junction Ohio Highway 165, thence over Ohio Highway 165 to junction Ohio Highway 14, thence over Ohio Highway 14 to the Ohio-Pennsylvania State line, thence over Pennsylvania Highway 51 to Pittsburgh, Pa., also from junction Pennsylvania Highways 51 and 65 over Pennsylvania Highway 65 to Pittsburgh, Pa., and return over the same routes.

MOTOR CARRIER OF PASSENGERS

No. MC 1515 (Deviation No. 396), GREYHOUND LINES, INC. (Eastern Division), 1400 West Third Street, Cleveland, Ohio 44113, filed August 7, 1967. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express*, and *newspapers* in the same vehicle with passengers, over deviation routes as follows: (1) From Youngstown, Ohio, over U.S. Highway 62 to junction Interstate Highway 80 just north of Hubbard, Ohio, thence over Interstate Highway 80 to Exit 15 of Interstate Highway 80 (northwest of Reynoldsville, Pa.), thence over Pennsylvania Highway 310 to junction U.S. Highway 322, thence over U.S. Highway 322, to junction U.S. Highway 119, thence over U.S. Highway 119 to junction U.S. Highway 219, thence over U.S. Highway 219 to junction Pennsylvania Highway 255, in DuBois, Pa., thence over Pennsylvania Highway 255 to Exit 17 of Interstate Highway 90 (southwest of Sabula, Pa.), thence over Interstate Highway 80 to Exit 23 (approximately 3 miles north of Milesburg, Pa.), thence over U.S. Highway 220 via Lock Haven, Pa., to junction U.S. Highway 15 in Williamsport, Pa., thence over U.S. Highway 15 to Exit 30N of Interstate Highway 80 (approximately 2 miles south of White Deer, Pa.), thence over Interstate Highway 80 to junction U.S. Highway 46, approximately 3 miles northwest of Delaware, N.J., (2) from Warren, Ohio, over Ohio Highway 82 to junction Ohio Highway 7, thence over Ohio Highway 7 to junction Interstate Highway 80, near Hubbard, Ohio, (3) from Exit 36 to Interstate Highway 80 near Berwick, Pa., over U.S. Highway 11 to Kingston, Pa., thence over U.S. Highway 309 to Wilkes-Barre, Pa., and (4) from interchange of Interstate Highway 80 and Interstate Highway 81 over Interstate Highway 81 to Scranton, Pa., and return over the same routes, for operating convenience only.

The notice indicates that the carrier is presently authorized to transport passengers and the same property over pertinent service routes as follows: (1) From Scranton, Pa., over Pennsylvania Highway 307 to junction U.S. Highway 611 at Daleville Junction, Pa., thence over U.S. Highway 611 (including relocation of U.S. Highway 611 between Ells Corner and Tobyhanna, Pa.), via Mount Pocono and Stroudsburg, Pa., to junction U.S. Highway 46, thence over U.S. Highway 46 via Buttzville, N.J., to Pine Brook, N.J., thence over Bloomfield Avenue to Newark, N.J., (2) from Pine Brook, N.J., over U.S. Highway 46 to junction Fairfield Road, Singac, N.J., (3) from junction New Jersey Highway S-3 and New Jersey Highway 3 over New Jersey Highway 3 to junction Depressed Highway, North Bergen, N.J., thence over Depressed Highway via Union City to Weehawken, N.J., (4) from Cleveland, Ohio, over Ohio Highway 176 to junction Rockside Road, thence over Rockside Road to junction U.S. Highway 21, thence over U.S. Highway 21 to junction Ohio Highway 176, thence over Ohio Highway 176 to junction Ohio Highway 18, thence over Ohio Highway 18 to Akron, Ohio, (5) from Wilkes-Barre, Pa., over Pennsylvania Highway 115 to Kingston, Pa., thence over U.S. Highway 11 via West Pittston and Scranton to Hallstead, Pa., (6) from New York, N.Y., through the Lincoln Tunnel to the Lincoln Tunnel Plaza in Weehawken, N.J., thence over the elevated express highway and the depressed highway to junction New Jersey Highway 3.

Thence over New Jersey Highway 3 to Secaucus, N.J., (7) from New York, N.Y., through the Lincoln Tunnel and over New Jersey Highway 3 to junction U.S. Highway 1, thence over U.S. Highway 1 (Tonnelle Avenue) to junction U.S. Highway 1 and New Jersey Highway 1 at the traffic circle, (8) from junction New Jersey Highways 3 and S-3 over New Jersey Highway S-3 to junction U.S. Highway 46, thence over U.S. Highway 46 to junction Fairfield Road, near Fairfield, N.J., (9) from Newark, N.J., over U.S. Highway 22 via Somerville, N.J., to Lewiston, Pa., thence over U.S. Highway 322 to Martha Furnace, Pa., thence over U.S. Highway 220 to Hollidaysburg, Pa., thence over U.S. Highway 22 to Pittsburgh, Pa., thence over Pennsylvania Highway 88 via Ambridge, Pa., to Rochester, Pa., (10) from New York, N.Y., over U.S. Highway 1 via Newark and Trenton, N.J., to Philadelphia, Pa. (also from Newark over New Jersey Highway 27 to Princeton, N.J., thence over U.S. Highway 206 to Trenton, N.J., thence as specified above to Philadelphia), thence over unnumbered highway to Ardmore, Pa., thence over U.S. Highway 30 via Paoli, Pa., to Bedford, Pa., (11) from East Stroudsburg, Pa., over U.S. Highway 611 via Stroudsburg, Pa., to Daleville, Pa., thence over Pennsylvania Highway 502 to junction Pennsylvania Highway 307, thence over Pennsylvania Highway 307 to Scranton, Pa., thence over U.S. Highway 11 to Northumberland, Pa., (12) from Swiftwater, Pa., over Pennsylvania Highway 940 to Blakeslee, Pa.

Thence over Pennsylvania Highway 115 to Kingston, Pa., (13) from Armagh, Pa., over Pennsylvania Highway 56 to junction U.S. Highway 220, thence over U.S. Highway 220 to Bedford, Pa., (14) from Northumberland, Pa., over Pennsylvania Highway 14 to Clarks Ferry, Pa., (15) from Northumberland, Pa., over U.S. Highway 11 to Amity Hall, Pa., (16) from Rochester, Pa., over Pennsylvania Highway 18 to Beaver Falls, Pa., thence over Pennsylvania Highway 588 to junction Pennsylvania Highway 51, thence over Pennsylvania Highway 51 to the Pennsylvania-Ohio State line, thence over Ohio Highway 165 to East Palestine, Ohio, thence over Ohio Highway 170 to Unity, Ohio, thence over Ohio Highway 14 to Columbiana, Ohio, (17) from Youngstown, Ohio, over Ohio Highway 18 to Bellevue, Ohio, (18) from Cleveland, Ohio, over Ohio Highway 87 to junction U.S. Highway 422, thence over U.S. Highway 422 to junction relocated U.S. Highway 422 and old U.S. Highway 422 (south of Parkman, Ohio), thence over relocated U.S. Highway 422, to junction old U.S. Highway 422 (north of Warren, Ohio), thence over U.S. Highway 422 to Youngstown, Ohio, thence over Ohio Highway 7 to North Lima, Ohio, (19) from Blakeslee Corner, Pa., over Pennsylvania Highway 115 to Saylorsburg, Pa., thence over Pennsylvania Highway 13 to Stockertown, Pa., thence over Pennsylvania Highway 115 to Easton, Pa., (20) from Harrisburg, Pa., over U.S. Highway 11 to Middlesex, Pa.

Thence over the Pennsylvania Turnpike to Irwin, Pa., thence over U.S. Highway 30 to Pittsburgh, Pa., (21) from New York, N.Y. through the Lincoln Tunnel and over New Jersey Highway 3 to junction U.S. Highway 1, thence over U.S. Highway 1 (Tonnelle Avenue) to junction U.S. Truck Highway 1, at the traffic circle under the Pulaski Skyway in Jersey City, N.J., (22) from Wilkes-Barre, Pa., over unnumbered highway to Pittston, Pa., (23) from Harrisburg, Pa., across the Susquehanna River thence over U.S. Highway 11 to junction U.S. Highway 22, (24) from Dupont, Pa., over Pennsylvania Highway 315 to Wilkes-Barre, Pa., (25) from Carlisle Interchange at Middlesex over the Pennsylvania Turnpike to King of Prussia, thence over Pennsylvania Highway 23 to Philadelphia, Pa., (26) from junction U.S. Highways 11 and 15 over U.S. Highway 15 to junction with the Pennsylvania Turnpike at Gettysburg Pike Interchange, (27) from junction U.S. Highway 30 and Pennsylvania Turnpike, over the Pennsylvania Turnpike to junction U.S. Highway 22, (28) from junction U.S. Highway 22 and Penn-Lincoln Parkway over the Penn-Lincoln Parkway to Pittsburgh, Pa., (29) from Lincoln Tunnel Interchange over the New Jersey Turnpike to the Delaware Memorial Bridge Interchange, (30) from junction U.S. Highway 1 and New Jersey Highway 3 over New Jersey Highway 3 via Lincoln Tunnel Interchange to the New Jersey Turnpike, (31) from Philadelphia, Pa., over city streets and the Delaware River Bridge to Camden, N.J.

Thence over New Jersey Highway 38 to junction New Jersey Highway 73, thence over New Jersey Highway 73 via Camden-Philadelphia Interchange to the New Jersey Turnpike, (32) from the Pennsylvania-Ohio State line at the junction of the Ohio and Pennsylvania Turnpikes over the Ohio Turnpike to junction Ohio Highway 18, (33) from junction U.S. Highway 22 and the Pennsylvania Turnpike over the Pennsylvania Turnpike to the Pennsylvania-Ohio State line (Gateway Interchange), (34) from Pittsburgh, Pa., over U.S. Highway 19 to junction Pennsylvania Turnpike, (35) from Cleveland, Ohio, over new U.S. Highway 21 (Willow Freeway) to junction Rockside Road, just north of Independence, Ohio, (36) from junction Ohio Turnpike and Ohio Highway 18 over the Ohio Turnpike to the Ohio-Indiana State line, and (37) from junction Northeast segment of the Pennsylvania Turnpike system and the Pennsylvania Turnpike over the eastern extension of the Pennsylvania Turnpike via the Delaware River Bridge near Edgeley, Pa., and Florence, N.J., to junction connecting segment of the New Jersey Turnpike, thence over connecting segment of the New Jersey Turnpike to New Jersey Turnpike at Interchange No. 6 thereof, and return over the same routes.

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary.*

[Notice 1007]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

AUGUST 18, 1967.

The following publications are governed by Special Rule 1.247 of the Commission's rules of practice, published in the FEDERAL REGISTER issue of April 20, 1966, which became effective May 20, 1966.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

APPLICATIONS ASSIGNED FOR ORAL HEARING

MOTOR CARRIERS OF PROPERTY

No. MC 55236 (Sub-No. 152) (Republication), filed July 14, 1967, published in the FEDERAL REGISTER issues of July 27, 1967, and August 10, 1967, and republished this issue. Applicant: OLSON TRANSPORTATION COMPANY, a corporation, 1970 South Broadway, Green Bay, Wis. 54306. Applicant's representative: K. L. Laird (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from Muskegon, Mich., and within 5 miles thereof, to points in Iowa, Missouri, Kansas, Nebraska, and Minnesota (except St. Paul, Minn.). NOTE: The purpose of this republication is to reflect the hearing information.

HEARING: September 22, 1967, in Room 215, Federal Building, 326 West Allegan Street, Lansing, Mich., before Examiner Charles W. Bennett.

No. MC 9148 (Sub-No. 16) (Republication), filed September 23, 1966, published FEDERAL REGISTER issue of October 13, 1966, and republished this issue. Applicant: DEAN THORNTON, doing business as KEYSTONE TRUCKING COMPANY, Main Street, Rushford, N.Y. 14777. Applicant's representative: Raymond A. Richards, 26 Curtice Park, Webster, N.Y. 14580. By application filed September 23, 1966, applicant seeks a certificate of public convenience and necessity authorizing operation in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of (1) processed popcorn prod-

ucts; chips, twists, or puffs; popped corn; fried pork skins, from the plantsites and facilities of Popped-Right Corn Co. at points in Marion and Wyandot Counties, Ohio, to points in Connecticut, Maine, Massachusetts, New Jersey, New Hampshire, New York, Pennsylvania, Rhode Island, and Vermont; and (2) iron and steel rust preventing or removing compound (other than petroleum), metal cutting, drawing, and drilling compounds (other than petroleum), brake fluid (other than petroleum), cleaning, washing, and scouring compound, petroleum tar, petroleum wax, petroleum oil, compounded oil and greases and lubricating greases, vehicle body sealer, sound deadening compound, and oil emulsions, all in containers, and petroleum and petroleum products as described in appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, except in bulk, and related advertising material, (a) from Buffalo, N.Y., and Emlenton and Farmers Valley, Pa., to points in Illinois, except Chicago, and all points in Indiana, restricted however to traffic originating at the facilities of Quaker State Oil Refining Corp. at the points named and destined to points in the named destination States and (b) from Warren, Pa., to points in Connecticut, Massachusetts, New Jersey, New Hampshire, New York, Rhode Island, Vermont, and those points in Maine on and south of Maine Highway 25, including Portland, Maine, and the Portland, Maine, commercial zone.

The application was referred to Examiner Richard A. White for hearing and the recommendation of an appropriate order thereon. Hearing was held on May 4, 1967, at Buffalo, N.Y. A Report and Order of the Commission, division 1, served June 15, 1967, which became effective July 17, 1967, served July 25, 1967, as amended, finds that the present and future public convenience and necessity require operation by applicant as a common carrier by motor vehicle, in interstate or foreign commerce, over irregular routes, of (1) *iron and steel rust preventing or removing compounds* (other than petroleum), *metal cutting, drawing and drilling compounds* (other than petroleum), *brake fluid* (other than petroleum), *cleaning, washing, and scouring compounds, petroleum tar, compounded oil and greases and lubricating greases, vehicle body sealer, sound deadening compound, and oil emulsions*, in containers, and *petroleum and petroleum products* as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in containers, and *related advertising material*, (a) from Buffalo, N.Y., and Emlenton and Farmers Valley, Pa., to points in Illinois except Chicago, Ill., and points in Indiana, restricted to traffic originating at the facilities of Quaker State Oil Refining Corporation at the named origins and destined to points in the named destination States, and (b) from Warren, Pa., to points in Connecticut, Massachusetts, New Jersey, New Hampshire, New York, Rhode Island, Vermont, and those points in Maine on and south of Maine Highway 25, including Portland, Maine, and the commercial zone thereof; and (2) *popcorn, corn chips, corn twists, corn puffs, and fried pork skins, and raw corn* when transported at the same time and in the same vehicle with popcorn, corn chips, corn twists, corn puffs, and fried pork skins, from the plantsites and facilities of Popped-Right Corn Co. in Marion and Wyandot Counties, Ohio, to points in Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont; and that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other persons, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 38222 (Sub-No. 10) (Republication), filed July 19, 1966, published FEDERAL REGISTER issues of August 18, 1966, and July 6, 1967, and republished this issue. Applicant: JOHN L. FANSHAW, Jr., doing business as CREWE TRANSFER, Crewe, Va. Applicant's representative: John C. Goddin, Insurance Building, 10 South 10th Street, Richmond, Va. In the above-entitled proceeding an order was entered May 19, 1967, and served June 21, 1967, by Operating Rights Board No. 1, which found that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of (1) wearing apparel from Emporia and Lawrenceville, Va., to Crewe, Va., and (2) materials and supplies used in the manufacture of wearing apparel from Crewe, Va., to Emporia and Lawrenceville, Va.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. That by petition filed July 20, 1967, applicant requests that the prior order be amended so as to authorize the operation described below. A Supplemental order of the Commission, Operating Rights Board, dated July 31, 1967, and served August 9, 1967, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of *wearing apparel and materials and supplies* used in the manufacture of wearing apparel, between Emporia and Lawrenceville, Va., on the one hand, and, on the other, Crewe, Va.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commissions' rules and regulations thereunder. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 121120 (Sub-No. 2) (Republication), filed July 6, 1965, published FEDERAL REGISTER issue of July 29, 1965, and republished this issue. Applicant: RAPID DELIVERY SERVICE, INC., 3960 Northeast Fifth Terrace, Fort Lauderdale, Fla. Applicant's representative: Alan B. Brody, Suite 410, Ainsley Building, Miami, Fla. 33132. In the above-entitled proceeding, the examiner recommended the granting to applicant a certificate of public convenience and necessity authorizing operation in interstate or foreign commerce, over irregular routes, of general commodities, except those of unusual value, classes A and B explosives, household goods, as defined by the Commission, motion picture films, newspapers and magazines, commodities which because of their size require special equipment, commodities in bulk (not including wearing apparel loose on hangers), and those injurious or contaminating to other lading, (1) between points in Dade, Broward, Collier, Palm Beach, Hendry, Lee, Charlotte, Glades, Martin, St. Lucie, Okeechobee, Highlands, De Soto, Hardee, Sarasota, Manatee, Pinellas, Hillsborough, Polk, Osceola, Indian River, Brevard, Orange, Seminole, Sumter, Pasco, Hernando, Citrus, Marion, Volusia, Flagler, Putnam, Alachua, Bradford, Clay, St. Johns, Duval, and Nassau Counties, Fla., subject to the following restrictions:

(a) No service shall be rendered in the transportation of any package or article weighing more than 100 pounds and each package or article shall be considered as a separate and distinct shipment; and (b) no service shall be provided in the transportation of packages or articles weighing in the aggregate more than 100 pounds from one consignor at one location to one consignee at one location on any one day; and (2) wearing apparel, on hangers, together with accessories, piece goods and cut materials, and supplies used in the conduct of retail wearing apparel stores, in cartons, in mixed loads with wearing apparel on hangers, from Jacksonville, Fla., to points in Dade, Broward, Collier, Palm Beach, Hendry, Lee, Charlotte, Glades, Martin, St. Lucie, Okeechobee, Highlands, De Soto, Hardee, Sarasota, Manatee, Pinellas, Hillsborough, Polk, Osceola, Indian River, Brevard, Orange, Seminole, Sumter, Pasco, Hernando, Citrus, Marion, Volusia, Flagler, Putnam, Alachua, Bradford, Clay, St. Johns, Duval, and Nassau Counties, Fla. A report of the Commission, Review Board Number 2, decided August 4, 1967, and served August 15, 1967, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of *general commodities* (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk, those requiring special equipment, and motion picture films, newspapers, and magazines), moving in express service, between points in Alachua, Bradford, Brevard, Broward, Charlotte, Citrus, Clay, Collier, Dade, De Soto, Duval, Flagler, Glades, Hardee, Hendry, Hernando, Highlands, Hillsborough, Indian River, Lake, Lee, Manatee, Marion, Martin, Nassau, Okeechobee, Orange, Osceola, Palm Beach, Pasco, Pinellas, Polk, Putnam, St. Johns, St. Lucie, Sarasota, Seminole, Sumter, and Volusia Counties, Fla., subject to the following restrictions:

(a) No service shall be provided in the transportation of any package or article weighing more than 100 pounds, and each package or article shall be considered as a separate and distinct shipment, and (b) no service shall be provided in the transportation of packages or articles weighing in the aggregate more than 100 pounds from one consignor at one location to one consignee at one location on any one day; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; and that applicant should request in writing the coincidental cancellation of its certificate of registration in No. MC 121120 (Sub-No. 1) issued December 18, 1963. Because it is possible that other persons, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 128947 (Republication), filed March 15, 1967, published FEDERAL REGISTER issue of April 6, 1967 and republished this issue. Applicant: CLEVELAND BULK TRANSFER, INC., 10655 Royalton Road, North Royalton, Ohio 44133. Applicant's representative: Frank J. Kerwin, Jr., 900 Guardian Building, Detroit, Mich. 48226. By application filed March 15, 1967, applicant seeks a permit authorizing operations, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of automobile bodies, wrecked or scrapped, not on their own wheels, and not bundled, for remelting purposes, (1) from points in Ohio to Detroit, Mich., and points in its commercial zone, and (2) from the ports of entry on the international boundary line between the United States and Canada located at or near Port Huron and Detroit, Mich., to Detroit, Mich. and points in its commercial zone, under contract with Luria Brothers & Co., Inc. An Order of the Commission, Operating Rights Board, dated July 31, 1967, and served August 10, 1967, finds that operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of *automobiles*, wrecked or scrapped, (1) from points in Ohio, to Detroit, Mich., and (2) from those ports of entry on the International Boundary line between the United States and Canada located at or near Port Huron and Detroit, Mich., to Detroit, Mich., under a continuing contract with Luria Brothers & Co., Inc., of Detroit, Mich., will be consistent with the public interest and national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 128962 (Republication), filed March 23, 1967, published FEDERAL REGISTER issue of April 20, 1967, and republished this issue. Applicant: FRED H. LORENZEN, doing business as A. V. PRICE TRANSFER COMPANY, 1631 Ronan Avenue, Wilmington, Calif. 90746. Applicant's representative: R. Y. Schureman, 1010 Wilshire Boulevard, Los Angeles, Calif. 90017. By application filed March 23, 1967, applicant seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of baggage and personal effects of steamship passengers, between points in the Los Angeles Harbor commercial zone, California, on the one hand, and, on the other, points in Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara, and Ventura Counties, Calif. An order of the Commission, Operating Rights Board dated July 31, 1967, and served August 9, 1967, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, of *baggage and personal effects of passengers* having a prior or subsequent movement by water, between points in the Los Angeles Harbor commercial zone, California, as defined by the Commission, on the one hand, and, on the other, points in Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara, and Ventura Counties, Calif.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the Federal Register and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

NOTICES OF FILING OF PETITIONS

No. MC 30451 (Sub-No. 22) (Notice of filing of petition to modify permit), filed July 31, 1967. Petitioner: THE LUPER TRANSPORTATION COMPANY, 350 east 21st Street, Wichita, Kans. 67214. Petitioner's representative: James F. Miller (same address as above). Petitioner states that it holds a permit authorizing the transportation, over irregular routes, of: Meats, meat products and meat byproducts, dairy products, and articles distributed by meat packinghouses, as described in sections A, B, and C of appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766, from Wichita, Kans., to points in Alabama, Florida, Georgia, and Tennessee (except Memphis, Tenn.), with no transportation for compensation on return except as otherwise authorized, limited to a transportation service to be performed, under a continuing contract or contracts, with Cudahy Packing Co., of Wichita, Kans. By the instant petition, petitioner desires to add an additional contracting shipper, the Sunflower Packing Co. of Wichita, Kans. Any interested person desiring to participate may file an original and six copies of his written representations, views or argument in support of, or against the petition within 30 days from the date of publication in the FEDERAL REGISTER. Petitioner shall within a period of 30 days from the date of this publication, file verified statements in support of the petition (including appropriate evidence of shipper support for the modification proposed).

No. MC-118412 (In the matter of alleged forgery of applicant's signature). Petitioner: WM. PRESTON O'CONNOR, doing business as FRIGID FREIGHT-

WAYS, Chicago, Ill. Petitioner's representative: Wm. Preston O'Connor, 3004 South Wabash Street, Chicago, Ill. As a result of a written request dated January 8, 1969, ostensibly in the name of applicant, William Preston O'Connor, by order of January 19, 1969, the application in the above-entitled proceeding (for "grandfather" authority under section 7 of the Transportation Act of 1958 to continue to operate as a common carrier by motor vehicle, over irregular routes, of frozen fruits, frozen berries, frozen vegetables, cocoa beans, coffee beans, tea, bananas, and wool imported from any foreign country, between points in Connecticut, Colorado, Illinois, Indiana, Iowa, Kansas, Maine, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, South Dakota, Wisconsin, Arizona, New Mexico, California, Utah, Nevada, North Dakota, Montana, Idaho, Washington, Oregon, Delaware, Maryland, and the District of Columbia) was dismissed. By letter filed July 18, 1967, together with a supporting affidavit, applicant William Preston O'Connor advises this Commission that he did not request dismissal of the application, alleging that his name was forged to the letter request for dismissal. By order dated August 11, 1967, by the Commission, Commissioner Murphy, applicant's letter-affidavit of July 18, 1967, was designated for handling under the modified procedure solely for the purpose of determining the validity of the letter request of January 8, 1969, for dismissal of the application in the proceeding. The said order fixes September 18, 1967, on or before which William Preston O'Connor is required to show cause in writing, verified under oath, why the order of January 19, 1969, should be vacated and set aside, and also provides that parties to the proceeding and other interested persons may file verified statements supporting or opposing applicant's position within 30 days after the filing of applicant's verified statements. The said order also directs the Bureau of Enforcement, Interstate Commerce Commission, to participate in the proceeding.

No. MC 125022 (Notice of filing of petition for modification of permit), filed July 31, 1967. Petitioner: MERCURY PRODUCE EXPRESS, LTD., 2916 Norland Avenue, Burnaby, British Columbia, Canada. Petitioner's representative: Thomas R. Kerr, 140 Montgomery Street, San Francisco, Calif. 94104. Petitioner states it holds a Permit in No. MC 125022 authorizing the transportation by motor vehicle, in interstate or foreign commerce, over irregular routes, of such commodities as are dealt in by wholesale, retail, and general grocery and food business houses, and, in connection therewith, equipment, materials, and supplies used in the conduct of such businesses, and commodities which are exempt from economic regulation, when moving in mixed shipments with the commodities specified above, from points in California, Oregon, and Washington, to ports of entry on the United States–Canada boundary line in Washington, Idaho, and Montana, with no transportation for compensation on return except as otherwise authorized, restricted to contracts with the following shippers: James Brothers Food, Ltd., Vancouver, British Columbia, Canada, J. K. Preinwerk Co., Vancouver, British Columbia, Canada, and Kelly Douglas & Co., Ltd., Vancouver, British Columbia, Canada. By the instant petition, petitioner requests that Kelley Douglas & Co., Ltd., be removed as one of the shippers that applicant may contract with, and that MacDonald's Consolidated, Ltd., be added to the permit in place of Kelly Douglas; that Koffman Food Importers, Ltd., be added to the list of shippers with which applicant may contract; and that Oppenheimer Bros. & Co. be added to the list of shippers with which applicant may contract. Any interested person desiring to participate may file an original and six copies of his written representations, views or argument in support of, or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 1.240 TO THE EXTENT APPLICABLE

No. MC 22167 (Sub-No. 23), filed July 24, 1967. Applicant: CONSOLIDATED COPPERSTATE LINES, a corporation, 1220 West Washington Boulevard, Montebello, Calif. 90640. Applicant's representative: Hane Burch, 411 North Central, First National Bank Building, Phoenix, Ariz. 85004. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except livestock), between Flagstaff and Kingman, Ariz., serving all intermediate points between Kingman and Ashfork, Ariz., on the one hand, and, on the other, points east of Ashfork on Highway 66 to Flagstaff, and points within 25 miles of Flagstaff with no service between Flagstaff and Ashfork. NOTE: This application is directly related to MC–F–9836, published in the FEDERAL REGISTER, August 2, 1967. If a hearing is deemed necessary, applicant requests it be held at Phoenix, Ariz.

No. MC 109672 (Sub-No. 10), filed August 2, 1967. Applicant: BOYCE MOTOR LINES, INC., Lake Shore Drive, Canandaigua, N.Y. 14424. Applicant's representative: Herbert M. Canter, 345 South Warren Street, Syracuse, N.Y. 13202. Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) regular route: Between Rochester and Syracuse, N.Y., as follows: (a) From Rochester over New York Highway 31 to junction New York Highway 31B, thence over New York Highway 31B to junction New York Highway 5, thence over New York Highway 5 to Syracuse, (b) from Rochester over New York Highway 96 to Waterloo, thence over New York Highway 5 to Syracuse, (c) from Rochester over New York Highway 96 to junction New York Highway 332, thence over New York Highway 332 to Canandaigua, thence over New York Highway 5 to Syracuse, serving all intermediate points, and with service to, from and between all points in the commercial zones of Syracuse, Rochester, and Auburn, and (d) over the New York State Thruway for operating convenience only and (2) irregular route: *Nursery stock*, from points in Wayne County, N.Y., to points in Broome, Chemung, Erie, Fulton, Genesee, Livingston, Madison, Montgomery, Oneida, Saratoga, and Ulster Counties, N.Y. NOTE: This application is a matter directly related to MC–F–9845, published in the FEDERAL REGISTER issue August 16, 1967. It seeks to convert the certificate of registration of G & N Motor Express, Inc., in MC–1401, Sub-2, into a certificate of public convenience and necessity. Control of the authorities and properties of G & N Motor Express, Inc., is being sought permanently in the above referenced BMC–44 application and temporary authority to control and operate the same through stock control is being sought on a concurrently filed BMC–48 application. No duplicating authority sought. Applicant intends to tack the authority sought herein with its existing authorities. If a hearing is deemed necessary, applicant requests it be held at Syracuse or Rochester, N.Y.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under Sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC–F–9735 (Correction) (BRUCE MOTOR FREIGHT, INC.—CONTROL—HAWKEYE MOTOR EXPRESS, INC.), published in the May 3, 1967, issue of the FEDERAL REGISTER, on page 6818. The authority sought is for merger also and should read BRUCE MOTOR FREIGHT, INC., *control and merge* the operating rights and property of HAWKEYE MOTOR EXPRESS, INC., in lieu of control only.

No. MC–F–9851. Authority sought for purchase by REED LINES, INC., Box 285, Woodburn, Ind. 46797, of a portion of the operating rights of MOTORWAY CORPORATION (WARREN H. BOCK, TRUSTEE IN BANKRUPTCY), Spitzer Building, Toledo, Ohio 43604, and for acquisition by GLENN W. REED, 634 Ralston Avenue, Defiance, Ohio, of control of such rights through the purchase. Applicants' attorney: John P. McMahon, 100 East Broad Street, Columbus, Ohio 43215. Operating rights sought to be transferred: *Glass containers* and *caps, covers, disks or tops therefor*, as a *common carrier* over irregular routes, from Gas City, Ind., to certain specified points in New York; *glass containers, caps, covers, disks and tops*, and *fibreboard boxes*, corrugated or knocked down flat, from Fairmont, W. Va., to points in Pennsylvania (with exception), Kentucky, Indiana, and the Lower Peninsula of Michigan, from Gas City, Ind., to points in Pennsylvania; *glass containers, glass bottles*, and *glass jars*, with or without caps, covers, tops, or stoppers, *glassware*, other than *cut, caps, covers, tops*, and *stoppers* for glass containers, and *boxes and containers*, wooden or corrugated paper, set up or knocked down, from certain specified points in Pennsylvania, to points in Ohio, West Virginia, Kentucky, Indiana, Illinois, the Lower Peninsula of Michigan, St. Louis County, Mo., and St. Louis, Mo.; *machinery, equipment, materials, and supplies* used or useful in the manufacture of the commodities specified next above, from points in Ohio, West Virginia, Kentucky, Indiana, Illinois, the Lower Peninsula of Michigan, St. Louis County, Mo., and St. Louis, Mo., to certain specified points in Pennsylvania; *glass bottles, glass jars*, and *caps, covers, disks and tops therefor*, and *fibreboard boxes*, from Fairmont, W. Va., to St. Louis, Mo., and points in St. Louis County, Mo., and Illinois, from Gas City, Ind., to certain specified points in New York; *glass blocks* and *materials* used in the installation thereof, from Muncie, Ind., to points in Pennsylvania and New York; *agricultural, garden, and lawn seed, fence, fence post, fence materials, cod liver oil, insecticides*, and *fertilizer*, from Columbus and Cincinnati, Ohio, to certain specified points in West Virginia, Kentucky, Indiana, and Pennsylvania; *seed, fence, fence posts and other fence materials, cod liver oil, insecticides*, and *fertilizer*, from Columbus, Ohio, to certain specified points in West Virginia; *fence, fence posts, fence materials, cod liver oil, insecticides*, and *fertilizer*, from points in Franklin and Hamilton Counties, Ohio, to points in New York, New Jersey, West Virginia, Indiana, Pennsylvania, Maryland, and Kentucky; *agricultural, garden, and lawn seed, display cases for seed*, and *empty containers for seeds*, between points in Franklin and Hamilton Counties, Ohio, on the one hand, and, on the other, points in New York, New Jersey, West Virginia, Indiana, Pennsylvania, Maryland, and Kentucky; *Oleomargarine, salad dressing, lard substitutes, cooking oils*, and *vegetables stearine*, from Columbus, Ohio, to Johnstown and Altoona, Pa., and Fairmont, W. Va.,; *poultry equipment* and *dairy equipment*, from points in Brooke County, W. Va., to points in Ohio, with restriction; *building, paving, or roofing materials*, restricted against the transportation of any shipments in bulk, in tank vehicles, *asbestos building, roofing, or sheathing paper*, including felt paper not saturated, not coated nor corrugated, *asbestos wallboard*, plain or polished, not ornamented, painted, glazed, enameled nor shaped, *asphalt* (asphaltum), petroleum or byproduct, liquid or solid, other than paint, stain or varnish or roofing asphalt, *boards*, asphalt composition, paving or flooring, *board*, wall or ceiling, fibreboard or pulpboard, *carpet lining*, paper, including felt paper, plant, other than indented, *cotton cloth*, saturated or coated with asphalt, *eave filler strips or flashing blocks*, asphalt composition, *felt or paper*, building, roofing or sheathing, (including felt or paper, building or sheathing, in multiple-ply sheets), *felt or paper* (sound-deadening material), saturated or coated with asphalt, pitch, or similar materials and surfaced or not surfaced with talc, mica, soapstone, crushed slate, vermiculite, or similar materials, *flashing, or water or vapor barrier or insulating material*, aluminum, copper or lead combined with asphalt, fabric fibres, paper or asbestos felt, *gravel, paving joints*, expansion, asphalt, asphalt base or rubber composition, *roof coating* (not paint nor stain), having asphalt, pitch, tar or rosin base, *roofing asphalt*, roofing, composition, or prepared, *roofing granules*, consisting of crushed stone, slate, slag, gravel or iron ore tailings, *roofing pitch, roofing tar or cement, shingles*, asphalt, *shingles*, asphalt, with wood base, *shingles*, hard asbestos (artificial stone shingles or slates), *shingles*, siding or roofing, asbestos and wallboard (fibreboard or pulpboard) combined, *siding, siding*, asphalt composition, or fibreboard faced or coated with asphalt and roofing granules, or fibreboard faced or coated with resin composition, *slag, wallboard, building board or insulating board*, asbestos and woodpulp or fibreboard combined, from Franklin, Ohio, to points in West Virginia (with exceptions), and Pennsylvania (with exceptions). Vendee is authorized to operate as a *common carrier* in Connecticut, Delaware, Florida, Illinois, Indiana, Kentucky, Louisiana, Maine, Mississippi, Tennessee, Virginia, West Virginia, Ohio, Pennsylvania, Wisconsin, Michigan, New York, New Jersey, Vermont, New Hampshire, Massachusetts, Maryland, Rhode Island, Arkansas, Missouri, Iowa, and Minnesota, and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–9852. Authority sought for control by SPECTOR FREIGHT SYSTEM, INC., 205 West Wacker Drive, Chicago, Ill. 60606, of VIKING FREIGHT COMPANY, 1525 South Broadway, St. Louis, Mo. 63104, and for acquisition by SPECTOR INDUSTRIES, INC., and in turn by W. STANHAUS, both also of Chicago, Ill., of control of VIKING FREIGHT COMPANY through the acquisition by SPECTOR FREIGHT SYSTEM, INC. Applicants' attorneys: Axelrod, Goodman & Steiner, 39 South La Salle Street, Chicago, Ill. 60603, and G. M. Rebman, 314 North Broadway, St. Louis, Mo. Operating rights sought to be controlled: *General commodities*, with certain specified exceptions, and numerous other specified commodities, as a *common carrier* over regular and irregular routes, from, to, and between specified points in the States of Missouri, Illinois, Tennessee, Arkansas, Indiana, Ohio, Kentucky, Oklahoma, Texas, Mississippi, Louisiana, and Alabama, with certain restrictions, serving various intermediate and off-route points, numerous alternate routes for operating convenience only, as more specifically described in Docket No. MC–35484 and subnumbers thereunder. This notice does not purport to be a complete description of all of the operating rights of the carrier involved. The foregoing summary is believed to be sufficient for purposes of public notice regarding the nature and extent of this carrier's operating rights, without stating, in full, the entirety, thereof. SPECTOR FREIGHT SYSTEM, INC., is authorized to operate, as a *common carrier* in Missouri, Massachusetts, Indiana, Pennsylvania, New Jersey, New York, Connecticut, Rhode Island, Illinois, Maryland, Ohio, Wisconsin, Minnesota, Kansas, Colorado, Iowa, Nebraska, Oklahoma, Texas, Delaware, and Michigan and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–9853. Authority sought for purchase by GETTER TRUCKING, INCORPORATED, Highway 2 East, Cut Bank, Mont. 59427, of a portion of the operating rights of L. C. JONES TRUCKING COMPANY, Post Office Box 9512, Houston, Tex. 77011, and for acquisition by RALPH E. GETTER, and THOMAS I. GETTER, Box 1777, Gillette, Wyo. 82716, Post Office Box 806, Cut Bank, Mont. 59427, of control of such rights through the purchase. Applicants' representative: Ralph E. Getter, Post Office Box. 806, Cut Bank, Mont. 59427. Operating rights sought to be transferred: *Machinery* and *equipment* used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of sulphur and its products, and *materials and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage transmission and distribution of sulphur and its products, when moving to or from exploration, drilling, production, job, construction and plant (including refining, manufacturing, and processing plant) sites, or storage sites, as a *common carrier* over irregular routes between certain specified points in North Dakota, on the one hand, and, on the other, points in Wyoming, between points in Oklahoma, on the one hand, and, on the other, points in North Dakota, *machinery, equipment, materials and supplies* used in, or in connection with, the drilling of water wells, between points in Louisiana, between points in Wyoming, between points in Louisiana and Wyoming, on the one hand, and, on the other, points in Colorado, Kansas, New Mexico, Oklahoma, and Texas, between points in Arkansas, on the one hand, and, on the other, points in Louisiana, between points in Oklahoma, on the one hand, and, on the other, points in Mississippi, subject to the restriction that carrier shall not transport any traffic between points in Colorado, Kansas, Louisiana, New Mexico, Texas, Wyoming, and Arkansas, on the one hand, and, on the other, points in Mississippi, between points in Montana and Utah, on the one hand, and, on the other, points in Kansas, Oklahoma, and Texas, between cer-

tain specified points in North Dakota, South Dakota, and Montana, to the United States-Canada boundary line, between points in the territory described immediately above, on the one hand, and, on the other, points in Wyoming, between points in Nebraska and certain specified points in Colorado, between points in Oklahoma, on the one hand, and, on the other, points in Nebraska, North Dakota, and South Dakota, from points in Oklahoma and Texas to points in Pennsylvania and West Virginia, and from points in Pennsylvania to points in Oklahoma and Texas. Vendee is authorized to operate as a *common carrier* in Montana, Wyoming, North Dakota, and South Dakota. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–9854. Authority sought for purchase by SHANAHAN MOTOR LINES, INC., 1600 South Delaware Avenue, Philadelphia, Pa. 19148, of the operating rights of EAGLE TRANSFER CO., 325 Spring Garden Street, Philadelphia, Pa. 19123, and for acquisition by TIMOTHY J. SHANAHAN III, of control of such rights through the purchase. Applicants' attorney: Jacob J. Siegal, 1500 Walnut Street, Philadelphia, Pa. 19102. Operating rights sought to be transferred: *General commodities*, excepting among others, commodities in bulk, but not excepting, household goods, as a *common carrier*, over a regular route, between Wilmington, Del., and Philadelphia, Pa., between the fixed termini, serving all intermediate and certain off-route points; *household goods*, over irregular routes, between Wilmington, Del., on the one hand, and points in New Jersey, New York, Delaware, Maryland, Pennsylvania, and Washington, D.C., on the other; and *meats, meat products, and meat byproducts*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 MCC 209 and 766 (except those in bulk, in tank vehicles), from Wilmington, Del., to certain specified points in Pennsylvania, with restriction. Vendee is authorized to operate as a *common carrier* in Pennsylvania, New York, New Jersey, Delaware, Maryland, Connecticut, Massachusetts, Rhode Island, Virginia, and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–9855. Authority sought for control and merger by WESTERN OIL TRANSPORTATION COMPANY, INCORPORATED, Post Office Box 3120, Midland, Tex. 79704, of the operating rights and property of PETROLEUM TRANSPORT COMPANY, Post Office Box 3120, Midland, Tex. 79704, and for acquisition by THE PERMIAN CORPORATION, Post Office Box 3119, Midland, Tex., and, in turn by OCCIDENTAL PETROLEUM CORPORATION, 10889 Wilshire Boulevard, Los Angeles, Calif., of control of such rights and property through the transaction. Applicants' attorney: O. Russell Jones, Post Office Box 2228, Santa Fe, N. Mex. 87501. Operating rights sought to be controlled and merged: *Crude oil*, in bulk, in tank vehicles, as a *common carrier*, over irregular routes, between points in Wyoming, from points in the Ash Creek Oil Field in Big Horn County, Mont., and Sheridan County, Wyo., to Billings, Mont., and Midwest and Casper, Wyo.; and *petroleum crude oil*, in bulk, in tank vehicles, from certain specified points in Nebraska, to certain specified points in Kansas. WESTERN OIL TRANSPORTATION COMPANY, INCORPORATED, is authorized to operate as a *common carrier* in New Mexico and Texas. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–9856. Authority sought for control and merger by MICHIGAN EXPRESS, INC., 1122 Freeman Avenue, Grand Rapids, Mich. 49502, of the operating rights and property of CUSHMAN MOTOR DELIVERY COMPANY, 1480 West Kinzie Street, Chicago, Ill. 60622, and for acquisition by VOTING TRUST OF TIMMER ESTATE (B. E. TIMMER, G. W. RYKSE AND C. E. THORSQUIST, TRUSTEES), 3003 East Fulton Road, Grand Rapids, Mich., 1334 Sprucewood Drive, Grand Rapids, Mich., and Pineycrest, Fruitport, Mich., respectively, of control of such rights and property through the transaction. Applicants' attorneys: Axelrod, Goodman & Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Operating rights sought to be controlled and merged: *General commodities*, excepting, among others, household goods and commodities in bulk, as a *common carrier*, over regular routes, between Ypsilanti, Mich., and Wyandotte, Mich., serving no intermediate points, between Detroit, Mich., and the Chrysler Corp. Tank Arsenal, serving all intermediate points; over numerous alternate routes for operating convenience only; *general commodities*, excepting, among others, commodities in bulk, but not excepting, household goods, between Chicago, Ill., and junction U.S. Highways 41 and 6 and Indiana Highway 152, serving all intermediate points on the Calumet–Tri-State Expressway; over numerous alternate routes for operating convenience only; *general commodities*, excepting as next above, over regular and irregular routes, (1) In the commercial areas of Chicago, Cincinnati, Dayton, Indianapolis, Detroit, and Milwaukee as stated in appendix I, over irregular routes; (2) between all points within the area bounded as follows: Commencing at junction U.S. Highway 41 and 30 over U.S. Highway 30 to junction Illinois Highway 31, thence over Illinois Highway 31 to junction U.S. Highway 30, thence over U.S. Highway 30 to junction U.S. Highway 41, north of Chicago, including all points on highways and that portion of the commercial zone of Chicago in Indiana within this area, over irregular routes; (3) between all points on regular routes stated in appendix II over said routes, including commercial areas stated in appendix I of the States of Illinois, Indiana, Kentucky, Michigan, Ohio, and Wisconsin, with exceptions; also serving points between junction Interstate Highway 94 (formerly portion of U.S. Highway 12) and Michigan Highway 40 over Michigan Highway 40 to Niles, and (4) between points in commercial and suburban areas stated in the findings 1 and 2 above, and all points on regular routes, on the one hand, and certain specified points in Ohio, and Coal City, Ill., on the other, limited to truckloads only, over irregular routes; (Appendix I Points included in suburban areas (1) with Milwaukee, Wis., certain specified suburban and intermediate points, (2) with Chicago, Ill., certain specified suburbs in Illinois and Indiana, and intermediate points, (3) with Cincinnati, Ohio, certain specified suburban and intermediate points; also certain specified points in Kentucky, (4) with Detroit, Mich., certain specified suburban and intermediate points;) (Appendix II Regular Routes, Route 1, between Chicago, Ill., and Milwaukee, Wis., Route 2, between Chicago, Ill., and certain specified points in Michigan, Route 3, between Chicago, Ill., and Cincinnati, Ohio, Route 4, between Chicago, Ill., and Dayton, Ohio;) *iron and steel* and *articles* made thereof, over irregular routes, between Detroit, Mich., and Warren and Youngstown, Ohio; *roofing* and *roofing materials*, between Cleveland, Ohio, on the one hand, and, on the other, certain specified points in Michigan (except Detroit); and *road finishing machines*, from Warren, Ohio, to points in Michigan. MICHIGAN EXPRESS, INC., is authorized to operate as a *common carrier* in all States in the United States (except Alaska and Hawaii) and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–9857. Authority sought for purchase by INTERLINES-BLANKENSHIP MOTOR EXPRESS, 2600 Eighth Street, Berkeley, Calif. 94710, of the operating rights and property of LOM THOMPSON, doing business as THOMPSON TRUCK LINES, 1315 South Fourth Street, El Centro, Calif. 92243, and for acquisition by M. D. GILLARDY, L. A. DORE, JR., and E. R. PRESTON, all also of Berkeley, Calif., of control of such rights and property through the purchase. Applicants' attorneys: Bertram S. Silver, 140 Montgomery Street, San Francisco, Calif. 94104, and Frank Turcotte, Suite 6, 73640 Highway 111, Palm Desert, Calif. 92260. Operating rights sought to be transferred: *Farm products, fertilizer, prepared animal and poultry foods, farm machinery, bale ties*, and *petroleum products*, in drums and cases, as a *common carrier*, over regular routes, between Winterhaven, Calif., and Los Angeles, Calif., serving all intermediate points, and off-route points within 50 miles of Los Angeles, points in California within 50 miles of Yuma, Ariz., and points in California within 25 miles of certain specified routes; and under a certificate of registration, in No. MC–92234, Sub-4, covering the transportation of general commodities, as a common carrier, in intrastate commerce, within the State of California. Vendee is authorized to operate under a certificate of registration within the State of California. Application has been filed for temporary authority under section 210a(b). NOTE: See also MC–F–9859 (INTERLINES-BLANKENSHIP MOTOR EXPRESS—Purchase—SAN DIEGO-IMPERIAL EXPRESS, INC.), published this same issue.

No. MC–92327, Sub-4 is a matter directly related, also including a motion to dismiss.

No. MC–F–9858. Authority sought for purchase by ALL-AMERICAN TRANSPORT, INC., 1500 Industrial Avenue, Post Office Box 769, Sioux Falls, S. Dak., of the operating rights and property of DENNIS TRUCK LINE, INC., 1500 West 33d Street, Chicago, Ill. 60608, and for acquisition by BUFFALO EXPRESS, INC., and, in turn by H. LAUREN LEWIS, both also of Sioux Falls, S. Dak., of control of such rights and property through the purchase. Applicants' attorneys: Axelrod, Goodman & Steiner, 39 South La Salle Street, Chicago, Ill. 60603, and Peter V. Fazio, 111 West Monroe Street, Chicago, Ill. 60603. Operating rights sought to be transferred: *General commodities*, excepting, among others, household goods and commodities in bulk, as a *common carrier*, over regular routes, between Chicago, Ill., and Cincinnati, Ohio, and Louisville, Ky., serving certain intermediate points, unrestricted; and to and from intermediate and off-route points in the Chicago, Ill., commercial zone, as defined by the Commission in 1 M.C.C. 673, and those in the Cincinnati, Ohio, commercial zone, as defined by the Commission in 26 M.C.C. 49 and 41 M.C.C. 227, restricted against the transportation of malt beverages and empty malt beverage containers; between Hammond, Ind., and the junction of U.S. Highways 41 and 6 and Indiana Highway 152, serving no intermediate points; over one alternate route for operating convenience. Vendee is authorized to operate as a *common carrier* in Minnesota, South Dakota, Iowa, Nebraska, Illinois, North Dakota, and Wisconsin. Application has been filed for temporary authority under section 210a (b). NOTE: F.D. 24699 is a matter concurrently filed.

No. MC–F–9859. Authority sought for purchase by INTERLINES-BLANKENSHIP MOTOR EXPRESS, 2600 Eighth Street, Berkeley, Calif. 94710, of the operating rights and property of SAN DIEGO-IMPERIAL EXPRESS, INC., 1950 Newton Street, San Diego, Calif., and for acquisition by M. D. GILARDY, L. A. DORE, JR., and E. R. PRESTON, all also of Berkeley, Calif., of control of such rights and property through the purchase. Applicants' attorneys: Bertram S. Silver, 140 Montgomery Street, San Francisco, Calif. 94104, and Frank Turcotte, Suite 6, 73640 Highway 111, Palm Desert, Calif. 92260. Operating rights sought to be transferred: Under a certificate of registration, in No. MC–121243 Sub 1, covering the transportation of general commodities, as a common carrier in intrastate commerce, within the State of California. Vendee is authorized to operate under a certificate of registration within the State of California. Application has been filed for temporary authority under section 210a(b). NOTE: See also MC–F–9857 (INTERLINES-BLANKENSHIP MOTOR EXPRESS—PURCHASE-LOM THOMPSON), published this same issue.

No. MC–92327 Sub 4 is a matter directly related, also including a motion to dismiss.

No. MC–F–9861. Authority sought for control and merger by HYMAN FREIGHT TRANSIT, INC., 2690 Prior Avenue North, St. Paul, Minn. 55113, of the operating rights and property of (1) HYMAN TRANSPORTATION COMPANY, 2690 Prior Avenue North, St. Paul, Minn. 55113, and (2) EUGENE PIKOVSKY, doing business as FREIGHT TRANSIT CO., 2690 Prior Avenue North, St. Paul, Minn. 55113, and for acquisition by EUGENE PIKOVSKY, also of St. Paul, Minn., of control of such rights and property through the transaction. 5-Year Compilations of Presidential Documents

Supplements to Title 3 of the Code of Federal Regulations

The Supplements to Title 3 of the Code of Federal Regulations contain the full text of proclamations, Executive orders, reorganization plans, trade agreement letters, and certain administrative orders issued by the President and published in the Federal Register during the period June 2, 1938–December 31, 1963. Tabular finding aids and subject indexes are included. The individual volumes are priced as follows:

1938–1943 Compilation* **1949–1953 Compilation—$7.00**

1943–1948 Compilation—$7.00 **1954–1958 Compilation—$4.00**

1959–1963 Compilation—$6.00

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, U.S. Government Printing Office Washington, D.C. 20402

* Temporarily out of print

FEDERAL REGISTER

Area Code 202 Phone 963-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15 per year, payable in advance. The charge for individual copies varies in proportion to the size of the issue (15 cents for the first 80 pages and 5 cents for each additional group of 40 pages, as actually bound). Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

Contents

Homeworkers in certain industries in Puerto Rico; minimum piece rate increases 12178

List of CFR Parts Affected

(Codification Guide)

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1967, and specifies how they are affected.

SUBCHAPTER K—FEDERAL SEED ACT

PART 201—FEDERAL SEED ACT REGULATIONS

Miscellaneous Amendments of Joint Regulations of the Secretary of the Treasury and Secretary of Agriculture

On January 17, 1967, there was published in the FEDERAL REGISTER (32 F.R. 454) a notice of rule making and hearing with respect to proposed amendments to the rules and regulations (7 CFR Part 201, as amended) under the Federal Seed Act, as amended (7 U.S.C. 1551 et seq.). On February 8, 1967, there was published in the FEDERAL REGISTER (32 F.R. 2644) a notice of extension of the hearing. After consideration of all relevant matters presented at the hearing and in writing, pursuant to said notice, and under authority of section 402 of the Federal Seed Act (7 U.S.C. 1592) the proposed amendments are adopted as set forth below.

1. Section 201.208(a) is amended by deleting "Mustard" and inserting in alphabetical order "Mustard, India" and by adding in alphabetical order the following names:

Broadbean.	Pepper.
Guar.	Pumpkin.
Lentil.	Rape, annual.
Lettuce.	Rape, bird.
Lupine.	Rape, turnip.
Millet, foxtail.	Rape, winter.
Millet, proso.	Sorghum.
Parsley.	Vetch.
Pea.	Watermelon.
Pea, field.	

2. Section 201.218 is amended by inserting before the proviso the following ", except for those lots not tested for pure live seed due to application of statistical inspection techniques as provided in section 302(a) of the Act,".

3. Section 201.221 is amended as follows:

a. In paragraph (c) delete the last sentence, including the declaration form, and substitute the following: "The declaration required to be filed shall be substantially as shown in paragraph (d) of this section."

b. A new paragraph (d) is added as follows:

(d) *Seed for seed production only.* Any lot of seed imported for sowing for seed production only, by or for the importer or consignee, and not to be sold within the United States is not subject to the prohibition against the importation of seed that is (1) adulterated or unfit for seeding purposes because of low pure live seed, or (2) required to be stained: *Provided*, That a declaration is filed by the importer with the Seed Branch, Grain Division, Consumer and Marketing Service, U.S. Department of Agriculture, substantially as specified below:

DECLARATION

SEED FOR EXPERIMENTAL OR BREEDING PURPOSES OR SEED FOR SEED PRODUCTION ONLY

The undersigned declares: That he is a resident of _____; that he is (Street, city, and State)
(owner of) (employed by) the firm of _____ (as a _____); that he (is) (represents) the (owner) (consignee) of the _____ pounds of _____ seed offered for importation at _____ under entry No. _____ (Kind of seed) (Port of entry)
and contained in _____ bags or containers marked _____ as described in invoice No. _____ dated _____; that said seed is being imported for (making selections, crosses, or tests, or for other experimental or breeding purposes) or (seed production only) and will not be sold.

Signed _____

Date: _____

4. Section 201.221a, *Table 4*, is amended as follows:

a. Change "Table 4" to read "Table 5" and in the first column under "Agricultural seed" and "Vegetable seed" delete the following names of kinds of seed wherever they appear and delete the numbers with respect thereto in the other columns.

Bentgrass or.	Sweetclover or.
Mustard.	Vetch or.
Panicgrass.	Wheat or.

b. Insert the following in proper order with respect to

"AGRICULTURAL SEEDS"

Barrelclover	25	100
Bluegrass, Nevada	25	100
Mustard, India	25	100
Panicgrass, blue	25	100

c. Insert the following in proper order with respect to—

"VEGETABLE SEEDS"

Bean, garden	100	500
Mustard, India	25	100

5. Section 201.222 is amended as follows:

a. Reword the section heading to read "Declaration of purpose; labeling as to kind, variety, hybrid, and treatment."

b. Delete the name "Mustard" in paragraph (b) and insert "Mustard, India".

c. Delete paragraph (b) and add in alphabetical order the kinds of seeds listed in present (b) to the list in paragraph (a).

d. Delete the existing paragraph (e) and add new paragraphs (e) and (f) as follows:

(e) The invoice and any other labeling pertaining to agricultural or vegetable seed offered for importation shall bear the lot identification, the name of each kind and variety of vegetable seed present, or kind or kind and variety of agricultural seed present, in excess of 5 percent of the whole, and the designation "hybrid" when it is hybrid seed as defined under § 201.2(y).

(f) Any agricultural seed or mixture thereof or any vegetable seed or mixture thereof offered for importation for seeding purposes that has been treated shall be labeled as provided in § 201.31(a) of the regulations of the Secretary of Agriculture.

The amendments are substantially the same as those set forth in the notice of proposed rule making. Therefore, pursuant to administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that further notice of rule making and public procedure on the amendments are unnecessary.

Effective date. The amendments of the regulations as hereby adopted shall become effective 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 18th day of August 1967.

JOSEPH W. BARR,
Acting Secretary of the Treasury.

GEORGE L. MEHREN,
Assistant Secretary of Agriculture.

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

PART 922—APRICOTS GROWN IN DESIGNATED COUNTIES IN WASHINGTON

Expenses and Rate of Assessment

On July 19, 1967, notice of proposed rule making was published in the FEDERAL REGISTER (32 F.R. 10579) regarding proposed expenses and the related rate of assessment for the period April 1, 1967, through March 31, 1968, and on August 4, 1967, notice of proposed rule making was published in the FEDERAL REGISTER (32 F.R. 11333) regarding the approval of carryover of unexpended funds from the fiscal period ended March 31, 1967, pursuant to the marketing agreement, as amended, and Order No. 922, as amended (7 CFR Part 922), regulating the handling of apricots grown in designated counties in Washington. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of

all relevant matters presented, including the proposals set forth in such notices which were submitted by the Washington Apricot Marketing Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 922.207 Expenses and rate of assessment.

(a) Expenses: Expenses that are reasonable and likely to be incurred by the Washington Apricot Marketing Committee during the period April 1, 1967, through March 31, 1968, will amount to $3,644.

(b) Rate of assessment: The rate of assessment for said period, payable by each handler in accordance with § 922.41, is fixed at $0.50 per ton of apricots.

(c) Unexpended assessment funds, in excess of expenses incurred during the fiscal period ended March 31, 1967, shall be carried over as a reserve in accordance with the applicable provisions of § 922.42 of said marketing agreement and order.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of apricots grown in the designated counties in Washington are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable apricots handled during the aforesaid period; and (3) such period began on April 1, 1967, and said rate of assessment will automatically apply to all such apricots beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 18, 1967.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 67-9068; Filed, Aug. 23, 1967; 8:49 a.m.]

PART 923—SWEET CHERRIES GROWN IN DESIGNATED COUNTIES IN WASHINGTON

Expenses and Rate of Assessment

On July 19, 1967, notice of proposed rule making was published in the FEDERAL REGISTER (32 F.R. 10579) regarding proposed expenses and the related rate of assessment for the period April 1, 1967, through March 31, 1968, and on August 4, 1967, notice of proposed rule making was published in the FEDERAL REGISTER (32 F.R. 11333) regarding the approval of carryover of unexpended funds from the fiscal period ended March 31, 1967, pursuant to the marketing agreement and Order No. 923 (7 CFR Part 923) regulating the handling of sweet cherries grown in designated counties in Washington. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notices which were submitted by the Washington Cherry Marketing Committee (established pursuant to said marketing agreement and order) it is hereby found and determined that:

§ 923.207 Expenses and rate of assessment.

(a) Expenses: Expenses that are reasonable and likely to be incurred by the Washington Cherry Marketing Committee during the period April 1, 1967, through March 31, 1968, will amount to $12,484.

(b) Rate of assessment: The rate of assessment for said period, payable by each handler in accordance with § 923.41 is fixed at $0.80 per ton of sweet cherries.

(c) Unexpended assessment funds, in excess of expenses incurred during the fiscal period ended March 31, 1967, shall be carried over as reserve in accordance with the applicable provisions of § 923.42 of said marketing agreement and order.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of sweet cherries grown in the designated counties in Washington are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable cherries handled during the aforesaid period; and (3) such period began on April 1, 1967, and said rate of assessment will automatically apply to all such cherries beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 18, 1967.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 67-9069; Filed, Aug. 23, 1967; 8:49 a.m.]

PART 980—VEGETABLES; IMPORT REGULATIONS

Onions

Findings. (a) Notice of rule making regarding proposed restrictions on the importation of onions into the United States to be made effective under section 8e–1 of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 608e–1), was published in the August 3, 1967, FEDERAL REGISTER (32 F.R. 11281). The notice afforded interested persons an opportunity to file data, views, or arguments in regard thereto not later than the 15th day after publication. None was filed. After consideration of all relevant matters, including the proposal set forth in the aforesaid notice, and other available information, it is hereby found that the proposal as published in the notice should be issued and that such restrictions on the importation of onions, as hereinafter provided, comply with the grade, size, quality and maturity requirements applicable to onions produced in the United States, and effective under Marketing Order No. 958 (7 CFR Part 958) regulating the handling of onions grown in designated counties of Idaho and eastern Oregon. This regulation is subject to amendment with adequate notice as domestic regulations are changed.

(b) It is hereby further found that good cause exists for not postponing the effective date of this regulation beyond the time specified (5 U.S.C. 553) in that (1) the requirements established by this regulation are mandatory under section 8e–1 of the act; (2) all known onion importers were notified of the proposed regulation; and (3) notice hereof was published in the August 3, 1967, FEDERAL REGISTER (32 F.R. 11281), and such notice is determined to be reasonable.

§ 980.106 Onion import regulation.

Except as otherwise provided, during the period September 1, 1967, through June 15, 1968, no person may import dry onions of the yellow or white varieties unless such onions are inspected and meet the requirements of this section.

(a) *Minimum grade and size requirements*—(1) *yellow varieties*—(i) *Grade.* U.S. No. 2 or better grade.

(ii) *Size.* 2 inches minimum diameter.

(2) *White varieties*—(i) *Grade.* U.S. No. 2 or better grade.

(ii) *Size.* 1 inch minimum diameter.

(b) *Condition.* Due consideration shall be given to the time required for transportation and entry of onions into the United States. Onions with transit time from country of origin to entry into the United States of 10 or more days may be entered if they meet an average tolerance for decay of not more than 5 percent, provided they also meet the other requirements of this section.

(c) *Minimum quantity.* Any importation which in the aggregate does not exceed 100 pounds in any day, may be imported without regard to the provisions of this section.

(d) *Plant quarantine.* Provisions of this section shall not supersede the restrictions or prohibitions on onions under the Plant Quarantine Act of 1912.

(e) *Designation of Governmental inspection service.* The Federal or the Federal-State Inspection Service, Fruit and Vegetable Division, Consumer and Marketing Service, U.S. Department of Agriculture, and the Fruit and Vegetable Division, Production and Marketing Branch, Canada Department of Agriculture, are designated as governmental inspection services for certifying the grade, size, quality and maturity of onions that are imported into the United States under the provisions of section 8e–1 of the act.

(f) *Inspection and official inspection certificates.* (1) An official inspection certificate certifying the onions meet the U.S. import requirements for onions under section 8e–1 (7 U.S.C. 608e), issued by a designated governmental inspection service and applicable to a specific lot is required on all imports of onions.

(2) Inspection and certification by the Federal or Federal-State Inspection Service will be available and performed in accordance with the rules and regulations governing certification of fresh fruits, vegetables and other products (Part 51 of this title). Each lot shall be made available and accessible for inspection as provided therein. Cost of inspection and certification shall be borne by the applicant.

(3) Since inspectors may not be stationed in the immediate vicinity of some smaller ports of entry, importers of onions should make advance arrangements for inspection by ascertaining whether or not there is an inspector located at their particular port of entry. For all ports of entry where an inspection office is not located, each importer must give the specified advance notice to the applicable office listed below prior to the time the onions will be imported.

Ports	Office	Advance notice
All Texas points.	W. T. McNabb, Post Office Box 111, 223 McClendon Bldg., 304 East Jackson St., Harlingen, Tex. 78550 (Phone—415—Garfield 3-6964-7260).	1 day.
All Arizona points.	R. H. Bertelsen, 128 Grand Ave., Post Office Box 1314, Nogales, Ariz. 85621 (Phone—282—Advance 7-2022).	Do.
All California points.	Carley D. Williams, 201 Wholesale Terminal Bldg., 784 South Central Ave., Los Angeles, Calif. 90021 (Phone—213-628-6756).	5 days.
All Hawaii points.	Stevenson Ching, 1428 South King St., Pawaa Substation, Post Office Box 9625, Honolulu, Hawaii 96814 (Phone—6-5021).	1 day.
New York City.	Edward J. Baller, 346 Broadway, Room 809, New York, N.Y. 10013 (Phone—212-264-1130).	Do.
New Orleans.	Pascal J. Lamarca, 2027 Federal Office Bldg., 701 Loyola Ave., New Orleans, La. 70113 (Phone—504-527-6742-6747).	Do.
All other points.	D. S. Matheson, Fruit and Vegetable Division, Consumer and Marketing Service, Washington, D.C. 20250 (Phone—388-Dudley 9-5870).	5 days.

(4) Inspection certificates shall cover only the quantity of onions that is being imported at a particular port of entry by a particular importer.

(5) In the event the required inspection is performed prior to the arrival of the onions at the port of entry, the inspection certificate that is issued must show that the inspection was performed at the time of loading such onions for direct transportation to the United States; and if transportation is by water, the certificate must show that the inspection was performed at the time of loading onto the vessel.

(6) Each inspection certificate issued with respect to any onions to be imported into the United States shall set forth, among other things:

(i) The date and place of inspection;

(ii) The name of the shipper, or applicant;

(iii) The commodity inspected;

(iv) The quantity of the commodity covered by the certificate;

(v) The principal identifying marks on the containers;

(vi) The railroad car initials and number, the truck and trailer license number, the name of the vessel, or other identification of the shipment; and

(vii) The following statement, if the facts warrant:

Meets U.S. import requirements under section 8e–1 of the Agricultural Marketing Agreement Act.

(g) *Reconditioning prior to importation.* Nothing contained in this part shall be deemed to preclude any importer from reconditioning prior to importation any shipment of onions for the purpose of making it eligible for importation.

(h) *Definitions.* For the purpose of this section, "Onions" means all varieties of Allium cepa marketed dry, except dehydrated, canned and frozen onions, onion sets, green onions, and pickling onions. Onions commonly referred to as "braided" that is, with tops, may be imported if they meet the grade and size requirements except for top length. The terms "U.S. No. 1," and "U.S. No. 2" shall have the same meaning as set forth in the U.S. Standards for Grades of Onions (Other than Bermuda-Granex and Creole Types), §§ 51.2830–51.2854 of this title. Tolerances for size shall be those in the U.S. Standards. Onions meeting the requirements of Canada No. 1 and No. 2 grades shall be deemed to comply with the requirements of U.S. No. 1 and U.S. No. 2 grades. "Importation" means release from custody of the U.S. Bureau of Customs.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 18, 1967, to become effective September 1, 1967.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 67-9070; Filed, Aug. 23, 1967; 8:49 a.m.]

PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Order Amending Order, as Amended, Regulating Handling

It is hereby ordered that on and after the effective date hereof all handling of raisins produced from grapes grown in California shall be in conformity to, and in compliance with, the Order Regulating the Handling of Raisins Produced from Grapes Grown in California, as amended (Order No. 989, as amended; 7 CFR Part 989), and as further amended by the "Order Amending the Order, as Amended, Regulating the Handling of Raisins Produced from Grapes Grown in California" which was approved to and made a part of the decision of the Secretary of Agriculture, issued July 21, 1967 (F.R. Doc. 67-8965; 32 F.R. 11226), with respect to proposed amendment of the marketing agreement, as amended, and order, as amended, regulating the handling of such raisins. All of the findings, determinations, terms, and conditions of the aforesaid amendatory order shall be, and the same hereby are, the findings, determinations, terms, and conditions of this order as if set forth in full herein. It is hereby further ordered that, for convenient reference, there be set forth hereinafter in amended form, as applicable, the various texts of the codified portion of said Order No. 989, as amended (7 CFR Part 989) and as further amended by the aforesaid amendatory order, together with the aforesaid findings and determinations as herein supplemented.

§ 989.0 Findings and determinations.

(a) *Previous findings and determinations.* The findings and determinations hereinafter set forth are supplementary, and in addition, to the findings and determinations made in connection with the issuance of the order and each previously issued amendment thereof; and all of said prior findings and determinations are hereby ratified and affirmed. (For prior findings and determinations, see 14 F.R. 5136; 20 F.R. 4435; 21 F.R. 8182; 25 F.R. 12814; 28 F.R. 9482.)

(b) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and the applicable rules of practice and procedure effective thereunder (7 CFR Part 900), a public hearing was held in Fresno, Calif., on April 24–27, 1967, on a proposed amendment of the marketing agreement, as amended, and Order No. 989, as amended (7 CFR Part 989), regulating the handling of raisins produced from grapes grown in California. On the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said order, as amended and as hereby further amended, regulates the handling of raisins produced from grapes grown in California in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, the marketing agreement and order upon which hearings have been held;

(3) There are no differences in the production and marketing of raisins in the production area covered by the order, as amended and as hereby further amended, which require different terms applicable to different parts of such area;

(4) The said order, as amended and as hereby further amended, is limited in application to the smallest regional production area which is practicable, consistently with carrying out the declared

policy of the act, and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act; and

(5) All handling of raisins produced from grapes grown in California is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.
